3. Rule as that of divine revelation; divinity; theology.

Help us to save free consciences from the paw
Of hireling wolves, whose *gospel* is their maw.
Milton, Sonnet to Cromwell.

4. General doctrine.

The propounders of this political *gospel* are in
hopes their abstract principle would be overlooked.
—*Harbs.*

Gospel. v. a. Teach the Gospel; fill with the principles of Christianity. Rare.

Are you so *gospel'd*?
To pray for this good man, and for his sons,
Whose heavy hand hath bow'd you to the grass?
Shakespeare, Merchant, iii. 1.

Gospeller. adj. Theological. Rare.

Let any man judge, how well those *gospellers*
principles of our predestinarians agree with the
practice and doctrine of the holy apostles.—*The Cloak in its Colours*, p. 8: 1679.

Gospeler. s.

1. Historian of the acts of Christ; i.e. evangelist, which word it translates: (used in this sense by the reformers of the school of Wycliffe, but when applied to one whose faith was founded upon the Scriptures direct, rather than upon the current interpretations of them and to the advocates of private judgement as opposed to the authoritative interpretation of the Church, invested with a disparaging import; though, in many cases, this lies in some adjective with which it is combined); Bible Christian.

Our new *gospelers* do spurn and kick against
it.—*Martin, Marriage of Priests*, sign. Q. iii. b: 1554.

What, in Juvenius became so tame,
To be a new *gospeller*?

Old Morality of Lady Juvenius.

That as well the catholics with the *gospellers*, as
they again with the catholics, be and remain in
true and unfeigned peace.—*Avers of Uta, Sir H.*

How much have we declined from that zeal and
love, which our Fathers bore to the Reformation!
There were two things that were visible in the
practice of those who first embraced it among us: the
one was the great pleasure they took in reading the
Scriptures, from whence they were in derision called
gospellers.—*Bishop Burnet, First Sermon*: 1689.

These *gospellers* have had their golden days,
Have trodden down our holy Roman faith.
Brown, Jane Shore.

2. One who reads the Gospel at the altar.

These be my *gospellers*,
These be my pistillars,
These be my quivers.
Skellon, Poems, p. 113.
The principal minister using a decent cope, and
being adorned with the *gospeller* and epistler.—
Constitutions and Canons Ecclesiastical, &c.

Gospelize. v. a. Form according to the gospel. Rare.

This essayist, thus *gospelized* to us, hath the
same force with that wherein Kara grounded the
plain necessity of divorcing.—*Milton, Doctrine and Discipline of Divorce*.

Goss. s. Same as Gorse, of which it is an inaccurate form.

Goss-like, they my lowing followed, through
Tooth'd briars, sharp furzes, prickling goss, and
thorns.
Shakespeare, Troilus, iv. 1.

Gossamer. s. [see extract from Wedgwood.]

Light filmy threads either floating in the
air, or stretched from blade to blade along
the grass: (common in summer). They
are the delicate webs of either spiders or
moths. Such is the true gossamer. Less

properly it is applied to the fine floating
dust, especially that which is seen along
the line of a ray of light in a partially
darkened room; as, also, to the small
scutes (farina or dust) of the wings of the
Lepidoptera, i.e. the moths and butterflies.

A lover may bestride the *gossamer*
That idles in the wanton summer air,
And yet not fall; so light is vanity!

Four nimble gossamer guides the horses were,
Their harnesses of gossamer. *Drayton, Nymphidia*.
The filmy *gossamer* now sits no more,
Nor haleyuns back on the short sunny shore.

Dryden, Translation of Virgil.
[*Gossamer*.—Properly God-summer. (German, *der summer*, *diegend* *g-fiden* (summer-roads), *Marlen fiden*, *Unser lieben Frauen fiden*, from the legend that the *gossamer* is the remnant of our Lady's winding-sheet, which fell away in fragments when she was taken up to heaven. It is this divine origin which is indicated by the first syllable of the English term. In like manner the Lady-cow is in Brittany la *petite vache du bon Dieu*, in German *Marlen-kühe*, or *Gottes kuhlin*.—*Wedgwood, Dictionary of English Etymology*.]

Gossamer. adj. Having the character of, consisting of, or abounding in, gossamer; light; filmy; unsubstantial.
Filmy, gawzy, gossamery lines.
With lucid language, and most dark designs.
Paraphrase of Literature, pt. i. ver. 83.

Gossip. s. [A.S. *God sib* = relationship.]
Relation in the way of sponsorship in baptism; in its fullest import embracing the Godfather, the Godmother, and the God-child, limited, however, for the most part to the mother.

1. One who answers for the child in baptism.

Our christian ancestors, understanding a spiritual
ability to grow between the parents and such as
undertook for the child at baptism, called each
other by the name of *godfathers*, which is as much as to
say, that they were sibs together, that is, of kin to-
gether through God. And the child, in like manner,
called such his (god-fathers, or god-mothers.—*Veralegan, Reformation of decayed Intelligence*.
Go to a *gossip's* feast, and go with me;
After so long grief, such nativity.

Shakespeare, Comedy of Errors, v. 1.
At the christening of George, Duke of Clarence,
who was born in the castle of Dublin, he made both
the earl of Kildare and the earl of Ormond his
gossips.—*Sir J. Davies, Diaconus on the State of*

2. From either the actual bond between gossips, or the feasting and good neighbourhood which christenings caused, come the following secondary meanings.

a. Friend or neighbour.

One mother, whereas her foolishly child
Did come too near, and with his talons play'd,
Half dead through fear, her little babe reviv'd,
And to her *gossips* ran in counsel say:
How can I tell?

Spenser, Faerie Queene.
A woman said to her neighbour, Alas, *gossip*, what
should we now do at church, where all our saints are
taken away?—*Humily, Of Place and Times of Prayer*.
During the time which elapsed between this dis-
solution and the meeting of the next parliament,
took place the celebrated negotiation respecting the
Infants. The would-be despot was unmercifully
hewntaken. The would-be Solomon was ridicu-
lously over-reach'd. Stevenia, in spite of the begging
and sobbing of his dear dad and *gossip*, carried off
baby Charles in triumph to Madrid. The sweet
lads, as James called them, came back safe, but
without their errand. The great master of king-
craft, in looking for a Spanish match, had found a
Spanish war.—*Macaulay, Critical and Historical Essays*, Lord Nugent's Memorials of Hampden.

b. Tippling companion.

And sometimes lurk I in a *gossip's* bowl,
In very likeness of a roasted crab,
And when she drinks, against her lips I bob.
Shakespeare, Midsummer-Night's Dream, ii. 1.

c. Tatler; idle talker; news-monger.

To do the office of a neighbour,
And be a *gossip* at his labour. *Butler, Hudibras*.
"Tis sung in every street,
The common chat of *gossips* when they meet.

Dryden.
First, whispering *gossips* were in parties seen;
Then louder scandal walked the village green;
Next babbling folly told the growing ill,
And busy Malice dropt it at the mill.

Crabbe, The Parish Register.

d. Tattle of gossips.

'I wonder who will be their Master of the Horse,'
said the great noble, loving *gossip* though he de-
spised the *gossiper*.—*Dierstedt the younger, Comings-
by*, b. ii. ch. iv.

Gossip. v. n. Chat; prate; be merry.

(Go to a *gossip's* feast, and go with me. . . .
—With all my heart, I'll *gossip* at this feast.

Shakespeare, Comedy of Errors, v. 1.
His mother was a votress of my order,
And, in the spleen'd Indian air by night,
Full often hath she *gossiped* by my side.

Id., Midsummer-Night's Dream, ii. 2.
Such swarms of men that had renounced their
virility, and led an idle life, as went madding and
gossiping up and down, telling odd stories to the
people, as old wives and nurses do to children.—*Dr.*

H. More, Reformation of the Seven Churches, pref.

Gossip. s. One who gossips.

(For example see under *Gossip*, s. 2. d.)

Gossiping. part. adj. Having the character of a gossip, or of one who gossips.

He gives himself up to an idle *gossiping* conver-
sation.—*Lawe*.

Gossiping. verbal abs. Going about to collect or report mere tattle; meeting of gossips.

Nor met with fortune other than at feasts,
Full warm of blood, of mirth, of *gossiping*.
Shakespeare, King John, v. 2.

Let not customary sloppiness make us unwieldy
for any thing but *gossipings*.—*Bishop Rainsford*,
Sermons, p. 40: 1633.

'Tis possible to go into a unassuming company,
where 'twill be as hard to elude in a word as at a
frivolous *gossiping*.—*Dr. H. More, Government of the*

Tongue, p. 73.
The market and exchange must be left to their
own ways of talking, and *gossipings* not be robbed of
their ancient privilege.—*Locke*.

Gossipred. s. [A.S. *rele* = counsel.]

Gossipred or compaternity, by the canon law, is a
spiritual affinity; and the juror that was *gossip* to
either of the parties might, in former times, have
been challenged as not indifferent.—*Sir J. Davies*,
Diaconus on the State of Ireland.

Gossoin. s. [Gaelic.] Laid, a low attendant formerly in the wealthy families of Ireland. Irish rather than English.

In most Irish families there used to be a bare-
footed *gossain*, who was slave to the cook and the
butler, and who in fact, without wages, did all the
hard work of the house. *Gossains* were always
employed as messengers.—*Miss Edgeworth, Castle*

Rackrent, p. 33.

Goth. s. In its historical and ethnological
sense a proper rather than a common
name, signifying that portion of the so-
called barbarians who overthrew the Ro-
man empire, especially those under Alaric
and Theodoric, and those who were the
most closely connected with the Vandals.
Hence, barbarous; barbarian; uncivilized
person; enemy to the fine arts; one desti-
tute of taste: (Vandal being used in the
same sense).

I look upon these writers as *Goths* in poetry.—
Addison, Spectator, no. 62.

What do you think of the late extraordinary event
in Spain? Could you have ever imagined, that those
ignorant *Goths* would have dared to banish the
Jesuits?—*Lord Chesterfield*.

Gothamite. s. Gothamite.

As the scholars in their tales, even so the Roman
writers have no defective in uttering of their
meaning:—*ring the same speech of Christ*, that
they have merited, like to the former *Gothamites*,
to be dismissed with laughter for speaking so foolishly.
—*Bishop Morton, Discharge of the Fine Inspec-
tions against the Bishop of Durham*, p. 123: 1653.

Gothamite. s. Man of Gotham, a village
in Nottinghamshire noted for the real or
supposed simplicity of its inhabitants, who
were sometimes called the 'Wise men of
Gotham.'

These were dizzards, fools, *gothamites*.—*Lamb*,
Curious Fragments.

Gothic. adj. Relating to, connected with, or derived from, the Goths.

a. In a bad sense.

We are to have no manner of relief for *Gothique*
ornaments, as being in effect so many monsters,
which barbarous ages have produced.—*Dryden*,
Translation of De Prouvoy's Art of Painting.
(Ord MS.)

All that has nothing of the ancient gusto is called a
barbarous or *Gothique* manner, which is not con-
ducted by any rule, but only follows a wretched

fancy which has nothing in it that is noble.—*Id.*
Observations on Du Fresnoy's Art of Painting.
(Ord. MS.)

When do you dine, Emilia? At the old Gothic hour of four o'clock, I suppose.—*Emilia Wyndham*, ch. xxi.

G. Import good or indifferent: (generally applied to Architecture; in which case it is a proper, rather than a common, name).

York minister I look upon to be the criterion, according to which the beauties or defects of every Gothic church are to be estimated.—*Swinhurne*, *Thru through Spain*, let. 44.

There is nothing in this city [Sienna] so extraordinary as the cathedral, which . . . can only be looked upon as one of the master-pieces of Gothic architecture.—*Addison*, *Travels in Italy*.

The old foundation—but it is not clear when it was laid, you care not for the year; On this, as parts decay'd by time and storms, Across these varied disproportion'd forms: Yet Gothic, all the learn'd who visit us (And our small wonders) have decided thus: 'You ruble Gothic arch,' 'That Gothic door.' So have they said: of proof you'll need no more.

Crabbe, The Borough.
The name of Gothic has ascended from its primal meaning, that of utter contempt, to the highest honour; it is become conventional for the architecture of the middle ages, and commands a kind of traditional reverence. Perhaps Teutonic, or at least Transalpine, might be a more fit appellation. It was born, and reached its maturity and perfection north of the Alps. Gothic, properly so called, is a stranger and an alien in Italy.—*Milman*, *History of Latin Christianity*, b. xiv. ch. ii.

Gothicism. *s.*

1. Gothic idiom.

This peculiarity Mr. Sibbald, the chronicler of the Scottish poetry, in his seal for *Gothicism*, has endeavoured to derive from an unknown character (O) in the Gothic Gospels of Ulphilas, which were written in the fourth century.—*Chalmers*, *On the Language of Sir David Lindsay*.

2. Conformity to Gothic architecture.

I am glad you enter into the spirit of Strawberry Castle, it has a purity and propriety of *Gothicism* in it.—*Gray*, *Letters*.

3. State of barbarians, after the manner of the Goths.

Night, *Gothicism*, confusion, and absolute Chaos are come again.—*Shenstone*.

Gothicize. *v. a.* Bring back to barbarism.

The language and manners of the higher ranks are not *gothitized*.—*Strutt*, *Queen-Hoo Hall*.

Gouge. *s.* [Fr.] Chisel having a round edge, for the cutting of such wood as is to be rounded or hollowed.

Gouges or semicircular chisels have been found in Iceland.—*Festbrooks*, *Cyclopedia of Antiquities*.

Gouge. *v. a.* Scoop out as with a gouge.

I will save in cork,
In my meek stop'ling, 'bove three thousand pound,
Within that term; by *gouging* of 'em out
Just to the size of my bottles, and not ailing.

B. Jonson, *Devil is an Ass*.

Goutjeers. *s.* [?] Veneral disease. *Obsolete*.

The *goutjeers* shall devour them, flesh and fell.
Shakespeare, *King Lear*, v. 2.

Goutland. *s.* Flower so called; probably the same as *gowan*—daisy; which is Scotch rather than English.

Pinks, *goutlands*, king-cups, and sweet sops-in-wine.
B. Jonson, *Masques*.

Goulard. *s.* [short for *Goulard's extract*.]

Preparation of lead, so called from M. Goulard, the inventor of it, used as a cooling application for inflammations, bruises, sprains, and the like.

Goulard's extract [is] a saturated solution of acetate of lead.—*Hooper*, *Medical Dictionary*.

There is also a Goulard's Cerate.

Gourd. *s.* [Fr. *gourda*.] Cucurbitaceous plant so called: (i.e. one akin to the cucumbers, melons, and pumpkins).

But I will haste, and from each bough and brake,
Each plant, and juiciest gourd, will pluck such choice
To entertain our angel-guest.

Milton, *Paradise Lost*, v. 334.

Gourd seeds abound so much in oil, that a sweet and pleasant one may be drawn from them by expression: they are of the four greater cold seeds, and are used in emulsion.—*Sir J. Hill*, *Medical Notices*.

Gourmand. *s.* [French.] One devoted to good living.

This *gourmand* moribund whole becometh to his prunch.—*Bishop Hall*, *St. Paul's Combat*.

With difficulty I return to what remains of this ignoble task, for the diabolical I have to change a period more with the fifth and venom of this *gourmand*, swelled into a confuter.—*Milton*, *Colasterion*.
I am no *gourmand*: I require no dainties: I should despise the board of Helicopolis, except for its long sitting.—*Lamb*, *Essays of Elia*, *Relas on Appetite*.

It was sent me over from France by the celebrated *gourmand* Maréchal de —.—*Sir E. B. Lytton*, *Pelham*.

We have no princes and no ambassadors, no duke who is a *gourmand*, no earl who is a jockey, no man-murving mothers, no flirting daughters, no gambling sons, for your entertainment.—*Disraeli the younger*, *The Young Duke*, b. ii. ch. viii.

Used adjectively.

There was a goodly 'soupe à la bonne femme,'
Though God knows whence it came from; there was too

A turbot for relief of those who craved,
Relieved with 'dunon à la Perleux';
There also was -- the dinner that I am!

How shall I get this *gourmand* stanzas through?—
'Soupe à la Beauveau,' whose relief was dory,
Relieved itself by pork, for greater glory.
Byron, *Don Juan*, xv. 63.

Gourmandise. *s.* Gluttony; voraciousness.

A tierce forth out of the wood did rise,
That with fell claws, full of fierce *gourmandise*,
And greedy month wide gaping like hell gate,
Did run at Pastorell, hier to surprise.

Spenser, *Faerie Queen*, vi. 10. 34.

Lacedemon, whence *gourmandise*, drunkenness, luxury, dissipation, avarice, envy, and ambition were banished.—*Summary of De Bortas*, pt. ii. p. 64: 1421.

Gourmandise. *v. n.* Play the glutton.

Singers also are proverbially prone to *gourmandize*; and though the Bird of Paradise unfortunately possessed the smallest mouth in all Singingland, it is astonishing how she pecked! But they talked as well as feasted, and were really gay.—*Disraeli the younger*, *The Young Duke*.

Gout. *s.* [Fr. *goutte*.] Malady so called.

The *gout* is a disease which may affect any membranous part, but commonly those which are at the greatest distance from the heart or the brain, where the motion of the fluids is the lowest, the resistance, friction, and stricture of the solid parts the greatest, and the sensation of pain, by the dilatation of the nervous fibres, extruded.—*Arbuthnot*, *On the Nature and Choice of Aliments*.

One that's sick of the *gout*, had rather
Groom so in perplexity, than be cur'd
By the sure physician's deal.

Shakespeare, *Cymbeline*, v. 4.
This very reverend lecher, quite worn out
With rheumatism, and crippled with his *gout*,
Forgets what he in youthful times has done,
And swings his own views in his son.

Dryden, *Translation of Juvenal*.

Gout. *s.* [Fr. *goutte* = drop in its primary sense.] Drop. *Rare*.

I see then still;
And on thy blade and daisies *gouts* of blood,
Which was not so before.

Shakespeare, *Macbeth*, ii. 1.

Goutish. *adj.* Having a tendency to the *gout*: (*Gouty* commoner).

The dice are for the end of a drum amongst soldiers, the tables for *goutish* and apoplectic persons to make them move their joints.—*Drammond*, *Epistle 20*. (Ord. MS.)

Goutwort. *s.* Native plant so called; *Egopodium podagraria* (from *ait*, *aityō* = *goat*, + *podē*, *podōc* = foot, and *podagra* = *gout*, respectively).

Though the details are obscure, the confusion between *goat* and *gout* is evident. *Goutweed* is another, perhaps the commoner, form, though both are rare, except in botanical synonymies.

Egopodium podagra, *goutweed*, *goutweed* . . . [is] sedative, and was formerly used to mitigate the pains of *gout* and to relieve piles, but is now not employed. In its earlier state it is tender and succulent.—*Hooper*, *Medical Dictionary*.

Gouty. *adj.*

1. Afflicted or diseased with the *gout*.

The sickly ladie, and the *goutie* peers,
Still would I haunt, that love their life so deare.
Bishop Hall, *Satire*, ii. 4.

Knave upon his *gouty* joints appear,
And chalk is in his crippled fingers found.
Dryden, *Translation of Persius*.

2. Relating to the *gout*.

There are likewise other causes of blood-spitting; one is the settlement of a *gouty* matter in the substance of the lungs.—*Sir E. Blackmore*.

3. Swollen.

This humour in historians hath made the body of ancient history in some parts so *gouty* and monstrous.—*Spenser*, *On Prodiges*, p. 103.

Gove. *v. n.* [?] Put in a gove, goff, or mow. *Obsolete*.

Lead safe, carry home, follow time being this,
Gove just in the barn, it is out of despair.

Tusser, *Five Hundred Points of good Husbandry*.

Góvern. *v. a.* [Fr. *gouverner*; Lat. *gubernare*.]

1. Rule as a chief magistrate.

This inconvenience is more hard to be redressed in the governor than the governed; as a malady in a vital part is more incurable than in an external.—*Spenser*, *View of the State of Ireland*.

[They] *govern* ill the nations under yoke,
Feeling their provinces, exhausted all
By lust and rapine.

Milton, *Paradise Regained*, iv. 123.
It grows impossible to *govern* men.
Waller.

2. Regulate; influence; direct.

I am at present against war, though it puts the power into my hands, and though such turbulent and naughty spirits as you are, *govern* all things in times of peace.—*Sir W. Davenant*.

The chief point, which he is to carry always in his eye, and by which he is to *govern* all his counsels, designs, and actions.—*Bishop Atherbury*.

3. Manage; restrain.

Go after her, she's desperate: *govern* her.
Shakespeare, *King Lear*, v. 2.

4. In Grammar. Have force with regard to syntax: (as, 'amo *governs* the accusative case').

Listen, children, unto me,
And let this your lesson be,
In our languages evermore
Words that *govern* go before.

Manger, *French Grammar*.

5. Pilot; regulate the motions of a ship.

Góvern. *v. n.* Keep superiority; behave with haughtiness.

Your wicked atoms may be working now
To give bad counsel, that you still may *govern*.
Dryden.

Góvernable. *adj.* Submissive to authority; subject to rule; obedient; manageable.

The flexibility of the former part of a man's age, not yet grown up to be headstrong, makes it more *governable* and safe.—*Locks*.

Góvernance. *s.*

1. Government; rule; management.

Jonathan took the *governance* upon him at that time, and ran up instead of his brother Judas.—*1 Maccabees*, ix. 31.

2. Control, as that of a guardian.

Me he knew not, neither his own ill,
Till through wise handling, and fair *governance*,
I him recured to a better will.

Spenser, *Faerie Queen*.

What! shall king Henry be a pupil still,
Under the surly Gloucester's *governance*!

Shakespeare, *Henry VI. Part II*, i. 2.

3. Behaviour; manners. *Obsolete*.

He liketh it to fall into m'chance
That is regardless of his *governance*.
Spenser, *Malapropos*.

Góvernante. *s.* Lady who has the care of young girls of quality; female governor in the sense of tutor.

I saw Envy there drest up in a widow's veil, and the very picture of the *governante* of one of your noblemen's houses.—*Sir E. L'Estrange*, *Translation of Queneado's Vision*, p. 32.

Since it has been a fashionable thing for the master to resign up his concerns to the steward, and the lady her to the *governante*, it has gone ill with most great families, whilst these officers serve themselves instead of those who employ them, raise fortunes on their patron's ruins, and divide the spoil of the family.—*Ladies' Calling*, pt. ii. sect. 2, § 2. (Ord. MS.)

Góvernance. *s.*

1. Female invested with authority.

The moon, the *governance* of floods,
Pale in her anger, watches all the air,
That rheumatic diseases do abound.

Shakespeare, *Midsummer-Night's Dream*, ii. 2.

2. Tutress; woman that has the care of young ladies.

He presented himself unto her, falling down upon both his knees, and holding up his hands, as the old *governance* of Danes is painted, when she suddenly saw the golden shower.—*Sir P. Sidney*.

His three younger children were taken from the *governance* in whose hands he put them.—*Lord Clarendon*, *History of the Great Rebellion*.

3. Tutress; instructress; directress.

Great affliction that covers *governance* of the life of man brings upon those souls the solemn cry.—*Dr. H. More*, *Antidote against Atheism*.

Góvernment. s.

1. Form of a community with respect to the disposition of the supreme authority.

There seem to be but two general kinds of government in the world: the one exercised according to the arbitrary commands and will of some single person; and the other according to certain orders or laws introduced by agreement or custom, and not to be changed without the consent of many.—*Sir W. Temple*.

No government can do any act to limit itself: the supreme legislative power cannot make itself not to be absolute.—*Locke*.

2. Established state of legal authority.

There they shall find
Their government, and their great senate chosen
Through the twelve tribes, to rule by laws ordain'd.
Milton, Paradise Lost, xii. 221.

While he survives, in concord and content
The common live, by no divisions rent;
But the great monarch's death dissolves the government.
Dryden, Translation of the Georgics.

Every one known, who has considered the nature of government, that there must be in each particular form of it an absolute unlimited power.—*Adams*.

Where any one person or body of men seize into their hands the power in the last resort, there is properly no longer a government, but what Aristotle and his followers call the abuse or corruption of one.—*Hobbs*.

3. Administration of public affairs.

Safety and equal government are things
Which subjects make as happy as their kings.

Those governments which curb not evils, cause;
And a rich knave's a libel on our laws.
Waller, Young.

Used adjectively.

The king not only wrested government boroughs from the minister, in order to nominate his own friends, but even encouraged opposition to such ministers as he conceived not to be in his interest.—*T. Erskine May, Constitutional History of England, ch. i.*

4. Regularity of behaviour; restraint; self-restraint; self-government. *Obsolete.*

You needs must learn, lord, to amend this fault;
Though sometimes it shows greatness, courage,
blood,

Yet oftentimes it doth present harsh rage,
Defect of manners, want of government,
Pride, haughtiness, opinion, and disdain.

Shakespeare, Henry IV. Part I. iii. 1.
'Tis government that makes them seem divine;
The want thereof makes them abominable.
Id., Henry VI. Part III. i. 4.

5. Management of the limbs or body. *Obsolete.*

Shot many a dart at me with fierce intent;
But I them warded all with wary government.
Spenser, Faerie Queen.

Thy eyes windows fall,
Like death, when he shuts up the day of life;
Each part depriv'd of supple government,
Shall stiff and stark, and cold appear, like death.

Shakespeare, Romeo and Juliet, iv. 1.

6. In Grammar. Influence of one word in determining the case of the second; especially of nouns, verbs, and prepositions; as *man's hat*, strike *him*, with *us*. Here the form taken by *man's*, *him*, and *us*, are determined by the government, or regimen, of the word with which they are associated.

Góvernmentál. adj. Connected with, indicated, initiated, or pursued by, government.

Lord Palmerston has issued the following circular to members of the House of Commons underdoubt to be favourable to the governmentál policy.—*The Times Newspaper, January 24, 1854.*

Góvernér. s.

1. One who has the supreme direction.

It must be confessed, that of Christ, working as a creator and a government of the world by providence, all are partakers.—*Hobbes, Ecclesiastical Polity.*

They best in us a great idea and veneration of the mighty author and government of such stupendous bodies, and excite and elevate our minds to his adoration and praise.—*Bentley*.

2. One who is invested with supreme authority in a state.

For the kingdom is the Lord's, and he is the government among the nations.—*Psalms, xlii. 25.*

The magistrate cannot urge obedience upon such potent grounds as the minister, if so disposed, can urge disobedience; as, for instance, if my government should command me to do a thing, or I must die, or forfeit my estate; and the minister steps in and tells me that I offend God, and ruin my soul, if I obey that command, 'tis easy to see a greater force in this persuasion.—*South, Sermons.*

3. One who rules any place with delegated and temporary authority.

To you, lord governor,
Remains the guise of this hellish villain.

4. Tutor; one who has care of a young man.

To Kitham will I, where the young king is,
Being ordain'd his special governor;
And for his safety there I'll best devise.

Shakespeare, Othello, v. 2.
Shakespeare, Henry VI. Part I. i. 1.
The great work of a governor is to fashion the carriage, and turn the mind; to settle in his pupil good habits, and the principles of virtue and wisdom.—*Locke*.

During the minority of kings, the election of bishops, and other affairs of the church, must be left in the hands of their governors and courtiers.—*Locke*.

Sir Wyndham Knatchbull, a worthy clergyman, his governor, are under such ridiculous persecutions, merely for their civilities to me, that I heartily pray none of my friends and relations may travel hitherto.—*Lady M. W. Montague, letter, April 11.*

Sir Wyndham Knatchbull and his governor, M. de Vigner, are at length parted.—*Id., May 22, 1769.*

5. Slang for father.

6. Pilot; regulator; manager.

Behold also the ships, which though they be so great, and are driven of fierce winds, yet they are turned about with a very small helm, whithersoever the governorneth.—*James, iii. 4.*

Gowk. s. [Provincial and Scottish, *gowk* = cuckoo; whence the secondary meaning is supposed to be derived, and from that *gawky*.] Simpleton.
Such giddy-headed gowks.—*Dalrymple, Memoirs, p. 27; 1769.*

Gowk. v. a. Make a fool of anyone; puzzle.
Nay, look how the man stands as he were gowked.—*B. Jonson, Magnetic Lady, iii. 4. (Nares by H. & W.)*

Gown. s. [Low Lat. *gonna*.] Long upper garment.

a. Generally.

They make garments either short, as cloaks, or, as gowns, long to the ground.—*Abbot, Description of the World.*

In length of train descends her sweeping gown,
And by her graceful walk the queen of love is known.
Dryden, Translation of the Æneid.

b. Woman's.
I despise your new gown, till I see you dressed in it.—*Pope*.

Yet not superior to her sex's cares,
The mode she fixes by the gown she wears;
Of silks and chins she's the last appeal;
In those great points she leads the commonweal.

Young.

c. Man's.
The benefices themselves are so mean in Irish counties, that they will not yield any competent maintenance for any honest minister, scarcely to buy him a gown.—*Spenser, View of the State of Ireland.*

Girl in his Gabin gown the hero met.
Dryden, Translation of the Æneid.

d. As worn by members of certain peaceful professions, such as divinity, medicine, and law; hence dress of peace. When this is the case the phrase is often a Latinism; *togu* having the same import: cedant arma togæ (i.e. the gown of the orator).

He Mars depos'd, and arms to gowns made yield;
Successful councils did him soon approve
As fit for close intrigues as open field.

Dryden, On the Death of Oliver Cromwell.

Gowned. adj. Dressed in a gown.

A noble crew about them waited round
Of age and sober peers, all gravely gowned.
Spenser, Faerie Queen.

We will again to Rome, and with the terror
Of our approach make earthquakes in the hearts
Of her gowned senators.

Nubbes, Hannibal and Scipio: 1637. (Nares by H. & W.)

Well might the gowned Romans fear when Pompey fled.—*Jeremy Taylor, Sermon, p. 215; 1651.*

In velvet white as snow the troop was gown'd,
The smail with sparkling emeralds set around.
Dryden.

Gówsman. s. One whose proper habit is a gown; member of the university, as opposed to Townsman: (*Gownsmen* now commoner).

Let him with pedants
Pore out his life amongst the lay gówsman.

Keats.

Thus will that whole bench, in an age or two, be composed of mean, fawning gówsman, dependants upon the court for a morsel of bread.—*Hobbs*.

These were all the gówsman that I knew above eighty years old in Oxford.—*Bishop Lloyd, To Dr. Charlett, A sorry Letter, l. 208; 1710.*

If townsmen by our influence are so enlightened, what must we gówsman be ourselves.—*The Student, l. 68; 1750.*

To a person unacquainted with our universities, the distance between the gówsman and the townsmen, as they are called—the trading part of the latter especially—is carried to an excess that would appear harsh and incredible.—*C. Lamb, Essays of Elia, Poor Relations.*

Gówsard. s. Goosekeeper.

A person called a gówsard, i.e. gooseherd, attends the flock, and, twice a day, drives the whole to water, then brings them back again to their habitations, helping those that live in the upper stories to their nests without even misplacing a single bird.—*Pennant, British Zoology, The Graylag Goose. (Rich.)*

Gówsble. v. n. Grope.

My blood chills about my heart at the thought of these rogues, with their bloody hands grubbing in my ribs, and pulling out my very entrails.—*Arden, History of John Bull.*

Grace. s. [Lat. plural, *gratiae*.] The three Graces, in Greek *Xárites*; were three female deities supposed by the ancients to embody, represent, or confer beauty. Any one of the *Gratiae* spoken of singly would give a singular number; the plural, however, is the commoner.

1. As a proper, rather than a common, term.

This forehead, where your verse has hid
The loves delighted, and the graces play'd. *Prior.*

2. That which, whether a natural gift or the result of art, sets off anything to advantage; embellishment; beauty.

Where justice grows, there grows the greater grace.
The which doth quench the brand of hellish smart.

Spenser.

It doth grieve me, that things of principal excellency should be thus bitten at by men whom God hath endued with graces, both of wit and learning, for better purposes.—*Hobbes, Ecclesiastical Polity.*

Her purple habit sits with such a grace
On her smooth shoulders, and so suits her face.

Dryden, Translation of the Æneid.

The charming Lausus, full of youthful fire,
To Turnus only second in the grace.

Id.

To write and speak correctly gives a grace, and gains a favourable attention to what one has to say.—*Locke*.

With a sparing use of ornament, hardly indulging more in figures, or even in figurative expression, than the most severe examples of ancient chasteness allowed—with little variety of style, hardly any of the graces of manner—he no sooner rose than he carried away every hearer, and kept the attention fixed and undragging till it pleased him to let it go.—*Lord Brougham, Historical Sketches of Statesmen of the Reign of George III., Mr. Pitt.*

Grace. s. [Fr.; Lat. *gratia*.]

1. Favour; kindness.

If the highest love in no base person may aspire to grace, then may I hope your beauty will not be without pity. *Sir P. Sidney.*

Or earth, or all, may win a lady's grace;
Then either of you knights may well deserve
A princess born. *Dryden, Fables and Aesop.*

With good; generally plural, though only, when used in this sense, we may be in a person's good graces; we do such or such things with a good grace.

Demand delivery of her heart,
Her goods, and chattels, and good graces,
And person, up to his embraces. *Butler, Hudibras.*

He knows that, as a go-between, he shall find his account in being in the good graces of a man of wealth.—*Tatler, no. 225.*

2. In Theology.

In simplicity and godly sincerity, not with fleshly wisdom, but by the grace of God, we have had our conversation in the world.—*1 Corinthians, i. 12.*

Prevenient graces descending had remov'd
The stony from their hearts, and made new flesh
Regenerate grow instead.

Milton, Paradise Lost, x. 2.

Within the church, in the public profession and external communion thereof, are contained persons truly good and sanctified, and hereafter saved; and together with them other persons void of all saving grace, and hereafter to be damned.—*Bishop Pearson.*

3. Pardon; mercy.

Noble pity held
His hand a while, and to their choice gave space
Which they would prove, his valour or his grace.

Waller.

How and sue for *grace*,
With suppliant knees.

Milton, Paradise Lost, l. 111.

4. Favour conferred.

I should therefore esteem it great favour and
grace.
Would you be so kind as to go in my place.
Prior, The Thief and the Cordelier.

5. Privilege.

But to return and view the cheerful skies, . . .
To see great Jupiter imparts this *grace*.
Dryden, Translation of the Æneid.

6. Behaviour, considered as decent and becoming, or the contrary: (with good or bad).

The same words in Philoela's mouth, as from one woman to another, as from one body to another, might have had a better *grace*, and perchance have found a gentler receipt.—*Sir P. Sidney*.
Have I reason of good *grace* in what I do?—*Sir W. Temple*.

7. Title of a duke or archbishop; formerly of the king, meaning the same as *Your Goodness*, or *Your Clemency*.

Here come I from our princely general
To know your griefs; to tell you from his *grace*,
That he will give you audience.
Shakespeare, Henry IV. Part II. iv. 1.

High and mighty king, your *grace*, and those your nobles here present, may be pleased to how your case.—*Bacon, History of the Reign of Henry VIII*.
According to the usual proceedings of your *grace*, and of the court, with delinquents which are overtaken with error in simplicity, there was yielded unto him a deliberate, patient, and full hearing, together with a satisfactory answer to all his main objections.—*White*.

8. In Academic language. Resolution of the legislative body of either the university at large, or some particular portion of it, such as a college or hall. In the extract it seems to mean degree, right, or privilege thereby conferred.

He received all the *graces* and degrees, the procuratorship and the doctorship could be obtained there.—*Lord Clarendon, History of the Great Rebellion*.

Airs and graces. Affection.

Old Sir Pitt . . . chuckled at her *airs and graces*, and would laugh by the hour together at her assumption, of dignity and imitations of genteel life.—*Thackeray, Vanity Fair*.

Grace. s. [from *gratias*, the same word as *gratin*, except that it is in the accusative plural, and is translated by *thanks*; *gratias tibi agimus* = we give thee thanks.] Short prayer or thanksgiving said before or after meals.

Your soldiers use him as the *grace* 'fore meat,
Their talk at table, and their thanks at end.

Shakespeare, Coriolanus, iv. 7.

Our excess of modesty makes us unamused in all the exercises of piety and devotion. This humour prevents upon us daily; inasmuch, that at many well-worn tables the master of the house is so very modest a man that he has not the confidence to say *grace* at his own table.—*Addison, Spectator*, no. 454.

While *grace* is saying after meat, do you and your brethren take the chairs from behind the company.—*Swift*.

Then cheerful healths, your mistress shall have place;

And what is more rare, a poet shall say *grace*. *Pope*.

Grace. v. a.

1. Adorn; dignify; embellish; recommend; decorate.

This they study, this they practice, this they *grace* with a wanton superfluity of wit.—*Hooker, Ecclesiastical Polity*.

Rich crowns were on their royal scutcheons plac'd,

With applashes, diamonds, and with rubies *grac'd*.
Dryden, Palamon and Arcite.

By both his parents of descent divine;
Great Jove and Phœbus *grac'd* his noble line. *Pope*.

2. Honour by an act of favour.

He writes
How happily he lives, how well-belov'd,
And daily *graced* by the emperor.

Shakespeare, Two Gentlemen of Verona, l. 1, 3.

Please it your highness
To *grace* us with your royal company.

Id., Macbeth, iii. 4.

He might at his pleasure *grace* or disgrace whom he would in court.—*Knox, History of the Turks*.

When the guests withdrew,
Their courteous host, saluting all the crew,

Regards pass'd her o'er, nor *grac'd* with kind adieu.
Dryden.

Dispose all honours to the sword and gown,

Grace with a nod, and rule with a frown.

Dryden, Translation of Juvenal.

3. Supply with grace, in the theological sense of the term.

Grace the disobedient.—*Bishop Hall, Works*, ii. 60.

Grace-cup. s. Cup or health drunk after grace.

The *grace-cup* serv'd, the cloth away,
Jove thought it time to show his play. *Prior*.

Graced. part. adj. Endowed with grace. Rare, or rhetorical, unless in combination with a qualifying word such as well, ill.

1. Beautiful; graceful.

He saw this gentleman, one of the properest and best *graced* men that ever I saw, being of a middle age and a mean stature.—*Sir P. Sidney*.

2. Virtuous; regular; chaste.

Epicurian and lust
Make it more like a tavern or a bawling,
Than a *grac'd* palace. *Shakespeare, King Lear*, l. 4.

Gracious. adj.

1. Full of grace and holy virtue.

You have a holy father,
A *gracious* gentleman, against whose person,
No sacred as it is, I have done sin.
Shakespeare, Winter's Tale, v. 1.

2. Beautiful with dignity.

Amid the troops, and like the leading god,
High o'er the rest in arms, the *gracious* Turnus rode.
Dryden, Translation of the Æneid.

Matchless his pen, victorious was his lance;
Bold in the lists, and *gracious* in the dance. *Pope*.
Yet *gracious* ease, and sweetness void of pride,
Might hide her faults, if hell's had faults to hide.

Id.
Gracious to sight, and elegant to thought,
The great are vanquish'd, and the wise are taught.
Young.

Graciously. adv. In a graceful manner; with pleasing dignity.

Through nature and through art she rang'd,
And *graciously* her subject chang'd.
Swift, Cadenus and Vanessa.

Walking is the mode or manner of man, or of a beast; but walking *graciously* implies a manner or mode superadded to that action.—*Watts, Logic*.

Graciously. s. Attribute suggested by Graceful.

Petrarch's Tuscan *graciously*,
Or Theban Pindar's lofty strain.
Hakewell, Apology, p. 250.

If hearers are amas'd from whence
Proceeds that fund of wit and sense,
Which, though her modesty would shroud,
Breaks like the sun behind a cloud;
While *graciously* its art conceals,
And yet through every motion steals. *Swift*.

Graceless. adj. Void of grace.

This *graceless* man, for furtherance of his guile,
Did court the husband of my lady dear. *Spenser*.
In all manner of *graceless* and hopeless characters,
some are lost for want of advice, and others for want of heed.—*Sir E. L'Estrange*.

Furnished for offence he crossed the way
Betwixt the *graceless* villain and his prey. *Dryden*.

Gracelessly. adv. In a graceless manner.

The French, in his whole language, hath not one word that hath its recent in the last syllable saving two, called antepenultimus; and little more hath the Spanish; and therefore very *gracelessly* may they use dactyls. — *Sir P. Sidney, Defence of Poesy*.

Gracelessness. s. Attribute suggested by Graceless.

It were too homoe to run over what has been before said of our adversary's insolency and unmanliness, impudency and *gracelessness* against the Scriptures.—*Dr. Favours, Antiquity's Triumph over Novelty*, p. 105: 1619.

Graces. As in Good graces. See Grace from Gratia.

Gracious. adj.

1. Merciful; benevolent.

Common sense and reason could not but tell them that the good and *gracious* God could not be pleased, nor consequently worshipped, with any thing barbarous or cruel.—*Smith, Sermons*.

To be good and *gracious*, and a lover of knowledge, are two of the most suitable things.—*Dr. T. Burnet, Theory of the Earth*.

2. Favourable; kind.

And the Lord was *gracious* unto them, and had compassion on them.—*2 Kings*, xlii. 22.
Unbann'd Ulysses' house,
In which I find receipt of *gracious*.

Chapman, Translation of the Odyssey.

From now reveal
A *gracious* beam of light; from now inspire
My tongue to sing, my hand to touch the lyre. *Prior*.

3. Acceptable; favoured.

Doctrine is much more profitable and *gracious* by example than by rule.—*Spenser*.

He made us *gracious* before the kings of Persia,
so that they gave us food.—*1 Esdras*, viii. 80.

Gurior, who was now general of the horse, was no more *gracious* to prince Rupert than Wilmet had been.—*Lord Clarendon, History of the Grand Rebellion*.

4. Good; excellent.

Kings are no less unhappy, their times not being *gracious*, than they are in losing them when they have approved their virtues.—*Shakespeare, Winter's Tale*, ii. 1.

The grievous abuse which hath been of councils, should rather cause men to study how so *gracious* a thing may again be reduced to that first perfection.—*Hooker, Ecclesiastical Polity*.

5. Becoming; pleasing. Obsolete.

There was not such a *gracious* creature born.
Shakespeare, King John, iii. 4.
Our women's names are more *gracious* than their
Rutilia, that is, red head.—*Caudeen*.

Salust's expression would be shorter and more compact: Cicero's more *gracious* and flowing.—*Bishop Hurd*.

Graciously. adv. In a gracious manner.

His testimony he *graciously* confirm'd, that it was the best of all my tragedies.—*Dryden*.

He heard my vows, and *graciously* decreed
My grounds to be restor'd, my former flocks to feed.
Id., Translation of Virgil.

If her majesty would but *graciously* be pleased to think a hardship of this nature worthy her royal consideration.—*Swift*.

Graciousness. s. Attribute suggested by Gracious.

1. Mercy; merciful and kind condescension.

Their enemies shall laugh, when themselves shall have cause to weep, unless the *graciousness* of God stir up some worthy princes of reason, and reputation, with both sides to interpose their wisdom.—*Sir E. Sandys, State of Religion*.

The *graciousness* and temper of this answer made no impression on them.—*Lord Clarendon, History of the Great Rebellion*.

The University of Cambridge was received at St. James's with comparative kindness. The answers to the addresses of Oxford were all *gracious* and warm.—*Maccubbin, Critical and Historical Essays, The Earl of Chatham*.

2. Possession of graces or good qualities.

The acts derive their *graciousness* from the habits.
—*Bishop Barlow, Remains*, p. 437.

3. Pleasing manner.

He possessed some volence of *graciousness* and attraction which books had not taught.—*Johnson, Rambler*, no. 147.

Gradation. s. [Lat. *gradatio*, -onis; *gradus* = step.]

1. Regular progress from one degree to another.

The desire of more and more rises by a natural *gradation* to most, and after that to all.—*Sir E. L'Estrange*.

The law of continuity is this:—that a quantity cannot pass from one amount to another by any change of conditions, without passing through all intermediate magnitudes according to the intermediate conditions. This law may often be employed to disprove distinctions which have no real foundation. The method of *gradation* consists in taking a number of stages of a property in question, intermediate between two extreme cases which appear to be different. This method is employed to determine whether the extreme cases are really distinct or not. The method of *gradation*, applied to decide the question, whether the existing ecological phenomena arise from existing causes, leads to this result:—That the phenomena do appear to arise from existing causes, but that the action of existing causes may, in past times, have transgressed, in any extent, their recorded limits of intensity.—*Whewell, Novum Organum renovatum, Aphorisms*, 49–51.

And as, between those relative positions in which the coexistence of two objects can be known only by a slight turn of the head, and those in which it can be known only by turning the head half round, there is also a series of imperceptible transitions; it follows that the coexistence of two dots lying close together, and that of two objects lying respectively behind and before the observer, are known in modes which, however apparently different, are united by insensible *gradations*, and must be principally the same.—*Herbert Spencer, Principles of Psychology*, p. 304.

2. Regular advance step by step.

From thence,
By cold *gradation*, and well balanc'd form,
We shall proceed with Angelo.

Shakespeare, Measure for Measure, iv. 3.

The painter very elegantly expressed to us the several *gradations* by which men at last come to this horrid degree of impiety.—*Archbishop Tillotson*.

3. Order; sequence; series.

"Tis the curse of service;
Preference goes by letter and affection;
Not, as of old, gradation, where each second
Blood heir to th' first." *Shakespeare, Othello, I. 1.*

4. Regular process of argument.

Certain it is, by a direct gradation of consequences from this principle of merit, that the obligation to gratitude flows from, and is enjoined by, the first dictates of nature.—*South, Sermons.*

Gradatory. adj. Proceeding step by step.

Could we have seen his [Machiavelli's] crimes darkening on their progress, till they attain the direct excess of human depravity; could this gradatory apostasy have been shewn us; could the noble and useful moral, which results, have been thus forcibly impressed upon our minds, without a violation of those senseless unities [of time and place]!—*Seward, Letters, iii. 243.*

Grade. s. Rank; degree.

I had seen Indians of all grades, ages, and classes; I do not mean the savage tribes of American Indians, but Indians, as called from having resided in our different settlements in the east, although British born. I have seen the yellow-checked civilian, and the well-browned soldier of half a century's standing, and those in all their varieties; but Mr. Nulley, who received me at the door of his hospitable house, was unlike any thing I had ever seen.—*Theodore Hook, Gilbert Gurney, vol. iii. ch. iii.*

The fourth grade is identical with the variety of general insanity about to be noticed, under the head of Fatuity, or annihilation of the powers of mind. The slighter forms or grades of dementia, or imbecility, and imbecility, are evinced by a loss of control over the ideas, and of the faculty of attention.—*Capland, Dictionary of Practical Medicine, Insanity.*

Over grammar-schools, the clergy possessed an authority fully equal to that which they had in the universities. They also appointed and removed, at their own pleasure, teachers of every grade, from village schoolmasters to tutors in private families.—*Buckle, History of Civilization in England, vol. ii. ch. vi.*

Gradient. adj. Walking; moving by steps.

Amoung these gradient automata, that iron spider is especially remarkable, which, being but of an ordinary lightness, did creep up and down as if it had been alive.—*Wilkins.*

Gradient. s. Proportionate ascent or descent of a plane, chiefly on railway lines.

Tables have been drawn up to show the lengths of important horizontal lines in gradients from 1 in 90 to 1 in 1500.—*Cress, Encyclopedia of Civil Engineering, b. ii. ch. xxx.*

Gradaul. adj. Proceeding by degrees; advancing step by step; from one stage to another.

Nobler birth
Of creatures animate with gradual life,
Of growth, sense, reason, all matur'd up in man.
Milton, Paradise Lost, ix. 111.
Men still suppose a gradual natural process of things; as that, from great things and persons should grow greater, till at length, by many steps and ascents, they came to be at greatest.—*South.*

Gradaul. s. Order of steps. *Obsolete.*

Before the gradual prostrate they ador'd,
The pavement kiss'd, and thus the saint inador'd.
Dryden.

Graduality. s. Proceeding, procession, or progression, by degrees.

This some ascribe unto the mixture of the elements, others to the graduality of opacity and light.—*Sir T. Browne.*

We do not call the seedling the cause of the full grown tree; the invariable antecedent it certainly is, and we know very imperfectly on what other antecedents the sequence is consequent, but we are convinced that it is contingent on something; because the homogeneity of the antecedent with the consequent, the close resemblance of the seedling to the tree in all respects except magnitude, and the graduality of the growth, so exactly resembling the progressively accretive effect produced by the long action of some one cause, leave no possibility of doubting that the seedling and the tree are two terms in a series of that description, the first term of which is yet to seek.—*J. S. Mill, System of Logic, b. iii. ch. xv. § 3.*

Gradually. adv. In a gradual manner.

1. By degrees; in regular progression.

When the moon passes over the fixed stars, and eclipses them, your light vanishes; not gradually, like that of the planets, but all at once.—*Sir I. Newton, On Opticks.*

The Author of our being waxes us gradually from our fondness of life the nearer we approach towards the end of it.—*Swift.*

Human creatures are able to bear air of much greater density in diving, and of much less upon the tops of mountains, provided the changes be made gradually.—*A. Reaumur.*

2. In degree.

Human reason doth not only gradually, but specifically differ from the fantastick reason of brutes.—*Crow.*

Graduate. v. a.

1. Invest with a degree in the university.

John Trigonewell, graduated a doctor and dubbed a knight, did good service.—*Carew, Survey of Cornwall.*

Concerning columns and their adjuncts, architects make such a noise as if the terms of architecture, frieze, and cornice were enough to graduate a master of this art.—*Sir H. Wotton, Elements of Architecture.*

2. Mark with degrees; the commonest application being to the thermometer; an application within the term centigrade (hundred + degree) is conveyed by the name.

The places were marked where the spirits stood at the severest cold and greatest heat, and according to those observations he graduated his thermometer.—*Berham.*

The stem should be graduated in inches and tenths on one side, and in centimeters and millimeters on the other, so that either the English or the French measure may be used. . . . The graduation, of course, should commence from the fixed arm. Each arm should also be graduated in the same manner, the graduation starting from the stem. With this simple criterion all the measurements in the first column may be very quickly taken.—*G. Hask, On a Systematic Mode of Gradiometry: Transactions of the Ethnological Society.*

3. Raise to a higher place in the scale of metals.

The tincture was capable to transmute or graduate as much silver as equalled in weight that gold.—*Boyle.*

4. Heighten; improve.

Not only vitriol is a cause of blackness, but the salts of natural bodies; and dyers advance and graduate their colours with salts.—*Sir T. Browne, Vulgar Errours.*

Graduate. v. n.

1. Take an academical degree; become a graduate; (as, 'He graduated at Oxford').

2. Proceed regularly, or by degrees.

A grand light falls beautifully on the principal figure, but it does not graduate sufficiently into distant parts of the cave.—*Gilpin.*

Graduate. s. One who has taken an academical degree as opposed to an undergraduate.

I know the arts
And sciences do not directlier make
A graduate in our universities,
Than an habitual gravity prefers
A man in court. . . .
B. Jonson, Magnetic Lady.
An oath taken by Oxford graduates [was] that they should not profess at Stamford.—*Selden, On Drayton's Polyglottion, song 8.*
Of graduates I dislike the learned rout,
And choose a female doctor for the gout.
Aramon.

Graduateship. s. State of a graduate.

An English concordance, and a topical folio, the gatherings and savings of a sober graduateship.—*Milton, Areopagitica.*

Graduation. s.

1. Regular progression by succession of degrees.

The graduation of the parts of the universe is likewise necessary to the perfection of the whole.—*Grew, Cosmologia Sacra.*

2. Marking with degrees.

(For example see under Graduate, v. a. 2.)

3. Improvement; exaltation of qualities.

Of greater repugnancy unto reason is that which he delivers concerning its graduation, that heated in fire, and often extinguished in oil of uars or iron, the luminous acquires an ability to extract a nail fastened in a wall.—*Sir T. Browne, Vulgar Errours.*

4. Act of conferring academical degrees.

The ministers are now reconciled to distinction; and as it must always happen that some will excel others, have thought graduation a proper testimony of uncommon abilities or acquisitions.—*Johnson, Journey to the Western Islands of Scotland.*

Graduator. s. Instrument, consisting of a tube and other details of apparatus, used in vinegar-making.

These tubes serve to allow the air that enters by the eight circumferential tubes to circulate freely through the graduator.—*Ure, Dictionary of Arts, Manufactures, and Mines.*

Grail. s. [Dutch, *gracht*.] Ditch; moat.

Though the fortifications were not regular, yet the walls were good, and the grail broad and deep.—*Lord Clarendon, History of the Grand Rebellion.*

Grail. s. Same as Grail.

God gave unto man all kinds of seeds and grafts of life.—*Sir W. Raleigh.*

The usual now an inmate graft to see
With innocency invade a foreign tree.
Now the clef and inserted grafts receives. *Pope.*

Grail. v. a. Graft.

And they also, if they abide not still in unbelief, shall be grafted in; for God is able to graft them in again.—*Romans, xi. 23.*

Now let me graff my pears, and prune the vine.
Dryden.

Grail. v. n. Practise incision.

To have fruit in greater plenty the way is to graft, not only upon young stocks, but upon divers boughs of an old tree; for they will bear great numbers of fruit; whereas, if you graft but upon one stock, the tree can bear but few.—*Bacon.*

Grailing. verbal use. Grafting.

In March is good grafting the skilful do know,
So long as the wind in the east do not blow:
From now being changed, till past be the prime,
For grafting and cropping is very good time.
Tusser, Five Hundred Points of good Husbandry.

Graft. s. Scion. [see last extract.]

It is likely, that as in fruit-trees the graft maketh a greater fruit, so in trees that bear no fruit it will make the greater leaves. *Bacon, Natural and Experimental History.*

If you cover the top with clay and horse-dung, in the same manner as you do a graft, it will help to heal the sooner.—*Mortimer, Husbandry.*

We two have grown,
From birth on my side, boyhood upon his,
Inseparably together, as two grafts
Out of the self-same stock, we've shared alike
The sun and shower and all that heaven hath sent us.
H. Taylor, Philip and Alexander, iv. 4.

[Graft, Graft.—French *greffe*, a slip or shoot of a tree for grafting; Dutch *greffe*, a cutting either for grafting or setting in the ground, also a style for writing. From Latin *graphium*, a style, or pointed instrument for writing on waxen tablets. (*Graphium vel scriptorium, greff*: (*Glossary of Etymology*.) In like manner Spanish *mapiron*, a sprig or shoot of a vine, from Latin *macro*; Modern Greek *αερτομα*, a graft, *αερτομα*, to graft, from *αερτομα*, anything pointed. Grafting was often called the penning of trees.—*Wedgwood, Dictionary of English Etymology.*]

Graft. v. a.

1. Implant as a scion.

With his pruning hook disjoin
Unbearing branches from their head,
And graft more happy in their stead.
His growth is but a wild and fruitless plant;
I'll cut his barren branches to the stock,
And graft you on to bear. *Id., Jon Sebastian.*

2. Impregnate with an adscititious branch.

You are three
That Rome should dole on; yet, by the faith of men,
We've some old crab-trees here at home, that will
Be grafted to your relief.
Shakespeare, Christopher Columbus, II. 1.
The noble lady doth want her proper limbs;
Her royal stock graft with ignoble plants.
Id., Richard III: III. 7.

3. Join one thing so as to receive support from another.

This resolution against any peace with Spain is a new incident grafted upon the original quarrel, by the intrigues of a faction among us.—*Swift.*
May one kind grave unite each ignoble name,
And graft my love immortal on thy fame.
Pope, Epistle to Abolard.

Graster. s. One who grafts.

Or that the grafter and waterer be nothing . . . without whose work there should be no increase.—*Archbishop Cranmer, Answer to Bishop Gardiner, p. 378.*

I am informed, by the trials of the most skilful grafters of these parts, that a man shall seldom fail of having cherry-burns by his graft the same year in which the lution is made.—*Boyle.*

Grail. s. [Fr. *grêle*.] Small particles of any kind.

Hereof this gentle knight unweeting was;
And, lying down upon the sandy graile,
Drunk of the stream as clear as crystal glass.
Spenser, Faerie Queen.

The bottom yellow, like the golden graile,
That bright Faustus washeth with his streams.
Id., Vision of Belshazzar.

Grail. s. [Lat. *graduale*.] This, and the preceding, are the only words which, as being common rather than proper names, have place in a dictionary. The *Saint* or *Holy Grail*; *Grail*, or *Grayle*, or the dish out of which our Lord was believed to have eaten at the Last Supper, and in which Joseph

of Arimathea was supposed to have caught his blood, the origin of the numerous romances connected with the *Quest* or *Seeking* of the same, is a proper name.] Book containing some of the offices of the Roman church.

Among the books they found there, were one hundred psalters, as many *grains*, and forty volumes, which undoubtedly belonged to the choir of the church.—*T. Warton, History of English Poetry*, vol. i. dim. 2.

Grain. s. [Lat. *granum*.]

1. Single seed of corn.

His reasons are as two *grains* of wheat hid in two bushels of chaff.—*Shakespeare, Merchant of Venice*, i. 1.

Many of the ears, being six inches long, had sixty *grains* in them, and none less than forty.—*Mortimer, Husbandry*.

Specially applied, in the plural, to the husks of malted barley after having been exhausted by brewing, and opposed to malt, of which the *grains* are the refuse.

Give them *grains* their fill,
Husks, draft, to drink and will.

B. Jonson, New Inn.

2. Corn.

As it chills, the seedman
Upon the alme and once scatters his *grain*,
And shortly comes to harvest.

Shakespeare, Antony and Cleopatra, ii. 7.
Pales no longer swell'd the treading *grain*,
Nor Phœbus fed his oxen on the plain.

Dryden, Pastorals.
'Tis a rich soil, I grant you; but oftener covered
With weeds than *grain*.—*Cotter, On Fame*.

3. Kind of grain.

As to the other *grains*, it is to be observed, as the wheat ripened very late, the barley got the start of it, and was ripe first.—*Harris*.

4. Any minute particle; any single body.

Thou exist'st on many thousand *grains*
That issue out of dust.

Shakespeare, Measure for Measure, iii. 1.
By intelligence

And proofs as clear as fountains in July, when
We see each *grain* of gravel. *Id., Henry VIII.* i. 1.

5. Smallest weight, of which in physic twenty make a scruple, and in troy weight twenty-four make a pennyweight; and so named because it is supposed of equal weight with a grain of corn.

Unity is a precious diamond, whose *grains* as they double, twice double in their value. *Hodgday*.

They began at a known body, a barley-corn, the weight whereof is therefore called a *grain*; which arithmetically, being multiplied, to scruples, drachmas, ounces, and pounds.—*Holder*.

The trial being made betwixt lead and lead, weighing severally seven drachms, in the air; the balance in the water weigheth only four drachms and forty-one *grains*; and abstract of the weight in the air two drachms and nineteen *grains*; the balance kept the same depth in the water.—*Bacon*.

His brain
Outweigh'd his rage but half a *grain*.

Butler, Hudibras.

6. Anything proverbially small.

For the whole world before thee is as a little *grain* of the balance.—*Wisdome*, xl. 24.
It is a sincerely pliable, ductile temper, that neglects not to make use of any *grain* of grace.—*Hammond*.

The ungrateful person lives to himself, and subsists by the good nature of others, of which he himself has not the least *grain*.—*South, Sermons*.

Grain of allowance. Something indulged or remitted; something above or under the exact weight. See, also, *Salt*.

He whose very best actions must be seen with *grains* of allowance, cannot be too mild, moderate, and forgiving.—*Aldrich*.

Grain. s. [from Norse *gren*—branch, in which sense it is provincial.]

1. Direction of the fibres of wood, or other fibrous matter.

Knobs, by the conflux of meeting sap,
Infect the sound pine, and divert his *grain*
Tortive and errant from his course of growth.

Shakespeare, Troilus and Cressida, i. 3.

2. Body of the wood as modified by the fibres.

The beech, the swimming alder, and the plane,
Hard box, and linden of a softer *grain*. *Dryden*.

3. Body considered with respect to the form or direction of the constituent particles.

The tooth of a sea-horse, in the midst of the soldier's parts, contains a curved *grain* not to be found in ivory.—*Sir T. Browne*.

Stones of a constitution so compact, and a *grain* so fine, that they bear a fine polish.—*Woodward*.

A grain-staff is a quarter staff with a pair of short staves at the end, which they call *grains*.—*Bay, East and South Country Words*.

The boatwain struck with a pair of *grains* out of the cabin window a most beautiful fish, about ten pounds' weight.—*White, Journal*, p. 38.

Grain. s. [from Spanish *grano*.] See last extract.

1. Dyed or stained substance.

How the red roses flush up in her cheeks,
And the pure snow with gaudy vermilion stain,
Like crimson dy'd in *grain*. *Spenser, Epithalamion*.
Come, pendive nun, devout and pure,
All in a robe of darkest *grain*,
Flowing with majestic train.

Milton, Il Penseroso, 32.

2. Temper; disposition; inclination; humour from the direction of fibres.

Your mind, pre-occupied with what
You rather must do than with what you should do,
Made you against the *grain* to voice his counsel.

Shakespeare, Cymbeline, ii. 3.

3. Heart; bottom.

The one being tractable and mild, the other stiff and impatient of a superior, they lived but in running concord, as brothers glued together, but not united in *grain*.—*Dayward*.

4. Flesh.

Whose *grain* [of the salmon] doth rise in flakes,
With fatness interlarded.
Drayton, Polyolbion, song 28. (Ord MS.)

5. Form of the surface, with regard to roughness and smoothness.

The smaller the particles of cutting substances are, the smaller will be the scratches by which they continually fret and wear away the glass until it be polished; but be they never so small, they can wear away the glass no otherwise than by grating and scratching it, and breaking the protuberances; and therefore polish it no otherwise than by bringing its roughness to a very fine *grain*, so that the scratches and frettings of the surface become too small to be visible.—*Sir J. Newton, On Opticks*.

[The term *grain* is a translation of Greek *zōon*, given to the insect from its resemblance to a seed or kernel, whence the colour dyed with it was called *zōon*, or in Latin *carminum*, as from *kernel*, the oriental name of the insect, Italian *carminio*, crimson. The term *grana* is applied in Spanish as well to the dye itself as to the cloth dyed with it, and also metaphorically to the fresh red colour of the lips and cheeks. Hence probably the *grain* of wood or of leather, the ornamental appearance of the surface dependent on the course of the fibres. The *grain* of leather is the shining side, in French *grain*, or *fleur de cuir*; *fleur* in the sense of brilliancy, lustre. The Spanish *tez* is explained by Neumann *grain*, shining surface, bloom of the human face. No doubt the term may have its origin in the finer or coarser *grains* of which stone is composed, and the expression may have been transferred from stone to wood and leather, but the former explanation appears to me most probable.—*Widdowson, Dictionary of English Etymology*.]

Grain. v. a. [from Lat. *granum*.] Dye in grain.

Grain. v. a. [from Norse *gren*.] See Grain-ing.

Grained. part. adj. Dyed in grain.

Thou turn'st mine eyes into my very soul;
And there I see such black and grained spots,
As will not leave their tint.

Shakespeare, Hamlet, iii. 4.

Graining. s. [?] Local and rare native fish so called, akin to the dace.

In the Mersey, near Warrington, and in the river Alt which runs by Septon, Lancashire, into the Mersey near Furnby, a fish called the *graining* is taken, which in some reports resembles the dace, yet is a distinct and new species.—*Pennant, Tour in Scotland*, pp. 11, 12.

The *graining* is also shortly characterized by Shaw, in his General Zoology. . . . One of the streams which produce the *graining* rises in Knowley Park. . . . Several streams in the township of Burton Wood and Bankey. . . . and others in or near the township of Knowley, produce the *graining* in considerable numbers. . . . The first dorsal fin-ray in the *graining* is short, the second ray the longest.—*Yarrell, British Fishes*.

Graining. s. Painting so as to imitate the grain of wood, especially oak; 'painting and graining,' painter and grainer, being common notions.

Graining. s. [from Lat. *granum*.] Roughening as a granulation.

It is called by some the unmill'd guinea, as having no *graining* upon the rim.—*Leake*.

Grains. See Grain, s.

Grallatorial. adj. [Lat. *gralla* = stilt.] In Zoology. Belonging to the order *Grallatores*, = stilted birds, i.e. birds with legs for wading, as the crane, &c. See Wader.

We have frequently demonstrated in another work, that the racial types throughout ornithology always contain birds which seem to have an instinctive disposition towards domestication; and we may observe that all *grallatorial* types, however sociably they live among themselves, are yet so remarkably different from the former, that they appear to shun the very approach of man,—never, from choice, coming near his dwellings. . . . The swiftest running birds . . . are the typical *grallatores*, for they only make use of their wings when suddenly disturbed; they are in continual motion, and their pace is always a swift run.—*Scofield, On the Natural History and Classification of Quadrupeds*, §§ 311, 312.

terj. [Fr. *grand* = great + *merci* = thanks.] Obsolete expression of obligation.

Graceray, Mammon, said the gentle knight,
For so great grace. *Spenser, Faerie Queene*.
We have our several palms for several occasions,
Without *graceray* to your liturgy.—*Milton, Animadversions upon a Defence of the Humble Remonstrance*.

Madam, quoth he, *graceray* for your care.
Dryden, The Cuck and the Fox.

Gramineous. adj. In Botany. Having the character of a grass.

The opinion [of] the great Swedish naturalist, that the true hard was a *gramineous* plant, and a species of *Andropogon*.—*Sir W. Jones, On the Spikeword of the Ancients*.

Graminivorous. adj. [Lat. *voro* = devour.] Grass-eating; living upon grass.

The ancients were voracious chiefly in the direction of brutes, among which the *graminivorous* kind have a party-coloured choroides.—*Sharpe, Surgery*.

Grammar. s. [Fr. *grammaire*.]

1. Science of speaking correctly; art which teaches the relations of words to each other.

To be accurate in the *grammar* and idioms of the tongue, and then as a rhetorician to make all their graces serve his eloquence.—*Bishop Fell, Life of Hooker*.

It makes a countryman dumb, whom we will not allow to speak but by the rules of *grammar*.—*Dryden, Translation of Du Fresnoy's Art of Painting*.

2. Propriety or justness of speech; speech according to grammar.

'Varium et mutabile semper femina,' is the sharpest satire that ever was made on woman; for the adjectives are neuter, and 'animal' must be understood to make them *grammar*.—*Dryden*.

3. Book that treats of the various relations of words to one another.

To speak and write without absurdity the language of one's country, is commendable in persons of all stations, and to some indispensably necessary; and to this purpose, I would recommend above all things the having a *grammar* of our mother tongue first taught in our schools, which would facilitate our youths learning their Latin and Greek *grammars*.—*Trotter*, no. 234.

Used adjectively.

Men, speaking language according to the *grammar* rules of that language, do yet speak improperly of things.—*Locke*.

Grammar. v. n. Discourse according to the rules of grammar: (its import in the extract turns on the grammatical term *decline*). Rare.

I'll *grammar* with you,
And make a trial how I can deride you.
Bromont and Fletcher, Laws of Candy.

Grammar-school. s. Endowed school for grammatical teaching.

Thou hast most traitorously corrupted the youth of the realm in erecting a *grammar-school*.—*Shakespeare, Henry VI. Part II.* iv. 1.

The ordinary way of learning Latin in a *grammar-school* I cannot encourage.—*Locke*.

Grammatician. s. One who studies, investigates, or teaches grammar.

Many disputes the ambiguous nature of letters hath created among the *grammaticians*.—*Holder, Elements of Speech*.

They who have called him the torture of *grammaticians*, might also have called him the plague of translators.—*Dryden*.

Grammatic. adj. Grammatical: (this latter being the commoner form).

They having but newly left those *grammatic* fables and shallows, where they stuck uncomprehendingly

to learn a few words with lamentable construction.
—Milton, *Tractate on Education*.

We conclude, therefore, that what was thus inspired was the terms, and that *grammatical* consanguinity in the use of them, which is dependent thereon.—Warburton, *Lectures of Grace*.

Grammatical. *adj.* Belonging to, conveyed by the rules of, grammar.

The beauty of virtue still being not before their eyes, and that taught them with far more diligent care than grammatical rules.—Sir P. Sidney.

They seldom know more than the grammatical construction unless born with a poetical genius.—Dryden, *Translation of Du Fresnoy's Art of Poetry*.

I shall take the number of consonants, not from the grammatical alphabet of any language, but from the diversity of sounds framed by single articulations with syllables.—Hobbes.

Grammatically. *adv.* In a grammatical manner; according to the rules or science of grammar.

When a sentence is distinguished into the nouns, the verbs, pronouns, adverbs, and other particles of speech which compose it, then it is said to be analysed grammatically.—Watts.

Grammaticaster. *s.* Mean verbal pedant; low grammarian. *Rare.*

He tells thee true, my noble neophyte; my little grammaticaster, he does.—B. Jonson, *Poetaster*.

There would not then be so many fastidious and unworthy preachers in divinity, so many petty loggers in law, so many quack-salvers in physick, so many grammaticasters in country schools.—Sir W. Petty, *Advice to a Merchant*, p. 23, 1694.

I have not varied language with the doubts, the remarks, and eternal triflings of the French grammaticasters.—Ruymer.

Grammatication. *s.* Rule, or refinement, of a grammarian. *Rare.*

A language of a philosophical institution, or a real character, would be by much the most easy; as being free from all anomaly, equivocalness, redundancy, and unnecessary grammatications.—Dictionnaire, *Didactolophos*, p. 52, 1690.

Grammaticize. *v. n.* Act the grammarian. *Rare.*

Grammaticizing pedantically, and criticising superfluously upon a few Greek particles.—Bishop Ward, *On the Myrry of the Gospel*, p. 44, 1673.

Grammaticize. *v. a.* Render grammatical.

I always said, Shakespeare had Latin enough to grammaticize his English.—Johnson, in *Boswell's Life of Johnson*.

Grammatist. *s.* Sorry or spurious grammarian; grammaticaster. *Rare.*

The grammatist has mislaid the grammarian, and both of them the philosopher.—H. Tuck, *Dissertations of Purley*, l. 328.

Grampus. *s.* [P.] Cetaceous animal so called (Phocæna Oren).

(Give me leave to name what fish we took; dolphins, porpoises, grampuses, which Mr. Sande thinks is the right dolphin, from also being of that opinion.—Sir T. Herbert, *Relation of some Rare Travels into Africa and the Great Asia*, p. 384.)

The grampus is the largest of the dolphins, being from twenty to twenty-five feet in length, and a most cruel enemy to the whale. The grampuses attack the latter in troops, harass it until it opens its mouth, and then they devour the tongue.—*Translation of Cuvier's Règne Animal*.

Many fabulous or exaggerated stories have been universally propagated respecting the grampus. It has been considered as not only the most formidable enemy of the larger whales, attacking them in numerous bands, with the utmost fury, and worrying them even to death, but it has been accused of pursuing the common whale for a purpose which would indicate a gastronomic taste worthy of Helio-gabalus himself. It is said to harass its huge victim till in its terror and agony it opens its mouth; when the grampus darts upon the tongue and tears and devours the delicious morsel. The truth appears to be, as far as credible testimony can be obtained, that the grampus is extremely voracious. Hunter found . . . a portion of a porpoise in the stomach of one which he examined.—Bell, *History of British Quadrupeds, including the Cetacea*.

Granary. *s.* [Lat. *granarium*.] Storehouse for threshed corn.

Ants, by their labour and industry, contrive that corn will keep as dry in their nests as in our granaries.—Addison.

Grand. *adj.* [Fr., from Lat. *grandis*.]

1. Great; illustrious; high in power or dignity.

God had planted, that is, made to grow the trees of life and knowledge, plants only proper and becoming the paradise and garden of a grand Lord.—Sir W. Raleigh, *History of the World*.

VOL. I.

2. Great; splendid; magnificent.

A voice has flown
To re-enclose a grand design.

There is generally in nature something more grand and august than what we meet with in the curiosties of art.—Addison, *Spectator*, no. 414.

3. Principal; chief: (hence, in composition, *grand-juror*, *grand-master*, *grand-signior*, and the like).

What cause
Mov'd our grand parents, in that happy state,
Favour'd of heav'n so highly, to fall off
From their Creator. Milton, *Paradise Lost*, l. 29.

4. Eminent; superior: (very frequently in an ill sense).

Our grand foe Satan.

Milton, *Paradise Lost*, x. 1033.

So climb this first grand thief into God's fold.

Ibid. iv. 192.

5. Noble; sublime; lofty; conceived or expressed with great dignity.

Among colours, such as are soft or cheerful (except perhaps a strong red which is cheerful) are unfit to produce grand images.—Burke, *On the Sublime and Beautiful*, § 10.

6. It is used to signify ascent or descent of consanguinity.

Grandam. *s.* [grand and dam; hence, when properly sounded, with two d's. Grannam, however, a pronunciation in the other extreme, is common.]

1. Grandmother.

I meeting him, will tell him that my lady
Was fairer than his grandam, and as chaste
As may be in the world.

Shakespeare, *Troilus and Cressida*, l. 3.

We have our forefathers and great grandames
all before us, as they were in Chaucer's days.—Dryden.

The tygress heart belies my angel face;
Too well thou shew'st thy pedigree from stone;
Thy grandame's was the first by Pyrrhus thrown.

Ibid.

2. Old withered woman.

The women
Cry'd, one and all, the suppliant should have right,
And to the grandame has adjudg'd the knight.

Dryden, *The Wife of Bath's Tale*.

Spelt and sounded without any d at all.

Her mother goodwy' Polish has confest'd it
To grannam keep, the nurse, how they did change
The children in their cradles.

B. Jonson, *Magnetic Lady*.

(Ghosts never walk till after midnight, if I may believe my grannam.—Beaumont and Fletcher, *Lucio's Progress*.)

I stripped again, as well to find what ail'd me, as
To satisfy my grannam's farther curiosity.—Tutler, no. 15.

Off my kind grannam told me, Tim, take warning.

Gay.

Grandchild. *s.* Child (son or daughter) of a child (son or daughter); member of a second generation.

Augustus Cæsar, out of indignation against his daughters and Agrippa his grandchild, would say that they were not his seed, but imposthumes broken from him.—Livon.

These hymns may work on future wits, and so
May great grandchildren of thy praises grow.

Donne.

He hoped his majesty did believe, that he would never make the least scruple to obey the grandchild of king James.—Lord Clarendon, *History of the Grand Rebellion*.

He scaping, with his gods and reliques fled,
And tow'rd the shore his little grandchild led.

Sir J. Denham, *The Destruction of Troy*.

There is something very absurd in this. Grandfather is properly the great or greater father; but the case seems to be just the contrary with grandchild, who is the little or less child. The French therefore express it much more sensibly than we do, by petit fils.—Fénelon.

Grandaughter. *s.* Female grandchild.

This granddaughter of a man, who will be an ever-living glory to the nation, has now for some years with her husband kept a little chandler's or grocer's shop for their subsistence.—Bishop Newton, *Life of Milton*.

Grandé. *s.* Man of great rank, power, or dignity; great man; magnate: (which last word it nearly translates).

In a great person, right worshipful sir, a right honourable grandé, 'tis not a venial sin; no, not a peccadillo!—Barton, *Anatomy of Melancholy*, to the reader.

In this mercy-seat, it is observable, three grandies are met together; blessing, joy, and hope; and yet

there is no strife for precedence.—Archbishop Laud, *Sermons*, p. 83.

They had some sharper and some milder differences, which might easily happen in such an interview of grandees, both vehement on the parts which they sway'd.—Sir H. Wotton.

When a prince or grandee manifests a liking to such a thing, men generally set about to make themselves considerable for such things.—South.

Some parts of the Spanish monarchy are rather for ornament than strength: they furnish out viceregalities for the grandees, and posts of honour for the noble families.—Addison.

In the coolness of his ordinary language he surpassed the Macedonian grandees: in their exequial elegance the effeminate princes of Cyprus and Phœnicia.—Bishop Thirlwall, *History of Greece*, ch. lix.

His elevation was seen with scarcely less satisfaction by the bigoted grandees of Castile than by the English Whigs.—Macaulay, *History of England*, ch. x.

On one point, it was announced, his [George III.'s] mind was unalterably made up. Under no circumstances whatever should those Whig grandees, who had enervated his predecessors and emboldened to enslave himself, be restored to power.—Id., *Critical and Historical Essays, The Earl of Chatham*.

Grandeeship. *s.* Rank or estate of a grandee; lordship.

I think the comde de Altamira has no less than thirteen grandeeships centred in his person.—Switzerland, *Travels through Spain*, let. 42.

Grandeur. *s.*

1. State; splendour of appearance; magnificence.

As a magistrate or great officer, he looks himself from all approaches by the multiplied formalities of attendance, by the distance of ceremony and grandeur.—South, *Sermons*.

2. Greatness, as opposed to minuteness.

Let a man try to conceive the different bulk of an animal, which is twenty, from another, which is a hundred times less than a wife; or to compare, in his thoughts, a length of a thousand diameters of the earth with that of a million; and he will quickly find that he has no different measures in his mind adjusted to such extraordinary degrees of grandeur or minuteness.—Addison, *Spectator*, no. 420.

3. Elevation of sentiment, language, or mien.

To want little is true grandeur; and very few things are great to a great mind.—Tutler, no. 170.

Grandevity. *s.* [Lat. *æternus* = age, life.] Great age; length of life.

Dr. Me for his function and grandevity take hands Mr. Baxter so respectfully, and forbears all such juvenilities as he had used towards Eugenius.

Annotations on the Discovery of Truth, p. 183; 183.

Grandfather. *s.* Parent's father; father of my father or mother; next above my father or mother in the scale of ascent.

One was saying that his great grandfather, and grandfather, and father died at sea; I said another that, An! I were you, I would never come at sea. Why, with he, where did your great grandfather, and grandfather, and father die? He answered, Where but in their beds! He answered, An! I were as you, I would never come in bed.—Bacon.

Our grandchildren will see a few rag hung up in Westminster-hall, which cost an hundred millions, whereof they are paying the arrears, and boast that their grandfathers were rich and great.—Swift.

Grandiloquence. *s.* [Lat. *loquor* = speak.] High, lofty, or big speaking.

The prophet has promissed them with such magnificent words, and enthusiastic grandiloquence.—Dr. H. More, *Mystery of Godliness*, p. 271.

Grandity. *s.* Greatness; grandeur; magnificence. An old word.

Our poets excel in grandity and gravity, smoothness and property, in quickness and brevity.—Camden, *Remains*.

Grandly. *adv.* In a grand manner; sublimely; loftily.

I now saw what I never saw before, a prodigious sea, with immense billows, coming upon a vessel, so as that it seemed hardly possible to escape. There was something grandly horrible in the sight.—Boswell, *Tour to the Hebrides*, p. 348.

Grandmother. *s.* Parents' mother; mother of my father or mother.

Thy grandmother Lois, and thy mother Eunice.—1 Timothy, i. 5.

Grandness. *s.* Attribute suggested by Grand; greatness.

In order to prove to any one the grandness of this fabric of the world, one need only to bid him consider the sun.—Wolaston, *Religion of Nature*, § v. 14.

Grandsire. s.**1. Grandfather.**

Think 't thou that I will leave my kingly throne,
Wherein my grandsire and my father sat!

Shakespeare, Henry VI. Part III. l. 1.

Thy grandsire, and his brother, to whom fame
Gave, from two conquer'd parts o' th' world, their
name.

Sir J. Denham.

The wreaths his grandsire knew to reap

By active toil and military sweat.

Prior.

2. Any ancestor, poetically.

Why should a man, whose blood is warm within,
Sit like his grandsire, cut in slabster?

Shakespeare, Merchant of Venice, l. 1.

Above the portal, carv'd in cedar wood,
I had in their ranks, their godlike grandsires stood.

Dryden.

No mimic ancient wits at best,

As apes our grandsires in their doublets dress.

Pope.

Gránsón. s. Son of a son or daughter.

Almighty Jove augment your wealthy store,
Give much to you, and to his gránsóns more.

Dryden.

Grandfathers in private families are not much
observed to have great influence on their gránsóns,
and, I believe, they have much less among princes.

—Swift.

Grange. s. [Fr. grange; from Lat. granum, grain, corn.]**1. Granary.**

It thought it was the sound
Of riot and ill-manag'd merriment,
Such as the jocund flute, or gambouge pipe,
Stirs up among the loose unletter'd hind;
When for their teeming flocks, and granges full,
In wanton dance they praise the bounteous Pan.

Milton, Comus, 171.

2. Farm: (generally a farm with a house at a distance from neighbours).

At the meated grange resides this dejected Ma-
rianna.—*Shakespeare, Measure for Measure, iii. 1.*

One, when he had got the inheritance of an un-
lucky old grange, would needs sell it; and, to draw
buyers, proclaimed the virtues of it: nothing ever
thrived on it, said he; . . . the trees were all blasted,
the swine died of the mares, the cattle of the murrain,
and the sheep of the rot; nothing was ever
reared there, not a duckling or a goose.—*B. Jonson, Discourses.*

It is only the poor grange,
The patrimony which my father left me,
I would be tenant to.

Beaumont and Fletcher, The Prophetess.

If the church was of their own foundation, they
might choose, the incumbent being deceased, whether
they would put any other therein; unless, perhaps,
the said church had people belonging to it; for then
they must still maintain a curate: and of this sort
were their granges and parishes.—*Asplife, Paragon Juris Canonici.*

A grange implies some one particular house im-
mediately inferior in rank to a hall, situated at a
small distance from the town or village from which
it takes its name; as Hornby Grange, Blackwell
Grange, and is in the neighbourhood simply called
the Grange. Originally, perhaps, these buildings
were the lord's granary or storehouse, and the re-
sidence of his chief butler. *—Ritson.*

A grange, in its original signification, meant a
farmhouse of a monastery (from grana gerudo),
from which it was always at some little distance.
One of the monks was usually appointed to inspect
the accounts of the farm. He was called the prior
of the grange—in barbarous Latin, "grangarius."
—Malone.

Used adjectively.

Till my return I would have thee stay at our little
granger house in the country.—*Tarleton, News out of Purgatory. (Malone.)*

Grange. v. a. Farm, in the way of revenue or taxes; barter; make a profit out of any thing.

The ruffianry (brokerage) of causes I am daily more
and more acquainted with, and see the manner of
dealing which cometh of the Queen's straitness to
give these women, whereby they presume thus to
grange and truck causes.—*Birch, Memoirs of Queen Elizabeth. (Rich.)*

Gránito. s. [Italian, granito = grained.] In Mineralogy and Geology. Stone, or rock, so called.

Granite [is] a stone composed of separate and very
large concretions, rudely compacted together; of
great hardness, giving fire with steel; not fermenting
with acids, and imperfectly calcifiable in a great fire.
The hard white granite with black spots, commonly
called moor-stone, forms a very firm, and though
rude, yet beautifully variegated mass. It is found
in immense strata in Ireland, but not used there.
In Cornwall it is found in prodigious masses, and
brought to London, for the service of public build-
ings. Hard red granite, variegated with black and
white now called oriental granite, is valuable for
1090.

its extreme hardness and beauty, and capable of a
most elegant polish.—*Sir J. Hill, On Poebles.*
Alabaster, marble of diverse colours, both simple
and mixed, the opulents, porphyry, and the granite.
—*Woodward.*

There are still great pillars of granite, and other
fragments of this ancient temple.—*Addison, Travels in Italy.*

Granite is a compound rock essentially composed
of quartz, felspar, and mica, each in granular crys-
tals. . . . Some of the granites of Cornwall and the
Ibomund readily resolve themselves into a white
kaolin or argillaceous matter, from which pottery
and porcelain are made.—*Ure, Dictionary of Arts, Manufactures, and Mines.*

Granitic. adj. Consisting of, or connected with, granite.

That granite and granitic rocks . . . are of igneous
origin there can be no doubt.—*Ansted, Geology, ch. xlv.*

Graniticol. adj. Same as Granitic.

Viewed at a distance, this enormous mass of stone
has the appearance of a human figure, and its
granitic form has given rise to a variety of fables. On
approaching it, we find that it consists of several
ledges of granite, piled one upon another in the
rudest manner. If, however, we bow down to this
graniticol god, we shall meet deities at every step.
—*Polechale, History of Devonshire, vol. i. pt. i.*

Granivorous. adj. [Lat. voro = devour.]

Eating grain; living upon grain.

Granivorous birds, as a crane, upon the first peck
of their bill, can distinguish the qualities of hard
bodies, which the sense of men discerns not without
mastication.—*Sir T. Browne.*

Paucity affords a soft succulent nourishment, both
for granivorous birds and mankind.—*Arbutnot, On the Nature and Choice of Aliments.*

Gránnam. s. See Grandnam.**Grant. v. a. [see last extract.]****1. Admit that which is not yet proved; allow; yield; concede.**

They gather out of Scripture general rules to be
followed in making laws; and so, in effect, they
plainly grant, that we ourselves may lawfully make
laws for the church.—*Hooker, Ecclesiastical Polity.*
I take it for granted, that though the Greek word
which we translate admits be in itself as applicable
to things as persons, yet in this article it signifieth
not holy things, but holy ones.—*Bishop Pearson, Exposition of the Creed.*

Grant that the fates have firm'd, by their decree,
The Trojan race to reign in Italy.

Dryden, Translation of the Æneid.

Suppose, when yet I grant not, thy desire
A moment older than my rival fire,
Can chance of seeing that thy title prove?

—In Palamon and Arcite.

If he be one indifferent as to the present rebellion,
they may take it for granted his complaint is the
rage of a disappointed man.—*Addison, Freucholder.*

2. Bestow something which cannot be claimed of right.

The God of Israel grant thee thy petition that
thou hast asked of him.—*1 Samuel, l. 17.*

Then hath God also to the Gentiles granted re-
pentance unto life.—*Acts, xiii. 48.*

Didst thou not kill this king?—*1 grant ye.*
Dost grant me, beheading? Then God grant me too,
Thou may'st be damned for that wicked deed.

Shakespeare, Richard III. l. 2.

He heard, and granted half his prayer;

The rest the winds dispersed.—*Pope.*

[Grant.—Much difficulty is thrown on the etymology of
this word by the concurrence of forms which can
hardly be traced to a common origin. From Latin
gratus is formed Italian grato, French gré, grâ-
ce, French gré, will, liking, consent, and thence Italian
gratire, agree, to approve, allow, French gréer,
agree, English agree, to approve, allow, give con-
sent to. In Middle Latin gratus, or gratulus, was
used as a substantive; 'vine gratus meus, without my
consent. . . . The insertion of the nasal converted
gratus into gratum, in the same sense. . . . Facere
gratum and facere gratum, or gratificare, are
found indifferently in the sense of making satisfac-
tion. . . . We have next the verb gratare, gratulare,
gratificare, French gréer, in the sense of doing an
agreeable thing, bestowing a gift, making over an
interest, agreeing to an arrangement. . . . If the
foregoing forms had stood by themselves, the deriva-
tion from gratus would not have been doubtful, but
parallel with these are found gratum, . . . grana-
lagium, . . . French granger, granger, granger, to
praise, engage for, to bind oneself; crâncie,
crâncie, crânc, crânc, assurance, contract, engage-
ment, obligation. Now it is hardly possible that
grant could be converted by mere corruption into
grat, crânc, the double cr in the old French being
an almost certain sign of the loss of a d, as in ange
from adage, canche from cadille, haer, hér, from
bâder. On this principle French crânc would
be the equivalent of a Latin crânculus, trunk, con-
science, assurance. . . . Ego il archiepiscopus scripsi
to Raymundum in fide et crâncie mea loco sacramen-
ti.] (Chart. A. D. 1167, in Chart.) (Old French
crânc, believing. 'Sire si vous o'et volés et s'en

some crânc' (Roquefort.) The Breton crânc, the
root of crânc, Latin crânc, to believe, is used in the
sense of assurance, obligation, security, crâncie,
caution, grant, (Legende.) The pronunciation of
the north of France, which regularly changes an
initial gr into cr (converting grânc, grânc, grand-
deu, into crânc, crânc, crânc-deu—Hébert) would
leave so little difference between crânc, to confer
an advantage, from gratus, and crânc, to assure,
from credere (both used with equal frequency in
legal instruments in the act of transferring a right),
that it is not surprising if the two were confounded.
We find accordingly the g of gratus united with the
as of crânc, and gratus, grânc, used in the
sense of crânc. 'Super istas pactiones omnes
sepe nominati Domino de Legnaso grâncaverunt
(cavega, plegas themselves) quod tenebant, &c.'
Framula omnis et singula immobilia tenere et
fideliter adimplere promiserunt et grâncaverunt.—
Wagwood, Dictionary of English Etymology.]

Grant. s.**1. Act of granting or bestowing; thing granted; gift; boon.**

Courtiers justle for a grant,
And when they break their friendly pleas'd their
want.

Dryden.

2. In Law.

All the land is the queen's, unless there be some
grant of any part thereof, to be shewed from her
majesty.—*Spenser, View of the State of Ireland.*

Grant [is] a gift in writing of such a thing as can-
notably be passed or conveyed by word only; as rent,
reversion, services, advowsons in gross, common in
gross, tithes, &c., or made by such persons as cannot
give land by deed, as the king, and all bodies politic;
which difference he often in speech neglected, and
then is taken generally for every gift whatsoever,
made of any thing by any person, such that
granted it is named the grantor, and he to whom
it is made the grantees. A thing is said to be in
grant which cannot be assigned without deed.—
Covent.

Not only the laws of this kingdom, but of other
places, and the Roman laws, provide that the prince
should not be deprived in his grants.—*Ducommun.*

It was indeed an unfortunate grant, a grant
which could not be brought to light without much
trouble and much scandal.—*Macaulay, History of England, ch. xzv.*

3. Concession; admission of something in dispute.

But of this so large a grant, we are content not to
take advantage.—*Hooker, Ecclesiastical Polity.*

This grant destroys all you have urg'd before.

Dryden.

Grantable. adj. Capable of being granted; that may be granted.

The office of the bishop's chancellor was grantable
for life.—*Asplife, Paragon Juris Canonici.*

I will inquire therefore in what cases dispensa-
tions are grantable, and by whom.—*Bishop of Lon-
don's (Sherlock) Charge, p. 6: 1750.*

Granteé. s. One to whom any grant is made.

To smooth the way for popery in Mary's time, the
grantees were confirmed by the pope in the posses-
sion of the abbey-lands.—*Swift.*

Grantor. s. One by whom a grant is made.

A 'duplex querela' shall not be granted under
pain of suspension of the grantor from the execution
of his office.—*Asplife, Paragon Juris Canonici.*

Gránular. adj. Consisting of, formed by, having a likeness to, grain.

Some granular marbles are flexible in their shal-
or, at least, become so by being dried at the fire.—
Ure, Dictionary of Arts, Manufactures, and Mines.

Gránulary. adj. Small and compact; resembling a small grain or seed.

Small-coal, with sulphur and nitre, proportionably
mixed, tempered, and formed into granular bodies,
do make up that powder which is in use for guns.—
Sir T. Browne, Vulgar Errors.

Gránulate. v. a. Be formed into small grains.

The juice of grapes, inspissated by heat, granulate
into sugar.—*Bishop Sprat.*

Gránulate. v. a.**1. Break into small masses or granules.**

Most of the Scheemits silver ore holds some gold,
which they separate by melting the silver, then
granulating it.—*E. Browne, Travels in Europe, p. 50.*

Raise into small asperities.

I have observed, in many birds, the gullet, before
its entrance into the gizzard, to be much dilated, and
thick w, or as it were granulated with a multitude
of glandules, each whereof was provided with its
excretory vessel.—*Bay.*

Granulation. s.**1. See extract.**

Granulation [is] the act of pouring melted metal

into cold water, so as it may granulate or congeal into small grains; it is generally done through a colander, or a birchen broom. Gunpowder and some salts are likewise said to be granulated, from their resemblance to grain or seed. — *Quincy*.

Granulation . . . is effected by pouring (metals), in a melted state, through an iron cylinder pierced with small holes into a body of water; or directly upon a bundle of twigs immersed in water. In this way copper is granulated into bean shot, and silver alloys are granulated preparatory to refining. — *Ure, Dictionary of Arts, Manufactures, and Mines*.

2. In Surgery. Act of shooting or breaking in small masses.

Tents in wounds, by retarding the growth of the little granulations of the flesh, in process of time harden them, and in that manner produce a fistula. — *Sharp, Surgery*.

Nature is supposed to be active in bringing parts as nearly as possible to their original state. . . . and after having . . . formed just . . . sets about forming a new matter upon surfaces in which there has been a breach of continuity. This process is called granulating or incrustation, and the substance formed is called granulations. The colour of healthy granulations is a deep florid red. — *Hewer, Medical Dictionary*.

Grain. s. Small grain.

With an excellent microscope, where the naked eye did see but a green powder, the assisted eye could discern particular grains, some blue, and some yellow. — *Boyle, Experiments and Considerations touching Colours*.

Grape. s. [Fr. *grappe*.] Fruit of the vine, growing in clusters; fruit from which wine is expressed.

And thou shalt not glean thy vineyard, neither shalt thou leave every grape of thy vineyard; thou shalt leave them for the poor and stranger. — *Leviticus*, xix. 10.

Amerson, for thy sake
I of the grape no mention make;
Ere my Amerson by thee fell,
Cursed plant, I lov'd thee well.

Corley.

Grapeless. adj. Wanting grapes; wanting the strength and flavour of the grape.

The entertainment consisted of cold fish, lean chickens, rusty hams, raw venison, and grapeless wines. — *Jungus*.

Grapestone. s. Stone or seed contained in the grape.

When obedient nature knows his will,
A fly, a grapestone, or a hair can kill. — *Prior*.

Graphical. adj. [Gr. *γράφω* = write, describe.] 1. Descriptive.

He can
Find all our atoms from a point & a span;
Our closest crevices and corners; and can trace
Each line, as it were graphick, in the face.
— *B. Jonson, Underwoods*.

2. Relating to engraving.

Availing himself of his poetical talent, and his facility in the graphick art. — *T. Walton, History of English Poetry*, ii. 57.

Graphical. adj. Same as Graphic.

Write with a needle, or bodkin, or knife, or the like, when the fruit or trees are young; for as they grow, so the letters will grow more large and graphical. — *Hucius, Natural and Experimental History*.

In this so graphical a description of the Son of God, enclosed in all the pomp and majesty of his Father, the attitude is most observable: 'His right foot was on the sea, and his left on the earth.' — *Warburton, Sermons*, xx.

Graphically. adv. In a graphic manner.

After it, succeeded their third dance; than which a more numerous composition could not be seen; graphically disposed into letters, and honouring the name of the most sweet and ingenious prince, Charles duke of York. — *B. Jonson, Mucous at Court*.

Very rhetorical delineations follow their miseries by this invasion of Nebuchadnezzar, graphically as in a map described. — *Bishop Richardson, On the Old Testament*, p. 418.

The hyacinth odorata, or civet cat, is delivered and graphically described by Castellan. — *Sir T. Browne, vulgar Errors*.

Graphite. s. Black lead, as used for pencils; plumbago, for which it is the mineralogical term; and to which it is preferable, inasmuch as plumbago suggests an affinity to lead (*plumbum*), which in graphite has no existence; its affinities, as may be seen in the extracts, being in a wholly different direction.

Graphite . . . consists of carbon in a peculiar state of aggregation with an extremely minute and apparently accidental impregnation of iron. Graphite,

called also plumbago and black lead, occurs in gneiss, mica-slate, and their subordinate clay-slates and limestone; . . . also in the transition state, as at Borradale in Cumberland, where the most precious deposit exists both in reference to extent and quality for making pencils. — *Ure, Dictionary of Arts, Manufactures, and Mines*.

Carbon presents itself in the three unlike conditions of diamond, graphite, and charcoal. — *Herbert Spencer, Data of Biology*, ch. l. § 1.

Graphometer. s. [Gr. *μέτρον* = measure.] Surveying instrument.

As for the bearings and distances, they are very different from those I have given, which answered in every part, almost as exactly as if I had surveyed a field with a graphometer. — *Drummond, Tracts*, p. 244: 1743.

Grapple. s. [Fr. *grappil*, *grappin*.] Grapple of a ship; small anchor, often with four flukes, belonging to a little vessel.

The canoe was fixed to a grapple in the middle of the harbour. — *Amos, Voyage round the World*, b. ii. ch. xiii.

Grapple. v. a.

1. Contend by seizing each other, as wrestlers.

Your grace and I
Must grapple upon even terms no more.
— *Hammond and Fletcher, Maid's Tragedy*.

They must be also practised in all the locks and grips of wrestling, as used may often be in fight to tug or grapple, and to close. — *Milton, Tractate on Education*.

Living virtue, all achievements past,
Meets envy, still to grapple with at last.
Does he think that he can grapple with divine
vengeance, and endure the everlasting burnings! — *South, Sermons*.

2. Contest in close fight.

I'll in my standard bear the arms of York,
To grapple with the house of Lancaster.
— *Shakespeare, Henry VI. Part II. l. 1.*

Grapple. v. a.

1. Fasten; fix; join indissolubly.

Grapple your minds to sterne of the navy,
And leave your England as dead midnight still.
— *Shakespeare, Henry V. iii. chorus*.

Grapples you to the heart and love of us.
— *Il., Macbeth*, iii. 1.

For hipparchus, vessels for the transporting of
horns, we are indebted to the Salaminitas; for
grappling hooks to Ancliaris. — *Heglyn*.

Grapple. s.

1. Contest hand to hand, in which the combatants seize each other; wrestler's hold.

As when earth's son, Anteus, strove
With Jove's Alcides, and, oft foild, still rose
Fresh from his fall, and fiercer grapple join'd,
Throttled at length in the air, expired and fell.
— *Milton, Paradise Regained*, iv. 555.

Or did his genius
Know mine the stronger demon, fear'd the grapple,
And, looking round him, found this nook of fate,
To slink behind my sword? — *Dryden, Don Sebastian*.

2. Close fight.

In the grapple I boarded them; on the instant
they got clear of our ship, so I alone became their
prisoner. — *Shakespeare, Hamlet*, iv. 6. letter.

It is a remarkable circumstance that one of the letters of Hastings to Dr. Johnson bears date a very few hours after the death of Sumner. While the whole settlement was in commotion, . . . the conqueror in that deadly grapple was down, with characteristic self-possession, to write about the Tour to the Hebrides, Janus's Persian Grammar, and the history, traditions, arts, and natural productions of India. — *Mowat, Critical and Historical Essays, Warren Hastings*.

3. Iron instrument by which one ship fastens on another.

But Cygnus soon his crooked grapple cast,
Which with tenacious hold his foes embraced.
— *Dryden, Cygnus and Iphigenia*.

Grapplement. s. Close fight; hostile embrace. Rare.

They catching hold of him, as down he lent,
His backward overthrow, and down him stay'd
With their rude hands and grisly grapplement.
— *Spenser, Faerie Queene*.

Grappling. part. adj. Catching as a grapple.

Sometimes, from fighting squadrons of each fleet,
Two grappling Atlas on the ocean meet,
And English fires with Belgian flames outsend.
— *Dryden*.

Anteus here and stern Alcides strive,
And both the grappling status seem to live.
— *Addison*.

Grappling. verbal abs. Grapple; tackle con-

nected therewith: (often used either adjectively, or as the first element of a compound; e.g. *grappling-iron*).

I came to an anchor; for I had made me a kind of an anchor with a piece of broken grappling which I put out of the ship. — *De Foë, Life and Adventures of Robinson Crusoe*.

Grappy. adj.

1. Full of clusters of grapes.

The grappy clusters spread
On his fair brows, and dangle on his head.
— *Addison, Translation from Onid*.

2. Made of, connected with, the grupe.

And on the marble altar's polish'd frame
Pours forth the grappy stream.
— *Gray, Translation from Onid*.

Graster. s. See Grazier.

Grasp. v. a. [root of grip; compare clip, clasp.]

1. Hold in the hand; gripe.

O fool that I am, that thought I could grasp wa-
ter and bind the wind! — *Sir P. Sidney*.

In his right hand
Grasping ten thousand thunders, which he sent
Before him, such as in their souls infla'd
Plagues.
— *Milton, Paradise Lost*, vi. 635.

Things, by grasping more than they could hold,
First made their subjects, by oppress a bold.
— *Sir J. Denham, Cooper's Hill*.

Thou, as they please, my empire not to stand,
I'll grasp my scepter with my dying hand.
— *Dryden, Indian Emperor*.

2. Seize; catch at.

For what are men who grasp at praise sublime,
But bubbles on the rapid stream of time? — *Young*.

Grasp. v. a.

1. Catch; endeavour to seize; try at.

So endless and exorbitant are the desires of men,
that they will grasp at all, and can form no scheme
of perfect happiness without less. — *Swift*.

2. Struggle; strive; grapple.

See, his face is black and full of blood;
His hands abroad display'd, as one that grasps
And tugs'd for life.
— *Shakespeare, Henry VI. Part II. iii. 2*.

3. Gripe; encroach.

Like a miser, whilst his store,
Who grasps and grasps till he can hold no more,
— *Dryden*.

Grasp. s.

1. Gripe or seizure of the hand.

Nor wanted in his grasp
What seem'd both spear and shield.
— *Milton, Paradise Lost*, iv. 930.

This hand and sword have been acquainted well;
It should have come before into my grasp,
To kill the ravisher.
— *Dryden, Don Sebastian*.

The left arm is a little detached, though one may
see it held something in its grasp formerly. — *Addi-
son, Tracts in Italy*.

2. Possession; hold; power of seizing.

I would not be the villain that thou think'st
For the whole space that's in the tyrant's grasp,
And the rich East to boot.
— *Shakespeare, Macbeth*, iv. 3.

Within the direful grasp
Of savage hunger, or of savage heat.
— *Milton, Comus*, 357.

They looked upon it as their own, and had it even
within their grasp. — *Lord Clarendon, History of the
Grand Rebellion*.

Grasping. verbal abs. Seizure; attempt to seize or snatch: (though, in this sense, the notion of trying is suggested, or at least strengthened, by the preposition at).

This grasping of the militia of the kingdom into
their own hands, was desired the summer before. — *Lord Clarendon, History of the Grand Rebellion*.

Grasping. part. adj. Covetous; rapacious, which last term it nearly translates.

He was grasping both in his ambition and his
avarice. — *Hulstun, View of the State of Europe
during the Middle Ages*.

Grass. s. [A.S. *gæs*.]

1. Herb so called.

Ye are grown fat as the heifer at grass, and be-
low as bulls. — *Jeremiah*, l. 11.

2. Season when the grass begins to grow; spring: (common in Husbandry, as applied to the age of horses, 'two years old next grass').

You'll be no more your former you;
But for a blooming nymph will pass,
Just fifteen, coming summer's grass.
— *Swift*.

3. In Botany. The grasses translate the Latin *Gramineæ*, or *Graminaceæ*, the name

of a large class which contains, besides the common grasses of the grazer, the corns or grains (wheat, barley, maize, the lambos, and sugarcane). In Husbandry: the 'artificial grasses' (clover, lucerne, &c.) are no true grasses in the botanical sense of the term.

As the first element of a compound.

The heef being young, and only grass fed, was thin, light, and moist, and not of a substance to endure the salt.—*Sir W. Temple*.

Grass of Parnassus. Native plant so called, *Parnassia pulstris*.

This plant is called *parnassia* from mount Parnassus, where it was supposed to grow; and because the cattle feed on it, it obtained the name of *grass*, though the plant has no resemblance to the grass kind.—*Miller*.

Grass-green. *adj.*

1. (Green with grass.

He is dead and gone, lady,
He is dead and gone;
At his head a grass-green turf,
At his heels a stone.

Shakespeare, Hamlet, iv. 5, song.

He hid him to the fatal place,
Where Margaret's body lay;
And stretch'd him on the grass-green turf,
That wrapt her breathless clay.

Mallet, William and Margaret.

2. Green as grass: (in this case two words rather than a compound).

Apple-green did not mean the colour of any green apple casually taken; but a certain definite colour which the student was to bear in mind, whether he not he had ever seen an apple of that exact hue. The words were not a description, but a record of the colour: the memory was to retain a sensation, not a name. The imperfection of the system (arising from its arbitrary form) was its incompleteness; however well it served for the reference of the colours which it did contain, it was applicable to no others, and thus though Werner's enumeration extended to more than a hundred colours, there occur in nature a still greater number which cannot be exactly described by means of it. In such cases the unexpressed colour is, by the Wernerian, defined by stating it as intermediate between two others: thus we have an object described as between emerald-green and grass-green. . . . It is not always between contiguous members of the series that the undescribed colour is found. If we place emerald-green between apple-green and grass-green, we may yet have a colour intermediate between emerald-green and leaf-green; and, in fact, the Wernerian series of colours is destitute of a principle of self-arrangement and gradation; and is thus necessarily and incurably imperfect.—*Whewell, History of Scientific Ideas, vol. I, p. 343: ed. 1868.*

Grassgrown. *adj.* Grown over with grass.

Desolating Famine, who delights
In grass-grown cities, and in desert fields.

Thomson, Liberty, pt. iv.

Desolation o'er the grass-grown street
Expands hisraven wings.

Akenside, Pleasures of Imagination, b. ii.

If a friend my grass-green threshold find,
O, how my lonely cot resounds with gloe!

Shendone, Elegy, b. vii.

Grasshopper. *s.* Insect so called, of the genus *Tettix*.

Grasshoppers eat up the green of whole countries.

—*Bacon*.

While cicada is rendered a grasshopper, we commonly think that which is so called among us to be the true cicada; wherein, as we have elsewhere declared, there is a great mistake: for we have not the cicada in England, and indeed no proper word for that animal, which the French name 'cigale'; that which we commonly call a grasshopper, and the French 'mantelette', being one kind of locust, so rendered in the plague of Egypt, and in old Saxon named 'gashop'.—*Sir T. Browne, Miscellaneous, p. 109*

Where silver lakes, with verdant shadows crown'd,
Disperse a grateful chillness all around;
The grasshopper avoids th' untainted air,
Nor in the midst of summer ventures there.

Addison.

Used adjectively, as in the name of the *Sylvia (Salicaria) locustella*.

The grasshopper warbler, so called from its very peculiar and almost incessant cricket-like note, is a visitor from the south, which comes to this country for the summer, and is first to be heard and occasionally seen about the middle of April, and leaves us again in September. . . . The grasshopper warbler is found within a few miles north of London, and also in Surrey. . . . Besides the counties immediately round London, the grasshopper warbler has been observed to visit Hampshire, Wiltshire, Devonshire, Cornwall, and Wales.—*Yarrell, British Birds*

Grass-plot. *s.* Small level covered with short grass.

Here on this grass-plot, in this very place,
Come and sport.

The part of your garden next your house should be a parterre for flowers, or grass-plots bordered with flowers.—*Nir W. Temple*.

They are much valued by our modern planters, to adorn their walks and grass-plots.—*Mortimer*.

Grass-week. *s.* See extract.

Parochial perambulations on Holy Thursday were derived from the Terminalia; to which perambulations were added rogations or litanies for the good of the harvest. . . . The three preceding days were to be passed in fasting. This rogation week was called in the Inns of Court, grass-week, because the commons then consisted chiefly of salads and vegetables.—*Fusbroke, Cyclopaedia of Antiquities*.

Grassation. *s.* [Lat. *grassatio*, -onis; *gras*-sor, preterite part. *grassatus* = range or move about in a furious or madmanlike manner.] Ranging about to do wrong or act violently.

If in view there be a perpetual grassation, there must be in virtue a perpetual vigilance.—*Felltham, Resolves, li. 2.*

Grassless. *adj.* Wanting grass.

The wintry snow had covered all their greens,
Nought else upon the grassless ground but winter's waste was seen.

Mirror for Magistrates, p. 356.

Grassy. *adj.* Covered with grass; abundant with grass.

Ne did he leave the mountains bare unseen,
Nor the rank grassy knolls delights under'd.

Keats, Ode of grassy turf.

Their table was, and mossy with hand round.

Milton, Paradise Lost, v. 391.

The most in fields, like herded herds, lie down,
To down olivaceous, on the grassy floor.

Dryden.

Grate. *s.* [from Italian, *grata*.] Partition made with bars placed near to one another, or crossing each other: such as are in cloisters or prisons.

I have grated upon my good friends for three reprieves for you, and your couch-fellow, Nym; or else you had looked through the grate, like a genius of balloons.—*Shakespeare, Merry Wives of Windsor, li. 2.*

Out at a little grate his eyes he cast
Upon those boarding hills, and open plain.

Daniel.

A fan has on it a nursery of lively black-eyed vernal, who are endeavouring to creep out at the grate.—*Addison*.

Specially applied to the range of bars within which fires are made.

My dear is of opinion that an old-fashioned grate consumes coals, but gives no heat.—*Spectator*.

Grate. *v. a.* [from Fr. *grater* and *gratter*.]

1. Rub or wear anything by the attrition of a rough body.

Therout the fiend his gnawing teeth did grate.

Spenser.

Blind oblivion swallow'd cities up,
And mighty states characterless are grated

To dusky nothing.

Shakespeare, Troilus and Cressida, li. 2.

If the particles of the putty were not made to stick fast in the pitch, they would, by rolling up and down, grate and fret the object metal, and fill it full of little holes.—*Sir I. Newton, On Opticks*.

2. Offend by anything harsh or vexatious.

Therout enraged, soon hegan upstart,
Grinding his teeth, and grating his great heart.

Spenser.

They have been partial in the gospel, called and chosen out those softer and more gentle dictates which should less grate and disturb them.—*Dr. II. More, Decay of Christian Piety*.

This habit of writing and discouraging, wherein I unfortunately differ from almost the whole kingdom, and am apt to grate the ears of more than I could wish, was acquired during my apprenticeship in London.—*Swift*.

3. Form a sound by collision of asperities or hard bodies.

On a sudden open fly,
With impetuous recoil and jarring sound,
The infernal doors, and on their hinges grate
Harsh thunder, that the lowest bottom shook
Of Erebus.

Milton, Paradise Lost, li. 878.

Grate. *v. z.*

1. Rub hard so as to injure or offend; offend,

as by oppression or importunity.

Wherein have you been galled by the king?
What peer hath been suborn'd to grate on you,
That you should seal this lawless bloody book
Of forg'd rebellion with a seal divine!

Shakespeare, Henry IV. Part II. iv. 1.

I have grated upon my good friends for three reprieves for you, . . . or else you had looked through the grate.—*Shakespeare, Merry Wives of Windsor, li. 2.*

Paradoxical is of great use; but the faculty must be so tenderly managed as not to grate upon the truth and reason of things.—*Sir E. L'Esrange*.

This grated harder upon the hearts of men.—*South, Sermons*.

I never heard him make the least complaint, in a case that would have grated sorely on some men's patience, and have filled their lives with discontent.—*Locke*.

2. Make a harsh noise as that of a rough body drawn over another.

We are not so nice as to cast away a sharp knife, because the edge of it may sometimes grate.—*Hooker, Ecclesiastical Polity*.

Grate. *adj.* [from Lat. *gratus* = pleasant.] Grateful (in second sense). *Rare*.

It becomes grate and delicious enough by custom.—*Sir T. Herbert, Relation of some Years Travels into Africa and the Great Asia, p. 311.*

Grateful. *adj.*

1. Having a due sense of benefits; willing to acknowledge and to repay benefits.

A grateful mind
By owing owes not, but still pays.

Milton, Paradise Lost, iv. 88.

When some degree of health was given, he exerted all his strength in a return of grateful recognition to the author of it.—*Bishop Hall, Life of Hammond*.

Years of service past
From grateful souls exact reward at last.

Dryden, Fables.

2. Pleasing; acceptable; delightful; delicious.

Whichever is ingrate at first, is made grateful by custom; but whichever is too pleasing at first, grows quickly to satiate.—*Bacon, Natural and Experimental History*.

Now golden fruits on loaded branches shine,
And grateful clusters swell with floods of wine.

Pope.

Gratefully. *adv.* In a grateful manner.

1. With willingness to acknowledge and repay benefits; with due sense of obligation.

He, as new wak'd, thus gratefully replied.

Milton, Paradise Lost, viii. 4.

Enough remains for household charge beside,
His wife and tender children to sustain,
And gratefully to feed his dumb deserving train.

Dryden, Translation of Virgil.

In Cyprus long by mini and gods obey'd,
The lover's toil she gratefully repaid.

Graville.

2. In a pleasing manner.

Study detains the mind by the perpetual occurrence of something new, which may gratefully strike the imagination.—*Watts*.

Gratefulness. *s.* Attribute suggested by Grateful; gratitude; duty to benefactors.

A Laconian knight having sometime served him with more gratefulness than good courage defend'd him.

Sir P. Sidney.

Blessings befriend, ties of gratefulness.

The sound of glory ringing in our ears.

Herbert.

I am pitch'd so high.

To such a growth of full prosperities,

That to conceal my fortunes were an injury

To gratefulness, and these more liberal favours

By whom my glories prosper.

Beaumont and Fletcher, Fair Maid of the Inn.

He [Penton] died poor, but honest; leaving no debts, or legacies, except of a few pounds to Mr. Trumbull and my lady, in token of respect, gratefulness, and mutual esteem.—*Pope, Letter to Broome*.

Grater. *s.* Kind of coarse file with which

soft bodies are rubbed to powder.

Tender handed touch a nettle,

And it stings you for your pains;

Grasp it like a man of mettle,

And it soft as silk remains.

So it is with common natures,

Treat them gently, they rebel;

But be rough as nutmeg-graters,

And the rogues obey you well.

A. Hill.

Gratification. *s.*

1. Act of pleasing.

They are incapable of any design above the present gratification of their passions.—*South, Sermons*.

2. Pleasure; delight.

How hardly is his will brought to change all its desires and aversions, and to renounce those gratifications in which he has long been used to place his happiness!—*Rogers*.

3. Reward; recompense.

Calling drunkenness, good fellowship, pride, comeliness, rage, valour, bribery, gratification.—

Gravy. *s.* [?] Natural juice of cooked meat.

Meat we love half raw, with the blood trickling down from it, delicately terming it the *gravy*, which in truth looks more like an inebriated or raw bloody matter.—*Marcy, Discourse of Consumption.*

Used adjectivally.

There may be a stronger broth made of vegetables than of any *gravy* soup.—*Arbutnot, On the Nature and Choice of Aliments.*

Gray. See Grey.

Graying. *s.* Native fish so called, *Coregonus thymallus*, Umber.

The *grayling* lives in such rivers as the trout does, and is usually taken with the same baits, and after the same manner: he is of a fine shape, his flesh white, and his teeth, those little ones that he has, are in his throat. He is not so general a fish as the trout, nor so good to eat.—*Walton, Angler.*

Grayling are never found in streams that run from glaciers—at least near the source; and they are killed by cold or heat. I once put some *grayling* from the Teur, in September, with some trout, into a rattled water rising from a spring in the yard at Downton; the *grayling* all died, but the trout lived. And in the hot summer of 1825, great numbers of large *grayling* died in the Avon below Ringwood, without being killed by the heat in July.—*Mrs H. Burg, Edmonia, Seventh Day.*

The *grayling*, though abundant in some streams, is a very local fish. Similar in many respects to trout in its habits and wants, there are numbers of trout abounding with trout that do not produce the *grayling*. . . Three *graylings*, weighing together twelve pounds, were caught . . . in the Avon near Ringwood. A *grayling* of four and a half pounds weight has been killed in the Teur, and one of five pounds is recorded to have been caught near Shrewsbury. . . The term 'Thymallus' is said to have been bestowed upon this fish on account of the peculiar odour it emits when fresh from the water, which is said to resemble that of thyme; and from its agreeable odour as well as smell, St. Ambrose is recorded to have called the *grayling* the flower of fishes. To be eaten in perfection it cannot be dressed too soon. The name *grayling* is supposed to be a modification of the word 'gray-line,' in reference to the dusky longitudinal bars along the body.—*Farrell, British Fishes.*

I wind about, and in and out,
With here a blossom sailing,
And here and there a lusty trout,
And here and there a *grayling*.

Tennyson, The Brook.

Graze. *v. n.*

1. Eat, feed on, grass.

The greatest of my pride is to see my ewen graze, and my lambs suck.—*Shakespeare, As you like it, iii. 2.*

Stern look'd the fiend, as prostrate of his will,
Not half suffic'd, and greedy yet to kill. *Dryden*.

While the reaper fills his greedy hands,
And binds the golden sheaves in brittle bands. *Id.*

How fearful would he be of all greedy and unjust ways of raising their fortune!—*Law*.

Greedy, or Greedy, a. Greedy person.

Whence comes it, that so little
Fresh water, fiddler, meat, and other victual,
Should serve so long so many a greedy gut. *Sylvestre, Du Barton*, 161.

Greek, adj. and s. Connected with, or relating to, the Greeks; Greek language. (With this sense it is a proper rather than a common name; it becomes, however, a common rather than a proper one in such phrases as the following, where it means unintelligible.)

This goes is Greek to me; either it hangs me well together, or I am very dull of understanding.—*Graeculus, Sappho*, (Orel M.).

Green, adj. [Dutch, *groen*.]

1. Having a colour formed commonly by the composition of blue and yellow, giving the colour of the leaves of trees or herbs.

The general colour of plants is green, which is a colour that no flower is of: there is a greenish primrose, but it is pale, and wears a green.—*Bacon*, *Natural and Experimental History*.

There are writers of great distinction, who have made it an argument for Providence, that the whole earth is covered with green, rather than with any other colour, as being such a mixture of light and shade, that it comforts and strengthens the eye, instead of weakening or grieving it. For this reason several painters have a green cloth hanging near them, to ease the eye upon, after too great an application to their colouring.—*Addison, Spectator*, no. 337.

2. Flourishing; fresh; undecayed: (from trees in spring).

If I have any where said a green old age, I have Virgil's authority: "Sed cruda deo viriditque senectus."—*Dryden*.

In youth his habits had been temperate; and his temperance had his proper reward, a singularly green and vigorous old age.—*Macaulay, History of England*, ch. xiv.

3. New; fresh: (as, 'a green wound').

The door is open, sir; there lies your way:
You may be jogging while your boots are green. *Shakespeare, Twelfth of the Month*, iii. 2.

And all thy friends, which thou must make thy friends,
Have but their stings and teeth newly ta'en out. *Shakespeare, Henry IV. Part II.*

Where bloody Tybalt, yet but green in earth,
Lies fastening in his shroud. *Id.*

Id., *Romeo and Juliet*, iv. 3.

A man that studieth revenge keepeth his own wounds green, which otherwise would heal and do well.—*Bacon*, *Essays*.

I might dilate on the temper of the people, the power, arts, and interest of the contrary party; but these are invidious topics, too green in our remembrance.—*Dryden*.

4. Not dry.

If a spark of error have thus far prevailed, falling even where the word was green, and farthest off from any inclination unto furious attempts; must not the peril thereof be greater in men, whose minds are of themselves as dry straw, and before-hand unto tumults?—*Hooker, Ecclesiastical Polity*, dedication.

Being an olive tree
Which late he fell'd; and being green, must be
Made lighter for his hanging. *Chapman*.

Of fragility the cause is an impediment to be extended, and therefore stone is more fragile than metal, and so dry wood is more fragile than green.—*Bacon, Natural and Experimental History*.

5. Not roasted; half raw.

Under this head we may rank those words which signify different ideas, by a sort of an unaccountable far fetched analogy, or distant resemblance, that fancy has introduced between one thing and another; as when we say the meat is green when it is half roasted.—*Watts, Logic*.

6. Unripe; immature; young; because fruits are green before they are ripe.

My salad days,
When I was green in judgement, cold in blood! *Shakespeare, Antony and Cleopatra*, i. v.

7. Inexperienced. *Slung*.

And this glare, and heat, and noise—this congeries of individuals without sympathy, and dishes without flavour—this is society! What an effect without a cause! A man must be very green, indeed, to stand this for two seasons. One cannot help thinking, that one consequence of the increased intelligence of the present day will be a great change in the habits of our intercourse.—*Diary of the younger, The Young Duke*, li. li. ch. vii.

8. Chlorotic. See Greenickness.

Was the hope drunk
Wherein you drest yourself? Hath it slept since?
And wakes it now to look so green and pale
At what it did so freely? *Shakespeare, Macbeth*, i. 7.

A green goose is so named either as a young bird, or from the green tinge of its down.

If you would sit green geese, slant them up when they are about a month old.—*Mortimer, Husbandry*.

Stubble geese at Michaelmas are worn
Upon the spit, next May produce green. *King, Art of Cookery*.

Green, s.

1. Green colour; green colour of different shades.

Her mother hath intem'd,
That quaint in green, she shall be loose enrob'd.
Shakespeare, Merry Wives of Windsor, iv. 6.
But with your presence cheer'd, they came to mourn;
And walks wear fresher green at your return. *Dryden*.

Summer, illuminated by this beam, appears of the same red colour as in daylight; and if at the hour you intercept the green tinking and blue making rays, its redness will become more full and lively.—*Sir J. Newton, Opticks*.

Let us not consider the two colours of yellow and blue; if they are mingled together in any considerable proportion, they make a green.—*Watts, Logic*.

2. Grassy plain.

Far this down-trodden equity, we tread
In warlike march these greens before your town. *Shakespeare, King John*, ii. 1.

O'er the smooth enamel'd green,
Milton, Arraignment, 84.

The young Emilia, fairer to be seen
Than the fair lily on the flow'ry green. *Dryden, Palamon and Arcite*.

Killed a young roe; and named another, so that I enticed it, and led it home in a strine: when I had it home, I bound and gillnetted up its leg, which was broke. I took such care of it that it lived; and the leg grew well, and as strong as ever: but, by nursing it so long, it grew tame, and fed on the little green at my door, and would not go away.—*De Vos, Life and Adventures of Robinson Crusoe*.

And hark! the rick of the green begin
That sprang at first from yonder noisy inn. *Crabbe, The Village*.

Green, v. a. Make green. *Rare*.

Great spring before
Green'd all the year; and fruits and blossoms bluish'd
In social sweetness on the self-same bough. *Thomson, Seasons*, Spring.

Greenbone, s. Two kinds of British fish are so called, from the colour of their bones when boiled; *Zoarces viviparus* and *Esoc Belone*; the former being also called vivi-

parous blenny; eelpout; gaffer; tanglake; the latter garfish, and garpike.

When boiled the bones of this fish are green, and hence the name of *greenbone*.—*Tarrell, British Fishes*, *Zoarces viviparus*.

Greencloth, s. [when standing alone, two words rather than a compound; in the extract, i.e. in combination, a compound rather than two words.] Board or court of justice held in the counting-house of the king's household, for the taking cognizance of all matters of government and justice within the king's court-royal; and for correcting all the servants that shall offend.

For the greencloth law, take it in the latest sense, I have no opinion of it.—*Bacon, Advice to Villiers*.

Greeneyed, adj. Having eyes coloured with green.

Dreadful thoughts, and rash-embred despair,
And shudd'ring fear, and greeney'd jealousy. *Shakespeare, Merchant of Venice*, iii. 2.

Greenfinch, s. Native bird so called.

The claffish, greenfinch, dormouse, and other small birds, are injurious to some fruits.—*Mortimer*.

Greengage, s. [two words rather than a compound. ? *Reine Claude* the French name.] Variety of plum so called.

Plums, many varieties (raised both in standards, wall trees, and espaliers, by grafting, budding, &c.) early damask . . . Orleans plum, greengage, blue perdrigon . . . blue eagle, magnum bonum.—*Abercrombie, Gardener's Journal*.

Greengrocer, s. Retailer of greens, i.e. fruit and the productions of the kitchen garden.

The greengrocer, hired for the evening to act as waiter.—*Thackeray, Mr. Perkins's Ball*.

Greenhorn, s. Raw youth, easily imposed upon, unacquainted with the world.

Not such a greenhorn as that, answered the boy.—*Thackeray, Gilbert Gurney*.

Greenhouse, s. House in which tender plants are sheltered from the weather.

If the season prove exceeding piercing, which you may know by the freezing of a wooden cloth set in your greenhouse, kindle some charcoal.—*Evelyn, Gardener*.

Sometimes our road led us into several hollow apartments among the rocks and mountains, that look like so many natural greenhouses, as being always shaded with a great variety of trees and shrubs that never lose their verdure. *Addison*.

A kitchen garden is a more pleasant sight than the finest nursery or artificial greenhouse. *Spectator*.

Greenish, adj. Somewhat green; tending to green.

With goodly greenish backs, all home, untidy,
As each had been a bride. *Spenser*.

Of this order the green of all vegetables seems to be, partly by reason of the intensity of their colours, and partly because, when they wither, some of them turn to a greenish yellow.—*Sir I. Newton, Opticks*.

Greenly, adj. Of a green colour.

And make the greenly ground a drinking cup
To sup the blood of murder'd bodies up. *Guinevere, Jucasta*: 1577.

Greenly, adv. In a green manner.

We have done but greenly,
In hunger-munger to inter him. *Shakespeare, Hamlet*, iv. 6.

Kate, I cannot look greenly, nor jump out my eloquence; nor have I cunning in protestation.—*Id.*, *Henry V.* v. 2.

Greenness, s. Attribute suggested by Green.

1. Quality of being green; viridity; viriditess.

About it grew such sort of trees, as either excellency of fruit, stateliness of growth, continual greenness, or poetical fancies, have made at any time famous.—*Sir P. Sidney*.

In a meadow, though the meek grass and greenness delight, yet the variety of flowers doth heighten and beautify.—*B. Jonson*.

2. Immaturity; unripeness.

This prince, while yet the error in his nature were excused by the greenness of his youth which took all the fault upon itself, loved a private man's wife.—*Sir P. Sidney*.

3. Freshness; vigour.

Take the picture of a man in the greenness and vivacity of his youth, and in the latter date and declension of his drooping years, and you will scarce know it to belong to the same person.—*South, Sermons*.

4. Inexperience.

Greenroom. *s.* Waiting or retiring room for the actors engaged in a piece, while off the stage, painted green in order to relieve the eye from the glare of the stagelights.

Had she consulted me, she should have made
Her moral play a speaking masquerade,
Warm'd up each bustling scene, and in her rage
Have emptied all the green-room on the stage.

Goldsmith, Epilogue to The Sinner.
The Friday came, and for the first time in my
life I found myself in the green-room of a theatre—
It was literally a green-room into which light was
admitted by a thing like a cucumber-frame at one
end of it. It was matted, and round the walls ran a
bench covered with faded green stuff, whereupon
the dramatic personae deposited themselves until
called to go on the stage; a looking-glass under the
sky-light, and a large bottle of water and a tumbler
on the chimney-piece, completed the furniture of
this classic apartment. — *Theodore Hook, Gilbert*
Gurney, vol. i. ch. ii.

Greens. *s. pl.*

1. Potherbs, more especially coleworts.

The vineyard seems to have been a plantation
distinct from the garden; as also the beds of greens
mentioned afterwards at the extremity of the in-
closure, in the nature and usual place of our kitchen
garden. — *Addison, Guardian, no. 178.*

2. Plants in general.

With greens and flow'rs recruit their empty hives,
And seek fresh forage to sustain their lives.

Dryden, Translation of Virgil.

The fragrant greens I wick my brows to bind. *Id.*
Greenishness. *s.* In *Medicine.* Malady
chiefly confined to unmarried females, con-
sisting in a deteriorated condition of blood,
producing a sickly paleness, with a green
tinge, of the complexion; chlorosis.

Four eruptions, and a craving appetite, espe-
cially of terrestrial and absorbent substances, are
the case of girls in the greenishness. — *Arbuthnot.*

Greenward. *s.* Turf on which grass grows.

This is the prettiest low-burn law that ever
ran on the greenward.

Shakespeare, Winter's Tale, iv. 3.

Dance them down on their own greenward.

R. Jonson, Masques.

The very greenward, as we call it. — *Hammond,*
Works, iv. 471.

After break their fast

On greenward ground, a cool and grateful taste.

Dryden.

In shallow soils all is gravel within a few inches;

and sometimes in low ground a thin greenward,

and slough underneath; which last turns all into
bog. — *Strick.*

Greenwood. *s.* Native plant so called, Ge-
nista tinctoria.

When stray'd her lambs where some and green-
ward grow. — *Crabbe, The Parish Register.*

Greenwood. *s.* Wood considered as it ap-
pears in the spring or summer: (used ad-
jectivally).

Among wild herbs under the greenwood shade.

Fairfax.

It happen'd on a summer's holiday,

That to the greenwood shade he took his way;

For Cymon shunn'd the church.

Dryden, Cymon and Iphigenia.

Greens. *s.* Stair.

Ascending from this picture by two or three
greens or steps, until you come to the rails that
compass in the high altar, you there behold that
noble and most glorious inland floor. — *Keepe, Monu-*
ment etc. Westminster Abbey, p. 32: 1895.

After the procession, the king himself remaining
seated in the choir, the lord archbishop, upon the
grece of the choir, made a long oration. — *Bacon,*
History of the Reign of Henry VII.

I pity you. — That's a degree to love.

No, not a grice. — *Shakespeare, Twelfth Night, iii. 1.*

One shew'd how fruitfully they had watered his
head, as he stood under the grices. — *B. Jonson,*
Masques at Court.

Greet. *v. a.* [German, *grüssen.*]

1. Address at meeting.

Go to Nabal, and greet him in my name. — *1 Samuel,*
xv. 5.

I think if men, which in these places live,
Durst look in themselves, and themselves retrieve,
They would like strangers greet themselves. *Donne.*

I would gladly go.

To greet my Pallas with such new bloom.

Dryden, Translation of the Æneid.

2. Address in whatever manner.

My noble partner

You greet with present grace, and great prediction;

To me you speak not. — *Shakespeare, Macbeth, i. 3.*

3. Salute in kindness or respect.

All the brethren greet you. Greet ye one another

with an holy kiss. — *1 Corinthians, xvi. 20.*

My lord, the mayor of London comes to greet

you. —

God bless your grace with health and happy days.

Shakespeare, Richard III. iii. 1.

Now the harangue last

Left his ground neat, high low'ring to decry

The mor'n's approach, and greet her with his song.

Milton, Paradise Regained, ii. 279.

Once had the early matrons run

To greet her of a lovely son.

Id., Epitaph on the Marchioness of Winchester.

The sea's our own; and now all nations greet.

With bending sails, each vessel of our fleet. *Waller.*

Thus pale they meet, their eyes with fury burn;

None greets; for none the greeting will return;

But in dumb surliness, each arm'd with care,

His foe protest, as brother of the war.

Dryden, Palamon and Arcite.

4. Congratulate.

His lady, seeing all that channel from afar,

Approach in haste to greet his victor.

Spenser, Faerie Queen.

5. Pay compliments at a distance.

The king's a-bed,

And sent great largess to your officers;

This diamond he greets your wish withal,

By the name of most kind hedges.

Shakespeare, Macbeth, ii. 1.

6. Meet, as those do who go to pay congru-

tulations. *Rare.*

Your haste

Is now urg'd on you. — We will greet the time.

Shakespeare, King Lear, v. 1.

Greet. *v. a.* Meet and salute.

There greet in silence, as the dead are wont,

And sleep in peace.

Shakespeare, Titus Andronicus, i. 2.

Such was that face on which I dwell'd with joy,

Ere Greece assembled steu'd the idea to Troy;

But parting then for that detested shore,

Our eyes, unhaply I never greeted more.

Pope, Translation of the Odyssey.

Greeting. *verbal abs.* Salutation at meeting,

or compliments at a distance.

I from him

Give you all greetings, that a king, as friend,

Can send his brother.

Shakespeare, Winter's Tale, v. 1.

Now, Thomas Mowbray, do I turn to thee,

And mark my greeting well; for what I speak,

My body shall make good. *Id., Richard II. i. 1.*

Greffier. *s.* [Fr. *greffier*; Lat. *graphiaris*;

from Gr. *γράφω* = write.] Recorder; regis-

trar.

A short but memorable story the greffier of that

town, though of different religion, reported to more

earn than ours. — *Bishop Hall, Epistles, Dec. 1, ep. 5.*

Gregarian. *adj.* Belonging to the common

sort; ordinary. *Rare.*

The gregarian soldiers and gress of the army is

well annexed to him. — *Howell, Letters, iii. 1: 1840.*

Gregarious. *adj.* [Lat. *grex*, *gregis* = flock.]

Going in flocks or herds, like sheep or

partridges.

No birds of prey are gregarious. — *Ray, Wisdom*

of God manifested in the Works of the Creation.

Without intelligence, man is not social, he is only

gregarious. — *Johnson, Journey to the Western*

Islands of Scotland.

Grikes and Gregarians here their meetings hold,

Convivial seats, and larks alert and bold;

A kind of masons, but without their sign;

The bonds of union—pleasure, song, and wine:

Man, a gregarius creature, loves to fly

Where he the trackings of the herd can spy;

Still to be one with many he desires.

Crabbe, The Borough, Clubs and Social Meetings.

The natural habits of the antelope next claim our

attention. The groups with spiral and lyrate horns

are mostly gregarious, frequenting the open plains,

and often preferring the most barren tracts. ...

Though vigilant and timid by nature, the gregarious

species have the same curiosity which deer and sheep

evince at the sight of strange objects. — *Savanna,*

Natural History and Classification of Quadrupeds,

§ 234.

If the habits of bees, which Virgil describes in his

fourth Georgic, had been true of the Italian bees in

his own time, they would be true of bees at the present

time. But bees, though a gregarious and (as they

have been called) a political, are not a progressive

animal. — *Sir G. C. Lewis, On the Influence of Au-*

thority in Matters of Opinion, q. v.

Gregariousness. *s.* Attribute suggested by

Gregarious.

That marked gregariousness in human genius had

taken place among the poets and orators of Rome,

which had previously taken place among the poets,

orators, and artists of Greece. — *De Quincy, Style.*

Grenade. *s.* [Fr.; from Lat. *pomum granatum* = pomegranate.]

Iron case, filled with

powder and bits of iron, from its shape
and contents suggesting the likeness to a
pomegranate.

A grenade (is) a little hollow globe or ball of iron,
or other metal, about two inches and a half in di-
ameter, which, being filled with fine powder, is set on
fire by means of a small fuse fastened to the touch-
hole; as soon as it is kindled, the case flies into
many shatters, much to the damage of all that stand
near. — *Harris.*

Grenadier. *s.* Originally a foot-soldier,
whose business was to throw grenades. It
now, with the definite article and in the
plural number, denotes a certain regiment,
as, The Grenadiers, or with the construc-
tion adjectival, Grenadier guards.

Peace allays the shepherd's fear

Of wearing cap of grenadier. *Gay, Pastorals.*

Grenade. *s.* [Spanish.] Same as Grenade.

Yet to express a Scot, to play that prize,

Not all those mouth grenades can suffice.

Cleaveland.

You may as well try to quench a flaming grenade

with a shell of fair water as hope to succeed. —

Watts.

Grey. *adj.* [A.S. *græg.*]

1. White with a mixture of black.

This ancient ruffian, sir, whose life I spar'd,

At suit of his grey beard.

Shakespeare, King Lear, ii. 2.

They left me then, when the grey hooded even,

Like a sad votary in palmers' weed,

Rose from the hindmost wheels of Phœbus' wain.

Milton, Comus, 188.

These grey and dun colours may be also produced

by mixing whites and blacks, and by consequence

differ from perfect whites, not in species of colours,

but only in degrees of luminousness. — *Sir I. Newton,*

Opticks.

2. Greyheaded.

Our green youth copies what grey sinners act,

When venerable age commands the fact. *Dryden.*

The grey mare is the better horse. The wife

is master of the husband.

Right, Sir John, for I woe, if the grey mare's the

better horse, I lose the filly. — *O'Keefe, Fontaine-*

bleau, ii. 2.

Grey. *s.*

1. Colour so called.

I'll say you grey is not the morning's eye;

'Tis but the pale reflex of Cynthia's brow.

Shakespeare, Romeo and Juliet, iii. 5.

Down sunk the sun, the closing hour of day

Came onward, mantled o'er with dusky grey.

Parnell, The Hermit.

2. Horse of a grey colour.

His English grey carried him many miles from

the field, while Schervin, though wounded in two

places, manfully upheld the day. — *Maccarty, Critical*

and Historical Essays, Frederic the Great.

3. In the plural. Regiment so named.

Greybeard. *s.* Old man. *Contemptuous.*

Youngling, thou canst not love so dear as I —

Greybeard, thy love doth freeze.

Shakespeare, Taming of the Shrew, ii. 1.

Have I in conquest stretch'd mine arm so far,

To be afraid to tell greybeards the truth?

Id., Julius Caesar, ii. 1.

A dull relation of the acts of greybeards to a

young prince might grow tedious. — *Sir J. Hall-*

ingham, Brief View of the State of the Church of

England, p. 35.

Gréy. *s.* Trumpet-fly.

We drove afield, and both together heard

What time the gréy winds her sultry horn.

Milton, Lycidas, 21.

Greyheaded. *adj.* Aged (as shown by the

changed colour of the hair).

Many years later greyheaded old pensioners who

crept about the arched and airy of Chelsea Hos-

pital used to relate how he charged at the head of

Galway's horse, how he dismounted four times to

put heart into the infantry, how he rallied one corps

which seemed to be shrinking; 'That is not the way

to fight, gentlemen. You must stand close up to

them. Thus, gentlemen, thus.' — *Maccarty, History*

of England, ch. 22.

Greyhound. *s.* [Norse, *grey-hundr.*]

First, may a trusty greyhound transform himself

into a tiger? *Sir P. Sidney.*

[The etymology of this name is uncertain. Some have

supposed it to be derived from *Græus*, Grecian,

because it was possibly first used by Greeks. This

derivation is more probable than the Dutch *grép-*

hond, from *grypen*, to gripe, or *Calus* fanciful one

'quod precipue gradus sit inter canes.' Perhaps,

after all, the most simple and obvious is the true

one, from the prevailing colour of the ancient breed

of this dog. — *Bell, History of British Quadrupeds.*]

GREY

Greyish. *adj.* Approaching to a grey colour.
On either side did shine a greyish eye.
Warner, *Albion's England*.

Grey-lag. *s.* In Ornithology. See extract.

Under the term wild *goose*, four or five species are frequently included, and the *grey-lag* *goose*, the first on our list, has not always been so well defined or represented as to exhibit the true specific characters that distinguish it from the *lean* *goose* and white-fronted *goose*, with which the *grey-lag* is most frequently confounded. The present species is considered to be the origin from which our valuable domestic race is derived. . . . It will be observed that I have resumed the old name of *grey-lag* *goose*, believing that the term *lag*, as applied to this *goose*, is either a modification of the English word *lake*, the Latin *lacus*, or, perhaps, an abbreviation of the Italian *lago*, from which latter country it is even probable that we might have originally obtained this our domesticated race.—Larrell, *British Birds*.

Griso. *s.* [N.Fr. *gris* = pig.] Young of any animal, especially a pig.

I am lord of other gear! this fine smooth between's cut, the young *grise* of a gray;
Two tiny urchins, and the *grise* gay.
B. Jonson, *Mad Shepherd*, II. 2.

Grise. *v. n.* Make way by cutting.
His payment near he thrust with peasant away,
That through his thigh the mortal steel did *grise*.
Spenser, *Faerie Queen*.

Grisein. *adj.* [Fr. *gris de lin* = grey of flax.] His love fades, like my *grisein* petticoat.
Kilgrew, *Parson's Wedding*.

Grisein. *s.* Colour so called.
The ladies dressed in rich rians were seen,
Of Florence satins, flower'd with white and green,
And for a shade betwixt the bloomy *grisein*.
Dryden, *Fables*.

Gridiron. *s.* [Swedish, *gräddda* = broil; *gräddpanna* = frying-pan.] Portable grate on which meat is laid to be broiled upon the fire.
He had added two bars to the *gridiron*.—Spectator.

Grief. *s.* [Fr. *grief*; Lat. *gravis*.] 1. Sorrow; trouble for something past.

I will instruct my sorrows to be proud;
For *grief* in proud, and makes his owner stout.
Shakespeare, *King John*, III. 1.
Wringing of the hands, knocking the breast, are but the evanescences of sorrow, the pomp and ostentation of an effeminate *grief*, which speak not so much the greatness of the misery as the smallness of the mind. South, *Sermons*.

The mother was so afflicted at the loss of a fine boy, who was her only son, that she died for *grief* of it. Addison.

2. Grievance.

The king hath sent to know
The nature of your *griefs*, and whereupon
You conjure from the breast of civil peace
Such bold hostility? Shakespeare, *Henry IV.* IV. 3.

3. Bodily pain. Obsolete.

He being at that time gripped sore, and having *grief* in his lower⁹ bellie.—Treatise of Sundry Diseases, 1591.
Can honour set to a leg? No. Or an arm? No. Or take away the *grief* of a wound? No. Honour has no skill in surgery then? No.—Shakespeare, *Henry IV.* Part I. v. 1.

Griefful. *adj.* Full of sorrow or grief. Obsolete.

The day renews my *griefful* plaint.
Bacchille, *Tragedy of Gorboduc*: 1561.
Which when she sees with ghastly *griefful* eyes,
Her heart does quake.
Spenser, *Faerie Queen*, VI. 5, 40.

Grieflike. *adj.* Pierced with grief. Rare.

A discontented friend, *grieflike*
With his unkindness. Shakespeare, *Coriolanus*, v. 1.

Grievance. *s.* State of uneasiness; cause of such; just or real ground of complaint.
What remedy can be found against *grievances*, but to bring religion into countenance, and encourage those who, from the hope of future reward, and dread of future punishment, will be moved to justice and integrity?—Swift.

Grieve. *v. a.*

1. Afflict; hurt; vex.
For he doth not afflict willingly, nor *grieve* the children of men.—Luke, III. 33.

Forty years long was I *grieved* with this generation.—Psalms, xcv. 10.

2. Lament.
The beholders believed his [lord Stafford's] words, and *grieved* his destiny.—Murray, *Memoirs*, p. 112.

Grieve. *v. n.*

Do not you *grieve* at this.
Shakespeare, *Henry IV.* Part II. v. 3.

GRIL

How didst thou *grieve* then, Adam, to behold
The end of all thy offspring eul so sad.
Milton, *Paradise Lost*, xl. 76.

With equal mind what happens let us bear;
Nor joy nor *grill* too much for things beyond our care.
Dryden, *Fables*.

Griever. *s.* One who grieves.

A *griever* and quencher of the Spirit, a more perfect piece of atheism.—Hammond, *Works*, IV. 514.

Grievingly. *adv.* As one who grieves.
Grievingly, I think,
The peace between the French and us not values
The cost that did conclude it.
Shakespeare, *Henry VIII.* I. 1.

Grievous. *adj.* Afflictive; painful; hard to be borne.

To the flesh, as the spoutle himself granteth, all affliction is naturally *grievous*.—Hooker, *Ecclesiastical Polity*.

Correction is *grievous* unto him that forsaketh the way, and be that basketh, reproof shall die.—Proverbs, xv. 10.

He durst not disobey, but sent *grievous* complaints to the parliament of the usage he was forced to submit to.—Lord Clarendon, *History of the Grand Rebellion*.

To own a great but *grievous* truth, though they quicken and sharpen the invention, they corrupt the temper.—Watts.

It was a *grievous* fault,
And grievously hath Caesar answer'd it.
Shakespeare, *Julius Caesar*, III. 2.

Used adverbially.

He cannot come, my lord; he's *grievous* sick.
Shakespeare, *Henry IV.* Part I. v. 1.

Grievously. *adv.* In a grievous manner.
Wide was the wound, and a large lukewarm flood,
Roll as the rum, thence gush'd *grievously*.
Spenser, *Faerie Queen*.

Gritting, perceiving how *grievously* the matter was taken, with the danger he was in, began to doubt.—Kneller, *History of the Turks*.

I see how a number of souls are, for want of right information, oftentimes *grievously* vexed.—Hooker, *Ecclesiastical Polity*.

Whoever reads the *Odyssy* with an eye to the final, expecting to find it of the same character, or of the same sort of spirit, will be *grievously* deceived, and err against the first principle of criticism, which is to consider the nature of the piece, and the interest of its author.—Lope, *Proscript to the Translation of the Odyssy*. (Ord MS.)

Before the Revolution one of his heterodox treatises had been *grievously* mutilated by LeStrange, and at last suppressed by orders from LeStrange's superior, the bishop of London.—Macaulay, *History of England*, ch. xix.

Grievousness. *s.* Attribute suggested by

Grievous.
They fled from the sword, from the drawn sword and from the bent bow, and from the *grievousness* of war.—Isaiah, xli. 15.

Deferring of time, or *grievousness* of sinners, do not prejudice his grace.—Burton, *Anatomy of Melancholy*, p. 70.

Griffin. *s.* [Lat. *gryps*; Gr. *γρύψ*.] 1. Fabled animal with the head and paws of the lion, and the wings of the eagle.

Of all bearings among these winged creatures, the *griffin* is the most ancient.—Peacham, *On Blazoning*.

Aristeus, a poet of Proconessus, affirmed, that near the one-eyed nations *griffins* defended the mines of gold.—Mir T. Brown.

2. Freshman in the East Indian Service.

Slang.

Griffinlike. *adj.* Resembling the rapacity of a griffin.

Citations and processes to be served by a corporality of *griffinlike* promoters and apparitors.—Milton, *On Reformation in England*, b. I.

Grig. *s.* [P]

1. Small eel.

There be several sorts or kind of eels; as the silver eel; and green or greenish eel, with which the river of Thames abounds; and those are called *grigs*.—J. Walton, *Complete Angler*, ch. xlii.

2. Merry little body.

Hard in her heart as flint or stone,
She laughs to see me pale;
And merry as a *grig* is grown,
And brisk as bottle-ale.
Gay, *A New Song of New Similes*.

Tom was a merry little *grig*,
Fiddled and danced to his own jig;
Good-natured, but a little silly,
Irresolute and shally shilly.

By the blood of the Mirabals, I thought I had never lived till then; I grew as merry as a *grig*, and laughed at every word that was spoken.—Goldsmith, *Essays*, VI.

Grill. *v. a.* [Fr. *griller*.] Broil on a gridiron.

GRIM

GREYISH
GRIMALKIN

And now I'll tell you what I'll do, Mr. Corporal; I will prepare it myself: and then, Mr. Vandyperken shall have it *grilled* for his breakfast, and then he shall not eat it, but leave it for Smalbones, and then Smalbones shall pretend to eat it, but put it in his pocket, and then . . . he shall bring it on shore, and give it to the dog here in the yard, so that he shall kill the dog himself, by wishing to kill others.—Murray, *Swatriggus*.

Grilled. *part. adj.* Broiled on a gridiron.

It is a day of launching without an object, and luncheon without an appetite; of hopes and fears; confidence and dejection; bravado bets and secret hedging; and, about midnight, of furious suppers, of *grilled* bones, branny-and-water, and reeklessness.—Harriet the younger, *Coningsby*, b. v. ch. iv.

Grilly. *v. a.* Harass: (as we now say 'to rust a man,' for 'to tease him').

For while we wrangle here and jar,
We are *grilled* all at Temple-bar.
Butler, *Hudibras*.

Grise. *s.* [P] See extract.

(One . . . that weighed only fifteen ounces . . . in the smallest specimen I have ever seen that had been cured to salt water. These small-sized fish, when under two pounds weight, are called by some of the London fishermen *salmon-pail*; when larger *griles*. These fish breed during the winter; they return from the sea with the ova enlarged; the ova in a *grile* being of nearly the same comparative size as those observed in a *salmon*, but they mature only a much smaller number. . . . The growth of the *grile* from the state of the smolt to that of the *grile* has been shown to be very rapid.—Larrell, *British Fishes*, *Salmon*.

Grim. *adj.* [A.S. *grim*.]

1. Having a countenance of terror; horrible; hideous; frightful.

The innocent prey in haste he does forsake,
Which quit from death, yet quakes in every limb,
With change of fear to see the lion look so *grim*.
Spenser, *Faerie Queen*.

Grim Nature yet remains,
Bound in those gloomy caves with adamantine chains.
Thou hast a *grim* appearance, and thy face
Bears a command in't.
Shakespeare, *Coriolanus*, IV. 3.

Here we have him in the *grim*er draw of a revengeful judge.—South, *Sermons*, VIII. 201.

Whether it would not be the *grim*est dispensation that ever befell him, to be thrust out of the world with his sins about his ears.—*Ibid.* IX. 185.

Their swartly looks would darken all our plains,
Doubling the native horror of the war,
And making death more *grim*.
Addison, *Cato*.

2. Ugly; ill-looking.

Strait stood up to him
Divine Ulysses; who with looks exceeding grave
And *grim*,
This better check gave.
Chapman.

Grimace. *s.* [Fr.]

1. Distortion of the countenance from habit, affection, or insolence.

He had not spar'd to show his piques,
Against 'th' haranguer's politicks,
With smart remarks of leaving faces,
And simulations of *grimaces*.
Butler, *Hudibras*.

The favourable opinion and good word of men count oftentimes at a very easy rate; and by a few demure looks and affected whines, set off with some odd devotional postures and *grimaces*, and such other little arts of dissimulation, cunning men will do wonders.—South, *Sermons*.

The buffoon ape, with *grimaces* and gambols, carried it from the whole field.—Sir E. L. Estlin.

The French nation is addicted to *grimace*.—Boswell.

2. Air of affectation.

Vive in a vizari, to avoid *grimace*,
Allows all freedom, but to see the face.
Grassville.

Grimalkin. *s.* [The ordinary analysis of this word—a word which has been specially illustrated by more than one indolent writer, is *gri* = gray, and *mal-kin* = diminutive of *mall*; to which root is given the sense it has in the provincial term *malikin* = scarecrow. Hence, the details of the transition being obscure, it is brought to denote, as a proper rather than a common name, *cat*.

That *cat* is both the current and the early meaning of the word is beyond doubt. It is suggested, however, that its true import was not very clear to those who first used it. It meant, not so much the *cat* in general, but the *cat* that played a part in the orgies of witches—

'I come, *Grimalkin*.—Paddock calls—Anon.
Fair is foul and foul is fair,
Hover through the fog and filthy air.'
(Shakespeare, *Macbeth*, l. 1.)

To the phraseology descriptive of matters of this kind, it is likely that the German language, through the numerous itinerant showmen, mountebanks, and players of the time of Queen Elizabeth, contributed. If so, a witches' song, in which some word like the one under notice was, at the same time, both prominent and misunderstood, might supply it; the connection between the witches and the cats doing the rest. Such a song, beginning with the words *Graue wölken* (=grey clouds) in the form of a compound (*Grauewölken*, is to be found in at least one of the existing German dialects. See Ferninich, p. 3, for an East Frisian Hexentied.) Gray little woman; name of an old cat.

Grimalkin, to domestic vermin sworn
An everlasting foe, with watchful eye
Lies nightly brooding o'er a chinky gap,
Protecting her fell claws, to thoughtful mice
Sure ruin.
J. Phillips, *Splendid Shilling*.

Grime. *s.* [?] Dirt, blackish in colour, and originally of a powdery consistence, deeply insinuated; sullyng blackness not easily cleansed.

Swart, like my shoe, but her face nothing so clean
kept; for why? she swears; a man may go over
shoes in the grime of it.—Shakespeare, *Comedy of Errors*, iii. 2.

Follow is the word by which they denote black
grime of burnt coals or wood.—Woodward, *On Fossils*.

Grime. *v. a.* Make grimy.
My face I'll grime with filth,
Blanket my loins, elf all my hair in knots.
Shakespeare, *King Lear*, ii. 3.

Grimly. *adj.* Having a frightful or hideous look.

When it was grown to dark midnight,
And all were fast asleep,
In came Margaret's grimly ghost,
And stood at William's feet.
Bosworth and Fletcher, *Knight of the Burning Pestle*.

Grimly. *adv.* In a grim manner; horribly; hideously; terribly.

We've landed in ill time: the skies look grimly,
And threaten present blusters.
Shakespeare, *Winter's Tale*, iii. 3.
So Pluto, seiz'd of Proserpine, convey'd
To hell's tremendous gloom th' afflicted maid:
Thence grimly smil'd, pleas'd with the beautiful prize,
Nor envy'd Jove his sunshine and his skies.
Addison, *Cato*.

Grimness. *s.* Attribute suggested by Grim; horror; frightfulness of visage.
The grimness of her visage dissembled, yet will it be fearful enough.—Bishop King, *Thanksgiving Sermon*, p. 28: 1619.

Grimmer. *s.* [?] Stern, unsociable person; curmudgeon.
Even Tiberius Caesar, who otherwise was known for a grimmer, and the most unmerciful and unchristian man in the world, required in that manner to be served and washed well unto, whenever he was used.—Holland, *Translation of Pliny*, vol. ii. p. 207. (Treuch.)

Grimy. *adj.* Dirty; cloudy.
Mines of grimy coal low-ld.
Dr. H. More, *Song of the Soul*, st. 73.

Grim. *v. a.* Show, set, or snup, by grinning.
They neither could defend, nor can pursue;
But grin'd their teeth, and cast a helpless view.
Dryden, *Translation of the Æneid*.

Grim. *v. n.* [A.S. *griman*.] Snup the teeth together and withdraw the lips either in anger or in mirth.

Death, death! oh, amiable, lovely death!
Come grin on me, and I will think thou smil'st.
Shakespeare, *King John*, iii. 4.
What valour were it, when a cur doth grin,
For one to trust his hand between his teeth,
When he might spurn him with his foot away?
Id., *Henry VI. Part III.* i. 4.

It was no unpleasant entertainment to me to see the various methods with which they have attacked me; some with piteous moans and outcries, others grinning, and only showing their teeth.—Bishop Stillingfleet.

A lion's hide he wears;
About his shoulders hangs the shaggy skin;
The teeth and springing jaws severely grin.
Dryden, *Translation of the Æneid*.

Fools grin on fools, and Stolicl support,
Without one sigh, the pleasures of a court. Young.
In reality, active, the manner or mode in which the grin displays itself being chiefly shown. To 'grin horribly a ghastly smile,' 'to grin the teeth' (except when confused with Grind), is a construction akin to that of 'walk a mile.'

Grin. *s.*
1. Act of closing the teeth as in snapping and showing them, or by drawing back the lips as in laughter.

He laughs at him; in's face too—
O you mistake him; 'twas an humble grin.
The fawning joy of courtiers and of fools. Dryden.
The muskies were so drawn together on each side of his face, that he showed twenty teeth at a grin.—Addison.

2. Catchtrap, as a mountrap, or any smaller one, on the principle of snapping and closing when a certain part is touched.

The grin shall take him by the heel, and the robber shall prevail against him.—Job, xviii. 9.

Grind. *v. a.* preterite *ground*; past part. *ground*. [A.S. *grindian*.]

1. Reduce anything to powder by friction; comminute, or pulverise, by attrition.

And whosoever shall fall on this stone, shall be broken; but on whomsoever it shall fall, it will grind him to powder.—Matthew, xxi. 44.

What relation or affinity is there between a minute body and cognition, any more than the greatest? Is a small drop of rain any wiser than the ocean? Or do we grind inanimate corn into living and rational meat?—Butler, *Sermons*.

2. Comminute by the teeth or grinders.
Pierce shame is your lot for this misdeed,
Reduc'd to grind the platen on which you feed.
Dryden, *Translation of the Æneid*.

3. Sharpen or smooth by rubbing on something hard.

Meeting with Time, Slack thing, said I,
Thy sith is dull; what it, for shame!
No marvel, sir, he did reply,
If it at length deserve some blame;
But where one man would have me grind it,
Twenty to one too sharp do find it.
Against a stump his twink the monster grinds,
And in the sharpen'd edge new vigour finds.
Dryden, *Fables*.

4. Rub one against another.
That the stomach in animals grinds the substances which it receives, is evident from the dissection of animals, which have swallowed metals, which have been found polished on the side next the stomach.—Arbuthnot, *On the Nature and Choice of Aliments*.

5. Harass; oppress.
Some merchants and tradesmen, under colour of furnishing the colony with necessities, may not grind them so as shall always keep them in poverty.—Bacon, *Advice to Villiers*.

Another way the Spaniards have taken to grind the Neapolitans, and yet to take off the odium from themselves.—Addison.

We too shall, in our turn, be outstripped, and in our turn be envied. It may well be, in the twentieth century, that the peasant of Dorsetshire may think himself miserably paid with twenty shillings a week; that the carpenter at Greenwich may receive ten shillings a day; . . . that numerous comforts and luxuries which are now unknown, or confined to a few, may be within the reach of every diligent and thrifty working man. And yet it may then be the mode to assert that the increase of wealth and the progress of science have benefited the few at the expense of the many, and to talk of the reign of Queen Victoria as the time when England was truly merry England, when all classes were bound together by brotherly sympathy, when the rich did not grind the faces of the poor, and when the poor did not envy the splendour of the rich.—Macaulay, *History of England*, ch. iii.

Grind. *v. n.* Perform the act of grinding; move a mill.

Fetter'd they send thee
Into the common prison, there to grind
Among the slaves and wretches.
Milton, *Samson Agonistes*, 1161.

Grinder. *s.*
1. One who grinds; one who works in a mill.

Those manacles put upon him were exceedingly inconvenient for a grinder in a mill.—Smith, *Portrait of Old Age*, p. 118.

2. Instrument of grinding.

Now exhort
Thy hands to exercise the pointed steel
On the hard rock, and give a wheely form
To the expected grinder.
J. Phillips, *Cyder*.

3. Molar, or grinding, tooth.

The teeth are in men of three kinds; sharp, as the fore-teeth; broad, as the back-teeth, which we call the molar-teeth, or grinders; and pointed teeth, or canines, which are between both.—Bacon, *Natural and Experimental History*.

Nature is at a great deal of labour to transmute vegetable into animal substances; therefore herbivorous animals, which do not ruminate, have strong grinders, and chew much.—Arbuthnot.

The Ruminantia are, perhaps, the most natural and best determined of all the classes of quadrupeds, since they appear to be altogether constructed on the same model; the canines alone presenting us with some trifling variations from the common structure. The first and most striking character is the absence of cutting or incisive teeth in the upper jaw, their place being supplied by hard tubercles; but in the lower jaw there are almost always eight; between these latter and the grinders there is generally an empty space, which, in a few genera only, is occupied by one or two canine teeth. The grinders, of which there are almost always six on each side of both jaws, have their crowns marked with two dentate creases, of which the convexity is turned inward in the upper teeth, and outward in the lower.—Stevenson, *Natural History and Classification of Quadrupeds*, § 247.

4. Teeth.

One, who at sight of supper, open'd wide
His jaws before, and whetted grinders tried.
Dryden, *Translation of Juvenal*.

Dear Dr. Johnson loved a bit of pork,
And on it often would his grinders work;
A veal-pie, too, with currants stuffed and plums,
Was monstrous grateful to the Doctor's gums.
Peter Pindar (Dr. Wodcott), *Bosny and Pizzio*.

Grinding. *part. adj.* Harassing.

Not knowing 'twas my labour, I complain
Of sudden shootings and of grinding pain,
My throes came thicker, and my cries increased.
Dryden.

You would have other sons of presants bishops of England, instead of men appointed to that sacred office solely because they were the needy sons of a factitious aristocracy; men of gross ignorance, profligate habits, and grinding extortion, who have disgraced the episcopal throne, and profaned the altar.—Disraeli the younger, *Coningsby*, b. vii. ch. ii.

Grinding. *verbal abs.* Act, or process, by which anything is ground.

He that will have a cake out of the wheat, must needs tarry the grinding.—Shakespeare, *Troilus and Cressida*, i. 1.

Hard wounds, as of a saw when it is sharpened, and grinding of one stone against another, make a shivering or horror in the body, and set the teeth on edge.—Bacon, *Natural and Experimental History*.

Grindstone. *s.* Grindstone (perhaps, as a provincial term, the former is the commoner).

Such a light and metal'd dance
Saw you never yet in France;
And by the lead-men for the nonce,
That turn round like grindstones.

Grindstone. *s.* Stone on which edged instruments are sharpened.

Literature is the grindstone to sharpen the coarser, and to whet their natural faculties.—Hammond, *On Fundamentals*.

Smiths that make hinges brighten them, yet seldom file them; but grind them on a grindstone till bright.—Mason, *Mechanical Exercises*.

I found two or three bags of nails and spikes, a great screw-jack, a dozen or two of hakebels; and, above all, that most useful thing called a grindstone.—De Foe, *Life and Adventures of Robinson Crusoe*.

Grinner. *s.* One who grins.
The frightful't grinner
Bo the winner. Addison, *Spectator*, no. 173.

Grinning. *part. adj.* Showing a grin.

I like not such grinning honour as Sir Walter hath: give me life, which if I can save, so; if not, honour comes unlook'd for, and there's an end.—Shakespeare, *Henry IV. Part I.* v. 3.

Madness, we fancy, gave an ill-thin'd birth
To grinning laughter and to frantic mirth. Prior.

Grip. *s.* [Dutch, *grippel*.] Little ditch or trench.

In every variety of soil ploughed in the forms just described for winter, care should be taken to have plenty of channels, or *grips*, as they are usually termed in Scotland, cut in the hollowest places, so as the surface-water may find them at every point by which to escape into the nearest ditch.—Stephens, *Book of the Farm*.

Grip, or Gripe. *s.* [Gr. γριπ.] Griffin.
Like a white hind under the grays's sharp claws.
Shakespeare, *Rape of Lucrece*.

gripe. *v. a.* [Dutch, *grijpen*; German, *greifen*.]

1. Hold with the fingers closed; grasp; press with the fingers; hold hard.

He that speaks doth *gripe* the heaven's wrist,
Whilst he that hears makes fearful action
With wrinkled brows. *Shakespeare, King John*, iv. 1.

2. Catch eagerly; seize.

You took occasion to be quickly woo'd,
To *gripe* the gentle way into your hands.
Shakespeare, Henry IV. Part I. v. 1.

3. Pinch; press; squeeze; nip; afflict.

Griefs gripe me so, I pin'd away, and died.
Mirror for Magistrates, p. 202.
Grief gripe my heart when I think that the Mars
of men received his death's blow from a pen-maker,
a pedagogue. *Stafford, Nishe*, p. 115: 1611.

4. Cause a colicky pain.

Thus full of counsel to the den she went,
Grip'd all the way, and longing for a vent. *Dryden*.

5. Tighten. Such is the meaning in the following extract, provided the word be treated as an active or transitive verb; inasmuch as the hand, in the ordinary sense of the term, is the gripping rather than the gripped object. The construction, however, may also be considered as neuter, in which case to *gripe a hand* - tighten a hand. Putting anything in the condition of that which grips is in the same predicament with 'walk a mile,' 'live a year,' and the like.

Unlucky Webster! thy twofold master,
The more thou ticklest, *gripes* his hand the faster.
Pope, Dunciad, ii. 203.

Gripe. *v. n.*

1. Pinch; catch at money meanly.

It is mean revenue, by being scattered in the
worst of times, arising upon him, when others that
had great ones, by *gripping*, made them less, and grew
stark beggars. *Bishop Hall*.

2. In *Navigation*. When a ship runs her
head too much into the wind, she is said to
gripe.

Gripe. *s.*

1. Grasp; hold; seizure of the hand or paw.

Therefore still on high
He over him did hold his cruel claws,
Threatning with greedy *gripe* to do him dy.
Spenser, Faerie Queen.

They put a barren sceptre in my *gripe*,
Thence to be wrench'd with an unlin'd hand.
Shakespeare, Macbeth, iii. 1.

2. Squeeze; pressure.

He'd with this thought, at once he strain'd the
breast;
'Tis true, the harden'd breast twists the *gripe*,
And the cold lips return a kiss unripe.
Dryden, Fables.

3. Oppression; crushing power.

O I take my cause
Out of the *gripes* of cruel men, and give it
To a most noble judge, the king my master.
Shakespeare, Henry VIII. v. 2.

4. Affliction; pinching distress.

Fro from the *gripes* of sorrow every one.
W. Browne, Britannia's Pastoral, l. 3.
Adam, at the news,
Heart-struck with chilling *gripe* of sorrow stood,
That all his senses bound!

Canst thou bear cold and hunger? Can these
limbs,
Fram'd for the tender offices of love,
Endure the *gripes* of starving poverty?

Cut off from all supplies, and even destitute of
fuel, they soon began to experience the sharpest
gripes of cold and hunger. *Bishop Thirlwall, History of Greece*, ch. lvi.

There were instances in which men of the most
venerable dignity, persecuted without a cause by
envy, and of race and name in the *gripes* of
the vile algorithms of luxury. *Macaulay, Critical and Historical Essays, Warren Hastings*.

5. Pain in bowels like that of the colic.

In the jaundice the cholera is wanting; and the
latter have a great sourness and *gripes*, with
windiness. *Floper*.

6. In *Naval language*.

Gripes is the name of a machine formed by an as-
semblage of ropes, hooks, and chain eyes; and used
to secure the boats upon the deck of a ship at sea. *Chambers*.

Griper. *s.* Oppressor; usurer; extortioner.

Others pretend real, and yet are professed usurers,
griper, monsters of men, and harpies. *Burton, Anatomy of Melancholy*.

Gripping. *part. adj.* Having the character of
that which grips; catching, or holding,
as in a gripe.

He wou'd the shining bough with *gripping* hold,
And rent away with ease the lining gold.

Dryden, Translation of the Lucid.
The midder and his agents answered that West-
minster Hall was open; that, if any man had been
illegally imprisoned, he had only to bring his action;
that juries were quite sufficiently disposed to listen
to any person who pretended to have been oppressed
by cruel and *gripping* laws in power; and that, as
none of the prisoners whose wrongs were so po-
tentially described had ventured to resort to this
obvious and easy mode of obtaining redress, it might
fairly be inferred that nothing had been done which
could not be justified. *Macaulay, History of Eng-
land*, ch. xx.

Gripping. *verbal abs.*

1. Pinching; nipping.

Many people would, with reason, prefer the
gripping of an injury belly to those dishes which
are a feast to others. *Locke*.

Manna, by the built, figure, texture, and motion
of its parts, has a power to produce the symptoms
of sickness, and sometimes of acute pains or *grip-
ings* in us. *Id.*

A certain position of countenance, . . . gave un-
doubted intelligence to what degree of proportion
the spirit agitated the inward mass. Far, after cer-
tain *gripings*, the wind and vapours, boiling forth,
... distorted the mouth, bloated the cheeks, and
gave the eyes a terrible kind of relievo. *Swift, Tale of a Tub*, § 8.

2. Distress; affliction.

Whether all the fictitious pleasures of sin can
compensate for the acute tortures and *gripings* of
mind. *Killingbeck, Sermons*, p. 361: 1750.

Grippingly. *adv.* In a gripping manner.

Clusters help, but the medicine stop in the guts,
and work *grippingly*. *Baron, Natural and Experi-
mental History*.

Grippe. *adj.*

1. Greedy; covetous; unfeeling; oppressive.

He gnash'd his teeth, to see
Those heaps of gold with *grippe* covetise.
Spenser, Faerie Queen, l. 4, 31.

It is easy to observe, that none are so *grippe* and
hard-hearted as the children. *Bishop Hall, Balm of
Gilead*.

The insatiate slave . . .
That thrusts his *grippe* hand into her golden maw.
Dryden, Polydorus, song 3.

The *grippe* wretch, who will bestow nothing on
his poor brother for God's sake, is evidently an in-
fidel, having none at all or very heathenish notions
of God. *Barrow, Works*, l. 434.

To bestow aught in good earnest on the magis-
trate, we know your classic friendship is too *grippe*;
for ye are always beginning. *Milton, Articles of Peace
between the Earl of Ormond and the Irish*.

2. Grasping fast; tenacious.

On his shield he *grippe* held did lay,
And held the same so hard, that by no wile
He could him force to loose.
Spenser, Faerie Queen, vi. 4, 6.

Grippe-minded. *adj.* Grippe.

O Cyrus, how many close-handed, *grippe-minded*
Christians shall ever be choked in judgement with
the example of thy just munificence! *Bishop Hall, Karubabel and Ezra*. (Ord M.)

Grippeness. *s.* Attribute suggested by

Grippe; covetousness. *Rare*.

Age is not a more common plea than unjust: The
young man pretends it for his wanton and inordinate
lust; the old, for his *grippeness*, tediousness, loquac-
ity; all unwisely, and not without fault abuse. *Bishop Hall, Temptations Repell'd*, iii. § 10.

Gris-amber. *s.* [two words.] Used by Mil-

ton for *ambergris*.

Bests of chase, or fowl of game,
In pinstry built, or from the spit, or build'd,
Gris-amber stream'd.
Milton, Paradise Regain'd, ii. 344.

Grise. *s.* Little pig. See extracts.

[This etymology (Irish Gaelic *grispin* = roast meat)
may apply to a birdskin when dressed, as well as
a *griskin*; and therefore, notwithstanding Lyce's
endeavour to support it by adding that *grispin*
may be from *gris*, fire, the etymology must be
sought elsewhere; and there can be no question
that it is from *gris*, *grise*, or *grice*, a swine. *Todd, under Griskin*.]

As we have occasion to show that there is no
authority in the *Lampyris* Chronicle for one speci-
men of early verse cited thence by Ritson, we may
here insert a couplet therein quoted under the year
1244, which has generally escaped attention. A
Norfolk peasant, by name William, had left his
father's house, and set out to seek his fortune with
no other companion or possession but a little pig
(porcellus), whence the people used to call him Willy

Grise, but having in this way, wandering in France,
meets rich widow, whom he wooed and wed, he be-
came in the end a great man in the country. Still
he plausibly remembered his early life of poverty and
vagrancy, and among the other ornaments of one of
the apartments of his fine house, to which he used to
retire every day for an hour's meditation, he had him-
self pictured leading the pig as he used to do with a
string, with this superscription in his native tongue:

Willie Gris, Willie Gris.

Thine's great thou was, and great thou es.
Grise, which is of frequent occurrence in *Piers
Plowman*, and continued in use in England at least
down to the middle of the 18th century, is still the
common word for pig in Scotland. *Craik, History of
the English Language and Literature*.

That *gris* is the root of *griskin* is clear.
Its own affinities are less evident. It, per-
haps, is from the Fr. *gris*, grey, and meant in
the first instance, a badger.

Grise. *s.* See *Greys*.

Let us speak like yourself; and lay a sentence,
Which as a *grise* or step, may help these lovers
Into your favour. *Shakespeare, Othello*, l. 3

Grisette. *s.* [Fr.] In the last edition, the
word being one of Todd's additions, the
definition is 'wife or daughter of a trades-
man.' This seems to have been taken from
Bayer (Dictionnaire Royal Francois-An-
glois et Anglois-Francois, 1753), in which
the entry is —

Grisette, S.F. (Jeune fille ou femme de basse con-
dition) a tradesman's daughter or wife, a plain
girl or scullion. See also the word *grizet*. Une
Julie Grisette, a pretty plain girl.

In the Dictionary of the Academy (5th
edition) two meanings are given to the
word —

Grisette, un habit d'étoffe grise de peu de valeur
que portent les filles du commun. *Grisette*, se dit
aussi d'une jeune fille ou d'une jeune femme de
méchante condition.

Bescherelle, adopting this, adds, 'Plus or-
dinairement jeune ouvrière coquette et
galante.' He further remarks that whilst
in Paris the term always conveys a dispa-
raging meaning, in Gascony it merely
means the daughter of an artisan in gene-
ral.

The unfavourable import of the word
can scarcely be so recent as Bayer and
Todd suggest. The well-known lines of
Swift beginning,

Queen of wit and beauty, Betty,
Never shall the muse forget yg, &c.,
with the coarse hunter, are addressed to
Betty the *Grisette*.

In the Complement to the Dictionary of
the Academy, a third meaning is given;
grisette being the names of several birds
and butterflies.

When I am away, every body runs away with you,
and carries you among the *grisettes*, or white they
will. *Johnson, To Mrs. Thrale*, March 19, 1777.
(Ord M.)

Used *adjectivally*.

But her person what I've think of that? — Pretty
and agreeable. — A little *grisette* thing. — *O. Caldwell*
and *J. Garrick, The Claudine Marriage*, li. 2.

Griskin. *s.* [diminutive of *grise*.] Defined
by Johnson as the vertebrae of a hog
broiled; upon which Todd remarks that the
cookery does not confer the name, and that
it may mean flesh, raw, fried, or roasted.
That it is used in certain districts for a chine
is true; but the editor believes that its ori-
ginal meaning was *sucking-pig*, this being
the one suggested by the derivation. Then
it seems to have been confounded with
brisket, and taken for a part of the full-
grown animal, instead of a dish of about
the same size, consisting of the whole of
the half-grown one. See *Grise*.

Grizly. *adj.* [A.S. *grizlic*, from *agrisan* =
frighten; terrify. — see *Grizzly*.] Drend-
ful; horrible; hideous; frightful; terrible.

His *grizly* looks, long grown and unbowed.
Disordered hung about his shoulders round.
Spenser, Faerie Queen.

Where I was wont to seek the honey bee,
The *grisy* toothed grown there might I see.
Spenser, Florio Queen.
My *grisy* countenance made others fly;
None durst come near, for fear of sudden death.
Shakespeare, Henry VI. Part I. l. 4.
The *grisy* fawn of a convicting conscience.—*Bishop*
Keppels, On the Passions, ch. xli.
Back stepp'd those two fair angels, half amaz'd
So sudden to behold the *grisy* king;
Yet thus, unmov'd with fear, assaunt him soon.
Milton, Paradise Lost, iv. 281.
Close up each other laid, they press'd the ground,
Their manly bosoms pierc'd with many a *grisy*
wound.
Dryden.
In vision thou shalt see his *grisy* face;
The king of terrors, raging in thy race.
Id., State of Innocence.
The heautous form of flight
Is chang'd, and war appears a *grisy* sight.
Id., Fables.

Grison. s. [Fr.] Animal so called, Gulo vittatus.
(For extracts see Glutton and Huxon.)

Grist. s.
1. Corn to be ground.
Get *grist* to the mill to have plenty in store,
Least miller lack water.
Thomson, The Hundred Points of Good Husbandry.
; provision.
Thief religion and devotion is but as the motion
of a wind-mill driven with the wind, that maketh
grist no longer than the white bloweth upon it.—*Galster, Man, 253.* (Ord. 181.)
Matter, as wise logician say,
Cannot without a form subsist;
And form, say I, as well as they,
Must fail, if matter brings no *grist*.
Swift.
Grist to the mill. Profit; gain.
The computation of decesses, in all matrimonial
causes, is wont to be made according to the rules of
that law, because it brings *grist* to the mill.—*Agliffe,*
Parergon Juris Civili.

Gristle. s. [A.S.] Cartilage.
No living creatures that have shells very hard, as
oysters, crabs, lobsters, and especially the tortoise,
have bones within them, but only little *gristles*.—*Bacon,*
Natural and Experimental History.
Least the asperity or hardness of cartilages should
hurt the oesophagus or gullet, which is tender and
of a skinny substance, or hinder the swallowing of
our meat, therefore the annular *gristles* of
the windpipe are not made round, or into circles; but
where the gullet touches the windpipe, there, to fill
up the circle, is only a soft membrane, which may
easily give way to the dilatation of the gullet.—*Ray,*
Wisdom of God manifested in the Works of the
Creation.

Gristly. adj. Cartilaginous; made of gristle.
At last they spit out pieces of their lungs; it may
be small *gristly* bits, that are eaten off from the
lung-pipes.—*Harey.*
She has made the back-bone of several vertebrae,
as being made fit to bend, more tough, and less in
danger of breaking, than if they were all one intire
bone without these *gristly* junctures.—*Dr. H. More,*
Antidote against Atheism.
They have a louder and stronger note than other
birds of the same bigness; which have only a *gristly*
windpipe. — *Grew.*

Grit. s. [A.S. *greut.*] Sand; rough hard particles.
Nileian hole, crackling a little betwixt the teeth,
yet without the least particle of *grit*, feels as smooth
as soap.—*Grew.*
The sturdy pear-tree here
Will rise luxuriant, and with toughest root
Pierce the obstructing *grit* and rustic marble.
J. Philips, Cyder.

Grits are fowls found in minute masses, forming
together a kind of powder; the several particles of
which are of no determinate shape, but seem the
rudely broken fragments of larger masses; not to
be dissolved or dissolved by water, but retaining
their figure, and not coloring into a mass. One
sort is a fine dull looking, grey *grit*, which, if wetted
with salt water into mortar or paste, dries almost
immediately, and concretes into a hard stony mass,
such as is not easily afterwards dissolved by water.
This is the Pulvis Puteolana of the ancients, mixed
among their cements used in buildings sunk into
the sea; and in France and Italy an ingredient in
their harder plasters, under the name of *pozzolana*.
It is common on the sides of hills in Italy. An-
other species, which is a coarse, beautifully green, dull
grit, is the Chrysocolla of the ancients, which they
used in soldering gold, long supposed a lost fowl.
It serves the purpose of soldering metals better than
borax. The ferruginous black glittering *grit*, is
the black shining sand employed to throw over
writing, found on the shores of Italy.—*Sir J. Hill,*
On Metals.

Gristiness. s. Attribute suggested by
Gritty.
In Fuller's earth he could find no sand by the
microscope, nor any *gristiness*.—*Mortimer, Hu-*
ndry.

Griststone. s. Grit.
This gigantic statue of hard *griststone* had for-
merly been broken in half across the waist, and the
upper part thrown to the ground, either by a shock
of an earthquake, or the rider allock of Persian seal
against the Egyptian religion; and for some cen-
turies past the muscovit stones had bowed from the
broken fragments.—*Sharpe, History of Egypt, ch.*
xlii.

Grits. s. See Groats.
Gritty. adj. Full of hard particles; con-
sisting of grit.
I could not discern the unevenness of the surface
of the powder, nor the little shadows let fall from
the *gritty* particles thereof.—*Sir I. Newton, On*
Opticks.

Grisale. s. [Fr. *gris.*] Mixture of white and
black; grey.
O thou dissembling cub! what wilt thou be,
When time hath now'd a *grisale* on thy case?
Shakespeare, Twelfth Night, v. 1.

Grisle. v. a. Make greyish.
Grisled. part. adj. Interspersed with grey:
(when applied to hair sometimes *ambiguo-*
us, as liable to be confused with *Grisly*).
In the fourth chariot, *grisled* and bay horses.—
Zerkiah, vi. 2.
To the boy Caesar send this *grisled* head.
Shakespeare, Antony and Cleopatra, iii. 2.
His beard was *grisled*!—No.
It was as I have seen it in his life, *Id., Hamlet, l. 2.*
A sable silvered.
His hair just *grisled*,
As in a green old age. *Dryden and Lee, Othello.*
Those *grisled* locks, which nature did provide
In plentiful growth their new's care to hide.
Dryden, Translation of Juvenal.

Grisly. adj. Somewhat grey.
Living creatures generally do change their hair
with age, turning to be gray and white; as is seen
in men, though some earlier, some later; in horses
that are clapp'd, and turn white; and in old squir-
rels, that turn *grisly*.—*Bacon.*
Groan. v. n. [Dutch, *groonen.*] Breathe
deeply from the chest, the sound being
made sonant in the larynx, of a grave dull
pitch, as in pain or agony.
Many an heir
Of these fair edifices, for my wars,
Have I heard *groan* and drop.
Shakespeare, Coriolanus, iv. 4.
Men *groan* from out of the city, and the soul of
the wounded crieth out.—*Joh, xlii. 12.*
Repenting and *groaning* for anguish of spirit.—
Wadon, v. 3.
Nothing can so peculiarly gratify the noble dispo-
sitions of humanity, as for one man to see another
so much himself as to sigh his grief and *groan* his
pains.—*South, Sermons.*

Groan. s.
1. Breathe expired with noise and difficulty,
from pain, faintness, or weariness.
Alas poor country,
Where sighs and *groans*, and shrieks that rend the
air,
Are made, not mark'd! *Shakespeare, Macbeth, iv. 2.*
I led to slaughter, and to slaughter leave;
And ev'n from hence their dying *groans* receive.
Dryden.
Hence aching bosoms wear a visage gray,
And stifled *groans* frequent the hall and play.
Young.
2. Any hoarse dead sound.
Such sheets of fire, such bursts of horrid thunder,
Such *groans* of roaring wind and rain, I never
Remember to have heard.
Shakespeare, King Lear, iii. 2.

Groanful. adj. Sad; agonizing.
Adown he knelt it with no palmar wreat,
That back again it did aloft rebound,
And gave against his mother earth a *groanful* sound.
Spenser, Florio Queen.
Groaning. verbal abs. Lamentation; com-
plaint on account of agony or pain.
To hear the *groaning* of the prisoner.—*Poems,*
cli. 20.
He shall *groan* before him with the *groanings* of
a deadly wounded man.—*Kinkiel, xxi. 24.*

Groat. s.
1. Piece of money valued at fourpence, first
coined by Edward III.
To give five pence, *groats*, or shillings, to five poor
men.—*Fulke, Against Allen, p. 408: 1880.*
Our piece of four-pence being formerly *groat* (even
as *groat* as a shilling now is, because then twenty
pence, or five *groats* weighed an ounce), is called a
grut.—*Butler, English Grammar: 1633.*
It often costs them two pence or a *groat*, before
they can convey them [letters] to my hands.—*Zu-*
ler, no. 164.

In allusion to their sordid *groats*, some Tory
wit had fixed on demagogue, who hypocritically
affected seal against Popery, the nickname of Bir-
mingham.—*Mausley, History of England, ch. iii.*
2. Small sum in general.
My mother was wont
To call them woolen vamales, things created
To buy and sell with *groats*.
Shakespeare, Coriolanus, iii. 2.

I dare lay a *groat*,
A tertian ague is at least your lot.
Dryden, The Cuck and the Fox.
Imagine a person of quality to marry a woman
much his inferior, and without a *groat* to her for-
tune.—*Swift.*

Groats. s. [German direct, *grütze*; so that
the final *s* in both *grits* and *groats* belongs
to the singular as well as the plural num-
ber. Of the two forms the one in *i* (*grits*)
most nearly approaches the German ori-
ginal in sound, and as being, in the way
of spelling, a simpler form, is preferable.
On labels, however, and in lists, the form
in *-oa-* is the commoner.] Oats as prepared
for gruel, by having the hull or shell taken
off, so as to leave only the meal; as in
'Kunden *groats*,' or *groats* brought from
Emden, in East Friesland.

Grocer. s. [see extract.] Dealer in gro-
ceries. See Grocery.

A *grocer* is a man who buys and sells tea, sugar,
and plums and spices for sale.—*Watts, Logic.*
But still the odour of your brain shall prove
The *grocer's* care, and brave the rage of Jove.
Grath.

Grocers were formerly those who engrossed mer-
chandize. It is now a particular and well-known
trade; and the custom duties for grocery wares and
drugs are particularly ascertained by statutes.—
Jacob, Law Dictionary.
This should be written *groesser*, from *groas*, a
large quantity; a *grocer* originally being one who
sold by wholesale; or from 'groovius,' a fig, which
their present state seems to favour.—*Johnson.*
The merchants, called *grocers*, were accused of
engrossing merchandize of all kind. . . . Our lexi-
cographers of more than two centuries ago describe
the *grocers* as those 'who sell by the great.'—
Todd.

Grocery. s. Grocers' ware.
His troops being now in a country where they
were not expected, met with many cart-loads of
wine, grocery, and tobacco.—*Lord Clarendon, His-*
tory of the Grand Rebellion.

Indignant female patriots, partly supplied with
bread, rush now to the shops, declaring that they
will have *groceries*. *Groceries* enough: sugar-balls
rolled forth into the street, patriot citizenesses watch-
ing it out at a just rate of elevenpence a pound;
likewise coffee-chests, soap-chests, wax cinnamon
and clove-chests, with aquavite and other forms of
alcohol,—at a just rate, which some do not pay;
the fierce grocer silently wringing his hands! What
help!—*Carlyle, The French Revolution, pt. iii. b. iii.*
ch. l.

Grog. s. Spirit and water, as served to sail-
ers. ? So called from the nickname of an
admiral who wore a program coat.
We stopped serving *grog*, except on Saturday
nights.—*Cook and King's Voyage.*

Groggy. adj. Overtaken, or influenced, by
grog, or its exhilarating equivalents. *Col-*
loquial, originally *nautical*.

Grogram. s. [Fr. *grosgrain.*] Kind of stuff
so called, with large wool and a rough
pile.

Curtis they're neatly clothed; I of this mind am.
Your only wearing is your *grogram*. *Donne.*
He shall be the *grogram* at the rate I told him.
R. Jonson, Every Man in his Humour.
I'll give you a new gown,
A new silk *grogram* gown.
Id., Magnetick Lady.

Natolia affords great store of chamelots and *gro-*
gerams.—*Sandys.*
Whether alum doth intricate the hairs of wool,
and hair-stuff, as *groggrains*.—*Sir W. Petty, in*
Bishop Sprat's History of the Royal Society, p. 200.
The natural sweetness and innocence of her be-
haviour shot me through and through, and did
more execution upon me in *grogram* than the
greatest beauty in town had ever done in broads.
—*Addison, Spectator.*
Plain goodly would no longer down;
Twas madam in her *grogram* gown.
Swift, Achilles and Deucali.

Groin. s. [N.F. *groine* = snout of a hog.]
1. Part next above the thigh.

Antipious, a son of Priam, threw
His lance at Ajax through the pome, which went by
him, and flew
On Leucua, who Ulysses' friend: his groins it smote.
Chapman.

The fatal dart arrives,
And through the border of his buckler drives;
Pass'd through and pierc'd his groins; the deadly
wound
Cast from his chariot, roll'd him on the ground.
Irrden.

The victor proceeded, according to the old savage
custom, to tear off his armour: but as he bent over
the body, Neoptolemus, collecting his failing
strength, pierced him [Eumenus] in the groins: yet
with a hand already numbed, so that the wound
did not prove fatal.—Bishop Thirlwall, *History of
Greece*, ch. lvi.

2. In Architecture.

Groins [are] a species of cross passages arched
above, so that the hollow of the one arch may cut
through the solid into the hollow of the other arch,
and leave a void at their mutual intersection. It is
evident that the first construction of groins must
have been subsequent to that of simple vaulting,
and that the idea must have originated in the for-
mation of cross-arched passages.—Rees, *Cyclopaedia*.

Groins, v. a. Construct with groins.

Groined, adj. Constructed with groins.

Down and groined arches, such as we have in the
Pantheon and in the Baths of Caracalla, perhaps
they invented; certainly they practised them on a
small scale.—Whewell.

Gromwell, s. [?] Native plant so called of
the genus *Lithospermum*.

It is called in English *gromwell*, pearly plant, and
herbale. . . . To this kind may be added those nine
sorts: 1. Great upright *gromwell*; 2. The greater creeping
gromwell; 3. Small wild *gromwell*; 4. Umbelliferous
gromwell; 5. Small *gromwell* with tufted tops like the
alkane; 6. Small corn *gromwell*, of the smaller Ger-
man or sparrows; 7. French *gromwell* with flaxen
leaves; 8. Job's tears.—Coles, *Adam in Eden*,
cxxxv.

Groom, s. [N.E. *gromme*.] See extract.

1. Boy; waiter; servant.

Then called she a groom, that forth him led
Into a goodly lodge. Spenser, *Faerie Queen*.
From Egypt's king ambassadors they come;
Their many a squire attends, and many a groom.
Fairfax.

Think then, my soul! that death is but a groom
Which brings a taper to the outward room. Jonson.
In the time of Edward VI. lived Sternhold, whom
king Henry his father had made groom of his cham-
ber, for turning of certain of David's psalms into
verses.—Peachment.

Amid the fold he rages, nor the sheep
Their shepherds, nor the grooms their bulls can
keep. Dryden.

Would'st thou be touch'd
By the presuming hands of saucy grooms?

Groom [is] the name of a servant in some infe-
rior place; generally applied to servants in stables;
but it hath a special signification, extending to the
Groom of the Chamber, Groom of the Stole, &c.,
which last is a great officer of the king's household,
whose precinct is properly the king's bed-chamber,
where the lord chamberlain hath nothing to do.
Stole signifies a robe of honour. [The] *groom-porter*
[is] an officer or superintendent over the royal
pantry-tables; in Latin he is called 'Anno Regis
Junior Primarius.'—Jacob, *Law Dictionary*.

2. Young man.

I presume for to intrust this groom,
And silly maid, from danger to redeem. Fairfax.

That thou art
The prime of our young grooms, even the top
Of all our lusty shepherds. Fletcher, *Partisus Shepherdus*.

3. Man newly married.

By this the brides are wak'd, their grooms are
dressed;
All Rhodes is summon'd to the nuptial feast.

Irrden, *Cymon and Iphigenia*.

Groove, v. a. Cut hollow.

Of the box every joint was well groov'd.—Swift.

Groove, s. [Dutch, *groeve*.]

1. Deep cavern, or hollow in mines.

He might, to avoid idleness, work in a groove or
mine-plt therabouts, which at that time was little
esteemed.—Boyle.

2. Channel or hollow cut with a tool.

The screw-plate is a kind of steel well tempered,
with several holes in it, each less than other; and
in those holes are threads grooved inwards, which
grooves fit the respective taps that belong to them.
—Mason, *Mechanical Exercises*.

Grope, v. n. [?] Feel where one cannot see.

My eye-down near about me, in the dark
Grope'd I, to find out them. Shakespeare, *Hamlet*, v. 1.

We grope for the wall like the blind, and we
grope as if we had no eyes.—Isaiah, lix. 10.

They meet with darkness in the clearest light;
And grope at noon, as if involv'd with night.

A boy was groping for eels, and laid his hand
upon a snake.—Sir R. L'Esrange.

This, no doubt, is better for men than that they
should in the dark grope after knowledge; as St.
Paul tells us all nations did after God.—Locke.

He heard us in our course,
And with his outstretch'd arms around him grope'd.
Addison.

O truth divine! enlighten'd by thy ray,
I grope and guess no more, but see thy way.
Arbutnot.

Grope, v. a. Discover, or attempt to dis-
cover, by groping.

How vigilant to grope men's thoughts, and to
pick out somewhat whereof they might complain.—
Sir J. Maynard.

They have left our endeavours to grope them out
by twilight, and by darkness almost to discover
that, whose existence is evidenced by light.—Sir T.
Browne, *Vulgar Errors*.

But Strophon, cautious, never meant
The bottom of the pan to grope. Swift.

Grosbeak, s. [Fr. *grosbec*; often with the
French pronunciation; hawfinch being,
probably, the common and more truly
English term; the bird itself, however, is
by no means common.] Native bird so
called (*Coccothraustes vulgaris*); haw-
finch.

The beak is hardest in those birds which tear
their prey, as eagles and falcons; in those which
bruise hard seeds and fruits, as parrots and *gros-
beaks*; and in those which pierce the barks of trees,
as woodpeckers, in the larger species of which the
beak absolutely acquires the density of ivory.—
Owen, *Anatomy of Vertebrates*.

Gross, adj.

1. Great; big; bulky.

There are two gross volumes concerning the power
of popes.—Baker, *On Learning*.

As opposed to thin.

His stature was of just height and all proportion-
ate dimensions, avoiding the extremes of gross and
meagre.—Bishop Fell.

With so and as, meaning 'the size of.' Rare.
The crown and thought, that wing the midway
air.

Shew scarce so gross as beetles.
Shakespeare, *King Lear*, iv. 6.

2. Shameful; unseemly; enormous.

He ripely considered how gross a thing it were for
men of his quality, wise and grave men, to live with
such a multitude, and to be tormented at will under
them.—Hooker, *Ecclesiastical Polity*.

They can say that in doctrine, in discipline, in
prayers, and in sacraments, the church of Rome
hath very foul and gross corruptions.—Ibid.

So far hath the natural understanding, even of
sundry whole nations, been darkened, that they
have not discerned, no, not gross iniquity to be sin.
—Ibid.

There is a vain and imprudent use of their es-
tates, which, though it does not destroy like gross
sins, yet disorders the heart, and supports it in sen-
suality and dulness.—Latw.

3. Intellectually coarse; palpable; impure;
unrefined.

To all sense 'tis gross
You love my son: invention is unadorn'd,
Against the proclamation of thy passion,
To say thou dost not.

Shakespeare, *All's well that ends well*, 1. 3.

Belial came last, then whom a spirit more low
Fell not from heaven, or more gross to love
Vice for itself. Milton, *Paradise Lost*, l. 460.

Is not religion so perfectly good in itself, above
all, in the Author, that, whilst the grossness of hu-
manity, we cannot but admire it?—Hishop Sprat.

But she dars never bid the present hour
So gross the cheat, it is beyond her pow'r. Young.

4. Dense; not refined; not attenuated; not
pure.

It is manifest that when the eye standeth in the
finer medium, and the object is in the grosser,
things shew greater; but contrariwise, when the
eye is placed in the grosser medium, and the object
in the finer.—Bacon, *Natural and Experimental
History*.

Light fumes are merry, grosser fumes are sad;
Both are the reasonable soul run mad.
Dryden, *Fables*.

Or suck the mists in grosser air below,
Or dip their pinions in the painted bow.
Pope, *Rape of the Lock*, canto ii.

5. Stupid; dull.

If she doth then the subtle sense excel,
How gross are they that drown her in the blood?
Sir J. Davies, *Immortality of the Soul*.

And, in clear dream and solemn vision,
Tell her of things that no gross ear can hear.

Milton, *Comus*, 47.

Some men give more light and knowledge by the
bare stating of the question with perspicuity and
justice, than others by talking of it in gross con-
fusion for whole hours together.—Watts.

6. Coarse; rough; not delicate.

Fine and delicate sculptures were helped with
nearness, and gross with distance.—Sir H. Wotton,
Elements of Architecture.

7. Whole; having no deduction or abate-
ment: (as, 'the gross sum'; 'the gross
price').

8. Large; aggregate.

Another part in squadrons and gross bands,
On bold adventure to discover with
That dismal world, if any clime perhaps
Might yield them easier habitation, bend
Four ways their flying march.
Milton, *Paradise Lost*, li. 670.

9. Heavy; oppressive.

Gross'd be the wit which cruelty refines,
Or to his father's rod the scorpion joins;
Your finger is more gross than the great monarch's
joins.
Dryden, *Ind and Panther*, pt. iii.

Gross, s. [Fr. *gross*.]

1. Main body; main force.

The Belgians hop'd, that with disorder'd haste
The deep rut keels upon the sands might run;
Or, if with caution leisurely were past,
Their numerous gross might clear us one by one.
Dryden, *Annus Mirabilis*.
Remember, anon,
You are a general: other wars require you;
For see the Roman gross begins to move.

Id., *King Arthur*.
The gross of the people can have no other pro-
priet in changes and revolutions than of publick
blessings.—Addison.

Several casuists are of opinion, that, in a battle,
you should discharge upon the gross of the enemy,
without levelling your piece at any particular per-
son.—Id., *Freeholder*.

2. Bulk; whole not divided into its several
parts.

You see the united design of many persons to
make up one figure: after they have separated them-
selves in many petty divisions, they rejoin one by
one into a gross.—Dryden.

3. Chief part; main mass.

(Mets, out of question, have likewise power and
effect over the gross and mass of things.—Bacon,
Essays.

The articulate sounds are more confused, though
the gross of the sound be greater.—Id., *Natural and
Experimental History*.

a. In gross.

Certain general inducements are used to make
valuable your cause in gross.—Hooker, *Ecclesiastical
Polity*.

It is indeed highly your interest to maintain the
present House of Commons. Having sold the na-
tion to you in gross, they will undoubtedly protect
you in the detail; for while they patronise your
crimes, they feel for their own.—Junius, lct. 40.

b. In Law.

In gross [is] absolute, entire, not dependent on
another; as anciently a villain in gross was such a
servile person as was not appendant or annexed to
the lord or manor, nor to go with the tenure as
appertenant to it; but was like the other personal
goods and chattels of his lord, at his lord's pleasure
and disposal; so also, advowson in gross differs from
advowson appendant, being distinct from the manor.
... Gross is such as is neither appendant nor ap-
pertenant to land, but is annexed to a man's person;
being granted to him and his heirs by deed; or it
may be claimed by prerogative right, or by the
parson of a church, or the like corporation sole.
This is a separate inheritance, entirely distinct from
any landed property.—Jacob, *Law Dictionary*.

c. In gross.

Gross, s. [from Fr. *grosse*.] Number of
twelve dozen.

It is made up only of that simple idea of an unite
repeated; and repetitions of this kind, joined to-
gether, make those distinct simple modes of a dozen,
a gross, and a million.—Locke.

Gross-headed, adj. Stupid; dull; thick-
skulled.

This was it, to pluck out of the heads of his ad-
mirers the conceits that all who are not prelatial
are gross-headed, thick-witted, illiterate, shallow.—
Milton, *Apology for Smectymnus*.

Grossly, adv. In a gross manner.

1. Bulkily; in bulky parts; coarsely.

The cane did again appear with a linen hanging
thereon, so grossly impregnated, as it promised to be
delivered of a most happy burthen: both cane and
linen bent themselves on me, and in them I found

another paper and a hand
Shelton, Translation of Don Quixote, iv. 13.
 2. Without subtilty; without art; without
 delicacy; without refinement; coarsely;
 palpably.

Such kind of ceremonies as have been so grossly
 and shamefully abused in the church of Rome,
 where they remain, are scandalous.—*Hooker, Ecclesiastical Polity*.

What I have said has been forced from me, by
 seeing a noble sort of poetry so happily restored by
 one man, and so grossly copied by almost all the
 rest.—*Dryden*.

If I speak of light and rays as endued with col-
 ours, I would be understood to speak not philo-
 sophically and properly, but grossly, and according
 to such conceptions as vulgar people would be apt
 to frame.—*Sir J. Newton, On Opticks*.

While it is so difficult to learn the springs and
 motives of some facts, it is no wonder they should
 be so grossly misrepresented to the publick by en-
 vious inquisitive heads.—*Swift*.

But this sort of plea will not hold in any shape.
 Compassion to an offender, who has grossly violat-
 ed the law, is in effect a cruelty to the peaceable sub-
 ject who has observed them.—*Letters of Junius*,
 let. 43.

Grossness. s. Attribute suggested by GROSS.
 1. Coarseness; not subtilty; thickness; spis-
 situde; density; greyness of parts.

The cause of the epilepsy from the stomach is the
 grossness of the vapours which rise and enter into
 the cells of the brain.—*Bacon, Natural and Experi-
 mental History*.

From envy'd wit, like Sol eclips'd, was known
 Th' opposing body's grossness, not its own. *Pope*.

2. Ineligible fatness; unwieldy corpulence.

Who men, that be over fat and fleshy, go to so-
 journ abroad at the temperate diet of some sober
 man; and so, by little and little, eat away the gross-
 ness that is in them.—*Ascham*.

3. Want of refinement; want of delicacy;
 intellectual coarseness.

I was three or four times in the thought they
 were not fairies; and yet the guiltness of my mind
 drove the grossness of the foppery into a reviv'd
 belief that they were fairies.—*Shakespeare, Merry
 Wives of Windsor*, v. 1.

Whatever beauties it may want, 'tis free at least
 from the grossness of those faults I mentioned.—*Dryden*.

What a grossness is there in the mind of that man,
 who thinks to reach a lady's heart by wounding her
 ears.—*Richardson, Clarissa*.

Grot. s. [Fr. *grotte*.] Cave; place of con-
 cealment; cavern for coolness and pleasure.

There is another grotto, or cavern, lying low un-
 derneath; it is contriv'd into the fashion of a cross,
 and here some of the Holy Innocents lie buried.—*Gregory, Pastoral*, p. 108; 1030.

God hath appointed a day wherein he will judge
 the secrets of men, that sin may not be the more
 secure for being close, but that it may be feared and
 shunned in grottoes as well as in most publick places.
Clarendon, Sermon, p. 313.

My lord had many grotto about his house, cut in
 the sandy sides of hills, wherein he delighted to sit
 and discourse.—*Anbry, Ascham*, li. 475.

In the remotest wood and lonely grot,
 Certain to meet that worst of evils, thought. *Prior*.
 Awful seen the Egyptian grot. *Pope*.

Grottesque. adj. Distorted of figure; unnat-
 ural; wildly formed: (in two of the extracts
 as an *Italian* rather than an *English* word).

By rare artificers carved into story and grotesque
 work.—*Sir T. Herbert, Relation of some Years
 Travels into Africa and the Great Asia*, p. 132.

The champion head
 Of a steep wilderness, whose hairy sides
 With thicket overgrown, grotesque and wild,
 Access deny'd. *Milton, Paradise Lost*, iv. 134.

An hideous figure of their faces they drew,
 Nor lines, nor looks, nor shadows, nor colours true,
 And this grotesque design expos'd to publick view.
Dryden.

There is yet a lower sort of poetry and painting,
 which is out of nature; for a fable is that in poetry
 which grotesque is in a picture: the persons and
 actions of a fable are all unnatural, and the manners
 false, that is, inconsistent with the characters of
 mankind; grotesque painting is the just resem-
 blance of this.—*Id., Translation of Du Fresnoy's
 Art of Painting*.

Paladian walls, Venetian doors,
 Grotesco roof, and stucco floor. *Pope*.

Grottesque. s. Wild design of a painter or
 engraver, or carver.

Painters... sometimes do serve themselves of in-
 stances that have no existence in nature... What
 indeed was more common and familiar among the
 Romans themselves than the picture and statue of
 Terminus, even one of their deities; which yet, if
 we will consider, is but a piece of grotesque.—*Sir H.
 Wotton, Elements of Architecture*.

Fence is that in poetry, which grotesque is in a
 picture.—*Dryden, Translation of Du Fresnoy's
 Art of Painting*.

All the designs I have chanced to meet of the
 temptations of St. Antony, were rather a sort of
 wild grotesques, than any thing capable of pro-
 ducing a serious passion.—*Burke, On the Sublime
 and Beautiful*.

Grottesquely. adv. In a wild, fantastical
 manner.

Death has despoiled the fester of his habiliments,
 and grotesquely decorated himself therewith.—*Ex-
 planation of Holbein's Dance of Death*, p. 10.

Grotto. s. [Italian.] Same as Grotto.

Let it be turned to a grotto, or place of shade.

Bacon, Essays, p. 315; 1032.

She turned into another walk, which led to a
 grotto.—*Moral State of England*, p. 163; 1070.

Grotto. s. Cavern or cave made for cool-
 ness; cavern generally.

Their careless chiefs to the cool grottoes run,
 The bow'rs of kings, to shade them from the sun.

Dryden.

This was found at the entry of the grotto in the
 Peak.—*Westward, On Fossils*.

And many a summer flower is there,
 And many a shade that love might share,
 And many a grotto, meant for rest,
 That holds the pirate for a guest.

Byron, The Giaour.

But the manor house was a ruin and the grounds
 round it had, during many years, been utterly ne-
 glected. Hastings proceeded to build, to plant, to
 form a sheet of water, to excavate a grotto; and, be-
 fore he was dismissed from the bar of the House of
 Lords, he had expended more than forty thousand
 pounds in adorning his seat.—*Macaulay, Critical
 and Historical Essays, Warren Hastings*.

Ground. s. [A.S. *grund*.]

1. Foundation; bottom.

Israel shall go on dry ground through the sea.—
Exodus, xiv. 16.

Man to till the ground

None was, and from the earth a dewy mist

Went up, and water'd all the ground.

Milton, Paradise Lost, vii. 332.

And yet so nimbly he would bound,

As if he scorn'd to touch the ground.

Butler, Hudibras.

Ground [is] the earth considered as superficially
 extended, and therefore related to tillage, travel,
 habitation, or almost any action. The main mass of
 terrene matter is never called the ground. We
 never distinguish the terrene mass above inground
 and water, but into earth, or land, and water; again,
 we never say under earth, but under ground.—*John-
 son*.

2. Earth as distinguished from air or water.

I have made the earth, the man and the beast that
 are upon the ground.—*Jeremias*, xxxv. 5.

There was dew upon all the ground.—*Judges*, vi.
 40.

They sum'd their pens, and, soaring th' air sub-
 lime,

With clang despid'd the ground.

Milton, Paradise Lost, vii. 421.

Too late young Turnus the delusion found;

Far on the sea, still making from the ground.

Dryden, Translation of the Æneid.

3. Land; country; region; territory.

With these came they, who from the lord'ring
 flood

Of old Euphrates to the brook that parts
 Egypt from Syrian ground, had general names

Of Ibadim and Ashtaroth.

Milton, Paradise Lost, l. 419.

The water breaks its bounds,

And overflows the level grounds.

Butler, Hudibras.

4. Estate; possession.

Cruisy still within these narrow bounds,

Thy next design is on thy neighbour's grounds:

His crop invites to full perfection grown;

Thy own seems thin, because it is thy own.

Dryden, Translation of Juvenal.

The rains o'erflow'd my ground,

And my best Flanders mare was drown'd. *Prior*.

5. Floor.

Dagm was fallen on his face to the ground.—
 1 Samuel, v. 4.

6. Dregs; lees; faeces; that which settles at
 the bottom of liquors. Generally plural.

Some insist upon having had particular success
 in stopping gangrenes, from the use of the grounds
 of strong beer, mixed up with bread or oatmeal.—
Sharp, Surgery.

7. First stratum of paint upon which the
 figures are afterwards painted.

We see the limner to begin with a rule draught,
 and the painter to lay his grounds with darksome
 colours.—*Hakewill*.

When solid bodies, sensible to the seeing and
 dark, are placed on light and transparent grounds,

as, for example, the heaven, the clouds and waters
 and every other thing which is in motion, and vivid
 of different objects; they ought to be more rough,
 and more distinguishable (than that with which they
 are encompassed).—*Dryden, Translation of Du
 Fresnoy's Art of Painting*.

8. Fundamental substance.

Over his head

A well wrought heav'n of silk and gold was spread.

Asure the ground, the sun in gold shone bright.

Corley.

Indeed it was but just that the finest lines in
 nature should be drawn upon the most durable

ground.—*Pope*.

Then wrought into the soil, let virtues shine.

The ground eternal, as the world divine. *Young*.

9. In Music. Plain song; tune on which
 descants are raised.

Get a prayer-book in your hand,

And stand between two churelmen, good my lord;

For on that ground I'll build a holy descent.

Shakespeare, Richard III., iii. 7.

10. First hint; first traces of an invention;
 that which gives occasion to the rest.

Though jealousy of state th' invention found,

Yet love reclin'd upon the former ground;

That way the tyrant had never'd to fly,

Pursuing hate, now serv'd to bring two lovers nigh.

Dryden.

11. First principles of knowledge.

Here statement, or of them they which can read,

May of their occupation find the grounds. *Poase*.

The grounds are already laid wherefore that is un-

questionably resolved; for having granted that God

gives sufficient grace, yet when he co-operates most

effectually, he doth it not irresistibly.—*Hammond*.

After evening repasts, till bed-time, their thoughts

will be best taken up in the easy grounds of religion,

and the story of scripture.—*Milton, Tractate on
 Education*.

12. Fundamental cause; true reason; original
 principle.

He desired the steward to tell him particularly

the ground and event of this accident.—*Sir P.
 Sidney*.

Making happiness the ground of his unhappiness,

and good news the argument of his sorrow.—*Id.*

The use and benefit of good laws all that live

under them may enjoy with delight and comfort,

albeit the grounds and first original causes from
 whence they have sprung be unknown.—*Hooker,
 Ecclesiastical Polity*.

See full either of them ever think fit to make any

particular relation of the grounds of their proceed-
 ings, or the causes of their misadventures.—*Lord
 Clarendon, History of the Grand Rebellion*.

Sound judgment is the ground of writing well.

Racine.

Love once given from her, and plac'd in you,

Would leave no ground I ever would be true.

Dryden.

Upon that prince's death, although the grounds

of our quarrel with France had received no manner

of addition, yet this lord thought fit to alter his

sentiments.—*Swift*.

13. Field or place of action.

How was thy end depriv'd when these men rose;

And ev'n with theirs thine art thy death did bring.

Or hasten'd at the least upon this ground. *David*.

14. Foil.

Like bright metal on a sullen ground,

My reformation glittering o'p my fault,

Shall show more grossly and attract more eyes,

Than that which hath no foil to set it off.

Shakespeare, Henry IV. Part I., l. 1.

15. Pit of a theatre. See GROUNDING.

The understanding gentlemen o' the ground here

asked my judgement.—*B. Jonson, Bartholomew
 Fair*.

In the following the idiomatic element lies
 in the verb rather than in the noun.

At length the left wing of the Arcadians began to
 lose ground.—*Sir P. Sidney*.

Evening mist,

Rise'n from the river, o'er the marsh glides,

And gathers ground fast at the labourer's heels,

Homeward returning.

Milton, Paradise Lost, xii. 629.

I have known so many great examples of this cure,

and heard of its being so familiar in Austria, that I

wonder it has gained no more ground in other places.

Sir W. Temple.

The squirrel is perpetually turning the wheel in

her cage; she runs space, and warms herself with
 her continual motion, and gets no ground.—*Dry-
 den, Translation of Du Fresnoy's Art of Painting*.

Even whilst we speak our conqueror comes on,

And gathers ground upon us every moment.

Addison, Cato.

Superiors think it a detraction from their merit
 to see another get ground upon them, and undertake
 them in the pursuits of glory.—*Id., Spectator*.

Ground. v. a.

1. Place or set in the ground.

And friendship which a faint affection breeds
Without regard of good, like ill groundless weeds.
Sponser, Heroic Queens, iv. 4.1.

2. Fix on the ground: (as, to ground arms).
When the fun is thus discharged, the word of
command in course is to ground their guns.—*Adul-*
son, Spectator, no. 102.

3. Found, as upon cause, reason, or principle.

Whom groundeth her laws upon an infallible
rule of comparison.—*Hooker, Ecclesiastical Polity.*
If your own actions on your will you ground,
Mine shall hereafter know no other bound.

Dryden, Aurengzebe.
Some eminent spirit, having signalized his valour,
becomes to have influence on the people, to grow
their leader in warlike expeditions; and this is
grounded upon the principles of nature and com-
mon reason, which, where prudence and courage are
required, rather incite us to fly to a single person
than a multitude.—*Swift.*

4. Settle in first principles or rudiments of knowledge.

Being rooted and grounded in love.—*Ephesians,*
iii. 17.

5. Run aground.

Thy gentle river boasts its pigmy boat,
Urg'd on by pains, half ground'd, half afloat:
While at her stern an anchor takes his stand,
And marks the fish he purposes to land;
From that clear space, where in the cheerful ray
Of the warm sun, the wily people play.
Craik, The Borough.

Used adjectively, or as the first element of a compound.

A lance of tough ground-ash the Trojan threw,
Rough in the rind, and knotted as it grew.
Dryden, Translation of the Æneid.

Some cut the young ash off about an inch above
the ground, which causes them to make very large
straight shoots, which they call ground-ash.—*Mur-*
timer, Husbandry.

If the planting of oaks were more in use for un-
derwoods, it would spoil the cooper's trade for the
making of hoops either of hazel or ash; because one
hoop made of the young shoots of a ground-ash,
would outlast six of the best ash.—*Ibid.*

- Ground-ivy. *s.* [two words.] Native plant
akin to the mints, thymes, &c.; (*Glechoma*
hederacea; alehoof or timhoof).

Alehoof or ground-ivy is, in my opinion, of the
most excellent use and virtue of any plants among
us.—*Sir W. Temple.*

- Groundage. *s.* Custom or tribute paid for
the standing of a ship in port.

It is ordinary to take custom for anchorage,
groundage, &c.—*Spelman.*

- Groundbait. *s.* Bait laid on the ground
rather than the hook, to assemble fish.

Take the depth of the place where you mean after
to cast your ground-bait, and to fish.—*L. Walton,*
Complete Angler.

- Groundedly. *adv.* Upon firm principles;
upon good grounds.

Whether he performed his former promise—that
can I not groundedly tell.—*Bale, in Leland's New*
Treat's Gift, sign. II. 2.

He hath given the first hint of speaking ground-
edly, and to the purpose, upon this subject.—*Glan-*
ville.

- Groundless. *adj.* Wanting ground.

We have great reason to look upon the high pre-
tensions which the Roman church makes to mira-
cles as groundless, and to reject her vain and fabu-
lous accounts of them.—*Bishop Atterbury.*

The party who distinguish themselves by their
zeal for the present establishment should be careful
to discover such a reverence for religion, as may
show how groundless that reverence is which is cast
upon them of being avowed to our national worship.
—*Frederick.*

- Groundlessly. *adv.* In a groundless man-
ner; without reason; without cause; with-
out just reason.

This principle of feignedly or groundlessly con-
ceding.—*Dr. H. More, Auditors against Idolatry,*
ch. II.

- Groundlessness. *s.* Attribute suggested by
Groundless; want of just reason.

I shall close up this chapter with remarking the
groundlessness of that tradition, which makes Ma-
homed to be put into an iron chest, that, by the
force of loadstones, hangs in the air.—*L. Addison,*
Life of Mahomed, p. 81.

- Groundling. *s.*

1. Contemptuous term for one on the low
level of the ground: (specially applied to
those in the pit of a theatre.)

It offends me to the soul, to hear a robustious
Vol. I.

perrwig-pated fellow tear a passion to tatters, to
very rags, to split the ears of the groundlings.—
Shakespeare, Hamlet, iii. 2.

We filers may deserve to be senators;
And there we must step before you thick-skinn'd
tanners,
For we are born three stories high: no base ones,
None of your groundlings, maister.

2. Native fish so called of the genus *Cobitis*:
(limited in Yarrell to the *Cobitis taenia*;
perhaps unnecessary, as all the English
loaches are equally, in the matter of habit,
groundlings).

It is called groundling from its habit of lurking
under stones in search of larvae and insects.—*Yar-*
rell, British Fishes.

- Groundly. *adv.* Upon principles; solidly;
not superficially. *Itare.*

A man, groundly learned already, may take much
profit himself, in using by epitome to draw other
men's works, for his own memory sake, into shorter
room.—*Ascham.*

- Groundpine. *s.* Native plant so called;
Ajuga chamaepitys (Gr. *xypai* = on the
ground + *πi*, *πi* = pine).

The whole plant has a very singular smell, resem-
bling that of resin; whence its name ground-pine.
It grows on dry and barren hills, and in some places
on the ditch banks by road-sides.—*Sir J. Hill, Ma-*
teria Medica.

- Groundplate. *s.* In Architecture. See ex-
tract.

Ground-plate [is] the outermost piece of timber
lying on or near the ground, and framed into one
another with mortises and tenons. In these also
are mortises made to receive the tenons of the
joists, the summer, and girders; and sometimes the
trimmers for the stair-case and chimney way, and
the binding joist.—*Harris.*

In the ordinary schemes there should be a
true delineation, if it be a timber-building, of the
several sizes of the groundplates, breast-summer,
and beams.—*Mortimer, Husbandry.*

- Groundplot. *s.*

1. Ground on which any building is placed.

Wretched Gynecia, where can'st thou find any
small ground-plot for hope to dwell upon?—*Sir P.*
Sidney.

A ground-plot square five acres contains;
Emblems of industry and virtuous gains.—*Marle.*

2. Ichuography of a building.

Men skilled in architecture might do what we did
not attempt; they might probably form an exact
ground-plot of this venerable edifice.—*Johnson,*
Journey to the Western Islands of Scotland.

- Groundrent. *s.* Rent paid for the privilege
of building on another man's ground.

A foot in front, and thirty-three five sevenths
deep, would bring in a ground-rent of five pounds.
—*Arbuthnot, Tables of ancient Coins, Weights, and*
Measures.

The site was neither granted him nor given;
'Twas nature's, and the ground-rent due to Heav'n.
Marle.

- Groundroom. *s.* Room on the level with
the ground.

I beseeched him hereafter to meditate in a ground-
room, for that otherwise it would be impossible for
an artist of any other kind to live near him.—*Thir-*
le.

- Groundsel. *s.* [A.S. *grunde-sæwige*, *grunde-*
sawlie.] Native plant so called, of the
genus *Senecio*.

It is called in English groundsell and grunsell.
... Groundsell hath mixed faculties: it cooleth and
moistureth, and withal digreth, as *Paulus Ægineta*
writeth.—*Cole, Adam in Eden.*

- Used adjectively.

Groundsell leaves, laid to with fine powder of
frankincense, heals wounded shewes.—*Barret, Al-*
phabetic: 1560.

- Groundsill. *s.* [A.S. *sil* = threshold.]

The window-frame hath every one of its lights
rabbetted on its outside about half an inch into the
frame; and all these rabbets, but that on the ground-
sill, are grooved square; but the rabbet on the
ground-sill is levelled downwards, that rain or snow
may the freer fall off.—*Moson, Mechanical Ex-*
ercises.

- Used adjectively.

Next came one
Who mourn'd in earnest, when the captive ark
Maim'd his brute luxury, head and hands lopp'd off
In his own temple, on the ground's edge,
Where he fell flat, and sham'd his worshippers.
Milton, Paradise Lost, l. 487.

- Groundwork. *s.*

1. Ground; first stratum; first part of the
whole; that to which the rest is additional.

A way there is in heav'n's expanded plain,
Which, when the skies are clear, is seen below,
And mortals by the name of milky way:
The groundwork is of stars.—*Dryden, Fables.*

2. First part of an undertaking; funda-
mentals.

The main skill and groundwork will be to temper
th'm such lectures and explanations, upon every
opportunity, as may lead and draw them in willing
obedience.—*Milton, Tractate on Education.*

3. First principle; original reason.

The groundwork thereof is nevertheless true and
certain, however they through ignorance disguise
the same, or through vanity.—*Sponser, View of the*
State of Ireland.

The morals is the first business of the poet, as
being the groundwork of his instruction.—*Dryden.*

- Group. *s.* [Fr. *groupe*.] Assemblage of two
or more figures which have some apparent
relation to each other in painting or
sculpture; cluster; collection; number
thronged together.

In a picture, besides the principal figures which
compose it, and are placed in the midst of it, there
are less groups or knots of figures disposed at proper
distances, which are parts of the piece, and seem to
carry on the same design in a more inferior manner.
—*Dryden, Translation of Du Fresnoy's Art of*
Painting.

I cannot doubt but the poet had in view the
picture of *Zelus*, in the famous group of figures
which represents the two brothers binding *Dircæ* to
the horns of a mad bull.—*Addison.*

You should try your graving tools
On this odious group of fools.—*Swift.*

- Group. *v. a.* Arrange in a group.

The difficulty lies in drawing and disposing, or, as
the painters term it, in grouping such a multitude
of different objects.—*Prior.*

- Grouse. *s.* [P.] Native gallinaceous bird so
called of the genus *Tetrax*.

The 'squires in scorn will fly the house
For better game, and look for grouse.—*Swift.*

- Grout. *s.* [A.S. *grut*.]

1. Groats; grills.

King Hardicanute, 'midst Danes and Saxons
staid,
Carous'd in nut-brown ale, and din'd on grout:
Which dish its pristine honour still retains,
And when each prince is crown'd in splendour
reigns.—*King.*

2. Wort.

Sweet grout, or whig, his bottle had, as much as
it might bode.—*Warner, Alcibi's England,*
Sweet honey some condense, some purge the
grout.—*Dryden.*

- Grove. *s.* Small wood, or place set with
trees.

I look'd towards Birnam, and ayon methought
The wood began to move:
Within this three mile may you see it coming;
I say a moving grove.—*Shakespeare, Macbeth, v. 2.*
Fortunate fields and groves, and flow'ry vales!
Thrice happy isles! *Milton, Paradise Lost, iii. 569.*
Banish'd from courts and love,
Abandon'd truth seeks shelter in the grove.—*Granville.*

- Grovel. *v. a.* [The import of the *l* has been well
investigated by Mr. Morris in a paper in the
Transactions of the Philological Society; and he
gives good reasons for believing that the
verb is a secondary growth; being formed
upon what appears to be (but which is not)
its participle, viz. the word *groveling*, as it
is at present commonly, though improperly
spelt; but which is really, *groveling*. Mean-
while, *groveling* itself is an *adverb*, belong-
ing to the class which in Scotch contains
aloelins, *blindlins*, *sidelins*, and many other
words, but which in English, is generally
limited to the word *Darkling*. This class
Mr. Morris enlarges by the addition of
endlong, *headlong*, *foolings*, and *middling*.
The creation of a verb out of a form so
participial as the one under notice is easily
conceived. For a further development of
this doctrine the reader is referred to the
paper itself, which is both critical and sug-
gestive.] Lie prone; creep low on the
ground.

What seest thou there? King Henry's diadem,
Inch'd with all the honours of the world!
If so, gaze on, and grovel on thy face,
Until thy head be circled with the same.
Shakespeare, Henry VI. Part II. l. 2.

Now they lie
Groveling and prostrate on yon lake of fire,
As we crawle, astounded and amazed;
No wonder, fallen from such pernicious height.
Milton, Paradise Lost, l. 236.
Because thou hast done this, thou art accursed.
Above all cattle, each beast of the field;
Upon thy belly *groveling* thou shalt go.
Ibid. x. 177.

Let us then conclude that all painters ought to require this part of excellence: not to do it, is to want courage, and not dare to show themselves: 'tis to creep and *grovel* on the ground.—*Dryden, Translation of De Pommoy's Art of Painting*.
He [the emperor Frederic II.] was not superior, it is manifest, to some of the superstitions of his time; he is accused of studying the influence of the stars, but it may have been astrology aspiring (under Arabic teaching) to astronomy, rather than astronomy *groveling* down to astrology.—*Milman, History of Latin Christianity*, b. x. ch. v.
The sturgeons . . . were designed to be the scavengers of the great rivers; they swim low, *grovel* along the bottom, feeding, in shulls, on the decomposing animal and vegetable substances which are hurried down with the debris of the continents drained by those rapid currents. . . . These fishes are, therefore, duly weighted by a ballast of dense dermal osseous plates, not scattered at random over their surface, but regularly arranged, as the seaman knows how ballast should be, in orderly series along the middle and at the sides of the body.—*Owen, Lectures on Comparative Anatomy*, lect. vi.

Groveler. s. Person of a low, mean, groveling disposition.
The man of a towering ambition, or a well regulated taste, has fewer objects to envy or to covet than the *groveler*.—*Shenstone*.
Groveling. part. adj.
I must disclaim what'er he can express;
His *groveling* sense will show my passion less.
Dryden.
Several thoughts may be natural which are low and *groveling*.—*Addison, Spectator*.
It seems certain, that, according to the natural progress of human thought, the ignorant multitude must first entertain some *groveling* and familiar notion of superior powers, before they stretch their conception to that perfect Being who bestowed order on the whole frame of nature.—*Hume, Natural History of Religion*.
Grow. v. n. [A.S. *growan*.] preterite *grew*, past part. *grown*.

1. Develop in the way of vegetation; increase in bulk; develop; issue.
He causeth the grass to *grow* for the cattle, and herb for the service of man.—*Psalms*, civ. 14.
Bones, after full growth, continue at a stay: as for nails, they *grow* continually.—*Bacon, Natural and Experimental History*.
Then their numbers swell,
And *grow* upon us. *Sir J. Denham*.
Divisions *grow* upon us, by neglect of practical duties: as every age degenerated from primitive piety, they advanced in nice enquiries.—*Dr. H. More, Decay of Christian Piety*.
Those towers of oak, o'er fertile plains might go,
And visit mountains where they once did *grow*. *Waller*.
Children, like tender osiers, take the bow;
And as they first are fashion'd, always *grow*.
Dryden, Translation of Juvenal.
The general idea given by this word is procession or passage from one state to another. It is always change, but not always increase; for a thing may *grow* less, as well as *grow* greater.—*Johnson*.

2. Improve; make progress.
Grow in grace, and in the knowledge of our Lord and Saviour Jesus Christ.—*1 Peter*, iii. 18.
Verse, or the other harmony of prose, I have so long studied and practised, that they are *grown* into a habit, and become familiar to me.—*Dryden, Fables*, pref.
The trespasses of people are *grown* up to heaven, and their sins are got beyond all restraints of law and authority.—*Ezra, Sermons*.

3. Come forward.
It was now the beginning of October, and winter began to *grow* fast on: great rain, with terrible thunder and lightning, and mighty tempests, then fell abundantly.—*Knox, History of the Turks*.

4. Be changed from one state to another; become either better or worse; turn.

4. Feel compunction; grieve. Obsolete.

We . . . *grudge* in our conscience, when we remember our yinnes.—*Bishop Fisher, Psalms, p. 32.*

Spelt with *teh*: (in the extracts it may be for the sake of the rhyme; under the other entries, however, connected with the word, the same spelling occurs in prose).

The poor at the enclosure doth *grutch*,
Because of abuses that fall,
Lest some men should have but too much,
And some again nothing at all.
Tasson.

Five Hundred Points of good Husbandry.
But what we're born for we must bear,
Our frail condition it is such,
That what to all may happen here,
It's chance to me, I must not *grutch*.
B. Jonson.

3. Secret wish or desire.

Ev'n in the most severe advice he gave,
He had a *grudging* still to be a knave.
Dryden, The Medal.

4. Afterpain; reminiscence of a disease; less properly, symptom in general.

The smart or swelling of the sting of conscience is as sensible and lively a prognostick of the worm which never dieth, as heaviness of spirit, or *grudging*, are of fevers or other diseases.—*Dr. Jackson, Works, iii. 323.*

My Dolabella,
Hast thou not still some *grudgings* of thy fever?
Dryden.

Grudgingly. adv. In a grudging manner; unwillingly; malignantly; reluctantly.

Every man according as he purporth in his heart, so let him him give; not *grudgingly*, or of necessity; for God loveth a cheerful giver.—2 Corinthians, ix. 7.

Like harpies they could scent a piousness board;
Then to be sure they never fail'd their lord:
The rest was form, and bare attendance paid;
Then drank and eat, and *grudgingly* obey'd.
Dryden.

Grudgingly. s. [N.Fr. grugeons. Colgrave and Sherwood write it *grudgings*; Johnson

GRUM

enters it Grugeons; Todd Grudgeons, connecting it with the verb *gruger*, *gruger* = crumble, or break into small pieces.] Coarse meal; part of the corn which remains after the fine meal has passed the sieve.

You that can deal with *grudgings* and coarse flour.
Beaumont and Fletcher, Maid in the Mill.

Nick looked sour and *gram*, and would not open his mouth.—*Arbuthnot, History of John Bull.*

Grumble. v. n. [Dutch, *grummelen*].

1. Murmur with discontent.

A bridegroom,
A *grumbling* groom, and that the girl shall find.
Shakespeare, Twelfth Night, iii. 1.

Thou *grumbled* and rail'd every hour on Achilles, and thou art as full of envy at his greatness as Cereberus is at Prometheus's beauty.—*Id., Troilus and Cressida, ii. 1.*

Th' nearest Philistian stands on th' other side,
Grumbling aloud, and smiles 'twixt rage and pride.
Cowley, Lucinda.

Suitors, all but one, will depart *grumbling*, because they miss of what they think their due.—*South, Sermons.*

Providence has allotted man a competency: all beyond it is superfluous; and there will be *grumbling* without end, if we reckon that we want this, because we have it not.—*Sir B. L. Estlin.*

I Avare, not using half his store,
Still *grumbled* that he has no more.
Prior, Alma, canto iii.

2. Growl; gnarl.

The lion, though he sees the toils are set,
Yet, pinch'd with raging hunger, scours away;
Hunts in the face of danger all the day;
At night, with sullen pleasure, *grumbles* o'er his prey.
Dryden.

3. Make a hoarse rattle.

Didst thou never see a drum? Canst thou make this *grumble*?—*Beaumont and Fletcher, The Pilgrim.*

Thou *grumbling* thunder, join thy voice.
Motterus.

Without or grudge or grumblings.

Shakespeare, Tempest, l. 2.
(See also second extract under Grumbler).

Grumbly. *adv.* In a grumbling manner. They speak good German at the court, and in the city; but the common and country people seem to speak grumbly.—*R. Browne, Travels in Europe*, p. 152.

Grumus. *s.* [*Lat. grumus*.] Clot.

Grumus, a thick viscid consistence of a fluid; as the white of an egg, or clotted like cold blood.—*Quincy*.

Grumous. *adj.* Thick; clotted.

The blood, when let, was black, grumous, the red part without a due consistence, the serum saline, and of a yellowish green.—*Arndhauf, On the Nature and Choice of Aliments*.

Grumousness. *s.* Attribute suggested by grumous; thickness of a coagulated liquor.

The cause may be referred either to the constitution of the serum, or grumousness of the blood.—*Wismen, Surgery*.

Grumpy. *adj.* Querulous; complaining; low-spirited, or melancholic, as one who has suffered an injury.

To-night, . . . there was a special general meeting of the Grumpy Club, in which everybody was to say the gayest things with the gravest face, and every laugh carried a forfeit. Lucian . . . told a tale for which he was famous, of 'the very respectable county family who had been established in the shire for several generations, but who (it was a fact) had been ever distinguished by the strange and humiliating peculiarity of being born with sleep's tale.' The remarkable circumstances under which Lucian Gay had become acquainted with this fact; the traditional mystery by which the family in question had succeeded for generations in keeping it secret; the decided measures to which the chief of the family had recourse to stop for ever the rumour when it first became prevalent; and finally the origin and result of the legend were details which Lucian Gay, with the most useful countenance, loved to expound upon the attentive and expanding intelligence of a new member of the Grumpy Club.—*Diarrich the younger, Coningsby*.

Grunt. *v. n.*

1. Make a noise like that of a hog.

And neigh, and bark, and grunt, and roar, and burn.
Like horse, hound, hog, bear, fire, at every turn.
Shakespeare, Midsummer-Night's Dream, iii. 1.
The hriided boars may slumber undismay'd.
Or grunt secure beneath the chestnut shade. *Tickell*.

2. Groan.

Those persons, I warrant, as well pleased shall be all.
As wood-knolls shall grunt at the rubbings on the gall.

Defence of Peace, To the Duke: 1633.
Who would fardels bear,
To grunt and sweat under a weary life?

Shakespeare, Hamlet, iii. 1.

Grunt. *s.*

1. Noise of a hog.

Swine's snorts, swine's bodes, took they, bristles, grunts.
Chapman.
Gan cow and calf, and family of hogs;
In pariah horror of pursuing dogs;
With many a deary grunt and doleful squeak,
Poor swine, as if their pretty hearts would break.
Dryden, Fables, The Cuck and the Fox.
From hence were heard
The grunts of bristled boars, and groans of bears,
And herds of howling wolves.
Id., Translation of the Iliad.

2. Groan.

Round about I heard of dying men the grunts.
Turberville, Translation from Ovid, Hypocentres to Lynceus.

Grunting. *part. adj.* Uttering grunts.

The wailing quon to louder notes doth rise,
To her full pipes the grunting hogs reply:
The grunting hogs alarm the neighbours round.

Swift.

Grunting. *verbal abs.* Act of one who grunts.

Lament, ye swine! in grunting spend your grief.
Gay.
Johnson grown old, Johnson in the fulness of his fame and in the enjoyment of a competent fortune, is better known to us than any other man in history. Every thing about him, his coat, his wig, his figure, his face, . . . his grunting, his puffing, his vigorous, acute, and ready eloquence, his majestic

GUAR

wit, his vehemence, . . . his queer inmates, old Mr. Levett and blind Mrs. Williams, the cat Hodge and the negro Frank, all are as familiar to us as the objects by which we have been surrounded from childhood.—*Macaulay, Critical and Historical Essays, Croker's Edition of Boswell's Life of Johnson*.

Gruntle. *v. n.* Grunt.

Pensive in mud they wallow all alone,
And snore and gruntle, to each other's mean.
Duke of Buckingham, Rehearsal, l. 1.

Gry. *s.* [*Gr yph*, a rare and colloquial or slang term for particle or minim, in the way of either mutter or speech.] Small measure.

A gry is one tenth of a line, a line one tenth of an inch.—*Locke*.

Gryphon. *s.* Griffin, of which it is the Greek form. *Rhetorical*.

As when a gryphon in the wilderness
Pursues an Arimaspian.
Milton, Paradise Lost, li. 943.

Guaia. *s.* [*?*] Medicinal wood so called; see extract from Ure.

Guaia is attendant and appertent. It is excellent in many chronic cases, and was once famous for curing the venereal disease, which it still does singly in warmer climates, but with more fluid it is sufficient. We have a resin of it, improperly called gum guaiacum.—*Sir J. Hill, Materia Medica*.
The acid spirit in tar-water possesses the virtues, in an eminent degree, of that of guaiacum, and other medicinal woods.—*Bishop Berkeley, Siris*, § 47.

Form guiac.

Guia is a resin which exudes from the trunk of the *Guaiacum officinale*, a tree which grows in the West India islands, and comes to us in large greenish-brown, semi-transparent lumps, having a conchoidal or splintery fracture, brittle and easy to pulverize. . . . It is soluble in alkaline lyes, in alcohol, incompletely in ether, still less so in oil of turpentine, and not at all in fat oils.—*Ure, Dictionary of Arts, Manufactures, and Mines*.

Guan. *s.* [*?*] Gallinaceous bird, native of South America, of the genus *Penelope*, so called.

A calcaneal avianoid is wedged into the outer and back part of the ankle-joint in the apteryx, and plays upon the back part of the tibial trochlea in the turkey, guan, curassow, and some other rasures.—*Owen, Anatomy of Vertebrates*.

Guano. *s.* [*?*] See extract.

Guano is a substance of a dark yellow colour, of a strong ambrosial smell, which blackens in the fire, with the exhalation of an ammoniacal odour; soluble with effervescence in hot nitric acid. When this solution is evaporated to dryness it assumes a blue red colour, evincing the presence of uric acid. *Guano* is found upon the coasts of Peru, in the islands of Chile, near Pisco, and several other places more to the south, the accumulation of the excrements of hummerable flocks of birds, especially herons and flamingos, which inhabit these islands.—*Ure, Dictionary of Arts, Manufactures, and Mines*.

Guarantee. *s.* Stipulation, or stipulator, for any undertaking or engagement.

God, the great guarantee for the peace of mankind, whom laws cannot secure it, may think it the concern of his providence.—*South, Sermons*.

A prince distinguished by being a patron of Protestants, and guarantee of the Westphalian treaty.—*Addison, Present State of the War*.

An oath is a promise made to God, and God is our superior, superior to kings; and he is also the guarantee and avenger of all breach of faith and injustice.—*Lecky*.

Asaph-ul-Dowlah had already extorted considerable sums from his mother. She had at length appealed to the English; and the English had interfered. A solemn compact had been made, by which she consented to give her son some pecuniary assistance, and he in his turn promised never to commit any further invasion of her rights. This compact was formally guaranteed by the government of Bengal. But times had changed; money was wanted; and the power which had given the guarantee was not ashamed to instigate the spoiler to excesses such that even he shrunk from them.—*Macaulay, Critical and Historical Essays, Warren Hastings*.

Spelt with -y. In this the accent is often on the first syllable, *guadranty*.

It was made in contradiction to the engagements that the crown of England had taken, when King William gave his guaranty to the treaty of Travend-hall.—*Lord Bolingbroke*.

Guarantee. *v. a.* Undertake to secure the performance of any articles.

Public treaties made under the sanction, and some of them guaranteed by the sovereign powers of other nations.—*Burke, On French Affairs*.

Spelt with -y.

France hath always profited skilfully of its having

GUAR

guaranteed the treaty of Munster.—*Lord Chesterfield*.

Guard. *v. a.* [*Fr. garder*.]

1. Watch by way of defence and security.

Who by stealth
Had from his wakeful custody purloin'd
The guarded gold. *Milton, Paradise Lost*, li. 942.

2. Protect; defend.

Naked the graces guarded you from all
Dangers abroad, and now your thunder shall.

Your pow'r you never use, but for defence.
To guard your own or others' innocence. *Dryden*.
The port of Genoa is very ill guarded against the storms.—*Addison, Travels in Italy*.

3. Preserve by caution.

One would take care to guard one's self against this particular imperfection, because it is that which our nature very strongly inclines us to.—*Addison, Spectator*.

4. Provide against objections.

Homer has guarded every circumstance with as much caution as if he had been aware of the objection.—*Brown, On the Odyssey*.

5. Adorn with lists, laces, or ornamental borders.

Give him a livery
More guarded than his fellows.
Shakespeare, Merchant of Venice, li. 2.

See a fellow
In a long motley coat, guarded with yellow.
Id., Henry VIII., prologue.

Guard. *v. n.* Be in a state of caution or defence.

There are cases in which a man must guard, if he intends to keep fair with the world, and turn the penny.—*Cutler*.

To guard against such mistakes, it is necessary to acquaint ourselves a little with words.—*Watts, Logic*.

Guard. *s.*

1. One whose business is to watch by way of defence or prevention.

The guard have them, and brought them back into the guard-chamber.—*1 Kings*, xiv. 24.
With the Regiment so called. (*pl.*)

An officer of the guards, not then on duty, taken part in the affair, applies to the lieutenant commanding the till-yard guard, and urges him to turn out his guard to relieve a general officer. The lieutenant declines interfering in person, but stands at a distance, and suffers the business to be done. The officer takes upon himself to order out the guard. In a moment they are in arms, quit their guard, march, rescue the general, and drive away the sheriff's officers, who in vain represent their right to the prisoner, and the nature of the arrest. The soldiers first conduct the general into the guard-room, then escort him to a place of safety, with bayonets fixed, and in all the forms of military triumph.—*Junius*, let. 35.

2. Body of guards.

Up into heaven, from Paradise, in haste
The angelic guards ascended, mute and sad,
For man. *Milton, Paradise Lost*, x. 17.
They mis'd courts, guards, a gay and merrous train,
Our judges, like our laws, were rude and plain.

With lifted hands, and gazing eyes,
His guards behold him soaring through the skies.
Dryden.

They, usurping arbitrary power, had their guards and spies after the practice of tyrants.—*Swift*.

3. State of caution; state of vigilance.

The great alteration which he made in the state ecclesiastical, caused him to stand upon his guard at home. *Sir J. Davies*.
Temerity puts a man off his guard.—*Sir E. D. Ertrange*.

It is wisdom to keep ourselves upon a guard.—*Id.*
Now he stood collected and prepar'd;
For malice and revenge had put him on his guard.

(There are cooped in close by the strict guards of those whose interest it is to keep them ignorant.—*Locke*.)

Men are always upon their guard against an appearance of design.—*Bishop Smalridge*.

4. Check; limitation; anticipation of objection; caution of expression.

They have expressed themselves with as few guards and restrictions as I.—*Bishop Atterbury*.
He must be trusted to his own conduct, since there cannot always be a guard upon him, except what you put into his own mind by good principles.—*Locke*.

5. Ornamental hem, lace, or border.

He put the ophod on him, which he girded with the hundred guards of the ophod.—*Leviticus*, viii. 7: translation of 1876.

The guards are but slightly banded on.
Shakespeare, Much Ado about Nothing, l. 1.

6. Part of the hilt of a sword.
7. In *Fencing*. Posture to defend the body from the sword of the opponent.
8. Anything that protects or guards something else; as, a *guard* that keeps dress from dirt, a *safe-guard*, as it in some places is called.

Guardable. *adj.* Capable of being protected.
This house was *guardable* without battery.—*Sir R. Williams, Account of the Low-Countries*, p. 68: 1618.

Pacheco and his men quitted Zirikoon, some seven days before, as a place not *guardable*.—*Ibid.* p. 70.

Guardage. *s.* Stute of wardship. *Obsolete.*
A maid so tender, fair and happy,
Run from her *guardage* to the sooty bosom
Of such a thing as thou. *Shakespeare, Othello*, l. 2.

Guardant. *part. adj.* *Rare.*
1. Exercising the authority of a guardian.
You shall perceive that a Jack *guardant* cannot
office me from my son Coriolanus.—*Shakespeare, Coriolanus*, v. 2.

2. In *Herulry*. Having the face turned towards the spectator: (as, 'a leopard *guardant*').

Guardant. *s.* Guardian; protector. *Obsolete.*

My angry *guardant* stood alone,
Tendering my ruin, and small'd of sons.
Shakespeare, Henry VI. Part I. iv. 7.

Guardedly. *adv.* In a guarded manner; cautiously.

It oddly pointed out the true object of their resentment; but this so *guardedly*, that it was impossible to make any serious charge against the author.—*Sheridan, Life of Swift*, p. 210.

Guarder. *s.* One who guards.
The unarmed *guarder* softly moeth.

Kunzli, Reclutantea, p. 16.
Pages, chambermaids, and *guarders*.—*Beaumont and Fletcher, The Noble Gentleman*.

Guardful. *adj.* Wary; cautious.
I meanwhile
Watch with a *guardful* eye those murderous motions.
A. Hill.

Guardian. *s.*
1. One that has the care of an orphan; one who is to supply the want of parents.

I am sorry for her, as I have just cause, being her uncle and her *guardian*.—*Shakespeare, Much Ado about Nothing*, ii. 3.
When perjur'd *guardians*, proud with impious gains,
Choke up the streets, too narrow for their trains!

Dryden, Translation of Juvenal.
Hocur, with two other of the *guardians*, thought it their duty to take care of the interest of the three girls.—*Arden, History of John Bull*.

2. One to whom the care and preservation of anything is committed.

I gave you all,
Made you my *guardians*, my depositaries;
But kept a reservation to be followed
With such a nuider. *Shakespeare, King Lear*, ii. 4.
It then becomes the common concern of all that have truth at heart, and more especially of those who are the appointed *guardians* of the Christian faith, to be upon the watch against seducers.—*Wadsworth*.

The *guardian* of the spiritualties [is] he to whom the spiritual jurisdiction of any diocese is committed, during the vacancy of the see. He may be either *guardian* in law, or jure magistratus, as the archbishop in of any diocese within his province; or *guardian* by delegation, as he whom the archbishop or vicar-general doth for the time depute.—*Cucell*.

3. Repository or storehouse. *Obsolete.*
Where is Duncan's body?—Carried to Colmekill,
The sacred storehouse of his predecessors,
And *guardian* of their bones.

Shakespeare, Macbeth, ii. 4.
Guardian. *adj.* Performing the office of a kind protector or superintendent.

My charming patroness protects me unweary, like
my *guardian* angel; and shows my gratitude like a
sly, who is bountiful by stealth, and conceals the
gift, when she bestows the gift.—*Dryden, Cleomenes*, dedication.

Meanwhile Minerva, in her *guardian* care,
Shoots from the starry vaults through fields of air.
Pope.

Thus shall mankind his *guardian* care engage,
The promise'd father of the future age. *Id., Messiah*.

Guardianess. *s.* Female guardian.
I have plac'd a trusty watchful *guardianess*,
For fear some poor curd shall her.
Beaumont and Fletcher, Will at several Weapons.

Guardianship. *s.* Office of a guardian.

The curate stretched his patent for the cure of souls, to a kind of tutinary *guardianship* over goods and chattels. *Sir R. L. Estlin*.

This holds true, not only in losses and indignities offered to ourselves, but also in the case of trust, when they are offered to others who are committed to our care and *guardianship*. *Kettelwell*.

There was in the first who established the popular state in Athens, assigning to himself the *guardianship* of the laws, and chief commands in war. *Swift*.
He also begged them to undertake the *guardianship* of his son.—*Shakespeare, History of Egypt*, ch. ix.

When, Hastings became governor, Mahamud Ben Kinn had held power seven years. An infant son of Meer Juller was now in birth; and the *guardianship* of the young prince's person had been confided to the minister.—*Macaulay, Critical and Historical Essays, Warren Hastings*.

Guardless. *adj.* Without defence.

So on the *guardless* herd, their keeper slain,
Rushes a tiger, in the lagoon plain. *Waller*.
A rich land, *guardless* and undefended, must needs have been a double incitement.—*South, Sermons*.

Guardship. *s.* Care; protection.

How blest am I, by such a man led!
Under whose wise and careful *guardship*
I now despise fatigue and hardship. *Swift*.

Guardsmen. *s.* Common soldier, or officer, belonging to the guards.

There was Jack Jargon, the gigantic *guardsmen*;
And General Fireface, famous in the field,
A great tactician, and no less a swordsmen,
Who ate, last war, more Yankees than he killed.

About this time a steep decline in the west of England had attracted considerable attention. This sport was then of recent introduction in England, and is, in fact, an importation of Irish growth, although it has flourished in our soil. A young *guardsmen* who was then a guest at the castle, and who had been in garrison in Ireland, had some experience of this pastime in the Kildare country, and he proposed that they should have a steepchase at Coningsby.—*Diary of the younger, Coningsby*, b. iv. ch. xiv.

Guarish. *v. a.* [Fr. *guérir*, pres. part. *guérissant*.—*Henl.*] Heal. *Rare.*

Daily she dressed him, and did the best
His grievous hurt to *guarish*.
Spenser, Faerie Queen.

Guava. *s.* Indian fruit so called; known chiefly in England as made into jelly; hence, it is generally used *adjectivally*.

This [jelly] when well made with fine, full-flavoured, scarlet strawberries, is a very delicious preserve, and is by many persons preferred to *guava* jelly, which it generally resembles.—*Eliza Acton, Modern Cookery*.

Gubernation. *s.* [Lat. *gubernatio*, -onis; *gubernare* = govern.] Government; superintendency; superior direction.

Perhaps there is little or nothing in the government of the kingdoms of nature and grace, but what is transacted by the man Jesus, imbued by the divine power and wisdom, and employed as a medium or conscious instrument of this extensive *gubernation*.—*Watts, Improvement of the Mind*.

Gubernative. *adj.* Governing; ruling.
He talked to him of real and *gubernative* wisdom.
—*Bishop Hacket, Life of Archbishop Williams*, p. 59: 1623.

Gudgeon. *s.* [Fr. *goujon*, *gouvion*; Lat. *gobio*.]

1. Native fish so called; Cyprinus gobio.
'Tis true, no turbot's dignity my bairn;
But *gudgeons*, flounders, what my Thames affords.
Pope, Imitations of Horace.

2. Credulous person; one easily cheated; simpleton. This application is generally deduced from the ease with which a gudgeon is caught, it being supposed to bite more freely than most other fishes. That it bites freely is true; but neither its voracity nor its credulity is sufficiently marked to pass into a proverb.

The following extract, like the others, is taken from the previous editions.

This he did to draw you in, like so many *gudgeons*, to swallow his false arguments.—*Swift*.

Here, the gudgeon is the swallower, not the thing swallowed; the dupe, not the bait.

In the following, however, the view is reversed, and the gudgeon is the thing swallowed.

Of ambushed men, whom, by their arms and dress,
To be Timon's enemies I guess.

Dryden, Indian Emperor.
The same author ventures to guess at the par-

Such as Gregory or Bede were, who being honest, and without credulous, and trusting others, swallowed many a *gudgeon*.—*Pausan, Antiquity's Triumph over Novelty*, p. 93: 1618.

Timonians would not swallow that *gudgeon* of a British consul.—*Hobart Lloyd, History of Church Government in Great Britain*, pref.: 1681.

The same is the case in the following French examples, both from Wedgwood, 'cha passe come un *gouvion*,' from the proverb (= 'that goes down as a gudgeon,' or 'that is easily swallowed'), and *saire aculer des gouvions* (= 'make gudgeons be swallowed,' or 'make a lie believed').

Of *gudgeons*, however, having been swallowed with particular ease there is no very good evidence; though there is a good deal in favour of the *louch* having been so treated. The *louch* is said, in most notices, to have been not unfrequently tossed off in touts, or swallowed in a glass of wine, by the gullies of the Elizabethan period. It is suggested, then, that the *gudgeon*, when suggestive of credulity, is the *louch*. How much the two fishes have in common is well known. Both keep on the ground; both are marked or mottled; both have a beard or wattle. Moreover, in the zoological nomenclature, while the gudgeon is a *gobio*, the *louch* is a *cobitis*.

3. Iron pin on which a wheel turns.

Many times the iron *gudgeons* grow hot for want of greasing.—*History of making tinplate*, in *Bishop Sprat's History of the Royal Society*, p. 281.

Guider-rose. *s.* [Fr. *Guitte-rose*; *gutter*, *gutter*, or *guttere* being a synonym of the closely allied *Viburnum opulus*.] Native flowering-tree so called, *Viburnum lan-tum*.

Here the ivy-leaved bell-flower, and not far from it the common enchanter's nightshade, the silver weed and the water-cress; and by the hedges that now and then guard the water, the *guider-rose*, and the white-briony, overrunning the thicket with its emerald leaves and luxuriant flowers.—*Sir B. D. Lytton, Eugene Aram*, b. l. ch. iii.

Guerdon. *s.* [Fr.] Reward; recompense. *Rhetorical; archaic.*

But to the virgin comes, who all this while
Amazed stands herself so mock'd to see,
By him who has the *guerdon* of his smile,
For so misjudging her true knight to be.

Spenser, Faerie Queen.
He shall, by thy reverend hand, at once receive
The just *guerdon* of all his former villainy.—*Knots, History of the Turks*.

Fame is the spur that the clear spirit doth raise
To more delights, and live laborious days;
But the fair *guerdon* when we hope to find,
And think to burst out into sudden blaze,
Comes the blind fury with the allured shears,
And cuts the thin-spun life.

Milton, Lycidas, 71.
They were sure of being able, for a time at least, to indulge in pillage and murder, and to practise, without restraint, those excesses which they regarded as the choicest *guerdon* of a soldier's career.
—*Buckle, History of Civilization in England*, vol. ii. ch. iv.

Guerdon. *v. a.* Reward. *Rhetorical.*
We vow to *guerdon* it with such due grace,
As shall become our bounty, and their place.
B. Jonson, Cynthia's Revels.

Guerdonable. *adj.* Worthy of reward. *Rare.*
Finding it as well *guerdonable*, as grateful, to publish their libels.—*Sir G. Buck, History of Richard III.* p. 73.

Guerrilla. *s.* [Spanish.] Little war.
It spoke of nothing but brilliant actions, wonderful achievements; the great captain and his astonishing enterprises; of all the romantic incidents of that most romantic war, in that most romantic country; of mountains, valleys, splendid monasteries, secluded nun, restless *guerrillas*, pushing streams, and fervid suns.—*Emilio W. Gubman*, ch. x.

Guess. *v. n.* [Dutch, *ghissen*.] Conjecture.
He that, by reason of his swift motions, can inform himself of all places and preparations, should he not very often *guess* rightly of things to come, where God pleaseth not to give impediment?—*Sir W. Raleigh, History of the World*.

There were swarming lands
Of ambushed men, whom, by their arms and dress,
To be Timon's enemies I guess.

Dryden, Indian Emperor.
The same author ventures to guess at the par-

Guinea. *Guinea*. A small island which would attend the Roman government.—*Swift*.

One may guess by Plato's writings, that his meaning, as to the inferior deities, was, that they who would have them might, and they who would not might let them alone; but that himself had a right opinion concerning the true God.—*Bishop Hillingfleet*.

Guess. v. a. Hit upon by accident; determine rightly of anything without certain direction of the judgement.

If Xerxes was able to call every common soldier by his name in his army, it may be *guessed* he did not this wonderful ability by learning his lemons by heart.—*L. vke*.

Guess. s. Conjecture.

The enemy's in view; draw up your powers; Here is the *guess* of their true strength and forces.

Shakespeare, King Lear, v. 1.
A poet must confess

His art's, like physics, but a happy *guess*. *Dryden*.
It is a wrong way of proceeding to venture a great good for a loss, upon uncertain *guesses*, before a due examination.—*Locke*.

This problem yet, this offspring of a *guess*,
Let us for once a child of truth confess. *Prior*.

No man is hit by accident, or *guess*;
True wisdom is the price of happiness. *Young*.

Guesser. s. One who guesses; one who judges without certain knowledge.

It is the opinion of divers good *guessers*, that the last fit will not be more violent than advantageous.—*Pope*.

If fortune should please but to take such a croquet,
(To thee I apply, great Sundry's successor),
To give thee lawn sleeves, a mitre and rochet,

Whom wouldst thou then resemble? I leave thee a *guesser*. *Swift*.

Guessive. adj. Conjectural. *Rare*.

In beasts, in birds, in dreams, and all aviary omens, they are only the *guessive* interpretations of dim-eyed man.—*Philonthus, Revivis, xvi.* (Ord MS.)

Guesswork. s. Random or haphazard conjecture.

Then you've — a Tour,—
No great things, to be sure,—
You could hardly begin with a less work;
For the pompous recitation,
Who don't speak Italian
Nor French, must have scribbled by *guesswork*.

Dryden, Epistle to Mr. Murray.

Guessingly. adv. After the manner of a guess; conjecturally; uncertainly.

I have a letter *guessingly* set down.
Shakespeare, King Lear, iii. 7.

Guest. s. [A.S. *gast, gest*.]

1. One entertained in the house or at the table of another.

They all murmured, saying, that he was gone to be *guest* with a man that is a sinner.—*Luke, xix. 7.*

Is, at the nuptial of his son, a *guest*
That best becomes the table.

Shakespeare, Winter's Tale, iv. 3.

Tell my royal *guest*
I add to his commands my own request.

Dryden, Translation of the Æneid.

2. Stranger; one who comes newly to reside.

O dearest, dearest! how fit a *guest* am I for you, since my heart can people you with will-ravenous beasts, which in you are waiting!—*Sir P. Sidney*.

Those happy smiles
That play'd on her ripe lip, seem'd not to know
What *guests* were in her eyes, which parted thence
As pearls from diamonds dropt.

Shakespeare, King Lear, iv. 3.

Guest. v. n. Be entertained in the house or at the table of another.

A young man at that time *guested* in her father's house.—*Heywood, Hierarchy of Angels, p. 479.* 1635.

Guest. v. a. Entertain as a guest. *Rare*.

(I) leads, what know you, whether, charitable,
When you suppose to feed men at your table,
You *guest* God's angels in men's habit hid?

Nyctecher, Translation of the Parthenon.

Guestchamber. s. Chamber of entertainment.

Where is the *guestchamber*, where I shall eat the passover with my disciples?—*Mark, xiv. 14.*

Guestrite. s. Offices due to a guest.

Ulysses so dear
A gift extort'd it, that he would not leave
In his black fleets that *guest-rite* to the war.

Chapman.

Guestwise. adv. In the manner of a guest.

My heart with her, but as *guest-wise*, sojourn'd.
Shakespeare, Midsummer Night's Dream, iii. 2.

Guil. s. [?] See extract.

The smallest species in the *guil*, or plucky antelope of Shaw and the old writers of the Linnæan school. The size of the body in the stuffed speci-

mens scarcely exceeded that of the Norway rat. The specimen in question stood under a bell glass, and, according to Major Smith, could not be more than eight inches high at the shoulder, while the legs did not exceed the thickness of a large goose-quill. In its native country this little creature is said to be prodigiously active. It seems common in Guinea, but will not survive the voyage.—*Swainson, On the Natural History and Classification of Quadrupeds.*

Guil. s. [?] One of the synonyms for the viviparous blenny, *Zoarces viviparus*; eel, pout, tanglake, and greenbone being others.

Guidable. adj. Capable of being guide.

Stare.

A submissive and *guidable* spirit, a disposition easy to all.—*Bishop Sprat, Sermon before the King, p. 11.* 1678.

Guidance. s. Direction; government.

They charge me with neglecting the *guidance* of wiser men.—*Spenser*.

As to those who lived under the *guidance* of reason alone, without the assistance of supernatural light, it is highly probable that miracles, or a message from the dead, would persuade them.—*Bishop Atterbury*.

A prince ought not to be under the *guidance* or influence of either faction, because he declines from his office of presiding over the whole to be the head of a party.—*Swift*.

He thus addressed the bishops of Christendom. After declaring that God had created two great lights for the *guidance* of mankind, the priests and the emperors.—*Ile, in name only Pope, had*

us the brand that arose out of the sea, whose name was Blasphemy, spotted as the painter, &c.—*Milman, History of Latin Christianity, l. x. ch. iv.*

Guide. v. a. [Fr. *guider*.]

1. Direct in a way.

When the Spirit of truth is come, he will *guide* you into all truth.—*John, xvi. 13.*

The new light served to *guide* them to their neighbours' cottages.—*Dr. H. More, Legacy of Christian Piety*.

Whoever has a faithful friend to *guide* him in the dark passages of life, may carry his eyes in another man's head, and yet see never the worse.—*South, Sermons*.

2. Influence.

Upon these, or such like secular maxims, when nothing but the interest of this world *guide* men, they many times conclude that the slightest wrongs are not to be put up.—*Kettelwell*.

3. Govern by counsel; instruct.

For thy mother's sake lead me and *guide* me.—*Psalms, xxi. 3.*

4. Regulate; superintend.

Women neglect that which St. Paul assigns them as their proper business, the *guiding* of the house.—*Dr. H. More, Legacy of Christian Piety*.

Guide. s.

1. One who directs another in his way.

Thou gavest them a burning pillar of fire to be a *guide* of the unknown journey.—*Wisdom, xviii. 3.*

Can knowledge have no bound, but must advance so far to make us wish for ignorance?

And rather in the dark to grope our way,
Than led by a false guide to err by day?

Sir J. Denham.

2. One who directs another in his conduct.

While yet but young, his father dy'd,
And left him to an happy *guide*. *Waller*.

3. Director; regulator.

Who the *guide* of nature, but only the (God of nature)? In him we live, move, and are. Those things which nature is said to do, are by divine art performed, using nature as an instrument; nor is there any such knowledge divine in nature herself working, but in the *guide* of nature's work.—*Hooker, Ecclesiastical Polity*.

Some truths are not by reason to be tried,
But we have sure experiences for our *guide*. *Dryden, Fables*.

Guideless. adj. Having no guide; wanting a governor or superintendent.

Thus leave this *guideless* realm an open prey
To endless storms, and waste of civil war.

Sackville, Gorboduc, v. 2. 1561.

Th' ambitious Swede, like restless billows tost,
Though in his life he blood and ruin breath'd,
To his now *guideless* kingdom peace bequest'd.

Dryden.

There fierce winds o'er dusky valleys blow,
Whom every puff bears empty shades away,
Which *guideless* in those dark dominions stray. *Id.*

Guidepost. s. Post, where two or more roads meet, directing the traveller which to follow.

Great men are the *guideposts* and marks in the state.—*Burke, Speech on American Taxation*.

Guider. s. Director; regulator; guide.

Our *guider* cometh to the Roman camp conduct us. *Shakespeare, Coriolanus, l. 7.*

That person that, being provoked by excessive pain, thrust his finger into his body, and thereby, instead of reaching his vitals, opened an imposthume, the unknown cause of all his pain, and so stabled himself into perfect health and ease, surely had great reason to acknowledge chance for his chirurgeon, and providence for the *guider* of his hand.—*South, Sermons*.

Guidress. s. Female guider. *Rare*.

In earth alone to be thy *guidress*. *Carleton, Pilgrimage of the Soul, 1482.*

Ah! feeble and blind *guidress* of the world,
What pleasure lost in that my misery?

Tragedy of Solimano and Pereda, 1200.

Guidon. s. [Fr.] Emblazoned standard. *Obsolete*.

On the east wall hangs his target, coat of arms and crest, and near unto them a *guidon* of the Order of the Bath.—*Ashmole, History of Berkshire, li. 377.*

Guild. s.

1. Society; corporation; fraternity or company, combined together by orders and laws made among themselves.

In woollen cloth it appears, by those ancient *guilds* that were settled in England for this manufacture, that this kingdom greatly flourished in that art.—*Sir M. Hale, Origin of Mankind*.

As when the long-eared milky mothers wait
At some sick nurse's triple-boiled pail,
For their defrauded absent babes they make
A moan so loud that all the *guild* awake.

Pope, Dunciad.

[The primary meaning [of *guild*] is a feast, then the company assembled, and the same transference of signification will be observed in the word company itself, which signifying in the first instance a number of persons eating together has come to be applied to an association for any purpose, and in the case of the City Companies to the very associations which were formerly denominated *guilds*.—*Welwood, Dictionary of English Etymology*.]

Guildhall. s.

The room was large and wyde,
As it some *gyld* or solemn temple were.

Spenser, Faerie Queene, li. 7, 43.

Guidable. adj. Liable to tax. *Rare*.

By the discretion of the sheriff, and bailiff, and other ministers, in places *guidable*.—*Spelman*.

Guider. s. Coin so called.

It was idle, they said, to talk about the poor Hussars and the poor Paintings. The bill was evidently meant for the benefit, not of French protestants or German protestants, but of Dutchmen, who would be protestants, papists, or *guiders* for a head, and who would, no doubt, be ready to sign the declaration against transubstantiation in England as to transubstantiation in Japan.—*Mackay, History of England, ch. 12.*

Guildhall. s. Hall in which a corporation usually assembles; townhall; (two words; also a proper, rather than a common, name).

The mayor towards *guildhall* hies him in all post. *Shakespeare, Richard III. iii. 3.*

Guilt. s. [N.Fr. *guille*.] Deceitful cunning; insidious artifice; mischievous subtlety.

With fawning words he courted her awhile,
And looking lowly, and oft sighing sore,
Her constant heart did court with divers *guile*;
But words and looks, and signs all did abuse.

Spenser, Faerie Queene.

Behold an Israelite indeed, in whom is no *guile*.—*John, i. 47.*

When I have most need to employ a friend,
Deep, hollow, treacherous, and full of *guile*,
Be he to me! this do I beg of heav'n.

When I am cold in zeal to you or yours.
Shakespeare, Richard III. li. 1.

We may, with more successful hope, resolve
To wage by force or *guile* eternal war.

Milton, Paradise Lost, l. 126.

Nor thou his malice and false *guile* content:
Subtle he needs must be who could seduce
Angels. *Id.* li. 306.

Guilt. v. a.

1. Deceive. *Rare*.

For who winks not that woman's subtilties
Can *guile* Argus? *Spenser, Faerie Queene, iii. 9, 7.*

2. Disguise. *Rare*.

Is it repentance,
Or only a fair show to *guile* his mischief?

Beaumont and Fletcher, The Pilgrim.

Guiltful. adj. Willy; insidious; mischievously artful.

The way not to be inveigled by them that are so *guiltful* thorough skill, is thoroughly to be instructed in that which maketh skilful against *guile*.—*Hooker, Ecclesiastical Polity*.

Without expense at all,
By *guiltful* fair words, peace may be obtain'd.

Shakespeare, Henry VI. l. 1.

Dryden, Translation of the Æneid.
Guilefully, *adv.* In a guileful manner; insidiously; treacherously.

He cannot be excused, in that he caused not his friends to restore the money which they had guilefully borrowed.—*Hakewell, Apology*, p. 311.
To whom the tempter guilefully reply'd.
Milton, Paradise Lost, l. 653.

Guileless, *adj.* Free from guile or deceit; void of insidiousness; simply honest.

And the plain ox,
That harmless, honest, guileless animal,
I char'd the guileless daughters of the plain,
Nor dropp'd the chase, till Jove was my prey.
Shenstone, Elegies, xxi.

Guiler, *s.* Deceiver; one who betrays into danger by insidious practices.

But he was wary wise in all his way,
And well perceived his deceitful sleight;
No suffered but his safety to betray;
So goodly did beguile the guiler of the prey.
Spenser, Faerie Queen.

Guillemot, *s.* [Fr.] Native natatorial bird so called, akin to the divers and auks, of the genus *Uria*.

The common guillemot is one of the best known of the species, and may be seen in the tide-way of the open sea all round our coast at any season. . . . The thick-billed guillemot, . . . Krumpholtz's guillemot, is at once distinguished, at any season of the year, from our common guillemot, by the shortness, stoutness, angularity, and greater depth of its bill. . . . Examples of ringed guillemots have been taken in Lincolnshire, Yorkshire, and Durham, on the east coast, and in Cornwall and Wales in the south. . . . The black guillemot, a well-known species, is smaller in size than the common guillemot, and more confined to the northern parts of the British Islands.
—*Yarrell, British Birds*.

The radius and ulna are present in all birds, and co-extended between the joints of the elbow and wrist. The antibrachium, so formed, is short where flight is abrogated; it is but one-third the length of the humerus, e.g. in the ostrich: it is rather shorter in guillemots, divers, and gannets; is about equal in length in gallinæ, iosophia, various; but exceeds the length in most birds of flight.—*Owen, Anatomy of Vertebrata*.

Guillotine, *s.* [from the name of the inventor.] French machine for decapitation.

A bloody ruffian, who, whilst he is receiving their homage, is measuring them with his eye, and fitting to their size the slider of his guillotine.—*Burke, Thoughts on a Regicide Peace*.
Yes; to my country's justice I appeal,
Nor dread the press, the guillotine, nor wheel.

Mathias, Paraphrase of Literature, pt. II.

He mounted the scaffold, where the rude old guillotine of Scotland, called the Maiden, awaited him, and addressed the people in a speech, interwoven with the peculiar phraseology of his sect, but breathing the spirit of serene piety.—*Macaulay, History of England*, ch. v.

[Guillotine, the well-known implement said to be invented by Dr. Guillotin in the French Revolution . . . was but the revival of a mode of execution formerly in use in Germany. Crucifixion, in his Swabian Chron. translated by Moser, 1733, says: 'Formerly beheading was not done in Germany with a sword, but with an oaken plank on which was a sharp iron. This plank was like a flogging-bench, had on both sides upright slides (grund-leisten), on which the plank was; under that a sharp cutting iron. When the poor man was bound on the bench, as if for flogging, the executioner (truckenschere) let fall the plank which hung by a cord, which with the iron struck off his head.'—*Wedgwood, Dictionary of Etymology*.]

Guillotine, *v. a.* De-capitate by the guillotine.

Had you been guillotined by Robespierre?—*Bishop Watson, A apology for the Bible*, loc. vii.

Guilt, *s.* [A.S. *gildan* = pay, *guilt* being that on which a payment, fine, or penalty, is due.]

1. State of a man justly charged with crime; contrary to Innocence.

It was neither guilt of crime, nor reason of state, that could quench the envy that was upon the king for this execution.—*Bacon, History of the Reign of Henry VII.*

When these two are taken away, the possibility of guilt, and the possibility of innocence, what restraint can the belief of the creed lay upon any man?—*Hammond, On Fundamentals*.

2. Crime; offence.

Close pent up guilts
Rive your concealing continents, and ask
These dreadful summoners grace.
Shakespeare, King Lear, iii. 2.

Guilt-stick, *adj.* Sickened, or stricken by the sense of guilt.

Then we live indeed,
When we can go to rest without alarm
Given every minute to a guilt-stick conscience
To keep us waking, and rise in the morning
Secure in being innocent.

Benjamin and Fletcher, Customs of the Country.

Guiltily, *adv.* In a guilty manner; without innocence; without clearness of conscience.

Bloody and guilty; guiltily awake,
And in a bloody battle end thy days;
Think on lord Hastings, and despair, and die.
Shakespeare, Richard III., v. 3.

The satire should be like the porcupine,
That shoots sharp quills out in each angry line,
And wounds the blushing cheek, and fiery eye,
Of him that hears, and reads the guiltily.

Shakespeare, Richard III., v. 3.

This leprous soul, that attends guiltily, but yet comfortably, your determination upon it.—*Donne, Devotions*, p. 213.

Guiltiness, *s.* Attribute suggested by Guilty; state of being guilty; wickedness; consciousness of crime.

He thought his slight rather to proceed of a fearful guiltiness than of an humble faithfulness.—*Sir P. Sidney*.

The last was I that felt thy tyranny;
O, in the battle think on Buckingham,
And die in terror of thy guiltiness.
Shakespeare, Richard III., v. 3.

Guiltless, *adj.*

1. Innocent; free from crime or guilt.

I am in this commanded to deliver
The noble duke of Clarence to your hands;
I will not reason what is meant hereby,
Because I will be guiltless of the meaning.

Shakespeare, Richard III., l. 3.

Then shall the man be guiltless from iniquity, and this woman shall bear her iniquity.—*Numb.*, v. 31.

Thou, who dost all thou wishest at thy will,
And never wishest aught but what is right,
Preserve this guiltless blood they seek to spill;
Thine be my kingdom.

Fairfax.
Guiltless of greatness, thus he always pray'd,
Nor knew nor would he, that those vows he made
On his own head should be at last repaid.

Dryden.
And unprovok'd did fruitful stores allow.

Id.
Thou know'st how guiltless first I met thy flame,
When love approach'd me under friendship's name.

Pope, Eloisa to Abelard.

2. Having, or having had, no experience of anything; unconscious.

Such earthen tools as Art yet rude,
Guiltless of fire, had form'd.

Milton, Paradise Lost, l. 591.

This bush of yellow beard, this length of hair,
Which from my birth inviolate I wear,
Guiltless of steel, and from the razor free,
Shall fall a plenteous crop, mow'd for thee.

Dryden, Fables.

Heifers guiltless of the yoke.

Pope, Translation of the Iliad.

Guiltlessness, *s.* Attribute suggested by Guiltless; innocence; freedom from crime.

A good number, trusting to their number more than to their value, and valuing money higher than equity, felt that guiltlessness is not always with ease oppress'd.—*Sir P. Sidney*.

Guiltily, *adj.*

1. Justly chargeable with a crime; not innocent.

We are verily guilty concerning our brother, in that we saw the anguish of his soul when he besought us, and we would not hear.—*Genesis*, xlii. 21.

How that the guilty kindred of the queen
Look'd pale, when they did hear of Clarence' death?

Shakespeare, Richard III., ii. 1.

With mortal hatred I pursu'd his life,
Nor he, nor you, were guilty of the strife;
Nor I, but as I lov'd; yet all combin'd,
Your beauty and my impotence of mind.

Dryden.

2. Wicked; corrupt.

All the tumult of a guilty world,
Tost by ungenerous passion, slinks away.

Thomson.

3. Conscious.

I'll give out all he does is dictated from other men, and wear it too, if thou'lt ha' me; and that I know the time and place where he stole it, though my soul be guilty of no such thing.—*B. Jonson, Cynthia's Revels*.

Guiltily-like, *adj.* Like a guilty person. Construction in the following extract *adverbial*. It should be remembered that the preeminently adverbial affix *-ly* is only the word *like* in an abbreviated form.

Casio, my lord! No sure I cannot think it,
That he would steal away so guiltily-like
Seeing you coming.

Shakespeare, Othello, iii. 3.

Guinea, *s.* [see extract.] Gold coin valued at one and twenty shillings.

They [the ships belonging to the African company] brought home such store of gold that administered the first occasion for the coinage of those pieces, which from thence had the denomination of *guineas*; and what was afterwards made of the same species, was coined of the gold that was brought from that coast by the royal company.—*Lord Thurston, Life*, ii. 576.

By the word *gold* I must be understood to design a particular piece of matter; that is, the last *guinea* that was coined. *Locke*.

Ladies, whose love is constant as the wheel;
Cits, who prefer a *guinea* to mankind.

Young.

Guineadropper, *s.* One who cheats by dropping guineas.

Who now the guineadropper's bait regards,
Trick'd by the sharper's dice, or juggler's cards.

Gay.
Guineapig, *s.* Animal so called; cavy, *Cavia aperea*.

The name by which this stupid, defenceless, and very harmless little animal is commonly known, is founded upon an error of which I have in vain endeavoured to trace the origin; for I do not find in any author by whom it is mentioned any allusion to its being a native of Guinea. The country from which it truly derives its origin is the southern part of the South American continent. . . . It is not even used as food, nor is its fur of any value; and the only pretended use to which it is put is to banish rats from the place, these animals being supposed, but certainly without any reason, to have a particular antipathy to the *guinea-pig* and to leave in disgust the cellar or stable in which it is kept. . . . The *guinea-pig* is proved to have possessed from a very early period the same robustness as now distinguish it; for P. M. Cuvier states that in the original figures of Aldrovandus, which he had examined, and which were painted within half a century of the discovery of America, appear the same white, red, and black patches. It must, therefore, have been previously domesticated by the natives.—*Bell, British Quadrupeds*.

Guise, *s.* [Fr.]

1. Manner; mien; habit; cast of behaviour.

His own sire, and master of his *guise*,
Did often tremble at his lurid view.

Spenser.
Thus women know, and thus they use the *guise*,
T' enchain the valiant, and beguile the wise.

Fairfax.
They stand a horrid front
Of dreadful length, and dazzling arms, in *guise*
Of warriors old, with order'd spear and shield,
Awaiting what command their mighty chief
Had to impose.

Milton, Paradise Lost, l. 663.

Back, shepherds, back;
Here be without duck or nod,
Other trippings to be trod,
Of lighter toes and such court *guise*,
As Mercury did first devise.

Id., Comus, 656.

Their external shapes are notoriously accommodated to that law or *guise* of life that nature has designed them.—*Dr. H. More*.

2. Practice; custom; property.

I have drunk wine past my usual *guise*;
Strong wine commands the fool, and moves the wise.

Chapman.
This would not be sleight;
Old *guise* must be kept.

B. Jonson.
The swain reply'd, It never was our *guise*
To slight the poor, or slight humane despise.

Pope.

3. External appearance; dress.

When I was very young, nothing was so much talked of as rickets among children, and consumptions among young people; after these the spleen came in play, and then the scurvy, which was the general complaint, and both were thought to appear in many various *guises*.—*Sir W. Temple*.

The Hugonots were engaged in a civil war, by the specious pretences of some, who, under the *guise* of religion, sacrificed so many thousands to their own ambition.—*Swift*.

Guitar, *s.* [Fr.; and, in slightly varied forms, Italian, Spanish, and Portuguese. Lat. *cithara*; whence *cittern*, *gittern*, and other collateral forms now obsolete. For its more remote affinities see second extract.]

Salads and eggs, and lighter fare,
Tune the Italian spark's guitar.

Prior.
The sheela has six strings, and is of the same species with the *kitar*; whence our guitar, from

the Spanish *guitarra*, seems to have been borrowed; as it was a favourite instrument with the Arabian conquerors of Spain. — *Richardson, On the Language, &c. of Eastern Nations*, ch. iii. sec. 6.

There are sleights which we quiet men . . . occasionally enjoy, but which your noisy fellows, who think that women never want to be alone—a mad mistake—and consequently must be always breaking or stringing a guitar, or cutting a pencil, . . . or doing any other of the thousand acts of mischief, are deterred from. — *Disraeli the younger, The Young Duke*, b. iii. ch. v.

Guitar. *v. n.* Play on the guitar.

Guitarring. *verbal abs.* Playing on the guitar.

But the Carnival's coming,
Oh Thomas Moore!

The Carnival's coming,
Oh Thomas Moore!

Masking and humming,
Filling and drumming,

Guitarring and drumming,
Oh Thomas Moore!

Hyron, To Thomas Moore.

Gulch. *v. n.* Swallow voraciously; belch.

[*Gulp, gulch* (verb). . . *gulch*, a gully or swallow in river (are) all from a representation of the sound made in swallowing liquid.—*Wedgwood, Dictionary of English Etymology*.]

Gulch. *s.*

1. Gluttony.

Then you'll know us, you'll see us then, you will,
gulch, you will.—*B. Jonson, Poetaster*.

You mindy *gulche*, dar'st look me in the face?—
Good Appetitus.—Peace, you fat lawson.—*Brewer, Comedy of Lingua*.

2. Act of devouring.

Then he has no most cruelly upon the hip, and
brings me over with a most deadly *gulch*.—*Richard, Grounds of Continuance of the Clergy*, p. 41.

Gules. *adj.* [N.Fr. *gueules*.] In Heraldry. Red.

Follow thy drum;
With man's blood paint the ground; *gules, gules*;
Religious customs, civil laws are cruel;
Then what should we be?

Shakespeare, Timon of Athens, iv. 3.

He whose subtle arms,
Black as his purpose, did the night resemble,
When he lay couched in the ominous horse,
Hath now this dread and black complexion smear'd
With heraldry more dismal; lead to foot,
Now is he total gulf; hurriedly drink'd!

With blood of fathers, mothers' daughters, sons.
Id., Hamlet, ii. 2.

Come, sons of honour,
True virtue's heirs; thus hatch'd with Britain's
blood.

Let's march to rest, and set in *gules* like suns.
Beaumont and Fletcher, Bonduca.

Gulf. *s.* [see extract from Wedgwood.]

1. Bay; opening into land.

The Venetian admiral withdrew himself farther
off from the island Corfu, into the *gulf* of the
Adriatic.—*Knox, History of the Turks*.

2. Abyss; unmeasurable depth.

Thence turning back, in silence soft they stole,
And brought the heavy crew with easy pace
To yawning *gulf* of deep Avernum's hole.

Spenser, Faerie Queene.

The sea could not be much narrower than it is,
without a great loss to the world; and must we now
have an ocean of mere flats and shallows, to the
utter ruin of navigation, for fear our heads should
turn dizzy at the imagination of gazing abysses and
unfathomable gulfs?—*Hentley*.

3. Whirlpool; sucking eddy.

England his approaches makes as fierce
As waters to the sucking of a *gulf*.

Shakespeare, Henry V. ii. 4.

4. Anything insatiable, as the mouth or stomach.

Skull of dragon, tooth of wolf,
Witless mummy; now and *gulf*
Of the ravishing salt sea shark,
Root of henlock, digg'd i' th' dark.

Shakespeare, Macbeth, iv. 1.

[*Gulf*.—Italian *golfo*, a gulf or arm of the sea, a pit, deep hole, whirlpool. (Florio.) French *golfe*, a whirlpool or bottomless pit, also a bosom or *gulf* of the sea between two capes. (Cotgrave.) The German *meerbusen*, Latin *sinus*, bosom, *gulf*, would point to derivation from Greek *sauros*, of exactly the same meaning with Latin *sinus*. But the sense of whirlpool, abyss, must be from Dutch *golfen*, *golpen*, English *gulf*, to swallow; Old Dutch *golpe*, gorges, vorages. (Kilian.) The truth appears to be that here, as in many other cases where we are puzzled between two derivations, they may both be traced to a common origin.—*Wedgwood, Dictionary of English Etymology*.]

Gulfs. *adj.* Full of gulfs or whirlpools.

Whom had seen them on the *gulfish* flood,
to would have thought some Delos now again.

Some towns, some cities, or some desert wood,
Or some new unknown world from shores of
Spain,
Launched off to sea.

Mirror for Magistrates, p. 816.

Rivers arise; whether that be the son
Of utmost Tweed, or Ouse, or *gully* Dun,
Milton, Vacation Exercise, 61.

Gull. *s.* [Lat. *gula*=throat; -ist being a Greek rather than a Latin termination, so that the word is hybrid.] Glutton. Rare.

The gluttonous avidity of our swelling *gull*, argues the necessity of blood offending by forgetfulness.—*Frailty, Honour of Chastity*, p. 12: 1632.

Gull. *s.* [Welsh, *gwyllan*; Breton, *guelan*; Gaelic, *fuilleann*.]

1. Seabird so called of the genus *Larus*.

I do fear,
When every feather sticks in his own wing,
Lord Timon will be left a naked *gull*,
Which flashes new a plume.

Shakespeare, Timon of Athens, ii. 1.

The prominent angle at the summit of the upper mandible, the extent of the palatine membrane between the toes, indicate a degree of connection with the *gulls*; and [*Sabinus's*] *gull* . . . by its slightly forked tail exhibits one point of resemblance to the greater number of the terns. Like the tern, too, some of the smaller *gulls* assume during the breeding season a dark-coloured head. . . . The black-headed *gull* is abundant on various parts of our coast. . . . The early describers of this species (*Larus tridactylus*) seem not to have been aware that the *gull* named the Tarrack was only the young state of that which had been previously called the Kittiwake. . . . Colonel Montagu was certainly mistaken in considering the Kittiwake a rare bird on our southern coast. This *gull* is decidedly a rock breeder, and very common in the breeding season on all the rocky parts of the coast of Hampshire, Dorsetshire, Devonshire, and part of Cornwall.—*Farrell, British Birds*.

2. Stupid animal; one easily cheated. See last extract.

Being fed by us you need us so,
As that ungentle *gull*, the cuckoo's bird,
Useth the sparrow.

Shakespeare, Henry IV. Part I. v. 1.

Why have you suffer'd me to be imprisoned,
Kept in a dark house, visited by the priest,
And made the most notorious peck and *gull*
That e'er invocation play'd on?

Id., Twelfth Night, v. 1.

His very touching sight that is leaved, soaks it,
and lays him still more and more open, a considerable
gull.—*Milton, Doctrine and Discipline of Divorce*.

That poultry story is untrue,
And ferd'd to cheat such *gulls* as you.

Baile, Hudibras.

[*To gull*, to deceive, to defraud. A metaphor from the helplessness of a young unfledged bird, on the same principle that the French *gouler*, a nestling, is applied to a simpton; a novice, novice, witness and inexperienced *gull*. (Cotgrave.) The meaning of *gull* is simply unfledged bird, in which sense it is still used in Cheshire.

As that ungentle *gull* the cuckoo's bird.

(*Hen. IV.*)

It is especially applied to a roosting in the South of England. Probably from Danish *gank*, Swedish *gank*, yellow, from the yellow colour of the down, or perhaps of the beak, as in French *bec jaune*, properly yellow beak, a young bird with yellow skin at the base of the beak, metaphorically a novice, a simple inexperienced ass, a dunce. (Cotgrave.) Italian *pipione*, a plover (properly a young bird, from *pipiare*, to peep or pip), metaphorically a silly *gull*, one that is soon caught and tricked. (Florio.) Hence a *judgion*, a dupe at cards.—*Wedgwood, Dictionary of English Etymology*.]

3. Cheat; fraud; trick.

I should think this a *gull*, but that the white-bearded fellow speaks it. *Shakespeare, Much Ado about Nothing*, ii. 3.

Either they have these excellencies they are praised for, or they have not, if they have not, 'tis an apparent cheat and *gull*.—*Dr. H. More, Government of the Tongue*.

Gull. *v. a.* Trick; cheat; defraud; deceive.

If I do not *gull* him into a way word, and make him a common recreation, do not think I have wit enough to lie straight in my bed.—*Shakespeare, Twelfth Night*, ii. 3.

Yet love these sorceries did remove, and move
Thee to *gull* thine own together for my love. *Donne*.

He would have *gull'd* him with a trick,
But Mart was too too politic. *Baile, Hudibras*.

They are not to be *gull'd* twice with the same trick.—*Sir R. L'Estrange*.

The Roman people were grossly *gull'd* twice or thrice over, and as often enslaved in one century, and under the same pretences of reformation.—*Dryden*.

For this advantage ago from youth has won,
As not to be out-riden, though out-run;

By fortune he was now to Venus trind,
And with stern Mars in Capricorn was join'd;
(Of him disposing in his own shade,
He sought the goddess, while he *gull'd* the god.

Dryden.

This was a peculiarly satisfactory interview to both parties. Mr. Vandyperken was overjoyed at the corporal's explanation, and the corporal was equally delighted at having so easily *gull'd* his superior.—*Murray, Starleggion*, vol. ii. ch. iii.

Gullcatcher. *s.* Catcher of gulls; (common with *gull* in its second sense).

Here comes my noble *gullcatcher*.—*Shakespeare, Twelfth Night*, ii. 2.

Gullery. *s.* Cheat; imposture.

Leo Decimus, that scoffing pope, took an extraordinary delight in humouring of silly fellows, and to *gull* *gulleries* upon them.—*Burton, Anatomy of Melancholy*, p. 119.

There hath been not long since, within the compass of these twenty years, a merry *gullery* put upon the world, concerning a guild of men, who style themselves The Brethren of the Rosie Cross.—*Hale, Golden Remains*, p. 28.

There never was no gross *gullery* in the world as this.—*Bishop Hall, Remains*, p. 402.

Ha, ha! good *gullery*; he does it well I faith.

Beaumont and Fletcher, Wit at several Weapons.

Gulleries, where with poor mortals are beguiled and cheated.—*Bishop Hall, Discourse of Truth*, § 2.

Gullet. *s.* [N.Fr. *goulet*.]

1. Throat; passage through which the food passes; ment-pipe; oesophagus.

It might be his doom,
One day to sing,
With *gullet* in string.

Sir J. Denham.

Many have the *gullet* or feeding channel which have no lungs or windpipe; as fishes which have gills, whereby the heart is refrigerated; for such thereof as have lungs and respiration are not without wizen, as whales and cetaceous animals.—*Sir T. Browne, Vulgar Errors*.

Nature has various tender muscles plac'd,
By which the artful *gullet* is embarras'd.

Sir R. Blackmore.

The liquor in the stomach is a compound of that which is separated from its inward coat, the spittle which is swallowed, and the liquor which distils from the *gullet*.—*Arbuthnot*.

2. Small stream or lake. *Obsolete*.

The Euxine sea and the Mediterranean, small *gullets*, if compared with the ocean. *Heylyn*.

A deep, unpassable *gullet* of water, without bridge, ford, or ferry. *Fellie, History of the Holy War*, p. 233.

Gullish. *adj.* Foolish; stupid; absurd.

They have most part some *gullish* humour or other, by which they are led: one is an epicure, an atheist; a second, a gambler; a third, a whore-master; fit subjects all for a mislead to work upon.—*Burton, Anatomy of Melancholy*, To the reader.

Gullishness. *s.* Attribute suggested by *Gullish*; foolishness; stupidity.

To the end his prince might never awaken or rouse himself from out his drowsy and shameful lethe-sleep, and, by opening his eyes, come to the knowledge of his own stupidity, idiocy, and *gullishness*, and so discover others' treacherous ambition, he had filled his court with flatterers.—*Translation of Benvolati*, p. 16: 1624.

Gully. *s.* [Fr. *goulotte*.] Rushing water-course.

The violent rain which had fallen in the night had suddenly brought down such torrents of water through the hollow or *gully* where they had taken up their station, that they were in the utmost danger of being swept away before it.—*Langensdorph, Voyages*.

Gulosity. *s.* Greediness; gluttony; voracity. They are very temperate, seldom offending in sobriety, nor erring in *gulosity*, or superfluity of meals.—*Sir T. Browne, Vulgar Errors*.

Gulp. *v. a.* [Dutch, *golpen*.] Swallow eagerly; suck down without intermission.

He lousens the fish, *gulps* it down, and so soon as ever the morsel was gone wipes his mouth.—*Sir R. L'Estrange*.

I see the double flagon charge their hand;
See them puff off the froth, and *gulp* again,
While with dry tongue I lick my lips in vain. *Gay*.

Gulp. *s.* As much as can be swallowed at once.

In deep aspirations we take more large *gulps* of air to cool our heart, overcharged with love and sorrow.—*Dr. H. More*.

As oft as he can catch a *gulp* of air

And peep above the sea, he names the fair.

Dryden, Fables.

This unsettled my poor girl, who was about to swallow her whole glass of wine and water at a *gulp*, and accompany her exasperated mother, when *Gulph* interposing said, 'When she is tired of our society, she will go. Sit still, Harriet—finish your wine and

GUM

water—if you are not sleepy, stay where you are.—*Thaddeus Hook, Gilbert Garnsey.*

Gum. s. [Fr. *gomme*; Lat. *gummi*; Gr. *σῆμμι*.] Vegetable secretion so called. See extract from Quincy.

One whose gums are
Albeit unused to the melting rain,
Drop tears as fast as the Arabian trees
Their medicinal gum. *Shakespeare, Othello, v. 2.*
He ripens spices, fruit, and precious gum,
Which from remotest regions hither come. *Waller.*

Her maiden train,
Who bore the vests that holy rites require,
Incense, and od'rous gums, and cover'd fire.

Dryden, Palamon and Arcite, b. iii.
Gum [is] a vegetable substance differing from a resin, in being more viscid and less friable, and generally dissolving in aqueous menstrua; whereas resins, being more sulphurous, require a spirituous solvent.—*Quincy.*

Gum. v. a.

1. Close with gum; smear with gum.

The eyelids are apt to be gummed together with a viscid humour.—*Wiseeman, Surgery.*

2. Adorn with gums or essences.

Bleaching their hands at midnight, gumming and bridling their beards.—*Rafanous, Discourses.*
Wearing of wall set, curled, gummed, braided, and powdered hair, according as the fashions vary.—*Jeremy Taylor, Artificial Husbands, p. 79.*
No scandalized at ladies powdering, curling, and gumming their hair.—*Ibid. p. 176.*

Gum. s. [German, *gum*, pl. *gäumen*.] Skin covering the sockets of the teeth; the sockets themselves.

I would, while it was smiling in my face,
Have pluck'd my nipple from its bounteous gums.
Shakespeare, Macbeth, i. 7.

Gumminess. s. Attribute suggested by Gummy; state of being gummy; accumulation of gum.

The tendons are involved with a great gumminess and collection of matter.—*Wiseeman, Surgery.*

Gumminess. s. Nature of gum; gumminess. *Rare.*

Sugar and honey make windy liquors, and the elastic fermenting particles are detained by their innate gumminess.—*Floyer.*

Gumminess. adj. Having the nature of gum. *Rare.*

Observations concerning English amber, and relations about the amber of Prussia, prove that amber is not a gumminous or resinous substance drawn out of trees by the sun's heat, but a natural fossil.—*Woodward, Natural History.*

Gummy. adj.

1. Consisting of gum; of the nature of gum.

From the utmost end of the head branches there smeth out a gummy juice, which hangeth downward like a cord.—*Sir W. Ralsh.*
Nor all the gummy stores Arabia yields.
Dryden, Translation of Virgil.

2. Productive of gum.

The clouds
Tine the silent lightning; whose thwart flame,
driv'n down,
Kindles the gummy bark of fir and pine.
Milton, Paradise Lost, x. 1074.

3. Overgrown with gum.

The yawning youth, scarce half awake, essays
His lazy limbs and drowsy head to raise;
Then rubs his gummy eyes, and scrubs his pate.
Dryden.

4. Thick; heavy; clumsy; stuffy; puffy. *Slang.*

A little gummy in the leg, I suppose.—*Colman the younger, The Poor Gentleman.*

Gumption. s. [?] Sense.

He has no gumption; i. e. he sets about the work awkwardly.—*Peppes.*

You might pit me

For height

Against Kean;

But in a grand tragic scene

I'm nothing;

It would create a kind of loathing

To see me act Hamlet;

There'd be many a damn let

fig

As my presumption

If I should try,

Being a fellow of no gumption.

Laub, Letter to Astoria.
One does not have gumption till one has been properly cheated.—*Sir E. B. Lytton, Eugene Aram, b. i. ch. ix.*

Gum. s. [see last extract.] General name for firearms; instrument from which shot is

GUNN

discharged by the sudden expansion of air, generally caused by the ignition of gunpowder.

These drud curses, like the sun 'gainst glass,
Or like an overcharged gun, recoil
And turn upon thyself.

Shakespeare, Henry VI, Part II, iii. 2.
The emperor, smiling, said that never emperor
Was yet slain with a gun.—*Knotter, History of the Turks.*

The bullet flying, makes the gun recoil.
Cleveland.

In vain the dart or glittering sword we shun,
Condemn'd to perish by the slaught'ring gun.

Graville.
[Much difficulty is thrown on the derivation of this word [gun] by the double uncertainty as to the period at which gunpowder was first used in European warfare, and the original meaning of the word itself. No doubt gun is frequently latinized by the names of the old instruments of the catapult kind. . . . Catapulta, by those who write in Latin, is used for fire-arms at a much later period, and down to the present day. Carabina, catapulta equestris (Blottot); karabini, catapulta de collo pendula (Dankovsky.) Again we find gun used by Chaucer in translating mangonneau, where undoubtedly the engine intended in the original are of the ancient kind.

Dedans ce tour a pierrière
Et en dedans de saulz les manières;
Vous publiez bien les mangonneaux
Voz paroliers les creneaux.

And eke within the castle were
Springalds, gones, bows and archers.

But we must not look for scientific accuracy in a passage of this kind, and the name of any destructive engine of war would serve the purpose of the poet as well as another. For the same reason we cannot form a decisive conclusion as to the original meaning of the term from the passage where guns are mentioned in King Allisaunder.

Then othere into the walls steyh
And the kynnes men with gounes sleych.—*3000.*

On the other hand it is certain that Chaucer uses the word in the modern sense in the House of Fame.

Swift as a pellet out of a gunne

When fire is in the powder runne.—*B. III.*

And the specific meaning of the term is distinctly pointed out by Ardenne, a surgeon of the time of Edward III, cited by Way, who in describing different kinds of *seve volant*, after a receipt for the composition of gunpowder (with the exception of the corning) proceeds: 'Cest poudre vault a gattre pelotes de fer, ou de plomb, ou d'arayne, ou en instrument que l'on appelle gonne.' (Præparatorium Parvulorum, Notes.) I have little doubt then that the term gun was originally applied to a fire tube or to the missile which it discharged, as in the Avowing of King Arthur.

There came a fine gunne

And lemet as the leyn.

As the names of the old engines were constantly applied to the new (expanding, musket, caliver, petrouel), it may well have happened that the name of the new was sometimes inaccurately applied to the old.—*Wedgwood, Dictionary of English Etymology.*

Blow great guns. Blow violently.

Look at that black cloud, no bigger than one's hand, to the southward. I tell you that before we are two hours older there will be a hurricane, and it will blow great guns.—*Sala, Dutch Pictures, The Ship-Chandler.*

Gun. v. n. Shoot with a gun.

There is less danger in't than gunning, Sanchez.—*Beaumont and Fletcher, Kite a Wife and have a Wife.*

Gunboat. s. Vessel armed with one piece of artillery (or more), of comparatively light draft, for rivers and coasting.

Practically, it [the civilization of China] is the highest that Asia ever produced, although bearing no just comparison, owing to difference of race, with the civilizations of Europe, ancient or modern. This was made plain enough when, some months ago, a few gun-boats, belonging to two European nations, with a population between them hardly equal to that of a single province of China, ran up a Chinese river, and dictated a treaty that violated the laws of an empire which had undergone little change for three thousand years—which had witnessed the rise, decline, and fall of the Assyrian, Egyptian, Persian, Roman, and Arabian empires.—*J. Crawfurd, On the Civilization of Man, in Transactions of the Ethnological Society.*

Gunnel. s. See Gunwale.

One would think that the ballast of the ship was shifted with us, and that our constitution had the gunnel under water.—*Burke, Speech on the Reform of Representation.*

Gunner. s.

1. Cannoneer; he whose employment is to manage the artillery in a ship.

The nimble gunner
With lynxstock now the devilish cannon touches,
And down goes all before him.
Shakespeare, Henry V. iii. chorus.

GURG {GRK

They slow the principal gunners, and carried away their artillery.—*Hayward.*

There on his knee (behind a box tree shrinking)
A skilful gunner, with his left eye winking,
Levels directly ahead oak hard by,
Whereon a hundred groaning culvers cry;
Down falls the cock, up from the touch-pan flies
A ruddy flash that in a moment dyes;
Off goes the gun, and through the forest rings
The thundering bullet, born on fiery wings.
Spencer, Translation of De Bartas. (Ord MS.)

At the beginning of October, two Turkish gunners came off to the Hissar, and giving information to Captain Lawrence that two hundred barrels of powder were stored in the castle, and that a train was laid from the town to the centre of the magazine proposed that we should send a party under their guidance to cut it off.—*Young, Naval History of England.*

2. One who shoots; one who uses a gun to kill game.

I had rather
Have anger'd all the gods, than that blind gunner,
Beaumont and Fletcher, Cupid's Revenge.

Gunnery. s. Science of artillery; art of managing cannon.

He learned the arts of riding, fencing, gunnery,
And how to scale a fortress or a nursery.

Byron, Don Juan, l. 28.

Gunpowder. s. Powder put into guns to be fired.

Gunpowder consisteth of three ingredients, sulphur, small-coal, and brimstone.—*Sir T. Browne, Vulgar Errors.*
Burning by gunpowder frequently happens at sea.—*Wiseeman.*

Gunroom. s. Place, on board a ship, where arms are deposited.

Pray Heaven that old rogue Coupler hath not went us to fetch milk out of the gunroom.—*Sir John Vanbrugh, The Relapse, iii. 3.*

Gunsbot. s. Reach or range of a gun; space to which a shot can be thrown.

Those who are come over to the royal party are supposed to be out of gunsbot.—*Dryden.*
Jansburg retired to a spot which was out of gunsbot, and summoned a few of his chief officers to a consultation.—*Macaulay, History of England, ch. 22.*

Construction adjectival.

The symptoms I have translated to gunsbot wounds.—*Wiseeman.*

Gunnsmith. s. Man whose trade is to make guns.

It is of particular esteem with the gunsmiths for stocks.—*Mortimer, Husbandry.*

Gunsstick. s. Runner or stick with which the charge is driven into a gun; ramrod.

Even a gunsstick flying into my eye. *Stewart.*

Gunsstock. s. Wood to which the barrel of a gun is fixed.

The timber is used for bows, pulleys, screws, mills, and gunsstocks.—*Mortimer, Husbandry.*

Gunstone. s. Cannon bullet, or ball, formerly made of stone.

Tell the pleasant prince, this mock of his
Hath turn'd his ball to gunstones; and his soul
Shall stand sore charged for the wasteful vengeance
That shall fly with them.

Shakespeare, Henry V. i. 2.
That I could shoot mine eyes at him, like gunstones.—*B. Jonson, Volpone.*

Gunwale. s. See extract.

The gunwale or gunnel of a ship [is] that piece of timber which reaches on either side of the ship from the half deck to the forecabin, being the uppermost bend which finisheth the upper works of the hull in that part, and wherein they put the stanchions which support the waste-trees; and this is called the gunwale, whether there be guns in the ship or no: and the lower part of any port, where any ordnance are, is also termed the gunwale.—*Morris.*

Moths made fast a cable to her stern, and towed her off, but he could get her no further than a shoal, called Stubben, when she sunk; and soon after he had waked the Nyeborg up to the landing-place, that vessel sunk to her gunwale.—*Sandley, Life of Nelson.*

And now the keel just cuts the cover'd sand,

Now to the gunwale stretches every hand.

Croft, The Borough.

Used adjectivally.

Her owner ring'd her and he knows her worth,
And sees her, fearless, gunwale-deep go forth;
Dreadons he views his sea, by lucres cur'd,
When inch-high billows vex the watery world. *Ibid.*

Gurge. s. [Lat. *gurgis*.] Whirlpool; gulf

Rhetorical; rare.

Marching from Eden he shall find
The plain, wherein a black bituminous gurge,
Boils out from under ground.
Milton, Paradise Lost, xii. 40.

Gurge. *v. a.* Swallow up. *Rare*.

Gurgons. *s.* See Grudgings.

Out of this is the contrast of the brain, usually
called *gurgons* or pollard, taken.—*Harrison, Description of England prefixed to Unlashed*.

Gurging, *part. adj.* Swallowing up. *Rare*.
In *gurgling* gulfs of those such surging seas.
Mirror for Magistrates, p. 227.

Gurgle. *v. n.* Fall or gush with noise, as
water from a bottle.

Gurging, *part. adj.* Sounding or flowing as
that which gurgles.

Then when a fountain's *gurgling* waters play,
They rush to land, and end in fountains the day. *Pope*.
Pure *gurgling* rills the lonely desert trace,
And waste their musick on the savage race. *Young*.

Gargoyls. *s.* [N.Fr.] In *Architecture*.
Ornamented stone spout in churches.

Gargyles of men's figure, telamones, atlantes, *gargyles*
of women's figure, cariatides vel status mulieris.—*Withal, Dictionary*, p. 163: ed. 1608. (Nares
by H. & W.)

Gargoyles appear to have been first introduced
with the early English style; during the prevalence
of which they were usually made with a very considerable
projection; subsequently they were often
much less prominent.—*Glossary of Architecture*.

Garnard. *s.* [Fr. *gournauld*.] Native salt-
water fish so called, of the genus *Trigla*.
Gurnet is a common but inaccurate form.

If I be not ashamed of my soldiers, I'm a sowed
gurnet.—*Shakespeare, Henry IV. Part I.* iv. 2.

Cuvier's second family of the *Acanthopterygii*
contains those genera, the species of which have
their cheeks defended by imbricated plates, which
are sometimes spinous. Of the first genus of this
family, *Trigla*, the *gurnards*, the British coast pro-
duces nine species, three of which are common, the
others of rarer occurrence. They are chiefly caught
by the trawl-net, used in deep water; as the *gurnards*
mostly swim near the bottom, and are incau-
tious of life after they have been taken from the
sea. . . . The red *gurnard* [*Trigla cuculus*] is very
common on the English coast. . . . The piper [*Trigla*
lyra] . . . is supposed to have gained the name of
piper from the sound which swarms it when taken
in hand from the sea. All the species, however,
emit a grunting noise at intervals for a considerable
time; which may have probably given origin to the
name which distinguishes them by some corruption
from the Latin *gurnatio*, or the French *gurnier*. . . .
The grey *gurnard* [*Trigla gurnardus*] is
much more common than either the piper or the
strawberry *gurnard*.—*Jarrell, British Fishes*.

The *gurnard* is known to emit a peculiar grun-
ting sound on being removed from the water, to
which disagreeable habit it owes its designation.—
Notes and Queries, March 9, 1891.

Gush. *v. n.* [German, *giessen* = pour out.]
Break forth in a strong and full stream.

A sea of blood *gushed* from the gaping wound.
Spenser, Faerie Queen.

The covering of this abyss was broken asunder,
and the water *gushed* out that made the deluge.—
T. Burnet, Theory of the Earth.

Gush. *s.* Emission of liquor in a large
quantity at once; liquor so emitted.

If a lung-vein be lacerated, generally at the first
cough a great *gush* of blood is coughed up.—*Har-
vey*.

Gushing, *part. adj.*
1. Breaking forth with a gush.

Line after line my *gushing* eyes o'erflow,
Led through a mad variety of woe. *Pope*.

On either hand the *gushing* waters play,
And down the rough cascade white dashing fall.
Thomson.

2. Ebullient; exuberant; demonstrative:
(applied, recently, to the temperament of
females).

Rachel Norreys was a dangerously fascinating
brunette. There was more danger for men in the
society of this little brown girl, with her ready
blood, her killing glances, her arch manner and
animated conversation, than in association with the
biggest, fairest Juno in creation. . . . Then her
temper was warm, impulsive, and energetic. She
was quick to resent an injury to others, as she was
to confess a fault of her own; passionate, but open
as the day; 'a nervous creature, who lived twenty-
four months in every twelve.' To add to the at-
mosphere of danger which surrounded this *gushing*
young person, she is placed at the outset of the
story in an odd, not to say false, position. She is a
wife in nothing but name.—*Saturday Review*, Feb-
ruary 10, 1896.

Gushingy, *adv.* In a gushing manner.

Parent of rivers, which flow *gushingy*,
With many windings, through the vale.
Byron, Childe Harold, iv. 71.

Gusset. *s.* [Fr. *gousset*.] Plate in armour
before the armpit; corresponding piece in
a shirt.

Seam and *gusset* and band,
Band and *gusset* and seam,
Till o'er the buttons I fall asleep,
And sew them on in a dream.
T. Hood, Song of the Shirt.

Gust. *s.*

1. Sense of tasting; relish.

They faintly thinking to allay
Their appetite with *gust*, instead of fruit
(Shew'd bitter wishes, which th' offended taste
With spluttering noise rejected.
Milton, Paradise Lost, x. 661.

Would he eat to satisfy and not to invite his
hunger, and drink to refresh and not to force and
oppress himself; his relish would be quick and
vigorous, his *gust* sincere, and his digestion easy.—
Scott, Christmas Eve, iii. 3.

And all three senses in full *gust* enjoy'd. *Dryden*.
Where here is duty on the fount side,
On their meer sensual *gust*, and sould with early
pride. *Id., Fanny and Arcite*.

Old we shall do the work of taking away both the
gust and comfort of them.—*Sir R. L. Estlin*.

We have lost, in a great measure, the *gust* and re-
lish of true Imputance.—*Archbishop Tillotson, Ser-
mons*.

The purer the soil is, the purer will all its facul-
ties and operations be, the less it will retain of cor-
rupt *gusts* and relishes, the more recollected and
undivided will be its powers.—*Norris, On the Beauti-
tude*, p. 170.

Destroy all creatures for thy sport or *gust*,
Yet cry, if man's unhappy, God's unjust.
Pope, Essay on Man.

2. Turn of fancy; intellectual taste.

The principal part of painting is to find what na-
ture has made most proper to this art, and a choice
of it may be made according to the *gust* and man-
ner of the ancients.—*Dryden*.

Gust. *s.* [from Icelandic *gustr*.] Sudden rush
or blast of wind.

You may as well forbid the mountain pines
To wag their high tops, and to make a noise,
When they are fretted with the *gusts* of heav'n.

Shakespeare, Merchant of Venice, iv. 1.
Presently come forth swarms and volleys of libels,
which are the *gusts* of liberty of speech restrained.

—*Jaeger, History of the Reign of Henry VII.*
As when fierce northern blasts from th' Alps
descend,

From his firm roots with struggling *gusts* to rend
An aged sturdy oak. *Sir J. Denham*.

But sillier man, in his mistaken way,
By reason, his false guide, is led astray;
Traced by a thousand *gusts* of wav'ring doubt,
His restless mind still rills from thought to thought.

Oldham, Eighth Satire of Boileau, imitated.
Part stay for passage, till a *gust* of wind
Ships o'er their forces in a slushing sheet. *Dryden*.

Pardon a weak distemper'd soul, that swells
With sudden *gusts*, and sinks as soon in calms,
The sport of passions. *Addison, Cato*.

Gust. *v. a.* Taste; have a relish of.

'Tis far gone,
When I shall *gust* it last.

Shakespeare, Winter's Tale, i. 1.
The palate of this age *gusts* nothing high.—*Sir R.
L. Estlin, On Discouragement and Fletcher's Plays*.

Gustable, *adj.*

1. To be tasted.

This position informs us of a vulgar error, term-
ing the gall bitter; whereas there is nothing *gust-
able* sweeter.—*Harvey*.

2. Pleasant to the taste.

A *gustable* thing, seen or smelt, excites the appe-
tite, and affects the glands and parts of the mouth.
—*Derham*.

Gustable. *s.* Anything that may be tasted;
catable.

The touch acknowledged no *gustables*,
The taste no fragrant smell.

Dr. H. More, Song of the Soul, ii. 3, 4.
Gustation. *s.* Act of tasting.

The *gustation* and conveying parts partake of the
nerves of *gustation*, or appertaining unto sense.—
Sir T. Browne.

Gustatory, *adj.* Consisting in, connected
with, constituted by, subservient to, the
sense of taste.

The sensillum, visual, aural, tactual, olfactory,
gustatory, muscular, constantly accompanying the
successive phases of these actions, will be all par-
tially aroused at the same time.—*Herbert Spencer,
Elements of Psychology*, 201.

Gustful, *adj.* Tasteful; well-tasted.

A famous composition made of divers cordials . . .
which they throw into water to make it more *gust-
ful*.—*Howarth, Letters*, ii. 64: Oct. 1674.

What he desires from some dry, insipid sin, is
but to make up a Benjamin's mess for some other
more *gustful*.—*Dr. H. More, Decay of Christian
Piety*, p. 118.

Gustfulness. *s.* Attribute suggested by
Gustful; relish of anything.

As no man can well enjoy himself, or find sound
content in anything, while business or duty lie un-
finished on his hands, so when he has done his best
toward the dispatch of his work, he will then com-
fortably take his ease and enjoy his pleasure; then
his food doth taste savoury; then his divertis-
ments and recreations have a lively *gustfulness*;
then his sleep is very sound and pleasant.—*Barrow,
Sermons*, xix.

Gustless, *adj.* Tasteless; insipid.

No *gustless* or unsatisfying offal.—*Sir T. Browne,
Miscellanies*, p. 13.

Gusto. *s.* [Italian.]

1. Relish of anything; power by which any-
thing excites sensations in the palate.

Pleasant *gustos* gratify the appetite of the luxu-
rious.—*Derham*.

2. Intellectual taste; liking.

In reading what I have written, let them bring
no particular *gusto* along with them.—*Dryden*.

Mild with his living art he let him praise,
And Polly's praise reply for Wisdom's late,
Loud of their patron's *gusto* let them tell,
Whose noblest native *gusto* he to sell.
Byron, The Curse of Minerva.

Gusty, *adj.*

1. Stormy; tempestuous.

Once upon a raw and *gusty* day,
The troubled *Tyler* chiding with his shores.
Shakespeare, Julius Caesar, i. 2.

They are as a *gusty* wind and sail to a ship; if
she steer right, they prosper and further her course;
but if wrong, they serve only to strike her against
the rocks with more speed and force.—*Norris, On
the Beautitude*, p. 120.

It is still a *gusty* kind of weather; there is a kind
of sickness in the air.—*Dryden, History of the
League*, dedication.

Or whirl'd tempestuous by the *gusty* wind,
Thomson, Seasons, Summer.

2. Applied to the disposition.

Little 'brown girls' with *gusty* temperaments
 seldom do the sensible thing.—*Saturday Review*,
February 10, 1894.

Gut. *s.* [German, *kütteln*, *güdeln*.]

1. Long pipe reaching with many convolu-
tions from the stomach to the vent.

A viol should have a lay of wire-strings below
close to the belly, and then the strings of *gut*,
mounted upon a bridge, that by this means the up-
per strings stricken should make the lower resound.
—*Bacon, Natural and Experimental History*.

2. Stomach; receptacle of food; proverbially,

And cram'd'them till their *guts* did ache,
With cawdle, custard, and plum-cake.
Bulter, Hudibras.

With false weights their servants' *guts* they cheat,
And pinch their own to cover the deceit.
Dryden, Translation of Juvenal.

3. Gluttony; love of gourmandizing.

Apicius, thou didst on thy *guts* bestow
Full ninety millions; yet, when this was spent,
Ten millions still remain'd to thee; which thou,
Fearing to suffer thirst and famishment,
In poison'd potion drank'st. *Mackwell, Apology*.

4. Passage.

Here we entered into a narrow *gut* between two
steep rocky mountains.—*Mausdrell, Travels*, p. 134.

Gut. *v. a.*

1. Eviscerate; draw; exenterate.

The fishermen save the most part of their fish:
some are *gutted*, split, powdered and dried.—
Carew, Survey of Cornwall.

2. Plunder of contents.

In Nero's arbitrary time,
When virtue was a guilt, and wealth a crime,
A troop of cut-throat guards were sent to seize
The rich men's goods, and *gut* their palaces.
Dryden.

Tom Brown of facetious memory, having *gutted*
a proper name of its vowels, used it as freely as he
pleased.—*Addison*.

It was probably done by Uakoko, who *gutted*
a chapel near Newgrange a few years before.—*Archaeo-
logist, Harasgovaia*, cli. 1.

Guttapercha. *s.* [Malay.] See extract.

Gutta percha of commerce consists chiefly of a
peculiar substance (*gutta percha* properly so called)
mixed with a small quantity of a vegetable acid,
caustic (hence the cheesy odour which it sometimes
possesses), a resin soluble in ether and in oil of tur-
pentine, and a resin soluble in alcohol. The pure

gutta percha is a hydro-carbon, analogous to caoutchouc. The uses of *gutta percha* in the arts are most extensive. It is already the subject of numerous patents. It also serves some useful purposes in medicine, surgery, and pharmacy. — *Pereira, Elements of Materia Medica and Therapeutics*, p. 1628: ed. 1820.

Gutter. s. [Fr. *gouttière*.] Passage for water.

Rocks rise one above another, and have deep gutters worn in the sides of them by torrents of rain. — *Addison, Travels in Italy*.

As soon as his debarcation was known, the whole nation was wild with delight. Wherever he appeared thousands thronged round him, shouting and blessing his name. The bells of all England rang joyously: the gutters ran with ale; and, night after night, the sky five miles round London was illumined by innumerable bonfires. — *Macaulay, History of England*, ch. i.

Used adjectivally, or as the first element in a compound.

Three gutter files are in length ten inches and a half. — *Mason, Mechanical Exercises*.

Gutter. v. a. Cut in small hollows. My cheeks are gutter'd with my fretting tears.

First in a place, by nature close, they build A narrow flooring, gutter'd, wall'd, and tiled. — *Dryden*.

Guttered. part. adj. Cut as in gutters. Tempests themselves, high seas, and howling winds,

The gutter'd rocks, and concentrated sounds, Traitors custody'd to clog the guttless keel, As having sense of beauty, do omit Their mortal natures, letting safe go by The divine Desdemona. — *Shakespeare, Othello*, il. 1.

Guttie. v. n. Gourmandize. His jolly brother, opposite in sense, Laughs at his throat; and, lavish of expense, Quads, crams, and gutties, in his own defence. — *Dryden*.

Guttie. v. a. Swallow. The fool spit in his porridge, to try if they'd hiss: they did not hiss, and so he gutt'd them up, and scalded his chops. — *Sir R. L'Estrange*.

Guttulous. adj. [Lat. *guttula* — drop.] In the form of a small drop.

Ice is plain upon the surface of the water, but round in hail, which is also a glaciation, and figured into guttulous descent from the air. — *Sir T. Browne, Vulgar Errors*.

Guttural. adj. [Lat. *guttur* — throat.] Belonging to, or connected with, the throat; formed by or in the throat, in which case it is often used in Phonetics, as applied to certain sounds formed in the throat.

The Hebrews have assigned which letters are labial, which dental, and which guttural. — *Becon*. In attempting to pronounce the arabic, and some of the vowels spirally, the throat is brought to labour, and makes that which we call a guttural pronunciation. — *Holder*.

Children are occasionally born with guttural swellings. — *Guthrie, Geography, Switzerland*.

I love the language, that soft bastard Latin, Which melts like kisses from a female mouth, And sounds as if it should be writ on satin, With syllables with h breathe of the sweet South, And gentle liquids gliding all so put in, That not a single accent seems unorth, Like our harsh, northern, whistling, grunting, guttural, Which we're obliged to hiss, and spit, and sputter all. — *Egmont, Leppa*, 44.

Guttural. s. Guttural sound, articulation, or letter.

He [Cartaret] had . . . acquired considerable influence over the mind of George the First. The other ministers could speak no German. The king could speak no English. All the communication that Walpole held with his master was in very bad Latin. Cartaret dismissed his colleagues by the volubility with which he addressed his Majesty in German. They listened with envy and terror to the mysterious gutturals which might possibly convey suggestions very little in unison with their wishes. — *Macaulay, Critical and Historical Essays, Walpole's Letters*.

Gutturine. adj. Connected with the throat. Rare.

The bronchocoele, or gutturine tumour, an endemic disease of the nations of those parts, physicians and naturalists attribute to the water they drink, not without good reason; because, say they, it consists of melted snow, which gives it that malignant quality. — *Ray, On the Deluge*, ch. ii. (Ord MS.).

Guy. s. [guide-rope.] In Navigation. Ropes for moving and steadying certain parts of the ship's tackle.

In the beautiful geometrical web of the garden-spider, many guys are required to keep it taut, and to prevent it from being blown away by the wind. — *Edinburgh Review*, June 1822. (Ord MS.).

Guzzle. v. n. Feed immoderately; swallow any liquor greedily.

Well wou'd I lov'd the gossip's spirits raise, Who while she guzzles clats the doctor's praise.

They fell to lapping and guzzling, till they burst themselves. — *Sir R. L'Estrange*. No more her cure shall fill the hollow tray, To sat the guzzling hogs with floods of whey.

Guzzle. v. a. Swallow with immoderate gust. The Tylian klug

Was longest liv'd of any two-legg'd thing, Still guzzling must of wine. — *Dryden*.

Guzzle. s. Insatiable thing or person. Rare. That senseless, sensual creature, That sink of filth, that guzzle must impure.

— *Marston, Scourge of Villany*, il. 7.

Gwyniad. s. [Welsh; from *gwyn* = white.] Rare and local native fish so called, *Coregonus lavaretus*; schelly.

The species of the genus *Coregonus* are numerous in Europe, and several of them are so similar to each other, that, without the power of comparing those of this country with foreign specimens, an approximation of synonymies is, at least, doubtful. Some authors have even considered the Vendice of Lochaber as the same with the Gwyniad of Perthshire, the schelly of Cheshire, the gwyniad of Wales, and the Pollan of Ireland; and it will be found that this is not the case; and, from recent observation, there is now reason to believe that the Pollan of Ireland is distinct from the two species of *Coregonus* found in Great Britain. The gwyniad of Wales were very common in Llyn Tegid (Fair Lake) at Bala until the year 1861, when pigs were put into the lake, which have very much reduced their number. . . . The gwyniad is very numerous in Chwastwater and other large lakes in Cumberland, where, on account of its large scales, it is called the schelly. . . . The poorer classes . . . consider and even call them the Fresh-water herring. . . . The fish is not unlike a herring in appearance, and the Welsh term *gwyniad* has reference to their silvery white colour. — *Tarrell, British Fishes*.

Gymnasium. s. [Gr. *gymnasion*; from *gymnos* = naked.] Formerly a place for athletic exercises, in which such as practised them were wholly or nearly naked; any place of exercise; school.

In our universities, Cambridge and Oxford; . . . where the worst college is more sight-worthy than the best Dutch gymnasium. — *Fuller, Italy State*, p. 140: 1618.

The word *gymnasium* does properly signify the place where people exercise themselves when stripped. — *Giese, Catechismus Sacra*.

It is to him [the Marquis Wielopolski] that the re-establishment of the Warsaw University and the increase of the number of gymnasiums in the kingdom of Poland from five to thirteen, and the introduction of publicity in law proceedings, are due. — *N. Edwards, Polish Captivity*, vol. ii. ch. i.

In the Greek form in -on. Italy is the sole *gymnasium* and library of their knowledge and learning. — *Sir T. Brown, Present State of the Greek and Armenian Churches*, p. 333.

Gymnastic. adj. Pertaining to athletic exercises; consisting of leaping, wrestling, running, throwing the dart or quoit.

Jamblichus, speaking of the powers which flow from the gods among those which co-operate with nature, mentions only the medicinal and gymnastic as the two principal. — *Giese, Catechismus Sacra*.

The funeral [of Calanus] was followed, according to ancient Greek usage, by a horse-race, and by gymnastic and musical contests. — *Bishop Thirlwall, History of Greece*, ch. li.

Gymnastic. s. Athletic exercise.

The Greeks wisely forbid their servants *gymnastics* as well as arms; and yet your modern footmen exercise themselves daily, whilst their enervated lords are softly lolling in their chariots. — *Arbuthnot and Pope*.

Exercise — exercise — gymnastics . . . is an important hygienic agent. — *Pereira, Principles of Materia Medica and Therapeutics*, p. 66: 1859.

Gymnastically. adv. In a gymnastic manner; athletically; fitly for strong exercise.

Such as with agility and vigour are not gymnastically composed, nor actively use those parts. — *Sir T. Brown*.

Gymnic. adj. Applied to such as practise the athletic or gymnastic exercises.

Have they not sword-players, and every sort Of gymnastic artists, wrestlers, riders, runners? — *Milton, Samson Agonistes*, 1284.

Gymnic. Relating to, connected with, consisting in, the exercises of the gymnasium, or of a gymnastic character. In the exact construction is substantival, and the meaning Gymnastics, the latter being the commoner word.

Theatres and spacious fields allotted for all gymnicks, sports, and honest recreations. — *Burton, Anatomy of Melancholy*, To the reader.

Gymnical. adj. Pertaining to athletic exercises.

Gymnical exercises at Pitana. — *Potter, Antiquities of Greece*, vol. ii. ch. 22.

Gymnosophist. s. [Gr. *gymnosophos*, from *gymnos* = wise.] Philosopher, either actual one of an Indian sect so called, or one who from his carelessness in the matter of clothing was of like character.

How know you what may be showed for the *gymnosophists* prayers in India? — *Brewster of M. Jewel*, fol. 34, b. 166d.

Those seven wise men of Greece, those Britain druids, Indian brahmins, Ethiopian *gymnosophists*, meet of the Persians. — *Burton, Anatomy of Melancholy*, To the reader.

Thus have most civilisations and sciences come, as some think, from the Indian *gymnosophists*, into Egypt; from thence into Greece; so into Italy; and thence, over the Alps, into these faint north-west parts of the world. — *Sir H. Blount, Voyage into the Levant*, p. 151: 1650.

Let us straight advance in quest Of this profound *gymnosophist*.

Butler, *Hudibras*, pt. ii. canto iii. 'How can any man complain of hunger,' said Peter, 'in a country where such excellent sallads are to be gathered in almost every field or of thicket, where every river and stream produces such delicious pot-tions? And as for cold and nakedness, they are evils introduced by luxury and custom. A man naturally wants cloaths no more than a horse or any other animal, and there are whole nations who go without them; but these are things, perhaps, which you, who do not know the world, — "You will pardon me, sir," returned Adam, "I have read of the *gymnosophists*." — "A plague of your jehosophists!" cried Peter. — *Fielding, Adventures of Joseph Andrews*.

Alexander . . . at Corinth . . . found Diogenes living in habits of simplicity not unworthy of the eastern *gymnosophists*, as the Greeks called the sages who exposed themselves almost naked to the inclemency of the Indian sky. — *Bishop Thirlwall, History of Greece*, ch. liii.

Gynarchy. s. [Gr. *gynē* = woman, and *archē* = government.] Female government. See Gynecocracy.

I have always some hopes of change under a gynarchy. — *Lord Chesterfield*.

Gynæcian. adj. Relating to women.

Modern physicians prescribe fasting and abstinence to all melancholy lovers: as likewise to all gynæcians writers to women. — *Ferrand, Love Melancholy*, p. 35: 1840.

Gynecocracy. s. [Gr. *gynē* = strength, authority; as the root is *gynak-*, this, notwithstanding the extracts, is the only true form.] Rule of a woman: (in politics chiefly applied to those countries where the succession to the crown is limited by the Salic law to males; in colloquial language used for petticoat government).

Because undertakes a conjecture of the first cause which excluded gynocracy among them [the French]. — *Selden, On Drayton's Polybion*. The French exclude gynocracy, or the government in chief by women. — *Biographiana*, p. 76.

Gypse. s. Kind of stone.

The soil of Cyprus is for the most part rocky: there are in it many entire hills of tale or gypse. — *Pococke, Description of the East*, il. 220.

Gypseous. adj. Consisting of gypsum.

Gypseus alabastr may be readily distinguished from the marble; . . . it does not effervesce with acids, and is soft enough to be scratched by the nail. — *Ure, Dictionary of Arts, Manufactures, and Mines*.

Gypsine. adj. Same as Gypseous, the latter being the commoner word.

Gypsine stone [is] a name given by some writers to the gypsum, or fossil substance, of which the powder, called plaster of Paris, is made by calcination. — *Chemists*.

Gypsum. s. [Lat.] Plaster of Paris; native sulphate of lime.

Gypsum is found in very large quantities in many parts of the globe, forming extensive chains of mountains and hills, as in the neighbourhood of Paris. — *Chambers, Cyclopædia*.

Gypsum . . . this substance was discovered by Mr. Mayer, a German clergyman of uncommon merit, in the year 1788; it has since been applied with signal success in Germany, Switzerland, France, and America.—*Kirwan, On Manures*, p. 18.

The plaster stone of the Paris basin contains about 12 per cent. of carbonate of lime. This body, ground and mixed with water, forms an adhesive mortar much used in building, as it flows very speedily. Works executed with pure *gypsum* never become so hard as those made with the calcareous kind; and hence it might be proper to add a certain portion of white slaked lime to our calcined *gypsum*, in order to give the stucco this valuable property. Coloured stuccoes of great solidity are made by adding to a clear solution of gius any desired colouring tincture, and mixing in the proper quantity of the calcined calcareous *gypsum*. The compact, fine-grained *gypsum* alabaster is often cut into various ornamental figures, such as vases, statuary groups, &c., which take a high polish and look beautiful; but from their softness are easily injured, and require to be kept enclosed within a glass shade.—*Urn, Dictionary of Arts, Manufactures, and Mines*.

Gyrator. *s.* Act of turning anything about. This effluviu attenuateth and impelleth the neighbour air, which returning home, in a *gyration*, carrieth with it the obvious bodies into the electrick.—*Sir T. Browne*.

If a burning coal be nimbly moved round in a circle with *gyrations*, continually repeated, the whole circle will appear like fire; the reason of which is, that the sensation of the coal in the several places of that circle remains impressed on the sensorium, until the coal returns again to the same place.—*Sir I. Newton, On Opticks*.

Gyre. *s.* [Lat. *gyrus* = circle, rotatory movement, wheel.] Circle described by anything moving in an orbit.

Ne thereforeth his approved skill to ward,
Or strike, or surien round in warlike *gyre*,
Remember'd he; ne car'd for his safe guard,
But rudely rag'd.
Down the wild haggard tow'r into the sky,
And to the south by thy direction fly?
Or eagle in her *gyres* the clouds embrace? *Rudg.*
Ho falcon'd! those harmonious orbs, that roll
In redoubt *gyres* about the Arctic pole. *Id.*
Quick and more quick he spins in riddy *gyres*,
Then falls, and in much foam his soul expires. *Dryden*.

Gyre. *v. a.* Turn round.

With the spiteful Philistim, he [the devil] puts out both the eyes of our apprehension and judgement, that he may *gyre* us about in the mill of unprofitable wickedness.—*Bishop Hall, Remains*, p. 23.

Gyrfalcon. *s.* See Gerfalcon.

Gyre. *s.* [Welsh, *gyfyn*.] Fetter. *Archaic*.

And knowing this, should I yet stay,
Like such as blow away their lives,
And never will redeem a day,
Enamour'd of their golden *gyres*? *B. Jonson*.

A golden *gyre*, a pleasing wrong.
Beaumont and Fletcher, With a Mouth,
But Talamon rush'd in, and lay'd to meet
A rising root, that held his fustian'd feet
So down he fell, whom sprawling on the ground,
His brother from the wooden *gyres* unbound. *Dryden*.

Two stern-fac'd men went off from Llyn,
Between the fog and mist:
And Eugene Aram walked between,
With *gyres* upon his wrist.
T. Hood, Dream of Eugene Aram.

Gyre. *v. a.* Fetter; shackle; enchain; ensnare.

All in irons was my song,
Even now I maito *gyred* in a payre of stockes.
Hyckes Boorne.

With as little a web as this, will I ensnare as great
a fly as Cassio. Ay, smile upon her, do. I will *gyre*
thee in thine own courtship.—*Shakespeare, Othello*,
il. 1.

H.

HA

HA. *interj.* Expression of wonder, surprise, sudden question, or sudden exertion; when repeated, of laughter or joyous exultation, according to the tone.

You shall look fairer ere I give or hazard;
What says the golden chest? *ha! let me see.*

Shakespeare, Merchant of Venice, il. 3.

He saith among the trumpets *ha, ha*, and he
smelleth the lattle after off.—*Job*, xxxix. 23.

Ha, ha, 'tis what so long I wish'd and vow'd;
Our plots and delusions
Have wrought such confusions,
That the monarch's a slave to the crowd. *Dryden*.

Ha. *s.* Utterance of the interjection so sounded: (often in combination with Hum).

Praise her but for this her without-door form,
(Which, on my faith, deserves high speech,) and
straight

The shrug, the *ha*, or *ha*; these petty brands,
That calumny doth use: . . . O, I am out,
That mercy doth; for calumny will fear
Virtue itself: . . . these shrugs, these *hums*, and *ha's*,
When you have said she's goodly, come between,
Ere you can say she's honest.

Shakespeare, Winter's Tale, il. 1.

We may be temporal lords ourselves, I take it.—
You may be any thing, and leave off to make
Long-winded exercises; or hark up

Your *ha*, and *hum*, in a tune. *B. Jonson, Alchemist*.

My solemn *hums* and *ha's* the servants quake at.
Beaumont and Fletcher, Love's Progress.

Hab-hab. *Interjection* used as a substantitive. [two words.] In *Landscape Gardening*. Bunk fence so called.

Having thus far spoken of the fence, as the necessity for its concealment and the general turn of its line are concerned, the poem now enters into a more practical discussion of the various kinds that may be resorted to, and the proposed means to render them at once effectual and invisible; and of those, the first that is recommended to our choice is that which is commonly known by the name of the sunk fence; by this the ground which is seen beyond it, provided its manner of cultivation be anything similar, appears so intimately and continuously united with that on which we stand ourselves, that it is almost always with surprise the division is discovered; and hence, as expressive of that passion, it obtained, when first invented, the name of the *ha-ha*. The mode of constructing this is specified, and is as follows.—Dig a deep trench, and to the base of the side from which you look, and which must be perpendicular and fronted with stone, the opposite side must be gently sloped from the level of the soil; the verdure of this slope must be preserved, and the wall which sustains the neighbouring side must be covered on its top also with the green turf, a little raised above the surface of the soil. This is the strongest manner of constructing the sunk fence; but the greatest strength is not in every instance necessary; it may, indeed, be

HABE

requisite, in order to restrain the deer, but cattle of a tamer kind will be turned without it; the perpendicularity and the stone front of the nearer bank may, therefore, be here dispensed with, and in their place a slope, and at midway down a row of thorns, defended when young with pointed pales, may be substituted; but this must be kept from surmounting the level of the lawn, and its surface must always parallel to the banks on which it grows.—*Mason, English Garden*, note.

Habeas corpus. *s.* [Lat. *habeas*, being the second person singular of the present tense in the potential mood of *habere* (have) — thou mayest have, + *corpus* = body.] Writ so called, from containing these words.

There is no *habeas corpus* from death.—*Sir M. Sedgwick, Essays*, p. 355: 1634.

Next to personal security, the law of England regards, as sacred, and preserves the personal liberty of individuals. This personal liberty consists in the power of locomotion, of changing situation, of removing one's person to whatsoever place one's own inclination may direct, without imprisonment or restraint, unless by due course of law. . . . The . . . language of the great charter is that no freeman shall be taken or imprisoned, but by the lawful judgment of his equals, or by the law of the land. And many subsequent old statutes expressly direct that no man shall be taken or imprisoned by suggestion or petition to the king or his council, unless it be by legal indictment or the process of the common law. By the Petition of Right, 3 Car. 1., it is enacted that no freeman shall be imprisoned or detained without cause shewn, to which he may answer according to law. By 16 Car. 1. c. 10, if any person be restrained of his liberty by order or decree of any illegal court, or by command of the king's majesty in person, or by warrant of the council board, or by any of the privy council; he shall, upon demand of his counsel, have a writ of *habeas corpus*, to bring his body before the Court of King's Bench or Common Pleas, who shall then determine whether the cause of his commitment be just, and thereupon do as justice shall appear. And by 31 Car. 1. c. 2, commonly called the *Habeas Corpus Act*, the methods of obtaining this writ are so plainly pointed out and enforced, that so long as this statute remains unimpeached, no subject of England can be long detained in prison, except in those cases in which the law requires and justifies such detention. And lest the act should be evaded by demanding unreasonable bail . . . it is declared, 1 W. & M. st. 2, c. 2, that excessive bail ought not to be required.—*Sir W. Blackstone, Commentaries on the Laws of England*, b. 1. ch. 1.

The very intention of our *habeas corpus* act, namely, the preservation of the liberties of the subject, absolutely requires that act now to be suspended.—*Addison, Freeholder*, no. 16.

Haberdash. *s.* Haberdashery. *Rare*.

They turne out their trash,
And shew their *haberdashes*;
Thor pyldo podaryo;
And scande saullery. *Papistical Exhortation*.

HABI

Haberdash. *v. n.* Deal or trade as a haberdasher. *Rare*.

What mean dull wits, in this high measure,
To *haberdash*
In earth's base ware, whose greatest treasure
Is dross and trash? *Quarles, Emblems*.

Haberdasher. *s.* See last extract.

Because these cunning men are like *haberdashers* of small wares, it is not amiss to set forth their shop.—*Raron*.

A *haberdasher*, who was the oracle of the coffee-house, declared his opinion.—*Addison*.

[*Haberdasher*,—*Haberdashers* were of two kinds, *haberdashers* of small wares, sellers of needles, tapes, buttons, &c., and *haberdashers* of hats. The first of these would be well explained from Old Norse *haptask*, trumpery, things of trifling value. A poor petty *haberdasher* (of small wares), mercer, (Shrewsbury). The *haberdasher* of hats seems named from some kind of stuff called *haperdas*, of which probably hats were made. 'La charge de haperdas, xiiid.' (Liber Albus, 225.) 'Les tax de leyne d'Epagne, wadual, mercerie, canovras,—fautre, lormerie, peil, haberdasherie, enquireux, et les autres chovras se l'ont acoustument par fee, vid.' (Ibid. 231.)—*Waldwood, Dictionary of English Etymology*.]

Haberdashery. *s.* Articles made or sold by haberdashers.

You will hardly expect me to go through the tape and thread, and all the other small wares of *haberdashery* and millinery to be gleaned up among our imports.—*Darke, On a Reptile Peace*.

Haberdine. *s.* [Fr. *habordean*; Dutch, *abberdaan*.] Fish so called; Poor John.

His dayntie fare is turn'd to a hungry feast of dross and cats, or *haberdine* and poorer John, at the monk.—*Nash, Pierce Penitence*: 1582.

And warn him not to cast his wanton cyne
On groner bacon, and salt *haberdine*.
Bishop Hall, Satire.

Habergeon. *s.* [Fr. *haubergeon*.] Armour for the neck and breast; neck piece; gorget. See *hauberk*.

It shall have a blinding of woven work round about the hole of it, as it were the hole of an *habergeon*, that it be not rent.—*Exodus*, xxviii. 32.

And halbert some, and some a *habergeon*;
So every one in arms was quickly dight. *Feifeus*.

The shot let fly, and grasing
Upon his shoulder, in the pausing,
Lodg'd in Magnano's brass *habergeon*.
Battler, Fustices.

(For another example see under *haqueton*.)

Habile. *adj.* [Fr.; Lat. *habilis*.] Qualified; fit for anything. *Rare*.

God imprinted on her the fairest impress of his most amiable image, and rendered her *habile* and ready to every good work.—*Dr. Walker, Life of Lady Warwick*, p. 119: 1678.

Habillement. *s.* [Fr. *habillement*.] Dress; clothes; garment.

HABI

He the fairest Una found,
Strange lady, in so strange habillment,
Teaching the Satyr. *Spenser, Faerie Queen.*
My riches are the poor habitments
Of which if you should here disdainful me,
You take the man and substance that I have.
Shakespeare, Two Gentlemen of Verona, iv. 1.
The clergy should content themselves with wear-
ing gowns and other habiliments of Irish drapery.
—*Swift.*

Habitude. *adj.* Qualified; entitled. *Rare.*
Divers persons in the house of commons were
attainted, and thereby not legal, nor *habilitate* to
serve in parliament; being disabled in the highest
degree.—*Bacon.*

Habilitation. *s.* Qualification. *Rare.*
Things are but *habilitations* towards arms; and
what is *habilitation* without intention and act?—*Bacon, Essays, xxi.*

Habitity. *s.* Aptitude. *Rare.*
Aladine, though meaner born,
And of less livelihood and *habitity*.
Spenser, Faerie Queen.

Of promptness, and of industry.
Habitity, reality. *B. Jonson, Masques at Court.*

Habit. *s.* [Fr.; Lat. *habitus*.]
1. State of anything: (as, 'habit of body').
2. Dress; accoutrement; garment.

I shifted
Into a madman's rage, I assume a semblance
The very does disdainful; and in this *habit*
Met I my father. *Shakespeare, King Lear, v. 2.*
Both the poets being dressed in the same English
habit, story compared with story, judgement may be
made betwixt them.—*Dryden.*

Changes there are in guise of wit, like those of
habits or other modes.—*Sir W. Temple.*
There are among the statues several of Venus, in
different *habits*.—*Adami, Travels in Italy.*
The clergy are the only set of men who wear a dis-
tinct *habit* from others.—*Swift.*

3. Practice; custom; inveterate use.
He hath a better *habit* of frowning than the
count Palatine.—*Shakespeare, Merchant of Venice, i. 2.*

The last fatal step is, by frequent repetition of the
sinful act, to continue and persist in it, till at length it
settles into a fixed confirmed *habit* of sin; which
being that which the apostle calls the finishing of
sin, ends certainly in death; death not only as to
merit, but also as to actual infliction.—*South, Sermons.*

No civil heels have shone his death arose,
But faction now by *habit* does cleave;
And wars have that respect for his repose
As winds for halcyons when they breed at sea.

Dryden, On the Death of Oliver Cromwell.
Habit is a power or ability in man of doing any
thing, when it has been acquired by frequently
doing the something.—*Locke.*

The free of education is so great, that we may
mould the minds and manners of the young into
what shape we please, and give the impressions of
each *habit* as shall ever afterwards remain.—
Bishop Atterbury.

Habit. *v. a.* Dress; accoutre; array.
Present yourself and your fair princess
Before Leont.
She shall be *habited* as it becomes
The partner of your bed.

Shakespeare, Winter's Tale, iv. 3.
Having called to his memory Sir George Villiers,
and the cloath he used to wear, in which at that
time he seemed to be *habited*, he thought him to be
that person.—*Lord Clarendon, History of the Grand
Rebellion.*

They *habited* themselves like those rural deities,
and imitated them in their rustic dances.—
Dryden.

Habitable. *adj.* Capable of being inhabited
or dwelt in; capable of sustaining human
creatures.

By means of our solitary situation, we know well
most part of the *habitable* world, and are ourselves
unknown.—*Bacon.*

That was her torrid and inflaming time;
This is her *habitable* joyous climate. *Donne.*
The torrid zone is now found *habitable*. *Cowley.*

Look round the *habitable* world, how few
Know their own good, or, knowing it, pursue.
Dryden.

Habitableness. *s.* Attribute suggested by
Habitable; capability of being dwelt in.

The cutting of the equinoctial line decides that
controversy of the *habitableness* of the torrid zone.
—*Mora.*

Those ancient problems of the spherical round-
ness of the earth, the being of antipodes, and of the
habitableness of the torrid zone, are abundantly
demonstrated.—*Bay.*

Habitacle. *s.* [Fr. *habituacle*; Lat. *habita-
culum*.] Dwelling.
He shall dwellly suppe with me and with him in

HABI

the eternal *habituacle* of God.—*Bale, Discourses on the
Revelations*: 1850.

Habituance. *s.* Dwelling; abode. *Obsolete.*
What art thou, man, if man at all thou art,
That here in desert hast thine *habituance*?
And these rich heaps of wealth dost hide apart
From the world's eye, and from her right owner.
Spenser, Faerie Queen.

Habitant. *s.* Inhabitant: this latter being
the commoner word.

Not to earth are those bright luminaries
Officious; but to thee, earth's *habitant*.
Milton, Paradise Lost, viii. 98.

Powers celestial to teach our's view
Stand still content, though distant far they lie,
Or *habitant* of earth, or sea, or sky. *Pope.*

Oh Lave! no *habitant* of earth thou art—
An unseen scruple, we believe in thee,
A faith whose martyrs are the broken heart,
But never yet hath seen, nor o'er shall see
The naked eye, thy form, as it should be;
The mind hath made thee, as it peopled heaven,
Even with its own desiring phantasy,
And to a thought such shape and image given,
As haunts the unquench'd soul—perch'd—waried—
wring—and riven.
Byron, Childs Harold, iv. 121.

Habitat. *s.* [Lat. third person singular of *habito* = inhabit.] The word is taken from
Latin works on *Zoology* and *Botany*, where
it stands before the name of the kind of dis-
trict where such or such animals or plants
are found, as fen, marsh, mountain, and
the like.

The naturalists who exclusively employ, in the
classification of animals, the marks furnished by the
external characters, usually take some notice of the
places to which animals resort, denominated the
station, or *habitat*.—*Heming, Philosophical Zoology, vol. ii. p. 114.* (Ord N.)

Still more significant is that deviation from this
shape which occurs among such of the Echinidea as
have *habitats* of a different kind, and, consequently,
different *habitats*. The genus Echinocyanus, Syn-
taurus, Brisson, and Amphiditus, diverge markedly
towards a bilateral structure. These creatures are
found not on rocky shores but on flat sea-bottoms,
and some of them only on bottoms of sand or mud.
—*Herbert Spencer, Principles of Biology, ch. xiv.*

Habitat. *s.*
1. Occupancy.
Amplitude almost immense, with stars
Numerous, and every star perhaps a world
Of destin'd *habitation*.
Milton, Paradise Lost, vii. 620.

For want of *habitation* and repair,
Dissolve to heaps of ruins. *Sir J. Denham.*
Rocks and mountains, which in the first ages
were high and craggy, and consequently then in-
convenient for *habitation*, were by continual deterration
brought to a lower pitch.—*Woodward.*

2. Place of abode; dwelling.
Wisdom, to the end she might save many, built
her house of that nature which is common unto all
she made not this or the man her *habitation*, but
dwelt in us.—*Hooker, Ecclesiastical Polity.*

God oft descends to visit men
Unseen, and through their *habitations* walks
To mark their doings. *Milton, Paradise Lost, xii. 43.*

Habitator. *s.* [Lat.] Dweller; inhabitant
Rare.

The sun's presence is more continued unto the
northern inhabitants; and the longest day in Can-
cer, is longer unto us than that in Capricorn unto
the southern *habitators*.—*Sir T. Brunsen.*

Habited. *adj.* Reduced to a habit; habitual;
inveterate. *Rare.*

This ancient and *habited* vice is amongst the
Dutch, of late years, much decreased.—*Fuller, Holy
State, p. 137.*

Habitual. *adj.* Customary; accustomed;
established by frequent repetition; in-
veterate.

Sin, then in power before
Once actual; now in body, and to dwell
Habitual habitant. *Milton, Paradise Lost, x. 384.*

Art is properly an *habitual* knowledge of certain
rules and maxims.—*South, Sermons.*

'Tis impossible to become an able artist, without
making your art *habitual* to you.—*Dryden.*

Habituato. *v. a.* Accustom; use one's self
by frequent repetition: (with *to*).

Many nobles and gentlemen, disdaining all subjec-
tion to a foreign and conquering power, retired into
Scotland, Ireland, Denmark; and after the extinction
of their hopes, by the suppression of all endeavours
in favour of Edgar's right, never returned, but left
their families *habituato* in those countries, choosing,
if they must live under a foreign dominion, to do it

rather abroad, than at home.—*Sir W. Temple, In-
troduction to the History of England, ii. 264.* (Ord
M.)

Men are first corrupted by bad counsel and com-
pany, and next they *habituato* themselves to their
vicious practices.—*Archbishop Tillotson.*

Such as live in a purer air are *habituato* to the
exercise of a greater muscular strength.—*Arbuth-
not.*

Habituato. *adj.* Inveterate; obstinate.
Rare.

The constitutions of men's bodies may be either
native or *habituato*.—*Sir W. Temple, Of Agricul-
tural Virtues, we. ii.* (Ord M.)

All earthly vanities, which any *habituato* sin-
ner desires.—*Hammond, Works, iv. 676.*

Habitude. *s.*
1. Relation; respect; state with regard to
something else.

The will of God is like a straight unalterable rule;
but the various compartments of the creature, either
thwarting this rule, or holding conformity to it, oc-
casion several *habitudes* of this rule unto it.—*Sir
M. Hale, Originations of Manhood.*

It results from the very nature of things, as they
stand in such a certain *habitude*, or relation to one
another.—*South, Sermons.*

As by the objective part of perfect happiness we
understand that which is best and last, and to which
all other things are to be referred; so by the formal
part must be understood the best and last *habitude*
of man toward that best object. *Norris.*

In all the *habitudes* of life
The friend, the mistress, and the wife;
Variety we still pursue. *Swift.*

2. Familiarity; converse; frequent inter-
course.
His knowledge in the noblest useful arts,
Was such that authors could not give;
But *habitudes* with those who live. *Dryden.*

3. Long custom; habit; inveterate use:
(more properly *habiti*).

Mankind is willing to continue in a pleasing error,
strengthened by a long *habitude*.—*Dryden.*

Thy ear, turned to charitable sounds,
And pitying love, must feel the hateful wounds
Of just obscene, and vulgar ribaldry,
The ill-bred question, and the loud reply,
Brought by long *habitude* from land to worms;
Must hear the frequent oath, the drowsy curse,
Prior, Henry and Emma.

4. Power of doing anything acquired by fre-
quent repetition.
It is impossible to gain an exact *habitude*, without
an infinite number of acts and perpetual practice.—
Dryden.

Habile. *adj.* [Lat. *habilis*.] Fit; apt.
As hagar hawke, presuming to contend
With hardy fowle above his *habile* might.
Spenser, Faerie Queen, i. 11, 10.

Habnab. *adv.* [hap ne hap.] At random;
at the mercy of chance; without any rule
or certainty of effect.

Philautus determined, *habnab*, to send his letters.
—*Lilly, Epheus, p. 124.*
As they came in by *habnab*, so will I bring them
in a reckoning at six and at seven.—*Haywood, Fair
Maid of the West.*

He circles draws and squares,
With cyphers, astral characters;
Then looks 'you o'er to understand 'em,
Although set down *habnab* at random. *Buller, Hudibras.*

Hack. *v. a.* [Dutch, *hacken*.]

with frequent blows; mangle with unskil-
ful blows.

He put on that armour, whereof there was no one
piece wanting, though *hacked* in some places, be-
wraying some light not long since passed.—*Sir P.
Sithney.*

What a slave art thou, to *hack* thy sword as thou
hast done, and say it was in fight!—*Shakespeare,
Henry IV. Part I. li. 4.*

Richard the second here was *hack'd* to death.—
Id., Richard III. iii. 2.

But five with butchers plac'd their priestly stall,
Mock modern faith to murder, *hack*, and mawl.
Pope, Dunciad, iii. 280.

She had the ransacking of the wardrobe of the
two defunct ladies, and cut and *hacked* their posthu-
mous finery so as to suit her own tastes and figure.
—*Thackeray, Vanity Fair.*

The partition planned at Leo was therefore the
very opposite of the partition of Poland. The par-
tition of Poland was the partition of a nation. It
was such a partition as is effected by *hacking* a
living man limb from limb. The partition planned
at Leo was the partition of an ill governed empire
which was not a nation.—*Macaulay, History of
England, ch. xxiv.*

2. Speak unready, or with hesitation.
Dismarm them, and let them question; let them
1117

keep their limbs whole, and hack our English.—*Shakespeare, Merry Wives of Windsor*, iii. 1.

Hack. s.

1. Notch; hollow cut.

Look you, what hacks are on his helmet.
Shakespeare, Troilus and Cressida, i. 2.

3. Pickaxe; mattock with one end only, and that a broad one.

Hack. s. Short for Hackney.

I am almost suffocated with dust every summer, occasioned by those crowds of practice-boys, who are whipping their hired hacks to death.—*More*.

Two men whose authority on such subjects was held in great esteem, the Duke of Newcastle and Sir John Fenwick, pronounced that the meanest hack ever imported from Tangier would produce a finer progeny than could be expected from the best sire of our native breed. They would not readily have believed that a time would come when the princes and nobles of neighbouring lands would be as eager to obtain horses from England as ever the English had been to obtain horses from Barbary.—*Maccubbin, History of England*, ch. iii.

Johnson came among them the solitary specimen of a just age, the last survivor of the genuine race of Irish Street hacks; the last of that generation of authors whose subject misery and whose dissolute manners had furnished inexhaustible matter to the satirical genius of Pope.—*Id., Critical and Historical Essays, Croker's Edition of Boswell's Life of Johnson*.

Hack. adj. Short for Hackney.

Hack preachers employed in the service of de-faulters and absentees.—*Wakefield, Memoirs*.

Poor gentlemen! How many of them dis-couraged of the loves of Selim and Fatima in a cock-loft in Little Britain, their stern landlady having taken away the ladder till the manuscript was completed and the rent paid? How many of those worthy hack writers, their wigs hanging over the neighbour-ing chair, scribbled about Hassan and Grand Cairo for two guineas a sheet in their Fleet or Mint, or Greek-street halcyons, the printer's boy dining in the corner?—*Sala, The Secret of Muley Mogrebun Bey*.

Hackle. v. a.

1. Dress flax.

2. Separate; tear asunder.

Who, mounted on a brown, the nag
And hackney of a Lapland lug,
In quest of you came hither post.

Butler, Hudibras.

3. Hircling; prostitute.

I labour,
I moid and toyl for ye; I am your hackney.
Boswell and Fletcher, Women Pleased.
She was so notoriously lewd, that she was called an hackney.—*Bishop Burnet, History of the Reformation*, vol. I. append.

Shall each spurr'd hackney of the day,
Or each new pension'd sycophant, pretend
To break my windows? *Pope*.

Hackney. adj.

1. Worn out, like a hired horse.

Law, like a horse-coach;
Her rules and precepts hung with gawds and rib-bands,
And pamper'd up to eazen him that bought her,
When she herself was hackney, lame, and founder'd.
Boswell and Fletcher, Women Pleased.

2. Prostitute; vicious for hire.

Three kingdoms ring
With his accumulative and hackney tongue.
Lord Roscommon.
That is no more than every low
Does from his hackney lady suffer.

Butler, Hudibras.

3. Much used; common; let out for hire.

Slightly trained up in a kind of hypocritical and
hackney course of literature.—*Milton, Remarks of Church Government urged against Priory*, b. ii.

These notions young students in physics derive
from their hackney authors.—*More*.

After revolving many things in my mind, I could
see no other possibility of furnishing myself with
the miserable necessities of life, than to retire to a
garret near the Temple, and commence hackney
writer to the lawyers; for which I was well qualified,
being an excellent penman.—*Fighting, Adventures of Joseph Andrews*.

Hence are a thousand hackney writers fed,
Hence monthly critics earn their daily bread.

Churchill, The Apology.

In the following the word is either the ele-ment of a compound, or has a substantival rather than a purely adjectival construction.

By this reckoning, a hackneyman
Should have ten shillings for horsing a gentlewo-man.

Where he hath lost ten pence of a beggar.

Tragedy of Solomon and Perseda: 1600.

The sweat of learned Johnson's brain,
Or gentle Shakspeare's sweeter strain,
A hackney coach conveys you to,

In spite of all that rain can do;
And for your eighteen pence you sit
The lord and judge of all fresh wit.

Sir J. Suckling.

A wit can study in the streets...

Not quite so well, however, as one ought;

A hackney coach may chance to spoil a thought.

Pope, Imitations of Horace.

The hackney-coachmen, clatterers, and porters, are
the lovers of the hawkers women, fruit-sellers, and
milk-maids.—*Garrigue*, no. 87.

Fielching has really a fund of true humour, and
was to be pitied at his first entrance into the world,
having no choice, as he said himself, but to be a
hackney writer, or a hackney-coachman.—*Lady M. W. Montagu, Letters*.

I went to the door in my own hackney coach.
Goldsmith, Manuch of Venison.

So common hackney'd in the eyes of men.

Shakespeare, Henry IV. Part I. iii. 2.

2. Carry in a hackney coach.

To her, who, frugal only that her thrift
May feel excesses she can ill afford,
Is hackney'd homo unbecom'g'd.

Cowper, Task, b. ii.

Hackneyed. part. adj. Worn.

And yet, perchance, the wiser to prefer
A hackney'd plot, than choose a new, and err;
Yet copy not too closely, but record,
More judiciously, thought for thought than word for word;

Nor trace your prototype through narrow ways,
But only follow where he merits praise.

Byron,Hints from Horace.

Hackster. s. Slasher; squash-buckler; bully; bravo; ruffian.

If some such desperate hackster shall devise
To rouse thine hard-heart from her cowardice.

Bishop Hall, Satire, iv. 4.

Elfrith, second wife to King Edgar, having con-trived the death of Edward her son-in-law, mur-dered him by a company of hacksters and villains,
at her appointment at Corfe Castle.—*Fuller, Church History*, p. 295.

Happy times, when braves and hacksters, the
only contented members of his government, were
thought the fittest and the faithfullest to defend his
person!—*Milton, Riconoclastes*, iii.

Hacqueton. s. [Fr.] Quilted jacket worn under armour.

You may see the very fashion of the Irish horse-man in his long hose, riding shoes of costly cord-wain, his *haqueton*, or his *haburmoon*.—*Spenner, View of the State of Ireland*.

But th' other did upon his trancheon smyte
Which bewing quite asunder, farther saye
It sunk, and on his *haqueton* did lybe,
The which dividing with impetuous away
It wheel'd in his right side, and there the dint did
stay. *Id., Muriel Queen*, ii. 3, 28.
[The Hack Prince's *haqueton*, composed of quilted cot-ton, is suspended over his tomb in Canterbury ca-the-dral.—*Todd*.]

On the lower less, as on the higher *hades*,
The dainty clover grows.

Dryden, Polydorian, song 12.

Had-I-wist. Combination of three words, rather than a compound, implying vain afterthoughts: (Oh! that I had known).

This blindness is not of the eyes alone,
But of the mind a dimness and a mist:
For when they shift to sit in hantie throne
With hope to rule the scepter as they list,
There's no regard nor fear of *had-I-wist*.

Mirror for Magistrates, p. 160.

Beware of *had I wist*. *Cumtlen, Memains*.

Haft. s. [A.S. *haft*.] Part of any instru-ment that is taken into the hand, or by which it is held; handle.

This brandish'd dagger
I'll bury to the *haft* in her fair breast.

Dryden and Lee, Oedipus.

A needle is a simple body, being only made of steel; but a sword is a compound, because its *haft* or handle is made of materials different from the blade.—*Watts, Logic*.

Hag. s. [A.S. *hegyes*, *hageste*, *hagtes*; German, *hexe* = witch.]

1. Witch.

The very dregs of miracles, in milkpans and
grassy dishes, by Robinswaddellow, and *hags*, and
fairies, all wrought somewhat for thy—*Id.* *supra*
stitions. *Deating, On the Epistle to the Hebrews*
ch. ii. 1576.

Out of my door, you witch! you *hag*, you *hag-*
gag, you pulcrit, you rummyon.—*Shakespeare, Merry Wives of Windsor*, iv. 2.

2. Female monster.

Thus spake th' impatient prince, and made a pause;
His foul *hags* raised their heads, and clapt their
hands:

And all the powers of hell, in full applause,
Flourish'd their snakes, and tost their flaming
brands. *Crusoe*.

3. Ugly old woman.

There follow'd fast at hand two wicked *hags*,
With hoary locks all loose, and visage grim.

Spenner, Muriel Queen.

Such affections may become the young;
But thou, old *hag*, of threescore years and three,
Is shewing of thy parts in Greek for thee? *Dryden*.

4. Appearances of light and fire upon the munes of horses, or men's hair, were formerly called *hags*.

Hags are said to be made of sweat or some other
vapour issuing out of the head; a not unusual sight
among us when we ride by night in summer time.—*Blount, Glossographia*.

Hag. v. a. Harass with vain terror.

That makes them in the dark see visions,
And *hag* themselves with apparitions.

Butler, Hudibras.
How are superstitious men *hagged* out of their
wits with the fancy of omens, tales, and visions!—*Sir R. L. Estrange*.

Haggard. adj. [Fr. *hagard*.]

1. Wild; untamed; difficult to be reclaimed.

As *haggard* hawk, presuming to contend
With hardy fowl, above his hable might,
His weary pounce all in vain doth spend,
To truss the prey too heavy for his flight.

Spenner, Muriel Queen.
Virtue sitteth over the names of her servants,
bov'ryth over them with her wings, and guards them
from the kites and buzzards of this *haggard* age.—*Staford, Xibao*, pt. ii. p. 78.

In time, all *haggard* hawks will stop to hure.
Kyd, Spanish Tragedy.

2. Having an expression of being worn by distress, anxiety, or watchfulness.

Fearful besides of what in fight had pass'd,
His hands and *haggard* eyes to heav'n he cast.
Dryden.

H A G G

Where are the conscious looks, the face now pale,
Now flushing red, the down-cast haggard eyes,
Or fast on earth, or slowly rain'd? *Smith.*

Haggard. s.

1. Anything wild or irreclaimable.

I will be married to a wealthy widow,
Three days hence, which has as long lov'd me
As I have lov'd this proud disdainful haggard.
Shakespeare, Taming of the Shrew, iv. 2.

2. Species of hawk.

His too disdainful;
I know her spirits are as any and wild,
As haggards of the rock.
Shakespeare, Much Ado about Nothing, iii. 1.
Does the wild haggard tow'r into the sky,
And to the south by thy direction fly?
I enlarge my discourse to the observation of the
series, the brancher, the ramish hawk, and the
haggard.—*J. Walton, Complete Angler.*

3. Hag.

Beneath the gloomy covert of an yew,
In a dark grove, the baleful haggard lay,
Breathing black vengeance, and infecting day.
Garth.

For him the rich Arabia sweats her gum;
And precious oils from distant India come;
How haggardly use'er she looks at home.
Dryden, Translation of Juvenal.

Hagg'd. adj. ? Haggard; ? haglike.

A hagg'd carriage of a wolf, and a jolly sort of dog
with good flesh upon his back, fell into company
together.—*Sir R. L. Estlin.*
The ghostly prudes with hagg'd faces
Already had condemn'd the dinner.
Gray, Long Story.

Haggish. adj. Of the nature of a hag; de- formed; horrid.

But on us both did haggish age steal on,
And wore us out of act.
Shakespeare, All's well that ends well, i. 2.

Haggie. v. a. Cut; chop; mangle: (always in a bad sense).

Suffolk first died, and York all haggled o'er
Comes to him where in force he lay inter'd.
Shakespeare, Henry V. iv. 6.

Haggie. v. n. Be tedious in a bargain; be long in coming to the price.

Phoo! how she stands biting her nails,
As if she play'd for half her vails,
Sorting her cards, haggling, and picking!

I never could drive a hard bargain in my life,
concerning any matter whatever; and least of all
do I know how to haggle and huckster with merit.
—*Burke.*

Hagiographa. s. [Gr. ἅγιος = holy, and γράφω = write.] Certain compositions which formed the last of the three primary di- visions into which, in the time of St. Je- rome, the Jews distributed the books of the Old Testament: (for details see ex- tract).

Eight [of the translators of the Bible,] assembled
at Cambridge, were to finish the rest of the histori-
cal books, and the hagiographa.—*A rabbinical New-
come, On the Translation of the Bible, p. 49.*

These are the five books of Moses which they call
Torah, that is, the Law. The second class contains
the prophets, and they begin from . . . Jesus, the
son of Nave, who with them is called Josue Ben
Nun. . . . The third class is that of the Hagiographa,
the first of which is Job; the second David; . . . the
third Solomon; . . . the fourth Ecclesiastes; . . . the
fifth the Song of Songs; . . . the sixth is Daniel; . . .
the seventh . . . the Chronicle; . . . the eighth Ezra;
the ninth Esther, &c. In all there are twenty-
two books of the old law; that is, five books of Mo-
ses, eight of the prophets, and nine of the Hagiog-
rapha.—*Translation from St. Jerome (Hieronymus)
Prologus Galatæ in Horne, Introduction to the
Critical Study and Knowledge of the Holy Scrip-
tures.*

Hagiographical. adj. Denoting, connected with, constituted by, or related to, the writ- ings called Hagiographa.

Strabus . . . writing upon St. Jerome's prologues,
there placed before the Old Testament, wherein,
according to the copies then in use, the book of
Tobit is said to be separated from the Divine Scrip-
tures and numbered among the hagiographa; he
indeed fault with the transcribers, and with that
Tobit is to be set among the apocryphal books, and
not among the hagiographa, properly so called; .

H A I R

She stamps, and then cries hah! at every thrust.
Dryden, Translation of Juvenal.

Hail. s. [A.S. hægol, hægel, hægl.] Drops of rain frozen in their falling.

With strange rains, hails, and showers, were they
persecuted.—*Hindon, xvi. 16.*
When this hail some heat from Hibernia felt,
So he dissolved, and showers of oaths did melt.
Shakespeare, Midsummer-Night's Dream, i. 1.

Thunder mix'd with hail,
Hail mix'd with fire, must rend the Egyptian sky.
Milton, Paradise Lost, xii. 181.

Hail. v. n. Fall as hail.

My people shall dwell in a peaceable habitation
when it shall hail, coming down on the forest. —
Isaiah, xxxii. 18.

Hail. v. a. Pour or shed as hail.

For, ere Demetrius look'd on Hircania's eye,
He hail'd down oaths, that he was only mine.
Shakespeare, Midsummer-Night's Dream, i. 1

Hail. interj. See Hal!

Hail, hail, brave friend!
Say to the king the knowledge of the hail.
Shakespeare, Macbeth, i. 2.

Her sick head is bound about with clouds:
It does not look as it would have a hail
Or health wish'd in it, as on other morns.
B. Jonson.

The sacred hail
Bestow'd, the holy salutation we'd
Long after to bless Mary, second Eve.
Milton, Paradise Lost, v. 335.

Forewell, happy fields,
Where joy for ever dwells; hail, horrors! hail,
Infernal world! and thou, profoundest hell,
Receive thy new possessor! *Ibid. i. 240.*
All hail, he cry'd, thy country's grace and love,
Once first of men below, now first of birds above.
Dryden.

Hail. v. a. Salute; call to.

A gallery drawing near unto the shore, was hail'd
by a Turk, accompanied with a troop of horsemen.
—*Kneller, History of the Turks.*

Thrice call upon my name, thrice beat your breast,
And hail me thrice to everlasting rest.
Dryden.

Hail-fellow. s. Companion: (two words rather than a compound, the result being an imperative or interjectional combina- tion; well met being often added).

No man, that not hail-fellow was with beast,
Woke on to woe himself a god at least.
Bishop Hall, Satires, iii. 1.

All these agree with him in blindness and dark-
ness; yea, they are all hail-fellow well met! —*Junius,
Sin Stigmatized, p. 111.*

I thought all people here had been hail-fellow well
met.—*Sir R. L. Estlin, Translation of Quetzaco,*
p. 46.

The master and servant are at hail-fellow, the gen-
tleman and the clown are upon the square with one
another.—*Goodman, Winter Evening's Conference,*
pt. 1.

Hailstone. s. Particle or single ball of hail.

They were more which died with hailstones, than
they whom the children of Israel slew with the
sword.—*Jeremiah, x. 11.*

You are no surer, no,
Than is the coal of fire upon the ice,
Or hailstone in the sun.
Shakespeare, Coriolanus, i. 1.

Hard hailstones lay no thicker on the plain,
Nor shaken oaks such show'rs of acorns rain.
Dryden.

Haily. adj. Consisting of hail; full of hail.

From whose dark womb a rattling tempest pours,
Which the cold North congeals to haily showers.
Pope.

Hair. s. [A.S. hær.]

1. Covering of certain parts of the skin of men
and quadrupeds (mammalia) so called.

H A I R

HAGGARD
HAILSTONE

My fleece of woolly hair that now uncureth.

Shakespeare, Titus Andronicus, ii. 3.
Shall the difference of hair only, on the skin, be a
mark of a different internal constitution between a
changeling and a drill?—*Locke.*

[Hair] is to be found upon all the parts of the
body, except the sides of the feet and palms of the
hands. When we examine the hairs with a micro-
scope, we find that they have a round bulbous
root, which lies pretty deep in the skin, and which
draws their nourishment from the surrounding hu-
mours; that each hair consists of five or six others,
wrapt up in a common tunic or tube. They
grow as the nails do, each part near the root thrust-
ing forward that which is immediately above it, and
not by any liquor running along the hair in tubes,
as plants grow.—*Quincy.*

2. Single hair.

Naughty lady,
These hairs which thou dost ravish from my chin,
Will quicken and accuse thee.
Shakespeare, King Lear, iii. 7.

Much is breeding:
Which, like the course of a hair, hath yet left life,
And not a serpent's poison.
Id., Antony and Cleopatra, i. 2.

3. Anything proverbially small.

If thou tak'st more
Or less than just a point; if the scale turn
But in the estimation of a hair.
Thou dost die.—*Shakespeare, Merchant of Venice, iv. 1.*
He judicious to a hair of little importance, and
knows better than any man what is not to be writ-
ten.—*Dryden.*

If I could but calculate the precise date of his
death, I would write a novel on purpose to make
George the hero. I could hit him off to a hair.—
Lamb, Letter to Coleridge.

4. Course; order; grain; hair falling in a
certain direction.

He is a curver of souls, and you a curver of bodies;
if you should fight, you go against the hair of your
profession.—*Shakespeare, Merry Wives of Windsor,*
ii. 3.

Hairbrained. adj. Wild; irregular; un- steady.

Let's leave this town; for they are hairbrained
slaves,
And hunger will enforce them be more eager.
Shakespeare, Henry VI. Part I. i. 1.

Hairbreadth (also Hairbreadth, which latter is often two words). s. Very small distance; diameter of a hair.

Seven hundred chosen men left-handed could
sling stones at an hairbreadth, and not miss.—
Julius, xx. 16.

Used adjectivally.

I speak of most disastrous chances,
Of moving accidents by flood and field;
Of hairbreadth escapes in th' imminent deadly
breach.
Shakespeare, Othello, i. 3.

At length however Eumenes himself, after an un-
successful attempt to escape into Armenia, seeing
his ranks thinned by frequent desertions, thought
it best to put an end to this life of perpetual wan-
dering, fatigue, and hairbreadth escapes, which
could lead to no useful result, and he recommended
to the greater part of his men to return to their
homes, and wait for better times.—*Bishop Thirl-
wall, History of Greece, ch. liii.*

Haireloth. s. Stuff made of hair, very rough and prickly, worn sometimes in mortification.

It is composed of reeds and parts of plants woven
together, like a piece of haircloth.—*Grew, Hy-
poem.*

Haired. adj. Having hair: (thus we say, 'A red-haired man').

A beast, haired like a bear.
Purchas's Pilgrimage, p. 708: 1617.

Hairhang. adj. Hanging by a hair: (in the extract with accent on the last syllable).

Man, whose fate,
Fate irreversible, entire, extreme,
Endless, hair-hung, breeze-shaken, o'er the gulf
A moment trembles.
Young, Night Thoughts.

Hairiness. s. Attribute suggested by Hairy.

To discover the inequalities, ribs, and hairiness
of the skin.—*Sir T. Browne, Christian Morals, ii. 9.*

Hairlace. s. Fillet with which women tie up their hair.

Some women are commonly resembled to a wo-
man's hairlace or fillet, thence called tooth.—*Har-
vey.*

If Molly happens to be careless,
And but neglects to warm her hairlace,
She gets a cold as sure as death.
Swift.

Hairless. adj. Wanting hair.

White beards have arm'd their thin and hairless
scalps
Against thy majesty.
Shakespeare, Richard II. iii. 2.

HAIR

To see an old shorne lock perched high,
Crouching beneath a golden canopy;
The white a thousand hairless crowns crouch low
To kiss the precious case of his proud toe.
Bishop Hall, Satires, iv. 7.

Hairneedle. *s.* See **Hairpin**.

Hairpin. *s.* See **extract**.

Hairneedle or **hairpin** [was] formerly an instrument for torturing the hair; the latter within our own memory; the former very ancient. Saxon *hær-næddle*, *calamistrum*, i.e. an iron to curl the hair. The modern **hairpin** kept the hair in certain fanciful shapes by being stuck through the plaster of powder and pomatum most plentifully bestowed upon it.—*Tuch, in voc.*

Hairy. *adj.*

1. Overgrown with hair; covered with hair. She his hairy temples then had rounded
With coronet of flowers.
Shakespeare, Midsummer-Night's Dream, iv. 1.

2. Consisting of hair.

Storms have shed
From vines the hairy honours of their head.
Dryden.

Hake. *s.* [see **Jack**.] Fish so called.

The coast is stored with mackerel and hake.—*Carew, Survey of Cornwall.*

Halberd. *s.* [Fr. *hallebarde*.] Battle-axe fixed to a long pole.

Advance thy halberd higher than my breast.
Shakespeare, Richard III. 1. 2.
Our halberds did shut up his passage.

Id., Henry VI. Part III. iv. 2.
Four knives in garbs muffled, a trusty hand,
Came on their heads, and halberds in their hand,
Draw forth to combat on the velvet plain.
Pope, Rape of the Lock, canto iii.

Halberdier. *s.* One who is armed with a halberd.

The duchess appointed him a guard of thirty halberdiers, in a livery of murrey and blue, to attend his person.—*Bacon.*

Captain, for so I show thee by thy arms
And the loose slanks of halberdiers about thee.
Beaumont and Fletcher, Noble Gentleman.

The king had only his halberdiers, and fewer of them than used to go with him.—*Lord Clarendon, History of the Great Rebellion.*

Halcyon. *s.* [Lat. *halcyo*, from Gr. ἅλκυον and ἅλκυον.] Bird, of which it is said that she breeds in the sea, and that there is always a calm during her incubation. See **Kingfisher**.

Amidst our arms as quiet you shall be,
As halcyons brooding on a winter sea.
Dryden.

Used adjectively.

Such snuffing rogues, as these . . . sooth ev'ry passion;
Bring oil to fire, snow to their colder moods
Benew, affirm, and turn their halcyon beaks
With ev'ry gale and vary of their masters.
Shakespeare, King Lear, ii. 2.

Halcyon. *adj.* Placid; quiet; still; peaceful.

When great Augustus made war's tempest cease,
His halcyon days brought forth the arts of peace.
Sir J. Denham.

No man can expect eternal serenity and halcyon days from so incompetent and partial a cause, as the constant course of the sun in the equinoctial circle.—*Bentley.*

Halcyonian. *adj.* Same as **Halcyon**.

Thence our halcyonian times of peace and prosperity.—*Sheldon, Miracles of Antichrist, p. 179: 1816.*

Three peaceful and halcyonian days, which the Church enjoyed for many years.—*Dr. Mede, On Church, p. 82.*

Days of clouds and thick darkness, very distant from those white, halcyonian, serene, and peaceable days.—*Worthington, On the Millennium, p. 87.*

Hale. *s.* **Welfare.** *Obsolete.*

Rifoonces, all headless of his dearest hale,
Full greedily into the bord he thrust.
Spenser, Astrophel.

Hale. *adj.*

1. Healthy; sound; hearty; well complexioned.

My sheep like well below,
They need not melanopoda,
For they been hale enough I trow,
And liken their shode.
Spenser.

Some of these wise partisans concluded the government had hired two or three hundred hale men, to be pinched, if not executed, as the pretended captives.—*Addison.*

His stomach too begins to fall;
Last year we thought him strong and hale,
1120

HALF

But now he's quite another thing;
I wish he may hold out till spring.
Swift, On the Death of Dr. Swift.

2. Whole; uninjured.

When, on the other side, sin, after the combat of God's rod, comes off unwounded and hale, &c.—*Hammond, Works, iv. 584.*

Hale. *v. a.* [see **Haul**.] Drag by force; pull violently and rudely.

Give diligence that thou mayest be delivered from him, lest he hale thee to this judge.—*Luke, xi. 54.*

Fly to your house;
The plebeians have got your fellow tribune,
And hale him up and down.
Shakespeare, Coriolanus, v. 4.

My third comfort,
Starr'd most unluckily, is from my breast
Haul'd out to murder.
Id., Winter's Tale, iii. 2.

He by the neck hath haul'd, in pieces cut,
And set me as a mark on every butt.
Thither by harpy-footed furies haul'd,
At certain revolutions, all the damned
Are brought.
Milton, Paradise Lost, ii. 806.

Who would not be discontented with any recreation, in itself indifferent, if he should with blows be haled to it when he had no mind?—*Locke.*

In all the tumults at Rome, though the people proceeded sometimes to pull and hale one another about, yet no blood was drawn till the time of the Gracchi.—*Swift.*

Half. *s. pl. halves.* [A.S. *healf*.] One of two equal parts.

An half-acre of land.—*1 Samuel, xiv. 14.*
Many might go to heaven with half the labour they go to hell, if they would venture their industry the right way.—*B. Jonson.*

Well chosen friendship, the most noble
Of virtues, all our joys makes double,
And into halves divides our trouble.
Sir J. Denham.

(Or what but riches is there known
Which man can solely call his own;
In which no creature goes his half,
Unless it be to squint and laugh?)
Butler, Hudibras.

No mortal tongue can half the beauty tell;
For none but hands divine could work so well.
Dryden.

Of our manufacture foreign markets took off one half, and the other half were consumed amongst ourselves.—*Locke.*

The council is made up half out of the noble families, and half out of the plebeian.—*Addison, Trucels in Italy.*

Her beauty, in thy softer half
Bury'd and lost, who ought to grieve.
Prior.

Natural was it for a prince, who had proposed to himself the empire of the world, not to neglect the sea, the half of his dominions.—*Arbuthnot.*

Had the land selected of the best,
Half had come hence, and let the world provide the rest.
Dryden.

Half. *adv.*

1. In part; equally.
I go with love and fortune, two blind guides,
To lead my way; half-loth, and half-consenting.
Dryden.

2. It is much used in composition to signify a thing imperfect, as most of the following examples will show; and sometimes, nearly; within a little.

Half-blood. *s.* One not born of the same father and mother.

Which shall be heir of the two male twins, who, by the direction of the mother, were laid open to the world? Whether a sister by the half-blood shall inherit before a brother's daughter by the whole blood?—*Locke.*

Half-blooded. *adj.* [often sounded two words.] Mean; degenerate.

The let alone lies not in your good will.—
Nor in thine, lord.—*Half-blooded fellow, yes.*
Shakespeare, King Lear, v. 3.

Half-cap. *s.* Cap imperfectly put off, or faintly moved.

With certain half-caps and cold moving nods,
They fruce me into alliance.
Shakespeare, Timon of Athens, ii. 2.

Half-faced. *adj.* Showing only part of the face; small faced. *Contemptuous.*

Proud overbearing tyranny
Burns with reviving fire, whose hopeful colours
Advance, a half-fac'd sun striving to shine.
Shakespeare, Henry VI. Part II. iv. 1.

This same half-fac'd fellow, Shalover; give me this man: be presents no mark to the enemy; the fox-man may with an great sin level at the edge of a penknife.—*Id., Henry VI. Part II. iii. 2.*

Half-penny. *s.* Copper coin so called, of half the value of a penny.

Bardolph stole a lute-case, bore it twelve leagues, and sold it for three half-pence.—*Shakespeare, Henry V. iii. 2.*

HALI

He cheats for half-pence, and he doth his cost
To save a farthing in a ferryboat.
Dryden.

Never admit this pernicious coin, no not so much as one single half-penny.—*Swift.*

You will wonder how Wood could get his majesty's broad seal for so great a sum of bad money, and that the nobility here could not obtain the same favour, and make our own half-pence as we used to do.—*Id.*

Used adjectively.

There shall be in England seven half-penny leaves sold for a penny; the three-hooped pot shall have ten hoops, and I will make it felony to drink small beer.—*Shakespeare, Henry VI. Part II. iv. 2.*

Half-pennyworth. *s.* Worth of a half-penny.

O monstrous! but one half-pennyworth of bread to this intolerable deal of sack!—*Shakespeare, Henry VI. Part II. 4.*

Half-pike. *s.* Small pike carried by officers. The various ways of paying the salute with the half-pike.—*Trotter.*

Half-read. *adj.* Superficially skilled by reading.

The clown unread, and half-read gentleman.
Dryden, Hind and Panther.

Half-strained. *adj.* Half-bred; imperfect. I find I'm but a half-strained villain yet,
But mungit-mischievous; for my blood boll'd
To view this brutal act.
Dryden.

Half-sword. *s.* Close fight; within half the length of a sword.

I am a rogue, if I were not at half-sword with a dozen of them two hours together.—*Shakespeare, Henry IV. Part I. ii. 4.*

Half-wit. *s.* Blockhead; foolish fellow. Half-wits are fools, so little and so light,
We scarce could know they live, but that they bite.
Dryden.

Half-witted. *adj.* Imperfectly furnished with understanding.

I would rather have trusted the refinement of our language, as to sound, to the judgement of the women than of half-witted poets.—*Swift.*

Jack had passed for a poor, well-meaning, half-witted, crack-brained fellow; people were strangely surprised to find him in such a rogues.—*Arbuthnot, History of John Bull.*

Halfen. *adj.* Wanting half its due qualities.

No perfect in that art was Paridol,
That he Malwey's halcyon eye did wile,
His halcyon eye he wiled wondrous well.
Spenser, Faerie Queen, iii. 10, 5.

Half-dead. *adv.* Nearly half.

Now the humid night was forthwith spent,
And heavenly lamps were half-deadly spent.
Spenser, Faerie Queen.

Half-part. *s.* used as an interjection. Equal share; halves.

A prize! a prize!—*Half-part, mates! half-part!*
—*Shakespeare, Pericles, iv. 1.*

Half-scholar. *s.* One imperfectly learned.

We have many half-scholars now-a-days, and there is much confusion and inconsistency in the notions and opinions of some persons.—*Watts.*

Half-seasover. *adj.* Half-drunk.

I am half-seas-over to death;
And since I must die once, I would be loth
To make a double work of what's half-finish'd.
Dryden.

Half-sighted. *adj.* Seeing imperfectly; having weak discernment.

The officers of the king's household had need be provident, both for his honour and thrift; they must look both ways, else they are but half-sighted.
—*Bacon.*

Half-sphere. *s.* Hemisphere, which it translates.

Let night grow blacker with thy plots; and day,
At shewing but thy head forth, start away
From this half-sphere.
B. Jonson.

Halfway. *adv.* In the middle.

Fearless he was, who is with virtue crown'd,
The tempest rage, and hears the thunder sound;
Ever the same, let fortune smile or frown;
Securely as he liv'd resigns his breath;
Meets destiny half-way, nor shrinks at death.
Granville.

Halibut. *s.* [holy in its older form as in *halidom*; + *but* = flounder.] Native fish, akin to the turbot and flounders (but), so called of the genus *Hippoglossus*.

In the afternoon, having three hours' calm, our people caught upwards of a hundred halibuts, some of which weighed a hundred pounds, and none less than twenty pounds.—*Cook and King's Voyage.*

halidom. *s.* Holy state (as an adjuration).

By my *halidom*, quoth he,
To a great master are in your degree.

Spenser, Mother Hubbard's Tale.

By my *halidom*, I was fast asleep.

Shakespeare, Two Gentlemen of Verona, iv. 2.

The heavenly help of *haltings* and amercements.—
Milton, Reasons of Church Government urged against Prelacy, b. ii.

halituous. *adj.* [Lat. *halitus* = breath, vapour.] Vaporous. *Rare.*

We speak of the atmosphere as of a peculiar thin,
and *halituous* liquor, much lighter than spirit of
wine.—*Boyle.*

halikard. *s.* [see *Hulk*.] Coarse, vulgar person. *Rare.*

A *halikard*, or person of low degree, proletarius.
—*Withal, Dictionary*, 209; ed. 1009.

hall. *s.* [A.S. *heal*.]

1. Court of justice; as, Westminster Hall.
O lost too soon in yonder house or hall. *Pope.*

2. Public room of a corporation.
With expedition on the boudle call,
To summon all the company to the hall. *Garth.*

3. First large room of a house.
That light we see is burning in my hall,
Shakespeare, Merchant of Venice, v. 1.

Courtesy is sooner found in lowly sheds
With smoky rafters, than in tapestry halls
And courts of princes. *Milton, Comus*, 323.

4. Collegiate body in the universities.
No master or head of any college or hall, in either
of the said universities, shall, on any occasion what-
soever, be absent from his college, or hall, above two
months together.—*Præface, Life*, p. 223.

5. Construction *adjectival*. Manorhouse so
called, because in it were held courts for
the tenants.

Captain Sentry, my master's nephew, has taken
possession of the hall house, and the whole estate.—
Addison.

6. Construction *interjectional* = clear the
room. *Obsolete.*

Then cry a Hall, a Hall.—*Ben Jonson, Tale of a Tub.*

hallage. *s.* See extract.

Hallage [is] toll paid for goods or merchandize
ventured in a hall; and particularly applied to a few
or toll due for cloth, brought for sale to Blackwell
Hall in London. Lords of fairs or markets are en-
titled to this fee.—*Jacob, Law Dictionary.*

hallojah. *s.* [Hebrew.] Song of thanks-
giving.

Then shall thy saints . . .
Unfeigned *hallojahs* to thee sing,
Hymns of high praise.

Milton, Paradise Lost, vi. 743.
Singing those devout hymns and heavenly an-
them, in which the church militant seems anxious
to imitate the triumphant and echo back the solemn
praises and *hallojahs* of the celestial choir.—
Boyle.

halter. *s.* Occupant of a hall (in its fourth
sense).

The students also that remain in them are called
hollers or *hollers*.—*Holinshead, Description of
England*, c. iii. Rich.

hallote. *s.* See extract.

Hallote, or *Hallmote*, [is] that court among the
Saxons which we now call a court-lairn; and the
etymology is from the meeting of the tenants of one
hall or manor. The name is still kept up in several
places in Herefordshire. . . . It hath been sometime
taken for a convention of citizens in their public
hall where they held their courts, and which was
also called *folmote* and *hallmote*; but the word
hallmote is rather the lord's court held within the
manor, in which the differences between the tenants
were decided.—*Jacob, Law Dictionary.*

halloo. *interj.* [Fr. *halle*.] Word of en-
couragement when dogs are let loose on
their game.

Some popular rhilf.
More noisy than the rook, but cries *halloo*,
And, in a trice, the bawling herd come out.
Dryden.

halloo. *v. n.* [Fr. *halier*.]

1. Cry halloo.
A cry more tunable
Was never *halloed* to, nor cheer'd with horn.

Shakespeare, Midsummer-Night's Dream, iv. 1.

2. Shout after, as an expression of contempt.
Country folks *halloed* and houted after me, as the
arrant coward that ever showed his shoulders to
his enemy.—*Sir F. Sidney.*

Vol. I.

halloo. *v. a.*

1. Encourage with halloos.

If, whilst a boy, Jack ran from school,
Pond of his hunting-horn and pole,
Though gent and age his speed detain,
Old John *halloo* his hounds again. *Prior, Alton.*

2. Chase with shouts.

If I fly, Martinus,
Halloo me like a hare. *Shakespeare, Coriolanus*, i. 8.

3. Call or shout to.

When we have found the king, he that first lights
on him, *Halloo* the other.—*Shakespeare, King Lear*,
iii. 1.

halloosing. *verb. abs.* Act of one who
halloos; loud and vehement cry.

There are noises, huntings, shoutings, *halloosings*,
Amidst the brakes and furz.

halloo. *v. n.* [A.S. *halgian*.] Consecrate;
make holy.

Let Cade think I have slain, that would restrain
Sword, I will *halloo* thee for this thy deed,
And hang thee o'er my tomb, when I am dead.

Shakespeare, Henry VI, Part II, v. iv.
When we sanctify or *halloo* churches, it is only
to testify that we make them places of public re-
mory; that we invest God himself with them, and
that we sever them from common uses.—*Hooker,*
Religious Polity.

halloved. *part. adj.* Made holy.

Then hallowed faith shall once again return,
And vestal fires in *halloved* temples burn. *Dequæ.*
No sater larks within this *halloved* ground;
But nymphs and heroines, kings and gods abound.

hallovmass. *s.* Day of All Hallows, or
All Saints, i. e. first day of November.

She came adorned like *halloved* May,
Sent back like *hallovmass*, or short'st of day.

Shakespeare, Richard III, v. 1.
One of the cross quarters of the year
put in ancient writing on *hallovmass* to Candle-
mas.—*Cowell.*

hallucination. *s.* [Lat. *hallucinatio*, -onis.]
Mental illusion. For its special import in

Psychology or *Mental Pathology*, see last
extract.

A wasting of flesh, without can frequently
be formed a twofold disease; but unquestionably a
hallucination of the vision. *Harris.*

This must have been the *hallucination* of the
transcriber, who probably mistook the dash of the I
for a T. *Addison.*

False perceptions, without disease of the organs
of sense, . . . have been called *illusions* by some,
and *hallucinations* by others. M. Esquirol pro-
poses to confine the latter term to them; and he
thinks them to be . . .

when there are no appropriate external objects to
excite them in the organs of sense. . . . Darwin
supposes that *hallucinations* proceed from inflam-
mation of the . . . of the nerves of sensation; and
M. Esquirol says that 'the false . . . of the
senses are produced by the . . . and ideas re-
sulting from the . . . and ideas re-

produced by the . . . and ideas re-
sulting from the . . . and ideas re-
sulting from the . . . and ideas re-
sulting from the . . . and ideas re-

Whatever may be the point of organic departure,
of *hallucinations*, they are lively or sad, capable
of inspiring sentiments of benevolence, or of arming
the hand of the maniac with an instrument of homi-
cide.—*Copland, Dictionary of Practical Medicine.*

halo. *s.* [Fr. *halo*; Gr. *αλός*.] Circle like
the fringe of light which may often be seen

round the margin of the moon, especially
when . . . luminous circle in general;
glory us that round the head of the
Saviour.

If the hail be a little thinned, the light transmitted
may grow so dense, at a little less distance than that
of twenty-six degrees, as to form a *halo* about the sun
or moon; which *halo*, as often as the halos are
duly formed, may be coloured. *Sir J. Newton.*

I saw by reflection, in a vessel of stagnant water,
three *halos*, crowns or rings of colours about the
sun, like three little rainbows, concentric to his
body.—*Id.*

haloid. *adj.* [Gr. *ἅλς* = salt; *ειδής* = form.]
Saltlike in the chemical sense of the word

salt.

A fourth order of salts has been formed by
Berzelius, comprising for the most part bi-ele-
mentary compounds which consist of a metal on
one hand, and of chlorine, iodine, bromine, fluorine,
and the radicals of the hydric acids on the other. . . .
The reader will at once perceive that these *haloid*
salts, as bi-elementary compounds, differ in com-

7 D

position from other salts, and are analogous to
oxides and sulphurets. But their characters are
essentially those of the oxygen salts. Thus chloride
of sodium, or sea-salt, is very similar in its properties
to sulphate or nitrate of soda. Indeed, the *oxygen*
term salt is taken from sea-salt.—*Tanner, Elements*
of Chemistry, p. 507; 1847.

halse. *s.* [A.S. *heals*.] Neck. *Obsolete.*

Many a truer man than he has hanged up by
the *halse*.—*Gammer Gurton's Nostril*. (Sares by
H. & W.)

halse. *v. a.* Embrace.

Each other kissed and
And lovely *halst*, from fears of treason free,
And dighted hands, for ever friends to be.

Spenser, Rime Queen, iv. 3, 19.
Now will ye hear an ancient tale of old Bohemian
lay.

It was a noble merringer in wedding-bed he lay.
He *halst*, and kissed his loving wife, that was as
sweet as May.

And said 'Now, darling of my heart, attend the
words I say.
Sir W. Scott, Ballad of the Noble Mortimer.

halter. *s.* [Lat. *helarius*.] Drawer. *Ob-*
solete.

Helarius, a *halter*, or he which haleth and
draweth a ship or barge alongst the river by a
rope; also he that draweth up burthens and packes
into the ship. *Nomenclator*: 1683. (Sares by H.
and W.)

halt. *v. n.* [A.S. *healt*.]

1. Limp; be lame.
And will she yet debate her eyes
On me, that *halt* and am misshapen thus?

Shakespeare, Richard III, i. 2.
Spenser himself affects the obsolete.
And Sidney's verse *halts* ill on Rime's feet.

2. Stop in a march.
I was forced to *halt* in this perpendicular march.
—*Addison.*

On the road he [Emmenes] was *halted* with illness,
the effect, it is said, of unusual intemperance at a
banquet which he gave, as if to vie with Priamos;
he was obliged to *halt* for some days, in great
danger, and continued so weak that he let himself
be carried in a litter in the rear, while Priamos
and Antiochus commanded in his stead. *Bishop*
Thirlwall, History of Greece, ch. xlii.

3. Hesitate; stand dubious; fail; falter.
How can *halt* ye between two opinions?—*Kings*,
xviii. 21.

halt. *adj.* Lame; crippled.
Lime in either the poor, the maimed, the *halt*,
and the blind. *Lake*, xiv. 21.

halt. *s.* [Fr. as in *fairhalt* = stop (make a
stoppage) in march.] Stop in a march.

Down from a sky of Jasper lighted glow
In Paradise, and on a *halt* made *halt*.

Milton, Paradise Lost, d. 204.
Scouts each coast light armed scout,
Each quarter, to descry the distant foe,
Where look'd, or whither fled, or if for flight
In motion, or in *halt*. *Id.* vi. 529.

Without any *halt* they marched between the two
armies. *Lord Clarendon, History of the Great
Revolution*.

He might have made a *halt* till his foot and artil-
lery came up to him. *Id.*

Two months were spent in the march from Ora to
Pura, the capital of Galesia. The time seems great,
compared with the direct distance, especially as the
army was often forced to make very long marches
from one station to another, and we hear of none
but the ordinary *halts*. *Bishop Thirlwall, History*
of Greece, ch. li.

halter. One who halts.

These *halters* between two religions think they
. . . do their homage to the true God and to the
false. *Stokes, On the Prophecy*, p. 412; 1650.

halter. *s.* [German, *hulfter*, *hulster*, *halter*.]
Rope for special purposes.

a. Tethering, or confining, an animal.
Whom neither *halter* binds nor burthens chagres.

Sadley.

b. For hanging malefactors.
He's fled, my lord, and all his pow'rs do yield;
And humbly they, with *halters* on their necks,
Expect your highness' doom of life or death.

Shakespeare, Henry VI, Part II, iv. 8.
They were to die by the sword if they stood upon
defence, and by the *halter* if they yielded; where-
fore they made choice to die rather as soldiers than
as dogs.—*Sir J. Hayward.*

Were I a drowsy judge, whose dismal nod
Disgorgeth *halters*, as a juggler's throat
Doth ribbands. *Clarendon.*

He gets renown, who, to the *halter* near,
But narrowly escapes, and buys it dear.

Dryden, Translation of Juvenal.

halter. *v. a.* Bind, tie, or catch, with a halter.

1121

HALTING } HALT

Some that are tall, and some that are dwarf,
Some that are halter'd, and some that were warth.
He might have employed his time in the frivolous
delights of catching moles and haltering frogs.—
Bishop Atterbury.

Halting. *part. adj.* Limping; lagging; stopping.

Here's a paper written in his hand;
A halting sammet of his own pure brain,
Fashion'd to Beatrice.

Shakespeare, Much Ado about Nothing, v. 4.
Thus hibernic lords the factions would engage,
Or wars of civil'd heirs, or foreign rage,
Till halting vengeance overtook our age. *Dryden.*

Halting. *verbal abs.* Act of one who halts; stopping.

All my familiars watched for my halting, saying,
Ferventure he will be enticed, and we shall pre-
vail against him.—*Jeremiah, 12, 10.*

Halve. *v. a.* Divide into two parts.
Our N cholas, for I account him at least halft
between us, tells me that you have good means to
know when — will be in town.—*Sir H. Walton,*
Letters, Remains, p. 371: 1658.

Then, says he, the moon has strength enough;
and is not yet halved.—*Stukely, Philosophia Sa-
cro, p. 60.*

Halver. *s.* One who halves, i. e. divides into
half, or possesses half, of anything.

It would be more pleasing unto God, and com-
mendable with men, if yourselves and such halvers
in opinion, "omnium horum homines" for your
private ends, would openly avow what covertly
you conceal.—*Bishop Montague, Appeal to Consci-
ence, p. 142.*

Halves. *interj.* Expression by which anyone
lays claim to an equal share.

Have you not seen how the divided dam
Rains to the summons of her humery hand?
But when the turn cries halve, she quits the first,
Cleaveland.

And he, who sees you stoop to th' ground,
Cries, halve! to every thing you're found.
Dr. Savage, Horace to Secura, p. 32: 1750.

Halving. *verbal abs.* See extract.

Halving is a method of joining thinkers by
letting them into each other. It is preferable to
unfolding, even where the thinkers do not pass into
each other, as they are less liable to be displaced by
shrinking.—*Grell, Karyopodia of Architecture,
Glossary.*

Halvyards. *s.* In Navigation. Ropes for
hauling or heaving in the sails.

The halvyards and top bow-lines soon are gone.
Fletcher, Shipwreck, canto ii.

Halymote. *s.* See extract.

Halymote is properly a body or ecclesiastical court;
but there is a court in London, formerly held on the
Sunday next before St. Thomas's Day, called the
Halymote or holy court, Curia Sancti Thomae, for regu-
lating the bakers of the city.—*Jacob, Law Dic-
tionary.*

Ham. *s.* [A.S. *ham.*]

1. Hip; hinder part of the thigh.
The *ham* was much relaxed; but there was some
contraction remaining.—*Biseman.*

2. Thigh of a hog salted.
Who has not learnt, fresh sturgeon and *ham* pye
Are no rewards for want and infancy?
Pope, Institutions of Horace, li. l. ant. ...

Hamadryad. *s.* [Gr. *ἡμαδρύς*, *hama-*; Lat.
hamadryas, *-adria*.] Wood nymph.

The common opinion concerning the nymphs,
whom the ancients called *hamadryades*, is more to
be the labour of trees than any thing yet mentioned;
It was thought that the fate of these nymphs had
some dependence on some trees, more especially
oaks, that they lived and died together. *Spectator,*
no. 529.

The *hamadryad* or nymph, who must necessarily
have perished with the tree, appeared to him the
next day.—*Ibid.*

Hamate. *adj.* [Lat. *hamatus*, from *hamus*
= hook.] Entangled; twisted together.

To explain cohesion by *hamate* atoms is accounted
"jenoniam per jenoniam."—*Bishop Berkeley, Siris,*
§ 227.

Hamble. *v. a.* [A.S. *hamelan*.] See extract.

[To] *hamble* [or] *hammer* [is] to render dogs unfit
for hunting by cutting their feet.—*Wedgwood, Dic-
tionary of English Etymology.*

Hambling. *s.* See extract.

Menelaw says *hambling* of dogs is quasi *hama-*
bling; i. e. keeping at home by paring their feet,
so that they cannot take delight in running abroad.
—*Wedgwood, Dictionary of English Etymology.*

Hames. *s.* See Heam.

Hamlet. *s.* [Fr. *hameau*.] Small village.

HAMM

Within the self-same lordship, parish, or hamlet,
lands have divers degrees of value.—*Racine.*
He pitch'd upon the plain
His mighty camp, and when the day return'd,
The country wasted and the hamlets burn'd.
Dryden.

Hamleted. *adj.* Countrified; accustomed
only to a hamlet.

He is jaegerly and pitilessly to be counted alone
that is illiterate, and unactively lives *hamleted* in
some untravelled village of the duller country.—
Kilham, Rosolva, ii. 40.

Hammer. *s.* [A.S. *hamer*.]

1. Instrument, consisting of a long handle
and heavy head, with which anything is
forged or driven.

The anvil-worers,
With busy hammers clanging rivets up,
Give dreadful note of preparation.
Shakespeare, Henry V. iv. chorus.

The stuff will not work well with a hammer.—
Johnson.

It is broken and without many blows, and will
break the best anvils and hammers of iron.—*Sir H.*

something.—*Archbishop Laud, History of his Trial,*
ch. xx.

Hammer. *v. n.*

1. Work; be busy.

Nor need'st that much importune me to that,
Whereon this month I have been hammering.
Shakespeare, Two Gentlemen of Verona, i. 3.

I have been studying how to compare
This prison where I live unto the world;
And, for because the world is populous,
And here is not a creature but myself,
I cannot do it; yet I'll hammer it out.
Id., Richard II. v. 5.

2. Be in agitation.

Vengeance is in my heart, death in my hand;
Blood and revenge are hammering in my heart.
Shakespeare, Titus Andronicus, ii. 3.

Hammercloth. *s.* [The derivation as given
in the extract is no longer admitted; the
true import of *hammer* being that which it
bears in the compound Yellow-hammer,
as the name of a bird. It is from the A.S.
hama = skin.] Cloth, originally a skin,
thrown over a coach-box. See extract.

Hammercloth [is] the cloth that covers a coach-
box. The coachman formerly used to carry a *ham-*
mer, pliers, a few nails, &c. in a leather pouch
belonging to his box; and this cloth was used for
the hiding or concealing of them from the public
view.—*Payge.*

covered wicker basket.

Either as a spiritual food and victual in their
tabernacles, *ampers*, hutchens; or as a mystic in
their locked closets.—*Sheldon, Miracles of Anti-
christ, p. 255: 1616.*

The Greek word, used by the translator, doth
properly signify a hutch, or *ampere* to put victuals
in, or a chest to lock treasure in.—*Ibid., p. 255.*

What powder'd wig! what flames and darts!
What *hamper* full of bleeding hearts! *Swift.*

Hamper. *v. a.*

1. Shackle; to entangle, as in chains or nets.
O loose this frame, this knot of man untold!
That my free soul may use her wing,
Which now is phron'd with mortality,
As an entangled, *hamper'd* thing. *Herbert.*

What was it but a lion *hamper'd* in a net!—*Sir*
R. B. Estlin.

Wear under viandts their talents,
And mother with before their patients;
Until they're *hamper'd* in the nose,
Too fast to dream of breaking laws. *Butler, Hudibras.*

They *hamper* and entangle our souls, and hinder
their flight upwards.—*Archbishop Tillotson.*

But being now in the eleventh year of my resi-
dence, and, as I have said, my ammunition growing
low, I set myself to study some art to trap and snare
the goats, to see whether I could not catch some of
them alive; and particularly, I wanted a she-goat
great with young. For this purpose, I made snare
to *hamper* them; and I do believe they were more
than once taken in them; but my tackle was not
good, for I had no wire, and I always found them
broken, and my bait devoured. At length I resolved
to try a pitfall.—*DeFoe, Life and Adventures of*
Robinson Crusoe.

2. Ensnare; inveigle; catch with allure-
ments.

She'll *hamper* thee, and dandle thee like a baby.
Shakespeare, Henry VI. Part II. i. 2.

Release the lab'ors for the cause. *Butler, Hudibras.*

At Dunbar there is a noble park, with a lodge,
belonging to the duke of Roeburgh, where Oliver
Cromwell had his head quarters, when *Lesley*, at the
head of a Scotch army, took possession of the moun-
tains in the neighborhood, and *hamper'd* him in
such a manner, that he would have been obliged to
embark and get away by sea, had not the fanaticism
of the enemy forfeited the advantage which they had
obtained by their general's conduct.—*Smollett, Repu-
diation of Humphry Clinker.*

He [Lesley] was so *hamper'd* by the material im-
becility of his time, that he could not bring himself
to conceive heat as a purely super-natural force, of
which temperature was the external manifestation.
—*Huckle, History of Civilization in England, vol. ii.*
ch. v.

4. Specially applied to the derangement of
machinery.

I *hamper'd* the lock of the library door, so that I
might be secure of interrupting those who should
resort thither.—*Life of a Lover, vi. 204.*

The swarthy smith spits in his buckshorn flat,
And bids the men bring out the five-fold twist,
His shackles, shacklocks, *hamper*, givers, and chains.
W. Browne, Britannia's Pastorals, b. i.

Hamster. *s.* [German.] Rodent animal so
called, of the genus *Cricetus*; pouched
rat.

The *hamster* is not much larger than the common
rat, and has the same form of head and general
physiognomy. . . . Notwithstanding . . . they differ
very essentially, and form very distinct sub-genera.
... The *hamster* is found in France only near the
lower Rhine; but is common in all the northern
parts of Germany where the soil is suitable. The
German *hamster* was first described and figured in
the Linnean Transactions, and subsequently by Dr.
Shaw in the General Zoology. . . . The *Ammonius*
hamster (*Mus ammonius*, Thompson) must be con-
sidered as placed conditionally only among the
hamsters by the character of the cheek pouches.—

1. Bold; brave; stout; daring; resolute.
Try the imagination of some in rock-fights, to
make one cock more *hardy*, and the other more
cowardly.—*Racine.*
Who is there *hardy* enough to contend with the
reproach which is prepared for those, who dare ven-
ture to dissent from the received opinions of their
country?—*Locke.*
Could thirst of vengeance, and desire of fame,
Excite the female breast with martial flame?
And shall not love's diviner pow'r inspire
More *hardy* virtue, and more gen'rous fire?
Prior, Henry and Emma.
2. Strong; hard; firm; stubborn.
Is a man confident of his present strength? An
unwholesome blast may shake in pieces his *hardy*
fabrick.—*South, Sermons.*
- Hare, s.** [A.S. *hara*.]
1. Native rodent animal so called, of the
genus Lepus.

Our captains *Marbeth* and *Banquo*?
As sparrows, eagles; or the *hare*, the lion.
Shakespeare, Macbeth, i. 2.
2. In Astronomy. Constellation so called.
The *hare* appears, whose active rays supply
A nimble force, and hardly wings deny. *Creech.*
- Hare, v. a.** [Fr. *harer*, as in *harer un chien*—
set a dog on.] Frighten; hurry with
terror.
The poor creature [Richard Cromwell] was so
harred by the council of officers, that he presently
caused a proclamation to be issued out, by which he
did declare the parliament to be dissolved.—*Lord
Clarendon, History of the Grand Rebellion, h. xvi.*
To *hare* and rate them, is not to teach but vex
them.—*Locke.*
- Hare-lip, s.** [two words.] Approach in the
human mouth to that of a hare, caused by
the imperfect union of the two sides of the
upper lip, so as to leave a fissure in the
middle.
The bits of nature's hand
Shall not in their issue stand;
Never mole, *hare-lip*, nor scar,
Shall upon their children be.
Shakespeare, Midsummer-Night's Dream, v. 2.
The third stitch is performed with pins or needles,
as in *hare-lips*.—*Wismann, Surgery.*
- Harebell, s.** See Heatherbell.
Thou shalt not lack
The flow'r that's like thy face, pale priuouse; nor
The aurd *harebell*, like thy veins.
Shakespeare, Cymbeline, iv. 2.

called; also as the name of a peculiar kind
of French bean used therein.
I have ordered a *harepot*, to which you will be very
welcome about four o'clock.—*Lord Chesterfield.*
The *harepot* blanc is the seed of a peculiar kind of
French bean of which we have some difficulty in
ascertaining the English name.—*Miss Acton, Mo-
dern Cookery.*
[*Haripot* is described as small pieces of mutton partly
boiled and then fried with vegetables, but without
any reference to *harepot* beans.—*Wedgwood, Dic-
tionary of English Etymology.*]
- Hareidan, s.** [?] Worn-out strumpet.
She just endur'd the winter she began,
And in four months a battered *hareidan*;
Now nothing's left, but wither'd, pale, and shrunk,
To bawl for others, and go sharps with punk. *Swift.*
- Harif, s.** [A.S. *hegerifa* = hedge robber.]
One of the names for the Galium Aparine,
Cleavers, or Gooseshare.

If he could hear too in the dark. *Butler, Hudibras.*
2. In the imperative mood, as an interjection.
List! hear! listen!
What harmony is this? My good friends, *harke*!
Shakespeare, Tempest, iii. 2.
The butcher saw him upon the gallop with a piece
of flesh, and called out, *Harke ye, friend*, you may
make the best of your purchase. *Sir R. L'Estrange.*
Harke! methinks the roar that late pursu'd us,
Sinks like the murmurs of a falling wind. *Rouse.*
- Harl, s.** Filaments of flax; filamentous
substance in general.
The general sort are wicker hives, made of privet,
willow, or *harl*, daubed with cow-dung.—*Mortimer.*
- Harlequin, s.** Character in pantomimes so
called, as distinguished from the clown and
pantaloon.
Coming from Venice the last summer, and taking
Bergamo in my way homeward to England, it was
my happy, sojourning there some four or five days,
to light in fellowship with that famous French Hip
Harlequin, who, perceiving me to be an Englishman
by my habit and speech, asked me many particulars
of the order and manner of our plays, which he
termed by the name of representations.—*Nash, Al-
mond for a Parrot, Epistle Dedicatory.*
The joy of a king for a victory must not be like
that of a *harlequin* upon a letter from his mistress.
—*Dryden.*
- Harlequin, v. a.** Conjure away, like a
harlequin.
Monkeys have been
Extreme good doctors for the spleen;
And kitten, if the humour hit,
Has *harlequin'd* away the ill. *Green, The Spleen, 95.*
- Harlock, s.** Plant so called, probably Chur-
lock.
The honey-suckle, the *harlock*,
The lily, &c. *Dryden, Religio, 1290.*

Milton, Paradise Lost, ix. 1000.
For now she rules me with her look,
And round me winds her harlot chain.

Way, Poet, Lay of the Ivy.
Harlot. v. n. Play the harlot; keep the company of harlots.

They that spend their youth in loitering, bawling, and harloting.—*Milton, Animadversions upon a Defence of the Humble Remonstrance.*

Harlotry. s.

1. Trade of a harlot; fornication.
Harlotry, when committed with a common strumpet.—*Bishop Nicholson, Exposition of the Catechism, p. 123: 1002.*

Nor shall,
From Rome's tribunal, thy harlots prevail
Against harlotry, while thou art clad so thin.
Dryden, Translation of Juvenal, sat. ii.

2. Name of contempt for a woman.
A peevish self-will'd harlotry,
That no persuasion can do good upon.

Shakespeare, Henry IV. Part I. iii. 1.
A kind of common and harlotry Venus, which,
devoting only from the body and a branch of the
animal life, draws down the soul to what is merely
corporeal, and, mingling with it, defiles and pollutes
it.—*Mallows, Excellence of Moral Virtue, p. 111: 102.*

3. Anything meretricious.

The harlotry of the ornaments.—*Matthias, Pursuits of Literature.*

Harm. s. [A.S. *hearm.*] Injury; crime; wickedness; mischief; detriment; hurt.

We, ignorant of ourselves,
Beg often our own harms, which the wise Powers
Deny us for our good.

Shakespeare, Antony and Cleopatra, ii. 1.
How are we happy still in fear of harm?
But harm precedes not sin.

Milton, Paradise Lost, ix. 326.
They should be suffered to write on: it would
keep them out of harm's way, and prevent them
from evil courses. *Swift.*

Harm. v. a. Hurt; injure.

What sense had I of her stol'n hours of lust?
I saw't not, thought it not, it harm'd not me.
Shakespeare, Othello, iii. 3.

Passions never could grow
To harm another, or impair your rest. *Waller.*
After their young are hatched, they brood them
under their wings, lest the cold, and sometimes the
heat, should harm them.—*Ray.*

Harmful. adj. Hurtful; noxious; mischievous; injurious; detrimental.

His dearly loved spouse
His spear of heaven-wind behind him bare,
When harmful heat, thrice heated in the fire,
Had given many a breast with pike-head square.

Spenser.
Let no man fear that harmful creature less,
because he sees the apostle safe from that poison.—
Bishop Hall.

The earth brought forth fruit and food for man,
without any mixture of harmful quality. *Sir W. Raleigh.*

For flax and oats will turn the tender field,
And sleepy poppies harmful harvest yield. *Dryden.*

Harmfully. adv. In a harmful manner; hurtfully; noxiously; detrimentally.

A scholar is better occupied in playing or sleeping,
than spending his time not only vainly, but harm-
fully in such kind of exercise.—*Ascham.*

Harmless. adj.

1. Innocent; innoxious; not hurtful; not doing harm.

Touching ceremonies, harmless in themselves, and
hurtful only in respect of number, was it axiomatic
to decree that those things that were least needful, and
newest come, should be the first that were taken
away.—*Hooker, Ecclesiastical Polity.*

She, like harmless lightning, throws her eye
On him, her brother's, me, her master; hitting
Each object with a joy. *Shakespeare, Cymbeline, v. 3.*

2. Unhurt; undamaged; not receiving harm.

The shipwright will be careful to gain by his labour,
or at least to save himself harmless, and therefore
suits his work slightly, according to a slight
price.—*Sir W. Raleigh.*

Harmlessly. adv. Innocently; without hurt; without crime.

He spent that day free from worldly trouble,
harmlessly, and in a recreation that became a
churchman.—*J. Walton.*

Bullets batter the walls which stand inflexible,
but fall harmlessly into wood or feathers.—*Dr. H. More, Decay of Christian Piety.*

Harmlessness. s. Attribute suggested by

H A R M

Harmless; innocence; freedom from tendency to injury or hurt.

When, through tasteless flat humility,
In douch-bath'd men some harmlessness we see,
'Tis but his phlegm that's virtuous, and not he.

Thomson.
Compare the harmlessness, the credulity, the tenderness, the modesty, and the ingenuous pliancy of
virtuous canines, which is in youth unaltered,
with the mischievousness, the slyness, the craft, the
immudence, the falsehood, and the confirmed obduracy
in an aged, long-practised sinner.—*South, Sermons.*

Harmonie. adj. Concordant; musical; proportioned to each other.

No swells each wind-pipe; see intones to me,
Harmonick twang of leather, horn, and brass.
Pope, Dunciad, ii. 253.

Harmonical. adj. Same as Harmonic.

After every three whole notes, intune requir'd,
for all harmonical use, one half note to be inter-
posed.—*Bacon.*

Harmonical sounds and discordant sounds, are
both active and positive; but darkness and dark-
ness are, indeed, but privative.—*Id.*

Harmonically. adv. In an harmonic man-
ner; musically.

The mind, as some suppose, harmonically com-
posed, is roused upon the times of music.—*Barton, Anatomy of Melancholy, p. 265.*

Anthems . . . which proceed in one full yet dis-
tinct strain, harmonically, and, at the same time,
intelligibly.—*Mason, Keats's Historical and Critical on English Church Music, p. 130.*

Harmonicon. s. Musical instrument so called.

Harmonics. See extract.

In the Sixth Book of the Republic, Plato treats
of the then existing sciences as the instruments of a
philosophical education. Among the most conspicu-
ous of these is astronomy. He there ridicules the
notion that astronomy is a sublime science because
it makes men look upward. He asserts that the
really sublime science is that which makes men look
at the realities, which are suggested by the appear-
ances seen in the heavens; namely, the spheres
which revolve and carry the luminaries in their re-
volutions. Now it was no doubt the determined
search for such "realities" as these which gave birth
to the Greek astronomy, the first and critical step
in the progress of science. Plato, by his exhorta-
tions, if not by his suggestions, contributed effec-
tually, as I conceive, to this step in science. In the
same manner he requires a science of harmonics
which shall be free from the defects and incon-
sistencies which occur in actual instruments. This
belief that the universe was full of mathematical
relations, and that these were the true objects of
scientific research, gave a vigour, largeness of mind,
and confidence to the Greek speculators which no
more cautious view of the problem of scientific dis-
covery could have supplied. It was well that this
advanced guard in the army of discoverers was
filled with indomitable courage, boundless hopes,
and creative minds.—*Whewell, History of Scientific Ideas, b. ii. ch. ii.*

Harmonious. adj.

1. Adapted to each other; having the parts
proportioned to each other; symmetrical.

All the wide-extended sky,
And all the harmonious worlds on high,
And Virgil's sacred work shall die. *Cowley.*
God has made the intellectual world harmonious
and beautiful without us; but it will never come
into our heads all at once; we must bring it home
piece-meal.—*Locke.*

2. Having sounds concordant to each other;
musical; symphonious.

Thoughts that voluntary move
Harmonious numbers. *Milton, Paradise Lost, iii. 38.*

The verse of Chancer is not harmonious to us;
they who lived with him thought it musical.—
Dryden.

Harmoniously. adv. In an harmonious
manner; musically; with concord of
sounds.

Not rhaps-like together crush'd and bruise'd;
But as the world harmoniously confus'd;
Where order in variety we see,
And where, though all things differ, they agree.

Pope.
That all these distances, motions, and quantities
of matter, should be so accurately and harmoniously
adjusted in this great variety of our system, is above
the fortuitous hits of blind material causes, and
must certainly flow from that eternal fountain of
wisdom.—*Bentley.*

Harmonist. s.

1. One who understands the concord of
sounds; one who delights in music.

H A R P

Sweet harmonist, and beautiful saw-wood.

Young, Night Thoughts, iii.
I am well aware, that as y profound harmonists
may be disgusted at what I have already advanced,
and think their craft in danger, when I seem to
attack the very staple of music.—*Mason, Keats's
Historical and Critical on English Church Music,
p. 102.*

A musician may be a very skilful harmonist, and
yet be defective in the talents of melody, air, and
expression.—*A. Smith, On the Imitative Arts, pt. ii.*

2. One who brings together corresponding
passages on a subject; harmonizer.

He endeavoureth to show how, among the fathers,
Augustin and Hieron are flatly against the harmo-
nist. *Newton, Life of Bishop Bull, p. 221.*

Harmonize. v. a. Adjust in fit proportions;
make musical.

Love first invented verse, and form'd the rhyme,
The motion measur'd, harmoniz'd the chime.

Dryden

Harmonize. v. n. Agree; correspond.

It. Tavernier shows how the making of the taber-
nacle harmoniz'd with the making of the world.—
Lightfoot, Miscellanies, p. 153: 1029.

Harmonizer. s. One who, or that which,
harmonizes; one who brings together cor-
responding passages on any subject.

They do not forget to show a prudent disdain for
commentators and harmonizers, by whose cure all
they have to say is often superseded.—*Chambers, In-
quiry into the Character of David, p. 5: 1702.*

Harmony. s. [Gr. *harmonia*; Fr. *harmonie.*]

1. Just adaptation of one part to another.

The pleasures of the eye and ear are but the effects
of equality, good proportion, or correspondence; so
that equality and correspondence are the causes of
harmony.—*Bacon.*

The harmony of things,
As well as that of sounds, from discord springs.
Mir J. Dehaham.

Rare infinite wisdom must accomplish all its
works with consummate harmony, proportion, and
regularity.—*Cheyne.*

2. Just proportion of sound; musical concord.

The sound
Symphonious, of ten thousand harps that tun'd
Angelick harmonies. *Milton, Paradise Lost, vii. 354.*

Harmony is a compound idea made up of diffe-
rent sounds united.—*Watts.*

3. Concord; corresponding sentiment.

In us both one soul,
Harmony to behold in wedded pair!
More grateful than harmonious sounds to the ear.
Milton, Paradise Lost, viii. 604.

Harness. s. [Fr. *harnois.*]

1. Armour; defensive furniture of war.
Somewhat antiquated.

A costly knight, all dress'd in harness meet,
That from his head no place appeared in his feet.
Spenser, Faerie Queen.

Of no right, nor colour like to right,
He doth all fields with harness. *Shakespeare, Henry IV. Part I. iii. 2.*

2. Traces of draught horses, particularly of
carriages of pleasure or stute: (of other
carriages we say gear).

Or wilt thou ride? Thy horses shall be trapp'd,
Their harness studd'd all with gold and pearl.
Shakespeare, Twelfth Night, iv. 2.
Their steeds around,
Free from their harness, graze the flow'ry ground. *Spenser.*

Harness. v. a.

1. Dress in armour.

He was harness'd light,
And to the field was he. *Shakespeare, Troilus and Cressida, i. 2.*
Full fifty years, harness'd in rugged steel,
I have endur'd the biting winter's blast. *Rowe.*

2. Defend; protect.

They saw the camp of the heathen, that it was
strong, and well harness'd, and compass'd round
about with horsemen.—*1 Maccabees, iv. 7.*

The remnant of the horsemen . . . being harness'd
all over amidst the ranks, (in the margin, being
compass'd with the ranks, or defended with the
valleys.)—*Ibid. vi. 38.*

3. Fix horses in their traces.

Before the door her iron chariot stood,
All ready harness'd for journey new. *Spenser, Faerie Queen.*

Harness the horses, and get up the horsemen, and
stand forth with your helms.—*Jeremiah, xli. 4.*

When I plow my ground, my horse is harness'd,
and chained to my plough.—*Sir M. Hale, Origina-
tion of Mankind.*

Harpe. s. [A.S. *hearp*; L.Lat. *harpa*; Ger-
man, *harfe*; Fr. *harpe.*]

1. Instrument strung with wire or gut, and commonly struck with the finger.
 Arion, when through tempests' cruel wreck
 He forth was thrown into the gravelly sea,
 Through the sweet music which his harp did
 make,
 Allur'd a dolphin him from death to save. *Spenser.*
 They touch'd their golden harps, and hymning
 praise'd
 God and his works. *Milton, Paradise Lost*, vii. 238.
 Nor wanted tuneful harp, nor vocal quire;
 The munes sang, Apollo touch'd the lyre. *Dryden.*
2. Constellation so called, or Lyra.
 Next shines the harp, and through the liquid skies
 The shell, as lightest, first begins to rise;
 This when sweet Orpheus struck, to listening rocks
 He senses gave, and ears to wither'd oaks. *Crook.*

Harp. v. n.

1. Play on the harp.
 I heard the voice of harpers harping with their
 harps. — *Revelation*, xiv. 2.
 Tush-tum-tum cherubim,
 And sworded seraphim,
 Are seen in glittering ranks with wings display'd,
 Harping in loud and solemn quire,
 With unexpressive notes to Heaven's new-born heir.
Milton, Ode on the Nativity, 112.
2. Touch any passion, as the harper touches
 a string; dwell on a subject.
 Gracious duke,
 Harp not on that, nor do your banish reason
 For inequality; but let your rancor serve
 To make the truth appear.
Shakespeare, Measure for Measure, v. 1.
 Ho seems
 Proud and disdainful, harping on what I am,
 Not what he knew I was.
Id., Antony and Cleopatra, iii. 11.

Harp. r. a.

1. Bring out as a sound from a harp.
 Things without life giving sound, whether pipe or
 harp, except they give a distinction in the sounds,
 how shall it be known what is piped or harped? —
1 Corinthians, xiv. 7.
2. Touch; affect; move.
 For thy good caution thanks,
 Thou hast harp'd my fear aright.
Shakespeare, Macbeth, iv. 1.
- Harp on one string* — Treat any subject in a
 too exclusive or monotonous manner.
 You harp a little too much upon one string. —
Collier.

Harper. s. Player on the harp.

- Never will I trust to speeches penn'd,
 Nor to the motion of a schoolboy's tongue;
 Nor woo in rhyme, like a blind harper's song.
Shakespeare, Love's Labour's Lost, v. 2.
 I'm the god of the harp: stop, my fairest! — in
 vain.
 Nor the harp, nor the harper could fetch her again.
Tickell.

Harping-iron. s. See Harpoon.

- The boat which on the first assault did go,
 Struck with a harping-iron the younger foe;
 Who when he felt his side so rudely go'd,
 Loud as the sea that nourish'd him he roar'd.
Waller.

Harpiet. s. Player on the harp.

- She . . . can no less
 Tame the fierce walkers of the wilderness,
 Than that Egyptian harpiet, for whose lay
 Tigers with hunger plin'd, and left their prey.
W. Browne, Britannia's Pastorals, b. i. song 5.

Harpoon. s. [Spanish and Fr. *harpon*.] Barbed dart or javelin attached to a line for whale fishing.

- Some fish with harpoons, some with darts are
 struck,
 Some drawn with nets, some hang upon the hook.
Dryden.

Harpsichord. s. [N. Fr. *harpechorde*.] Musical instrument, strung with wires, and played by striking keys.

- Let them run divisions on the harpsichord or virginals. — *Parthena Sacra*, p. 144: 1653.
 He would exactly perform his part of many things to a harpsichord or theorbo. — *Bishop Fell, Life of Hammond*.
 I shall allow them to be harpsichords, a kind of music, which every one knows is a consort by itself. — *Taylor*, no. 185.

Harpy. s. [Lat. *harpyia*; Gr. *ἁρπυία*.]

1. See extract.
 The harpies were a kind of birds which had the faces of women, and foul long claws, very filthy creatures; which, when the table was furnished for Phineas, came flying in, and devouring or carrying away the greater part of the viands, did so defile the rest that they could not be endured. — *Sir W. Raleigh*.

2. Ravenous person.

- I will do you any assistance to the pignora, rather than hold three words conference with this harpy. — *Shakespeare, Much Ado about Nothing*, ii. 2.

Harrotesm. s. [?] Stuff or cloth so called. Mean time, thus silver'd with meanders gay, In mimic pride the small-wrought tissue shines, Perchance of tawdry or of harrotesm. Not ill expressive; such the power of smalls! *Shenstone, Economy*, pt. iii.

Harrier (dog). s. See Hound.

Harrier (bird). s. See Hen-harrier.

Harrihness. s. Roughness; huskiness.

- Rare.*
 Dates are good for the harrihness or roughness of the throat. — *Turner, Herball*.

Harrow. s. [Dutch, *harre* = harrow; German, *harke* = rake.] Agricultural implement so called; timbers crossing each other, and set with teeth, drawn over sowed ground to break the clods and throw the earth over the seed.

- The land with daily care
 Is exercis'd, and with an iron war
 Of rakes and harrows. *Dryden.*
 Two small harrows that clap on each side of the ridge, harrow it right up and down. — *Mortimer, Husbandry*.

Harrow. r. a.

1. Cover with earth by the harrow.
 Friend, harrow in time, by some manner of means,
 Not only thy person, but also thy beans.
Passey, Five hundred Points of Good Husbandry.

2. Break with the harrow.

- Canst thou bind the unicorn with his band in the furrow? or will he harrow the valleys after thee? — *Job*, xxxix. 10.
 Let the Volscians
 Plow Rome, and harrow Italy.
Shakespeare, Coriolanus, v. 3.

Harrow. r. a. [?] Acutely distress; rack. The primary meaning is uncertain. Any one of the three significations of harrow (1. instrument; 2. hery = seize; 3. interjection) will give it. Mr. Wedgwood (see Harrowing (of Hell)) chooses the last. The editor prefers that of hery. See Hery.

1. Invade; harass with incursions; subdue.
 Most glorious Lord of life, that on this day
 Didst make thy triumph over death and sin;
 And having harrow'd hell, didst bring away
 Captivity thence captive, us to win. *Spenser.*
2. Pillage; strip; lay waste.
 As the king did ever in good commonwealth laws,
 so he had in secret a design to make use of them, as well for collecting of treasure as for correcting of manners; and so meaning thereby to harrow his people, did accumulate them the rather. — *Bacon, History of the Reign of Henry VII.*

3. Tear up; rip up.

- Imagine you behold me bound and scour'd,
 My aged muscles harrow'd up with whips;
 Or hear me groaning on the rending rack. *Romeo.*
4. Disturb; put into commotion; overpower.
 Most like it harrowes me with fear and wonder. *Shakespeare, Hamlet*, i. 1.

I could a tale unfold, whose lightest word
 Would harrow up thy soul, freeze thy young blood,
 Make thy two eyes, like stars, start from their
 spheres. *Ibid.* i. 5.

Harrow. interj. [N. Fr. *haro*, *harao*, *harau*, *hure*.] Exclamation of sudden distress; cry for help.

- Harrow now out and weal away, he cried;
 What dismal day hath sent this cursed light,
 To see my lord so deadly damnify'd? *Spenser.*

Harrowed. part. adj. Distressed; overpowered.

- Amas'd I stood, harrow'd with grief and fear.
Milton, Comus, 563.

Harrower. s. One who harrows.

- The natives were likewise bound to give three plowdays each; and every plow was to be allowed four boon-loaves, and to harrow three days; and every harrower was allowed a brown loaf, and two herrings a day. — *Blount, A Sicilian Sketch*, p. 143.

Harrowing (of Hell). s. See extract; also Harrow-Hery.

- The harrowing of hell was the triumphant exposition of Christ after his crucifixion, when he brought away the souls of the righteous who had been held captive in hell since the beginning of the world. — *Wedgwood, Dictionary of English Etymology*.

Harrowing. verbal abs. Acutely distressing. See Harrow = Hery, v. a. 3, 4.

- A harrowing sight is one which leads to the exclamation of harrow. — *Ibid.*

Herry. v. a. [A. S. *hergian*.]

1. Tease; ruffle; vex.
 I repeat me much
 That I so harried him.
Shakespeare, Antony and Cleopatra, iii. 3.

2. Plunder.

- The Saxons, with perpetual landings and invasions,
 harried the south coast of Britain. — *Milton, History of England*, b. ii.

Herry. v. n. Make harassing incursion.

- What made your roughships
 Harrying for victuals here?
Beaumont and Fletcher, Bonduca.

Harsh. adj. [German, *harsch*.]

1. Austere; rough; sour.
 Our nature here is not unlike our wine;
 Some sorts, when old, continue brisk and fine;
 No age's gravity may seem away;
 But nothing harsh or bitter ought to appear.
Sir J. Denham, Of Old Age, pt. iii.
 The same defect of heat which gives a fierceness to our natures, may contribute to that roughness of our language, which bears some analogy to the harsh fruit of colder countries. — *Swift*.
2. Rough to the ear.
 A name unmusical to Volcanian ears,
 And harsh in sound to thine.
Shakespeare, Coriolanus, iv. 5.
 Age might, what nature never gives the young,
 Have taught the smoothness of thy native tongue;
 But satire needs not that, and wit will shine
 Through the harsh cadence of a rugged line.
Dryden.

The unnecessary consonants made their spelling tedious, and their pronunciation harsh. — *Id.*
 Thy lord commands thee now
 With a harsh voice, and supercilious brow,
 To serve duties. *Id.*

3. Crabbed; morose; peevish.

- He was a wise man and an eloquent; but in his nature harsh and haughty. — *Bacon*.
 Bear patiently the harsh words of thy enemies, as knowing that the anger of an enemy almost always us of our duty. — *Jarvis Taylor*.
 No harsh reflection let remembrance raise;
 Forbear to mention what thou canst not praise.
Prior.

A certain quickness of apprehension inclined him to kindle into the first motions of anger; but for a long time before he died, no one heard an intemperate or harsh word proceed from him. — *Bishop Atterbury*.

4. Rugged to the touch; rough.

- Black feels as if you were feeling needles' points, or some harsh sand; and red feels very smooth. — *Boyle*.

5. Unpleasing; rigorous.

- With eloquence innate his tongue was arm'd;
 Though harsh the precept, yet the preacher charm'd.
Dryden.

Harshly. adv. In a harsh manner.

1. Sourly; austere to the palate, as unripe fruit.
 2. With violence: (in opposition to gentleness, unless in the following passage it rather signifies unripe).
 Till, like ripe fruit, thou drop
 Into thy mother's lap; or be with ease
 Gather'd, not harshly pluck'd.
Milton, Paradise Lost, xi. 635.

3. Severely; morosely; crabbedly.

- I would rather he was a man of a rough temper, that would treat me harshly, than of an effeminate nature. — *Addison*.

4. Unpleasantly to the ear.

- My wife is in a wayward mood to-day;
 I tell you, 'twould sound harshly in her ear.
Shakespeare, Comedy of Errors, iv. 4.
 The rings of iron that on the doors were hung,
 Sent out a jarring sound, and harshly rung.
Dryden.

Harshness. s. Attribute suggested by Harsh.

1. Sourness; austere taste.

- Take an apple and roll it upon a table hard; the rolling doth soften and sweeten the fruit, which is nothing but the smooth distribution of the spirits into the parts; for the unequal distribution of the spirits maketh the harshness. — *Bacon*.

2. Roughness to the ear.

- Neither can the natural harshness of the French, or the perpetual ill accent, be ever refined into perfect harmony like the Italian. — *Dryden*.
 'Tis not enough no harshness gives offence:
 The sound must seem an echo to the sense.
Pope, Essay on Criticism, pt. ii.

5. Ruggedness to the touch.

Harshness and ruggedness of bodies is unpleasant to the touch.—*Bacon*.

4. Crabbedness; moroseness; peevishness.

Thy tender heated nature shall not give
Thou o'er to harshness: her eyes are fierce, but
thin
Do comfort and not burn.

Shakespeare, King Lear, II. 4.

Thy beauty cannot move
Rage from the seas, nor thy love teach them love,
Nor tame wild Boreas' harshness.

Donne, Poems, p. 257.

Hart. s. [A.S. *heart*, *heort*.] He-deer; male of the hind; stag.

That instant was I turn'd into a hart,
And my desires, like fell and cruel hounds,
E'er since pursue me.

Shakespeare, Twelfth Night, I. 1.

And fearful harts do wander every where
Amidst the dogs.

Mary, Translation of Virgil.

Hartshorn. s. See extract.

Hartshorn is a drug that comes into use many ways, and under many names. What is used here are the whole horns of the common male deer, which fall off every year. This species is the fallow deer; but some tell us, that the medicinal *hartshorn* should be that of the true hart or stag. The salt of *hartshorn* is a great astringent, and the spirit has all the virtues of volatile alkalies: it is used to bring people out of faintings by its pungency, holding it under the nose, and pouring down some drops of it in water.—*Sir J. Hill, Materia Medica*.

Ranuncous concretions of the volatile salts are observable upon the glass of the receiver, whilst the spirits of vipers and *hartshorn* are drawn. *Woodward*.

Hartstongue. s. Native fern so called, of the genus *Scelopendra*.

It [*hartstongue*] commonly grows out from the joints of old walls and buildings, where they are moist and shady. There are very few of them in Europe.—*Miller*.

Hartstongue is propagated by parting the roots, and also by seed.—*Mortimer*.

So saxifraga is good, and *hartstongue*, for the stone.

Drayton, Polyolbion, song 13.

Harmescarum. adj. Flighty; hurried; (as 'a harum-scarum fellow') Colloquial.

Harvest. s. [A.S. *harfest*.] Season of reaping and gathering the corn.

As it ebbs, the seedman
Upon the slims and once scatters his grain,
And shortly comes to harvest.

Shakespeare, Antony and Cleopatra, II. 7.

Figuratively for fruits, reward, retribution, result.

From Ireland come I with my strength,
And reap the harvest which that rascal sow'd.

Shakespeare, Henry VI. Part I. III. 1.

When the father is too fondly kind,
Such seed he sows, such harvest shall he find.

Dryden.

Used adjectively or as the first element in a compound.

With harvest work he is worse than in spring.—*Sir R. L. Estlin*.

Harvest. v. a. Gather in.

I have men a stock of reeds harvested and stacked,
worth two or three hundred pounds.—*Pennant*,
Tour in Scotland.

Harvest-home. s.

1. Song which the reapers sing at the feast made for having inured the harvest.

Your hay it is now'd, and your corn it is reap'd;
Your barns will be full, and your hovels heap'd;
(Come, my boys, come,
'Come, my boys, come,
And merrily rear out harvest-home.

Dryden.

2. Time of gathering harvest.

At harvest-home, and on the shearing-day,
When he should thus 's to Pan and Pales pay.

Dryden.

3. Opportunity of gathering treasure.

His with I will use as the key of the cuckold's
rogue's coffer; and there's my harvest-home.—*Shakespeare*,
Merry Wives of Windsor, II. 2.

Harvester. s. One who works at the harvest.

I have appointed you, as *harvesters*, to go abroad
in all the world, and bring in converts to heaven.—*Hammond*,
Paraphrase and Annotations on the New Testament, I Peter, II. 8.

Harvestman. s. Labourer in harvest.

In this large field of the Scriptures, a man may
gather some ears untouched after the *harvest-men*,
how diligent never they were.—*Archbishop Parker*,
Preface to the Old Testament.

Like to a *harvestman*, that's task'd to mow
Or all, or lose his hire. *Shakespeare, Coriolanus*, I. 2.

Hatch. v. a. [Fr. *hacher*.] Mince; chop into small pieces and mingle.

He rais'd his arm
Above his head, and rain'd a storm,
Of blows so terrible and thick,
As if he meant to *hatch* her quick.

Rutler, Hudibras.

What have they to complain of but too great
variety, though some of the dishes be not served in
the exactest order, and politeness: but *hatched* up in
haste.—*Garth*.

Hatch. s. In Cookery. Kind of stew so called.

The cook should be reminded that if the meat in
a *hatch* or mince be allowed to boil, it will immedi-
ately be hard, and can then be rendered eat-
able by long stewing, which is by no means desirable
for meat which is already sufficiently done.—*Miss*
Acton, Modern Cookery.

Hask. s. [Swedish, *hussas* : rush.] This seems to signify a case or habitation made of rushes or flags. *Obolete*.

Phobus, weary of his yearly task,
Establish'd hath his steed in lowly lay,
And taken up his inn in fishes *hask*.

Spenser.

Hasp. s. [A.S. *haspa*.] Clasp folded over a staple, and fastened on with a padlock.

Have doors to open and shut at pleasure, with
hasps to them. *Mortimer*.

Hasp. v. a. Shut with a hasp.

Thrust in a tombril, awkwardly you've shin'd,
With one fat slave before and none behind.

Garth, Dispensary, canto v.

Hassock. s. [see Hask.] Thick padded mat on which men kneel at church.

He found his parishioners very irregular; and in
order to make them kneel, and join in the responses,
he gave every one of them a *hassock* and common
prayer-book.—*Addison*.

Haste. v. n. [Fr. *hâter*.] Move with swift-ness, eagerness, or hurry.

'Tis Cinnia, I do know him by his gait;
He is a friend. Cinnia, where *haste* you so?

Shakespeare, Julius Caesar, I. 2.

All those things are passed away like a shadow,
and as a post that *hasted* by.—*Wisdome of Solomon*,
v. 9.

Hasting to pay his tribute to the sea,
Like mortal life to meet eternity.

Sir J. Denham, Cooper's Hill.

These rites perform'd, the prince without delay
Hastes to the nether world, his death's way.

Dryden, Translation of the Æneid, VI. 330.

To distant *hastes*, and the spacious waste
Of wandy Pyle, the royal youth shall *haste*.

Pope, Translation of the Odyssey, I. 118.

Haste. s.

1. Hurry; speed; nimbleness; precipitation.

Spare him, death!
But O, thou wilt not, cannot spare I
Haste hath never time to hear. *Crashaw*.
Our lines reform'd, and not compos'd in *haste*,
Polish'd like marble, would like marble last;
But as the present, so the last are writ;
In both we find like negligence and wit. *Walter*.
The wretched father running to their aid
With pious *haste*, but vain, they next invade.

Dryden, Translation of the Æneid, II. 254.

2. Passion; vehemence.

I said in my *haste*, All men are liars.—*Psalm*,
cxvi. 11.

Haste. v. a. Push forward; urge on; precipitate; drive to swifter pace.

Let it be so *hasted*, that snapper be ready at the
farthest by five of the clock.—*Shakespeare*, *Merchant*
of Venice, II. 2.

All hopes of succour from your arms are past;
To save us now, you must our ruin *haste*. *Dryden*.

Hasten. v. n. Make haste.

I *hastened* to the spot whence the noise came.—*Defoe*,
Adventures of Robinson Crusoe.

Hasten. v. a. Hurry.

Each sees his lamp with different lustre crown'd;
Each knows his course with different periods bound;
And in his passage through the liquid space,
Nor *hastens* nor retards his neighbour's race.

Prior, Solomon, b. I.

Hastener. s. One who hastens or hurries.

[They] took upon them to be the saviours and
preservers of the city; but, as it proved, the *hasteners*
and precipitators of the destruction of that
kingdom.—*Hammond*, *Works*, IV. 300.

Pride and indolence, the two great *hasteners* of
modern poems.—*Johnson*, *Rambler*, no. 100.

Hastily. adv. In a hasty manner.

1. In a hurry; speedily; nimbly; quickly.
A voice, that called loud and clear,
Come hither, hither, O come *hastily*! *Spenser*.

If your grace incline that we should live,
You must not, sir, too hastily forgive. *Waller*.
The next to danger, hot pursuit by fate,
Half cloth'd half naked, *hastily* retire. *Dryden*.

2. Rashly; precipitately.

Without considering consequences, we *hastily*
engaged in a war which hath cost us sixty millions.
—*Swift*.

Hastiness. s. Attribute suggested by Hasty.

1. Haste; speed; hurry; precipitation.

A fellow being out of breath, or seeming to be for
haste, with humble *hastiness* told Basilissa.—*Sir P.*
Nichols.

2. Rash eagerness.

The turn of his verse, his breakings, his prop-
riety, his numbers and his gravity, I have as far
imitated as the poverty of our language, and the
hastiness of my performance, would allow.—*Dryden*.
There is most just cause to fear, lest our *hastiness*
to embrace a thing of so perilous consequence,
should cause posterity to feel those evils.—*Hooker*,
Ecclesiastical Polity.

Hastings. s. pl. Fews that come early.

As loud as one that sings his part
To a wheel-barrow, or triumph-cart,
Or your new nick-named old invention
To cry green *hastings* with an engine.

Rutler, Hudibras.

The large white and green *hastings* are not to be
set till the cold is over.—*Mortimer*, *Handicraft*.

Hastlet. s. [see extract.] In Cookery. Dish so called.

[*Hastlet*, *Hastener*.—A hog's *hastlet*, or *hastlet*, the liver,
heart, and lights of a pig. Corrupted from *haste-lets*,
French *hastille*, *hastier*, *hastierne*, the pluck or rather of an animal. The sense is little
roastings, from French *haste*, a spit, also a piece of
roast meat, *hastelle*, *hastelle*, *hastille*, a skewer,
spit, whence English *hastler*, or corruptly *hast-ler*,
a skewer to reverberate the fire on roasting
meat. *Hastlers*, that roast the meat, *hastler*, *hastler*,
(*Promptorium Parisiorum*.) Old French
hastler, the rack on which the spit turns; to *haste*,
to roast. (Halliwell.)

'First to you I will schaw,
The pyrites of cure al by rawe;
Of potage, *hastler* and *hastun* mete.'

(*Liber Cure Cocorum* in Way.)

All from Latin *hasto*, a spear, transferred to the
signification of a spit. It is singular that the Dutch
should have arrived by a totally different track at so
similar a form as *hast*, a roast, *hersteden*, *hasteden*,
to roast, apparently from *heerle*, hearth. (Kilian.)
—*Wedgeood, Dictionary of English Etymology*.]

Hasty. adj.

1. Quick; speedy; passionate; vehement; rash; precipitate.

He that is slow to wrath is of great understand-
ing; but he that is *hasty* of spirit exalteth folly.—*Proverbs*, xiv. 29.

Next thou a man that is *hasty* in his words?
There is more hope of a fool than of him.—*Ibid*,
xxix. 20.

Be not rash with thy mouth, and let not thine
heart be *hasty* to utter any thing before God.—*Ecclesiastes*, v. 2.

2. Early ripe.

Beauty shall be a falling flower, and as the *hasty*
fruit before the summer.—*Isaiah*, xxvii. 4.

As the first element in a compound.

Is this the summer that we two have shar'd,
The sister's vows, the hours that we have spent,
When we have chid the *hasty* footed time
For parting us!

Shakespeare, Midsummer-Night's Dream, IV. 2.

Hasty-pudding. s. Pudding made of milk and flour, boiled quickly together; as also of oatmeal and water boiled together.

Sure *hasty-pudding* is thy chiefest dish.

With bullock's liver, or some stinking fish. *Dorset*.

Hat. s. [A.S. *hat*.] Cover for the head.

She's as big as he is; and there's her thrummed
hat, and her muffler too.—*Shakespeare*, *Merry*
Wives of Windsor, IV. 2.

His hat was like a helmet, or Spanish montero.—*Barrow*.

Hermes o'er his head in air appear'd,
And with soft words his drooping spirits cheer'd;
His hat adorn'd with wings disclos'd the god,
And in his hand he bore the sleep-compelling rod.

Dryden.

Hatch. v. a. Closed as with a hatch.

If in our youth we could pick up some pretty
estate, 'twere not amiss to keep our door *hatched*.—*Shakespeare*, *Pericles*, IV. 3.

Hatch. v. a.

1. Produce young from eggs by the warmth of incubation.

He kindly spreads his spacious wing,
And *hatches* plenty for th' ensuing spring.

Sir J. Denham, Cooper's Hill.

The tepid caves, and fens, and shores,
Their brood as numerous hatch from the eggs, that
soon
Bursting with kindly rupture, forth disclose'd
Their callow young.

Milton, Paradise Lost, vii. 417.

Quicken the egg by incubation.

When they have laid such a number of eggs as
they can conveniently cover and hatch, they give
over, and begin to sit.—*Ray.*
Others hatch their eggs and tend the birth, till it
is able to shift for itself.—*Addison.*

3. Produce by precedent action.

Which thing they very well know, and, I doubt
not, will readily confess, who live to their great both
toil and grief, where the blasphemies of Ariana are
renewed by them, who to hatch their heresy have
chosen those churches as fittest nests, where
Athenian's creed is not heard.—*Hooker, Ecclesi-
astical Polity.*

4. Form by meditation; contrive.

He was a man harmless and faithful, and one who
never hatched any hopes prejudicial to the king,
but always intended his safety and honour.—*Sir J.
Hayward.*

Thy wicked head never at rest, but hammering
And hatching hellish things.

Beaumont and Fletcher, Night Walker.

Hatch, v. a.

1. Chase; engrave.

Who first shall wound, through others' arms, his
blood appearing fresh,
Shall win this sword, silver'd and hatch'd.

Chapman.

Such as Agamemnon and the hand of Greece
Should hold up high in brass; and such again
As venerable Nestor, hatch'd in silver,
Should with a bond of air, strong as the axle tree
On which heaven rides, knit all the Grecian cars
To his experience'd tongue.

Shakespeare, Troilus and Cressida, I. 3.

Doat on my horse well trapp'd, my sword well
hatch'd?—*Beaumont and Fletcher, Bonduca.*
Some grave instructors on my life; they look,
For all the world, like old hatch'd hilts.

Id., Valentin.

A sword bravely gilt and hatch'd with gold.—
Heath, Chronicle of the Civil Wars, p. 411.

2. Cover.

His weapon hatch'd in blood.—*Beaumont and
Fletcher, Humorous Lieutenant.*

His face.

Is hatch'd with impudency threefold thick.

Heywood, Iron Age.

Hatch, v. n. Be in the state of growing
quick.

He observed circumstances in eggs, whilst they
were hatching, which varied.—*Boyle.*

Hatch, s.

1. Brood excluded from the egg.

In the age of Aristotle, it was generally said that
no one had ever seen the hatch of the cuckoo.—
Translation of Buffon's History of Birds.

2. Exclusion from the egg; disclosure; dis- covery.

Something's in his soul,
O'er which his melancholy sits on brood;
And, I do doubt, the hatch and the disclosure
Will be some danger.

Shakespeare, Hamlet, iii. 1.

Hatch, s. Half door; door with an opening
over it.

Something about, a little from the right,
In at the window, or else o'er the hatch.

Shakespeare, King John, I. 1.

In the plural. Doors or openings by which
they descend from one deck or floor of a
ship to another.

To the king's ship, invisible as thou art,
There shalt thou find the mariners asleep
Under the hatches.

Shakespeare, Tempest, v. 1.

The mariners all under hatches stow'd. *Ibid.* I. 2.
No seas, impelled by winds with added power,
Assault the sides, and o'er the hatches tow'r.

Dryden.

A ship was fasten'd to the shore;
The plank was ready laid for safe ascent,
For shelter there the trembling shadow bent,
And skipp'd and skulk'd, and under hatches went.

Id.

Be under hatches. Be in a state of ignominy,
poverty, or depression.

Some, who have been phlegmatick, and therefore
neer, or kept under hatches, and therefore lowly.—
Deas Pierce, Sermon, 29th May, 1661, p. 24.
He assures us how this fatherhood continued its
course, till the captivity in Egypt, and then the
poor fatherhood was under hatches.—*Locke.*

Hatchet, s. See Heckle.

Hatcher, s. One who hatches; contriver.

Let the hoppers and hatches of new opinions be;

1134

amazed.—*Loe, Bliss of Brightest Beauty, p. 32*
1611.

A man ever in haste, a great hatcher and breeder
of business.—*Swift, Tale of a Tub, sect. 9.*

Hatchet, s. [Fr. *hachette.*] Small axe.

His harmful hatchet he bent in his hand,
And to the field he spedeth.
Our countryman presented him with a curious
hatchet; and asked him whether it had a good
edge, tried it upon the dunce.—*Addison.*

Hatchet-face, s. Ugly face; such, I sup-
pose, as might be hewn out of a block by a
hatchet. Such is the sense given by John-
son, and, consequently, that in which he
would himself have used it. What Dryden,
the authority, meant is less certain. As the
etymology will give more senses than one,
and as the question is 'one which ear
scarcely be settled by authority, the mean-
ing is simply that which the person who
uses it attaches to it. The editor's inqui-
ries have led to a view different from John-
son's, i. e. to the notion suggested by *hatchet*
being leanness, bonyness, or prominence
of the face, and its sense being thin-visaged
or hatchet-like rather than hatchet-hewn.

An ape his own dear image will embrace;
An ugly brow adorns a hatchet-face.

Dryden.

Hatching, part. adj. Shading (the shading
consisting of crossed lines).

Those tender airs, and those hatching strokes of
the pencil, which make a kind of minced meat in
painting, are never able to deceive the sight.—*Dry-
den.*

Hatching, s. Etching.

[The] figure is afterwards with needles drawn
deeper quite through the ground, and all the sha-
dow hatching put in.—*Harri.*

Hatchment, s. [achivement.] Armorial
escutcheon, exhibited on the hearse at fune-
rals; sometimes hung up in churches.

His means of death, his obscure funeral,
No trophy, sword, nor hatchment o'er his bones,
No noble rites nor formal ostentation,
Cry to be heard.

Shakespeare, Hamlet, iv. 5.

I would have master Jeyd-untille, her grace's
herald, to pluck down his hatchments, reverse his
coat armour, and nullify him for no gentleman.—
H. Jonson, Staple of News.

Receive these pledges,
These hatchments of our grief, and grace us so much,
To place 'em on this hearse.

Beaumont and Fletcher, Bonduca.

Hatchway, s. Way over or through the
hatches.

The men quickly following, the women on the
gangways, twenty-five in number, were after a de-
perate struggle, overpowered or driven down below;
and the second party of boarders having now come
forward amidst loud cheers, the hatchways were
closed down, and a sharp fire opened upon the
marines in the tops, who kept up a destructive fire
of musketry. *Sir A. Alison, History of Europe
during the French Revolution, ch. xvi. § 40.*

As two words (for the sake of the metre).

They fought in desolation, disorder, and dismay,
And in eleven minutes they won the main
hatch way.

Naval Song: 1813.

Hate, v. act. [A.S. *hatian.*] Detest; abhor;
abominate; regard with the passion oppo-
site to love.

Those old inhabitants of thy holy land, whom
thou hatest for doing most odious works.—*Widow
of Solomon, xii. 4.*

Hate, s. Hatred.

Speak then to me, who neither beg nor fear
Your favours nor your hate.

Shakespeare, Macbeth, I. 3.

Hate to Menenius arm'd five hundred more.

Dryden, Translation of the Aeneid.

Hateful, adj.

1. Causing hate or hatred.

My name's Macbeth.—
The devil himself could not pronounce a title
More hateful to mine ear.

Shakespeare, Macbeth, v. 7.

But Unhriel, hateful groom! forbears not so;
He breaks the vial whence the sorrows flow.

Lupe, Raps of the Lock, canto iv.

2. Feeling abhorrence; abhorrent; detesting; malignant; malevolent.

Palamon compell'd
No more to try the fortune of the field;
And, worse than death, to view with hateful eyes
His rival's conquest.

Dryden, Palamon and Arcite, iii. 664.

Hatefully, adv. In a hateful manner.

1. Odiously; abominably.

The ceremony was hatefully tedious.—*Drummond,
Travels, p. 73.*

2. Malignantly; maliciously.

All their hearts stood hatefully appall'd
Long since.
They shall deal with thee hatefully, take away all
thy labour, and leave thee naked and bare.—*Ezekiel,
xxiii. 29.*

Hater, s. One who hates; abhorrer; de-
tester.

I of her understood of that most noble constancy,
which whosoever loves not shews himself to be a
hater of virtue, and unworthy to live in the society
of mankind.—*Sir P. Sidney.*

They never wanted so much knowledge as to in-
form and convince them of the unlawfulness of a
man's being a murderer, an hater of God, and a
covenant-breaker.—*South, Sermons.*

Hatred, s. Hate; ill-will; malignity; male-
volence; dislike; abhorrence; detestation;
abomination; passion contrary to love.

I wish I had a cause to seek him there,
To oppose his hatred fully.

Shakespeare, Coriolanus, iii. 1.

Hatred is the passion of detestation, and there is a
kind of aversion and hostility included in its very
essence; but then if there could have been any thing
in the world when there was scarce any thing odious,
it would have acted within the compass of its pro-
per object.—*South, Sermons.*

Hatred is the thought of the pain which any thing
present or absent is apt to produce in us.—*Locke.*

Hatreds are often begotten from slight and almost
innocent occasions, and quarrels propagated in the
world.—*Id.*

Retain no malice nor hatred against any; be
ready to do them all the kindness you are able.—
Archbishop Wake.

She is a Presbyterian of the most rank and viru-
lent kind, and consequently has an inveterate hatred
to the church.—*Swift.*

Hatred has in it the guilt of murder, and just the
guilt of adultery.—*Bishop Sherlock.*

Hatter, v. a. [?] Harass; weary; wear
out with fatigue. *Hate.*

Dryden.

Hatter, s. Maker of hats.

A hatter sells a dozen of hats for five shillings a-
piece.—*Swift.*

Hauberk, s. [N.F. *hauberc;* the French
itself being derived from the German *hals*
= neck + *berc* = defence. Old High Ger-
man, *halsberc;* A.S. *halsberg;* Italian,
usbergo.] Armour for the neck and chest;
breastplate; gorget.

And on the hauberk struck the prince so sure,
That quite disjointed all the linked frame,
And pierced to the skin.

Spenser, Faerie Queene.

Hauberks and helms are hewed with many a
wound;

The mighty maces with such haste descend,
They break the bones, and make the solid armour
bend.

Dryden.

Haught, adj. Haughty. *Archaic.*

Proud Lucifer, which from the heavens on high
Down to the pit of hell below was cast, . . .
More haught of heart was not before his fall,
Than was this proud and pompous cardinal.

Mirror for Magistrates, p. 322.

His courage haught
Desp'd of foreign women to be known,
And far abroad for strange adventures sought.

Spenser, Faerie Queene.

This haught resolve became your majesty.

Martineau, King Edward II.

The proud insulting queen,
With Clifford and the haught Northumberland,
Have wrought the easy melting king like wax.

Shakespeare, Henry VI., Part III. ii. 1.

No lord of thine, thou haught insulting man;
Nor no man's lord.

Id., Richard II. iv. 1.

A vine from Egypt thou hast brought,
Thy free love made it thine,
And drov'st out nations proud and haught
To plant this lovely vine.

Milton, Poems, lxx. 8.

Yet, were a few short summers mine,
My name should more than Kate's shine,
With honours all my own.

I had a sword, and have a breast,
That should have won as haught a crest
As ever waved along the line
Of all those sovereign aires of thine.

Byron, Parisina.

Haughtily, adv. In a haughty manner;
proudly; arrogantly; contemptuously.

Neither shall ye go haughtily.—*Micaiah, ii*
Her heavenly form too haughtily she prisd;
His person hated, and his gifts despisd.—*Dryden.*

Haughtiness, s. Attribute suggested by

Haughty; pride; arrogance; quality of being haughty.

Wearing in his pride to make the land navigable, and the sea passable by foot. Such was the *haughtiness* of his mind.—*Maccabees*, v. 21.

By the head we make known our supplications, our threatenings, our mildness, our *haughtiness*, our love, and our hatred.—*Dryden*.

Haughty, *adj.* [N.F. *haut*, *haut*—high.]

Haught the purer form, the -y, unless it represent the -ain in the French *hautain*, being an English affix.

1. Proud; insolent; arrogant; contemptuous.

His wife, being a woman of a *haughty* and impetuous nature, and of a wit superior to his, quickly resented the disrespect she received from him.—*Lord Clarendon, History of the Grand Rebellion*.

I shall sing of battles, blood, and rage, And *haughty* souls, blind mov'd with mutual hate, In fighting fields pursu'd and found their fate. *Dryden*.

2. Proudly great.

Our vanquish'd wills that pleasing force obey: Her goodness takes our liberty away; And *haughty* Britain yields to arbitrary sway. *Prior*.

3. Bold; adventurous; of high hazard.

Who now shall give me words and sound Equal unto this *haughty* enterprise? Or who shall lend me wings, with which from ground My lovely verse may loftily arise? *Spenser, Faerie Queen*.

4. High; lofty.

Yea, God who rules the *haughty* heaven alight, Inevitable, with foyson of each thing; Abundant store did make my people sing. *Mirror for Magistrates*, p. 208.

Haul, *v. a.* [Fr. *huler*—pull; German, *holen*—fetch, carry.] Pull with violence: (when applied to persons, with awkwardness or rudeness).

Thy Dol, and Helen of thy noble thoughts, Is in base durand and contagious prison. *Haul'd* thither by mechanic dirty hands. *Shakespeare, Henry IV. Part II. v. 5*.

Hauent, *v. a.* [N.F. *hauent*.]

1. Frequent; be much about any place or person.

A man who for his hospitality is so much *hauent*, that no news stir but comes to his ears.—*Sir P. Sidney*.

Now we being brought known unto her, after once we were acquainted, and acquainted we were sooner than ourselves expected, she continually almost *hauent* us.—*Id.*

Celestial Venus *hauent* Idalia's groves; Diana Cynthia, Ceres Hybla loves. *Pope*.

2. Used in an ill sense of one that comes unwelcome.

You wrong me, sir, thus still to *hauent* my house; I told you, sir, my daughter is disposed of. *Shakespeare, Merry Wives of Windsor*, III. 4.

Oh, could I see my country wait, There, leaning near a gentle brook, Sleep, or peruse some ancient book; And there in sweet oblivion drown Those cares that *hauent* the court and town. *Swift*.

3. Used of apparitions or spectres that appear in a particular place.

Foul spirits *hauent* my resting place, And ghastly visions break my sleep by night. *Fairfax*.

Hauent, *v. n.* Be much about; appear frequently.

I've charg'd thee not to *hauent* about my doors: In honest plumes thou hast heard me say, My daughter's not for thee. *Shakespeare, Othello*, I. 1.

Where they most brood and *hauent*, I have observed The air is delicate. *Id., Macbeth*, I. 6.

Hauent, *s.*

1. Place in which one is frequently found.

Know and see his place where his *hauent* is, and who hath seen him there.—*1 Samuel*, xxiii. 22. We set traps, nets, gins, snares, and traps, for beasts and birds in their own *haunts* and walks.—*Sir R. J. R. R. R.*

To me certain, not she replies, To know or care where Cupid flies; What are his *haunts*, or which his way, Where he would dwell, or whither stray. *Prior*.

A scene where, if a god should cast his sight, A god might gaze and wonder with delight I joy touch'd the messenger of heaven, he stay'd Entru'd, and all the blissful *haunt* survey'd. *Pope, Translation of the Odyssey*, v. 22.

2. Habit of being in a certain place.

The *haunt* you have got about the courts will one day or another bring your family to beggary.—*Arbuthnot*.

Hauenter, *s.* One who haunts; frequenter;

one who is often found in any place.

The ancient Grecians were an ingenious people, of whom the vulgar sort, such as were *hauenters* of theatres, took pleasure in the conceits of Aristophanes.—*Sir H. Wotton, On Education*.

O golden, *hauenter* of the woodland green, Queen of the yewer skies. *Dryden*.

Haut-gout, *s.* [Fr. *haut*—high taste or flavour.]

Havage, *s.* Possessions; fortune. *Rare*.

Peter knoweth Miss Hannah's *havage*; knoweth all her points; and proudest her unqualified for a first-rate racer, whatever her powers amongst the ponies.—*Nil Admirari*, p. 23.

Hawe, *v. a.* [A.S. *habban*, *hafan*.] In the other forms of this verb the *v* is ejected.

Hence the second and third persons singular are *hast*, *hath* (*has*), for *haves*, *haveth*, the preterito and past participle *had* (*haved*). Notwithstanding this contraction, the word is short.

1. Possess; obtain; take; have about one; be supplied with; hold; maintain.

Upon the mast they saw a young man, who sat as on horseback, *having* nothing upon him.—*Sir P. Sidney*.

He that gathered much *had* nothing over, and he that gathered little *had* no lack.—*Exodus*, xvi. 18.

Where should I *have* flesh to give unto all this people?—*Numbers*, xi. 13.

Now, O Father, glorify me with thine own self, with the glory which I *had* with thee before the world was.—*John*, xvii. 5.

2. Accept as a husband or wife: (opposed to *refuse*; *accept*, however, is the commoner, or at least, the more polite opposite).

Upon my life then you took the wrong.—What need you tell me that? I think so, when I took a boy for a girl: if I had been married to him, for all he was in woman's apparel, I would not have *had* him.—*Shakespeare, Merry Wives of Windsor*, v. 5.

3. Buy.

If these trifles were rated only by art and artfulness, we should *have* them much cheaper.—*Collier*.

4. Wish; desire.

I *had* rather be a door-keeper in the house of my God, than to dwell in the tents of wickedness.—*Psalm*, lxxiv. 10.

I would have no man discouraged with that kind of life or series of notions, in which the choice of others, or his own necessities, may have engaged him.—*Addison*.

5. Be engaged as in a task or employment.

If we maintain things that are established, we *have* to strive with a number of heavy prejudices, deeply rooted in the hearts of men.—*Hooker, Ecclesiastical Polity*.

The Spaniard's captain never *hath* to meddle with his soldier's pay.—*Spencer, View of the State of Ireland*.

Of the evils which hinder the peace and good ordering of that land, the inconvenience of the laws was the first which you *had* in hand.—*Id.*

Kings *have* to deal with their neighbours, their wives, their children, their prelates or clergy, their nobles, their merchants, and their commons.—*Bacon*.

6. Hold opinion.

Sometimes they will *have* them to be natural heat, whereas some of them are crude and cold; and sometimes they will *have* them to be the quality of the tangible parts, whereas they are things by themselves.—*Bacon*.

With away. Remove.

That done, go and cart it, and *have* it away.—*Tusser*.

With a care: (note the use of the *article*, it has the same meaning as *take*).

I cannot speak; if my heart be not ready to burst! Well, sweet Jack, *have* a care of thyself.—*Shakespeare, Henry IV. Part II. ii. 4*.

Your plan is good; but still I say, beware: Laws are explained by men; so *have* a care. *Pope, Imitations of Horace*, b. II. sat. 1.

With in: (it is nearly synonymous with *hold*).

Of them shall I be *had* in honour.—*2 Samuel*, vi. 22.

Have after, at, or with—Done! Agreed!

Let's follow: 'tis not fit thus to obey him.—*Have after*.—*Shakespeare, Hamlet*, i. 4.

Will you go, Mrs. Page?—*Have* with you.—*Id., Merry Wives of Windsor*, ii. 1.

Captain, will you go?—*Have* with you.—*Id., Othello*, i. 2.

I never was out at a mad frolic, though this is the maddest I ever undertook: *have* with you, lady mine; I take you at your word.—*Dryden, Spanish Friar*.

In its construction as an auxiliary verb, *have*, though it can scarcely be said to retain, at the present time, its original power of indicating possession, is still, fundamentally, the word before us in respect to the construction of the combinations in which it appears. In these the words *have* or *had* are ordinary active, or transitive verbs; the substantive which follows being in the accusative case and governed by it.

With this the participle agrees. Hence *have* or *has* denotes *past* time, though it is itself in the present tense. A little consideration will show how this may be. We cannot say that a man has a thing upon which any act has been performed without implying that the time of that act has

gone by, i.e. *I have a letter written, I have a letter as a written thing*, runs easily into *I have written a letter*. A further extension of this view covers even such expressions as *I have been* where the verb is neuter.

Haven. *s.* [A.S. *hafn*.] Port; harbour; station for ships; refuge; resting place.

Love was threatened and promised to him, and his cousin, as both the tempest and haven of their best years.—*Sir P. Sidney*.

After an hour and a half sailing we entered into a good haven, being the port of a fair city.—*Baron*.

The queen beheld, as soon as day appear'd, The navy under sail, the haven clear'd.—*Sir J. Denham, The Passion of Dido*.

We may be shipwreck'd by her breath: Love, favour'd once with that sweet gale, Doubles his blasts, and fills his sail, Till he arrive, where else must prove The haven, or the rock above. *Waller*.

And I will stand the hazard of the die.

Shakespeare, Richard III. v. 4.

Where the mind does not perceive connection,
there men's opinions are not the product of judgement,
but the effects of chance and hazard, of a
mind floating at all adventures without choice and
without direction.—*Locke.*

2. Danger; chance of danger.

We are bound to yield unto our Creator, the
Father of all mercy, eternal thanks, for that he hath
delivered his law unto the world; a law wherein so
many things are laid open, as a light which other-
wise would have been buried in darkness, not with-
out the hazard, or rather not with the hazard,
but with the certain loss of thousands of souls, most
unquestionably now saved.—*Hooker, Ecclesiastical
Polity.*

The hazard I have run to see you here, should in-
form you that I have not at a common rate.—*Dryden.*
Men are led out from one stage of life to another
in a condition of the utmost hazard, and yet with-
out the least apprehension of their danger.—*Rogers.*

Kate, like the hazel twig,
Is straight and slender; and as brown in hue
As hazel nuts, and sweeter than the kernels.

Shakespeare, Taming of the Shrew, ii. 1.

Her chariot is an empty hazel nut.

Id., Romeo and Juliet, I. 4.

There are some from the size of a hazel nut to
that of a man's fist.—*Woodward.*

The nuts grow in clusters, and are closely joined
together at the bottom, each being covered with
an outward husk or cup, which opens at the top,
and when the fruit is ripe it falls out. The species
are hazel nut, cobnut, and filbert. The red and
white filberts are mostly esteemed for their fruit.—*Müller.*

Hazel. adj. Having the colour of hazel.

not far, and what we do see is in a bad light.—*T. Burnet, Theory of the Earth.*

He. The personal pronoun for the third per-
son of the masculine gender and the sin-
gular number; i.e. pronoun denoting a
single male. The original inflexion was
complete; *heo* being the nominative femi-
nine, and *hi, heora, heom*, the plural; now
superseded by *she, they, their*, and *th*
all of which, though now treated as femi-
nine and plural forms, are wholly differ-
ent words; i.e. they stand in, no etymolog-
ical or inflexional relation to *He*.

Again, the original neuter was *hit*; the
-t being the -t in *that*, and *what*, a true
neuter inflexion, though limited to the
nominative case. The genitive or posses-
sive neuter was *his*, i.e. the same as the
masculine. Its (see *It*) is a new form.

Who can suppress the forest, bid the tree
Unhiss his earth-bound root?

Shakespeare, Macbeth, iv. 1.

Not the dead-did spout,
Shall dizzy with more clamour Neptune's ear
In his descent.

Id., Twelfth and Cressida, v. 2.

There's not the smallest orb, which thou beholdest,
But in his motion like an angel shines,
Still quiring to the young-eyed cherubins.

Id., Merchant of Venice, v. 1.

This rule is not so general, but that it admitteth
his exceptions.—*Cicero, Speech of Cato.*
Quintus loath some of his poisonous quality, if it
be vapoured out, mingled with spirit of wine.
—*Bacon.*

His and her, even when treated as such,
are never *adjectives*. They agree with the
Latin *ejus*, rather than the Latin *eius*.
This is shown by expressions like *her
father, his mother*, wherein *her* and *his*
agree in gender, not with *mother* and
father, but with the person whose mother
or father is spoken of.

Her is sometimes, though much more
rarely, used in a singular combination.

1. Male: (as, a *he* bear, a *he* goat).

The *he's* in birds have the fairest feathers.—*Bacon.*

2. Man.

I stand to answer thee, or any *he* the promise of
thy sort.

Shakespeare, Henry VI. Part III, ii. 2.

I should not have been so rude to have taken it
from you, if you had called *your*; but I'd have you
know I'm a better man to suffer the best *he* in
the kingdom to drink before me in my own house,
when I call *your*.—*Fletcher, Advice to a Friend of Joseph
Andreas.*

3. Individual.

Such mortal drues I have; but Mutus's law
Is death to any *he* that utters them.

Shakespeare, Romeo and Juliet, v. 1.

4. Mistaken for 's, the sign of the Possessive case.

Where is this mankind now? who lives to me
Fit to be made Mehusel's *his* pen?

Donne.

By thy faint consent, by thy father's ears,
By young Telemachus *his* blossoming years.

Pope, Translation of the Odyssey.

My paper is the Cybessa *his* low, in which every
man of wit or learning may try his strength.—*Ad-
dison, Guardian, no. 38.*

The same single letter (*s*) on many occasions does
the office of a whole word, and represents the *his*
and *her* of our forefathers.—*Id., Spectator, no. 133.*

It is sometimes used as a sign of the genitive case:
as 'the man *his* ground,' for 'the man's ground.' It
is now rarely thus used, as its use proceeded prob-
ably from a false opinion that the *s* formative of
the genitive was his contracted. —*Dr. Johnson.*

The latter instance might have shewn him, how
groundless this notion is; for it is not easy to con-
ceive, how the letter *s* added to a feminine noun
should represent the word *her*; any more than it
should the word *their* added to a plural noun; as,
'the children's bread.' But the direct derivation of

this case from the Saxon genitive case is sufficient of
itself to decide this matter.—*Lowth, Introduction to
English Grammar.*

Since the remarks on this use of *his*
by Addison, Johnson, and Lowth, much
has been written on the subject; the fact
of the 's in *his* being not only the *s* in
father's, mother's, and the substantives in
general, but also the *s* of *patris, matris*,
&c., in other words of the Latin, Greek,
Slavonic, and Sanskrit genitive case, being
conclusive in favour of the view taken by
Lowth. Still, the other doctrine has found,
and still finds, favourers; not, perhaps, as
a general rule, but as favouring certain in-
stances; indeed it is difficult to deny that
such an expression as the *father—his son*,
is either as an ellipsis, or by some other
figure of speech, justifiable. The evidence,
however, of the *h* and *i* having been lost,
and the contraction into a simple 's having
taken place, is wanting; indeed the actual
process seems to have been the very re-
verse. The forms in *his* are all later than
the forms in 's.

When the nominative case ends in -s,
the tendency to confusion is increased.
Telemachus's son differs from *Telemachus
his son* by only a single sound.

Her similarly known.

First making known his lawful claim
In Argenville *her* right,
He warred in Derie, and he won
Beruella, too, in fight.

Warner, Albion's England.

(For further remarks see *Hence*, *Here*, *It*,
She, and *They*.)

Head. s. [A.S. *heafod*.]

1. Part of the animal that contains the brain or the organ of sensation or thought.

The dewy paths of meadows we will tread,
For crowns and chaplets to adorn thy head.

Dryden.

I could still have offers, that some, who hold their
heads higher, would be glad to accept.—*Swift.*

2. Person.

What he gets more of her than sharp words, let it
lie on my head.—*Shakespeare, Merry Wives of Win-
dзор, ii. 1.*

Who of all men to succeed, had feeling
The evil on him brought by me, will curse
My head! I'll fare our successor impure.

Milton, Paradise Lost, x. 733.

3. Individual.

When Innocent desired the marquess of Carpio to
furnish thirty thousand *head* of swine, he could not
spare them; but thirty thousand lawyers he had at
his service.—*Addison.*

The tax upon pasturage was raised according to a
certain rate per *head* upon cattle.—*Arbuthnot.*

If there be six millions of people, then there is
about four acres for every *head*.—*Grant.*

4. Chief; principal person; one to whom the rest are subordinate; leader, commander.

For their commands, there is little danger from
them, except it be where they have great and potent
heads.—*Bacon.*

Your head I him appoint:
And by myself have sworn, to him shall bow
All knees in heaven, and shall confess him Lord.

Milton, Paradise Lost, v. 602.

The heads of the chief sects of philosophy, as
Timæus, Anaxagoras, and Pythagoras, did consent to
this tradition.—*Archbishop Tillotson.*

5. Place of honour; first place.

Notwithstanding all the justices had taken their
places upon the bench, they made room for the old
knight at the head of them.—*Addison.*

6. Place of command.

An army of fourscore thousand troops, with the
duke of Marlborough at the head of them, could do
nothing.—*Addison.*

7. Top of anything; knoll.

A man fetcheth a stroke with the axe to cut down
the tree, and the head slippeth from the helve.—
Deuteronomy, xix. 5.

His spear's head weighed six hundred shekels of
iron.—*1 Samuel, xvii. 7.*

As high

As his proud head is rais'd towards the sky,
So low low'rd his hell his roots descend.

Dr. Dehaan.

Trees, which have large and spreading heads,
would lie with their branches up in the water.—
Woodward.

HEAD

HEAD **HEADLINE** } If the buds are made our food, they are called heads or tops; so heads of asparagus and artichokes. — *Watts*.
Head is an equivocal term; for it signifies the head of a nail, or of a pin, as well as of an animal. — *Id.*

With this meaning applied to roots.

How turnips hide their swelling heads below,
And how the closing coleworts upwards grow. — *Gay, Pastorals*.

8. Fore part of anything, as of a ship.
By galleys with brassen heads who might transport
over Indus at once three hundred thousand soldiers. — *Sir W. Raleigh*.
Their heads are turn'd to sea, their sterns to shore. — *Dryden*.

9. That which rises on the top.
Let it stand in a tub four or five days before it be
put into the cask, stirring it twice a day, and beat-
ing down the head or yeast into it. — *Mortimer*.

10. Upper part of a bed.
And Israel bowed himself upon the bed's head. — *Genesis, xlvii. 31*.

11. Headdress.
Ladies think they gain a point when they have
tamed their husbands to buy them a faced head, or
a fine pottcoat. — *Swift*.

12. Principal topic of discourse.
These heads are of a mixed order, and we propose
only such as belong to the natural world. — *T. Burnet, Theory of the Earth*.
'Tis our great interest, and duty, to satisfy our-
selves on this head, upon which our whole conduct
depends. — *Bishop Atterbury*.

13. Source of a stream; headwater.
It is the glory of God to give his very nature
delighteth in it: his merces in the current, through
which they would pass, may be dried up, but at the
head they never fail. — *Hooker, Ecclesiastical Polity*.
The current by Guza is but a small stream, rising
between it and the Red sea, whose head from Guza
is little more than twenty English miles. — *Sir W. Raleigh, History of the World*.
Some did the song, and some the choir maintain,
Beneath a laurel shade, where nightly Po
Mounts up to woods above, and hides his head below. — *Dryden*.

14. Top of a pustule, pimple, or boil, in which
matter, a sign of maturation or ripening,
appears; hence, (with come or grow):
a. Crisis; pitch.
The indisposition which has long hung upon me,
is at last grown to such a head, that it must quickly
make an end of me, or of itself. — *Addison*.

b. Body; confluent.
People under command chuse to consult, and after
to march in order; and rebels, contrariwise, run
upon an head together in confusion. — *Macaulay*.
A mighty and a fearful head they are,
As ever offer'd foul play in a state. — *Shakespeare, Henry IV. Part I. iii. 2*.
For in the marches here we heard you were,
Making another head to fight again. — *Id., Henry VI. Part III. ii. 1*.
Let all this wicked crew
Depart, divide themselves from good men, gather
their forces to one head. — *B. Jonson, Catiline's Conspiracy, iv. 3*.

Head and ears. Whole person. Over head
and ears is applied to a person greatly in
debt, in love, &c.

You're over head and ears, ere you be aware.
— *Beaumont and Fletcher, Wit at several Weapons*.

Head and shoulders. By force; violently.
People that hit upon a thought that tickles them,
will be still bringing it in by head and shoulders,
over and over, in several companies. — *Sir R. L'Estrange*.
They bring in every figure of speech, head and
shoulders by main force, in spite of nature and their
subject. — *Fellon*.

With beat. Trouble one's brains.
The lazy and inconsiderate took up their notions
by chance, without much beating their heads about
them. — *Locke*.
If a man shews that he has no religion, why should
we think that he beats his head and troubles himself
to examine the grounds of this or that doctrine? — *Id.*

With get. Power; influence; force; strength;
dominion.
Within her breast though calm, her breast though
pure,
Motherly cares and fears got head, and rule'd
Some troubled thoughts. — *Milton, Paradise Regained, li. 33*.

With give. Give a horse a free rein.
He gave his able horse the head,
& bounding forward, struck his agile heels
1138

HEAD

Against the panting sides of his poor jade
Up to the rowell-head.

Shakespeare, Henry IV. Part II. l. 1.
God will not admit of the passionate man's spo-
logy, that he has so long given his unruly passions
their head, that he cannot now govern nor controul
them. — *South, Sermons*.

Lay heads together. Combine in a plan.
The wench laid their heads together. — *Sir R. L'Estrange*.

Make head. Make a stand; resist.
Then made the head against his enemies,
And Hymmer flew. — *Spenser, Faerie Queene*.
Three times a bath Henry Bolingbroke made head
Against my power.

Shakespeare, Henry IV. Part I. iii. 1.
Two valiant gentlemen making head against them,
surrounded by half a dozen more, made forty run away. — *Sir W. Raleigh*.

Sin having depraved his judgement, and got pos-
session of his will, there is no other principle left
him naturally, by which he can make head against
it. — *South, Sermons*.

On one's own head. Spontaneously; without
orders; on one's own responsibility.
The bordering wars in this kingdom were made
altogether by volunteers, upon their own head;
without any pay or commission from the state. — *Sir J. Daines*.

Often used *adjectivally*; often, also, used as
the first element in a compound.

Head. v. a.
1. Lead; influence; direct; govern.
Alas, who would our friend, in either bed,
Or, what we fear, our enemies does head. — *Dryden*.
Nor is what has been said of princes less true of
all other governors, from him that heads an army
to him that is master of a family, or of one single
servant. — *South, Sermons*.
This lord had headed his appointed lands,
In firm allegiance to his king's commands. — *Prior*.

2. Behind; kill by taking away the head.
If you head and hang all that offend that way but
for ten years together, you'll be glad to give out a
commission for more heads. — *Shakespeare, Measure for Measure, ii. 1*.

3. Fit with a head, or principal part.
Headed with flints and feathers loosely dy'd,
Arrows the Indians in their quivers hide. — *Spenser, Faerie Queene*.
Of cornel-wood a spear upright,
Headed with piercing steel, and polish'd bright. — *Dryden*.

4. Enter as a main division of a book, or
speech.
Now let us look to pilgrimages; to the preference
for the particular image of a saint at some one place,
over other images of the same saint elsewhere; to
the public advertisement of accounts of purgato-
rial remission for specified external acts; to the
very prayers which we find in the churches of the
continent, headed with the promise that such and
such religious advantages shall be given to all who
devoutly recite them. — *Blackstone, The State in its
Relations with the Church, ch. vii. § 30*.

5. Lop trees.
You must disbranch them, leaving only the main
entire: it may be necessary to head them too. — *Mortimer*.

6. Get ahead of.
The horses swerved; the marquess kept his seat;
Lucretia, alarmed, sprang up, the carriage was
dashed against the trunk of a tree, and she was
thrown out of it, at the very instant that one of the
outriders had succeeded in heading the equi-
page and checking the horses. — *Disraeli, The Younger, Coningsby, li. vi. ch. v*.

Headach. s. Pain in the head: the medical
term being Cephalalgia, which translates
it (κεφαλή = head, ἄλγος = pain).

From the cruel headach,
Riches do not preserve. — *Sir P. Sidney*.
Nothing more exposes to headachs, colds, catarrhus,
and coughs, than keeping the head warm. — *Locke*.
In the headach he orders the opening of the vein
of the forehead. — *Arbuthnot*.

At some dear idle time,
Not plagu'd with headachs, or the want of rhyme.
— *Pope, Epistles to Miss Blount, ep. ii*.

Headband. s. Fillet for the head; topknot.
The Lord will take away . . . the bonnets, and the
ornaments of the legs, and the headbands. — *Isaiah, iii. 20*.

Headborough. s. Constable; subordinate
constable.
Here lies John Dod, a servant of God, to whom he
is gone,
Father or mother, sister or brother, he never knew
none;
A headborough and a constable, a man of fame,
The first of his house, and last of his name.
— *Bp. of Exeter from Camden*.

HEAD

This none are able to break thorough,
Until they're freed by head of burrough.

Butler, Hudibras.
Headress. s. [the d double in sound as
well as in spelling.]

1. Covering of a head.
There is not so variable a thing in nature as
lady's headress: I have known it rise and fall above
thirty degrees. — *Addison, Spectator, no. 98*.
If'er with airy horns I planted heads,
Or discomposed the headress of a prude. — *Pope*.

2. Anything resembling a headress, and
prominent on the head.
Among birds the males very often appear in a most
beautiful headress, whether it be a crest, a comb, a
tuft of feathers, or a natural little plume, erected
like a kind of pinnacle on the very top of the head.
— *Addison*.

Headed. *adj.* Having a head or top; come
to a head.
Embossed sores, and headed evils.
— *Shakespeare, As you like it, ii. 7*.

Header. s.
1. One who, or that which, heads; whether by
putting a head on anything, as in nail-
making or pinmaking, or by acting as a
head, captain, director, or leader, in which
case it is a near equivalent to *chief*, from
Fr. *chef*, Lat. *caput* = head.

2. First brick in the angle.
If the header of one side of the wall is toothed as
much as the stretcher on the outside, it would be a
stronger toothing, and the joints of the headers of
one side would be in the middle of the stretchers of
the course they lie upon at the other side. — *Mozon*.

3. Plunge into water, made headforemost, by
a bather or swimmer. *Colloquial*.

Headgargle. s. [P] Disease in cattle so called.
For the headgargle, give powder of fenugreek. — *Mortimer*.

Headgear. s. Dress of a woman's head.
Those glittering attires, counterfit colours, head-
gears, curled hairs, &c. wherewith our country-
women counterfeit a beauty. — *Burton, Anatomy of
Melancholy, p. 478*.

Headily. *adv.* In a heady manner; hastily;
rashly; so as not to be governed.
What strange fury possessed the minds of ig-
norant, unstable men, that they should thus headily
desire and sue to shake off so sacred and well-
grounded an institution? — *Remonstrance to Parlia-
ment, p. 22; 1640*.
Had they not been headily carried on by passion
and prejudice, they would never have passed this
rash sentence. — *Archbishop Tillotson, xii. 155*. (Ord
M.S.)

Headiness. s. Attribute suggested by
Heady; hurry; rashness; stubbornness;
precipitation; obstinacy.

If any will rashly blame such his choice of old
and unwonted words, him may I more justly blame,
and condemn, either of wilful headiness in judging,
or of headless hardness in condemning. — *E. K., On
Spenser, Shepherd's Calendar*.

Heading. s. Notice, title, or mark of any
kind used in writing or composition to in-
dicate the nature of matter which follows:
(as, the heading of a part, chapter, para-
graph, or clause).

Headkercher. s. Kerchief for the head:
(as Kerchief itself is from *couvre* = cover
+ *chief* = head, and means head-covering,
the compound is tautological).

The animal doth purify and correct the ayre, and
they doo perfume therewith their headkerchers when
that they doo go to sleep. — *Frampton, Joyfull News, p. 3*. (Ord M.S.)

Headland. s.
1. Promontory; cape.
An herack play ought to be an imitation of an
herack poem, and consequently love and honour
ought to be the subject of it; both these sir William
Davenant began to shadow; but it was so as dis-
covers draw their maps, with headlands and pro-
montories. — *Dryden*.

2. Ground at the end of a land as formed by
furrows.
Now down with the grass upon headlands about,
That growth in shadow no rank and so stout.
— *Tasso, Five Hundred Points of good
Husbandry*.

Headless. *adj.*
1. Wanting a head.
a. Of the body.

HEAD

His shining helmet he 'gan soon unlace,
And left his headless body bleeding at the place.
Spenser, Faerie Queen.

b. Chief.

They reeded not until they had made the empire
stand headless about seventeen years. — *Sir W. Raleigh.*

All confidence was now at an end. It was notorious that Pope John meditated escape; and should he escape would boldly appeal to Christendom against the decrees of a headless council. The council was determined that he should not leave the city. — *Milman, History of Latin Christianity*, b. xiii. ch. ix.

c. Sense.

[He] calleth it a rumour, which is an headless tale.
— *Baron, Charge in the Star-Chamber.*

It may more justly be numbered among those headless old-wives' tales, which Plutarch so justly derideth. — *Petherick, A thesaurus*, p. 62.

2. Obstinate; inconsiderate; ignorant; wanting intellects; perhaps for heedless.

Him may I more justly blame and condemn, either
of witless headliness in judging, or of heedless hardness
in condemning. — *E. K., On Spenser, Shepherd's Calendar.*

Headlong. adj.

1. Steep; precipitous.

Rise, rise, and leave thy rosy head
From thy coral-paved bed;
And bridle in thy headlong way,
Till thou our summons answer'd have.
Milman, Cymon, 883.

2. Rash; thoughtless; sudden; precipitate.

It suddenly fell from an excess of favour, which,
many examples having taught them, never stooped his
rears till it came to a headlong overthrow. — *Sir P. Sidney.*

Headlong. adv. [see Groveling.]

1. With the head foremost.

I'll look no more,
Lest my brain turn, and the delirious sight
Tumble down headlong. — *Shakespeare, King Lear*, iv. 6.
Who, while he steering view'd the stars, and bore
His course from Africa to the Lætan shore,
Fell headlong down.
Dryden, Translation of the Æneid.

Headlong from thence the glowing fury springs,
And o'er the Thibian palace spreads her wings.
Pope, Translation of the First Book of the Iliad of Statius.

2. Rashly; without thought; precipitately.

To give Ahab such warning, as might infallibly
have prevented his destruction, was esteemed by him
evil; and to push him on headlong into it, because
he was fond of it, was accounted good. — *South, Sermons.*

Some ask for ev'ry'd pow'r, which public hate
Pursues and hurries headlong to their fate;
Down go the titles.
Dryden, Translation of Juvenal, sat. 3.

3. Hastily; without delay or respite.

Hence will I drag thee headlong by the heels,
Unto a dunghill, which shall be thy grave.
Shakespeare, Henry IV. Part II. iv. 10.
Unhappy offspring of my leering woe!
Dragg'd headlong from thy cradle to thy tomb.
Dryden.

Headmoney. s. Capitation tax.

To be taxed by the pole, to be assessed our head-
money. — *Milton, Of Reformation in England*, l. ii.

Head-mould-shot. s. [accent doubtful.] See extract.

[Headmouldshot] is when the sutures of the skull,
as, ride . . . it . . .
and over one another, which is frequent in infants,
and occasions convulsions and death. — *Quincy.*

Headpiece. s.

1. Armour for the head; helmet; morion.

I pulked off my headpiece, and humbly intreated
her pardon, or knowledge why she was cruel. — *Sir P. Sidney.*
The word is given; with eager speed they leave
The shining headpiece, and the shield embrace.
Dryden.

This champion will not come into the field, before
his great blunderbuss can be got ready, his old rusty
breastplate secured, and his cracked headpiece
mended. — *Swift.*

2. Understanding; force of mind.

'Tis done by some several
Of headpiece extraordinary, lower measures
Perchance are to this business purblind.
Shakespeare, Winter's Tale, l. 1.

Kumens had the best headpiece of all Alexander's
captains. — *Prudent.*

Headshake. s. Shake of the head, generally

suggestive of doubt or denial.
You, at such times seeing me, never shall
With arms encumber'd thus, or this head-shake,
Or by pronouncing of some doubtful phrase, . . .
Or such ambiguous giving out, to note
That you know aught of me.
Shakespeare, Hamlet, l. 5.

HEAD

Headship. s. Dignity; authority; chief place.

Not the plotting for an headship; (for that is now
become a court-business,) but the contriving of a
baronship of twenty nobles a year, is many times
done with as great a portion of sinning, siding, &c.

Hales, Golden Remains, p. 276.
That the followers should be bound to each other
as well as to the chief; that this headship was not
at first hereditary. — *Burke, Abridgement of English History*, li. 7.

The Scottish establishment, it may be remarked
by the way, possibly as claiming by direct gift from
Heaven that Divine authority which we deduce
through the apostolical communion, has commonly
been jealous, in the extreme, of admitting either the
term or the idea of royal headship. — *Gladsstone, The State in its Relations with the Church*, ch. vi. § 48.

Headsmen. s. Executioner.

Rods broke on our associates' bleeding backs,
And headsmen labouring till they blunt their axes.
Dryden.

Headspring. s. Fountain; origin.

That was the headspring of our belief. — *Stapleton, Fortunes of the Faith*, fol. 119, b. 1665.

Headstall. s. Part of the bridle that covers the head.

His horse, with a half-check'd bit, and a headstall
of sheep's leather, which being restrained to keep
him from stumbling, hath been often burst, and
now repaired with knots. — *Shakespeare, Twelfth of the Strife*, iii. 2.

Headstone. s. First or capital stone; grave-stone.

The stone which the builders refused is become
the headstone of the corner. — *Psalms*, cxviii. 22.

Headstrong. adj. Unrestrained; violent;

un governable; resolute to run his own
way: (as a horse whose head cannot be
held in).

An example, for headstrong and inconsiderate
zeal, no less fearful than Achitophel for proud and
irreligious wisdom. — *Hucker, Ecclesiastical Polity*.
I'll try if yet I can reduce to reason
This headstrong youth, and make him spurn at
Calo. — *Addison, Calo*.
You will be both judge and party: I am sorry
thou discoverest so much of thy headstrong humour.
— *Arbutnot.*

Headstrongness. s. Attribute suggested

by Headstrong.
Rashness's headstrongness is here remarkable,
and shews that a beast knows when he is wary, or
humory, better than his rider. — *Gayton, Notes on Don Quixote*, p. 6.

Headtire. s. Attire for the head.

An headtire of fine linen, and a chain about his
neck. — *1 Kings*, iii. 6.

Headway. s. In Navigation. Motion of advancing

at sea: (used figuratively in the extract).

Their Meads . . . have mounted. Crack go the
whips; but twenty Patriot arms have seized each of
the eight ladders: there is rearing, rocking, woe-
fering; and the smallest headway. — *Carlyle, The French Revolution*, pt. ii. b. iv. ch. i.

Headly. adj.

1. Rash; precipitate; hasty; violent; un-

governable; hurried on with passion.
Take pity of your town and of your people,
While yet the cool and temperate wind of grace
Overdaws the filthy and contentious clouds
Of headly murder, spoil, and villany.
Shakespeare, Henry V. iii. 3.

Those only are rewarded who are true to their
party; and all the talent required is to be hot, to be
headly, to be violent on one side or other. — *Sir W. Temple.*

Men, naturally warm and headly, are transported
with the greatest flush of good-nature. — *Addison.*

2. Apt to affect the head.

I was entertained with a sort of wine which was
very headly, but otherwise seemed to be such. — *Boyle.*
Since hearty beef and mutton will not do,
Here's julep-dance, pisan of sauce and show:
Give you strong wine, the liquor is too headly;
You're come to farce, that's asses' milk, already.
Dryden.

Flow, Websd! flow, like thine inquirer, never;
Though state, not ripe; though thin, yet never
clear:
So sweetly mawkish, and so smoothly dull;
Headly, not strong; and flaming, though not full.
Pope, Dunciad, iii. 160.

3. Violent; impetuous.

Never came reformation in a flood
With such a headly current scouring faults;
Nor ever hydra-headed wilfulness
So soon did lose his seat. — *Shakespeare, Henry V.* l. 1.

HEAL

Thou clay'st the rock, from whose green wound
The thirst-expecting fountain breaks:
Thou mak'st the headly streams forsake
Their channels, and become dry ground.
Sandys, Epitaph, lxxiv.

Heal. v. a. [A.S. *helan*.]

1. Cure a person; restore from hurt or sickness.

I will restore health unto thee, and I will heal thee
of thy wounds. — *Jeremiah*, xxx. 17.

Who would not believe that our Saviour healed
the sick, and raised the dead, when it was published
by those who themselves often did the same mira-
cles? — *Addison.*

2. Restore anything from an upsound to a sound state.

He went forth unto the spring of the waters, and
cast the salt in there, and said, Thus saith the Lord,
I have healed these waters; there shall not be from
thence any more death. — *2 Kings*, ii. 21.

After separation of the eschar, I detergal and
healed. — *Wismann.*

3. Reconcile: (as, 'He healed all dissensions').

Heal. v. u. Grow well.

Those wounds heal ill that men do give them-
selves.

Shakespeare, Troilus and Cressida, iii. 3.
Abscesses will have a greater or less tendency
to heal, as they are higher or lower in the body. —
Sharp.

Healer. s. One who heals.

I will not be an healer. — *Isaiah*, lii. 7.

—*Book of Common Prayer.*
- 5. Free from morbidity.**
We can scarcely express the admiration which we feel for a mind so great, and, at the same time, so *healthful* and so well proportioned, so willingly contracting itself to the humblest duties, so easily expanding itself to the highest, so confident in repose, so powerful in action.—*Macaulay, Critical and Historical Essays, Lord Nugent's Memoirs of Hampden.*

Healthfully, adv. In a healthful manner.

- 1. In health.**
If it be so, that neither for fear nor love thou wilt part with thy goods, yet part with thy prayers for thy king; that he may *healthfully*, happily, and victoriously reign.—*Sir M. Sandys, Essays*, p. 123: 1634.

- 2. Wholesomely.**
If merit be disease; if virtue, death;
To be good, not to be; who'll then bequeath
Himself to discipline? who'll not extenuate
Labour a crime? study self-murder keen?
Our noble youth now have pretence to be
Dunces securely, ignorant *healthfully*.
—*Dryden, On the Death of Lord Hastings.*

Healthfulness, s. Attribute suggested by Healthful.

Heam, s. See extract.

- 1. Heams—hemes.** The two crooked pieces of wood which encompass a horse collar and to which the traces are fastened. The stuffing of hay or straw by which these were prevented from galling the shoulders of the horse was called *hamburce*, or *hamborough*, a coarse horse collar, made of reed or straw (Halliwell), from *berce*, or *borough*, shelter, protection against the *hemes*. . . The origin of the word *heme* is seen in the Walloon *hème*, a splint or thin piece of wood, corresponding to the German *schien*, a splint, band to keep things close, (*arm-schien*, *heis-schien*, armour for the arm or leg). The old writing of the Walloon word was *rhine*, and the change from the hissing sound of *sch* to that of the simple aspirate is in accordance with the usual course of the dialect. . . It will be observed that the French *aléole* (the haumes of a draught-horse's collar (Cotgrave), also signifies a splint. . . Flemish *haem*, a horse collar. The word is sometimes used in the singular in that sense in English. 'The deponent remembers to have seen her father carry a horse and *hem* to Mul-

hearse,
Who does not weep that reads the moving verse?
Romano.

A cenotaph is an empty funeral monument or
tomb, erected for the honour of the dead; in imita-
tion of which our *hearses* here in England are set up
in churches, during the continuance of a year, or
the space of certain months.—*Weever, Funeral
Monuments*.

[The origin is the French *herce*, a harrow, an implement
which in that country is made in a triangular form,
not square as with us. Hence the name of *herce* or
herche was given to a triangular framework of iron
used for holding a number of candles at funerals
and church ceremonies. *Herce* on a dedication
pyramid. (Promptorium Parvulorum.) 'In reliquis
vero festivitatibus quibus accessit solet machina illa
ferrea que vulgo *herce* vocatur, pro illa lampadibus
vitis illustratur.' (Statuta Abbatie Cluniensis,
in Durango.) 'Feria quinta, &c. et sabbato *herche*
debet esse ad dextrum cornu magni altaris et ibi
debet esse 20 cerei illuminati ad matutinas.'—*Vole*
quod 24 torches et 5 taper, quilibet taper pondere
to illumum preparatur pro sepultura mea absque
allo alio *herce*.' (Testamentum Johannis de Nevil,
c. v. 1381.) 'Cujus quidem sepultura sen funera
nostri exequia more regio volumus celebrare, ita
quod pro predestitis exequiis ibi *herche* excellentia
convenientes regali—in locis subscrisptis per execu-
tores nostros preparatur.' (Testamentum Ricardi
ii. Rymer, vol. vii. 75.) The quantity of candles
being the great distinction of the funeral, the name
of the frame which bore them came to be used for
the whole funeral obsequies, or for the cenotaph at
whose head the candles were placed, and finally for
the funeral carriage.

'At Poulis his name was done, and dirge
in *herse* royal, gently to royale.'
(Hardyng, Richard II. in Way.)
Herse, a dead body, corpse. (Falegrave.)—*Wedgwood*,
Dictionary of English Etymology, in voce.]

And better'd by excretion bear the grain.
Drayton.

Care must be taken not to plough ground out of
heart, because if 'tis in *heart*, it may be improved by
man again.—*Mortimer*.

15. Utmost degree.

This gay charm,
Like a right gipsy, hath, at last and long,
Begull'd me to the very *heart* of loss.
Shakespeare, Antony and Cleopatra, iv. 10.

16. Life: ('for my *heart*') seems sometimes

HEART

to signify, 'if life was at stake;' and sometimes 'for tenderness'.

I bid the rascal knock upon your gate,
And could not get him for my heart to do it.
Shakespeare, Taming of the Shrew, l. 2.
I gave it to a youth,
A prating boy, that laugh'd it as a fee:
I could not for my heart deny it him.
Id., Merchant of Venice, v. 1.
Profouly skild in the black art,
As Shagwell Merlin for his heart.
Butler, Hudibras.

Find in the heart. Be not wholly averse.
For my breaking the laws of friendship with you,
I could find in my heart to ask your pardon for it,
but that your now handling of me gives me reason
to enmity for my former dealing.—*Sir P. Sidney.*

Heart. v. a. Invest with heartiness in the sense of courage.

For putting life into and hearting this free-will
wordship, which is only acceptable to God when it
proceeds according to his own directory, three
things in the Scripture and our church-books are
especially to be taken notice of.—*Bishop Prideaux.*

Heart-deep. adj. Rooted in the heart.
Dipping and reasoning all our words and sen-
tences in our hearts, before they come into our
mouths, truly affecting and cordially expressing all
that we say; so that the auditors may plainly per-
ceive that every word is heart-deep.—*Herbert, Country Parson, ch. vii.*

Heartache. s. Sorrow; pang; anguish of mind.

No more; and, by a sleep, to say we need
The heart-ache, and the thousand natural shocks
That flesh is heir to.
Shakespeare, Hamlet, iii. 1.

Heartblood. s.

1. Blood of the heart; life.
Our nobler swords will drink the blood of man,
But thy heart-blood, Porsema, thine alone.
Dawson, Poems, 1660.

2. Essence.
The mortal Venus, the heart-blood of beauty.
Shakespeare, Troilus and Cressida, iii. 1.

Heartbreak. s. Overpowering sorrow.
Better a little eluding than a great deal of heart-
break. *Shakespeare, Merry Wives of Windsor, v. 3.*

Heartbreaker. s. One who, or that which,
breaks hearts; applied in the extract to
locks of hair, or love-locks, supposed to be
of extraordinary effectiveness in exciting
love or admiration.

Like Samson's heart-breakers, it grew
In time to make a nation rue. *Butler, Hudibras.*

Heartbreaking. part. pref. Overpowering
with sorrow.

These piteous plaints and sorrowful sad time,
Which late you poured forth, as ye did sit
Beside the silver springs of Helicon,
Making your musick of heart-breaking moans.
Spenser.

Heartbreaking. s. Overpowering sorrow.
What greater heart-breaking and confusion can
there be to one, than to have all his secret faults
laid open, and the sentence of condemnation passed
upon him?—*Hooker.*

Heartbred. adj. Bred in the heart.
His virtue that within had root,
Could not choose but shine without;
And the heart-bred lustre of his worth,
At each corner peeping forth,
Pointed him out in all his ways,
Circled round in his own rays.
Crashaw, Poems, p. 34.

Heartburn. s. Form of indigestion so called.
The medicines already recommended for heart-
burn . . . will . . . be appropriate.—*Copland, Dic-
tionary of Practical Medicine.*

Heartburned. adj. Having the heart in-
flamed.

How tartly that gentleman look'd! I never can
see him but I am heart-burn'd an hour after.—
Shakespeare, Much Ado about Nothing, ii. 1.

Heartburning.

1. Same as Heartburn. *Rare.*
Fine clean chalk is one of the most noble ab-
sorbents, and powerfully corrects and subdues the
acid humours in the stomach: this property ren-
ders it very serviceable in the cardialgia, or heart-
burning.—*Woodward.*

2. Discontent; secret enmity.
In great changes, when right of inheritance is
broke, there will remain much heart-burning and
discontent among the meaner people.—*Swift, Let-
ter to Pope.*

Heartburning. adj. Causing discontent.

HEAR

Well may we raise Jars,
Jealousies, strifes, and heart-burning disagreements.
Middleton, The Witch.

Heart-dear. adj. Sincerely beloved.
The time was, father, that you broke your word,
When you were more tender'd to it than now;
When your own Percy, when my heart-dear Harry,
Threw many a northward look to see his father
Bring up his powers; but he did long in vain.
Shakespeare, Henry IV. Part II. ii. 3.

Heart-ease. s. Quiet; tranquillity.
What infinite heart's-ease must kings neglect,
That private men enjoy.
Shakespeare, Henry V. iv. 1.

Hearted. adj.

Yield up, O love, thy crown, and hearted throne,
To tyrannous hate.
Shakespeare, Othello, iii. 3.

2. Laid up in the heart.
I have told thee often, and I re-tell thee again
and again, I hate the Moor: my cause is hearted;
thine hath no less reason. *Shakespeare, Othello, i. 3.*

Heartedness. s. Attribute suggested by

Hearted; sincerity; warmth; zeal: (gene-
rally as the second element of a compound).

They who pre-tended most publick-heartedness,
and did really wish the king all the greatness he
desired.—*Lord Clarendon, History of the Grand
Rebellion.*

Hearten. v. a.

1. Encourage; animate; stir up.
Fallothius blaming those that were slow, hearten-
ing them that were forward, but especially with his
own example leading them, made an impression
into the squadron.—*Sir P. Sidney.*
This rare man, Tydides, would prepare;
That he might conquer, hearten'd him. *Chapman.*
Thus hearten'd well, and bold up on his prey,
The youth may prove a man another day. *Dryden.*

2. Meliorate or renovate with manure.

The ground one year at rest; forget not then
With richest dung to hearten it again.
Mog, Translation of Virgil.

Heartener. s. One who, or that which, heart-
ens, animates, or stirs up.

A coward's heartener in war,
The stirring drum, keeps lesser noise from far.
W. Browne, Britannia's Pastoral, bk. i. song 1.

Heartfelt. adj. Felt in the conscience.
What nothing earthly gives, or can destroy,
The soul's calm sunshine, and the heart-felt joy,
Is virtue's prize. *Pope.*

Heartgrief. s. Affliction of the heart; deep
sorrow.

There's not, I think, a subject
That sits in heart-grief and uneasiness
Under the sweet shade of your government.
Shakespeare, Henry V. ii. 2.
And in my midst of sorrow and heart-grief
To show them fears.
Milton, Samson Agonistes, 1330.

Hearth. s. [A.S. *heorð*.] Pavement of a
room on which a fire is made; ground
under the chimney.

Crickle, to Windsor chimneys shalt thou leap,
Where thou findest fires unquench'd, and hearths un-
sway'd.
There pinch the nicks as blue as bilberry.
Shakespeare, Merry Wives of Windsor, v. 5.
The vanquish'd fires withdraw from every place;
Or, full with feeding, sink into a deep;
Each household genius slugs again its face.
And from the hearths the little larks creep.
Dryden.

Heartmoney. s. Tax upon hearths.
Upon the revolution, heart-money was declared
to be not only a great oppression to the poorer sort,
but a badge of slavery upon the whole people.
*Sir W. Blackstone, Commentaries on the Laws of
England.*

Heartily. adv. In a hearty manner.

1. From the heart; fully.
I bear no malice for my death;
But those that sought it, I could wish more Chris-
tians;
Be what they will, I heartily forgive them.
Shakespeare, Henry VIII. ii. 1.

If to be and is to be wise,
I do most heartily despise
What our Socrates has said,
Or Tully writ, or Wailey read.
Prior, Alma, canto iii.

2. Sincerely; actively; diligently; vigor-
ously.

Where his judgement led him to oppose men on
a publick account, he would do it vigorously and
heartily; yet the opposition ended there.—*Bishop
Atterbury.*

HEAR

3. Eagerly; with desire.
As for my eating heartily of the food, know that
anxiety has hindered my eating till this moment.—
Adrian.

Heartiness. s. Attribute suggested by
heartily.

1. Sincerity; freedom from hypocrisy.
This entertainment
May a free face put on; derive a liberty
From heartiness, from bounty, fertile bosom,
And well become the agent.
Shakespeare, Winter's Tale, i. 2.

2. Vigour; engerness.
The anger of an enemy represents our faults, or
admonishes us of our duty, with more heartiness
than the kindness of a friend.—*Jeremy Taylor.*

Heartless. adj. Destitute of, wanting, or
deficient in, courage; spiritless.

I jayed off to chase the trembling pricket,
Or hunt the heartless hare till she were tame.
Spenser.
Thousands besides stood mute and heartless there,
Men valiant all; nor was I used to fear. *Carlyle.*
The peasants were accustomed to payments, and
grew heartless as they grew poor.—*Sir W. Temple.*
Heartless they fought, and quitted soon their
ground,
While ours with easy victory were crown'd.
Dryden.

Heartlessness. s. Want of courage or
spirit; dejection of mind.

Who have yielded themselves over to a discou-
raged heartlessness, and a sad dejection of spirit.—
Bishop Hall.

Heartness. s. See extract.

A plant with round small seeds in form of peas,
of a black colour, having the figure of an heart of a
white colour upon each. *Mills.*

Heartrending. adj. Killing with anguish.
Heart-rending news, and dreadful to these few,
Who her resemble, and her steps pursue;
That death should thence have to range among
The fair, the wise, the virtuous, and the young!
Waller.

Heart-sick. adj.

1. Pained in mind.
If we be heart-sick, or afflicted with an uncertain
soul, then we are true desirers of relief and mercy.—
Jeremy Taylor.

2. Mortally ill; hurt in the heart.
Good Remedy, hide thyself—
Not I, unless the breath of heart-sick groans,
Mist-like, infold me from the search of eyes.
Shakespeare, Romeo and Juliet, iii. 3.
All unholies
Of chastity spawn, or racking torture; qualms
Of heart-sick agony. *Milton, Paradise Lost, xl. 482.*

Heartsease. s.

1. Native and cultivated plant so called,
Viola tricolor; pansy.
Heartsease is a sort of violet that blows all sum-
mer, and often in winter; it sows itself.—*Mortimer.*

2. Toy or ornament formerly so called.
He gave me a heartsease of silk for a new year's
gift.—*Queen Katharine Howard, Burnet, History of
the Reformation, iii. Rec. iii. 72.*

Heart-sore. s. That which pains the mind.
Wherever he that goodly knight may find,
His only heart-sore and his only foe.
Spenser, Faerie Queene.

Heart-sore. adj. Violent with pain of heart.
Penitential groans,
With nightly tears and daily heart-sore sighs.
Shakespeare, Two Gentlemen of Verona, i. 1.

Heartstrings. s. Tendons or nerves sup-
posed to brace and sustain the heart.

Of life himself, and heart-strings of an eagle riv'd.
Spenser.
That grants my heart-strings: what should dis-
count him!
Except he thinks I live too long.
Sir J. Denham, The Sophy.
If thou thinkst thou shalt perish, I cannot blame
thee to be sad till thy heart-strings crack.—*Jeremy
Taylor.*

Heart-struck. adj.

1. Driven to the heart; infixed for ever in
the mind.
Who is with him?—
None but the fool who looks on just
His heart-struck injuries.
Shakespeare, King Lear, iii. 1.

2. Shocked with fear or dismay.
He added not, for Adam, at the news
Heart-struck, with chilling gripe of sorrow stood,
That all his senses bound.
Milton, Paradise Lost, xi. 333.

HEAR

Heart-whole. *adj.*

1. With the affections yet unfixed.
Cupid hath clapt him o' the shoulder; but I'll warrant him *heart-whole*.—*Shakespeare, As you like it*, iv. 1.
You have not seen me yet, and therefore I am confident you are *heart-whole*.—*Dryden*.

2. With the vitals yet unimpaired.

Heart-strike. *v. a.* Affect at heart. *Rare; barbarous.*

They seek to *heart-strike* us,
That are spectators, with their misery.
—*B. Jonson, Translation from Horace*.

Heartly. *adj.*

1. Sincere; undissembled; warm; zealous.
Ointment and perfume rejoice the heart: so doth the sweetness of a man's friend by *heartly* counsel, [in the margin, the counsel of the soul].—*Proverbs*, xxvii. 9.
They did not bring that *heartly* inclination to peace, which they hoped they would have done.—*Lord Clarendon, History of the Great Rebellion*.
But the kind words their entertainment grace
With *heartly* welcome and an open face.
In all they did you might discern with ease
A willing mind, and a desire to please.
Dryden.
Every man may pretend to any employment, provided he has been loud and frequent in declaring himself *heartly* for the government. —*Swift*.

2. Vigorous; strong.
Whose laughs are *heartly*, though his jests are coarse,
And loves you best of all things—but his horse.
—*Pope, Epistles to Miss Blount*, ep. ii.

3. Strong; hard; durable.
Oak, and the like true *heartly* timber, being strong in all positions, may be better trusted in cross and transverse work.—*Sir H. Wotton, Elements of Architecture*.

Heartly-hale. *adj.* Good for the heart.
Vain-healing verben, and head-purging dill,
Sound savory, and basil *heartly-hale*.
—*Spenser, Faerie Queen*.

Heat. *s.* [A.S. *heat*, *het*.]

1. Hotness; degree of hotness (in which case it is used in the plural).
The sword which is made fiery doth not only cut by reason of the sharpness which shapeth it hath, but also burns by means of that *heat* which it hath from fire.—*Hooker, Ecclesiastical Polity*.
The *heats* smelt the lack of their iron are a blood-red *heat*, a white flame *heat*, and a sparkling or welding *heat*.—*Mozart*.

2. Force whereby hotness is produced; caloric.
Heat is a very brisk agitation of the insensible parts of the object, which produces in us that sensation from whence we denominate the object hot; so what in our sensation is *heat*, in the object is nothing but motion.—*Locke*.
The word *heat* is used to signify the sensation we have when we are near the fire, as well as the cause of that sensation, which is in the fire itself; and thence we conclude that there is a sort of *heat* in the fire resembling our own sensation: whereas in the fire there is nothing but little particles of matter, of such particular shapes as are fitted to impress such motions of our flesh as excite the sense of *heat*. —*Wallis*.

3. Hot weather.
After they came down into the valley, and found the intolerable *heats* there, and knew no means of lighter apparel, they were forced to go naked.—*Bacon*.
Mark well the flowing almonds in the wood;
The globe will answer to the zodiac's reign;
Great *heats* will follow, and large crops of grain.
—*Dryden, Translation of the Georgics*.
The pope would not comply with the proposal, as fearing the *heats* might advance too far before they had finished their work, and produce a pestilence among the people.—*Addison*.

4. One violent action uninterrupted.
The continual agitations of the spirits must needs be a weakening of any constitution, especially in age; and many causes are required for refreshment betwixt the *heats*.—*Dryden*.

5. Course at a race, between each of which courses there is an intermission.
Fie! I'd seal, you saw, not out the speedier pace;
But the last *heat*, plain dealing, won the race.
—*Dryden*.
I'll strike my fortune with him at a *heat*,
And give him not the leisure to forget.
Id.
They the turn'd lines on golden anvils beat,
Which look as if they struck them at a *heat*.
—*Tate*.
As for 'Manfred,' the two first acts are the best: the third so so; but I was blown with the first and second *heats*.—*Byron, Letter to Murray*.

6. Pimples in the face; flush.
It has raised animosities in their hearts, and *heats*

in their faces, and broke out in their ribbons.—*Addison*.

7. Agitation of sudden or violent passion; vehemence of action.

They seeing what forces were in the city with them, issued against the tyrant while they were in this *heat*, before practices might be used to discover them.—*Sir P. Sidney*.
It might have pleased in the *heat* and hurry of his rage, but must have displeased in cool sedate reflection.—*South, Sermons*.
One playing at hazard, drew a huge heap of gold; but, in the *heat* of play, never observed a sharper, who swept it into his hat.—*Swift*.

Heat. *v. a.*

1. Make hot.

a. So as to burn.
Nebuchadnezzar . . . commanded that they should *heat* the furnace one seven times more than it was wont to be *heated*.—*Isaiah*, lii. 9.

- b. So as to cause fever or feverishness.
Thou art going to lord Timon's feast. —*As you like it*, iii. 1.
Ay, to see meat fill knaves, and wine *heat* fools.
—*Shakespeare, Timon of Athens*, i. 1.

- c. So as to glow with passion or desire.
A noble emulation *heats* your breast,
And your own sense now rolls you of your rest.
—*Dryden*.
When he was well *heated*, the younger champion could not stand before him; and we find the elder contended not for the gift, but for the honour.—*Id.*

2. Cause heat by means other than the application of fire; as by fermenting and similar processes.
Hops lying undried *heats* them, and changes their colour.—*Mortimer, Husbandry*.

Past part, *heated*.
As a herdsman in a summer's day,
Heat with the glorious sun's all-purging ray,
In the calm evening leaving her fair flock.
—*W. Browne, Britannia's Pastorals*.
And fury ever boils more high and strong,
Heat with ambition, than revenge of wrong.
—*B. Jonson, Sejanus*.

- Heater.** *s.* One who, or that which, heats; (specially applied to an iron made hot, and put into a box-iron, to smooth and plait linen, keep water for tea or coffee warm, and the like domestic uses).

Heatable. *adj.* Full of heat; hot.
Their loves that by frequent intercourse were *heatable* and alive between them, by discontinuance only drop into decay, and shrink away to nothing.—*Elitham, Rhetoric*, (Ord 318).
The wild fire-geese keep warm their eggs,
With her broad feet, under her *heatable* legs.
—*Sylvester, Translation of Du Bartas*, p. 430: 1021.

Heath. *s.* [A.S. *heth*; German, *heide*.]

1. Native plant so called, of the genus *Erica*; ling.

In Kent they cut up the *heath* in May, burn it, and spread the ashes. —*Mortimer, Husbandry*.
You owe this strange intelligence? or why
Upon this blasted *heath*, you stop our way
With such prophetic greeting?
—*Shakespeare, Macbeth*, i. 3.
Health and long life have been found rather on the peak of Derlughaire, and the *heaths* of Staffordshire, than fertile soils.—*Sir W. Temple*.

2. Place overgrown with heath.

You owe this strange intelligence? or why
Upon this blasted *heath*, you stop our way
With such prophetic greeting?
—*Shakespeare, Macbeth*, i. 3.
Health and long life have been found rather on the peak of Derlughaire, and the *heaths* of Staffordshire, than fertile soils.—*Sir W. Temple*.

3. Place covered with shrubs of whatever kind.
Some woods of oranges, and *heaths* of rosemary,
Will smell a great way into the sea.—*Bacon*.

Heathcock. *s.* Black grouse.
Cornwall hath quail, rail, partridge, plover, and *heathcock*, and plover.—*Currie, Survey of Cornwall*.

Heathen. *s.* [A.S. *haden*.]

1. Gentiles.
Deliver us from the *heathen*, that we may give thanks to thy holy name.—*1 Chronicles*, xvi. 35.

2. Pagans.
If the opinions of others, whom we think well of, be a ground of argument, men have reason to be *heathen* in Japan, mahometans in Turkey, papists in Spain, and protestants in England.—*Locke*.
In a paper of morality, I consider how I may recommend the particular virtues I treat of, by the precepts or examples of the ancient *heathen*.—*Addison*.

Heathen. *adj.* Gentile; pagan.
It was impossible for a *heathen* author to relate these things, because, if he had believed them, he would no longer have been a *heathen*.—*Addison*.

HEAT

Heathenish. *adj.*

1. Belonging to the Gentiles.
When the apostles of our Lord and Saviour were ordained to alter the laws of *heathenish* religion, chosen they were, St. Paul excepted; the rest unschooled altogether, and unlettered men.—*Hooker, Ecclesiastical Polity*.
Their ceremonies [of the Mordians] and their very games were strictly prohibited. They were to include in no amusements which had been practised by their fathers; neither were they to wear such clothes as they had been accustomed to. Their women were to be unveiled; and as bathing was a *heathenish* custom, all public baths were to be destroyed, and even all baths in private houses.—*Buckle, History of Civilization in England*, vol. ii. ch. i.

2. Wild; savage; rapacious; cruel.
The Moors did tread under their *heathenish* feet whatever little they found yet them standing.
—*Spenser*.
That exorbitant Cromwell made a *heathenish* or rather barbarian edict against the episcopal clergy, that they should neither preach, pray in public, baptize, marry, bury, nor teach school.—*South, Sermons*.

Heathenishly. *adv.* In a heathenish manner.
We shall find that they have don't . . . *heathenishly*, that is to say, profanely. —*World of Wonders*, p. 111: 10 4.

Heathenishness. *s.* Attribute suggested by heathenish; profane state or character, like that of the heathens.
The obscenity, ribaldry, amorousness, *heathenishness*, and profaneness of most play-books.—*Prynne, Histriomastix*, p. 613.

Heathenism. *s.* Gentilism; paganism.
It signifies the acknowledgment of the true God, in opposition to *heathenism*.—*Hammond*.
Adrian asked him what stuff that was to be repented? To which he answered, they were some lines he had gotten by heart out of a play. 'Ay, there is nothing but *heathenism* to be learned from plays,' reply'd he. —*I never heard of any plays fit for a Christian to read, but Cato and the Conscious Lovers; and I must own in the latter there are some things almost solem enough for a sermon.* —*Faulding, The Adventures of Joseph Andrews*.
The towns were more immediately under the direct influence of the government, which at that time had embraced Christianity. From this casual coincidence, the word *Paganism* carried with it, and began more and more steadily to suggest, the idea of a worshipper of the ancient divinity; until at length it suggested that idea so forcibly, that people who did not desire to suggest the idea avoided using the word. But when *Paganism* had come to connote *heathenism*, the very unimportant circumstance, with reference to that fact, of the place of residence, was soon disregarded in the employment of the word. As there was seldom any occasion for making separate assertions respecting *heathens* who lived in the country, there was no need for a separate word to denote them; and *pagan* came not only to mean *heathen*, but to mean that exclusively.—*J. S. Mill, System of Logic*, ii. iv. ch. v. § 2.

Heathenize. *v. a.* Render heathen.
The continuance of these unscriptural terms, without an exact application of them, in sermons and catechisms, *heathenizes* all the common people, nay, and great numbers of not unlearned persons.—*Account of Mr. Firmin's Religion*, p. 63: 1028.

Heather-bell. *s.* In Scotch this is a common word. In the ordinary English, however, it prevails in the abbreviated and entachrestic form *harebell*. This has nothing to do with *hures*, but is simply *ha'er-bell*, with the elision of the *th* or *d* (*heder* and *hedder* being other forms) between the two vowels, a process which in the Danish language is almost universal; *sadel*, *fader*, &c., being sounded *sa'el*, *fa'er*, &c. The derivation of the word being ascertained, the doubt as to its true application is removed. Two well-known plants are called *harebells*. To go no farther than the last edition of Sowerby's 'British Wildflowers,' we find the following entries:

1. Campanula rotundifolia, blue-bell, *hair*-bell.
2. Hyacinthus non-scriptus, wild-hyacinth, *hare*-bell.

It is to the former of these plants that the name most properly applies (the distinction between the *hair* and *hare* being either imaginary or artificial), both in respect to its resemblance to a bell (for it belongs to the

1149

gowns Campanula, or bell-flower), and its growth on heath.

Heathcock. s. Heathcock.

Not *heath-pent*, or the rarer bird
Which Phœnix or Ionia yields.
More pleasing morsels would afford
Than the fat olives of my fields. *Dryden.*

Heathy. adj. Abounding in, or consisting of, heath.

This sort of land they order the same way with the heathy land.—*Morliner, Husbandry.*

Heating. part. adj. Causing heat.

The Maricotte wine was white, and sweet and thin,
and very little heating or intoxicating.—*Sharpe, History of Egypt, ch. xi.*

Heathless. adj. Destitute of heath.

Embraces
Like the cold stubborn bark, hoary and heathless,
Beaumont and Fletcher, *Mad Lover*.
Where Mars is seen his ruddy rays to throw
Thro' *Heathless* skies, that round him seem to glow.
Hughes, Eclogues, st. viii.

Heave. v. a. old preterite *hove*; past part. *hoven*; *heaved* now common. [A.S. *heafan*.]

1. Raise; lift.

No daunted, when the giant saw the knight,
His heavy hand he *heaved* up on high,
And him to dust thought to have better quite.
Spenser, Faerie Queene.

He dy'd in flight;
Fought next my person, as in consort fought,
Save when he *heav'd* his shield in my defence,
And on his naked side receiv'd my wound. *Dryden.*

2. Cause to swell.

The groans of ghosts, that cleave the earth with pain,
And *heave* it up; they pant and stick half way. *Dryden.*

3. Force up from the breast.

Made she no verbal quest?
Yes, once or twice she *heav'd* the name of father
Pantingly forth, as if it prest her heart.
Shakespeare, King Lear, iv. 3.

The wretched animal *heav'd* forth such groans,
That their discharge did stretch his leathern coat
Almost to bursting. *Id., As you like it, ii. 1.*

4. Exalt; elevate.

Poor shadow, painted queen;
One *heav'd* on high, to be hur'd down below.
Shakespeare, Richard III, iv. 3.

5. Puff; elate.

The Scots, *heav'd* up into high hope of victory,
took the English for foolish birds fallen into their net,
forsook their hill, and marched into the plain.
Sir J. Hayward, Life and Reign of King Edward VI.

Heave. v. n.

1. Pant; breathe with pain.

He *heaves* for breath, which, from his lungs supply'd,
And fetch'd from far, distends his lab'ring side. *Dryden.*

2. Labour.

The church of England had struggled and *heav'd*
at a reformation ever since Wickliffe's days.—*Bishop Atterbury.*

3. Rise with pain; swell and fall.

Thou hast undu my curled blood run back,
My heart *heave* up, my hair to rise in bristles. *Dryden.*

Frequent for breath his panting bosom *heaves*.
Prior.

The *heaving* tide
In widen'd circles beats on either side. *Gay, Trivia.*

Heave. s.

1. Lift; exertion or effort upwards.

None could guess whether the next *heave* of the earthquake would settle them on the first foundation, or swallow them.—*Dryden.*

2. Rising of the breast.

There's matter in these sighs; these profound *heaves*
You must translate; 'tis fit we understand them. *Shakespeare, Hamlet, iv. 1.*

3. Struggle to rise.

But after many strains and *heaves*,
He got up to his saddle saves. *Butler, Hudibras.*
Used *adjectively*: (with *offering*). Offering among the Jews.

Ye shall offer up a cake of the first of your dough for an *heave offering*, as ye do the *heave offering* of the threshing floor.—*Numbers, xv. 20.*

Heaven. s. [A.S. *heofon*.]

1. Regions above; expanse of the sky.

The words are taken more properly for the air and ether than for the heavens.—*Sir W. Raleigh, History of the World.*
With shouts *heaven* high, the friendly band
Applaud. *Dryden.*

HEAV

2. Habitation of God, good angels, and pure souls departed.

It is a knell

That summons thee to *heaven* or to hell.
Shakespeare, Macbeth, ii. 1.

3. Supreme power; sovereign of heaven.

Now *Heaven* help him!
Shakespeare, King Lear, iii. 7.

The prophets were taught to know the will of God, and thereby instruct the people, and enabled to prophesy, as a testimony of their being sent by *Heaven*.
Sir W. Temple.

4. Celestial beings.

Take physick, pomp;
Expose thyself to feel what wretches feel.
That thou may'st shun the superfluous to them,
And show the *heavens* more just.
Shakespeare, King Lear, iii. 4.

They can judge as fitly of his worth,
As I can of those mysteries which *heaven*
Will not have earth to know. *Id., Coriolanus, iv. 2.*
Heaven's! what a spring was in his arm, to throw
How high he held his shield, and ran at every blow. *Dryden.*

5. Elevation; sublimity.

O, for a muse of fire, that would ascend
The brightest *heavens* of invention.
Shakespeare, Henry V, i. chorus.

Heaven-born. adj. Descended from the celestial regions; native of heaven.

It was the whiter child,
While the *heaven-born* child
All meanly wrap in the rude manner lies.

Our strength is all gone into *heaviness*,
That makes the weight.
Shakespeare, Antony and Cleopatra, iv. 13.

He would not violate that sweet recess,
And found besides a welcome *heaviness*,
Which seiz'd his eyes. *Dryden.*

What means this *heaviness* that lames upon me?
This slumber that creeps through all my senses?
Addison, Cato, v. 1.

4. Deepness or richness of soil.

As Alexandria exported many commodities, so it received some, which, by reason of the fitness and *heaviness* of the ground, Egypt did not produce; such as metals, wool, and pitch. *Arbuthnot, Tables of ancient Coins, Weights, and Measures.*

Heaving. v. n. n. n.

1. Pant; motion of the heart.

'Tis such as you, . . .
That creep like shadows by him, and do dash
At each his needless *heaviness*; such as ye
Nourish the cause of his unwaking.
Shakespeare, Winter's Tale, ii. 3.

2. Swell.

Of all objects that I have ever seen, there is none which affects my imagination so much as the sea or ocean. I cannot see the *heaviness* of this prodigious bulk of waters, even in a calm, without a very pleasing astonishment. *Addison, Spectator, no. 4.*

Heavy. adj. [A.S. *heafig*.]

1. Weighty; ponderous; tending strongly to the centre; contrary to light.

Mercennius tells us, that a little child, with an of an hundred double potters, moan'd this earth, though it were much *heavier* than it.
Bishop Wilkins, Mathematical Magic.

Hebetomb. s. [Gr. ἑκατόμβη; ἑκατή = hundred.] Sacrifice of an hundred cattle.

In rich men's homes

I bid kill some hecatomb, no hecatombs;

None starve, none suffer ill.

One of three thou art, and a whole hecatomb,

And therefore only one of them shall die.

Dryden.

HECT.

Her triumphant song in war succeed,
And slaughter'd hecatombs around 'em bled.

Addison.

Heckle, also Hæckle and Hæthell. s. Instrument for preparing flax.

By the operation of heckling a threefold object is proposed: 1. The parting of the filaments into their finest fibres; 2. The separation of the short fibres which are unfit for spinning; 3. The equable and parallel arrangement of the long filaments. The instrument of accomplishing these objects is a comb-fashioned tool called the heckle or hæckle; a surface studded more or less thickly with metal points called heckle teeth, over which the flax is drawn in such a way that the above three required operations may be properly accomplished.

Whenever one half of the stroke of flax is heckled it turned round to heckle the other half.—*Encyclopædia of Arts, Manufactures, and Mines.*

Hæckle. v. a. Prepare flax by Heckling.

His teeth are very industrious in their cutting; and his chops, like a hewer's, perpetually hatching.—*Bulter, Remarks, ll. 463.*

(For another example, see under Heckle, s.)

Heckling. verbal abs. Act or process of preparing flax by the Heckle. See Heckle, s.

The asbestos, mentioned by Kircher in his description of China, put into water, moulds like clay, and is a fibrous snail-excrement, like hairs growing upon the stomach and for the heckling, spinning, and weaving it, he refers to his Mundus subterraneus.—*Westwood.*

Hæctic. adj. [Gr. ἡκτικός - having; bearing; constitution.]

1. Habitual: constitutional.

A hectic fever hath got hold

Of the whole substance, not to be controul'd.

Donne.

The word hectic is joined only to that kind of fever which is slow and continued; and, ending in a consumption, is the contrary to those fevers which arise from a plethora, or too great fullness from obstruction.

It is attended with too lux a state of the excretory passages, and generally those of the skin; whereby so much runs off as leaves not resistance enough in the contractile vessels to keep them sufficiently distended, so that they vibrate often, and take the fluids the more, and keep them thin and lod.—*Quercus.*

2. Troubled with a morbid heat.

A progressive to one already in a hectic condition.

—*Harrell, Letters, l. 63.*

The busy brain of a lean and hectic chymist.—*Steele, Sermons, i.*

Perchance she died in youth: it may be, how'd

With weas far heavier than the ponderous tomb

That weigh'd upon her gentle dust, a cloud

Might rather over her beauty, and a bloom

In her dark eye, prophetic of the doom

Heaven gives its favourites: early death; yet shed

A sunset gleam around her, and illum

With hectic light, the opus of the dead,

Of her consuming cheek the autumnal leaf-like red.

Byron, Childe Harold, iv. lxx.

Hæctic. s. Hætic fever.

Like the hectic in my blood he rages,

And thou must cure me. *Shakespeare, Hamlet, iv. 3.*

By wasting hectic of his flesh and heart.

Shakespeare, Job, p. 18.

Hætical. adj. Same as Hæctic, the latter being the commoner word.

That silence which I will not call a symptom of sickness, but a sickness itself. However, I will keep it from being hætical.—*Sir H. Wotton, Kimmins, To Sir E. Bacon.*

Hæctically. adv. In a hectic manner.

He was for some time hæctically feverish. *Johnson, Life of Ashmole.*

Hæctor. s. [Greek and Latin. Proper name of the eldest son of Priam, the hero of the Trojans, to whom the character of an overbearing blusterer was attributed, and by whom some boastful expressions are certainly used in the Iliad, but not to the extent suggested by the present use of the word. It is in later works that the full justification of the term must be sought.]

Blustering, turbulent fellow.

Those marring hæctors, who pretend to honour without religion, think the chance of a lie a blot not to be washed out but by blood.—*South.*

We'll take our cooling cup of nectar,

And drink to this celestial hæctor. *Prior.*

Hæctor. v. a. Threaten or bully after the fashion of a hæctor.

They reckon they must part with honour together with their opinion, if they suffer themselves to be hæctored out of it.—*Dr. H. More, Government of the Tongue.*

The weak low spirit future makes her slave;
But she's a drudge, when hæctored by the brave.

Drayton.

An honest man, when he came home at night,

Found another fellow down-sitting in his study,

Hectoring his servants, and calling for supper.—*Arbuthnot, History of John Bull.*

Hæctor. v. g. Play the bully; bluster.

They have attacked me, some with piteous moans

and entreaties, others grinning and only showing

their teeth, others ranting and hectoring, others

sneering and reviling. *Bishop Stillingfleet.*

Ivan Carlew made his chief director,

That she might order the servants hæctor. *See ft.*

Hæctoring. verbal abs. Acting as an hæctor.

Hence it follows of necessity that vast numbers of

our people are compelled to seek their livelihood

by heaving, ridding, stealing, cheating, jangling,

flattering, sullying, forswearing, fording, lying,

boasting, hectoring, voting, writhing, star-puzzling,

poisoning, whoring, cutting, helling, freethinking,

and the like occupations.—*Swift, Galliver's Travels, pt. iv. ch. vi. (1741 MS.)*

One would think the hæctoring, the storming, the

saluting, and all the different species of the angry,

should be cur'd. *Spectator.*

Several persons, . . . have been admitted into

the parlour and enlarged the opportunity of hæctor-

ing and conversation for their betters, being con-

vinced this evening to vary their enjoyment by taking

their spirits and water where they could themselves

hæctor and confound in company that called for

beer. *Stiles Mariner, ch. v.*

Hæctorism. s. Character of a hæctor.

A desperate principle of Hæctorism, which, if it

take root in men's hearts, will turn the wheel of

mankind into a wheel-rim of savage beasts. *Christian Religionist's Appeal, p. 15. (1841 MS.)*

Hæctory. adj. Blustering; insolent; outrageous.

Those, who seek glory from evil things, (who

glory in their shame,) from presumptions trans-

gression of God's law, hæctory prodigiousness, and

debauchery, from outrageous violence, from over-

reaching craft, are not only vicious, but im-

pendent.—*Barnes, Sermons, vol. iii. serm. 31.*

Hedge. s. [A.S. hegge.] Fence made round grounds with bushes, or trees planted and trimmed so as to spread into a fence.

The curious mixed variety of colours to the eye

every morning, and the hedge's breath is beyond all

performance.—*Pope.*

Common as either an adjective, or as the first element of a compound, denoting mean, vile, of the lowest class; perhaps from a hedge, or hedge-born man, a man without any known place of birth.

There are five in the first show: the pedant, the

braggart, the hedge-priest, the fool, and the boy.—*Shakespeare, Love's Labour's Lost, v. 2.*

The clergy do much better than a little hedge,

contentible, illiterate wear can be presumed to do.

—*Swift.*

A person, who, by his style and literature, seems

to have been the corrector of a hedge-priest in Little

Britain, proceeded gradually to an author.—*Id.*

Hedge. v. a.

1. Enclose with, or as with, a hedge; fence.

Hedge thy possession about with thorns.—*Ecclusiasticus, xlviii. 2.*

such divinity doth hedge a king,

That treason can but peep in, what it will.

Shakespeare, Hamlet, iv. 5.

These alleys must be hedged at both ends, to keep

out the wind.—*Jarvis.*

With in.

Enclosed, hedg'd in with the main,

That water-walled bulwark, still secure

And confident from foreign purposes.

Shakespeare, King John, ll. 2.

It must not be paid and exported in ready mo-

ney: so says our law; but that is a law to hedge in

the cuckoo, and serves for no purpose: for if we

export and goods, for which our merchants have

money due to them, how can it be paid by bills of

exchange?—*Locke.*

With up. Obstruct.

I will hedge up thy way with thorns.—*Hosea, ii. 4.*

2. Confounded with edge. Force into a place already full.

When I was hoary, thou delay'dst me longer:

I pray thee, let me hedge one moment more

into thy promise: for thy life presseth! *Dryden.*

When you are sent on an errand, be sure to hedge

in some business of your own.—*Swift, Advice to*

Servants, Directions to the Indman.

3. Manage to make certain bets safe by setting others against them so as to neutralize the loss.

HEDG. Try to one I lose my match with Lord Chokeblade but not riding myself, and I shall have no opportunity to *hedge* my bet neither.—*Colman the elder, The Jesters Wife*, ii. 1.

Hedge. *v. n.* Shift; hide the head. I myself sometimes, hiding my honour in my necessity, am fain to stooble, to *hedge*, and to lurch.—*Shakespeare, Merry Wives of Windsor*, ii. 2.

Hedge-born. *adj.* Having no known birth; meanly born.

He then, that is not furnished in this sort, But but承租 the sacred name of kildid, And should, if I were worthy to be judge, Be quite degraded, like a *hedge-born* swain, That doth presume to feast of gentle blood.—*Shakespeare, Henry VI. Part I*, iv. 1.

Hedge-creeper. *s.* Native bird so called of the genus *Sylvia*.

No marvel, therefore, if not long after there ensued a collision of opposite parts and much scuffling between the abettors of antichristian servitude and causeless liberty; whom this *hedge-creeper* dare term incontinent Greens, separatists, heretics; his pen is no slender.—*Bishop Hall, House of Married Clergy*, li. lii. (Ord MS.)

Hedge-note. *s.* Word of contempt for low writing.

When they began to be somewhat better bred, they left these *hedge-notes* for another sort of poem, which was also full of pleasant railery.—*Dryden*.

Hedge-pig. *s.* ? Hedgehog.

Thrice the bridled cat hath mew'd, Thrice and once the *hedge-pig* whin'd.—*Shakespeare, Macbeth*, iv. 1.

Hedge-sparrow. *s.* Native bird so called, of the genus *Accentor*; more akin (notwithstanding its name) to the Linnet than the true Sparrow. The name *Hedge-Accentor* has been suggested in modern works of authority; but as the only other member of the genus (*Accentor Alpinus*) is a very rare British bird, it is probable that the popular, though inaccurate name, will hold its ground.

The *hedge-sparrow* fed the cuckoo so long, That it had its head bit off by its young.—*Shakespeare, King Lear*, i. 4.

Hedge-writer. *s.* See Hedge.

There are two things wherewith this author is peculiarly angry: first at the licentious way of the sect of mankind treating the greatest poets in the nation; secondly, that these *hedge-writers* (a phrase I unwillingly lend him, because it cost me some pains to invent) seldom speak a word against any of the late ministry, but they presently fall to commend my lord treasurer and others in great places.—*Swift, Remarks on a Letter to the Seven Lords*, vol. iv. p. 215. (Ord MS.)

Hedgeboot. *s.* Wood used for repairing a hedge.

It has been agreed that if a man cuts trees for household, *hedgeboot*, cartboot, ploughboot, and fireboot, (which shall not be paid for them).—*Ayliffe, Parergon Juris Canonici*. (Ord MS.)

Hedgehog. *s.* 1. Native quadruped so called of the genus *Erinaceus*.

Like *hedge-hogs*, which lie tumbling in my barefoot way, and mount their prickles at my foot-fall.—*Shakespeare, Twelfth*, iii. 2.

Few have belief to swallow, or hope enough to experience, the collyrium of Albertus; that is, to make one see in the dark; yet thus much, according unto his receipt, will the right eye of an *hedgehog*, baled in oil, and preserved in a brazen vessel, effect.—*Sir T. Browne, Vulgar Errors*. The *hedgehog* hath his backside and flanks thick set with strong and sharp prickles; and besides, . . . can contract himself into a globular mass, and so withdraw his whole underpart, head, belly, and legs, within his thickest of prickles.—*Ray, Wisdom of God manifested in the Works of the Creation*.

2. Term of reproach.

Didst thou not kill this king?—I grant ye.—Dost grant me, *hedge-hog*?—*Shakespeare, Richard III*, i. 2.

Hedgehyssop. *s.* Plant so called.

Hedgehyssop is a purging medicine, and a very rough one; externally it is said to be a vulnerary.—*Sir J. Hill, Materia Medica*.

Hedger. *s.* One who makes hedges.

What time the labour'd ox In his loose traces from the furrow came, And the swink'd *hedger* at his supper sat.—*Milton, Comus*, 231.

He would be laughed at, that should go about to make a fine dancer out of a country *hedger* at past fifty.—*Locke*.

Hedgerow. *s.* Series of trees or bushes planted for enclosures.

Sometime walking not unseen By *hedgerow* clus, on hillocks green.—*Milton, L'Allegro*, 57.

The fields in the northern side are divided by *hedgerows* of myrtle. *Bishop Berkeley, Letter to Pope*.

Hedging. *verbal abs.* Manœuvring with a bet.

Now this stake is drawn, my lord may be for *hedging* off, mayhap. Read! I'll go to Jack Speed's, secure Nichol, and be out of town in an hour.—*Colman the elder, The Jesters Wives*, v. 3.

Hedging-bill. *s.* Cutting hook used in making hedges.

Comes master Dan-das with a *hedging-bill* in his hand, clanking and swearing.—*Sir P. Sidney*.

Heed. *v. a.* [A.S. *heahan*.] Mind; regard; take notice of; attend.

With pleasure Argus the musician *heeds*; But wonders much at those new vocal *heeds*.—*Dryden*.

He will no more have clear ideas of all the operations of his mind, than he will have all the particular ideas of any landscape or clock, who will not turn his eyes to it, and with attention *heed* all the parts of it.—*Locke*.

Heed. *v. n.* Mind; consider.

Thoughtless she leaves amid the dusty way Her eyes, to ripen in the usual ray; Nor *heeds*, that some foul beast, who thirsts for blood, Or the rude foot, may crush the future brood.—*Warburton, Paraphrase of Job*, ch. xxxix.

Heed. *s.*

1. Care; attention.

With wanton *heed* and giddy cuning, The melting voice through mazes running.—*Milton, L'Allegro*, 111. The world less all its eyes on Cato's son.—*Addison, Cato*.

2. Caution; fearful attention; suspicious watch.

Either wise hearing or ignorant carriage is caught as men catch diseases, one of another; therefore, let men take *heed* of their company.—*Shakespeare, Henry IV. Part II*, v. 1.

3. Seriousness; studiousness.

He did invest them; and the first he view'd, He did it with a serious mind; a *heed* Was in his countenance.—*Shakespeare, King Henry VIII*, iii. 2.

Heedful. *adj.*

1. Watchful; cautious; suspicious.

Give him *heedful* heed; For I mine eyes will rivet to his face; And, after, we will bask our judgements join, In censure of his seeming.—*Shakespeare, Hamlet*, iii. 2.

2. Attentive; careful; observing; (with of).

Thou *heedful* of advice, severe proceed; My praise the present is, to think the deed.—*Pope*.

Heedfully. *adv.* In a heedful manner; attentively; carefully; cautiously.

That worthy divine did not *heedfully* observe the great difference betwixt these instanced degrees.—*Bishop Hall, Cases of Conscience*, D. i. c. 5.

Heediness. *s.* Attribute suggested by

Heedly: caution; vigilance. *Rare*. And evermore that craven coward knight Waxed his backe with heartless *heediness*, Wraying if he murther him murther might.—*Spenser, Faerie Queene*, vi. 6, 25.

Heedless. *adj.* Negligent; inattentive; careless; thoughtless; regardless; unobserving.

The *heedless* lover does not know Whose eyes they are that wound him so.—*Waller*. *Heedless* of verse, and hopeless of the crown, Scarce half a wit, and more than half a clown.—*Dryden*.

Some ideas, which have more than once offered themselves to the senses, have yet been little taken notice of; the mind being either *heedless*, as in children, or otherwise employed, as in men.—*Locke*.

Heedlessly. *adv.* In a heedless manner; carelessly; negligently; inattentively.

Post not *heedlessly* on unto the non ultra of folly, or precipice of perdition.—*Sir T. Browne, Christian Mystics*, i. 30.

Our women run on so *heedlessly* in the fashion, that though it is the interest of sense to hide as much of their faces as possible, yet because a lead-

ing coat appeared with a backward head-dress, the rest shall follow the mode, without observing that the author of the fashion assumed it because it could become no one but herself.—*Tatler*, no. 212.

Heedlessness. *s.* Attribute suggested by Heedless; carelessness; thoughtlessness; negligence; inattention.

In the little larvae they suffer from knocks and falls, they should not be puffed, but bid do so again; which is a better way to cure their *heedlessness*.—*Locke*.

Heedy. *adj.* Heedful. *Rare*.

In the midst of this supposed safety, the watch-tower is not unfurnished with *heedy* eyes.—*Bishop Hall, John with Jeroram*. (Ord MS.)

Heel. *s.* [A.S. *hel, hele*.]

1. Part of the foot that protuberates behind.

If the hunted bone be distorted backward, it lies over the *heel* bone.—*Wicam, Surgery*.

2. Whole foot of animals.

He calls to mind his strength, and then his speed, His winged *heels*, and then his armed head; With these he treads, with that his fate to meet; But fear prevails, and bids him trust his feet.—*Sir J. Denham, Cooper's Hill*.

Pegasus appeared limping off the side of a rock, with a fountain running from his *heel*.—*Addison*.

3. Anything shaped like a heel.

At the other side is a kind of *heel* or knob, to break clois with.—*Mortimer, Husbandsry*.

Feet, as employed in flight.

Nothing is commoner, in times of danger, than for men to leave their moustros to lears and tears, and show them a fair pair of *heels* for.—*Sir R. L'Estrange*.

3. Back part of a stocking; whence the phrase to be out at *heels*, to be worn out.

A good man's fortune may grow out of *heels*.—*Shakespeare, King Lear*, ii. 2.

Be at the heels of any one. Pursue closely; follow hard.

Sir, when comes your book forth?—

Upon the *heels* of my presentment.—*Shakespeare, Timon of Athens*, i. 1.

But is there no sequel at the *heels* of this?

Mother's admiration?—*Id., Hamlet*, iii. 2.

The Spaniards fled on towards the North to seek their fortunes, being still chased by the English navy at their *heels*, until they were fain to give them over for want of powder.—*Lawson*.

Want! worldly want! that hungry warfare fiend, Is at my *heels*, and chases me in view.—*Deane, Venice Preserved*, i. 1.

Have the heels of. Outrun; (as, 'My horse had the *heels* of him').

Lay by the heels. Fetter; slackle; put in gyver.

If the king blame me for't, I'll lay ye all By th' *heels*, and suddenly; and on your heads Clap round lines for necklet.—*Shakespeare, Henry VIII*, v. 3.

One half of men, his mind, Is, not just, unaccounted.

And cannot be laid by the *heels*.—*Buller, Hudibras*.

I began to smoke that they were a parcel of immenues; and wondered that none of the Middlesex justices took care to lay some of them by the *heels*.—*Addison*.

Heel. *v. n.* Dance.

I cannot sing, Nor *heel* the high laval, nor sweeten talk.—*Shakespeare, Troilus and Cressida*, iv. 1.

Heel-piece. *s.* Piece fixed on the hinder part of the shoe, to supply what is worn away.

Heel-piece. *v. a.* Put a piece of leather on a shoe-heel.

Some blamed Mrs. Bull for new *heel-piecing* her shoes.—*Arbuthnot, History of John Bull*.

Heeltaps. *s.* Wine left in glass that according to the rules of drink should have been emptied. *Slang*.

Heft. *s.* Heaving; effort.

May be in the cup And yet partner no venous; for his knowledge Is not infected; but if one present Th' admodum incredulous to his eye, make known How he hath drunk, he cracks his gorge, his sides With violent *hefts*.—*Shakespeare, Winter's Tale*, ii. 1.

Heft. *s.* Heft.

His oily side devours both blade and *heft*.—*Waller*.

It affords a greater *heft* and purchase.—*Wintham, Speech against Reformers of Parliament*, 1560.

Hegeomonic. *adj.* [Gr. *ηγμων*, *hōmō* = leader; *ηγμωνικός*.] Having the nature or char-

racter of, relating to, a leader; ruling; predominant.

All manakia have a predominant idea, which masters every other, and is hegemonic in most of their propensities.—*Johnstone, On Madness*, p. 2.

Hegemonical. *adj.* Same as Hegemonic. The most princelike and hegemonical part of his soul, which ought to rule over all, is now become servile and a slave unto all.—*Fotherby, Altheimasia*, p. 120: 1022.

Hegemony. *s.* [Gr. *hēgemonia*:] leadership. First applied in the politics of Republican Greece to the contest between the two chief commonwealths of Athens and Sparta for the preponderating or exclusive influence over the minor states. At present the contest between Austria and Prussia for a similar preponderance in Germany best illustrates the word. Leadership of one state over another: (its application being to political bodies rather than to individual persons).

The professed object of Prussia is the hegemony of Northern Germany, rather than the actual sovereignty over the smaller kingdoms and principalities.—*Dr. R. G. Latham, Nationalities of Europe*.

Hegira. *s.* [Arabic.] See *extract*.

Hegira [is] a term in chronology, signifying the epoch, or account of time, used by the Arabians and Turks, who begin their computation from the day that Mahomet was forced to make his escape from the city of Mecca, which happened on Friday, July 10, A.D. 622, under the reign of the emperor Heraclius.—*Harris*.

Heifer. *s.* [A.S. *heafre*.] Cow.

A heifer will put up her nose, and snuff in the air, against rain.—*Baron*.

For her the flocks refuse their verdant food; Nor thirsty heifers seek the gliding flood. *Pope*.

Heigh-ho. *interj.* Expression of slight languor and uneasiness.

Heigh-ho! can't be not four by the day, I'll be hang'd. *Shakespeare, Henry IV. Part I. ii. 1.*
I would I had a wife, saith he; he-ho for an husband, cries she! *Barton, Anatomy of Melancholy*, p. 568.

In the following extract as a voice of exultation.

We'll toss off our ale till we cannot stand,
And heigh-ho for the honour of old England. *Dryden*.

Height. *s.* [The *e* of the ordinary spelling is out of place; the *gh* sufficiently indicating the diphthongal sound of the *i*.]

1. Elevation; altitude; definite space measured upwards.

Around I'll study thee,
As he removes far off, that great heights takes. *Dante*.

There is in Tichman a church that is in length one hundred feet in breadth twenty, and in height near fifty.—*Beacon*.

An amphitheatre appear'd,
Rain'd in degrees, to sixty paces rear'd;
That when a man was plac'd in one degree,
Height was allow'd for him above to see. *Dryden, Palamon and Arcite*, ii. 445.

An amphitheatre's amazing height
Hero fills the eye with terror and delight. *Achiton*.

2. Degree of latitude.

Guinea lieth to the North sea, in the same height as Peru to the South. *Abbot, Description of the World*.

3. Summit; ascent; towering eminence; high place.

From Alpine heights the father first descends;
His daughter's husband in the plain attends. *Dryden, Translation of the Æneid*.

4. Elevation of rank; station of dignity; great degree of excellence.

Ten kings had from the Norman conquer reign'd,
When England to her greatest height attain'd,
Of pow'r, dominion, glory, wealth, and state. *David*.

Every man of learning need not enter into their difficulties, nor climb the heights to which some others have arrived.—*Watts*.

5. Utmost degree; full completion.

That to the height of this great argument,
I may assert Eternal providence. *Milton, Paradise Lost*, l. 23.

Despair is the height of madness.—*Sherlock*.

6. State of excellence; advance towards perfection.

Social duties are carried to greater heights, and enforced with stronger motives, by the principles of our religion.—*Addison*.

Heighten. *v. a.*

1. Make high; raise; elevate.

Being so heighten'd,
He water'd his new plants with dews of flattery,
Reducing many friends, and, to this end,
He bow'd his nature. *Shakespeare, Coriolanus*, v. 5.
Heighten'd in their thoughts beyond
All doubt of victory. *Milton, Paradise Lost*, vi. 620.

2. Improve; meliorate.

By the infusion of three drops out of one of his phials, he converted it into a most beautiful purpleburgundy. Two more of the same kind heightened it into a perfect Languedoc.—*Addison, Tatter*, no. 131.

3. Aggravate.

Foreign states used their endeavours to heighten our confusions, and plunge us into all the evils of a civil war.—*Addison*.

Heightening. *verbal abs.* Making high; exaltation; addition in the way of intensity to any quality.

As in a room, contrived for state, the light of the roof should bear a proportion to the area; so in the heightening of poetry, the strength and vehemence of figures should be suited to the occasion. *Dryden*.

Heinous. *adj.* [Fr. *haineux*; *haine*—hate.] Atrocious; wicked in a high degree.

To abrogate or impute the gospel of Christ, if men or angels should attempt, it were most heinous and accursed sacrilege.—*Hooker, Ecclesiastical Polity*.

This is the man should do the bloody deed:
The image of a wicked heinous fault.
Lives in his eye. *Shakespeare, King John*, iv. 2.

As it is a most heinous, so it is a most dangerous impiety to despise him that can destroy us.—*Archbishop Tillotson*.

Heinously. *adv.* In a heinous manner; atrociously; wickedly.

If the net be so heinously flagitious, and recondemning to so high dishonour of God. *Bishop Hall, Cures of Conscience*, addenda.

Heinousness. *s.* Attribute suggested by Heinous; atrociousness; wickedness.

He who can treat of sin, provoking God, as jests and trifles, must have little sense of the heinousness of them.—*Boydell*.

Heir. *s.* [N.Fr. *heire*; Lat. *heres*.]

1. One who is inheritor of anything after the present possessor.

That I'll give my voice on Richard's side,
To bar my master's heirs in true descent,
God knows, I will not do it. *Shakespeare, Richard III.* iii. 2.

Being heirs together of the grace of life.—*1 Peter*, iii. 7.

Snark is the hero, and his glory lost,
And I his heir in misery alone. *Pope*.
The heirs to titles and large estates have a weakness in their eyes, and a tenderness in their constitutions.—*Swift*.

2. One newly inheriting an estate.

The young extravagant heir had got a new steward, and was resolved to look into his estate.—*Swift*.

Heir. *r. a.* Inherit. Inherit commoner.

His sons in blooming youths were snatch'd by fate;
One only daughter heir'd the royal state. *Dryden, Translation of the Æneid*, vii. 78.

Heirloom. *s.* State or possessions of an heir.

Or if, O shame! in hired harlot's bed
Thy wealthy heirloom thou hast lay'd;
Then, partier, little boots thee to discourse
Of a long line of golden pleasures. *Bishop Hall, Satires*, iv. 3.

Heiress. *s.* Female heir.

An heiress she, while yet alive;
All that was hers to him did give. *Waller*.
Æneas, though he married the heiress of the crown,
yet claimed no title to it during the life of his father-in-law.—*Dryden*.

Heirless. *adj.* Destitute of, deprived of, or wanting, an heir.

I still think of
The wrong I did myself; which was so much,
That heirless it hath made my kingdom. *Shakespeare, Winter's Tale*, v. 1.

Heirloom. *s.* [A.S. *gelfuma*—goods.] Movable, chattel, or article of furniture, bequeathed on condition that it descend by inheritance, and therefore inseparable from the freehold.

These principles of obedience and patience, which our Saviour left in his apostles, and they like heirs to their successors.—*Proceedings against Garnet, &c.*, Y. 3: 1010.

Achilles' sceptre was of wood,
Transmitted to the hero's line:
Thence through a long descent of kings
Came an heirloom, as Homer sings. *Swift*.

Heirship. *s.* State, rank, character, or privileges of an heir.

A bynum appoints an heir or an executor in his will, to hold in hospital within a year, under pain of being deprived of his heirship.—*Lyfite, Parergon Juris Canonici*.

Hele. *r. a.* [A.S. *helan*.] Hide; conceal. Obsolete, provincial.

Else would the waters overflow the lands,
And fire devour the air, and hell them quight. *Spenser, Faerie Queene*, iv. 10, 53.

Helical. *adj.* [Gr. *hēlios*—sun.] Emerging from the lustre of the sun, or falling into

that they ascribed the heat of the season to this star, they would not have computed from its heaving ascent.—*Sir T. Browne*.

The exact light and magnitude of the stars; their helical, meridian, matutine, and vesperine positions.—*Sir T. Browne, Relation of some Years Travels into Africa and the Great Asia*, p. 227.

The southstar, who followed carrying a clock and a palm-branch, the emblem of the year, could not at the four astrological books, one on the moon's phases, one on the fixed stars, and two on their helical risings.—*Sharpe, History of Egypt*.

Helically. *adv.* In a helical manner.

From the rising of this star, not essentially, that is, with the sun, but helically, that is, its emergence from the rays of the sun, the ancients compute their calendar days. *Sir T. Browne*.

It is tempestuous in the summer, when he rises helically; and rainy in the winter, when he rises acrochically.—*Dryden*.

The beginning of the reign of Antoninus Pius was remarkable as being the end of the Sæcæ period of one thousand four hundred and sixty years; the memorable new year's day of the calendar had come round to the place in the natural year from which it first began to move in the reign of Memphres or Thothmes III.; it had come round to the day when the doxstar rose helically. If the years had been counted from the beginning of this great year, there could have been no doubt when it came to an end, as from the want of a leap-year the new-year's day must have been always moving one day in four years; but no satisfactory reckoning of the years had been kept, as to the end of the period.—*Sharpe, History of Egypt*.

Helical. *adj.* Spiral; with many circumvolutions.

The screw is a kind of wedge, multiplied or continued by a helical revolution about a cylinder, receiving its motion not from any stroke, but from a twist at one end of it. *Bishop Wallin*.

Another trait which has to be noticed under this head, is the spiral, or rather the helical, arrangement of parts.—*H. Spencer, Principles of Biology*, ch. xii. § 231.

Helicentric. *adj.* Having the sun as a centre.

The heliocentric place of a planet is said to be such as it would appear to us from the sun, if our eye were fixed in its centre.—*Harris*.

We lay no means find, even in those practical discoveries to which, in reality, the revolution in science, and consequently in the philosophy of science, was due, this prompt and vigorous recognition of the supreme authority of observation as a ground of belief; this bold estimate of the probable worthlessness of traditional knowledge; and this plain assertion of the reality of theory founded upon experience. Among such discoveries, Copernicus must ever hold a most distinguished place. The heliocentric theory of the universe, established by him with vast labour and deep knowledge, was, for the succeeding century, the light of discipline and exertion of all the most active and speculative minds. Men, during that time, proved their freedom of thought, their hopeful spirit, and their comprehensive view, by adopting, imitating, and following out the philosophy which this theory suggested. But in the first promulgation of the theory, in the works of Copernicus himself, we find a far more cautious and reserved temper. He does not, indeed, give up the reality of his theory, but he expresses himself as to avoid shocking those who might (as some afterwards did) think it safe to speak of it as an hypothesis rather than a truth. *Whewell, On the Philosophy of Discovery*.

See also Geocentric; the two words being opposed to one another.

Heliotrope. *s.* [Gr. *hēlios*—sun + *trōpe*—turn, *trōpe*—turning.]

1. Plant that turns towards the sun; but more particularly the turnsol or sunflower.

'Tis an observation of flatterers, that they are like the heliotrope; they open only towards the sun, but shut and contract themselves at night and in cloudy weather.—*Dr. H. More, Government of the Tongue*.

HELI

The rose, the mignonette, the *heliotrope*, all combined their fragrance to refresh the air, and, although from its proximity to the high-way, half's servant had to brush the plants as he did his coat every morning, to get rid of the dust, it was what the most fastidious critic must have pronounced a delightful little place. — *Thursdays Book, Gilbert*

2. Precious stone, of a green colour, streaked with red veins.

They sell . . . agates, turquoises, *heliotrope*, cornelians. — *Sir T. Herbert, Relation of some Year's Travels into Africa and the Great Asia*, p. 14.

Heliospherical, *adj.* [Gr. *ἥλιος* — coil + *σφαῖρα* — sphere. — Heliospheric the fuller and more correct form.] Having the character of a helix.

The *heliospherical* line is the rhomb line in navigation, and is so called because on the globe it winds round the pole spirally, and still comes nearer and nearer to it, but cannot terminate in it. — *Harris*.

They see *heliospherical* lines, as they call them, that is, partly circular, and partly helical or spiral. — *Cicero, Posthuma*, p. 285; 1050.

Helix, *s.* [Gr. *ἥλιος* — coil, spiral; *ἄλιον* — roll.] Spire, or part of a spiral line: circunvolution; coil.

Find the true inclination of the screw, together with the quantity of water which every *helix* does contain. — *Bishop Wilkins*.

Hell, *s.* [A.S. *hel*, place of punishment after death, as the Greek *ἄδης*, and the Latin *Tartarus*. In Norse, *Hela* is the goddess thereof; i.e. the analogue of the Greek, *Hesperia*, the Latin *Proserpina*.]

1. Place of the devil and wicked souls.

For it is a knell
That summons thee to heaven, or to hell.
Shakespeare, Macbeth, ii. 1.

If a man were a porter of hell gates, he should have old turning the key. — *Ibid.*
He descended into hell. — *Book of Common Prayer, Apostles Creed*.

2. Temporal death.

The sorrows of hell compassed me about; the snares of death prevented me. — *Psalm*, xlii. 5.

3. Place at a running play, to which those who are caught are carried.

Then couples three be straight allotted there;
They of both ends the middle two do fly;
The two that in mid-place, *hell* called were,
Must strive with waiting foot, and watching eye,
To catch of them, and them to *hell* to bear,
That they, as well as they, *hell* may supply.
Sir P. Sidney.

4. Place into which the tailor throws his shreds.

This trusty squire, he had, as well
As the bold Trojan knight, seen *hell*;
Not with a counterfeited pass
Of golden bough, but true gold lace.
Hatter, Hudibras.

In Covent-garden did a taylor dwell,
Who might deserve a place in his own *hell*.
King, Cookery.

5. Formerly, a dungeon in a prison.

In Wood-street's hole, or Poultry's *hell*.
The Counter-Rat: 1658.

6. Infernal powers.

Much danger first, much toll did he sustain,
While Saul and *hell* crost his strong fate in vain.
Cowley, Davideis.

7. Gaming-house.

Don Juan, our young diplomatic sinner,
Pursued his path, and drove past some hotels,
St. James' Palace, and St. James' *hell*.
Hells, gaming-houses. What their number may now be in this life I know not. Before I was of age I knew them pretty accurately, both 'gold' and 'silver.' I was once nearly called out by an acquaintance, because when he asked me where I thought his soul would be found hereafter, I answered, 'In Silver *Hell*.' — *Dryden, Don Juan*, xl. 24, and note.

At midnight, he had lost forty-eight thousand pounds. Affairs now began to be serious. . . . On they played, and the Duke lost more. . . . Another morris game, and then they sat, ankle deep in cards. No attempt at breakfast now — no affection of making a toilet, or airing the room. The atmosphere was hot, to be sure, but it well became such a *hell*. Then they sat, in total, in positive forgetfulness of everything but the hot game they were hunting down. — *Disraeli, The Young Duke*, b.iv. ch. viii.

Hell-broth, *s.* Composition boiled up for infernal purposes.

Adder's fork and blind-worm's sting,
Lizard's tongue and owl's wing;
For a charm of powerful trouble,
Like a *hell-broth* bowl and bubble.
Shakespeare, Macbeth, iv. 1.

HELL

Hell-cat, *s.* Witch; hag.

The whorson old *hell-cat* would have given me the laynie of a cat once — I had her unko mawes with 't.
— *Middleton, The Witch*.

'A woman told me this night that she knew why I came to your house — that I was in her power.' 'Vat vannon?' 'A *hell-cat*, who hates me, as she does the devil.' 'A *hell-cat* would not hate the devil,' slowly observed the Jew. 'Well, perhaps not; but she will ruin me if she can.' — *Marryat, Snarkyout*, vol. ii. ch. 1.

Hell-hag, *s.* Hag of hell.

A corroding disease it [envy] is; an *hell-hag* that feeds upon its own marrow, bones, and strongest parts. — *Bishop Richardson, On the Old Testament*, p. 201.

Hell-hound, *s.*

1. Dog of hell; agent of hell.

From forth the kennel of thy womb hath crept
A *hell-hound* that doth hunt us all to death.
Shakespeare, Richard III. iv. 4.

My *hell-hounds* to lick up the dirt, and filth,
Which man's polluting sin with taint had sired
On what was pure. — *Milton, Paradise Lost*, x. 629.

Now the *hell-hounds* with superior speed
Had reach'd the shore, and, first, on her side,
The ground with issuing streams of purple dy'd.
Dryden, Theodora and Hamira, 142.

Against your Protestant brethren — to lay waste
their country, to devastate their dwellings, and ex-
terminate their race and name with these horrible *hell-*
hounds of savage war. *hell-hounds*, I say, of savage
war. Spain armed herself with bloodhounds to ex-
terminate the wretched natives of America, and we
improve on the inhuman example of even Spanish
cruelty; we turn loose these savage *hell-hounds*
against our brethren and countrymen in America,
of the same language, laws, liberties, and religion,
endured to us by every tie that should sanctify
humanity. My lords, this is a subject so impor-
tant to our honour, our constitution, and our reli-
gion, demands the most solemn and effectual in-
quiry; and I again call upon your lordships, and
the united powers of the state, to examine it tho-
roughly and decisively, and to stamp upon it an in-
delible stigma of the public abhorrence. — *Brougham,*
Historical Sketches of Statesmen of the Reign of
George III., Lord Chatham.

2. Profligate person.

Gods keep me from these *hell-hounds*.
Hammond and Fletcher, Philaster.

Hell-kite, *s.* Kite of infernal breed.

Did you say all? What all? Oh *hell-kite*! all?
Wint all my pretty chickens, and their dam,
At one fell swoop? — *Shakespeare, Macbeth*, iv. 3.

Hellebore, *s.* [Lat. *helleborus*.] Christmas flower.

And melancholy cures by sovereign *hellebore*.
Dryden, Polydorus, song 13.

Helleborine, *s.* Native orchidaceous plant so called, of the genus *Cephalanthera* and *Epipactis*.

The *Cephalanthera glandiflora*, or *helleborine*. — *Darwin, Impregnation of Orchids*.

Helleborism, *s.* Medicinal preparation of hellebore.

In vain should the physician attempt, with all his
medicines and *helleborisms*, the cure of those that
are sick of love, or any like passions. — *Ferrault,*
Lore Melancholy, p. 109; 1010.

Hellenism, *s.* Greek idiom.

Virgil is full of the Greek forms of speech, which
the critics call *hellenisms*. — *Addison, Spectator*,
no. 285.

Hellenist, *s.*

1. Grecinizing Jew.

That the thing was done by the Jews, I deny not;
but by those, I mean the *Hellenists*. — *Gregory, Post-*
humus, p. 88.

Unconformable places that had been annexed to
by the *Hellenists*. — *Cassin, Canon of Scripture*, p. 60.

2. Any one skilled in the Greek language.

Another thing observable of s with its affluence
when they came along, without the implication of
other comments, they are of an easy and graceful
pronunciation. Hence seems to have loved *Hellenist*,
then I must add, &c. — *Dalgarney, Deaf and Dumb*
Man's Tutor, p. 120.

Hellenistic, *adj.* Relating to the language used among the Jews of the parts wherein the Greek was spoken concurrently with the native language, e.g. Syria, Asia Minor, and Egypt.

The *Hellenistic* Greek of these writers was that of the Macedonian of Alexander's army, rather than of the Ionians, Dorians, or *Æolians*. — *Sharpe, History of Egypt*.

HELM

Hellenistic, *adj.* Same as Hellenistic.

The importance of the *Hellenistic* dialect, into which he had made the exantant march. — *Bishop Fell, Life of Hammond*, § 1.

Hellenism and some other scrupulous critics reckon this an *Hellenistic* form of speech. — *Blackwell, Sacred Classics*, i. 157.

Hellenize, *v. n.* Use the Greek language.

To *Hellenize* is to speak Greek, and to have skill in the Greek language. — *Hammond, Paraphrase and Annotations on the New Testament*, Acta, vl. 1.

Hellier, *s.* Sluter; tiler; i.e. coverer (of houses).

He that covereth the house with tile or slate, is commonly called a *hellier*. — *Archbishop Usher, A savor to the Jewish Nation*, p. 210.

In the West, he that covers a house with slates is called a *hellier* or *hellier*. — *Rap*.

Hellish, *adj.* Sent from hell; belonging to hell; having the qualities of hell; infernal; wicked; detestable.

O thou celestial or infernal spirit of love, or what other heavenly or *hellish* title thou list to have, for effects of both I find in myself, have compassion of me. — *Sir P. Sidney*.

No benefits shall ever ally that diabolical rancour that ferments in some *hellish* breasts, but that it will foam out at its foul mouth in slander. — *South, Sermons*.

Hellishly, *adv.* In a hellish manner; infernally; wickedly; detestably.

That wicked plot [the gunpowder treason] was contrived and managed with the greatest sworn secrecy, unto *hellishly* sacred and firm by solemn oaths. — *Bishop Harlowe, Remains*, p. 320.

Hellward, *adv.* In the direction of, towards hell.

No next thy ears the noble sheep to place
Full o'er the pit, and *hellward* turn their face.
Toppe, Translation of the Odyssey, p. 628.

Helly, *adj.* Having the qualities of hell.

Rare.
Such blasphemies they brag out of their *helly* hearts. — *Addison, Exposition*, fol. 48, h. 1: 1573.

Free *Hellion* and frank *Parusian*'s hills,
Are *helly* haunts, and rank pernicious illas.
Mirror for Magistrates, p. 455.

Helm, *s.* [from A.S. *helm*.]

1. Covering for the head in war; helmet; morion; head-piece.

France spreads his banners in our noiseless land;
With plumed *helm* the shy's begins his fray.
Shakespeare, King Lear, iv. 2.

Menechmus lays hard load upon his *helm*.
Dryden, Translation of the Æneid.

2. Part of a coat of arms that bears the crest.

More might be added of *helms*, crests, mantles, and supporters. — *Cassini, Remains*.

3. Upper part of the refoat.

The vulgar elymists themselves pretend to be able, by repeated collations, and other fit operations, to make the distilled parts of a concrete bring its own caput mortuum over the *helm*. — *Boyle*.

Helm, *s.*

1. Steerage; upper part of the rudder.

And such they are make happy storms;
More in prosperity is reason lost
Than ships in storms, their *helms* and anchors lost.
Sir J. Denham, Of Prudence.

Fair occasion shows the springing job,
And interest guides the *helm*, and honour swells the sail.
Prior.

2. Station of government.

I may be wrong in the means, but that is no objection against the design: let those at the *helm* contrive it better. — *Swift*.

3. In the following line it is difficult to determine whether *steersman* or *defender* is intended: I think *steersman*.

You slander
The *helms* of the state, who care for you like fathers,
When you cur-e them as enemies.
Shakespeare, Coriolanus, i. 1.

Helm, *v. a.* Guide; conduct.

The very stream of his life, and the business he hath *helmed*, must, upon a warranted need, give him a better proclamation. — *Shakespeare, Measure for Measure*, iii. 2.

Helmed, *adj.* Furnished with a helm.

The *helmed* cherubim
Are seen in glittering ranks with wings display'd.
Milton, Ode on the Nativity, 112.

Helmet, *s.* Helm; headpiece; armour for the head.

I saw him down; thrice up again, and fighting;
From *helmet* to the spur all bleeding o'er.
Shakespeare, Henry V. iv. 6.

Seven darts are thrown at once, and some rebound
'round his bright shield, some on his helmet sound.
Dryden, Translation of the Aeneid, x. 455.

Helmeted, adj. Wearing a helmet.

Oh! no knees, none, widow;
'Unto the helmeted bellows use them,
And pray for me your midwife.

Benjamin and Fletcher, Two Noble Kinsmen.

Helminthologist, s. Investigator, or student, in helminthology.

Few parts of either England or Scotland have
been surveyed by the eye of the helminthologist.
Fleming, Philosophical Zoology, II. 416. (Ord M.S.)

Helminthology, s. [Gr. *ἕλμινθ*, *ἕλμινθ* = worm, specially intestinal + *λογία* = word, principle.] Investigation of the nature and classification of intestinal worms.

Helminthology may be considered to have been
founded by Rudolph. — *Mason Good, Practice of Medicine.*

Helmsman, s. Man at the helm; steersman.
The ice is split with a thunder fit.
The helmsman steered them through.

Coleridge, The Ancient Mariner.

Helmwind, s. Kind of wind so called. See extract.

In these mountains [of Windermere], towards
the north-east part of the county, is a very remarkable
phenomenon, such as we have not found any
account of elsewhere in the kingdom, except only
about Ingleton, and other places bordering upon
the mountains of Ingleborough, Pendle, and Pen-
gout, in the confines of the counties of York and
Lancaster. It is called a *helmwind*. A rolling cloud,
sometimes for three or four days together, hovers
over the mountain tops, the sky being clear in other
parts. When this cloud appears, the country peo-
ple say, the *helu* is up: which is an Anglo-Saxon
word signifying properly a covering for the head.
This helm is not dispersed or blown away by the
wind, but continues in its station, although a violent
roaring hurricane comes tumbling down the
mountain, ready to tear up all before it. Then on a
sudden ensues a profound calm. And then again
alternately the tempest; which seldom extends into
the country above a mile or two from the foot of
the mountain. — *Barnes and Nicholson, History of
Westmoreland and Cumberland, I. 7.*

Helot, s. [?Native of *Helos*, a district of La-
conia, of which, when conquered by Lacedæ-
mon, the inhabitants were made slaves.]
Lacedæmonian slave.

Nor was it lawful for any Spartan to improve this
lot to the best, by living upon it; for they were
strictly prohibited all occupations, even that of ac-
riculture; and their lords or *helots* paid them only
an annual quantity of corn, wine, and other fruits.
— *Bishop H'ren, Monarchy Asserted, p. 110.*
Ayl 'Build him a dwelling! let each give his mite!
Till, like Habel, the new royal dome hath arisen!
Let thy heggers and *helots* their pittance unite.
And a palace bestow for a poor-house and prison!

Byron, Devotional Poems.

Helotry, s. Body of Helots, or Helotlike
bondsmen.

'How is it,' said I, 'that every thing which is con-
nected with manumission presents such features of
unqualified deformity? From the largest of Man-
umission's temples down to the poorest hovel in which
his *helots* are stalled, these edifices have all one
character. Time will not mellow them; nature will
neither clothe nor conceal them; and they will
remain always as offensive to the eye as to the
mind.' — *Southey, Colloquies on Society.*

The *helotry* of Manumission are not, in our day, so
easily enforced to content themselves as the pen-
santry of that happy period, as Mr. Southey con-
sidered it, which elapsed between the fall of the feudal
and the rise of the commercial tyranny. — *Maccubbin,
Critical and Historical Essays, Southey's Colloquies
on Society.*

Help, v. a. [A.S. *helpan*.] The old preterite
help; old past participle *holpen*, now nearly
obsolete.

1. Assist; support; aid.
Make haste to *help* me, O Lord my salvation.
— *Psalms, xxxviii. 22.*

They that dwell round about them, and *helped*
them in all things with silver and gold. — *1 Kings,*
ii. 9.

2. It has, in familiar language, the particle
out, which seems to have meant, originally,
out of a difficulty.

This he conceives not hard to bring about.
If all of you should join to *help* him out. — *Dryden.*
The god of learning and of light,
Would want a god himself to *help* him out. — *Swift.*

3. Raise by *help*: (with *up*).
Voe to him that is alone when he falleth; for he
hath not another to *help* him up. — *Revelations,*
iv. 10.

4. Enable to surmount: (with *over*).
Wherever they are at a stand, *help* them pre-
sently *over* the difficulty without any rebuke. —
Locke.

5. Remove by *help*: (with *off*).
Having never learned any laudable manual art,
they have recourse to those foolish or ill ways in
use to *help* off their time. — *Locke.*

6. Free from pain or vexation.
Help and ease them, but by no means bemoan
them. — *Locke.*

7. Cure; heal: (with *off*). *Obsolete.*
Love doth to her eyes repair,
To *help* him of his blindness.
Shakespeare, Two Gentlemen of Verona, iv. 2. song.

8. Promote the cure of disease.
The true calamus *helps* coughs. — *Gerarde, Herball.*

9. Remedy; change for the better.
Cease to lament for that thou canst not *help*;
And study *help* for that which thou lament'st.
Shakespeare, Two Gentlemen of Verona, iii. 1.

10. Prevent; hinder.
She, betwixt her modesty and pride,
Her wishes, which she could not *help*, would hide.
Dryden.

It is reckoned ill manners for men to quarrel
upon difference in opinion, because that is a thing
which no man can *help* in himself. — *Swift.*

11. Forbear; avail.
He cannot *help* believing, that such things he saw
and heard. — *Bishop Atterbury.*
I cannot *help* remarking the resemblance betwixt
him and our author in qualities, fame, and fortune.
— *Pope.*

12. Promote; forward.
And they *helped* forward the affliction. — *Zech-
ariah, i. 15.*
If you make the earth narrower at the bottom
than at the top, in fashion of a sugar-loaf reversed,
it will *help* the experiment. — *Bacon.*

Help to. Supply with; furnish with; (spe-
cially) present at table.

Whom they would *help* to a kingdom, those reign;
and whom again they would, they displace. — *1 Mac-
cabees, viii. 13.*

The man that is now with Tiresias can *help* him
to his own again. — *Sir R. L. Estrange.*
In plenty starving, installed in state,
And complacently *helped* to all I hate;
Treated, caroused, and flattered, I take my leave.
Pope, Moral Essays, ep. iv. 163.

Help, v. n.
1. Contribute assistance.

Sir, how comes it that you
have *help* to make this rescue?
Shakespeare, Coriolanus, iii. 1.
Discreet followers and servants *help* much to re-
putation. — *Bacon.*
Isaiah's matchless impudence
helped to support the knave. — *Dryden.*
A generous present *helps* to persuade as well as an
agreeable person. — *Garth.*

2. Bring a supply: (with *out*).
Some, wanting the talent to write, made it their
care that the noters should *help* out where the
muses failed. — *Rymer.*

Help, s.
1. Assistance; aid; support; succour.

Misnesses, despairing to recover the city, hardly
escaped his enemies' hands by the good *help* of his
uncle. — *Kestler, History of the Turks.*
He may be belittled to experience and acquired
notions, where he thinks he has not the least *help*
from them. — *Locke.*

2. That which gives help.
Virtue is a friend and an *help* to nature; but it is
ice and luxury that destroy it, and the diseases of
intemperance are the natural product of the sins of
intemperance. — *South, Sermons.*

Another *help* St. Paul himself affords us towards
the attaining the true meaning contained in his
epistles. — *Locke.*

3. That which forwards or promotes.
Cord is in use as an *help* to the teeth of children.
— *Bacon.*

Helper, s.

1. Assistant; auxiliary; aider; one who
helps or assists.

There was not any shut up, nor any left, nor any
helper for Israel. — *2 Kings, xiv. 24.*

2. One who administers remedy.
Compassion, the mother of tears, is not always a
mere idle spectator, but an *helper* of offences of evil.
— *Dr. H. More.*

3. One who supplies with anything wanted:
(with *to*).

Heaven
Hath brought me up to be your daughter's dower,

As it hath fed a *help* to be my motive
And *helper* to a husband.

Shakespeare, All's well that ends well, iv. 1.

4. Supernumerary servant.

I live in the corner of a vast unfurnished house;
my family consists of a steward, a groom, a *helper* in
the stable, a to-daman, and an old maid. — *Swift, Let-
ter to Pope.*

Helpful, adj.

1. Useful; that which gives assistance.
Let's fight with gentle words,
Till time leads friends, and frankly their *helpful*
swords. — *Shakespeare, Richard II. iii. 5.*
He orders all the surgeons which they bring;
The *helpful* and the good about him run,
And form an army. — *Dryden.*

2. Wholesome; salutary.
A skilful physician can as well, by separation of
viscid elements, draw *helpful* medicines out of
poison, as present out of the most healthful herbs. —
Sir W. R. H. History of the World.

Helpfulness, s. Attribute suggested by
helpful: assistance; usefulness.
God ordain'd
man to be in his — *and helpful —
Milton, Tetraichordum.*

Helpless, adj.

1. Wanting help.
One dice shot
Close by the board the prince's main must bore;
All these new *helpless* by each other lie. — *Dryden.*
Let our enemies race and persecute the poor and
the *helpless*; but let it be our glory to be pure and
pervasive. — *Rom. vi.*
How shall I then your *helpless* fame defend?
'Twill then be infamy to seem your friend. — *Pope.*

2. Irremediable; admitting no help.
Such *helpless* burns it's better hidden keep,
Than rip up grief, where it may not avail. — *Spenser.*
3. Unsupplied; void: (with *of*). *Rare;*
probably a Latinism for Inops.
Naked he lies, and r- ly to expire,
Helpless of all that human wants require. — *Dryden.*

Helplessly, adv. In a helpless manner;
without ability; without succour.
If he thus be *helplessly* distract,
The requisite his office he resign'd. — *Kyd, Spanish Tragedy.*

Helplessness, s. Attribute suggested by
Helpless; want of ability; want of suc-
cour.

It was an objection constantly urged by the an-
cient Egyptians, that man could not be the creature
of a benevolent being, as he was formed in a state so
helpless and infirm: Mountains took it and urged it
also. They never considered or perceived that this
very infirmity and *helplessness* were the cause and
cement of society. — *J. Watrous, Essay on the Writ-
ings and Genius of Pope.*

Helpmate, s. Assistant.
I was now provided with a *helpmate*. — *De foe,
Robinson Crusoe.*

Help-skelter, adv. In a hurry; without
order; tumultuously.

Sir John, I am thy host, and thy friend;
And *help-skelter* have I rode to England,
And tidings do I bring.

Shakespeare, Henry IV. Part II. v. 3.
He had no sooner turned his back, but they were
at it *help-skelter*, throwing books at one another's
heads. — *Sir R. L. Estrange.*

All dominion ended with the day, and males and
females met *help-skelter*. — *Spectator, no. 276.*

Helve, s. [A.S. *healf*.] Handle of an axe.
His hand catch'd a stroke with the axe to cut
down the tree, and the head slipped from the *helve*.
— *Deuteronomy, xix. 5.*

Hem, s. Interjection so called.
I would try if I could cry *hem* and have him.

Shakespeare, As you like it, I. 3.

Hem, v. n. Utter a noise by violent ex-
pulsion of the breath.

She speaks much of her father; says, she hears
There's tricks in the world; and *hem*, and beats her
heart. — *Shakespeare, Twelfth, iv. 3.*

He loves to clear his pipes in good air, and is not
a little pleased with any one who takes notice of the
strength which he still exerts in his morning *hem*.
— *Addison.*

Hem, s. [A.S.] Edge of a garment doubled
and sewed to keep the threads from spread-
ing.

Hollers must be made of even cloth, white and
gentle, without *hem*, seam, or thread hanging by. —
Winnean, Surgery.

Hem, v. a.

1. Close the edge of cloth by a hem or double
border sewed together.

The confluence of this speech will perhaps be the less subject to ravel out, if I *show* it with the speech of our learned and pious annotator.—*Spenser, On Prædication*, p. 202.

2. Border; edge.

Along the shore of silver streaming Thames,
Whose rusky bank, the which his river *hem*s.

Spenser.

All the skirt about

Was *hem*m'd with golden fringe. *Id., Faerie Queen.*

3. Enclose; environ; confine; (perhaps always with a particle, as *in*, *about*, *round*).

*So of either side, stretching itself in a narrow length, *was* it *hemmed* in by woody hills, as if indeed nature had meant therein to make a place for he-bulliers.—*Sir P. Sidney.*

Why, Neptune, hast thou made us stand alone,
Divided from the world for this, say they;
*Hem*m'd in to be a spoil to tyranny,
Leaving affliction hence no way to fly? *Daniel.*

I hurry me in haste away.
And find his honour in a point,
*Hem*m'd by a triple circle *round*,
Chequerd with ribbons, blue and green. *Pope.*

Hematemesis. s. [Gr. αἷμα, -ατος = blood + ἔμεσις = vomiting.] Vomiting of blood.

The blood may proceed from the mucous surface of the stomach, which is most commonly the case; and from the surface of the duodenum, or of the mesenteric. It may proceed, also, from the rupture of an aneurismal tumour which has poured its blood either directly or indirectly into the stomach; and it may be stimulated by the blood passing from the posterior nares or throat, or from the respiratory organs, into the stomach, and being afterwards vomited. *Hematemesis* is attended with almost every grade of vascular action, from the lowest state of sub-action, to the most acute action; but more frequently the vascular system is deficient of vital tone, and this condition is extended, more or less, to all the soft solids of the frame. In a very great number of cases, also, we observe a state either of general cachexia, or of congestion and morbid function, or morbid structure, of more than one of the abdominal viscera. . . . *Hematemesis* is, more commonly than is generally stated by authors, a mode of termination, or a consequence, of inflammation, or of inflammatory irritation and congestion of the internal tunic of the stomach and duodenum, when it presents signs of sthenic action, or is preceded by cardialgia, acute pain, tenderness, distention, and a sense of heat in the region of this organ, or when it occurs in young phlegmatic subjects, and is caused by incarceration, by acrid matters received into the stomach, by the use of irritating fluids, and by the suppression of unseasoned discharges. In this inflammatory form of the disease, the blood thrown from the stomach is seldom in large quantity at one time, although frequently ejected, and is of less deep colour than in some other varieties; and that taken by coagulation is usually cupped and buffed. The pathology of the disease will be further illustrated by the following observations on the subject, and in which I shall notice first, the primary and less complicated state of *hematemesis*; secondly, the supplemental, symptomatic, or vicarious forms of this disease; thirdly, *hematemesis* from disease of the viscera connected with the stomach; fourthly, *hematemesis* from certain organic lesions of the stomach, or of its vessels, and from complications with other diseases; and lastly, that rarer form of *hematemesis*, which, from the colour of the ejected fluid, has been called the morbus niger.—*Copland, Dictionary of Practical Medicine.*

Hemierania. s. [Gr. ἡμι = half, -ρανία = skull.] See Megrim, for which it is the medical term; also the word out of which the popular name is a corruption.

Hemicycle. s. [Gr. ἡμι = half + κύκλος = circle.] Half circle.

Upon the right hand of her, but with some little descent, in a *hemicycle*, was seated Erycin, or Quibet, the first husband of Peace.—*B. Jonson, Part of the King's Entertainment.*

Hemiplegia. s. [Gr. ἡμι = half + πlegia = strike, seize.] Palsy that seizes one side at a time. See Paralysis.

Hemiptera. s. In Entomology. See Hymenoptera.

Hemisphere. s. [Gr. ἡμισφαῖον.]

1. Half of a globe when it is supposed to be cut through its centre in the plane of one of its greatest circles.

That place is earth, the seat of man; that light his day, which else, as the other hemisphere, Night would invade.

Milton, Paradise Lost, iii. 724.

The sun is more powerful in the northern hemisphere, and in the summer; for therein his motion is slower.—*Sir T. Browne.*

In open prospect nothing bounds our eye,

Until the earth seems join'd unto the sky;

So in this hemisphere our utmost view

Is only bounded by our king and you. *Dryden.*

2. In Anatomy. Side of the convoluted part of the brain.

Influenced by the inapplicability of the term 'hemisphere' to parts which are more commonly spheres or spheroids, and to avoid misconception by those who attach to the word 'cerebrum' the idea of the whole brain minus 'cerebellum' and 'medulla oblongata,' or who may restrict the term 'cerebral hemisphere' to the super-imposed masses of the lateral ventricles in higher vertebrata, I shall apply the term 'prosencephalon' to the constant division of the brain in question, and prosencephalic lobes or prosencephala to its commonly distinct moieties. It is unfortunate for the student of anatomy that, in his introduction to the science by the human structure, he should become acquainted with these parts of the brain under the name of 'hemispheres,' as if they were two halves of an essentially spherical whole or single organ.—*Owen, Lectures on Comparative Anatomy*, lect. viii. note.

Hemispheric. adj. Half round; containing half a globe.

A pyrite, placed in the cavity of another of an *hemispheric* rick flame, in which the same manner as an worn in its cup.—*Woodward, On Fossils.*

Hemispherical. adj. Same as Hemispheric.

The thin film of water swells above the surface of the water it swims on, and commonly constitutes *hemispheric* ridges with it. *Boyle.*

Hemistich. s. [Gr. ἡμι = half, -στιχ = rank, row, order.] Half a verse.

He broke off in the *hemistich*, or midst of the verse; but, seized as it were with a divine fury, he made up the latter part of the *hemistich*.—*Dryden, Translation of Du Fresnoy's Art of Painting.*

The method of writing parallel *hemistichs* in opposite columns. . . . says sometimes have caused a transposition of whole lines. *Archbishop Newcome, Essay on a Translation of the Bible*, p. 218.

Hemistichal. adj. Denoting, consisting in, constituted by a hemistich.

The reader will observe the constant return of the *hemistichal* point, which I have been careful to preserve. . . . I suspect, that it shows how these poems were sung to the harp by the minstrels.—*T. Warton, History of English Poetry*, addition to vol. ii.

The *hemistichal* division is not exhibited to the eye in the printed page.—*Bishop Horley, Translation of Homer*, p. 81.

Hemlock. s. [A.S. hemeleac.] Native umbelliferous and poisonous plant so called; Cuminum maculatum.

The leaves are cut into many minute segments; the petals of the flower are half, heart-shaped, and unequal; the stamens are covered by two short clubbed seeds. One root is sometimes used in medicine, though it is noxious; but the *hemlock* of ancients, which was such deadly poison, is generally supposed different.—*Miller.*

We cannot with certainty affirm, that no man can be nourished by wood or stones, or that all men will be poisoned by *hemlock*.—*Locke.*

Hemoptysis. s. [Gr. ἡμι = half, -πτισις = spitting; πῶσις = spit.] Spitting of blood.

Having fulfilled the first intention, the arrest of the *hemoptysis*, attention should immediately afterwards be directed to the removal of any blood that may have been collected in the bronchi, and of whatever inflammatory irritation connected with it, either extensively or consecutively, that may exist. . . . With this intention, also, as well as to prevent the return of the *hemorrhage*, the assiduous adoption of external irritants, and the internal use of the balsams or terebinthines will prove most serviceable. At the same time, the digestive and excretory functions ought to receive due attention. . . . The inhalation of watery or medicated vapours has been recommended in *hemoptysis*, and lately employed by both rational and empirical practitioners. The practice requires much caution; but I think it will be found often of service if discrimination as well as perseverance be observed in respect to it. Towards the evening, or in the slightest forms of *hemoptysis*, the more astringent substances may be used in this way, care being taken that they neither occasion irritation or tightness in the thorax, nor excite cough. . . . The regimen during and after *hemoptysis* is a most important part of the treatment. The ancients advised cooling beverages and diet. They allowed acid wine, and acerb or acid fruits. The pomegranate was much and deservedly praised by them, on account of its cooling and astringent operation. Glutinous and unctuous articles of diet were also recommended. . . . The remarkable effects observed by Dr. Archibald Smith in persons subject to *hemoptysis* on their residing in elevated, dry, and temperate situations on the Andes, should suggest the adoption of residences in similar localities.—*Copland, Dictionary of Practical Medicine.*

Hemorrhage. s. [Gr. αἷμα = blood + root of ῥήγναι = break.] Violent flux of blood.

Twenty days' fasting will not diminish its quantity so much as our great *hemorrhage*.—*A. Chuteau, On the Nature and Choice of Aliments.*

Sources of *hemorrhage* may take place from the heart, the arteries, the capillaries, or veins, in consequence of disease or of external injury. It may proceed from the capillaries without very obvious lesion, excepting an almost inappreciable dilatation of them. All parts of the body may become the seats of *hemorrhage*, excepting those which are extremely dense, as the bones, cartilages, ligaments, tendons, &c.; yet it most frequently proceeds from the minute vessels distributed in mucous or serous membranes or in the parenchyma of organs. . . . In a great majority of instances, *hemorrhage* is merely a symptom, contingent upon a variety of affections, the primary ailment being chiefly important to the physician. If we enter into an analysis of the pathological relations of *hemorrhage*, we shall find that, in comparatively few cases, are they strictly primary or idiopathic; and that they may be referred to four general heads: namely—1st. To the states of organic nervous power and vital action; 2nd. To the state of structure in which the *hemorrhage* takes place; 3rd. To the state of the circulating organs and vessels; 4th. To the conditions of the blood;—and, 5th. To any two or more of these combined.—*Copland, Dictionary of Practical Medicine.*

Hemorrhagic. s. Consisting of, constituted by, a hemorrhage.

The frequency of hemorrhages, especially their more active states, is greater in the sanguineous, irritable, or the sanguineo-bilious temperament, in pectonic constitutions, and in the scrofulous diathesis. They are more common and abundant towards the completion of youth, than at any other period; and they are comparatively rare in infancy and in old age. Females are more subject to them than males. There may be said to be a *hemorrhagic* diathesis; inasmuch as hemorrhages are more common in the offspring of parents who have experienced attacks than in others, and as they are often observed in several children or members of the same family.—*Copland, Dictionary of Practical Medicine.*

Hemorrhagy. s. Same as Hemorrhage.

Great *hemorrhagy* succeeds the separation. *Rap.*

Hemorrhoids. s. [Gr. αἱμορροΐς.] In Medicine. Piles.

I got the hemorrhoids.—*Swift.*

Hemorrhoidal. adj. Belonging to the veins in the fundament.

Besides, there are hemorrhages from the nose and *hemorrhoidal* veins, and fluxes of them. *Ray, On the Use of Gunpowder in the Works of the Great.*

Emulset upon the field, a tall the stood
Of heaves, spouting *hemorrhoidal* blood.

Hemp. s. [A.S. hamp; Lat. cannabis.] Plant so called of the genus Cannabis.

It hath digitated leaves opposite to one another, the flowers have no visible stalk; it is male and female in different plants. Its bark is useful for cordage and cloth. *Miller.*

Let gallows gaze for dogs, let man go free,
And let not *hemp* his windpipe suffocate.

Shakspeare, Henry V. iii. 6.

Hemp and flax are commodities that deserve encouragement, both for their usefulness and profit. *Mortimer, Husbandry.*

Used adjectively.

— upon *hemp* nursery is found wild by ditches, and sides of rivers.—*Miller.*

Hempen. adj. Made of hemp.

In foul reproach of knight-hood's fair degree,
Alant his neck a *hemp* a rope he wears.

Spenser, Faerie Queen.

I wish'd his dangling garter from his knee;
He wist not when the *hemp* a string I'd

Gay, The Ship-boy's Week, Thursday.

Hempweed. s. Native plant so called; called also hemp agrimony; Eupatorium cannabinum.

The *hempweed* or *hempagrimony*, a common plant enough, was commonly reaped some time ago by some husbandmen from South Africa, who happened to be in Germany, as the material from which they obtained an intoxicating substance for smoking. *André, The Channel Islands*, p. 178.

Hempy. adj. Resembling hemp.

Twist the rim and the tree there is a cotton, or *hempy* kind of moss.—*Horsell, Letters*, ii. 53.

Hen. s.

1. Female of a house-cock.

Dame Partlet was the sovereign of his heart. . . . Nor chick, nor *hen*, was known to disloyal. *Dryden, The Cock and the Fox*, 64.

2. Female of any land-fowl.

The peacock, plover, and goldfinch cocks have glorious colours; the *hens* have not.—*Bacon.*
Whilst the *hen* bird is covering her eggs, the male

H E N B

generally takes his stand upon a neighbouring bush within her hearing, and by that means diverts her with his songs during the whole time of her sitting.—*Addison*.

Hébane. *s.* Native poisonous and medicinal plant so called; *Hyoscyamus niger*. That to which old Socrates was rurs'd.
Or hébane juice, to swell 'em till they burst.

Dryden.
Hébane [is] very often found growing upon the sides of banks and old dungsills. This is a very poisonous plant.—*Miller*.

Hénbit. *s.* Native plant so called of the genus *Galeopsis*.

In a scarcity in Sicily a rumour was spread of its raining millet-seed; but it was found to be only the seeds of the ivy-leaved speedwell, or small *hébit*.—*Berham, Physico-Theology*.

Héne. *adv.* [A.S. *hennes*, from the same root as *he, her, here*, &c., the *s* being (probably) the *s* in *hi-s, father-s*, &c., i.e. the *s* of the genitive or possessive case. Spelt with *ce* in order to ensure the *s* being sounded, since *hens* would, probably, be pronounced *henz*.]

1. From this place to another.

Discharge my followers; let them *hence* away,
From Richard's night to Bolingbroke's fair day.

Shakespeare, Richard II. iii. 2.
The Almighty hath not built
Here for his envy; will not drive us *hence*.

Milton, Paradise Lost, l. 250.
A sudden prodence drew them *hence*
From noise, fraud, and impertinence.

Larri Roscommon.

2. Away; to a distance; word of command.

Be not found here; *hence* with your little ones.
Shakespeare, Macbeth, iv. 2.
Hence with denial vain, and coy excuse.

Milton, Lycidas, l. 18.

3. At a distance; in other places.

Why should I then be false, since it is true
That I must die here, and live *hence* by truth?

Shakespeare, King John, v. 4.
All members of our cause, both here and *hence*,
That are inducted to this action.

Id., Henry IV. Part II. iv. 1.

4. Applied to time; the future.

Make less thy body, *hence*, and more thy grace.
Shakespeare, King Henry IV. Part II. v. 5.
He who can reason well to-day about one sort of matters, cannot at all reason to-day about others, though perhaps a year *hence* he may.—*Locke*.

Let not posterity a thousand years *hence* look
For truth in the voluminous annals of pedants.—*Arbuthnot*.

5. For this reason; in consequence of this;

from this cause; from this ground.
Hence perhaps it is, that Solomon calls the fear of the Lord the beginning of wisdom.—*Archbishop Tillotson*.

By too strong a projective motion the aliment tends to putrefaction; *hence* may be deduced the force of exercise in leading direction.—*Arbuthnot, On the Nature and Choice of Aliments*.

6. From this source; from this original;

from this store.
My Flora was my sun; for as
One sun, so but one Flora was:
All other flowers borrow'd *hence*
Their light and grace, as stars do thence.

Sir J. Suckling.

7. From *hence* is an exceptionable expression, which crept into use even among good authors, as the original force of the word *hence* was gradually forgotten.

An ancient author proceeds'd from *hence*,
Behind an Italian shows a foreign prince!
Dryden, Translation of the Æneid, vii. 103.

Used as a verb, meaning send *hence*, or off;

dispatch to a distance. *Rare*.
Go, bawling ear! th, hungry maw go ill
On yon foul flock, belonging not to me;
With that his dog he *hens'd*, his flock he curs'd.

Sir P. Sidney.

Héneforth. *adv.* From this time forward.

Thine and mine,
Héneforth be vials. *Shakespeare, Macbeth, v. 7.*
Taste this, and be *henceforth* among the gods,
Thyself a goddess. *Milton, Paradise Lost, v. 74.*

If we treat gallant soldiers in this sort,
Who then *henceforth* to our defence will come?

Dryden.

Héneforward. *adv.* From this time to futurity.

Pardon, I beseech you;
Héneforward I am over rul'd by you.

Shakespeare, Romeo and Juliet, iv. 2.

H E N R

The royal academy will admit *henceforward* only such who are endued with good qualities.—*Dryden*.

Hénchboy. *s.* Page.

Then in full power our sovereign prelate sway'd,
By kings, and all the rabble world obey'd;
Here humble monarch at his feet kneel'd down,
And begged the shins, and charity of a crown;

Where, when in solenn state he pleas'd to ride,
Poor accepted slaves ran *hénchboys* by his side;
None, though in thought, his grandeur durst blasphemously

Nor in their very sleep a treason dream.
Oldham, Satires upon the French.

Hénchman. *s.* [haunch + man.] Attendant

at the side of any one; follower; page.
Why should Titania cross her Oberon?
I do but beg a little changeling boy,
To be my *hénchman*.

Shakespeare, Midsummer-Night's Dream, ii. 2.
Three *hénchmen* were for every knight assign'd,
All in rich livery clad, and of a kind.

Dryden.

Hénd. *v. a.* Same as Hént.

1. Seize; lay hold on.

With that the sergeants *hént* the young man
About
And bound him likewise in a worthless man.

Butcher.

2. Crowd; surround.

The generous and bravest citizens
Have beat the gates, and very near upon
The duke is entering.

Shakespeare, Measure for Measure, iv. 6.

Héndecasyllable. *s.* [Gr. *ἑνδεκά + σῖλλαβος*.]

Metrical line consisting of eleven syllables.

A living author, that must be nameless, has written the following *héndecasyllables*:
O duleis puer, O vinctus Marce, &c.

J. Walton, Essay on the Writings and Genius of Pope.

Héndiads. *s.* [Gr. *ἑν + ἑν + δύο* = two

ἑν = two, couple.] Rhetorical figure, when two noun substantives are used instead of a substantive and adjective; e.g. the strength of *Heracles* (*ἡ ἡρακλεως*), instead of the strong *Heracles*, or *Heracles the strong*. Scarcely a naturalized word, the Greek being the language wherein the figure is commonest, and the word being rather Greek than English. Even in Greek, *ἑν δύο* = one through two, is the commoner term.

Héndriver. *s.* Kind of hawk; hen-harrier.

The *héndriver* I forbear to name.—*L. Walton, Complete Angler*.

Hénharrier. *s.* [harrier, i.e. harasser or

enemy of hens (poultry). Nearly synonymous with *Hen-driver*; also with the rarer term *Hen-harm*.] Hawk so called of the genus *Circus*.

The marsh-harrier (*Circus aeruginosus*). . . is distinguished from the true buzzards by the more elongated and slender form of their bodies, their lengthened, taper, and naked legs, the still greater softness of their plumage, and by the circular disk of short feathers which surround the face. . . The decided difference in colour between the males and females of the true *harriers* when adult as a subject now so generally understood as to require to be noticed here only as a gradient illustration of one of the laws which appear to influence the assumption and changes of plumage in birds. . . In the present instance, the old male, from his almost uniform mid-grey colour as seen in the figure, is called provisionally the dove hawk, and blue hawk, and by the more general name of the *hen-harrier*. The female, called a ringtail, is brown.—*Furcell, British Birds, Marsh and Hen Harrier*.

Hénhearted. *adj.* Dastardly; cowardly;

like a hen.
One jutting *hen-hearted* rogue is sometimes the ruin of a set.—*Gayton, Dulce et Idu Quarede, p. 113.*

Hénpecked. *adj.* Governed by the wife.

A stepdame too I have, a d d she,
Who rids my *hen-peck'd* sire, and orders

Dryden, Translation of the Æneid, iii. 19.
The neighbours reported that he was *hen-peck'd*, which was impossible, by such a mild-spurred woman as his wife.—*Arbuthnot*.

Hénroost. *s.* Place where the poultry roost.

Many a poor devil stands to a whipping-post for the jinking of a silver spoon, or the robbing of a *hen-roost*.—*Sir R. L. Estlin*.

Her house is frequented by a company of rogues, whom she encourages to rob his *hen-roost*.—*Sir R. L. Estlin*.

If a man presents himself with severity, his *hen-roost* is sure to pay for it.—*Addison*.

H E P

They oft have sally'd out to pillage
The *hen-roosts* of some peaceful village.

Pickell, Imitation of the Prophecy of Nemo

Hénfoot. *s.* Native plant so called (though with doubtful propriety); *Caulalis daucoides*.

Hénfoot's [is] a mere translation of [the] Latin *pes pedis*, a name that Stapel . . . says was given it from the resemblance of its leaves to a hen's claw, an odd notion which he must have made on a bad picture. *Dr. Prior, Popular Names of British Plants*.

Hént. *v. a.* [A.S. *hentan*.] Take; overtake; seize; fight.

Go on, for on, the fast-path way,
And overtaking of the side.

Shakespeare, Winter's Tale, iv. 2, scene.

Hép. *s.* Same as Hép.

In hard winters there is observed great plenty of *héps* and *haws*, which preserve the small birds from starving. *Bar-n*.

Hépátic. *adj.* [Gr. *ἥπαρ*, *ἥπαρ* = liver.] Belonging to the liver.

If the excreted blood be fluid, it is stomach blood; if red and copious, it's *hépatic*. *Harey, Discourse on Canine plume*.

The cystic and is thick, and intensely bitter; the *hépatic* and is more fluid, and so called.—*Arbuthnot, On the Nature and Choice of Aliments*.

The molecular movements and changes in the organs of vegetative life constitute a more uninteresting source of error. The blood which returns from the extensive set of such operations afforded by the numerous intestinal tract is warmer than before it enters that tract: the blood of the *hépatic* vein after its passage through the portal circulation, and its work in the liver, shows a more marked rise of temperature. Urine in mammals, before it escapes, is hotter than blood; and the rich supply of vessels to the adrenals may relate to the colorific functions of the kidneys.—*Osier, Anatomy of Vertebrates*.

Héptachord. *s.* [Gr. *ἑπτά* = seven + *χορδή* =

chord.] Anciently, a musical instrument of seven strings; as, the lyre; and also a practical composition played or sung on seven different notes or sounds.

This instrument seems to merit a particular description here, not only from its great antiquity, but from its form; for by having been furnished with a neck, though it had but two strings it was capable of producing from them a number of notes; for instance if these two strings were tuned together to each other, they would furnish that series of sounds which the ancients called a *héptachord*, consisting of two adjacent tetrachords. *Harey, History of Music, Egyptian Music*.

Héptagon. *s.* [Gr. *ἑπτά* = seven + *γωνία* =

angle.] Figure with seven sides or angles. Three pentagons are too little, and three *héptagons* too much.—*Ray, (Rich.)*

Héptagonal. *adj.* Having seven angles or

sides.
In a circle describe a *héptagon* and equilateral figure, from whose every side shall fall equilateral triangles.—*Selden, Dryden's Polyglotta, song 11. (Rich.)*

Héptamerede. *s.* [Gr. *ἑπτά* = seven + *μέρος* =

part.] That which divides into seven parts. *Rare*.

The *héptamerede* of M. Sureau could express an interval as small as the seventh part of what is called a comma, the smallest interval that admitted in modern music. *J. Smith, On the Imitative Arts*.

Héptarchie. *adj.* Denoting a sevenfold government.

The Saxons practised this mode of division for fixing the several extents of their *héptarchie* empire.—*T. Norton, History of the Parish of Kiddington, p. 43.*

Héptarchist. *s.* He who rules one of the

divisions of a sevenfold government.
In 752, the Saxon *héptarches*, Guthred and Ethelred, fought a desperate battle at Hereford, or Hereford. *T. Norton, History of the Parish of Kiddington, p. 48.*

Héptarchy. [Gr. *ἑπτά* = seven]

government. In the Saxon *héptarchy* 1 and 1000 of the army, about the Germans, of whom they descended, used shikels. *Chambers*.

England began not to be a people, when Alfred reduced it into a monarchy; for the national thereof were extant before, namely, under the *héptarchy*.—*Sir M. Hale, Translation of Malind*.

The next returning planetary hour
Of Mars, who shad'd the *héptarchy* of power,
His steps bold Arctio to the temple bent.

Dryden, Palamon and Arcite, iii. 290.

HER
HERDORUM }

Her. See Hc.

Herald. *s.* [N.Fr. *herault*.]

1. Officer whose business it is to register genealogies, adjust ensigns armorial, regulate funerals, and anciently to carry messages between princes, and proclaim war and peace.

May man, whose scatter'd names honour my book,
For strict degrees of rank or title look;
Tis 'gainst the manners of an epicure,
And I a poet here, no herald am.

B. Jonson.

Embassador of peace, if peace you chuse;
Or herald of a war, if you refuse.

Dryden.

2. Precursor; forerunner; harbinger.

It is the part of men to fear and tremble
When the most mighty gods, by tokens, send
Such dreadful heralds to astonish us.

Shakespeare, Julius Caesar, i. 3.

It was the lark, the herald of the morn,
Il. *Romeo and Juliet, iii. 3.*

3. Proclaimer; publisher.

After my death I wish no other herald,
No other speaker of my living actions,
But such an honest chronicler as Griffith.

Shakespeare, Henry VIII. iv. 2.

Herald. *v. n.* Introduce as by an herald.

We are sent
To give thee from our royal master thanks,
To herald thee into his sight, not pay thee.

Shakespeare, Macbeth, i. 3.

Heraldic. *adj.* Denoting genealogy; relating to heraldry.

The figures of herself and sir Thomas Pope, each
kneeling in these heraldic suits of arms.—*T. Norton, Life of Sir T. Pope, p. 109.*

Nature directs the thistle to honour the rose
above all other flowers, exclusive of the heraldic
meaning. *At, History of English Poetry, ii. 253.*

Heraldry. *s.*

1. Art or office of a herald.

I am writing of heraldry.—*Pemham.*
Grant her, besides, of noble blood that ran
In ancient veins, ere heraldry began.

Dryden.

2. Registry of genealogies.

'Twas no false heraldry, when madness drew
Her pedigree from those who (as much knew,
Sir J. Denham, Progress of Learning.

3. Blazoury.

Metals may blazon common beauties; she
Makes pearls and planets humble heraldry.

Chapman.

And has poetry no end, no eternal and immutable
principles? Is poetry, like heraldry, mere matter of
arbitrary regulation? The heralds tell us that
certain emblems and bearings denote certain
conditions, and that to put colours on colours, or
metals on metals, is false blazoury. If all this were
reversed, if every coat of arms in Europe were new
fashioned, if it were deemed that or should never be
placed but on argent, or argent but on or, that ille-
gitimacy should be denoted by a lozenge, and wi-
dowed by a bend, the new science would be just
as good as the old science, because both the new
and the old would be used for nothing. The num-
ber of Portcullis and Ranges brown, as it has no
other value than that which caprice has assigned to
it, may well submit to any laws which caprice may
impose on it. But it is not so with that great his-
tory art, the power of which all ages, the rudest,
and the most cultivated, bear witness. *Macanlan,
Critical and Historical Essay, Life of Lord Byron.*

Heraldship. *s.* Office, condition, or rank
of an herald.

Being by name president of ways, and by his
office of heraldship peace-maker, as an old stump
titles him [Mercury].—*Selden, Notes on Dryden's
Fulgensium, book 3.*

Herb. *s.* [Lat. *herba*.] Plant of compara-
tively small and soft growth as compared
with trees and shrubs.

Unhappy, from whom still conceal'd does lie
Of herbs and roots the harmless luxury. *Emley.*
If the leaves are of chief use to us, then we call
them herbs; as sage and mint.—*Watts, Logic.*
Herbs are those plants whose stalks are soft, and
have nothing woody in them; as grass and hemlock.
—*Locke.*

Herbaceous. *adj.*

1. Belonging to, having the nature of,
Ginger is the root of neither tree nor trunk; but
an herbaceous plant, resembling the water-flower-
de-luce.—*Sir T. Browne.*

2. Feeding on vegetables; perhaps not prop-
erly.

Their teeth are fitted to their food; the rapacious
to catching, holding, and tearing their prey; the
herbaceous to gathering and comminution of vege-
tables.—*Derham.*

Herbage. *s.* Herbs collectively; grass;
pasture.

Rocks lie cover'd with eternal snow;
Thin herbage in the plains, and fruitless fields.

Dryden.

At the time the deluge came, the earth was level'd
with herbage, and thronged with animals.—*Wood-
ward.*

Herbal. *s.* Book containing the names and
description of plants.

We leave the description of plants to herbaria, and
other like books of natural history.—*Bacon.*
As for the medicinal uses of plants, the large her-
bals are ample testimonies thereto.—*Dr. H. More,*
Antichilde against Atheism.

Herbal. *adj.* Pertaining to herbs.

The herbal savour gave his sense delight,
Quintus, History of Jonath, l. 3: 1620.
The least of herbal plants, [mustard-seed].—*Sir T.*
Browne, Miscellaneous, p. 24.

Herballist. *s.* Man skilled in herbs.

What every herballist knows, and physician, hath
written.—*Barthol, Anatomy of Man, p. 551.*
Older plants, and trees, and herbs, and flowers,
should constantly partake of the like decay... which
best physicians and herballists have not yet
found to be so.—*Hicknell, Apology, p. 115.*

Herballists have distinguished them, naming that
the one whose leaves are lighter, and fruit rounder.
—*Sir T. Browne.*

Herbar. *s.* 2. Collection of flowers.

The roof herbar was arched overhead,
And deck'd with flowers and herbars daintily.

Spenser, Faerie Queen.

Herbarism. *s.* Business or study of the
herbarist.

This strange kind of mallow is hidden among
the best writers to be a kind of marsh mallow
more excellent in *Hieracium* have set it down for
Lida Thymistris.—*Gerard, Herball, 798. (Ord MS.)*

Herbarist. *s.* One skilled in herbs.

Herbarists have exercised a commendable curi-
osity in subdividing plants of the same denomina-
tion.—*Boyle.*

He was too much swayed by the opinions then
current among herbarists; that different colours or
multiplicity of leaves in the flower were sufficient to
constitute a specific difference.—*Ray, Wisdom of
God manifested in the Works of the Creation.*

As to the fact, their seed hath been discovered
and showed me first by an ingenious herbarist.—*De Cavan.*

Herbarium. *s.* See Hortus sicens.

Herbarizing. *verb. abs.* Going about to
gather medicinal herbs.

The apothecaries' company very seldom miss com-
ing to Hampstead every spring, and here have their
herbarizing feast; and I have heard them often say,
that they have found a greater variety of curious
and useful plants near and about Hampstead than
in any other place.—*Saxton, Analysis of Hampstead
Water, p. 27: 1734.*

Herbary. *s.* Garden of herbs. *Rare.*

An herbary for furnishing domestic medicines,
always made a part of our ancient gardens.—*T.*
Watson, History of English Poetry, li. 231.

Herbelet. *s.* Small herb. *Rare.*

These herbelets, which we upon you sow,
Shakespeare, Cymbeline, iv. 2.

Herber. *s.* Arbour. *Rare.*

Till of fortune they entered the herber,
With trees shadowed far the sun shone,
Full of flowers and of berries green,
Wonder wholesome of sight and air.

Lynceus, The Story of Thebes, pt. iii. (Rich.)

Herbless. *adj.* Having no herbs.

His slumbers short, his bed the herbless ground,
Dryden, Amleth and Achitophel, pt. ii.
Near some rugged herbless rock,
Where no shepherd keeps his flock.

J. Walton, Ode to Solitude.

Herborization. *s.* Appearance of plants in
fossils.

Mr. Dantelton gives an account of three different
kinds of herborizations. The first, amongst which
are those found on rocks, are owing to parts of real
plants... The second sort are owing to the stone
containing particles of iron, which are so disposed
as to present ramifications, &c.—*Maly, Account of
History of Royal Academy of Sciences at Paris.*

Herborough. *s.* Harbour; lodgings.

The German lord, when he went out of Newgate
into the court, took order to have his arms set up in
his last herborough.—*J. Johnson, Discoveries.*

Herby. *adj.* Having the nature of herbs.

No substance but earth, and the procedures of
earth, as till and stone, yieldeth any moss or herby
substance.—*Bacon.*

Hercolean. *adj.*

1. One of extraordinary strength like that
of Hercules

But what's the end of thy Herculean labours?
B. Jonson, Masques at Court.

So row the Danits strong,
Hercules Samson, from the harlot lap
Of Philistine Dalilah.

Milton, Paradise Lost, ix. 1060.

2. Befitting Hercules; large; massy.

He is about to repeat the blow with an huge, her-
culean club.—*Drummond, Tragedy, p. 51.*

Herd. *s.* [A.S.; also *herd*.]

1. Drove of horned cattle.

To make a sweet saviour unto the Lord, of the
herd, or of the flock.—*Numbers, xv. 3.*
There did a herd of heifers wandering o'er
The neighbouring hill, and drive them to the shore.

Addison.

[*Herd*. A troop of cattle or the person who takes care
of them, in both of which senses *herde* was used in
Old German, Frisian, &c. (Kilian); German, *hirt* a
herdsman, used in composition, as *herd* in *Kuchel-
shepherd, cowherd*, &c. *Hirtin*, to herd cattle.
Probably the *herd* of cattle is named from the act of
herding, and not vice versa. Old Norse, *hirde*, to
keep, guard; *hirðingr*, a shepherd; *hirsk*, a herd of
cattle. French, *herde, troupe*, a herd of deer (i.e.
grave). The name of a herd of cattle is commonly
taken from the act of driving, and that again from a
representation of the cries used in setting on the
dog which performs by far the greater part of the
shepherd's work. We speak in English of a *drive*
of cattle, from *drive*, as Greek *aykai*, a herd, from
ayen, to drive. Magyar, *hajtani*, to drive, signifies
also to pasture cattle, and thence *hajtani*, a shep-
herd. . . . On the other hand, a plausible explanation
may be found in the point of view which regards
the penning of the flock as the most important part
of the shepherd's care, while the fencing must neces-
sarily recede to the fore for the purpose would be that com-
posed of hurdles or wattled branches. The office of
the shepherd then might naturally be named from
German *hurd*, a hurdle or wattled fence, *weiden*,
herde, a sheepfold. *Schafe* in the *Büden* then, in
fold sheep. At a much later period of history we
find wattled work employed as a defence in the
siege of cities, and the root *herd* is again connected
with the ideas of care and safety.

Et que redibant tutes hereditas muros,
Williamus Brito in Ducem,
Thurcare, to defend with wattled work, and even, a
appears, to prevail in general.—*Waldwood, Dic-
tionary of English Etymology.*

2. Company of men in contempt or detesta-
tion.

The imperial ends, who from the mount of heaven
View us their mortal herd, beheld who err,
And in their time chastise.

Ben Jonson and Fletcher, The Noble Shepherd.
Survey the world, and where one Cain shines,
Count a degenerate herd of Catinines.

I do not remember where ever God delivered his
oracles by the multitude, or warden truths by the
herd.—*Locke.*

Every man has remarked the indirect methods
made use of in the pursuit of wealth, in pursuit for
the most part prompted by pride; for to what end
is an ample fortune generally coveted? Not that
the possessor may have it in his power to rene-
distress, or recompense virtue; but that he may dis-
tinguish himself from the herd of mankind, by ex-
pensive vices, foreign luxuries, and a pompous re-
venge.—*Johnson, Sermons, no. 8, p. 112. (Ord MS.)*

3. Herdsman.

From thence into the open fields he fled,
Whereas the herds were keeping of their feed.

Spenser, Faerie Queen, vi. 3. 4.
No was there herd, no was there shepherd's sway,
But her did him war.

Ibid. vi. 3. 10.

Herd. *v. n.*

1. Run in herds or companies.

Weak women should, in danger, herd like deer.

Dryden.

It is the nature of indolence, like common danger,
to endure men to our accident, and make them herd
together, like fellow-sailors in a storm.—*Norris.*

2. Associate; become one of any number or
party.

I'll herd among his friends, and see
One of the number.

Run to towns, to herd with knaves and fools,
And undistinguished pass among the crowd.

Herd. *v. a.* Throw or put into a herd.

However great we are, honest and valiant,
Are herded with the vulgar.

B. Jonson, Catiline's Conspiracy.
The most in fields like herded beasts lie down.

Dryden, Anna Mirabilis.

Herdess. *s.* Shepherdess.

As a herdess in a summer's day,
Heat with the glorious sun's all purging ray.

W. Browne, Britannia's Pastorals.

Herdgroom. *s.* Keeper of herds.

But who shall judge the wagger won or lost?—
That shall you herdgroom, and none other.

Spenser.

herdman. s. One employed in tending herds: formerly an owner of herds.

The words of Amos, who was among the herdmen of Tekoa.—*Amos*, i. 1.

herdsman. s. Same as Herdman.

A herdsman rich, of much account was he,
Whom no evil did reign, or good appear.—*Sir P. Sidney*.

And you, enchantment,
Worthy enough a herdsman, if e'er thou
These rural inches to his entrance open, ...
I will devise a death as cruel for thee
As thou art tender to't.—*Shakespeare, Winter's Tale*, iv. 3.

Reared themselves know how to hold
A sheephook, or have learn'd aught else the least
That to the faithful herdsman's art belongs.—*Milton, Lycidas*, 119.

There oft the Indian herdsman, slumbering head,
Shelters in cool, and tends his pasturing herds
As loop-holes cut through the thickest shade.—*Milton, Paradise Lost*, ix. 1109.

So stands a Thracian herdsman with his spear
Full in the gap, and hopes the hunted bear.—*Dryden*.

The herdsman round
The cheerful fire, provokes his health in goblets
crown'd.—*Dryden, Translation of the Georgics*.

When their herdsman could not agree, they parted
by consent.—*Locke*.

hero. adv.

1. In this place.

I, upon my frontiers here,
Keep residence.—*Milton, Paradise Lost*, ii. 939.
Here Nature first begins
Her furthest verge.—*Ibid.*, ii. 1037.
How wretched does Prometheus' state appear,
While he his second misery suffers here!—*Cowley*.
To-day is ours, we have it here.—*Id.*

Used adjectively.

Before this hero approach,
Old Siward, with ten thousand warlike men,
All ready at a point, was waiting forth.—*Shakespeare, Macbeth*, iv. 3.

2. In the present state.

Thus shall you be happy here, and more happy
hereafter.—*Bacon, Advice to Villiers*.

3. It is used in making an offer or attempt.

'Tis finish'd.—*Dryden*.

4. In drinking a health.

Here's to thee, Dick.—*Cowley*.
However, friend, here's to the king, one cries;
To him who was the king, the friend replies.—*Prior*.

5. It is often opposed to there; in one place,
distinguished from another.

We are come to see thee fight, to see thee follow;
to see thee traverse, to see thee here, to see thee
there.—*Shakespeare, Merry Wives of Windsor*, ii. 3.
Then this, then that man's aid, they crave, im-
plore;
Put us to help, seek there their followers.—*Daniel*.

I would have in the heath some thickets made
of sweet-briar and honey-suckle, and some wild
vine amongst; and the ground set with violets; for
these are sweet, and prosper in the shade; and
these to be in the heath here and there, not in order.
—*Bacon*.

The devil might perhaps, by inward suggestions,
have drawn in here and there a single proselyte.—*Dr. H. More, Government of the Tongue*.

Your city, after the dreadful fire, was rebuilt, not
presently, by raising continued streets; but at first
here a house, and there a house, to which others by
degrees were joined.—*Bishop Saurin, Sermons*.

He that rides post through a country may be able
to give some loose description of here a mountain
and there a plain, here a morass and there a river,
woodland in one part, and savanna in another.—*Locke*.

6. Used substantively. Place; condition.

Bid them farewell, Cordelia, though unkind;
Thou lovest us here, a better where to find.—*Shakespeare, King Lear*, i. 1.

Neither here nor there. Out of place; ir-
relevant.

Good night: mine eyes do itch;
Doth that bode weeping?—'Tis neither here nor there.
—*Shakespeare, Othello*, iv. 3.

herabout. adv. About this place.

For all this sun, I'll hide me herabout;
His looks I fear, and his intent I think.—*Shakespeare, Romeo and Juliet*, v. 3.

herabouts. adv. About this place.

I saw herabouts nothing remarkable except
Augustus's bridge.—*Addison, Travels in Italy*.

herafter. adv.

1. In time to come; in futurity.

How worthy he is, I will leave to appear hereafter,
rather than stury him in his own hearing.—*Shakespeare, Cymbeline*, i. 6.

The grandchild, with twelve sons increased, de-
parts
From Canaan, to a land hereafter call'd
Egypt.—*Milton, Paradise Lost*, xii. 153.

Hereafter he from war shall come,
And bring his Trojans peace.—*Dryden*.

2. In a future state.

You shall be happy here, and more happy here-
after.—*Bacon*.

Used substantively.

'Tis the divinity that sits within us;
'Tis heaven itself that points out an hereafter,
And intimates eternity to man.—*Addison, Cato*, v. 1.

His superadded every little prospect of gain and
advantage which offers itself here, if he does not
find it consistent with his views of an hereafter.—*Id., Spectator*, no. 325.

The mind that is habituated to the lively sense of
an hereafter, can hope for what is the most terrify-
ing to the generality of mankind, and rejoice in what
is the most afflicting.—*Butler*, no. 133.

I still shall wait
Some new hereafter, and a future state.—*Prior*.

heredit. adv. At this.

One man coming to the throne, to receive his
dowry, with a garland in his hand, the throne,
offered heret, denominated what this singularity
could mean.—*Hooker, Ecclesiastical Polity*.

heredy. adv. By this.

In what estate the fathers rested, which were
dead before, it is not heredy either one way or
other determined.—*Hooker, Ecclesiastical Polity*.

Heredy the Muses are not excluded by heavily,
there being in this description no consideration of
colours.—*Sir T. Brown*.

The acquisition of truth is of infinite concern-
ment; heredy we become acquainted with the nature
of things.—*Id.*

hereditety. s. [Lat. *heres, heredis* - heir;
peto = seek.] Legacy-hunting.

The predilection of the officers to the church and
to the clergy, those more especially by bequest, is so
immoderate, that a law is necessary to restrain the
profuseness on one hand, and the avidity on the
other, a law which the statesman Ambrose and the
Monk Jerome approve, as denominated by the abuses
of the times. Priests of idols, mines, charioteers,
harlots may receive bequests; it is interdicted, and
wisely interdicted, only to ecclesiastics and monks.
The Church may already seem to have taken the
place of the Emperor as universal benefactor. As men
before bought by this posthumous adulation the
favor of Caesar, so would they now that of God.
Hereditety, or legacy-hunting, is interdicted almost
in the clergy especially, as by the older Statutes.
—*Milton, History of Latin Christianity*, b. i. ch. xi.

hereditary. adj. Capable of being pos-
sessed as inheritance.

Adam being neither a monarch, nor his imaginary
monarchy hereditary, the power which is now in
the world is not that which was Adam's.—*Locke*.

hereditament. s. Inheritance, or hereditary
estate.

Hereditament, says Sir Edward Coke, includes
not only lands and tenements, but whatsoever may
be inherited, be it corporeal or incorporeal, real,
personal, or mixed.—*Sir E. Coke, Commentaries on the Laws of England*.

hereditarily. adv. In a hereditary manner;
after the manner of an inheritance; by in-
heritance.

In this kingdom such were hereditarily honour'd
with it.—*Selden, Notes on Drayton's Polyolbon*,
song 11.

Tutelar respects, which those who are really and
hereditarily possessed of, can wield without any
such taint or suspicion of transiency.—*Bishop Hall, History*, p. 129.

Here is another, who thinks one of the greatest
glories of his father was to have distinguished and
loved him, and who loves you hereditarily.—*Pope, Letter to Swift*.

hereditary. adj. Possessed or claimed by
right of inheritance; descending by in-
heritance.

To thee and thine hereditary for ever,
Remain this ample third of our fair kingdom.—*Shakespeare, King Lear*, i. 1.

Thus while the mute creation downward bend
Their sight, and to their earthly mother tend,
Man looks aloft, and with erect eyes
Beholds his own hereditary skies.—*Dryden, Translation from Ovid*.

He [Lycurgus] possessed an ample hereditary
fortune; but he lived, like Phocion, with Spartan
implicity.—*Bishop Thirlwall, History of Greece*
etc. iv.

heredity. s. [Lat. *heres* = heir, and, in a
secondary sense, descendant generally.]
Hereditary transmission.

Already, in the last two chapters, the law of
hereditary transmission has been tacitly assumed. ...
Understood in its entirety, the law is, that each plant

or animal produces others of like kind with itself ...

That what produces wheat—that existing even
longer descended from ancestral even that every
unfolding organism eventually takes the form of the
class, order, genus, and species from which it springs;
is a fact which, by force of repetition, has acquired
in our minds almost the aspect of a necessity. It is
in this, however, that *heredity* is principally dis-
played: the phenomenon commonly referred to it
being quite subordinate manifestations. And, as
thus understood, *heredity* is universal. ... While,
however, the general truth that organisms of a given
type uniformly descend from organisms of the same
type, is so well established by infinite illustrations
as to have assumed the character of an axiom; it is
not universally admitted that non-typical pre-
ferences are inherited. ... Some naturalists seem to
entertain a vague belief that the law of *heredity*
applies only to main characters of structure, and
not to details; or, at any rate, that though it applies
to such details as constitute differences of species, it
does not apply to smaller details. The circumstance
that the tendency to repetition is in a slight degree
qualified by the tendency to variation (which, as we
shall hereafter see, is but an indirect result of the
tendency to perpetuity), leads some to doubt whether
heredity is unlimited. A careful weighing of the
evidence, however, and a due allowance for the in-
fluences by which the minor manifestations of
heredity are obscured, will remove the grounds for
this scepticism.—*H. Spencer, Introduction of Biology*.

heroin. adv. In this.

How highly severe it may please them with words
of truth to extol sermons, they shall not heroin
official us.—*Hooker, Ecclesiastical Polity*.

Since truths absolutely necessary to salvation
are so clearly revealed that we cannot err in them,
unless we be notoriously wanting to ourselves,
heroin the fault of the judgement is resolved into a
slight default in the will.—*South, Sermons*.

heroiné. adv. Into this.

Because the point about which we strive is the
quality of our laws, our first entrance heroiné
cannot better be made than with consider-
ation of the nature of law in general.—*Hooker, Ecclesiastical Polity*.

herof. adv. From this; of this.

Herof comes it that Prince Harry is valiant.
—*Shakespeare, Henry IV. Part II.*, iv. 3.

heron. adv. Upon this.

If we should strictly insist heron, the possibility
might fall into question.—*Sir T. Brown, Vulgar Errors*.

herout. adv. Out of this place.

A bird all white, well feather'd on each wing,
He sent up to the throne of God his king.—*Spenser*.

hermit. s. Hermit; hermit.

Hermita, and other varieties, professing only
devotion.—*Bishop Hall, Select Thoughts*, § 85.

heremical. adj. Relating to, connected
with, having the character of, suited for, a
hermit.

You describe so well your heremical state of
life, that none of the ancient monks could go
beyond you for a cave in a rock.—*Pope*.

herestarch. s. Head or founder of a
heresy.

The Pope declared him not only an heretic, but
a herestarch.—*Bishop Stillingfleet*.

The reform of the Church, in its head and in
all its members, was among the avowed objects, it
was the special function, of the Council of Con-
stance: the maintenance of the unity of the
Church a most noble heresy; the sup-
pression of heresies, which had arisen from these
seeds, had become a duty. ... In Constance would be seen of the in-
fluences of Christianity perhaps one only, but the
greatest, the Emperor. ... There might be three
Councils, each of whom had won, each best of him-
self the richest source of the Papal throne. They
were certainly the whole Council of the Councils,
the most famous and learned churchmen from every
kingdom of the West; even those devoted men
sixteenth, the heirs and successors of the Thirteenth
Council, who had nearly severed the kingdom of
Bohemia from Latin Christianity.—*M. von, History of Latin Christianity*, bk. xiii. ch. viii.

heresiarchy. s. [Gr. *heres* - rule, govern-
ment.] Principial heresy.

The book itself [the *Alemania*] consists of heresi-
archies against our blessed Saviour.—*Sir T. Brown, Relation of some Years' Travels into Africa and the Great Asia*, p. 323.

heresy. s. [Gr. *hairesis* - choice, originally
in a good, or indifferent, sense.] Opinion
of private men different from that of the
catholic and orthodox church.

Heresy prevails only by a counter-act show of
reason, whereby notwithstanding it becomes in-
vincible, unless it be convicted of fraud by manifest
reminiscence clearly true, and unable to be with-
stood.—*Hooker, Ecclesiastical Polity*.

As for speculative *heretics*, they work mightily upon men's wits; yet do not produce great alterations in states.—*Bacon*.

Upon this occasion, I cannot but take notice that of all the *heretics* in politics profusely scattered by the partisans of the late administration, none ever displaced me more, or seemed to have more dangerous consequences to monarchy; than that pernicious talent, so much affected, of discovering a contempt for birth, family, and ancient nobility.—*Swift, Examiner*, no. 31. (Ord. 118.)

Heretic. s.

1. One who propagates his private opinion in opposition to the catholic church.

These things would be prevented, if no known *heretic* or schismatick be suffered to go into those countries.—*Bacon*.

No *heretics* desire to spread Their wild opinions like these Epicureans.

Sir J. Davies.

When a Papist uses the word *hereticks*, he generally means Protestants; when a Protestant uses the word, he means any person wilfully and contumaciously obstinate in fundamental errors.—*Watts, Logic*.

2. It is or has been used ludicrously for any one whose opinion is erroneous.

I rather will suspect the sun with cold Than him that with wantonness; thy honour stands, In him that was of late an *heretick*, As firm as faith.

Shakespeare, Merry Wives of Windsor, iv. 3.

Heretical. adj. Containing heresy.

How exclude they us from being any part of the church of Christ under the colour of heresy, when they cannot but grant it possible, even for him to be, as touching his own personal persuasion, *heretical*, who in their opinion and only is of the church, but holdeth the chiefest place of authority over the same?—*Hobbes, Ecclesiastical Polity*.

Constantinople was in an uproar, upon an ignorant jealousy that those words had some *heretical* meaning.—*Dr. H. More, Decay of Piety*.

Heretofore. adv. Formerly; anciently.

I have long desired to know you *heretofore*, with honouring your virtue, though I love not your person.—*Sir P. Sidney*.

So near is the connection between the civil state and religious, that *heretofore* you will find the government and the priesthood united in the same person.—*South, Sermons*.

We now can form no more Long schemes of life, as *heretofore*.—*Swift*.

Hereticus. adv. This.

They which rightly consider after what sort the heart of man *hereticus* is framed, must of necessity acknowledge, that whoseasmuch to the world of eternal life, doth it in regard of his authority whose words they are.—*Hobbes, Ecclesiastical Polity*.

Agreeable *hereticus* might not be unwise to make children offend in tell a story of any thing they know.—*Logan*.

Heretupon. adv. Upon this.

The melancholy silence that follows *heretupon*, . . . raises in the spectators a grief that is inexpressible.—*Tidley*, no. 133.

Herewith. adv. With this.

You, fair sir, be not *herewith* dismayed, But constant keep the way in which ye stand.

Spenser.

Herewith the castle of Flame was suddenly surprised by the Scots.—*Sir J. Hayward*.

Herewithal. adj. Herewith.

When the salubrity of the earth and the air was impaired, and *herewithal* the excellency of the vegetable diet, men indulged themselves in all the kinds of excess.—*Grew, Cosmologia Sacra*, p. 188. (Ord. 114.)

Therely professing that *herewithal* he owed, and offered up himself body and soul, unto God.—*Ibid.*, b. iv. (Ord. 114.)

Heriot. s. [A.S. *hergenta* = warlike implement, hubbub, or chattel; from *here* = army, and *geatwe* = apparatus.] Fine paid to the lord at the death of a landholder, sometimes the best thing in the landholder's possession; usually, a beast.

This he detains from the ivy; for he should be the true possessory lord thereof, but the olive dispenseth with his conscience to pass it over with a complicit and an *heriot* every year.—*Huotell, Vocall Provost*.

Though thou consume but to renew, Yet love, as lord, doth claim a *heriot* due.

Cleveland.

I took him up as your *heriot*, and with intention to have made the best of him, and then have brought the whole produce of him in a purse to you.—*Dryden, Don Sebastian*.

Heriotable. adj. Subject, or liable, to the demand of an heriot.

The tenants are chiefly customary and *heriotable*.—*Barn, History of Cumberland and Westmoreland*, i. 174.

Heritable. adj. Capable to inherit whatever may be inherited.

By the canon law this son shall be legitimate and *heritable*, according to the laws of England.—*Sir M. Hale, Common Law*.

Heritage. s.

1. Inheritance; estate devolved by succession; estate in general.

Let us our father's *heritage* divide. *Spenser, Mother Hubbard's Tale*.

To cause to inherit the desolate *heritage*.—*Isaiah*, xlix. 8.

Look on me, and with all thine eyes, Male, female, yea *hermaproditic* eyes.

R. Johnson, Staple of News.

Hermaproditical. adj. Partaking of both sexes.

[These ladies] cry down, or up, what they like or dislike in a brain of fashion, with most masculine, or rather *hermaproditical*, authority.—*B. Johnson, Epilogue*.

There may be equivocal seeds and *hermaproditical* principles, that contain the radicality of different forms.—*Sir T. Browne*.

There is another kind of occasional dress in use among the ladies; I mean the riding habit, which some have not injudiciously styled the *hermaproditical*, by reason of its masculine and feminine composition.—*Guardian*, no. 119.

Hermaproditically. adv. After the manner of both sexes.

Unite not the views of both sexes in one; he not monstrous in iniquity, nor *hermaproditically* vicious.—*Sir T. Browne, Christian Morals*, i. 31.

Hermetical. adj. Relating to, constituted by, Hermeneutics.

The following is a list of *Hermetical* Treatises from the Revelation to the present time.—*Davidson, Sacred Hermeneutics*, ch. xv.

Hermeneutics. s. pl. [Gr. *ἑρμηνεία* = interpretation.] System, or principles, of interpretation.

The meaning of all language, written or spoken, is developed by the application of several laws, usually termed *Hermeneutics*. These principles, in their relation to scripture, are styled *Sacred Hermeneutics*; and their application to particular instances has received the name *Exegesis*.—*Davidson, Sacred Hermeneutics*, ch. 1.

Hermetis. adj. [from *Hermes* (*Triemegistus*) the name of a reputed Egyptian philosopher, to whom was attributed a profound knowledge of the mysteries of nature, especially those of a chemical kind.] Having the character of chemistry, alchemy, or magic.

Their seals, their characters, *hermetick* rings, Their zone of riches, and bright stone that brings Invisibility. *B. Johnson, Underwoods*.

Hermetical. adj. Same as Hermetic.

An *hermetical* seal, or to seal any thing hermetically, is to heat the neck of a glass till it is just ready to melt, and then with a pair of hot pincers to twist it close together.—*Quincy*.

The tube was closed at one end with diachylon, instead of an *hermetical* seal.—*Boyle*.

Hermetically. adv. According to the hermetical art: (its special application being

to the corking, sealing, or closing of vessels, so as to make them air-tight).

He suffered those things to putrefy in *hermetically* sealed glasses, and vessels close covered with paper; and not only so, but in vessels covered with fine lawn, so as to admit the air and keep out the insects: no living thing was ever produced there.—*Bentley*.

Hermit. s. [Gr. *ἑρμῆτης*.]

1. Solitary; anchorite; one who retires from society to contemplation and devotion.

You lay this command upon me, to give you my poor advice for your carriage in so eminent a place: I humbly return you mine opinion, such as an *hermit* rather than a courtier can render.—*Bacon, Advice to Villiers*.

He had been duke of Savoy, and after a very glorious reign, took on him the habit of a *hermit*, and retired into this solitary spot.—*Addison, Travels in Italy*.

2. Beadsman; one bound to pray for another.

For those of old, And the late dignities heap'd up to them, We rest your *hermits*. *Shakespeare, Macbeth*, i. 3.

Used adjectively.

As in the embryo of the *hermit-crab*, the two sides are alike; and as the embryo may be taken to represent the type from which the *hermit-crab* has been derived; we have in this case evidence that a symmetrically-bilateral form has been moulded into an unsymmetrically-bilateral form, by the action of unsymmetrically-bilateral conditions.—*Herbert Spencer, Principles of Biology*, ch. xiv. § 250.

Hermitage. s. Cell or habitation of a hermit.

By that painful way they pass Forth to an hill, that was both steep and high; On top whereof a sacred chapel was, And oaks a little *hermitage* thereby.

Spenser, Faerie Queene.

Go with speed To some forlorn and naked *hermitage*, Remote from all the pleasures of the world.

Shakespeare, Love's Labour's Lost, v. 2.

And may at last my weary age Find out the peaceful *hermitage*, The busy town and noisy cell, Where I may sit and rightly spell Of every star that heaven doth shew, And every herb that sips the dew.

Milton, Il Penseroso, 167.

About two leagues from Fribourg, we went to see a *hermitage*: it lies in the prettiest solitude imaginable, among woods and rocks.—*Addison, Travels in Italy*.

Hermitage. s. [from a vineyard so called.] French wine (in Burgundy) so called.

By the infusion of three drops out of one of his phials, he converted it into a most beautiful pale Burgundy. Two more of the same kind heightened it into a perfect languor; from thence it passed into a fluid *hermitage*.—*Addison, Tuller*, no. 131.

Hermitary. s. Religious cell annexed to some abbey; hermitage. *Rare*.

Chapels, monasteries, *hermitaries*, nunneries, and other religious houses.—*Huotell, Letters*, ii. 77.

The violet is truly the *hermitess* of flowers, affecting woods and forests.—*Parthenia Sacra*, p. 38: 1633.

Hermitical. adj. Suitable to a hermit.

You would have me resolve the *hermitical* and austere character into a timid, gloomy, and phlegmatic one.—*Coventry, Philomen*, conv. 1.

Hermodactyl. s. [Gr. *ἑρμῆς* = Mercury, the deity so called + *ἀκτύλα* = finger.] See extract.

Hermodactyl is a root of a determinate and regular figure, and represents the common figure of a heart cut in two, from half an inch to an inch in length. This drug was first brought into medicinal use by the Arabians, and comes from Egypt and Syria, where the people use them while fresh, as a vomit or purge; and have a way of roasting them for food, which they eat in order to make themselves fat. The dried roots are a gentle purge, now little used.—*Sir J. Hill, Materia Medica*.

Hern. s. See Heron.

Hernia. s. [Lat. *hernia*; Gr. *ἑρμία*.] In Surgery. Rupture. A *hernia* would certainly succeed.—*Nicolas, Surgery*.

Héro. s. [Lat. *heros*; Gr. *ἥρως*.] Man eminent for bravery.

I sing of *heroes* and of kings, In mighty numbers mighty things. These are thy honours, not that here thy bust Is mix'd with *heroes*, or with kings thy dust. *Pope*.

HERO

héroïne. s. Female hero. *Rare*; Heroine being the usual word.

In which were held, by mad decesses, Heroes and heroesses. *Chapman.*

héroïc. adj.

1. Productive of heroes.

Holingsbroke
From John of Gaunt doth bring his pedigree,
Being but the fourth of that *heroick* line.
Shakespeare, Henry VI. Part I. li. 5.

2. Noble; suitable to an hero; brave; magnanimous; intrepid; enterprising; illustrious.

Not that which justly gives *heroick* name
To person or to poem.

Milton, Paradise Lost, ix. 40.
Verse makes *heroick* virtue live,
But you can lift to verses give.

Waller.
He was buried, Diomedes says, with *heroïc* honours; but it does not appear that in this respect he was distinguished from the other citizens who had fallen in the war, and were afterwards interred with the usual pomp in the same ground which contained the sepulchres of the ancient heroes.—*Bishop Thirlwall, History of Greece, ch. iv.*

If there was any thing to disturb the complacency with which Phœdon contemplated this calm and orderly state of affairs, it was perhaps the petulance of Damocles, who, like a satyr by the side of a *heroic* person, would be committing some extravagance, or making some roughish speech, which tended to destroy the illusion of his graver friend's administration.—*Ibid. ch. lvii.*

3. Reciting the acts of heroes.

Metaphors *heroick* poetry, till now,
Like some fantastic fairy land did show. *Gayley.*
I have chosen the most *heroick* subject which any poet could desire: I have taken upon me to describe the motives, the beginning, progress and success of a most just and necessary war.—*Dryden.*
An *heroick* poem is the greatest work which the soul of man is capable to perform: the design of it is to form the mind to *heroick* virtue by example.—*Id.*

4. Applied to certain metres, i.e. those most used in heroic poetry.

The measure is English *heroick* verse without rhyme, as that of Homer in Greek, and of Virgil in Latin. *Milton, Introduction to Paradise Lost.*

héroïc. s. Heroic verse, which consists, in our poetry, of ten feet.

The Latin hexameter has more feet than the English *heroick*.—*Dryden.*

héroïcal. adj. Befitting an hero; noble; illustrious; heroic.

Musichorus was famous over all Asia for his *heroic* entertainments.—*Sir P. Sidney.*
Though you have courage in an *heroical* degree, I ascribe it to you as your second attribute.—*Dryden.*

héroïcally. adv. In an heroic manner; after the way of an hero; suitably to an hero.

Not *heroically* in killing his tyrannical cousin.—*Sir P. Sidney.*
Free from all meaning, whether good or bad;
And, in one word, *heroically* mad.
Dryden, Absolon and Achitophel, li. 410.

The Jacobites... not very consistently represented him at once as a poor uneducated artisan who was ignorant of the nature and tendency of the act for which he suffered, and as a martyr who had *heroically* laid down his life for the banished King and the persecuted Church.—*Macaulay, History of England, ch. 22.*

héroïcely. adv. Suitably to a hero; (*Heroically commoner*).

Samson hath quit himself
Like Samson, and *heroically* hath finish'd
A life *heroick*. *Milton, Samson Agonistes, 1709.*

héroïceness. s. Attribute suggested by Heroic; (*Heroism commoner*).

I cannot but value the other much better, if we regard the nobleness and *heroicness* of the nature and mind from whence they both proceed.—*Nir Koneim Digby, Observations upon Religious Meditation, (Ord M.S.)*

héroïcisme. adj. Consisting of a mixture of dignity and levity: (specially applied to compositions which are related to the epic (or heroic poem), in respect to their form and style, whilst in respect to their subject matter they are light, low, or ludicrous).

The Rape of the Lock, now before us, is the fourth, and most excellent of the *héroicomic* poems.—*J. Warton, Essay on the Genius and Writings of Pope.*

héroïcismeal. adj. Same as Heroicomic.

HERP

He offended Pope, by adopting the machinery of his *symples*, in an *herosimical* poem. *J. Warton, Essay on the Genius and Writings of Pope.*

héroïne. s. Female hero.

But inborn worth, that fortune can controul,
New-strung, and stiffer bent her softer soul;
The *héroïne* assum'd the woman's place,
Confin'd her mind, and forc'dly'd her face.

Dryden, Sigismund and Guiscardo, 374.
Then shall the British stage
More noble characters expose to view,
And draw her blush'd *héroïne* from yon *Asiatic*.

héroïsme. s. Qualities or character of an hero.

If the Odyssey be less noble than the Iliad, it is more instructive: the Iliad abounds with more *héroïsme*, this with more morality.—*Broome, Notes to the Odyssey.*

héron. s. [*A.S. hrugra.*] Native bird so called of the genus Ardea, especially Ardea cinerea.

So lords, with sport of stag and *heron* fall,
Sometimes we see small birds from nests do pull.
Sir P. Sidney.

The *heron*, when she soareth high, sheweth winds.
—*Bacon.*

Commonly pronounced, and often spelt, *hern*.

The tow'ring hawk let future poets sing,
Who terror bears upon his soaring wing:
Let them on high the frighted *heron* survey,
And lofty numbers paint their airy fray. *Gay.*

hérony. s. [generally pronounced *herny*.] Place where herons breed.

They carry their bad to a large *hérony* above
three miles.—*Berthou, Physics-Théologie.*

héronsbill. s. [generally pronounced *hernsbill*.] Native plant so called of the genus Erodium.

héronshaw. s. [*N.Fr. heronseau*; generally, when its import is understood, pronounced as spelt, i.e. *not* after the manner of Heron (sounded *Hern*); but, as may be seen in the extracts, often subject to the same alteration as its congeners. Of this we have an exaggerated catchword in the expression 'not know a *huck* from a *hundsaw*,' wherein neither the *hands* nor *saws* are involved, the meanings being *huck* and *heron*, as stated by Warburton in extract.] Heron.

As when a cast of faulcons make their flight
At an *heronshaw*, that lies aloft on wing.
The whyles they strike at him with headless might
The warie fowle his bill doth backward wring.

Spenser, Faerie Queene, vi. 7. 8.
I know a hawk from a *heronshaw*. (*Chaucer's* *Parlement*). This was a common proverbial speech. The Oxford editor alters it to: 'I know a hawk from a *heronshaw*;' as if the other had been a corruption of the players; whereas the poet found the proverb thus corrupted in the mouth of the people; so that the critic's attention only serves to show us the original of the expression. *Warburton.*

hérologist. s. Biographer of heroes.

Hale also mentions his comedy (Edward the 6th) called the *Where of Babylon*, which Heald the *hérologist*, who perhaps had never seen it, and knew not whether it was play or a ballad, in verse or prose, pronounced to be a most elegant performance.—*J. Warton, History of English Poetry, iii. 103. (Ord M.S.)*

héroschips. s. Character of a hero.

[He.] his three years of *héroschips* expired,
Returns indignant to the slightest blow.
Cooper, Task, li. iv.

hérops. s. [Latin and Greek.] Skin disease so called.

Herpes [is] a cutaneous inflammation of two kinds: miliaris, or pustular, which is like millet-seed upon the skin; and herpetiformis, which is more erosive and penetrating.

—*Quincy.*
A further progress towards acrimony maketh a *herpes*; and, if the excess of acrimony be very great, it maketh an *herpes* exulans. —*Winn, s.*

Herpetic eruptions consist in an eruption of vesicles, in distinct irregular clusters, upon inflamed bases which extend some hat beyond the margin of each cluster; attended by tingling, converging into lamellar scales, and not contagious. It is an inflammatory affection, chiefly of the vascular rete of the skin, causing the effusion of a thin fluid, which elevates the cuticle into groups of small vesicles. This affection occurs generally in circumscribed patches, the skin retaining its natural aspect in the intervals; passes through a regular course of increase, maturation, and decline; and terminates usually in from ten to fifteen days, but is sometimes prolonged to twenty-one days. It is frequently preceded by

HEST

constitutional disorder, and is sometimes critical of other diseases. The vesicles are filled at first with a colourless and clear fluid, which gradually becomes milky and opaque, and ultimately concretes into thin scales; but occasionally a discharge of it takes place, and ulcerations follow. Tingling or pricking pains sometimes attend the eruption. In some cases, as the crusts fall off in one part, fresh vesicles arise in the vicinity, and the eruption thus creeps over a large portion of the surface and its duration is thereby prolonged. There are several species of this disease. . . . This species of *herpes* is generally preceded by disorder of the digestive organs, and by slight febrile disturbance. It usually assumes an acute form, terminating within three weeks, but it sometimes becomes chronic. *Capland, Dictionary of Practical Medicine.*

hérring. s. [*A.S. herene.*] Sea-fish so called of the genus Clupea.

The *herst* is plentifully stored with roach fish, pike, *hersting*, mackerel, and cod.—*Curtis, Survey of the Herst.*

Buy my *hersting* fresh. *Swift.*

Since that our brother dubb'd them gentlewomen,
Are mighty gossip in this monarchy. *Shakespeare, Richard III. i. 1.*

2. Being in her own power; mistress of her own thoughts.

The more she looks, the more her fears increase
At nearer sight, and she's *herself* the less. *Dryden.*

3. Oblique case of the reciprocal pronoun.

The daughter of Pharaoh came down to wash *herself*.—*Exodus, li. 5.*
Her wise ladies answered her, yea, she returned answer to *herself*.—*Judith, v. 29.*

héry. o. a. [*A.S. herian.*] Hallow; regard as holy.

Then, now us the time of merry-making,
Nor than to *héry*, nor with Love to play;
Sike with in May is meetest for to make,
Or summer shade, under the cocked bay.

Spenser, Shepherds' Calendar.
But were thy years green, as now be mine mine,
Then wouldst thou learn to card of love,
And *héry* with hymns thy lass? *Thid.*

hésitancy. s. Dubiousness; uncertainty; suspense.

The reason of my *hésitancy* about the air is, that I forgot to try whether that liquor, which shot into crystals, exposed to the air, would not have done this like in a vessel accurately stopp'd. *Bryce.*

Some of them reasoned without doubt or *hésitancy*, and lived and died in such a manner as to show that they believed their own reasonings. *Rankin, Athlary.*

hésitant. adj. Pansing; wanting volubility of speech.

He was a man of no quick utterance, but often *hésitant*; but spoke with great reason. *Bach, Life and Times, p. iii. p. 47.*

hésitate. v. n. [*Lat. hesitatus, pass. part. of hesito.*] Be doubtful; delay; pause; make difficulty.

A spirit of revenge makes him curse the Gae in the seventh book, when they *hésitate* to see Hector's challenge. *Pope.*

hésitate. v. n. Indicate by hesitation; express in a hesitating manner.

Willing to wound, and yet afraid to strike,
Just hint a fault, and *hésitate* dislike;
Alike reserv'd to blame or to commend,
A timorous foe, and a suspicious friend.
Pope, Epistle to Artel.

hésitation. s.

1. Doubt; uncertainty; difficulty made.

I cannot foresee the difficulties and *hésitation* every one; they will be more or fewer, according to the capacity of each person. *Woodward.*

2. Intermission of speech; want of volubility

Many clergymen write in so diminutive a manner, with such frequent blots and intermissions, that they are hardly able to go on without perpetual *hésitations*.—*Swift.*

hest. s. Behest, of which it is the older and simpler form.

The sacred things and holy *hester* behest.
Spenser, Faerie Queene.

Thou wast a spirit too delicate
To set her earthly and abhor'd commands,
Refusing her grand *hester*. *Shakespeare, Tempest, i. 2.*

hestern. adj. [*Lat. hesternus.*] Belonging to yesterday.

So if a charadeur should misreport exploits that were enterprised but *hetera-day*.—*Holinshead, History of Ireland*, ii. s. col. 2. (Narra, by H. & W.)

Heterarchy. *s.* [Gr. ἑτερο- = another + ἀρχή = command.] Government of an alien.

It is a joy to think we have a king of our own; our own blood, our own religion; . . . otherwise, next to slavery, is *heterarchy*; neither do we find much difference betwixt having no head at all, and having another man's head on our shoulders.—*Bishop Hall, Sermons, Christ and Caesar*.

Heterocæral. *adj.* See Homocæral.

Heteroclit. *s.* [Gr. ἑτερο- = another, different, deviating, abnormal, irregular; κλίσις = bending, inflection; κλίσις = bending, inflectional.]

1. See extract.

Such nouns as vary from the common forms of declension, by any redundancy, defect, or otherwise, are called *heteroclitæ*.—*Clarke*.

2. Any thing or person deviating from the common rule.

Heteroclitæ, which no new hospital can hold, no physick help.—*Burton, Anatomy of Melancholy*, to the reader.

There are strange *heteroclitæ* in religion nowadays.—*Hurd, Letters*, iv. 33.
Here only riddles lie,
And *heteroclitæ* in physiognomy.

—*Crescend, Poems*, p. 32.

Heteroclitæ. *adj.*

1. Denoting nouns varying from the common forms of declension.

The *heteroclitæ* nouns of the Latin should not be taken in the first learning of the rudiments of the tongue.—*Watts*.

2. Deviating from common rules; singular.

Upon a general view of his poetry, we shall find him, as in his other performances, an uncommon, surprising, *heteroclitæ* genius.—*Karl of Opper, Remarks on the Life and Writings of Dr. Swift*, p. 120.
It is impossible for a man of sense to countenance the northward that may be given him by facts, or *heteroclitæ* characters, because in running forewee them.—*Shenstone*.

Heteroclitical. *adj.* Deviating from the common rule.

In the mention of sins *heteroclitical*, and such as want either name or precedent, there is oft times a sin, even in their histories.—*Sir T. Browne, Vulgar Errors*, *rs.*

Heteroclitous. *adj.* Varying from grammatical declension.

Parrot-like, repeating *heteroclitous* nouns and verbs.—*Sir W. Kelly, Address to Lord B.*, p. 23: 1648.

Heterodox. *adj.* [Gr. ἑτερο- = opinion.] Deviating from the established opinion: (as opposed to orthodox).

Partiality may be observed in some to vulgar, in others in *heterodox* truths.—*Locke*.

Heterodox. *s.* Peculiar opinion. *Rare*.

Not only a simple *heterodox*, but a very hard paradox it will seem, and of great absurdity, if we say attraction is unjustly appropriated unto the loadstone.—*Sir T. Browne, Vulgar Errors*.

Heterodoxal. *adj.* Heterodox. *Rare*.

This new piece of philosophy comes to water in the new year, dropped from the brain of the noblest spirits of France, and the great personages, the duke of Burgundy, though *heterodoxal* and cross-grained to the old philosophers.—*Hurd, b. iv. 15.* (Ord M.)

Heterodoxy. *s.* Quality of being heterodox. Pelagianism and Socinianism, with several other *heterodoxies* count to, and dependant upon them.—*South, Dedication of his Sermon to the University of Oxford*.

Heterodoxies, false doctrines, yea and heresies may be propagated by prayer as well as preaching.—*Bishop Hall, Works*, ii. 662.

(See also under Doxy.)

Heterogene. *adj.* [Gr. ἕτερο- = kind.] Differing in kind; dissimilar.

An old French hood,
And other pieces, *heterogene* enough.

—*H. Johnson, New Inn*.
All the guests are no meer *heterogene*,
And strangers, no man knows another.

—*Id., Magnetical Lady*.

Heterogeneous. *adj.* Differing. *Rare*.

Let the body adjacent and ambient be not commaterial, but merely *heterogeneous* towards the body that is to be preserved: such are quicksilver and white amber to horn and flies.—*Bacon, Natural and Experimental History*.

Whatever next presents itself, his heavy elbow, a scissel upon, and goeth along with, however *hetero-*

gent to his matter in hand.—*Donne, Character of a Dupee*.

The light, whose rays are all alike refrangible, I call simple, homogeneous, and similar; and that whose rays are some more refrangible than others, I call compound, *heterogeneous*, and dissimilar.—*Sir I. Newton, Opticks*.

Heterogenity. *s.* Opposition of nature; contrariety of dissimilitude of qualities.

Chalcum, burnt with an open fire in a chimney, is sequestered into ashes and soot; whereas the same wood, distilled in a retort, does yield for other *heterogenities*, and is resolved into oil, spirit, vinegar, water, and charcoal.—*Boyle*.

Finally, when we remember how rapidly analogous modifications of function and structure arise in the superficial tissues of individual plants, the general inference can scarcely be resisted. When we meet with so striking a case as that of the Begonia, a fragment of which stuck in the ground produces roots from its under surface and leaves from its upper surface . . . the presumption becomes extremely strong that the *heterogenities* of surface which we have considered, result, as alleged, directly or indirectly, from *heterogenities* in the incident forces.—*Robert Brown*.

Heterogeneous. *adj.* Opposite or dissimilar in nature; which cannot be arranged one under another.

That which may be added to, or subtracted from, a right-lined angle, is homogeneous to it; because *heterogeneous* quantities are not capable of addition or subtraction.—*Wallis, Correction of Hobbes*, § 1.

I have observed such *heterogeneous* bodies, which I found included in the mass of this sandstone.—*Hoodward*.

Heterogeneously. *adv.* In a heterogeneous manner.

I never yet heard of any one, whose eyes were so *heterogeneously* organized, or so strangely united, that they would not bear the effort of darkness.—*Knight, On Taste*. (Ord M.)

Heterogeneousness. *s.* Attribute suggested by heterogeneous.

Dissimilitude of style, and *heterogeneousness* of sentiment, may sufficiently show that a work does not really belong to a reputed author.—*Johnson, Edition of Shakespeare, Observations on Henry VI. Part III.* (Ord M.)

Heteropathic. *adj.* [Gr. πάθος = suffering.] Regulating by a different action, force, or law.

Again, laws which were themselves generated in the second mode, may generate others in the first. Though there be laws which, like those of chemistry and physiology, own their existence to a branch of the principle of composition of causes, it does not follow that these peculiar, or, as they might be termed, *heteropathic* laws, are not capable of composition with one another. The causes which by one combination have had their laws altered, may carry their new laws with them unaltered into their ulterior combinations. And hence there is no reason to despair of ultimately raising chemistry and physiology to the condition of deductive sciences; for though it is impossible to deduce all chemical and physiological truths from the laws or properties of simple substances or elementary agents, they may possibly be deducible from laws which commence when these elementary agents are brought together into some moderate number of not very complex combinations.—*J. S. Mill, System of Logic*, b. iii. ch. vi. § 2.

Heteroptics. *s.* [see Optics.] Peculiar or wrong-view.

This irregularity in vision, together with such enormities as tipping the wink, the circumspicuous roll, the side-jump through the head or fan, must be put in the class of *heteroptics*, as all wrong notions of religion are ranked under the general name of *heterodox*.—*Spectator*, no. 250. (Ord M.)

Heterosclan. *adj.* [Gr. σκία = shade.] Having the shadow only one way.

The noon-shadows are *heterosclan*.
—*Gregory, Posthumus*, p. 300: 1650.

Hétman. *s.* [Turkish; whence introduced into the Russian, as 'the hetman of the Kosnks.'] Captain; head man.

Among the rest, Mazepa under
His pillow in an old oak's shade—
Himself as rough, and scarce less old,
The Ukraine's *hetman*, calm and bold.

—*Byron, Mazeppa*.

Héviour. *s.* [?] See extract.

This word does not occur in the dictionaries; but it means a male fallow-deer gelded, which is so called upon the same footing as a stone-horse in French is called *cheval-entier*. . . . Many, through ignorance of the etymology, [he?] will call it *heviour*, which is very absurd, and puts me in mind of a worthy gentleman, who told me he once wanted to send half of one of these cut bucks as a present, but when he

came to write about it, could not spell the proper term, and could get no information about it; and as he did not care to give it wrong, he at last omitted sending it.—*Pope, Anonymiana, or Ten Centuries of Observations*, iv. 42.

Hew. *v. a.* past part. *hewn* or *hewed*. [A.S. *heawan*.]

1. Cut by blows with an edged instrument; huck.

Upon the joint the lucky steel did light,
And made such way that *hew'd* it quite in twain.

—*Spenser*.
One Vane was so grievously *hewn*, that many thousands have died of less than half his hurts, whereas he was cured.—*Sir J. Hayward*.

2. Chop; cut.

He from deep wells with engins water drew,
And w'd his noble hands the wood in *hew*.

—*Dryden, Palamon and Arcite*, l. 587.
3. Cut, as with an axe: (with the particles *down*, when it signifies to fell; *up*, to excavate from below; *off*, to separate).

He that depends
Upon your favours, swims with this of lead,
And *hews down* oaks with rushes.

—*Shakespeare, Coriolanus*, i. 1.
Yet shall the axe of justice *hew* him down,
And level with the root his lofty crown.

—*Sandys*.
We'll *hew* the gate where Marsus keeps his guard,
And *hew down* all that would oppose our passage.

—*Addison, Cato*.
4. Form or shape with an axe: (with *out*).

Thou hast *hewed* thee out a sepulchre here, as he that *hewed* him out a sepulchre on high.—*Isaiah*, xli. 16.

This river rises in the very heart of the Alps, and has a long valley that seems *hewn out* on purpose to give its waters a passage amidst so many rocks.—*Addison, Travels in Italy*.

5. Form laboriously.

The gate was adamant; eternal frame;
Which, *hew'd* by Mars himself, from Indian quarries came,
The labour of a god.

—*Dryden, Palamon and Arcite*, ii. 551.
I now pass my days, not studious nor idle, rather
polishing old works than *hewing out* new.—*Pope, Letter to Swift*.

Hew. *s.* Destruction by cutting down.

Then to the rest his wrathful hand he lends;
Of whom he makes such havoc and such *hew*,
That swarms of damned souls to hell he sends.

—*Spenser, Faerie Queen*, vi. 8. 10.

Héwer. *s.* One who hews; one whose employment is to cut wood or stone.

From the *hewer* of thy wood unto the drawer of thy water.—*Deuteronomy*, xxi. 11.

And Solomon had fourscore thousand *héwers* in the mountains. — *1 Kings*, v. 15.

That is, *héwers* of stone: for timber was *hewed* by Hiram's servants in Lebanon.—*Bishop Patrick*.

Hexagon. *s.* [Gr. ἑξ = six, γωνία = angle.] Figure of six sides or angles.

The spaces about any point may be filled up with . . . three *hexagons*.—*Ray, Wisdom of God manifested in the Works of the Creation*. (Rich.)

Hexagonal. *adj.* Having six sides or corners.

The regular figures of cubes, as the *hexagonal* of crystals.—*Glanville*. (Rich.)

Many of them shoot into regular figures; as crystal and bastard diamonds into *hexagonal*.—*Boy*.

Hexagony. *s.* Figure of six angles. *Rare*. When I read in St. Augustine of *hexagones*, or six-angular pillars of bees, did I therefore conclude that they were antihexagons?—*Archbishop Bramhall, Against Hobbes*.

Hexameter. *s.* [Gr. μέτρον = metre.] Verse of six feet.

The Latin *hexameter* has more feet than the English *heptameter*.—*Dryden*.

Mr. Chiswick was inflexible. He thought the years which had already been wasted on *hexameters* and pentameters quite sufficient.—*Macaulay, Critical and Historical Essays, Warren Hastings*.

Hexameter. *adj.* Having six metrical feet. Like Ovid's *Fuul*, in *hexameter* and pentameter verse.—*J. Warton, Essay on the Writings and Genius of Pope*.

Hexametric. *adj.* Consisting of hexameters.

That Ovid among the Latin poets was Milton's favourite, appears not only from his elegiac but his *hexametric* poetry.—*T. Warton, Preface to Milton's Smaller Poems*.

Hexamétrical. *adj.* Hexametric.

I have already cited his version of Neugger's *hexamétrical* poem.—*T. Warton, History of English Poetry*, iii. 458.

Hexangular. adj. Having six corners.
Hexangular sprigs or shoots of crystal.—Woodward.

Hexapod. s. [Gr. *πῑς*, *πῑς*=foot.] Animal with six feet: (in the extract treated as a Greek word). See *Insect*.
I take those to have been the *hexapodes*, from which the greater sort of beetles came: for that sort of *hexapodes* are eaten in America.—Ray.

Hexastich. s. [Gr. *στῖχ*, *στῖχ*=row, rank.] Poem of six lines.
His request to Diana is an *hexastich*.—Selden, *On Dryden's Polyphonic*, song 1.
That famous *hexastich* which Rarnazarius made. —Howell, *Letters*, l. 1. 36.

The following *hexastich* on a similar subject, is of the same rude period.—T. Warton, *History of English Poetry*, l. 36.

Hey. interj. Expression of joy, or mutual exhortation.

Shadwell from the town retires,
To bless the world with pleasant lyrics:
Then *hey* for praise and jangleyrick. —Prior.

Heyday. interj. Expression of frolic and exultation, and sometimes of wonder.
Twas a strange riddle of a lady,
Not love, if any lov'd her, *heyday*!

Butler, *Hudibras*.

Heyday. s. Frolic; wildness.
At your age
The *heyday* in the blood is tame, it's humble,
And waits upon the judgement. —Shakespeare, *Hamlet*, iii. 4.

Heydeguy. s. [?] Dance so called.

Friendly Faeries, met with many Graces,
And light-foot Nymphs, can chase the limning night
With *heydeguyes* and truly frolic dances.
—Spenser, *Shepherd's Calendar*, June.
Our banquet done, we had our music by,
And then, you know, the youth must needs guidance,
First, galliards: then, lancers; and *heydeguyes*.
—Beeton, *Works of a Young Wit*, 1577.
The nimble Cambrion rills
Dance *hey-day-gies* amongst the hills.
—Dryden, *Polyphonic*, song 5, are.
There is much probability that *hey* as a dance was only an abbreviation of this (*heydeguy*), though a very early one.—Nares, *Wright and Italian*, l.

Hiatio. s. Act of gaping.

Men observing the continuing *hiatio*, or holding open of the camelion's mouth, conceive the intention thereof to receive the alimant of air; but this is also occasioned by the greatness of the lungs.—Sir T. Browne, *Vulgar Errors*.

Hiatus. s. [Lat. *hiatus*=gaping, from *hio*=gape.]

1. Aperture; gaping breach.

Those *hiatuses* are at the bottom of the sea, whereby the abyss below opens into and communicates with it. —Woodward.

2. Opening of the month by the succession of an initial to a final vowel.

The *hiatus* should be avoided with more care in poetry than in oratory; and I would try to prevent it, unless where the cutting off is more prejudicial to the sound than the *hiatus* itself.—Pope.

Hibernial. adj. [Lat. *hibernus*=wintery.]

Belonging to the winter.

This star should rather manifest its warming power in the winter, when it remains conjoined with the sun in its *hibernial* conjunction.—Sir T. Browne, *Vulgar Errors*.

Hibernato. v. n. Pass the winter in a state of torpidity.

Hibernation. s.

1. Condition of an animal that hibernates.

There is a certain growth of warm-blooded animals (wherein) the temperature of their bodies . . . may be brought down nearly to freezing point . . . and yet the vital properties be retained. . . This state is called *hibernation*. In the mammal, and animals which, like it, *hibernate* completely, the temperature of the body and the general vital activity are proportionally depressed. . . the condition of a *hibernating* mammal closely resembles that of a cold-blooded animal.—Carpenter, *Principles of Physiology*, § 84.

2. Going into winter quarters.

The next day . . . the vicer (Marched) to Diar-behir, for his *hibernation*.—Continuation of *Kutub History of the Turks*, p. 1463. (Ord MS.)

Hibernating. part. adj. Having the nature of that which hibernates. See *Hibernation*.

Hibernicism. s. [Lat. *Hibernicus*.] Mode of speech peculiar to natives of Ireland.

Perhaps there cannot be anywhere found a more striking instance of this species of nonsense, hibernicism styled *Hibernicism*, than we meet with here.—Scott, *Critical Essays*, p. 14. (Ord MS.)

Hiccupdoctus. s. Cant word for a juggler; one who phys first and loose.

An old dull wd, who told the clock
For many years at Bridwell dock,
At Westminster and Hickes's-hall,
And *hiccupdoctus* play'd in all;
Where, in all governments and times,
H' had been both friend and foe to crimes.

Butler, *Hudibras*.

Hiccup. s. Sudden cough so called; singultus.

So by an allday's skeleton of late,
I heard an echo supererogate
Through imperfection, and the voice restore,
As if she had the *hiccup* o'er and o'er, *Choirland*,
Sneezing curd the *hiccup*, and is prodigal
unto women in hard labour.—Sir T. Browne, *Vulgar Errors*.

If the stomach be hurt, singultus or *hiccup* follows.—Wiseman, *Surgery*.

Hiccup. v. n. Sob with a convulsed stomach.

Quoth he, to bid me not to love,
Is to forbid my pulse to move,
My heart to grow, my ears to prick up,
Or, when I'm in a fit to *hiccup*. —Butler, *Hudibras*.
The column orbicled on the assault scarce pass'd
Beyond the Russian batteries a few toises,
When up the bridling Moslem rose at last,
Answering the Christian thunders with like voice;
Then one vast fire, air, earth, and stream embras'd,
Which rock'd as 'twere beneath the mighty nois; while
the whole rancor blaz'd like Etna, when
The restless Titan *hiccup* in his den.

Byron, *Don Juan*, viii. 7.

Vomiting and *hiccup* are also occasionally present, particularly if the diaphragmatic pleura is implicated.—Copland, *Dictionary of Practical Medicine*.

Hickory. s. [?] Wood so called.

A sample of gaudy parrot's feathers were stuck through the division of the nostrils; there was a blue stone set in the chin; her ear-rings consisted of two pieces of *hickory*, of the size and shape of drumsticks; her arms and legs were adorned with bracelets of wampum; her breast glittered with numerous strings of glass beads; she wore a curious pouch, or pocket, of woven grass, elegantly painted various colours; about her neck was hung the fresh scalp of a Mohawk warrior, whom her deceased lover had lately slain in battle; and, finally, she was mounted from head to foot with bear's grease, which sent forth a most agreeable odour.—Smith, *Expedition of Humphry Clarke*.

Hickwall, or Hickway. s. [?] Woodpecker.

'Tis this same herb your *hickways*, alias woodpeckers, use.—1511, *Translation of Babelais*, iv. 63. (Nares by H. & W.)

Hiddeuly. adv. In an hidden manner.

These things have I *hiddeuly* spoke, and yet not so secretly, but that they might very well take notice of it.—Cotterell, *The Schiame*, d.

In some maps you shall find the miles then *hiddeuly* set down, as in that of Artois in Ortelius, and elsewhere.—Gregory, *Posthumus*, 316. (Ord MS.)

Hidalgo. s. [Spanish.] One of noble birth.

Of all the injuries which he had endured, this was the greatest; that he, an *hidalgo*, a gentleman of Spain, should live to be a servant.—Terry, *Voyage to East India*, p. 167: 1653.

Hide. v. a. preterite *hid*; past part. *hid* or *hidden*. [A.S. *hydan*.] Conceal; withhold or withdraw from sight or knowledge.

Away, and quit my sight: let the earth *hide* thee!

Thus the sire of gods and men below:
What I have *hid*, I hope not that to know.

—Dryden, *Shakespeare, Macbeth*, iii. 4.

The crafty being makes a much longer voyage than Ulysses, puts in practice many more wiles, and *hides* himself under a greater variety of shapes. —Add.

He troubles at the sight, and *hides* its head in utmost darkness, while on earth each heart is fill'd with peace. —Bosc, *Royal Concert*.

Hide. v. n. Lie hid; be concealed.

Our ladder tents in full view display'd;
Your virtues open first in the shade:
Bred to disguise, in publick 'tis your *hide*,
Where none distinguish 'twixt your shame and pride,
Weakness or dignity. —Pope, *Moral Essays*, ep. ii. 201.

Hide and seek. Play in which some hide themselves, and another seeks them.

The boys and girls would venture to come and play at *hide and seek* in his hair.—Swift, *Gulliver's Travels*.

1. Skin of any animal, either raw or dressed.

The trembling weapon past
Through yine bull *hides*, each under other plac'd
On his broad shield.
Pierced his was first to grasp their hands,
And spread soft *hides* upon the yellow sands.
—Pope, *Translation of the Odyssey*, iii. 47.

2. Of a human being. *Rhetorical and contemptuous.*

Oh, twer's heart, wrapt in a woman's *hide*!
How could'st thou strain the life-blood of the child?
—Shakespeare, *Henry VI. Part III.* l. 4.
His mantle, now his *hide*, with raven'd hairs
'Twas on his back; a famish'd face he wears.

—Dryden.

Hide. s. [Low Lat. *hida*.] Measure of land.

One of the first things was a more particularquisition than had been before of every *hide* of land within the precincts of his conquest, and how they were holden. —Sir H. Wotton.

When the realm was first divided into *hides*, a *hide* contained 120 acres, that is, 120 according to English measure. The just value of a *hide*, that might fill the whole kingdom, never appears from Domesday was over of an uncertain quantity. —Kilham, *A Township Book*.

Hidebound. adj. See extract.

1. Morbidly tight in the skin.

A horse is said to be *hidebound* when his skin sticks so hard to his ribs and back, that you cannot with your hand pull up or loosen the one from the other. It sometimes comes by poverty and bad keeping; at other times from over-riding, or a surfeit. —Barre's Dictionary.

2. In *Horticulture*. Being in the state in which the bark will not give way to the growth; barkbound.

A rack of a tree may be *hidebound*, but it will not keep open without some what put into it. —Bacon, *Natural and Experimental History*.

Like stunted *hidebound* trees, that just have got
Sufficient sap at once to bear and rot. —Swift.

3. Harsh; untractable.

To hold or alter what precisely accords with the *hidebound* humour, which he calls his judgement. —Milton, *Apostrophe*.
And still the harder and *hidebound*
The damsel prove, become the fowler.

—Butler, *Hudibras*.
In detestation of the former, which they observe to be often absurd and unreasonable, but always *hidebound* and fantastical. —Gibbon, *Winter Excursion Conference*, pt. 1.

4. Niggardly; penurious; parsimonious.

He hath wealth; yet he will scarce use it, though to purchase his own health; but starves his poor *hidebound* carcase, and impoverisheth his body to enrich his purse. —Shaffer, *Noble*, pt. l. p. 91: 1611.
With my purse been *hidebound* in my luxury brother? —Quarles, *Judgement and Mercy*, *The Swearer*.
Care and sleepless nights tormented with continual fashines a *hidebound* miser. —Situation of Paradise, c. 7: 1683.

Hideous. adj. [Fr. *hideux*.]

1. Horrible; dreadful; shocking; formidable.

He have turned himself to as many forms as Proteus, every form should have been made *hideous*. —Sir P. Sidney.
Her eyes grew stiffen'd, and with sulphur burn;
Her *hideous* looks and hellish form return;
Her curling snakes with hissing fill the place,
And open all the furies of her face.

—Dryden, *Translation of the Æneid*, vii. 624.

'Tis forced through the hideousness at the bottom of the sea with such violence, that it puts the sea into the most horrible disorder, making it rage and roar with a most *hideous* and amazing noise. —Woodward.

2. It is used by Spenser in a sense not now retained; detestable.

O *hideous* hunger of daniellon, —Spenser.

Hideously. adv. In a hideous manner; horribly; dreadfully; in a manner that shocks.

I ruin myself

To welcome the condition of the time;
Which cannot look more *hideously* on me,
Than I have drawn it in my fantasy. —Shakespeare, *Henry VI. Part II.* v. 2.

This, in the present application, is *hideously* profane; but the sense is intelligible. —Collier, *Defense*.

Hideousness. s. Atrillate suggested by

hideous.

Go notice, and shew outward *hideousness*. —Shakespeare, *Much Ado about Nothing*, v. 1.

She presented in her treaty glass
The faithful copy of my *hideousness*. —Barnum, *Psychic*, p. 70: 1651.

Hiding. verbal abs. Concealment; act of withholding from sight.

There was the *hiding* of his power. —Habbukuk, iii. 4.

I never gave any directions about the flower-pots, said Young. Then the whole council broke forth. 'How dare you say so? We all remember it.' Still the knave stood up erect, and exclaimed, with an impudence which Oates might have envied, 'This *hiding* is all a trick got up between the Bishop and Blackford. The Bishop has taken Blackford off; and they are both trying to stifle the plot.'

This was too much. There was a smile and a lifting up of hands all round the board.—*Macaulay, History of England*, ch. xvii.

Hiding, *v.* [from *hide* = skin.] Beating. Colloquial.

Hiding-place, *s.* Place of concealment.

A fox, hard run, beyond of a countymann to help him to some *hiding-place*.—*Sir R. L'Estrange*.

The great *hierarchal* standard was to move. —*Milton, Paradise Lost*, v. 701.

Hierarcheal, *adj.* Belonging to sacred or ecclesiastical government.

This epistle [of St. Paul to Titus] is one of the three, not unfrequently styled the *hierarcheal* epistles, 'de statu ecclesiasticis compositæ,' as Tertullian speaks; being so many rescripts appendical to Timothy, and Titus; (the one, desired by St. Paul to stay at Ephesus, primate of Asia; the other, left in Crete, metropolitan of that and the neighbour islands) directing them, how they ought to behave themselves in the house of God, &c.—*Archbishop Bancroft, Sermons*, p. 1.

Bishop Hall was the defender of our *hierarcheal* establishment.—*T. Warburton, History of English Poetry*, iv. 2.

The history of Latin Christianity may be traced in its more favoured saints, first martyrs, then bishops, then fathers, Jerome, Augustin, Gregory,

then monks (the type St. Benedict). As the Church grew in wealth, kings or nobles, magnificent donors, were the saints; as it grew in power, rose *hierarcheal* saints, like Berket. St. Louis was the saint of the Crusades and chivalry; St. Thomas Aquinas and Bonaventura of Scholasticism.—*Milman, History of Latin Christianity*, b. xiv. ch. ii.

Hierarchism, *s.* Hierarchal character.

After a few centuries the more dominant *hierarchism* of the West is manifested in the opposition between Greek and Latin Church architecture.—*Milman, History of Latin Christianity*, b. xiv. ch. vii.

Hierarchy, *s.*

1. Sacred government; rank or subordination of holy beings.

Out of the *hierarchie* of angels shewn,
The gentle Gabriel call'd he from the rest. —*Fairfax*.

He rounds the air, and breaks the hymnick notes
In birds, heaven's choristers, omniscient thrills;
Which, if they did not die, might seem to be
A truth rank in the heavenly *hierarchy*. —*Donne*.

Jehovah, from the summit of the sky,
Environ'd with his winged *hierarchy*,
The world survey'd. —*Sandys*.

These the supreme king
Exalted to such power, and gave to rule,
Each in his *hierarchy*, the orders bright. —*Milton, Paradise Lost*, l. 733.

The blessed of mortal sight, now questionless
The highest saint in the celestial *hierarchy*, began
to be so important, that a great part of the divine
liturgy was addressed solely to her.—*Duwell, Fossil Records*.

He addressed all the sovereigns of Christendom;
he urged them to a league of all temporal kings to
oppose this oppressive league of the pope and the
hierarchy.—*Milman, History of Latin Christianity*, b. x. ch. iii.

2. Ecclesiastical establishment.

The presbytery had more sympathy with the discipline of Scotland than the *hierarchy* of England. —*Brown*.

While the whole Levitical *hierarchy* continued,
it was part of the ministerial office to flay the sacrificers.—*South, Sermons*.

Consider what I have written, from regard for the church established under the *hierarchy* of bishops. —*Swift*.

Hieratic, *adj.* In *Egyptology*. Abbreviated or approximately cursive form of the hieroglyphic mode of writing.

The prophet or teacher who walked last, carrying in his arms the great water-pot, was the president of the temple, and learned in the ten books, called *hieratic*, relating to the laws, the gods, the management of the temples, and the revenue.—*Sharpe, History of Egypt*, xiv.

Hieroglyph, *s.* [Gr. *hieros* = sacred; *glyphein* = carve.] Emblem.

He gave her a kind expression, by a quaint device
sent into her in a rich jewel, fashioned much after
the manner of the trivial *hieroglyph* used in France,
called 'Reims de Pierdrie.'—*Sir G. Duck, History of Richard III.*, p. 115; 1610.

Herodotus, holding the very same *hieroglyph*, speaks much plainer.—*Swift, Tale of a Tub*, § 3.

No brute can endure the taste of strong liquor,
and consequently it is against all the rules of *hieroglyph* to assign any animals as patrons of punch.—*Swift*.

Hieroglyphic, *adj.* Having the character, constituted by, consisting in, a hieroglyphic, or series of hieroglyphics; emblematic; expressive of some meaning beyond what immediately appears.

The Egyptian serpent figures time,
And, stripp'd, returns into his prime;
If my affection then would not win,
First cast thy *hieroglyphic* skin. —*Clarendon*.

Hieroglyphical, *adj.* Hieroglyphic.

In this place stands a stately *hieroglyphical* obelisk of Theban marble.—*Sandys, Travels*.

The original of the conceit was probably *hieroglyphical*, which after became mythological, and, by a process of tradition, stole into a total verity, which was but partly true in its morality.—*Sir T. Browne, Vulgar Errors*.

Hieroglyphically, *adv.* In a hieroglyphical manner; after the manner of a hieroglyph; emblematically.

Others have spoken emblematically and *hieroglyphically*, as the Egyptians, and the phoenix was the *hieroglyphic* of the sun.—*Sir T. Browne, Vulgar Errors*.

Hieroglyphics, *s.* generally *pl.* In *Egyptology*. Egyptian character, in the way of writing or carving letters, signs, or symbols of letters, syllables, and words; old Egyptian writing.

A temple of Serapis, which had lately been built at Canopus, was dedicated to the god in the name of the Emperor Commodus; and there some of the grosser superstitions of the polytheists find before the spread of Christianity and Manichæism in Alexandria. The sculptures on the beautiful temple of Contra-Latopolis were also finished in this reign, and the emperor's name and titles were carved on the walls in *hieroglyphics* with those of the Ptolemies, under whom the temple itself had been built. Commodus may perhaps not have been the last emperor whose names and praises were carved in *hieroglyphics*; but all the great buildings in the Thebaid, which add such value to the early history of Egypt, had ceased before his reign. Other buildings of a less lasting form were no doubt being built, such as the Greek temples at Antinopolis and Thebanis which have long since been swept away, but the Egyptian priests, with their gloomy undertakings, their noble plan of working for after ages rather than for themselves, were nearly ruined, and we find no ancient building now standing in Egypt that was raised after the time of the Antonines.—*Sharpe, History of Egypt*.

Hieroglyphize, *v. a.* Reduce to hieroglyphics.

More admirable is that which they attest was found in Mexico . . . where they *hieroglyphized* both their thoughts, histories, and inventions to posterity.—*Beclun, Sculptura*. (Rich.)

Hierogrammæ, *adj.* [Gr. *γράφω*, = write (adjective *γραφικὸς*) = writing.] Expressive of holy writing.

Clement adds to epistolical [writing] the *hierogrammatic*, which was alphabetic; but, however confined to the use of the priests, was not so well known.—*Askle, Origin and Progress of Writing*, ch. iii.

Hierogrammatist, *s.* [Gr. *hierogrammatistês*.] Writer of hieroglyphics.

There were two sorts of languages and characters among the Egyptians; one common, and used by all, constituted for their trade and commerce with mankind, and which was that known or idiom called the Coptic or Ptolemic; and the other used only by priests, prophets, *hierogrammatists*, or holy men, and the like persons in sacerdotal orders.—*Greenhill, Art of Embalming*, p. 21.

Hierographic, *adj.* Hieroglyphic, except (etymologically) so far as curving differs from writing.

Ambrosius describes the sacred book or ritual of the Egyptians as partly written in syllables, and partly in these *hierographic* characters of arbitrary institution. —*Jade, Origin and Progress of Writing*, ch. iii.

Hierographical, *adj.* Same as Hierographic.

These characters were properly what the ancients call *hierographical*. —*Jade, Origin and Progress of Writing*.

Hierophant, *s.* [Gr. *hierophantês*.] One who teaches rules of religion; priest.

Hence the wantonness of poets, and the crafts of their lewdish priests and *hierophants*, abundantly supplied the fancies of the people.—*Sir J. Hale, Origination of Mankind*.

To come at the truth of his character, he was severely interrogated by the priest or *hierophant*. —*Warburton, Divine Legation of Moses*, ii. § 1.

Upon the established religions of Europe the East had removed her encroachments, and was pouring forth a family of rites which in various ways attracted the attention of the luxurious, the political, the ignorant, the restless, and the remorseful. Armenian, Chaldean, Egyptian, Jew, Syrian, Phrygian, as the case might be, was the designation of the new *hierophant*; and magic, superstition, barbarism, jugglery, were the names given to his rite by the world. —*J. H. Newman, Essay on the Development of Christian Doctrine*.

Higgle, *v. n.* [See *Huckster*.] Chaffer; be contentious in a bargain.

In good offices and due retributions we may not be plucking and niggling; it were as ignominious, where we have wrought, to *higgle* and dangle in the accounts. —*Sir J. Hale*.

To *higgle* thus for a few hours,
To gain thy knight an opulent spouse. —*Butler, Hudibras*.

Higgledy-piggledy, *adv.* Confusedly; chance medley. Colloquial.

Higgler, *s.* Hawker; cudger.

The Temple itself was profaned into a den of thieves, a rendezvous of *higlers* and drovers.—*South, Sermons*, iii. 311.

Thorndyke, who was in the habit of travelling between Leeds and the capital, has recorded, in his Diary, such a series of perils and disasters as might suffice for a journey to the Frozen Ocean or to the Desert of Sahara. On one occasion he journeyed that the floods were out between Ware and London, that passengers had to swim for their lives, and that a

hippler had perished in the attempt to cross.—*Macaulay, History of England*, vol. i. ch. iii.

Higgings. verbal abs. Chaffering.

Why all this higgling with thy friend about such a paltry sum? Does this become the generosity of the noble and rich John Bull?—*Arbuthnot, History of John Bull*.

High. adj. [A.S. *heah*.]

1. Long upwards; rising above from the surface, or from the centre: (opposed to deep or long downward).

Their Andes, or mountains, were far higher than those with us; whereby the remnants of the generation of men were, in such a particular deluge, saved.—*Bacon*.

The higher parts of the earth being continually spending, and the lower continually gaining, they must of necessity at length come to an equality.—*T. Burnet, Theory of the Earth*.

2. Elevated in place; raised aloft: (opposed to low).

They that stand high have many blasts to shake them, And, if they fall, they dash themselves to pieces.

Shakespeare, Richard III. l. 3. O mortals! blind in fate, who never know To bear high fortune, or endure the low.

Dryden. High o'er their heads a mould'ring rock is plac'd, That promises a fall, and shakes at every blast.

Id. Translation of the *Sineid*, v. 816. Reason elevates our thoughts as high as the stars, and leads us through the vast spaces of this mighty fabric; yet it comes far short of the real extent of even corporeal being.—*Locke*.

3. Exalted in nature.

The highest faculty of the soul.—*Bastger*.

4. Elevated in rank or condition: (as, high priest; high sheriff; high steward; high bailiff; high constable).

Herod on his birth-day made a supper to his lords, high captains, and chief estates of Galilee.—*Mark*, vi. 21.

5. Exalted in sentiment.

Solomon . . . aim'd not beyond higher design than to enjoy his state.

Milton, Paradise Regained, ii. 202.

6. Difficult; abstruse.

They meet to hear, and answer such high things.

Shakespeare, Julius Caesar, i. 2.

7. Boastful; ostentatious.

His forces, after all the high discourses, amounted really but to eighteen hundred foot.—*Lord Clarendon, History of the Grand Rebellion*.

8. Arrogant; proud; lofty.

Him that hath an high look, and a proud heart, I will not suffer.—*Psalm*, cii. 5.

The governor made himself merry with his high and threatening language, and sent him word he would neither give nor receive quarter.—*Lord Clarendon, History of the Grand Rebellion*.

9. Severe; oppressive.

When there approach on either side an high hand, violent prosecution, cunning advantages taken, and combination, then is the virtue of a judge seen.—*Bacon*.

10. Noble; illustrious.

Trust me I am exceeding weary.—I had thought, weariness durst not have attacked so high blood.—It doth me, though it discolors the complexion of my countenance to acknowledge it.—*Shakespeare, Henry IV. Part II.* ii. 2.

11. Strong; powerful.

The children of Israel went out with an high hand.—*Exodus*, xiv. 8.

Thou hast a mighty arm; strong is Thy hand, and high is Thy right hand.—*Psalm*, lxxix. 13.

With an high arm brought He them out.—*Acts*, xiii. 17.

12. Violent; tempestuous; loud: (applied to the wind).

More ships in calms on a deceitful coast, Or unseen rocks, than in high storms are lost.

Sir J. Denham, On Providence. Spiders cannot weave their nets in a high wind.—*Dante*.

At length the winds are rais'd, the storm blows high;

Be it your care, my friends, to keep it up In its full fury.—*Addison, Cato*.

13. Tumultuous; turbulent; ungovernable.

Nor only tears Rain'd at their eyes, but high winds worse within Began to rise; high passions, anger, hate, Mistrust, suspicion, discord; and shook more Their inward state of mind.

Milton, Paradise Lost, ix. 121. Can heavenly minds such high resentment show, Or exercise their spirit in human woe?

Dryden, Translation of the Sineid, l. 17. She had from her infancy discovered so imperious a temper, usually called a high spirit.—*Taylor*, no. 231.

14. Full; complete (applied to time); now used only in cursory speech.

High time now can it was for Una fair, To think of those her captive parents dear.

Spenser, Faerie Queen. Sweet warrior, when shall I have peace with you?

High time it is this war now ended were. It was high time to do so; for it was now certain that forces were already upon their march towards the West.—*Lord Clarendon, History of the Grand Rebellion*.

It was high time for the lords to look about them.—*Id.*

15. Raised to any great degree: (as, high pleasure; high luxury; a high performance; a high colour).

For Solomon, he liv'd at ease, and full Of honour, wealth, high fare.

Milton, Paradise Regained, ii. 201. High sauces and spices are fetched from the Indies.—*Baker*.

16. Advancing in latitude from the line.

They are forced to take their course either high to the North, or low to the South.—*Abbot, Description of the World*.

17. At the most perfect state; in the meridian: (as, 'By the sun it is high noon,' whence probably the foregoing expression, high time).

It is yet high day, neither is it time that the cattle should be gathered.—*Genesis*, xix. 7.

18. Far advanced into antiquity.

The nominal observation of the several days of the week, is very high, and as old as the ancient Egyptians, who named the same according to the seven planets.—*Sir T. Browne*.

19. Dear; exorbitant in price.

If they must be good at so high a rate, they may be safe at a cheaper.—*South, Sermons*.

20. Capital; great, opposed to little: (as, high treason, in opposition to petty).

That sabbath day was an high day.—*John*, xix. 31. What hath this day decreed? what hath it done, That it in golden letters should be set, Among the high tides, in the calendar?

Shakespeare, King John, iii. 1.

21. Loud; full.

There let the pealing organ blow, To the full-voic'd quire below, In service high, and anthems clear.

Milton, St. Peter's, 161.

22. Zealous in the cause of others: (as, 'He was high in the praise of him; 'He was a high man for the king').

23. With church. See extracts.

A term applied, some time after the revolution, to the church; which was raised by the dissenters, in order to break the church party, by dividing the members into high and low; and the opinion raised, that the high joined with the papists, inclined the low to fall in with the dissenters.—*Swift, Examiner*, no. 43.

The terms high church, and low church, as commonly used, do not so much denote a principle, as they distinguish a party. They are like words of battle, that have nothing to do with their original signification, but are only given out to keep a body of men together, and to let them know friends from enemies.—*Addison, Tuller*, no. 220.

He is said, by the author of the Biographia, to have declared himself of the party who had the honourable distinction of high churchmen.—*Johnson, Life of Falcon*.

High. adv.

Used adjectivally: (as, 'Highland clan').

Highlander. s. Inhabitant of a highland district.

His cabinet council of highlanders.

Addison.

Highlandish. adj. Denoting a mountainous country.

The country round is altogether so highlandish, that sometimes, when I waked from my little reveries, I really thought myself at home.—*Drummond, Travels*, p. 10.

Highlow. s. Shoe, or half boot, so called.

'There will be no holding Rieky,' said Taper: 'I'm afraid he will be looking for something very high.' 'The higher the better,' rejoined Tailpaw.

1150

'and then he will not interfere with us. I like your high-fiers: it is your pladders I detest, wearing old hats and high-tops, unspinning in committee, and thinking they are men of business: d--n them!'—*Diarmuid the younger, O'Connell's*, b. v. ch. li.

Highly, *adv.* In a high manner.

1. In a great degree.

Whatever expedients can allay those heats, which break us into different factions, cannot but be useful to the public, and highly tend to its safety.—*Addison*.

It cannot but be highly requisite for us to enliven our faith, by dwelling upon the same considerations.—*Bishop Atterbury*.

2. Proudly; arrogantly; ambitiously.

What thou wouldst highly
That thou wouldst holily; wouldst not play false,
And yet wouldst wrongly win.

Shakespeare, Macbeth, l. 5.

3. With esteem; with estimation.

For I say, through the grace given me, to every man that is among you, not to think of himself more highly than he ought to think.—*Romans*, xii. 3.

Highmen, *s. pl.* Dice falsified sons to throw the higher numbers, as opposed to low-men, which threw the lower ones.

Then, play thou for a pound or for a pin,
High-men or low-men still are foiled in.
Harrington, Epigrams, l. 79.
(Sares by H. & W.)

Highmottled, *adj.* Proud or urdent of spirit.

He fails not in these to keep a stiff rein on a high-mottled Pegasus; and takes care not to surfeit here, as he had done on other heads, by an enormous abundance.—*Gurth*.

Highminded, *adj.* Proud; arrogant.

My lord, I'll burst with straining of my courage,
But I will chastise this high-minded strut.—*Shakespeare, Henry VI. Part I*, l. 3.

Now is the sun upon the highest hill
Of this day's journey.

Shakespeare, Romeo and Juliet, ii. 3.

Highness, *s.* Attribute suggested by High.

1. Elevation above the surface; altitude; loftiness.

The battle of Flodden Field was fought at Brans ston, near Flodden Hill, being a part of the Cheviot, a mountain that exceedeth all the mountains in the North of England for highness.—*Drayton, Nones to Hunsford's Epistle to Chasteline*, (Ord MS.)

Somewhere about Staffordshire is the highest ground in England, and the place as many do think of greatest homogeneity; which, that it is due to the highness of the land, is visible from the inspection of any map of England.—*Southwell Birch, History of the Royal Society*, (Ord MS.)

2. Title of princes, anciently of kings.

Most royal majesty,
I crave no more than hath your highness offered.

Shakespeare, King Lear, l. 1.

How long in vain had nature striv'd to frame
A perfect princess, ere her highness came? *Waller*.
Beauty and greatness are eminently joined in your royal highness.—*Dryden*.

3. Dignity of nature; supremacy.

Destruction from God was a terror to me, and by reason of his highness I could not endure.—*Job*, xxxi. 23.

4. Excellence; value.

The park, for a cheerful rising ground, for groves and lawns for the deer, for rivulets of water, may compare with any for its highness in the whole land.—*Howell, Familiar Letters*, l. i. 8.

High, *v. a.* [A.S. *hutan*, pret. *hēht*, *hēt*; a form like *did*, wherein the sign of the perfect is the first *h*, the word being reduplicate.]

1. Bear a name. (compare the Latin *cluo*.)

The city of the great King *high* it well,
Wherein eternal peace and happiness doth dwell.

Spenser, Faerie Queen.

Amongst the rest a good old woman was,
High Mother Hubbard.

Id., Mother Hubbard's Tale.

Within this homestead liv'd, without a peer
For envying lord, the noble Chaucier,
So high her cock.

Dryden, The Cock and the Fox, 39.

Right well mine eyes avide the myst'ry wight,
On parchment scraps yed, and Wormins high.

Pope, Dunciad, iii. 187.

2. Entrust; aim.

The gates stood open wide,
'Yet charge of them was to a porter high.'

Spenser, Faerie Queen, l. 4, 6.

But the sad steel said not where it was high
Upon the child, but somewhat short did fall.

Spenser, Faerie Queen, v. 11, 8.

Highwater, *s.* [generally two words.] Utmost flow of the tide; tide at its greatest height.

They have a way of draining lands that lie below the high-water, and are something above the low-water mark.—*Mortimer*.

Highway, *s.*

1. Great road; public path.

So few there be
That chuse the narrow path or seek the right:
All keep the broad highway, and take delight
With many rather for to go astray.

Spenser, Faerie Queen.

Two inscriptions give a great light to the histories of Appius, who made the highway, and of Fabius the dictator.—*Addison*.

Entering on a broad highway,
Where power and titles scatter'd lay,
He strove to pick up all he found.

Swift.

As the Romans always elevated their publick is above the circumjacent country, by a way of stone, or else by earth thrown up, such roads came to be called by the name, which they have retained, of the highway.—*Blakeney, History of Shrewsbury*.

2. Figuratively, a train of action with apparent consequence.

I could mention more trades we have lost, and are in the highway to lose. *Child, On Trade*.

Highwayman, *s.* Robber that plunders on the public roads.

'Tis like the friendship of pickpockets and highwaymen, that observe strict justice among themselves. *Southey*.

A remedy like that of giving my money to an highwayman, before he attempts to take it by force, to prevent the sin of a robbery.—*Swift*.

Highwrought, *adj.*

1. Agitated to the utmost.

It is a high-wrought flood;
I cannot, 'twixt the heaven and the main,
Desery a sail.

Shakespeare, Othello, ii. 1.

2. Accurately finished; nobly laboured.

Thou triumph'd, victor of the high-wrought day,
And the pleas'd dance, soft smiling, leav'd away.

Pope, Dunciad, li. 186.

Higre, *s.* See extract.

[*Higre, Kipper, Ake*. The commotion occasionally made in certain rivers by the meeting of the tide and current is known by the foregoing names. *Ake* of the sea flowage, imperator maris, (Promptorium Parvulorum.) Taylor the water poet describes the phenomenon on the coast of Lincolnshire.

'—the flood runs there with such great force,
That I imagine it outruns a horse;
And with a head some four foot high that roars,
It on the molting walls and beats the sh
It hath less mercy than leave, wofe, or tyger,
And in those countries it is called the *higre*.'
(Taylor in *Nares*.)

Any sudden inundation of the sea is called an *igor*, at Howden in Yorkshire. (Kromet in *Hallivell*.)

The essential meaning seems a swelling of the waters apparently arising from some internal cause.

'We know they the rumie (French *remuer*, to stir) it it arise.

An *aker* it is clepd, I understande,
Whose might there may no shippo or wynd wyt stande.

This rumie in th' ocean of proper kynde,
Wyndome wynde hath his commotion.

(MS. in Way.)

The term is obviously identical with *havanian hill*, *higl*, applied to a rising of the underground water level which less the effect of flooding estuaries and low grounds in the neighbourhood of rivers by sea-water from beneath. When this occurs they say that the *Hall cins*, giving the name of *Hill-water* to the floods so produced. (Schmeller.) The only character in common to this phenomenon and the English *higre*, is that both consist in a spontaneous swelling or rising of the water, without the action of floods in the one case or of wind in the other. It is probable then that the origin may be preserved in North Frisian *higge*, to rise or swell as water, to higher (Hendens), although in North Frisian *higge* is lost, which appears in English *high* and *higre*, and in Dutch *hoog*, high.—*Widdowsall, Dictionary of English Etymology*.

Hilarity, *s.* [Lat. *hilaritas*, from *hilaris*—merry.] Merriment; gaiety.

Cheer up the countenance, expel anxiety, bring in hilarity.—*Barton, Anatomy of Melancholy*, p. 291.

Averroes restrained his hilarity, and made no more thereof than Seneca commendeth, and was allowable in Calvo that is a sober indolence and regulated estimation from wine.—*Sir T. Browne*.

Hilary, [Lat. *Hilarius*.] Name of a saint so

called; hence the word is a proper rather than a common term; moreover, being used only in combination with the word *Term*, its construction is *adjectival*, or rather, it is a part of a combination rather than a separate word. *Hilary term* (*terminus sancti Hilarii*) begins on January 23.

Hilding, *s.* [A.S.]

1. Sorry, paltry, cowardly fellow.

If your lordship find him not a hilding, hold me no more in your respect.—*Shakespeare, All's well that ends well*, iii. 6.

A base slave,

A hilding for a livery, a squire's cloth.

Id., Cymbeline, ii. 3.

2. Applied to a female.

Laura, to his lady, was but a kitchen wench;
Helen and Ilers, hildings and harlots.

Shakespeare, Romeo and Juliet, ii. 4.

This idle toy, this hilding acorns my power,
And sets us all at naught.

Rowe, Jane Shore.

3. Used adjectively.

He was some hilding fellow, that had stolen
The horse he rode on.

Shakespeare, Henry IV. Part II, i. 1.

Hill, *s.* [A.S.] Elevation of ground less than a mountain.

My sheep are thoughts, which I both guide and
Their pasture is fair hills of fruitless love.

Sir P. Sidney.

Jerusalem is seated on two hills,
Of height unlike, and turned side to side.

Fairfax, Translation of Tasso.

Hill, *v. a.* Raise as, convert into, a hill; accumulate.

When hoard on hoard, when heap on heap he
hills it.

Spenser, Du Rival's, 603—2. (Ord MS.)

These mountains

With snow, *Cicero, Poems*, p. 115.

Ye shall enquire if there be any house in the waste, that is *hilled* with any other thing than tile, or slate, or lead, for [very] of fire.—*Arundel, Chronicle*, 1501, p. 5 b.

Hilling, *verb. abs.* Covering; accumulation.

—Gave then, all you that aim at the hilling up of fatal odds, and employ your hours in a more noble traffick.—*Herit, Sc. canon*, p. 41.

Hillock, *s.* Little hill.

Yet which this alce great is not great to the greater: what, jester you, doth a hillock show by the lofty Olympus?—*Sir P. Sidney*.

This mountain, and a few neighbouring hill-els that be scattered about the bottom of it, is the whole circuit of these dominions. *Addison, Travels in Italy*.

Hilly, *ly.*

1. Consisting of hills.

Towards the hilly corners of Draina remain yet her very Aborigines, thrust amongst an assembly of mountaineers.—*Howell*.

Climbing to a hilly steep,
He views his birds in vales afar.

Dryden.

Rise hilly, with large piles of slaughter'd knights.

J. Philips.

Hilly countries afford the most entertaining prospects, though a man would chuse to travel through a plain one.—*Addison*.

2. Like a hill; lofty.

Better to leave liv'd
Poor and obscure, and never send the top
Of hilly empire, than to die with few
To be thrown headlong down almost as soon
As we have reach'd it.

Beaumont and Fletcher, Prothartes.

Hilt, *s.* [A.S.] Handle of anything, particularly of a sword.

Now sits expectation in the air,
And hides a sword from hilt unto the point,
With crowns imperial; crowns, and coronets.

Shakespeare, Henry V, ii. chorus.

Take thou the hilt,
And when my face is cover'd, as 'tis now,
Guide thou the sword.

Id., Julius Caesar, v. 1.

Him. See He and Self.

Hin, *s.* [Hebrew.] Jewish measure so called, containing about ten pints.

With the one lamb a tenth deal of flour mingled with the fourth part of an hin of beaten oil.—*Exodus*, xxix. 40.

Hinch-pinch, or **Hineby-pineby**, *s.* Game so called.

HIND

Your puffs, your cross-puffs, your expuffs, your impuffs upon the face of a tender infant, are ill-timed complements for *knack-punch* and laugh not, vent under a candlestick, friar knave, and twopenny luv.—*Declaration of Popish Impudence*: 1695. (Surrey H. & W.)

Hind, adj. See Hindmost.

Bringing its tail to its head, it bends its back so far till its head comes to touch its hind part, and so with its armour gallery itself into a ball.—*Reg.*

Hears his own feet, and thinks they sound like moors.
And fears his hind leg will o'er take his fore.

Hind, s. [A.S. *hinde*.] Female of red deer.

How he slow, with glancing dart amies,
A gentle hind, that which the lovely lug
Did love as life.—*Spenser, Faerie Queen*,
xvii. 1.
Nor Hercules more hands or labours know,
Not though the brazen-footed hind be slow.

Hind, s. [A.S. *hine*, *hina*, from *higne*; *hiye*, *hina*.] Labouring man attached to a household.

A couple of Paul's knaves, his *hinds* were called forth by their mistress, to carry me in the name of God clothes, to Dutch-lane.—*Shakespeare, Merry Wives of Windsor*, iii. 2.

The Dutch, who came like greedy *hinds* before,
To reap the harvest their ripe ears did yield,
Now look like those, when rolling thunders roar,
And sheets of lightning blast the standing field.

He said, and cloth'd himself in coarse array,
A labouring *hind* in shew.

When Prince George of Denmark visited the stately mansion of Pokeworth in wet weather, he was six hours in going nine miles; and it was necessary that a body of sturdy *hinds* should be on each side of his coach, in order to prop it.—*Maccarty, History of England*, vol. i. vii. iii.

Hindberry, s. [A.S. *hindberian*; German, *himbeere*.] Raspberry.

Adelung suggests the derivation of *hindberry* from the Latin *hibernus*, by a change that is quite consistent with analogy, viz. prefixing an *h* to the initial vowel, and an *n* before *d*.—*Dr. Prior, Popular Names of British Plants*.

Hinder, v. a. [A.S. *hindrian*.] Obstruct; stop; let; impede.

Hinder me not, seeing the Lord hath prospered my way: send me away that I may go to my master.—*Genesis*, xiv. 24.

The whole world shined with clear light, and none were *hindered* in their labour.—*Wind Schman*, xvii. 20.

If the alms were *hindered* only by cruelty, the hinderer is not tied to restitution, because cruelty took not liberty away from the giver.—*See my Taylor, Rule and Reason of Holy Living*.

Sedate damps thought and wit; too much company dissipates and *hinders* it from fixing.—*Sir W. Temple*.

What *hinders* younger brothers, being fathers of families, from having the same right?—*Locke*.

Hinder, v. n. Raise hindrances; cause impediment.

This objection *hinders* not but that the heroic action of some commander, enterprised for the Christian cause, and executed happily, may be written.—*Dryden*.

Hinder, adj. See Hindmost.

Bears, fighting with any man, stand upon their hinder feet, and so this did, being ready to give me a shrewd embracement.—*Sir P. Sidney*.

As the *hinder* foot of the horse struck to the mountain, while the body reared up in the air, the poet with great difficulty kept himself from sliding off his back.—*Addison*.

The lure was no sooner on shore, than it sent itself on its *hinder* legs, and listened to the sound of the pursuers.—*Fiddling, Adventures of Joseph Andrews*.

Hindrance, s. Impediment; let; stop; obstruction.

False opinions, touching the will of God to have things done, are wont to bring forth mighty and violent practices against the *hindrance* of them, and those practices now opinions more pernicious than the first; yet most extremely sometimes opposite to the first.—*Hooker, Ecclesiastical Polity*.

There must be in every Christian church the same, except mere impossibility of so having it be the *hindrance*.—*Ibid.*

What *hindrance* have they been to the knowledge of what is well done?—*Dryden*.

Have we not plighted each our holy oath,
That one should be the common good of both;
One soul should both inspire, and neither prove
His fellow's *hindrance* in pursuit of love?

Id., *Palamon and Arcite*, l. 291.

HING

He must conquer all these difficulties, and remove all these *hindrances* out of the way that leads to justice.—*Bishop Atterbury*.

Hinderer, s. One who, or that which, hinders or obstructs.

A conjurator commonly proves an *hinderer*; and by his curious clashing, doth often dig his partner's grave.—*Father, Holy State*, p. 273.

Brake, a great *hinderer* of all plowing, grow.

Hinderer, part, adj. Obstructive.

Yon minnows of *hinderer* knot-grass made,
Shakespeare, Midsummer-Night's Dream, iii. 2.

Hinderling, s. Poultry, worthless, degenerate animal.

From this root [*hind*] comes the Anglo-Saxon *hinderling*, properly one who comes far behind his ancestors, 'familia sine opprobrium.' In *Leicham Edw.* confess. c. 35, 'Occidentales Saxones habent in proverbio famulum despectum *hinderling*, i. e. omni honestate destituta et rebus suis imbecis; the scum of his family.—*Collander, Two Ancient Scottish Poems*, p. 54.

Hindmost, adj. Hindmost; last; in the rear.

He put the handmaids and their children foremost, and Leah and her children after, and Rachel and Joseph *hindmost*.—*Genesis*, xxiii. 2.

Hindhead, s. Back part of the head.

He said, then rais'd the stick and laid it hard
On the bald *hind-head* of the roated harr.

Hindheel, s. [A.S. *hind-hele*.] Plant so called, of the genus *Chenopodium* (Butys).

Hind-hele, from its curving the hind part, probably the same as *Elaphoglossum*, which deer were supposed to eat when ailing with thierges.—*Dr. Prior, Popular Names of British Plants*.

Hindmost, adj. Last; lag; that which comes in the rear.

He met thee by the way, and smote the *hindmost* of thee, even all that were feeble behind thee.—*Isaiah*, lxxv. 18.

Like to an enter'd tide, they all rush by,
And leave you *hindmost*.

Let him retire, betwixt two ages end.
The first of this, and *hindmost* of the last,
A losing gambler.

The race by vigour, and by valour is won;
So take the *hindmost*, hell!—*He said, and run.*

Hinge, s. [from root of *hang*.]

1. Joints upon which a gate or door turns.

Thou from the *hinge* their strokes the gates divorce,
And where the way they cannot find, they force.

2. Cardinal points of the world, East, West, North, and South.

Nor slept the winds
Within their stony caves, but rush'd abroad
From the four *hinges* of the world.

If when the moon is in the *hinge* of East,
The high breaks forward from its native rest;
Full thirty years, if you two years abide,
This station gives.—*Grech, Translation of Manilius*.

3. Governing rule or principle.

The other *hinge* of punishment might turn upon a law, whereby all men, who did not marry by the age of five and twenty, should pay the third part of their revenue.—*Sir W. Temple*.

Be off the hinges. Be in a state of irregularity and disorder.

The man's spirit is out of order and off the *hinges*; and till that be put into its right frame, he will perpetually fluctuate.—*Acknowledgment of Tolson*.

Metelinks we stand on ruins, Nature shakes
About us, and this universal frame
So loose, that it but wants another push
To leap from off its *hinges*.

Hinge, v. a.

1. Furnish with hinges.

2. Bend as an hinge.

Be thou a flatterer now, and *hinge* thy knee;
And let his very breath, whom thou'lt observe,
Blow off thy cap.

Shakespeare, Timon of Athens, iv. 3.

Hinge, v. n. Turn as upon a hinge; hang; (as, 'The settlement of this matter *hinges* upon this point').

Cicero and Cato might have handled opposite analogies for ever; it rested with each of them to prove by just induction, or at least to render probable, that the case resembled the one set of analogous cases and not the other, in the circumstances on which the disputed question really *hinged*.—*J. S. Mill, System of Logic*, p. 501.

HIPP

Hippy, v. n. [Lat. *hinnu*.] Neigh.

He neigheth and *hinnueth*: all is but *hinnu*, nequity.—*R. Jovan, Bartholomew Fair*.

Hint, v. a. [Danish, *ymte* = whisper.] Suggest by a slight mention or remote allusion; mention imperceptibly.

For examples out of other histories to *hint* a few of them.—*South, Sermons*, l. 290.

Willing to wound, and yet afraid to strike,
Just *hint* a fault, and hesitate dislike.

Shakespeare, Othello, i. 3.

Hint at. Allude to; touch slightly upon.

Speaking of Augustus's actions, he still remembers that sarcasms ought to be *hinted* at throughout the whole poem.—*Addison*.

Hint, s.

1. Faint notice given to the mind: remote allusion; distant insinuation.

Let him strictly observe the first stirrings and intimations, the first *hints* and whisperings of good and evil that pass in his heart.—*South, Sermons*.

2. Suggestion; intimation.

Upon this *hint* I spoke:
She lov'd me for the dangers I had pass'd.

Shakespeare, Othello, i. 3.

Hip, s. [A.S. *hipe*; Dutch, *heupe*; German, *hüfte*.]

1. Joint of the thigh.

How now, which of your *hips* has the most profound science?—*Shakespeare, Measure for Measure*, l. 2.

Hippocras afflueth of the Scythians, that, using continual railing, they were generally molested with scintia, or hip gout.—*Sir T. Browne, Vulgar Errors*.

2. Haunch; flesh of the thigh.

To set the same mark on the *hip*
Bolt of their sound and rotten sheep.

Butler, Hudibras.

Against a stump his tusk the monster grinds,
And ganch'd his *hip* with one continu'd wound.

Dryden.

Have on the hip. Have an advantage over another.

If this poor lurch of Venice, whom I trash
For his quick hunting, stand the putting on,
I'll have our Michael Cassio on the *hip*.

Shakespeare, Othello, ii. 1.

Hip and thigh.

He smote them *hip and thigh* with a great slaughter.—*Judges*, xv. 8.

Samson *hip and thigh*, pell-mell, haply with his leg and foot only, slew the Philistines with a great slaughter.—*Bishop Richardson, On the Old Testament*, p. 66.

Hip, s. In Architecture. See extract.

Hip, croupe, French (is) the external angle formed by the meeting of two sloping sides or skirts of a roof, which have their wall-plates running in different directions. . . . the pieces of timber in these angles are called *hip rafters*, and the tiles with which they are covered are called *hip-tiles*. . . . *Hip-knob* (is) a pinnacle, or some other similar ornament, placed on the top of the *hips* of a roof, or on the point of a gable.—*Glossary of Architecture*.

Hip, s. [A.S. *heppa*, *hop*; Danish, *hybe*.]

Eating *hips* and drinking watery fane.

Spenser, Mother Hubbard's Tale.

Hip, v. a. Spruin or shoot the hip.

His horse was *hipp'd*.
Shakespeare, Taming of the Shrew, iii. 2.

Hip, interj. Exclamation, or calling to our.

Hip-hop. Cant word formed by the reduplication of *hop*.

Your different ladies divide our poet's cares;
One foot the sock, 't'other the buskin wears:
Thus while he strives to please, he's forc'd to do't
Like Voltaire, *hip-hop* in a single boot.

Congreve.

Hipped, adj. Melancholy.

Or to some coffee-house I stray
For news, the morn of a day;
And from the *hipp'd* discourse gather,
That politics go by the weather.

Green, Spleen, 168.

Hippish, adj. [corruption of *hypochondriac*.] Somewhat hypochondriac.

I fancy you are a little *hippish*; and I hope you fright yourself without any reason.—*Graves, Epistolarum Quatuor*, l. ix. ch. xi.

They went to the Ridotto (It is a place
To which I mean to go myself to-morrow,
Just to divert my thoughts a little space,
Because I'm rather *hippish*, and may borrow

These *hite* of words a true just often finds, with-
out seeking.—*Dryden, Translation of Du Fresnoy's*
Art of Painting.

If it first be minds his *hite*?
And dricks champagne among the wits,
Five deep he toasts the towering insouciance. *Prior.*

What! This may prove a good *hit*—but such a
vulgar family. *O'Keefe, Postscript to the*
If the quality of being natural without being ob-
vious is a pretty correct description of felicitous
expression, or what is called fine writing, it is a yet
more accurate representation of the passions, or
felicitous *hite* in speaking. —*Lord Brougham, His-*
torical Sketches of the Reign of George
III., Lord Chatham.

Suppose that the observer makes the luckiest *hit*
which could be given by any conceivable combination
of chance.—*J. S. Mill, System of Logic*, vi.
vii. § 4.

Hitch. v. n.**1. Become entangled or hooked together.**

But if this will not do, we are told, that there was
an infinite innumerable company of little ladies,
called atoms, from all eternity, flying and racing
about in a void space, which at length *hitched* to-
gether and united; by which union and connection
they grew at length into this beautiful, curious, and
most exact structure of the universe. A conceit
fitter for Bedlam than a school, or an academy.—*South, Sermons*, iii. 90.

2. Be caught; fall into; be hooked in.

Whose offends, at some unlucky time
Slides into verse, or *hitches* in a rhyme.

Pope, Imitation of Horace, b. ii. sat. i.
Have you not tried in some instances to palm off
a yesterday's pun upon a gentleman, and has it an-
swered? Not but it was new to his hearing, but it
did not seem to come new from you. It did not
hitch in. It was like picking up at a village al-
though a two-days' old newspaper. You have not
seen it before, but you reset the stale thing as an
affront.—*Lamb, Last Essays of Elia, Distant Cor-*
respondence.

And then to *hitch* Latimer and Servetus together!
To be sure, there was a stake and a fire in each case,
but where the rest of the resemblance I cannot
see.—*Cutcliffe, Table Talk.*

In the act of separation the crab has sometimes
been seen to throw itself on its back, working the
branches with unusual force, and making the ut-
most effort to disengage the internal processes. It
crawls at the fissure where the tail is connected
with the carapace. Sometimes the crab *hitches* out
of its claws into some crack or fissure, and from this
point of resistance gains more power in emerging
and withdrawing itself from between the carapace
and tail.—*Owen, Lectures on Comparative Anatomy*,
lect. xiv.

Hitch. v. a. Catch or hook up.

Here Short *hitched* up the whilband of his se-
cond pair of trousers, turned about round, and was
going below, when Snarley yow stuck at his heels.—*Marryat, Snarleygown*, vol. i. ch. iii.

Hitch. s. Catch; anything that holds; im-
pendent; (as, 'There is a hitch in the
business'; 'The man has a hitch in his
gait').

I am credibly informed, that there is still a con-
siderable *hitch* or hold in your enumeration; and
that when you speak fast, you speak unintelligibly.
—*Lord Chesterfield.*

I never felt more awkwardly in my life. It was a
question whether I had better or not recur to any
thing that had passed; we had been friends—we
were friends. There had been a sort of a *hitch*—
a hiatus, but the light had set that to rights, and I
had been wounded, which was as much as a man of
honour could expect, and my friend had not
wounded me, which made the affair of reconciliation
easier.—*Theodore Hook, Gilbert Gurney*, vol. iii.
ch. i.

Hitchcock. s. Bungler.

Among whom this *hitchcock* missed his rapier.—*Santa of George Peck*. (Nares by H. & W.)

Hither. adv. [A.S. hider.]**1. To this place from some other, as op-**
posed to Thither.

Cesar, tempted with the fame
Of this sweet island, never conquered,
And envying the Britons blood man,
O hideous hunger of dominion, *hither* came.

Spenser, Faerie Queen.

2. To this end; to this design; to this topic
of argument.

Hereupon dependeth whatsoever difference there
is between the status of saints in glory; *hither* we
refer whatsoever belongeth unto the highest perfec-
tion of man, by way of service towards God.—*Hooker, Ecclesiastical Polity.*

Hither. adj. Nearer; towards this part.

But on the *hither* side, a different sort,
From the high neighbouring hills descended.
Milton, Paradise Lost, xl. 673.

An eternal duration may be shorter or longer upon
the *hither* end, namely, that extreme wherein it is
finite.—*Sir M. Hale.*

Hither and thither. In different direction;
backwards and forwards; here and there.

Victoria is like a traveller, and goes *hither and*
thither, not resting long in a place; and although it
be for most part both gotten and kept by courage
and discretion, yet oftentimes, when you have most
carefully and judiciously disposed of all things, the
fortune and chance of warre have therein a great
way.—*Knodds, History of the Turks*, 377, B. (Ord
MS.)

Hithermost. adj. Nearest on this side.

That which is eternal can be extended to a greater
extent at the *hithermost* extreme.—*Sir M. Hale.*

Hitherto. adv.**1. To this time; yet.**

Hitherto I have only told the reader what ought
not to be the subject of a picture or of a poem.—*Dryden.*

2. In any time till now.

More ample spirit than *hitherto* was wont,
Here needs me, whilst the famous anastrophes
Of my most dreadful sovereign I recount.

Spenser, Faerie Queen.

3. At every time till now.

In this we are not their adversaries, though they
in the other *hitherto* have been ours.—*Hooker, Ec-*
clesiastical Polity.

He could not have failed to add the opposition of
ill spirits to the good; this alone has *hitherto* been
the practice of the moderns.—*Dryden.*

To correct them, is a work the *hitherto* been
assumed by the best qualified hands.—*Swift.*

Hitherward. adv. This way; towards this
place.

Some parcels of their power are forth already,
And only *hitherward*.

Shakespeare, Coriolanus, i. 2.

Hitherwards. adv. Same as preceding.

The king himself in person both set forth,
Or *hitherwards* intended speedily.

Shakespeare, Henry IV. Part I. iv. 1.

Hive. s. [A.S. hyfe, hwe, hige—family,
house.]**1. Habitation or artificial receptacle of bees.**

So bees with smoke, and doves with noisom
smell,
Are from their *hives* and houses driv'n away.

Shakespeare, Henry VI. Part I. i. 5.

So wandering bees would perish in the air,
Did not a sound, proportion'd to their ear,
Appease their rage, invite them to the *hive*.

Waller.

Bees have each of them a hole in their *hives*; their
honey is their own, and every bee minds her own
concerns. *Addison.*

2. Bees occupying the same.

The common, like an angry *hive* of bees
That want their leader, scatter up and down.

Shakespeare, Henry VI. Part II. iii. 2.

3. Company.

What modern mansion call a lodge, was by anti-
quity called a *hive* of free masons; and therefore,
when a discussion happens, the going off is to this
day called swarming.—*Swift.*

Hive. v. a.**1. Put into hives; harbour.**

Mr. Addison of Oxford has been trouble me to
me; after his bees, my latter swarms in severe
hiving.—*Dryden.*

When bees are fully settled, and the cluster at the
highest, *hive* them. *Mortimer, Husbandry.*

2. Contain, as in hives; receive, as to an
habitation.

Ambition now to take excise
Of a more fragrant paradise,
He at Fuscara's sleeve arriv'd,
Where all delicious sweets are *hiv'd*.

Cervantes.

Hive. v. n. Take shelter together; reside
collectively.

He sleeps by day
More than the wild cat, draves *hive* not with me,
Therefore I part with him.

Shakespeare, Merchant of Venice, ii. 2.

In summer we wander in a paradisaical scene,
among groves and gardens; but at this season we
get into warmer houses, and *hive* together in cities.
—*Pope, Letters.*

Hiver. s. One who puts bees in hives.

Let the *hiver* drink a cup of good beer, and wash
his hands and face therewith.—*Mortimer, Hus-*
bandry.

Hives. s. pl. Cutaneous eruption; skin dis-
ease so called.

The eruption in this disease consists of vesicles
scattered over the body: they are mostly smooth

and transparent, lentil-shaped, or irregularly cir-
cular, flattened at the top; the fluid, at first pellu-
cent, then whitish, afterwards straw-coloured; and
this kind is called the chicken-pox. Sometimes the
vesicles are pointed and the fluid clear through-
out the disease; and this is termed the worm-pox.
In other cases, the vesicles are very large and glo-
bular, and the fluid, at first whey-coloured, is af-
terwards yellow; this form is denominated the *hives*.
—*Hager, Medical Dictionary*, in voce *Varicella*.

Hiss. v. n. Same as Hiss.

To have a thousand with red burning spits
Come *hissing* in upon them.

Shakespeare, King Lear, iii. 6.

Hissing. s. Same as Hissing.

Let, by the sun the organs parch'd and spill'd,
The dismal ghost utter his *hissings* yell.

Mary, Translation of Lucan, b. vi.

Ho. interj. Call, or exclamation to give
notice of approach, or anything else;
command to stop; cease; give over;
enough.

The duke of Norfolk was not full set forward,
when the king cast down his warbur, and the her-
alds cried *ho, ho, ho—Hollo!*
Behold, the kinsman of whom Benz spoke came
by; unto whom he said, *Ho, such a one, turn aside*,
sit down here. *Roth, iv. 1.*

Ho, every one that thirsteth, come ye to the wa-

ters. *Isaiah*, lv. 1.

Ho, ho, come forth and flee from the hand of the

north.—*Zachariah*, ii. 6.

Ho, swain, what shepherd owns these ragged

sheep? *Dryden, Translation of the Eclogues*, iii. 1.

Ho. s. Stop; bound; limit.

Formerly the word was common in this country.
Mr. Malone says, it is yet common in Ireland; as,
there is no *ho* with him, i. e. he knows no bounds, he
never has enough, he is intemperate. 'Out of all
ho.' *Immoderately*. *Littell, Dictionary*, 1716.

Heer was no *ho* in devout drinkynge.—*Langhams*
Letters of Queen Elizabeth's Kitchin, bk. of Kil-
lingworth, 1575.

He once loved the fair maid of Fressingfield out of
all *ho*. *Greville, Private Passions*.

Ho. interj. Sudden exclamation to give
notice of approach or anything else.

Here dwells my father Jew; *ho*, who's within?

Shakespeare, Merchant of Venice, ii. 6.

When I cry'd *ho*!

Like boys into a noise, knees would start forth,

And cry, Your will. *Id., Antony and Cleopatra*, iii. 11.

Hoaming. adj. ? Swelling; surging.

What a sea comes in!

It is a *hoaming* sea. We shall have foul weather.

Dryden, Tempest. (Rich.)

Hoar. adj. [A.S. har.]**1. White.**

The *hoar* waters from his fount ran,
And the light fountains danc'd all about.

Spenser, Faerie Queen, ii. 12, 10.

A people,
Whom Ireland sent from laughs and forests *hoar*.

Raiford.

2. Gray with age.

It seem'd it was, and guided evermore
Through wisdom of a matron *hoar* and *hoar*.

Spenser, Faerie Queen.

Let not his *hoar* head go down to the grave in
penury. *1 Kings*, ii. 6.

Now swarms the populace, a countless throng;
Youth and *hoar* age, and man drives man along.

Pope.

3. Mouldy; musty.

Guyon finds Mammon in a dale
Sunning his treasure *hoar*.

Spenser, Faerie Queen, ii. 7, argument.

A hare, sir, in a leaten pie, that is something stale
and *hoar*. *Shakespeare, Romeo and Juliet*, ii. 6.

Hoar. s. Antiquity; hoariness.

His grants are engrafted on the pulchre law of
Europe, covered with the awful *hoar* of innumerable
ages.—*Burke.*

Hoar. v. n. Make hoary. Rare.

Man himself, when age, like frost, has *hoar'd* his
hairs, and all his fires are out, can unadvised play
with her flames and rays.—*Fellham*, p. 36. (Ord MS.)

Hoar. v. n. Become mouldy or musty.

A hare that is *hoar*,
Is too much for a score,
When it *hoars* ere it be spent.

Shakespeare, Romeo and Juliet, ii. 4, mon.

Hoar-frost. s. Congelations of dew in
frosty mornings on the grass.

When the dew was gone up, behold upon the face
of the wilderness there lay a small round thing, as
small as the *hoar-frost* on the ground.—*Isaiah*,
xvi. 10.

In Fahrenheit's thermometer, at thirty-two de-
grees, the water in the air begins to freeze, which is
hoar-frost.—*Arbuthnot.*

Hoard. *s.* [A.S. *hord.*] Store laid up in secret; hidden stock; treasure.

I have a venturesome fairy, that shall seek
The squirrel's *hoard*, and fetch thee thence new nuts.
Shakespeare, Midsummer-Night's Dream, iv. 1.
They might have even starved, had it not been for
this providential reserve, this *hoard*, that was stored
in the strata underneath, and now seasonably dis-
closed.—*Woodward*.

Hoard. *v. a.* Lay in hoards; husband pri-
vily; store secretly.

You *hoard* not health for your own private use,
But on the public spend the rich produce. *Dryden*.
You will be unsuccessful, if you give out of a
great man, who is remarkable for his frugality for
the publick, that he squanders away the nation's
money; but you may safely relate that his hoards it.
—*Arbuthnot, Art of Political Lying*.

A superfluous abundance tempts us to forget God,
when it is *hoarded* in our treasures, or considered
as a safe, independent provision laid up for many
years.—*Rogers*.

With up.

I have just occasion to complain of them, who
because they understand Chaucer, would hoard him
up as miners do their granular gold, only to look on
it themselves, and hinder others from making use of
it.—*Dryden*.

The base wretch who *hoards* up all he can,
Is proud, and call'd a careful thrifty man. *Id.*

Hoard. *v. n.* Practice hoarding.

He fear'd not *hoard* himself to be in need,
Nor ead to *hoard* for those whom he did breed.
Spenser, Faerie Queen.

Hoarder. *s.* One who, that which, hoards.

The *hoarders* of provision were constrained to open
their granaries, and the prices of grain abated. *Sir
H. Wotton, Panegyric to King Charles I.*
Since commodities will be raised, this alteration
will be an advantage to nobody but *hoarders* of
money.—*Locke*.

Hoarding. *verbal abs.* Act of one who
hoards, especially applied to the habit of
secretly moneys, or treasure: (as opposed
to that of putting in a bank, out at inter-
est, or investing).

No great was the difficulty that the practice of
hoarding was common.—*Macaulay, History of Eng-
land*, ch. xix.

Hoared. *part. adj.* Mouldy; musty.

All the bread of their provision was dry and
hoared, [in the present version, mouldy].—*John i.
12. 5, Matthew's, Cranmer's, and the Bishop's Trans-
lation*.

Hoariness. *s.* Attribute suggested by
Hoary.

1. State of being whitish, or of the colour of
old men's hair.

He grows a whiff, his *hoariness* remains,
And the same rage in other members reigns.
Dryden.

2. Mouldiness.

Hoariness, or *viscidness*, such as is on bread or
meat long kept; or mouldiness from moisture or
lack of cleansing. *Barrett, Alceste*.

Hoarse. *adj.* [A.S. *hars.*] Having the voice
rough, as with a cold; having a rough
sound.

Come, sit, sit, and a song . . . clap into't roundly,
without hawking or spitting, or saying we are *hoarse*.
—*Shakespeare, As you like it*, v. 3.

The raven himself in *hoarse*,
That crows the fatal entrance of Duncan
Under my battlements. *Id., Macbeth*, i. 5.
He sped his steps along the *hoarse* resounding
shore. *Dryden*.

Translation of the First Book of the Iliad.

Hoarsely. *adv.* In a hoarse manner; with
a rough harsh sound.

Hard as my feet ran down a crystal spring,
Which did the numerous pebbles *hoarsely* clide
For standing in the way. *Morse, Cepid's Conflict*: 107.

The hounds at nearer distance *hoarsely* bay'd;
The hunter close purr'd the visionary mind.
Dryden, Theodora and Hamorin.

Hoarseness. *s.* Attribute suggested by
Hoarse.

I had a voice in heav'n ere sulph'rous steams
Had damp'd it to a *hoarseness*. *Dryden, King Arthur*.

The want of it in the wind-pipe occasions *hoar-
ness* in the gullet, and difficulty of swallowing.—
Arbuthnot, On the Nature and Choice of Aliments.

Hoary. *adj.* [A.S. *hár.*] White; whitish.

One would think the deep to be *hoary*.—*Job*, xli.
32.
Thus she rested on her arm roguish'd,
The *hoary* willows waving with the wind. *Addison*.

With age.

A comely palmer clad in black attire,
Of ripened years, and hairs all *hoary* grey.

Solyman, marvelling at the entrance and majesty
of the *hoary* old prince in his so great extremity,
dismiss'd him, and went him again into the city. —
Knutler, History of the Turks.
Has then my *hoary* head deserv'd no better?

Then in full age, and *hoary* holiness,
Retire, great preacher, to thy promised bliss.
—*Prior, Solomon*.

With frost.

The seasons alter; *hoary* headed frosts
Fall in the fresh lap of the crimson rose.
Shakespeare, Midsummer-Night's Dream, ii. 2.

With mould.

There was brought out of the city into the camp
very *hoary*, moulded break.—*Knutler, His-
tory of the Turks*.

Hoax. *v. a.* [A.S. *hucse*.] cheat.] Take in,
or deceive any one, by a hoax.

M. was *hoaxing* you, surely, about my engraving;
'tis a little silly thing, too like by half, in which
the draughtman has done his best to avoid flattery.
—*Lamb, Letter to Burton*.

Hoax. *s.* Imposition; deception.

Thelwall was introduced by them to Lamb, and
was welcomed to his circle, in the true catholicism
of its spirit, although its master cared nothing for
the Roman virtue which Thelwall devotedly cher-
ished, and which Horne Tooke kept in uncertain
vibration between a rebellion and a *hoax*. *Telford, Memoir of Lamb*.
He . . . would have been scared by so silly a *hoax*.
—*Macaulay, History of England*, ch. xxi.

Hobbad-de-hoy. *s.* [?] Stripling; lad of
an equivocal age; neither man nor boy.

Man's sex decided here as have
By privity's ties from birth to grave.
The first seven years came up as a child;
The next to learning, for waking too wide;
The next keeps under Sir *Hobbad-de-hoy*;
The next a man, no longer a boy, &c.
*Tasso's, Four Hundred Points of good
Household*, p. 57: 1540.

Why! he's a mere *hobbad-de-hoy*, neither a man nor
a boy. *Swift, Polite Conversation*. (Ord. MR.)
The only males that are in such families are too
insouciant to create jealousy or spite; they are
either the babes and sucklings of the present, or the
hobbad-de-hoy of the last year; and what the status of
a *hobbad-de-hoy* is, all know and have felt.—*Bonar, For-
est Creators, The Wild Boar*.

Hobble. *v. n.*

1. Walk lamely or awkwardly upon one leg
more than the other; hitch; walk with
unequal and encumbered steps.

The friar was *hobbling* the same way too. *Dryden*.

When I was *hobbling* over the style, after Fre-
derick, there and thought the dog might be shir-
red to atoms. I made a determination in my own
mind, if he survived, that he, and your daughter
—what's your name, young lady?—*Colman, the
yonger, The Poor Gentleman*, v. 3.

You can run, I see. Why, after a thousand
pounds I can *hobble* a bit. —Can you? Then *hobble*
to Lucern, in Switzerland, and obtain proof of their
union; he denies being married.—*Macdon, Sixty
worth knowing*, l. 1.

Nothing could escape her little twinkling ideal-
shook eyes or her acute ear; she could scarcely *hob-
ble* fifty yards, but she kept no servant to assist her,
for, like her son, she was ambitious by the extreme.
—*Marrall, Southgate*, vol. i. ch. xiv.

2. Move roughly or unevenly. Feet being
ascribed to verses, whatever is done with
feet is likewise ascribed to them.

While you *hobble* in trills release,
She *hobbles* in alternate verses. *Prior, Alma*, canto i.

Hobble. *s.*

1. Uneven awkward gait.

One of his heels is higher than the other, which
gives him a *hobble* in his gait.—*Swift, Gulliver's
Travels*.

2. Difficily: (as, 'He has got into a *hob-
ble*'). Colloquial.

Hobblor. *s.* [N.Fr. *hobelr.*] Kind of horse-
soldier.

For twenty *hobblers* armed, Irishmen so called,
because they served on *hobblers*, he paid six-pence
a-piece per diem.—*Sir J. Davies, Discourse on the
State of Ireland*.

Hobbling. *part. adj.* Halting; limping.

Some persons continued a kind of *hobbling* march
on the broken arches, but fell through.—*Addison*.
Those ancient Romans . . . had a custom of re-
proaching each other in a sort of extempore poetry,

or rather tunable *hobbling* verse.—*Dryden, Origin
and Progress of Satire*.

Yet whether right or wrong the ancient rules,
It will not do to call our fathers fools!
Though you and I who readily know
To separate the elegant and low,
Can also, when a *hobbling* line appears,
Detect with fingers, in default of ears.

Dryden, Hints from Horace.
Hobbling. *verbal abs.* Act of one who hob-
bles.

Was he ever able to walk without leading-strings,
without being discovered by his *hobbling*?—*Swift*.

Hobby. *s.* [from Fr. *hobereau*.] Species of
falcon so called.

They have such a hovering possession of the Val-
toine, as in *hobby* hath over a hawk. *Beacon*.
The people will chop like trout at an artificial fly,
and dare like larks under the awe of a painted *hob-
by*.—*Sir R. E. Estcourt*.

Larks lie dar'd to slum the *hobby's* flight. *Dryden*.

Hobby. *s.* [from N.Fr. *hobin*; Low German,
huppe.]

1. Horse.

Hobblers armed, Irishmen so called, because they
served on *hobbers*. *Sir J. Davies, Discourse on the
State of Ireland*.

2. Stick on which boys get astride and ride.

As young children, who are told in
the cards, to keep their steps from sliding,
When members knit, and legs grow stranger,
Make use of such machine no longer;
But leap profusely, and seat
On horse call'd *hobby*, or without. *Prior*.

3. Favourite object or pursuit of a person.

Of quite another stamp was the then accountant,
John Tipu. He neither pretended to lush blood,
nor, in good truth, cared one far about the matter.
He thought an accountant the greatest character in
the world, and himself the greatest accountant in
it. Yet John was not without his *hobby*.
The fiddle relieved his event hours. *Lamb, Essays of
Elia, The South-Sea House*.

Every man has his *hobby*, and usually pays dear
for it; so did Myndert Kramer. *Marrall, Southgate*.

Hobby-horse. *s.*

1. Stick on which boys get astride and ride.

Those grave countenances about antiquative trilles
look like some Socrates upon his boy's *hobby-horse*.
—*Clifford*.

2. Character in the May-games.

The *hobby-horse* was represented by a man
equipped with as much post-board as was sufficient
to form the head and hinder parts of a horse, the
quadriparted defect being concealed by a bare man-
tle or foot-cloth that nearly touched the ground.
The performer on this occasion exerted all his skill
in ludicrous horsemanship. *Dancer*.

But see the *hobby-horse* is forgot;
It must be your lot.
To supply his want with farses
And some other trifling amuse.

The word *hobby-horse* is not found in his time,
and thereupon he plays the most notorious *hobby-horse*,
jesting and trilling in the manner of his nonsense.—
Milton, Colasterion.

3. Stupid or foolish person.

I have studied right or otherwise words to speak
to you, which these *hobby-horses* must not hear.—
Shakespeare, Much Ado about Nothing, iii. 2.

4. Favourite object or pursuit of a person.

What the last are denominated *folies*, or *hobby-
horses*, we style collections: Uncle Toby's library
have required no apology among the limits of
old ballads, and churchwardens' bills of our day!
—*Forster, Illustrations of Sterne*, ch. v.

Hobgoblin. *s.* [? goblin with *hobby's* or
horse's head.] Fairy; vulgarly, a fright-
ful one.

You are that shrewd and knavish sprite,
Call'd Robin Goodfellow: . . .
Those that *Hobgoblins* call you, and sweet Puck,
You do their work.

Shakespeare, Midsummer-Night's Dream, ii. 1.
Fairies, black, gray, green, and white,
Attend your office and your quality:
Crier *Hobgoblin*, make the fairy o' you.

Id., Merry Wives of Windsor, v. 5.

Hobnail. *s.* [? nail used in shoeing a hobby
or little horse.]

1. Nail with a thick strong head.

Stead, if thou turn thine eyes, I beseech thee on
my knees thou may'st be turned into *hobnails*.—
Shakespeare, Henry VI. Part II. iv. 10.

2. Clownish person, in contempt.

No antic *hobnail* at a morris, but is more hand-
somerly facetious.—*Milton, Colasterion*.

Hobnailed. *adj.* Set with hobnails.

Wouldst thou, friend, who hast two legs alone, &

Wouldst thou, to run the knottle, these expose
To a whole company of hobnail shoes?

Dryden, Translation of Juvenal.

Hobnob. Same as *Hobnab*.

His indevelopment at this moment is so implacable,
that satisfaction can be none but by pangs of death,
and squelch; *hobnob* is his word, give't or take't.
—*Shakespeare, Twelfth Night*, iii. 4.

Hobthurst. s. [*Hob of the hurst*.] Hob-
joblin; clown.

Both can easily pardon the mistake of this rude
writer, nor are at all surprised at it as a novelty,
that any ignorant rural hobthurst should call the
spirit of nature (a thing so much beyond his ca-
pacity to judge of) a prodigious hobgoblin. — *Unna-
lations on Glauville*, &c., p. 31: 1832.

Hock. s. [A.S. *hok*; *ho* heel.] Joint 1
tween the knee and the fetlock.

[*Hock*, the joint of a horse's leg from the knee to the
fetlock; *hock*, the back of the knee. — *Webster's*,
Dictionary of English Etymology.]

Hock. s. [short for *Hockheimer*, adjective of
Hockheim, the name of a place on the
Rhine so called.] Wine from Hockheim.

Wine becomes sharp, as *hock*, like vitriolic
acidity. — *Flayser*.

Hockamore. s. [corruption of *Hockheimer*.]
Same as *Hock*.

Restor'd the fainting high and mighty,
With brandy, wine, and aqua vita,
And made 'em stoutly overcome
With bacharach, hockamory, and nutm.

Bath, H. H. H. H. H.

If cyder royal should become unpleasant, and as
unfit to bottle as old hockamore, mix one hockhead
of that and one of tart new cyder together.
— *Mortimer*.

Hockey, or Hawkey. s. [?] Game so called.
Hockey is brought
Home with hollowin.

Poor Robin's Almanack: 1675.

A name for harvest-home, used in Norfolk, Suff-
olk, and Cambridgeshire, according to Pease; and
certainly in other places. *Hockey* is that which is
distributed to the people at harvest-home. The
hockey part is that which brings the last corn and
the children rejoicing with boughs in their hands,
with which the horses are also attired. — *Selman*,
Survey, Hertfordshire, from *Brant's Popular Anti-
quity*.

In the town of Cambridge, and centre of our
University, such curious remains of ancient cus-
toms may be noticed, in different seasons of the
year, which pass without observation. The custom
of hocking horses on the first of May (old style) is
derived from a festival in honour of Diana. At the
hockey, as it is called, I have seen a clown dressed
in woman's clothes, having his face painted, his head
decorated with ears of corn, and bearing about him
other symbols of folly, carried in a wicker, with
great pomp and loud shouts through the streets,
the horses being covered with white sheets; and when
I enquired the meaning of the ceremony, was an-
swered by the people that they were drawing the
harvest-queen. — *Dr. Clarke, Travels*.

It [a game played in Little Tibet] was a kind of
hocky on horseback. — *Vigne, Travels in Cashmere*
and Little Tibet.

Hocus-pocus.

1. Word used by jugglers.

I will speak of one man more exceeding in that
craft than others, that was not about in king James's
time, and long since, who called himself 'the king's
majesty's most excellent honest pocus'; and so was
he called, because that, at the playing of every trick
he used to say, '*Hocus pocus*, hocus, talantus, vinci-
cedenter juleus,' a dark composition of words to
blind the eyes of beholders. — *Alph's Gentle in Li*,
Dick, Treatise of Witches, &c., p. 23.

Do they think this you can juggle? I would we
had *hocus pocus* for you then, your people; or Tra-
vittano Tudesco. — *Whit's* that, boy? Another juggler
with a long train. — *R. Johnson, Magician's Laidy*.

Dancing-wench, *hocus pocus*, and other an-
ticks just my remembrance. — *Sir T. Herbert, Re-
lation of some Years' Travels into Africa and the*
Great Asia, p. 134.

2. Juggle; cheat; words formerly used by
conjurers in practising their tricks.

Right and wrong
Could never hold it out so long,
And, like blind fortune, with a slight
Convey men's interest and right.
From Silvio's pocket into Nokes's.
An easily as *hocus pocus*. — *Bath, H. H. H. H.*, iii. 3.

If thou hast any *hocus pocus* tricks to play, why
can't thou do them here? — *Addison, Drummer*.

Hocus, or Hocus-pocus. s. a. Cheat. *Vulgar*.
One of the greatest pieces of humbuggery, with
which these jugglers *hocus* the vulgar and incau-
tious of the present age. — *Nelson*.

Used as a verbal abstract.

This gift of *hocus pocus*, and of disguising
matters, is surprising. — *Sir E. L'Estrange*.

Hod. s. [?] Kind of trough, supported by a
handle, in which a labourer carries mortar
to the masons.

A fork and a hook to be tampering in clay,
A lath, hammer, trowel, a hod or a tray.
— *Tamer, Five Hundred Points of good*
Husbandry.

Hodden. w. and s. [?] Coarse kind of
cloth so called.

While so? so long as it is but drest in *hodden* or
russet; and Revolution, less frequent than War,
has not yet got its laws of Revolution, but the
hodden or russet individuals are the ordinary, the
striking before brother *hodden* of mankind,
let us close those wide mouths of ours; let us re-
sist, and begin considering. — *Curlye, The*
French Revolution, pt. iii. l. 1. rh. ch.

Hoddy-doddy. s. A word of contempt de-
noting an awkward, foolish, or ridiculous
man.

Oh! wife, and you,
That make your husband such a *hoddy-doddy*.
— *R. Johnson, Every Man in his Humour*.
He has more goodness in his little finger, than
you have in your whole body:
My master is a personable man, and not a spindly-
shank'd *hoddy-doddy*.
— *Swift, Cocknutt's Letter to Dr. Shedd*.

Hoddy-peak. s. [Dutch, *huddlebek*, *hobbel-
bek*.] Stammerer; dolt; nimby.

What ye brain-sick fools, ye *hoddy-peaks*, ye
doddy-podges. — *Latimer*.

Hodge-podge. s. [Fr. *hockepot*.] Medley
of ingredients boiled together.

They have made our English tongue a collan-
age, or *hodge-podge* of all other speeches. — *Epistle*
to the Honourable Sir John Lubbock.
As for mercury water and other poisons, they
might be fit for rats, which is a kind of *hodge-pot*.
— *Raven, Speech against the Council of State*.
It produces excellent corn, whereas the Turks
make their trachina and balbut, a certain *hodge-
podge* of stinky ingredients. — *Stadius, Travels*.

Hodtern. adj. Constituted by, consisting of,
to-day; existing.

I know that this contrary to the common
opinion not only of the *hodterns*, but even of di-
verse mathematicians. — *Boyle, Works*, vol. ii.
p. 754. (Rich.)

Hodmandod. s. Snail.

Those that cast their shell are the lobster, the
crab, the crawfish, and the *hodmandod* or dudman.
— *Lucan*.

Hoe. s. [Fr. *houe*.] Instrument to cut up
the earth, of which the blade is at right
angles with the handle.

They should be thimmed with a *hoe*. — *Mortimer*,
Husbandry.

Hoe. s. a. Cut or dig with a hoe.

They must be continually kept with weeding and
hoeing. — *Mortimer, Husbandry*.

Hoful. adj. [A.S. *hogu*, *hug*, *huh* — mind,
thought.] Prudent; careful. *Rare*.

S. Gregory, ever *hoful* of his doings and behaviour,
directed several letters unto him. — *Stapleton, Ec-
clesiastical History*, fol. 97. b. 1. 1565.

Hofully. adv. In a *hoful* manner. *Rare*.
Women serving God *hofully* and chastely. — *Staple-
ton, Fortness of the Faith*, fol. 113. b.

Hog. s. [from Welsh *hech*.] General name
of swine.

This will raise the price of *hogs*, if we grow all
the pork-keepers. — *Shakespeare, Merchant of Venice*,
iii. 5.

The *hog*, that ploughs not, nor always thy call,
Lives on the labours of this Lord of all.

— *Pope, Essay on Man*, iii. 11.

Bring *hogs* to a fine market. Fail of one's
design.

You have brought your *hogs* to a fine market. —
Spectator.

Hog. s. a. Cut the hair short, like the bristles
of a hog; (especially the mane of a horse).

Hog-doe. s. [two words.] See extract.

The axis group contains but three species . . .
Among the British sportsmen and residents in
India, these animals are called *hog-deer*; they are
most usually found in the heavy grass jungles in the
lower provinces, and to the northward in the Jaw
and Surpung jungles, along the banks of the rivers;
they feed in preference on the silky grass used for
making twine. They are extremely indolent in
their habits, feeding at night, and passing most of
the day in sleep. To this we may probably trace
the repugnance of the *hog-deer* to remain in dis-
tricts much frequented by the wild parakeets, whose
loud and discordant voice must frequently disturb
them. — *Swainson, Natural History and Classification*
of *Quadrupeds*, § 238.

Hogcote. s. House for hogs; hogsty.

Out of a small *hogcote* sixty or eighty load of dung
hath been raised. — *Mortimer, Husbandry*.

Hoggerel. s. [N.Fr. *hoguetz*.] Hog.

And to the temples first they lunge and weck,
By scutelles with *hoggers* (hidenaw) of two years,
Clownes are ought to Geres.
— *Burley, Translation of the Aeneid*, iv. (Rich.)

Hoggins. s. [?] See extract.

[*Hoggins*, said silted from the gravel to be laid on
rails. — *Widdowood, Dictionary of the English Lan-
guage*.]

Hoggish. adj. Having the qualities of a
hog; brutish; greedy; selfish.

Suspicion also had, for the *hoggish* shrewdness, of
her brain, and Moses, for a very unlikely envy. — *Sir*
P. Sidney.

Those devils, so talked of and feared, are now
seen but *hoggish* jailors. — *Overbury, Characteristicks*
of a Prison.

Hoggishly. adv. In a *hoggish* manner;
gravidly; selfishly.

They are all *hoggishly* drunk. — *Chaucer, Tale*
for *Drumkardes*: 1574.

Hogh. s. [A.S. *hog, hou*.] Hill; rising ground;
cliff. *Obsolete*.

That will can witness yet into this day,
The western *hog*, besprinkled with the gore
Of mighty Gormet. — *Spenser, Faerie Que*.

Hogher. s. A keeper of hogs.

No lusty weatherer thither drave his king,
Nor boarish *hog-herd* fed his roving swine.
— *Brown, Britannia's Pastors*, b. ii.
line 1: 1616.

The terms *hogherd* and *hogkeeper* are not to be
used in our poetry; but there are no finer words in
the Greek. — *Brown, Notes on the Odyssey*.

Hogling. s. Young or little hog.

So do our *hoglings* sink forthwith.
— *Drout, Translation of the*

Hogo. s. [Fr. *haut* — high; *gout* — ta-
] High flavour; strong scent.

Belshazzar's sumptuous feast was heightened
the *hogo* of his delicious meats and drinks. — *Dr.*
Griffith, Fair of God and the King, p. 70: 1600.

Hoghead. s. [Dutch, *ochshoofd*; Swedish,
oshufud.]

1. Measure of liquids containing sixty-three
gallons.

Varro tells that every jugerum of vines yielded
six hundred urns of wine; according to this pro-
portion, one acre should yield fifty-five *hogheads*,
and a little more. — *Arbuthnot*.

2. Any large barrel.

Blow strongly with a pair of bellows into a *hog-
head*, putting into it before that which you would
have preserved; and in the instant that you with-
draw the bellows, stop the neck with a *hoghead*.
They slung up one of their largest *hogheads*; I
drank it off; for it did not hold half a pint. — *Seyd*,
Travels in Persia.

Hoghearing. s. A ludicrous term, denoting
much noise about nothing.

Why do I hold you thus long in these his noisome
exclamations, and hideous cry of *hoghearing*, when
as we used to say in Kentland, we have a great deal of
noise, and no wool. — *Dean Martin, Letters*, p. 95:
1682.

Hogsty. s. The place in which swine are
shut to be fed.

The families of farmers live in filth and nastiness,
without a shoe or stocking to their feet, or a house
so convenient as an English *hogsty*. — *Swift*.

Upon which he laid violent hands on Adams, and
dragged him into the *hogsty*, which was, indeed, but
two steps from his parlor window. — *Fichtelberg, Ac-
count of Joseph Andrews*.

Hogwash. s. Draff which is given to swine.

Your butler purloins your liquor, and the brewer
sells you *hogwash*. — *Arbuthnot, History of John*
Bull.

Holden. s. Rude, ill-taught country girl.

All those [women] we saw, were the ugliest awk-
ward *holdens* in nature. — *Swainson, Travels in*
Spain, letter 44.

One is a Mrs. Ammerly (a relation to the present
disputants), she is daughter to my Lord Tyrone,
such another sisterly ignorant *holden* I never saw,
and the worst of it is she is very good-humoured,
but will be familiar. Her husband is very like the
Duke of Bedford, and well enough. — *Life and Cor-
respondence of Mrs. Delany*, edited by Lady Lun-
ceford, vol. ii. p. 323.

Holden. adj. Rustick; inelegant; untaught.

They throw their persons, with a *holden* air,
Across the room, and toss into the chair.

Given nature wild,
Delighted with a *hugden* snail,
Which truth and innocence controul.
Green, The Spleen, 250.

Holden. v. n. Act as a holden; romp.

Some of them would get a scratch; but we always discovered, upon examining, that they had been *holden* with the young apprentices.—*Swift*.

Hoist. v. a. [*Fr. hausser*.] Older form of *hoist*.

Join you with me;
We'll quickly *hoise* Duke Humphrey from his seat.
Shakespeare, Henry VI. Part II. l. 1.

Hoise sail, and fly;
And in thy flight aloud on Crutis cry.
Chapman, Translation of the Odyssey.

Auria had *hoised* sail, and was on his way toward the bay of Nampactus.—*Knutler, History of the Turks*.

They committed themselves unto the sea, and loosed the rudder bands, and *hoised up* the sail, and made toward the *Acte*, xxvii. m. That man which pitheth virtue for itself, and can endure to *hoise* and strike his sails, as the divers nature of calms and storms require, must cut his sails of mean length and breadth, and content himself with a slow and sure navigation.—*Sir W. Raleigh*.

Hoist. v. a. Raise; lift.

What inside she made to *hoist* her purple sails I And to appear unaccounted in flight,
Drew half our strength away.
Dryden, All for Love.

Seize him, take, *hoist* him up, break off his hold, And toss him headlong from the temple's wall.
Southern.

What made Abraham kick at all the kindnesses of his father, but because his ambition would needs be degrading the sceptre, and *hoisting* him into his father's throne?—*South, Sermons*.

Hoist. s. Raising; lifting; lift.

He is upon his second *hoist* into the cart.—*Gayton, Notes on Don Quixote*, p. 290.

Hoisting. s. See extract.

Confession was writhed out of some by offers of indulgence, wrung from others by the dread of torture, by actual torture, torture, with the various ways of which our hearts must be shocked, that we may judge more fairly on their effects. These were among the forms of procedure by torture in those times, without doubt mercilessly employed in the dungeons which confined the Templars. The criminal was stripped, his hands tied behind him; the cord which lashed his hands hung upon a pulley at some height above. At the sign of the judge he was hauled up with a frightful wrench, and then violently fell to the ground. This was called in the common phrase, *hoisting*. It was the most usual, twofold the mildest form of torture. *Milman, History of Latin Christianity*, b. xii. ch. i.

Gin or Geneva, from *gavere* (juniper), is a kind of ardent spirit manufactured in *Holland*, and hence called *Hollands* gin in this country to distinguish it from British gin. . . . For the . . . details of the manufacture of genuine *Hollands*, I am indebted to Robert More, Esq. formerly of Underwood, distiller.—*L. c., Dictionary of Arts, Manufactures, and Mines*.

Hollibock, *s.* [A.S. *hoc* mallow; the first element being *holy*, the plant being introduced from the Holy Land.] Garden plant so called; rose mallow.

Even with this garland made of *hollibocks*, I cross thy brows from every shepherd's kiss: Heigh ho! how glad I am to touch thy locks My frolic heart even now a freeman is.

R. Greene, Poems.

Hollibocks are exceed poppies for their durability, and are very ornamental.

Mortimer.

Hollirose, *s.* Plant so called, of the genus

Heliathemum; cistus; rock-rose.

Why, *holl*-rose, dost thou of slender frame, And without scent, assume a rose's name?

Tate, Conley.

Hollow, *adj.* [A.S. *hol*; German, *hohl*.]

1. Excavated; having a void space within, as opposed to solid.

It is fortune's use To let the wretched man outlive his wealth, To view with *hollow* eye and wrinkled brow An age of poverty. *Shakespeare, Merchant of Venice*. Some search for *hollow* trees, and fell the woods.

Dryden.

2. Noisy, like sound reverberated from a cavity.

The southern wind, Now by his *hollow* whistling in the leaves, Foretells a tempest.

Shakespeare, Henry IV. Part I. v. 1.

Thesea issued such a blast and *hollow* roar, As threaten'd from the hinge to leave the door.

Dryden.

3. Not faithful; not sound; not what one appears.

Hollow, *adj.* {HOLDING HOLLOWNESS}

Who in want a *hollow* friend doth try, Directly seasons him his enemy.

Shakespeare, Hamlet, iii. 2. *Hollow* church papists are like the roots of nettles, which themselves sting not; but bear all the stinging leaves.—*Bacon*.

He seem'd For dainty composed, and high exploit; But all was false and *hollow*.

Milton, Paradise Lost, ii. 110.

Used *adverbially*, as in the colloquial expressions 'He carried it *hollow*'—he gained the prize without difficulty; 'He was beaten *hollow*'—was beaten without a chance of success, without effort on the part of the winner, or beyond a doubt.

Hollow, *s.*

1. Cavity; concavity.

I've heard myself proclaim'd, And by the happy *hollow* of a tree Escap'd the hunt.

Shakespeare, King Lear, ii. 3. I suppose there is some vault or *hollow*, or hole, behind the wall, and some passage to it.—*Bacon, Natural and Experimental History*.

Against the horse's side his spear He throws, which troubles with enclosed fear; Whilst from the *hollow* of his wound proceed Groans not his own.

Sir J. D. Abney, The Destruction of Troy. Himself, as in the *hollow* of his hand, Holding, obedient to his high command, The deep abyss.

Prior, Solomon.

2. Cavern; den; hole.

Forests grow Upon the barren *hollows*, high overhanging The haunts of savage beasts.

Prior.

3. Pit.

A fine genius for mending thought of forming, such an insight y *hollow* into so uncommon and agreeable a scene.—*Addison*.

4. Any opening or vacancy.

He touched the *hollow* of his thigh.—*Genesis*, xii. 25.

5. Passage; canal.

The little springs and rills are conveyed through little channels into the main *hollow* of the aqueduct.—*Addison, Travels in Italy*.

Hollow, *v. u.* Make hollow; excavate.

These *hollow* *hollow'd* did the waves sustain, Ere ships in triumph plow'd the watery plain.

Dryden.

Multitudes were employed in the sinking of wells, and the *hollowing* of trees.—*Spectator*.

Hollow, *v. u.* Shout; hoot.

This new judge will wait, and in your ear Will *hollow* rebel, traitor, murderer.

Dryden. I pass for a disaffected person and a murderer, because I do not hoot and *hollow*, and make a noise.

Addison.

He with his bounds came *hollowing* from the stable.

Makes here with nois, and kneels beneath a table.

Dryden, Epistle to Miss Mount, ep. ii.

Hollow-eyed, *adj.* Having the eyes sunk in the head.

With *hollow-eyed*, With his warm-soften maw, And his easily jaw.

Shelton, Poems, p. 257.

A *hollow-eyed*, sharp-looking wretch.

Shakespeare, Comedy of Errors, v. 1.

Hollow-hearted, *adj.* Dishonest; insincere; differing in practice from profession.

What could be expected from him but knotty and crooked *hollow-hearted* dealings?—*Hosack, Foxall Forest*.

The *hollow-hearted*, disaffected, And close malignants are detected.

Butler, Hudibras.

Hollow-wort, or *Holewort*, *s.* Native plant so called, *Corydalis claviculata*.

Hollow-wort, or *hole-wort*, from its hollow root.—*Dr. Prior, Popular Names of British Plants*.

Hollowly, *adv.* In a hollow manner; unfaithfully; insincerely; dishonestly.

O earth, bear witness, And crown him I profess with kind event, If I speak true; if *hollowly*, invert

What best is boded me, to mischief!

Shakespeare, Tempest, iii. 1.

Hollowness, *s.* Attribute suggested by *Hollow*.

1. Cavity; state of being hollow.

If you throw a stone or a dart, they give no sound; no more do bullets, except they happen to be a little hollowed in the casting, which *hollowness* penetrates the air.—*Bacon*.

I have seen earth taken up by a strong wind, so that there remained great empty *hollowness* in the place.—*Hakewell*.

The river... is drawn into little hollowness.—
Jeremy Taylor, Sermons.
 Earth's hollowness, which the world's lungs are,
 Have no more wind than the upper vault of air.
Donne, Poems, p. 144.

2. Deceit; insincerity; treachery.

Thy youngest daughter does not love thee least;
 Nor are these empty hearted, whose low sound
 Reverbs no hollowness. *Shakespeare, King Lear, l. 1.*
 People, young and raw, and soft natured, think it
 an easy thing to gain love, and reckon their own
 friendship a mere price of any man's; but when ex-
 perience shall have shown them the hardness of
 most hearts, the hollowness of others, and the im-
 mense and ingratitute of almost all, they will then
 find that a friend is the gift of God, and that he
 only who made hearts can unite them.—*South, Ser-
 mons.*

Holly. *s.* [A.S. *holgn, hollen.*] Native ever-
 green so called, *Ilex aquifolium*.

The leaves [of the *holly*] are set about the edges
 with long, sharp, stiff prickles: the berries are small,
 round, and generally of a red colour, containing
 four transverse striated seeds in each. Of this tree
 there are several species; some variegated in the
 leaves, some with yellow berries, and some with
 white.—*Miller.*

Fairest blossoms drop with every blast;
 But the brown beauty will like *holly's* last.
Gay, Shepherd's Week, Wednesday.

Holly or *holm*, on the eastern border called *holles*,
 ... (is) a word derived from Latin *hols*, which,
 in the middle ages, was confused with *her*, the *holm*
oak of the ancients, whence the adjective *alpinus*,
 and, with the prefixed aspirate *holimus* and *holyn*.
 The form *holly* will have been the more readily
 adopted, from the branches of this shrub being used
 for *olive* branches, and adorned before the image of
 Jesus in certain solemnities of the Church that re-
 presented His entrance into Jerusalem. Thus in
 Google's Nomenclature—

Here, on the same that, bare alone,
 While in the straits he roams,
 The peevish melle, and olive branches
 So thick before him stroke!
Dr. Prior, Popular Names of British Plants.

Holm. *s.* [A.S.] River island; islet; low
 land by the side of a river. The exact
 meaning varies with the district, as may
 be seen from the numerous geographical
 names, especially in Scandinavia (*Holm-*
strand, &c.), in which it enters as an
 element of a compound. Land, however,
 by the side of, or surrounded by, water, is
 generally, perhaps always, intended.

A little higher up the river was a *holm*, which
 divided it into two branches.—*Failland, Travels,*
 ...

Holm. *s.* [A.S. *holen* = *holly*.] Tree so
 called, of the genus *Quercus*; *holm-oak*
 (the word being generally used *adjectivally*
 or as the *first element of a compound*) being
 the common term.

Under what tree did'st thou take them company-
 line together? who answered, under a *holm* tree.
History of Samson, &c.

The carver *holm*, the ample seldom inward soul.
Spenser, Faerie Queen.

Holocaust. *s.* [Gr. *holos* = whole, and *ka-*
stos, from *kaino* = burn.] Burnt sacrifice;
 sacrifice of which the whole was consumed
 by fire, and nothing retained by the offer-
 ferer.

Isaac carried the wood for the sacrifice, which
 being an *holocaust*, or burnt offering, to be con-
 sumed into ashes, we cannot well conceive a bur-
 then for a boy.—*Sir T. Brown.*

Let the eye behold no evil thing, and it is made a
 sacrifice; let the tongue speak no filthy word, and
 it becomes an offering; let the hand do no unlaw-
 ful action, and you render it a *holocaust*.—*Boyl,*
Wittem of God manifested in the Works of the
Creation.

Esau cut a piece from every part of the vic-
 tim, and by this he made it an *holocaust*, or an en-
 tire sacrifice.—*Brown.*

Holograph. *adj.* [Gr. *holos* = whole, and *grap-*
hō = writing; *grapō* = write.] Written as a
 whole applied to letters of which the con-
 tents, as well as the signature, are in the
 handwriting of a single person, as opposed
 to letters of which the signature only is
 writing.

A *holograph* letter by a man of quality is a true
 treasure.—*Lamb, Letter to Coleridge.*

Holograph. *s.* Holograph letter.
 I have got your *holograph*.—*Lamb, Letter to Man-*
wing.

Holster. *s.* [A.S. *heolster.*] Case for a
 horseman's pistol.

In a *holster* put what meat
 Into his hose he could not get. *Bolter, Hudibras.*
 He would have been as ready as any of his Protes-
 tant neighbours to gird on his sword, and to put
 pistols in his *holsters*, for the defence of his native
 land against an invasion of French or Irish Papists.
Macaulay, History of England, ch. viii.
 During many months the ground was strewn with
 skulls and bones of men and horses, and with frag-
 ments of hats and shoes, saddles and *holsters*.—*Thol-*
ch. ix.

Holt. *s.* [A.S.]

1. Wood; grove; forest.

The wilde forest, the clothed *holten* with green.
Lord Surrey, Songs, &c., p. 10.
 A grove, holt, or wood of such trees.—*Mole, Works,*
 v. 65: 1677.

2. In the following extracts the previous
 editions give *hill* as the meaning. That the
 authors may have meant this is probable,
 the authority of the editor being added.
 As many woods are on hills, and many
 hills are wooded, the interpretation may
 be true. It is, however, more probable
 that the true meaning of the word has been
 misunderstood.

O'er *holt* and heath
 We went, through deserts waste, and forests wild.
Keats, Translation of Tasso, viii. 12.
 Underneath the *holts* so hoar.
Old Poem cited by Percy, Reliques of Ancient
Poetry, x. 1. (Chas.)
 He, whose rustic name
 O'er heath and craggy *holt* her wing display'd.
Dyer.

Holy. *adj.* [A.S. *hōlig.*]

1. Good; pious; religious.
 See where his grace stands 'twixt two clergymen!
 And see a book of prayer in his hand,
 True ornaments to know a *holy* man.
Shakespeare, Richard III. iii. 7.

2. Hallowed; consecrated to divine use.
 Bare was his holy head; one *holy* hand
 Held forth his hallow crown, and one his sceptre.
Dryden.

3. Pure; immaculate.
 Common sense would tell them, that the good God
 could not be pleased with any thing cruel; nor the
 most *holy* God with any thing filthy and unclean.—
South, Sermons.

4. Sacred.
 An evil soul proclaiming *holy* witness,
 Is like a villain with a smiling cheek.
Shakespeare, Merchant of Venice, l. 3.
 He has deserved it, were it carnalised
 Like *holy* Phœbus' car.
Id., Antony and Cleopatra, iv. 8.

Holyone. *s.*

1. One of the appellations of the Supreme
 Being, by way of emphasis; applied also
 to God the Son.

I am the Lord, your *Holy-One*, the Creator of
 Israel, your King. *Isaiah, xlii. 15.*
 I know thee who thou art, the *Holy-One* of God.
Luke, iv. 41.

Nor from the *Holy-One* of heaven
 Reformed his tongue blasphemous.
Milton, Paradise Lost, vi. 350.

2. One separated to the service of God.
 And of Levi he said, Let thy Thummim and thy
 Urim be with thy *holy-one*.—*Deuteronomy, xxxiii.*

Homage. *s.* [N.F. *homage*; Low Lat.
homagium, homo = man.]

1. Service paid and fealty professed to a
 sovereign or superior lord, wherein he
 who renders it professes himself the *man*
 of his superior.

Call my sovereign yours,
 And do him *homage* as obedient subjects.
Shakespeare, Henry VI. Part I. iv. 2.
 The chiefs, in a solemn manner, did their *homages*
 and made their oaths of fidelity to the earl marshal.
Sir J. Davies, Discourse on the State of Ireland.

2. Obedience; respect paid by external action.
 The gods' great mother, when her heavenly race
 Do *homage* to her.—*Sir J. Denham.*
 A lust of daisies on a flowery lay
 They saw, and wither'd they bent their way:
 To this both knights and dames their *homage* made,
 And due obedience to the daisy paid.
Dryden, The Plumber and the Leaf, 360.

Homageable. *adj.* Subject to homage.
Rare.

Of them two, he of Holland, being *homageable* to
 none, ... was the more potent.—*Howell, Letters, l.*
 2. 15.

For which he is *homageable* to the crown of
 France.—*Ibid. l. 6, 12.*

Homager. *s.* One who holds by homage to
 a superior lord.

Thou blushest, Antony; and that blood of thine
 Is Caesar's *homager*.
Shakespeare, Antony and Cleopatra, l. 1.

His subjects, traitors, are received by the duke of
 Breteigne, his *homager*.—*Bacon, History of the Reign*
of Henry VII.

Hombre. *s.* Same as *Ombre*.

It was there that *Esquille* Orleans roared par-
 trikes on the night when he and the Marquis of
 Stuyne won a hundred thousand from a great per-
 sonage at *hombre*.—*Thackeray, Vanity Fair, ch.*
xvii.

Home. *s.* [A.S. *hām.*]

1. One's own house; one's private dwelling.
 I'm new from *home*, and out of that provision
 Which shall be needful for your entertainment.
Shakespeare, King Lear, ii. 4.

Something like *home* that is not *home* is to be de-
 sired; it is found in the house of a friend.—*Sir W.*
Temple.

Home is the sacred refuge of our life,
 Secured from all aggressions but a wife.
Dryden.
 Those who have *homes*, when *home* they do repair,
 To a last holding call their wand'ring friends.

2. One's own country.

With honour to his *home* let Theseus ride,
 With love to friend.
Dryden, Palamon and Arcite, l. 11.

They who pass through a foreign country, to-
 wards their native *home*, do not usually give up
 themselves to the pleasures of the place.—*Bishop*
Atterbury.

3. Place of constant residence.
 Phœnix, by plenty made the *home* of war,
 Shall weep her crime, and how to *home* be restor'd.
Prior, Ode to the Queen, 1704.

Used *adjectivally*.

a. Domestic, produced at home, or in the
 same country.

Let the exportation of *home* commodities be near
 in value than the importation of foreign.—*Bacon.*

b. Implying force and efficiency.
 Poison may be false;
 The *home* thrust of a friendly sword is sure.
Dryden.

I am sorry to give him such *home* thrusts; for he
 lays himself so open, and has so little art to avoid
 them, that I must either do nothing, or expose his
 weakness.—*Bishop Stillingfleet.*

Used *adverbially*.

a. To one's own habitation.
 One of Adam's children in the mount lights
 ... a "uttering substance; *home* he carries it to
 Adam, who finds it to be hard, to have a bright
 yellow colour, and exceeding great weight.—*Locke.*

b. To one's own country.
 Men in distant regions roam,
 To bring *politer* manners *home*. *Gay, Fables, xiv.*

c. Close to one's own breast or affairs.
 He that encourages treason lays the foundation
 of a doctrine, that will come *home* to himself.—*Sir*
R. L. Estlin.

This is a consideration that comes *home* to our
 interest.—*Adams.*
 These considerations, proposed in general terms,
 you will, by particular application, bring *home* to
 your own concern.—*Archbishop Wake, Preparations*
for Death.

d. To the point designed; to the utmost;
 closely; fully.

Give me no *homages*; thou givest me *wool* for *wool*,
 or, as we say, thou payest me *home*.—*Keats, l. 1539.*
 Crafty enough either to hide his faults, or never
 to show them, but when they might pay *home*.—*Sir*
P. Sidney.

Accuse him *home* and *home*.
Shakespeare, Measure for Measure, iv. 3.
 Men of age object too much, adventure too little,
 and seldom drive business *home* to the full period;
 but content themselves with a multiplicity of success.
Bacon.

That cometh up *home* to the business, and taketh
 off the objection clearly.—*Bishop Sanderson.*
 Break through the thick array
 Of his throng'd regions, and charge *home* upon him.
Adams.

He makes choice of some piece of morality; and,
 in order to press this *home*, he makes less use of re-
 asoning.—*Brown.*

I can only refer the reader to the authors them-
 selves, who speak very *home* to the point.—*Bishop*
Atterbury.

Homborn. *adj.*

1. Native; natural.
 Though it be thus elemented, arm
 Them creatures from *homborn* intrinsick harm.
Donne.

2. Domestic; not foreign.

HOME

Num'rous kinds
With houseborn lyes, or taken from foreign lands.
Pope.

Homebred. *adj.*

1. Native; natural.

God hath taken care to anticipate every man, to draw him early into his church, before other competitors, houseborn lyes, or vicious customs of the world, should be able to pretend to him.—*Hammond, On Fundamental.*

2. Not polished by travel; plain; rude; artless; uncultivated.

Only to me two *homebred* youths belong. *Dryden.*

3. Domestic; not foreign.

But if of danger, which hereby doth dwell,
And *homebred* evil, ye desire to bear,
I can you tydings tell. *Spenser, Faerie Queen.*
This once happy land,
By *homebred* fury rent, long prom'd.

J. Phillips, Cyder, l. ii.
Homebrewed. *adj.* Brewed at home, applied to beer and ale, as opposed to brewers' drink.

I drink the virgin lymph, pure and crystalline as it gushes from the rock, or the sparkling beverage *homebrewed* from malt of my own making; or I indulge with elder, which my own arduous affords.—*Smollett, Expedition of Humphrey Clinker.*

Homefelt. *adj.* Inward; private.

Yet that in pleasing slumber hush'd the senses,
And in sweet undress hush'd it of itself;
But such a sacred and *homefelt* delight,
Such sober certainty of waking bliss,
I never heard till now. *Milton, Comus, 290.*
Happy next him, who to these shades retires,
Whom nature charms, and whom the muse inspires,
Whom humbler joys of home, if quiet phase,
Successive stily, exercise, and ease.

Homekeeping. *adj.* Staying at home.

Homekeeping youth have ever homely wit.
Shakespeare, Twelfth Night of Verona, l. 1.

Homeliness. *s.* Attribute suggested by homely; plainness; rudeness; coarseness. Originally, management; care of home.

more tapestry may, after old, show well; which when it comes to be close viewed, discovers an *homeliness* in texture and faults enough, both in shape and colours. *Bishop Hall, Boar's Head, p. 51.*

Home has opened a great field of gallery to men of more delicacy than acuteness of genius, by the *homeliness* of some of his sentiments.—*Johnson.*

With regard to the style, I have considered perspicuity not only, as it always must be, the first point, but as one of such essential importance to such a subject, as to justify the neglect of all others. Proflixity of explanation, *homeliness* in illustration, and baldness of expression, I have regarded as blemishes not worth thinking of, when any thing was to be gained in respect of clearness.—*Archbishop Whately, Logic, pref.*

Homelin. *s.* [?] Fish of the genus *Rain* (*Rain maculata*).

In the oviparous *homelin* the lobes of the large rudimentary gill-plates are rudimentary.—*Owen, Lectures on Comparative Anatomy, vii.*

The smooth-skinned spotted ray, called *Rain* lyes and *homelin*, so long ago as the time of Merrett, and one of the most common species about the line of our southern coasts, has not been so well distinguished or so clearly defined by name and hours as its obvious characters admit and require.—*Farrall, British Fishes.*

Homeling. *s.* Native. *Rare.*

So that within a while they began to molest the *homelings* (for so I find the word indigenous to be Englished in an old book that I have, wherein *advena* is translated also a *homeling*).—*Hudibras, l. (Rich.)*

Now there were two legions inarrison for the defence of the city, to wit, Prima Flavin and Prima Parthica, besides many *homelings* and natural inhabitants.—*Holland, Translation of Annals of Marcellinus, (Welch.)*

Homely. *adj.* Plain (in its euphemistic meaning of ill-looking); coarse; rude.

Each place handsome without curiosity, and homely without homeliness.—*Sir P. Sidney.*

It is for *homely* features to keep home; They had their name thence. *Milton, Comus, 718.*

It is observed by some, that there is none so *homely* but loses a looking-glass.—*South, Sermons.* Their *homely* are despised, the hungry hand Invade their trenchers next.

Dryden, Translation of the Æneid, vii. 155.

Now Strephon daily entertains His Chloë in the *homelick* strains. *Swift.*

Homely. *adv.* In a homely manner.

It is a beautiful child; *homely* brought up, In a rude homely. *B. Jonson, New Inn.* Thus like the god his father, homely dress, He strides into the hall a horrid guest. *Dryden.*

HOME

Homemade. *adj.* [the *m* double.] Made at home; not manufactured in foreign parts.

A tax laid on your native product, and *home-made* commodities, makes them yield less to the first seller.—*Locke.*

Homœopathy. *s.* [Gr. *homo* = like + *pathe* = suffering, ailment.] System of medical treatment founded upon the doctrine that the medicine which when given to a person in health will produce certain morbid symptoms, will, when given a person suffering from those symptoms in the ordinary course of disease, cure them; the remedy in disease being like the cause of disease in health.

Mesmerism, *homœopathy*, and phrenology, have now been before the world a sufficient time to be fairly and fully examined by competent judges; and as they have not stood the test of impartial scientific investigation, and therefore have not established themselves in professional opinion, they may be safely, on this ground alone, set down under the head of mock sciences.—*Sir G. C. Lewis, On the Influence of Authority in Matters of Opinion, ch. iii.*

Homœr. *s.* [Hebrew.] Jewish measure of about three pints.

An *homœr* of barley-wheat shall be valued at fifty shekels of silver.—*Leviticus, xviii. 16.*

Homœsick. *adj.* Pining for home; an approximate translation of the *maladie du pays*: (as, 'homœsick schoolboy.')

Homœspeaking. *s.* Foreible and efficacious speech.

Our Saviour, who had all gifts in him, was Lord to express his indomitable power in what work him best seemed; sometimes by a mild and familiar discourse; sometimes with plain and impartial *homœspeaking*.—*Milton, Apology for Socrates.*

Homœspun. *adj.*

1. Spun or wrought at home; not made by regular manufacturers.

They sometimes put on, when they go abroad, long, sleeveless coats of *homœspun* cotton.—*Sandys, Travels.*

Instead of *homœspun* coats, were seen Good pinners, clad with *collethron*. *Swift, Bachelors and Philomena.*

2. Not made in foreign countries.

He appeared in a suit of English broad cloth, very plain, but rich; every thing he wore was substantial, honest, *homœspun* ware. *Addison.*

3. Plain; coarse; rude; homely; inelegant.

We say, in our *homœspun* English proverb, He killed two birds with one stone.—*Dryden.* Our *homœspun* authors and forsoke the field, And Shakespeare to the soft Scurfatti yield. *Addison.*

Homœspun. *s.* Coarse, inelegant, rude, untaught, rustic man. *Obsolete.*

What *homœspun* have we were staggering here, So near the cradle of the fairy queen? *Shakespeare, Midsummer Night's Dream, iii. 1.*

Homœstall. *s.* Place of the house; including sometimes a small portion of land adjoining the house.

Through every *homœstall* and through every yard (His midnight walks) pausing, forsoke he flies. *Someville, The Chase, l. iii.*

Homœstead. *s.* Homestead; 'farm building about a house.

I do not see thee bet into the market-place, or any other part of the city, or thy *homœstead* of Nazareth, but into the vast wilderness.—*Bishop Hall, Contemplation, Third temple.*

Both house and *homœstead* into seas are borne, And rocks are from their old foundations torn. *Dryden.*

But the large public thing we had to remark is this: That the twentieth of September 1792 was a raw morning covered with mist; that from three in the morning, Saint-Merchoud, and those villages and *homœsteads* we know of old, were stirred by the rumble of artillery-wagons, by the clatter of hoofs and many-footed tramp of men; all manner of military, patriot and Prussian, taking up position on the heights of La Laine and other heights; shifting and shoving, seemingly in some dread chess-game; which saw the Høyvæn turn to good.—*Carlyle, French Revolution, pt. iii. ch. vii.*

Homeward. *adv.* Towards home; towards the native place; towards the place of residence.

Then Urrina *homeward* did arise, Leaving in pain their well-fed hungry eyes. *Sir P. Sidney.*

HOMO

HOMEREPID HOMOSEXITY
• Look *homeward*, anel, now, and melt with ruth: And O ye dolphins, waft the hapless youth! *Milton, Lycidas, 183.*

Like a long train of snowy swans on high, Which clap their wings, and cleave the liquid sky, Which *homeward* from their wat'ry pastures borne, They sing, and Asia's lakes their notes return. *Dryden.*

Homewards. *adv.* Homeward.

What now remains, But that once more we tempt the wat'ry plains, And, wading *homewards*, seek our safety thence? *Dryden.*

Homicidal. *adj.* Murderous; bloody.

The troop forth issuing from the dark recess, With *homicidal* rage the king oppresses. *Pope.*

Homicide. *s.* [from Lat. *homicidium* = slaughter of a man.]

1. Murder; man killing.

The apostle commands to abstain from blood; construe this according to the law of nature, and it will seem, that *homicide* only is forbidden.—*Hooker, Ecclesiastical Polity.*

2. Destruction: (in the following lines it is not proper).

What wonder is't that black destruction thrives? The *homicide* of manes is less than lives. *Dryden.*

Homicide. *s.* [from *homicida* = slaughterer of a man.] Murderer; manslaughter.

I'd undertake the death of all the world, So might I live one hour in your sweet bosom.— If I thought that, I tell thee, *homicide*, These nails should rend that beauty from my cheeks. *Shakespeare, Richard III. l. 2.*

He's come, the *homicide*, to wield His conqu'ring arms, with corpses to strew the field. *Dryden, Translation of the First Book of the Iliad, 354.*

Homiliæal. *adj.* Social; conversible.

His life was holy, and when he had leisure for retirement, *severe*: his virtues active clearly, and *homiliæal*, not those lazy silent ones of the cloyster.—*Bishop Atterbury, Character of Luther.*

Homilist. *s.* One who preaches to a congregation.

To this good *homilist* I have ever been stubborn. *Rowland and Fletcher, Scourful Lady.* The phylax, Christian *homilist*, speaking as the oracles of God.—*Bishop Hurd, Works, vol. viii. p. 21.*

Homily. *s.* [Gr. *homo* = intercourse, company, intercommunication.] Discourse read to a congregation.

Homilies were a third kind of readings usual in former times; a most commendable institution, as well then to supply the casual, as now the necessary defect of sermons. *Hooker, Ecclesiastical Polity.*

What tedious *homily* of love have you worried your parishioners withal, and never cried, Have patience, good people.—*Shakespeare, As you like It, iii. 2.*

If we survey the *homilies* of the ancient church, we shall discern that, upon federal days, the subject of the *homily* was constantly the business of the day.—*Hammond, On Fundamental.*

Homœcœtal. *adj.* [Gr. *homo* = like, equal + *cœtal* = tail.] Having an equal tail. In *Ichthyology*, applied to fishes like the hering, and the majority of existing fish, in which the upper and lower portions of the tail are equal; its opposite being *heterocœtal*, (*hetero* = another, different), applying to fishes like the sturgeon, wherein the lower division is overlapped by the upper.

The *heterocœtal* configuration is found in all fishes at an early point of their development, giving place to the *homœcœtal* in the osseous fishes, in proportion as their other peculiarities manifest themselves.—*Carpenter, Principles of Physiology, § 322 a.*

Homogeneous. *adj.* Same as Homogeneousous.

Know you the mephitic? sapor styptic? or is it the *homogeneous* or heterogeneous.—*B. Jonson, Alchemist, ii. 3.*

Homogeneousal. *adj.* Same as Homogeneousous. *Rare.*

The means of reduction, by the fire, is but by congregation of *homogeneous* parts.—*Boyle.*

The light, whose rays are all alike refrangible, I call simple, *homogeneous*, and similar; and that whose rays are some more refrangible than others, I call compound, heterogeneous, and dissimilar.—*Sir I. Newton, Opticks.*

Homogeneity. *s.* Participation of the same principles or nature; similitude of kind.

The mixtures acquire a greater degree of fluidity and similarity or *homogeneity* of parts.—*Arbuthnot, On the Nature and Choice of Aliments.* Upon this supposition of only different diameters, 1171

The king hath found
Aer against him, that for ever wars
A honey of his language.

Shakespeare, Henry VIII. iii. 2.

3. Sweet; sweetness; name of tenderness.

Honey, you shall be well dais'd in Cyprus;
I've found great love amongst them. Oh, my sweet,
I prattle out of fashion, and I dote.

Shakespeare, Othello, ii. 1.

Used adjectively.

Why, honey hurl, I bought him on purpose for
Thee.—*Dryden.*

Touching his education and first fostering, some
affirm, that he was fed by honey bees.—*Sir W.
Raleigh, History of the World.*

Honey. v. n. Talk fondly.

Nay, but to live

In the rank sweat of an incestuous bed,
Stew'd in corruption, honeying and making love
Over the nasty sty.

Shakespeare, Hamlet, iii. 4.

leaves, and breeds insects.—*Machiver.*
How honey-dews enchain the fragrant morn,
And the fair ask with luscious sweets adorn. *Garth.*

Honeyflower. c. Plant so called.

It hath a perennial root, and the appearance of a
shrub. This plant [honey-flower] produces large
spikes of rhinoceros-coloured flowers in May, in each
of which is contained a large quantity of black
sweet liquor, from whence it is supposed to derive
its name.—*Miller.*

Honeymoon. s. Honeymoon, this latter being the commoner term.

Sometimes the parties fly asunder even in the midst
of courtship, and sometimes grow cool in the very
honeymoon.—*Tatler, no. 192.*

Honeymoon. s. First month after marriage, when there is nothing but tenderness and pleasure.

And now their honey-moon, that late was clear,
Doth pale, obscure, and tenebrous appear.

Cyclopædia, 1612.

A man should keep his fiery for the latter season
of marriage, and not begin to dress till the honey-
moon is over. —*Addison.*

Honey-mouthed. adj. Flattering; using honeyed words.

He must be bold on't, and he shall: the office
Becomes a woman best; I'll take't upon me:
If I prove honey-mouth'd, let my tongue blister.

Shakespeare, Winter's Tale, ii. 2.

Shakespeare, Titus Andronicus, iv. 4.

Honeystone. s. [? German direct, *honigstein*, which it translates.] Mineral so called, yielding 'mellie' (related to honey) acid, being a mellate of alumina.

The honeystone, like amber, belongs to the geological
formation of lignites. It has, hitherto, been
found clearly in only one locality, at Artern in
Thuringia.—*Ure, Dictionary of Arts, Manufactures,
and Mines.*

Honey-suckle. s.

1. Native climbing and flowering tree of the genus *Lonicera*; woodbine.

Did her steal into the pleas'd bower

Where honey-suckles, ripen'd by the sun,
Furhid the sun to enter, like to favourites,
Made proud by princes, that advance their pride
Against the power that bred it.

Shakespeare, Much Ado about Nothing, iii. 1.

2. Flower or blossom of the woodbine.

Woodbine that beareth the honey-suckle.—*Barret,
Alceste, 1590.*

A honey-suckle,

The amorous woodbine's offspring.

Scilly and Sophia, or The Fatal En, 1610.

Then mellow beat, and honey-suckle's pound;
With these alluring savours srew the ground.

Dryden.

Honeytongued. adj. Using soft speech.

This is the flower that smiles on every one,
To show his teeth as white as winches bone;
And consciences, that will not die in debt,
Pay him the due of honey-tongued Boyce.

A blatter on his sweet tongue, with my heart!

Shakespeare, Love's Labour's Lost, v. 2.

The bee with honied thigh,
That at her flowery work doth sing.

Milton, It Penseroso, 142.

2. Sweet; luscious.

When he speaks,
The air, a charmed libertine, is still;
And the mute wonder lurks in men's ears,
To steal his sweet and honied sentences.

Shakespeare, Henry V. i. 1.

The Grecian sophists, as Plutarch tells us, by their
singing tones, and honied words, and effeminate
phrases and accents, did very often transport their
auditors into a kind of bacchical enthusiasm.—*Scott,
Works, ii. 129.*

Honorarium. s. [Lat.] Fee.

Honorary. s. English form of the preceding.

The fee, or *honorary*, which the scholar pays to
the master, naturally constituted a revenue of this
kind.—*A. Smith, Wealth of Nations, (Ord MS.)*

Honorary. adj.

1. Done or made in honour of anything; indicative of honour.

There was probably some distinction made among
the Romans between such *honorary* arches erected to
emperors, and those that were raised to them on
the account of a victory, which are properly tri-
umphant arches.—*Addison, Travels in Italy.*

This monument is only *honorary*; for the ashes
of the emperor he elsewhere had.

2. Conferring honour without gain; gratuitous; unpaid; (as opposed to *saluted*).

The Romans abounded with little *honorary* re-
wards, that without conferring wealth and riches,
gave only place and distinction to the person who
received them.—*Addison.*

3. In Academic language. An honorary degree is a degree conferred in a privileged manner on the strength of royal or noble birth.

Honneur. s. [Fr. *honneur*; Lat. *honor*.]

1. Dignity; high rank.

I will promote thee unto very great *honour*.—
Numbers, xlii. 17.

2. Reputation; fame.

A man is an ill husband of his *honour*, that en-
tereth into any action, the failing wherein may dis-
grace him more than the carrying of it through can
honour him.—*Shewen.*

3. Title applied to the holders of certain offices; (as the Master of the Rolls, who is addressed as *Your honour*).

Return unto thy lord,
Did him not fear the separated councils:
His *honour* and myself ere at the cure.
And at the other is my good friend Caliochy.

Shakespeare, Richard III. iii. 2.

4. Nobleness of mind; scorn of meanness; magnanimity.

Now shall I see thy love; what motive may
Be stronger with thee than the name of wife?
That which upbraideth him, that thee upbraideth.
His *honour*. Oh, thine *honour*, Lewis; thine
honour.

If thy *honour* is meant any thing distinct from
conscience, 'tis no more than a regard to the censure
and esteem of the world.—*Boyer.*

5. Reverence; due veneration.

This is a duty in the fifth commandment, required
towards our prince and our parent, under the name
of *honour*; a respect, which, in the notion of it,
implies a mixture of love and fear, and, in the ob-
ject, equally supposes goodness and power.—*Boyer.*

6. Chastity.

She dwells so securely on the excellency of her
honour, that the falsity of men dares not present
itself; she is too bright to be looked against.—*Shake-
spear, Merry Wives of Windsor, ii. 2.*

7. Dignity of mien.

Two of far nobler shape, erect and tall,
Godlike erect! with native *honour* clad,
In naked majesty, seem'd lords of all.

Milton, Paradise Lost, iv. 288.

8. Glory; haught.

A late eminent person, the *honour* of his profession
for integrity and learning.—*T. Barret, Theory of
the Earth.*

9. Public mark of respect.

He saw his friends, who, when'd beneath the
waves,

Their funeral *honours* claim'd, and ask'd their quiet
graves.
Such discourses, on such unusual occasions, as
these, were instituted not so much in *honour* of the
dead, as for the use of the living. *Shaksp. Atter-
bury.*

Numbers engage their lives and labours, some to
heap together a little dirt that shall bury them in
the end; others to gain an *honour*, that at last can
be celebrated but by an inconsiderable part of the
world, and is extolled and exulted in by more than
the truly great. *Archbishop Wake, Preparation
for Death.*

10. Privileges of rank or birth.

Henry the seventh, by paying
His father's less, like a most royal priore,
Restored to me my *honours*, and, from ruins,
Made my name once more

Shakespeare, Henry VIII. ii. 1.

To do the *honour* of you will a lord,

ad to a word. *Pope.*

11. Ornament; decoration. *Luticism.*

The sire then shook the *honours* of his head,
And from his brows damps of oblivion shed.

Dryden.

Being his majesty's steward of his majesty's
honour and manor of Woodstock.—*Jord. Clar. adun,
Life, Continuation, iii. 93.*

Do honour. Treat with respect.

They took thee for their mother,
And every day do *honour* to thy grave.

Shakespeare, Cymbeline, iii. 3.

His Grace of Canterbury,
Who holds his state at door, inured pursuivants,
Peers, and footboys. Ha! 'Tis he, methinks!
Is this the *honour* they do one another?

Id., Henry VIII. v. 2.

Honour. v. a.

1. Reverence; regard with veneration; dig- nity.

He was called our father, and was continually
honoured of all men, as the next person unto the
king. *Kath. xvi. 11: (apocrypha).*
The poor man is *honoured* for his skill, and the
rich man is *honoured* for his riches.—*Reck. sinatus,
x. 30.*

How lov'd, how *honour'd* once, avails thee not.
*Pope, Essay to the Memory of an
Unfortunate Lady.*

2. Glorify.

I will burden Pharaoh's heart, that he shall follow
after them; and I will be *honoured* upon Pharaoh,
and upon all his host; that the Egyptians may know
that I am the Lord. *Exodus, xiv. 1.*

Honourable. adj. [Fr. *honorable*.]

1. Illustrious; noble.

Who hath taken this revenge against Tyre, the
crowning city, whose merchants are princes, whose
travellers are the *honourable* of the earth?—*Isaiah,
xviii. 8.*

2. Great; magnanimous; generous.

Sir, I'll tell you,
Since I am charg'd in *honour*, and by him
That I think *honourable*.

Shakespeare, Winter's Tale, i. 2.

The casks for his majesty's shipping were *hooped*
as a wine-cask, or *hooped* with iron.—*Sir W. Ra-*
leigh.

I could never make a cask to be *hooped*. I had a
small casket or two, as I observed before; but I
could never arrive to the capacity of making one by
them, though I spent many weeks about it: I would
neither put in the hoops, nor join the staves so true
to one another as to make them hold water; so I
gave that also over.—*Defoe, Life and Adventures*
of Robinson Crusoe.

2. Encircle; clasp; surround.

A *hoop* the ornament, and make
This my embrace the zodiac.

Chatterbox.

learning, and all other offices, above a doctor of
divinity.—*Martin, Marriage of Priests*, l. i. l. ii.

Hooper. *s.* Wild swan; whistling swan;
elk; Cygnus ferus.

The *hooper*, so called on account of the peculiar
note uttered by this bird, is a winter visitor of the
British Islands.—*Farrall, British Birds.*

Hoopers' hide. *s.* Explained in Nares as
another term for 'the game more usually
called blind-man's buff. Evidence, however,
in support of this view is wanting. The
etymology which the editor suggests is
'Whoopers! hide!' i.e. 'Let those who cry
whoop conceal themselves;' which makes it
more probable that Hide-and-seek is the
game intended.

But Robin, finding him silly,
Most friendly took him aside,
Till while that his wife with Willy
Was playing at *hoopers' hide*.

The Winchester Wedding. (Nares by H. & W.)

Hooping-cough. *s.* [chooping, from the
character of the cough. The spelling with
h, with which the pronunciation agrees,
though by no means exclusively adopted,
is prevalent.] Disease so called, in medical
Latin Pertussis.

Numerous and various opinions have been held
respecting the pathology of *hooping-cough*, of which,
however, we can but give a short summary. It
has been imputed to the presence of a subtle and
irritating vapour, or an infectious morbid principle
acting directly on the respiratory organs and stom-
ach;—to gastric disorder and sabours; the lungs
being affected sympathetically;—to a nervous irri-
tation, and gastric giving rise to a peculiar kind of
catarrh, attended with convulsive action of the
glottis and diaphragm;—to spasmodic irritation of
the stomach primarily, and of the lungs and dia-
phragm sympathetically;—to inflammatory irri-
tation of the stomach, extended to the larynx, &c.;—
to irritation of the pneumogastric nerves extended
to the diaphragm and stomach, giving rise to forcible
expiratory efforts and vomiting respectively; the

latter relaxing, and being antagonistic to the spas-
modic state of the respiratory organs; to irritation
of the phrenic nerve and a morbid state of the
diaphragm, extended to the rest of the organs of
respiration, and to the stomach; to excited irri-
tability of the lungs, as well as of the diaphragm
and stomach; or to a peculiar atmospheric miasm
affecting chiefly the intercostal, pneumogastric, and
recurrent nerves;—to a spasmodic state of the larynx
and diaphragm superadded to a common cough;—
to a specific catarrhal inflammation seated in the
trachea and bronchi, accompanied with spasm of
the trachea and glottis;—to an inflammatory state
of the bronchi, being a variety of bronchitis, or to a
state which should be regarded as a variety of pul-
monary catarrh; whilst it is imputed to the dis-
order to inflammatory irritation of the brain, or of
its meninges; or both; or to cerebral irritation
consequent upon inflammation of the brain, the
characteristic hoop occurring when the cerebral irri-
tation has become local. From my researches into
the path of the *hoop*, I am inclined to consider the
obscure and its morbid early implicated in
this disease.—*Captain, Dict. of Practical*
Medicine.

Hoopes. *s.* [Lat. *hopupa*; Gr. *ῥοῦπῆ*.] Bird
so called of the genus *Epops*.

'Vannellus' (the hawking) is a new-made name of
the French 'vannet' which bird, by a great mis-
take, hath been generally taken to be the *epops* of
the ancients, which is now by all acknowledged to
be the *hoopoe*.—*Rog. Dictionarium Teologicum*, p. 2.
The falcon to which is due the peculiar colour of
certain larks, as e.g. the *hoopoe*, Misery duck,
black vulture, &c., are probably somewhat dilated on
parts of the integument.—*Owen, Anatomy of*
Vertebres.

Hoop. *v. n.*

1. Shout in contempt.

A number of country folks happened to pass
thence, who followed my *hoop* after me as the
arranted coward.—*Sir P. Schuyler.*

Matrons and girls shut *hoop* at thee no more.
Dryden.

2. Cry as an owl.

Some keep back
The clamorous owl, that merrily *hoops* and wonders
At our quiet sports.

Shakespeare, Measure for Measure, ii. 3

Hoop. *v. a.* Drive with noise and shouts.

We *hooped* him; but, like I

ward nodes gave way to yonder clusters,
We *hooped* him out of the city.

Shakespeare, Coriolanus, iv. 6.

The owl of Rome, whom boys and girls will *hoop*!
That keeps us all up for that wooden god,
That keeps our gardens, could not fright the crows,
Or the best bird, from muting on my head.

Butcher and his clan may hoop me for a clown and
impudor, if I fail in any particular of moment.

Swift.

Francis [St.] concealed himself in a cave, where
he lay hid for a month in solitary prayer. He re-
turned to Assisi, looking so wild and fagged that
the rabble *hooped* him as he passed and pelted him
with mire and stones.—*Johnson, History of Latin*
Christianity, l. ix. ch. 2.

Crisp had committed a great error; but he had
paid with a very slight penance. His play had
not been *hooped* from the stage. It had, on the
contrary, been better received than many very es-
timable performances have been, than Johnson's
tragedy, for example, or Goldsmith's Good-natured
Man.—*Macaulay, Critical and Historical Essays*,
Henry and Letters of Shakespeare, &c.

Hoop. *s.* Clamour; shout; noise.

Its assertion would be entertained with the *hoop*
of the rabble.—*Glaucyth, Synopsis Societatis.*

Hooping. *v. verbal n.* Shouting.

How loud his *hooping* or whoopings; voices
wherever wine are scarce, or infamous old women
discovered.—*Colgrave.*

With *hooping* and shouting we pierce through the
sky,
And Echo turns huntress, and doubles the cry.

Dryden.

They were received by a great multitude with such
hooping and exultation that they thought it advis-
able to retire with all speed.—*Macaulay, History of*
England, ch. ix.

Hop. *v. n.* [A.S. *hoppian*.]

1. Dance.

What good doth all that dancing of young women
holding upon men's noses, that they may *hop* the
higher?—*Northbrooke, Treatise against Dancing*,
p. 132.

2. Jump; skip lightly.

Go, *hop* me over every kennel home;
For you shall *hop* without my custom, sir.

Shakespeare, Twelfth Night, iv. 3.

Your Ben and Fletcher, in their first young flight,
Did no Volpurg, nor no Ardenes write;
But *hopped* about, and short excursions made
From bough to bough, as if they were afraid.

Dryden.

I am highly delighted to see the jay or the thrush
hopping about my walks.—*Speckard.*

3. Leap on one leg.

Men with heads like *hops*, and others with one
humer back alone, whereupon they did *hop* from place
to place.—*Shakspeare.*

I always beat him at three jumps; but he could
hop upon one leg further than I.—*Goldsmith, Vicar*
of Wakefield.

4. Walk lamely, or with one leg less nimble
or strong than the other; limp; halt.

The *hopping* smith once had the golden feast,
And *hopping* here and there, himself a jest.

Dryden.

Translation of the First Book of the Iliad.

5. Move; play.

Her feeble pulse, to prove if any drop
Of living blood yet in her veins did *hop*.

Spenser, Faerie Queen.

Hop. *s.* Dance; jump; light leap; spring
on one leg.

When my wines are on, I can go above a hundred
yards at a *hop*, skip, and jump.—*Johnson.*

Hop. *s.* [A.S. *hoppa*.] Native plant, used
to give bitterness to beer and ale, so called,
of the genus Humulus: (often used *adjectivally*,
or as the first element of a com-
pound).

If *hop* yard or orchard ye mind for to leave,
For *hop* poles and creeples in *hoping* to save.

Tasso, Five Hundred Points of
good Husbandry.

Hop. *v. n.* Impregnate with hops.

Brew in October, and *hop* it for long keeping.—

Meatier, Household.

To increase the milk, diminished by fleshment,
take malt-drink and much *hop*-seed.—*Arbuthnot, On*
the Nature and Choice of Aliments.

Hopbine. *s.* Stem of the hop: (in the ex-
tract incorrectly *bind*).

It is made *bind* without benefit of clergy, multi-
tudo *hop* to any *hop*-bush growing in a plantation
of hops.—*Sir W. Blackstone, Commentaries on the*
Laws of England.

Hope. *s.* [A.S. *hopta*.]

1. Expectation of some good; expectation
indulged with pleasure.

Hope is that pleasure in the mind which every one
finds in himself, upon the thought of a probable
future enjoyment of a thing, which is apt to delight
him.—*Locke.*

There is *hope* of a tree, if cut down, that it will
sprout again.—*Job*, xiv. 7.

Sweet *hope*! kind cheat! fair fallacy! by thee
We are not where or what we are;

But what and where we would be: thus art thou
Our absent presence, and our future now.—*Pindar.*
Young men look rather to the past, not than the
present, and therefore the future may have some
hope of them.—*Swift.*

2. Confidence in a future event, or in the
future conduct of any person.

It is good, being put to death by men, to look for
hope from God, to be raised up again by him.—
2 Maccabees, vi. 18.

Blessed is he who is not fallen from his *hope* in
the Lord.—*Jeremiah*, xiv. 2.

3. That which gives hope; that on which the
expectations are fixed, as an agent, by
which something desired may be effected.

I might see from far some forty truncheoners
draw to her succour, which were the *hope* of the
Strand, where she was quartered.—*Shakespeare,*
Henry VIII. v. 3.

4. Object of hope.

The mother felt more than a mother's pain,
And yet brought forth less than a mother's *hope*;
To wit, an undigested deformed lump.

Shakespeare, Henry VI. Part III. v. d.

She was his care, his *hope*, and his delight,
Most in his thought, and ever in his sight.

Dryden, Sigismunda and Antiochus.

Hope, as in Forlorn Hope. [from German
hoffen = mass of men.] See Forlorn.

Hope. *v. n.* [A.S. *hopian*.]

1. Be in expectation of some good.

Hope for good success, according to the efficacy of
the cause and the instrument; and let the hus-
bandman *hope* for a good harvest.—*Jeremy Taylor,*
Rule and Exercise of Holy Living.

My muse, by atoms here best,
Is thrown upon your hospitable coast;
And finds more favour by her ill success
Than she could *hope* for by her happiness.—*Dryden.*

2. Place confidence in another.

He shall strengthen your heart, all ye that *hope*
in the Lord.—*Psalms*, xxii. 24.

Hope. *v. a.* Expect with desire.
Faith is the substance of things hoped for, the evidence of things not seen.—*Affluence*, xi. 1.
So stands the Thracian heroism with his spear
Full in the gap, and hopes the hunted bear.—*Dryden*.

Hopeful. *adj.*

1. Promising; likely to obtain success; likely to come to maturity; likely to gratify desire, or answer expectation.

You were a great and gracious master, and there is a most hopeful young prince whom you must not desert.—*Racine*.

They take up a book in their declining years, and grow very hopeful scholars by that time they are threescore.—*Addison*.

2. Full of hope; full of expectation of success.

Men of their own natural inclination hopeful and strongly convinced, whatsoever they took in hand.—*Hooker, Ecclesiastical Polity*.

I was hopeful the success of your first attempts would encourage you to make trial also of more nice and difficult experiments.—*Hogge*.

Still must the wound of Telemachus sustain,
If, hopeful of your aid, he hopes in vain.—*Pope, Translation of the Odyssey*.

Hopefully. *adv.* In a hopeful manner.

1. In such a manner as to raise hope; in a promising way.

They were ready to renew the war, and to prosecute it hopefully to the reduction or suppression of the Irish.—*Lord Clarendon, History of the Grand Rebellion*.

2. With hope; without despair.

From your promising and generous endeavours we may hopefully expect a considerable enlargement of the history of nature.—*Gillies*.

Hopefulness. *s.* Attribute suggested by Hopeful; promise of good; likelihood to succeed.

Set down beforehand certain signatures of hopefulness, or characters, whereby may be thinly described what the child will prove in probability.—*Sir H. Wotton, On Education*.

Hopeless. *adj.*

1. Wanting hope; being without pleasing expectation; despairing.

Are they indifferent, being used as signs of immoderate and hopeless lamentation for the dead?—*Hooker, Ecclesiastical Polity*.
Hopeless of ransom, and condemn'd to lie
In duresses, decon'd a lingering death to die.—*Dryden, Palamon and Arcite*, l. 161.

2. Giving no hope; promising nothing pleasing.

The hopeless word of never to return.
Breathe I against thee upon pain of life.—*Shakespeare, Richard III.* l. 3.

Hopelessly. *adv.* In a hopeless manner.

In your last hope past to mollify Morecraft's heart about your mortgage?—*Hopelessly* past.—*Demond and Fletcher, Successful Lady*.

Scarcely any thing in history is more melancholy than that late and solitary about, fighting in the close of a life which had dawned so splendidly, and which had so early become hopelessly troubled and gloomy.—*Macleay, History of England*, ch. xvii.

Various facts will look up at you weak by weak, hopelessly blank of all interest or intelligence.—*Reveries of a Country Parson*, ch. 1.

Hope. *s.* One who hopes.

I expect all hopes, who turn the scale, because the strong expectation of a good certain salary will outweigh the loss by bad rents.—*Swift*.

Hopefully. *adv.* With hope.

One man of despair is the presumptuous contempt of the emotion which is the ground of hope; the going on not only in terrors and amazement of conscience, but also bodily, hopefully, and confidently in wild habits of sin.—*Hammond*.

Hoplite. *s.* [Gr. ὁπλίτης, from ὅπλον = arm, weapon.] Heavy-armed soldier.

Without the latter he could not do his duty as an hoplite in the ranks for the defence of his country; without the former he could not escape danger to his fortune or honour, and humiliation in the eyes of his friends, if called before a dikastery; nor could he lend assistance to any of those friends who might be placed under the like necessity.—*Græce, History of Greece*, pt. ii. ch. xvii.

Hopper. *s.* One who hops.

I conceive, a female hopper, or dancer, was called a hopper.—*Tyrrhitt, Notes on Chaucer*.

Hopper. *s.* [?] Box or open frame of wood into which the corn is put to be ground, or set out, in a mill, for grinding.

The salt of the lake Asphaltites shooteth into

perfect cubes. Sometimes they are pyramidal and plain, like the hopper of a mill.—*Girard*.
Granivorous birds have the mechanism of a mill: their maw is the hopper which hurls and softens the grain, letting it drop by degrees into the stomach.—*Arbuthnot, on the Nature and Choice of Aliments*.
Just at the hopper will I stand,
In my whole life I never saw a grain of sand,
And mark the clock how justly it will sound.—*Bulterton*.

Hopping. *verb. abs.* Meeting of persons intending to dance.

Their dances were spiritual, religious, and godly, not after our hoppings, and leppings, and intermingling hues, met with women.—*Northbrooke, Treatise against Dancing*, p. 118.
In the north of England, . . . meetings are still kept up under the name of hoppings.—*Brand, Popular Antiquities*, ii. 428.

Hopscotch. *s.* Game so called.

Hóral. *adj.* [Lat. hora = hour.] Relating to the hour.

How'er reduced and plain,
The watch would still a watch remain;
But if the hour-glass ceases,
The whole stands still, or breaks to pieces.—*Prior, Alms*.

Hórary. *adj.*

1. Relating to an hour.

I'll draw a figure that shall tell you
What you perhaps forgot befell you,
By way of hórary inspection,
Which saves account our worst creation.—*Bulter, Hudibras*.

In his answer to an hórary question, as what hour of the night to set a fox-trap, he has discussed, under the character of Reynard, the manner of surprising all sharpers.—*Tulcer*.

2. Continuing for an hour.

When, from a basket of summer-fruit, God by Amos foretold the destruction of his people, thereby was declared the propinquity of their desolation, and that their tranquillity was of no longer duration than those hórary or soon decaying fruits of summer.—*Sir T. Browne, Vulgar Errors*.

Hording. *s.* See Hurdle.

Horde. *s.* [Mongolian, *orda*.] Clan; migratory crew of people.

Such were the hords among the Goths, the clans in Scotland, and septa in Ireland.—*Sir W. Temple, Introduction to the History of England*.

Horehound. *s.* [see extract.] Native plant so called, aromatic and medicinal, of the order Labiata, so called, of the genus Marrubium.

Marshall has its leaves, and flower-cup covered very thick with a white hoariness; it is famous for the relief it gives in moist asthmas, of which a thick and viscous matter is the cause; but it is now little used.—*Sir J. Hall, Materia Medica*.

Pale horehound, which he holds of most especial use.—*Dryden, Poliopticon*, song 13.

Horehound, from A.S. *hore-hanc*, from *hara*, a hare, and *hanc*, an unmeaning word, now replaced with *hound*. In our MS. the reading is *hara-hanc*, *hore-hanc*. The name, may, perhaps, be a corruption of Latin *horreus*, the plant having been regarded as of great efficacy in cases of stranguery and dysuria.—*Dr. Prior, Popular Names of British Plants*.

Horizon. *s.* [Gr. ὁρίζων, that which terminates, from ὅρις = a boundary.] Line that terminates the view.

The horizon is distinguished into sensible and real; the sensible horizon is the circular line which limits the view, the real is that which would bound it, if it could take in the hemisphere.—*Todd*.

With the accent on the first syllable, incorrectly if we look at the quantity of the *i*, which is long; but in conformity with *théâtre*, *scénator*, and most other words in the same condition.

When the morning sun shall raise his ear
Above the border of this horizon,
We'll forward towards Warwick and his mates.—*Shakespeare, Henry VI. Part III.* iv. 7.

She began to east with herself from what east this blazing star should first appear, and at what time it must be upon the horizon of Ireland.—*Bacon*.

Soon the sun arose with beams so bright,
That all the horizon laugh'd to see the joyous sight.—*Dryden*.

When the sea is worked up in a tempest, so that the horizon on every side is nothing but flaming billows and flaming mountains, it is impossible to describe the agreeable horror that rises from such a prospect.—*Addison*.

Next morning, therefore, by what time the sun
With glittering rays had gild the horizon.—*Sylvester, On Burton*, 418. (Ord MS.)

When once the sun has come near enough to the zenith, and remains above the horizon long enough

to give more warmth during one diurnal rotation than the counteracting cause, the earth's rotation, can carry off, the more continuance of the cause would progressively increase the effect, even if the sun came no nearer, and the days grew no longer; but in addition to this, a change takes place in the accidents of the cause, its series of diurnal positions tending to increase the quantity of the effect.—*J. S. Mill, System of Logic*, lib. xv. § 2.

Horizontal. *adj.*

1. Near the horizon.

As when the sun, new risen,
Looks through the horizontal misty air,
Shorn of his beams; or from behind the moon,
In slim eclipse, dimdrous twilight sheds
On half the nations.—*Milton, Paradise Lost*, l. 604.

2. Parallel to the horizon; on a level.

An obelisk erected, and golden spheres placed horizontal about it, was brought out of Egypt by Augustus.—*Sir T. Browne*.

The problem is reduced to this; what perpendicular height is necessary to place several ranks of rows in a plane inclined to a horizontal line in a given angle?—*Arbuthnot, Tables of Ancient Coins, Weights, and Measures*.

Horizontally. *adv.* In a direction parallel to the horizon.

As it will not sink into the bottom, so will it neither that above, like lighter bodies; but, being near in weight, lie superficially, or almost horizontally into it.—*Sir T. Browne*.

The ambient ether is too liquid and empty to impel them horizontally with that prodigious celerity.—*Bentley, Sermons*, vii.

Horn. *s.* [A.S.]

1. Hard bodies which grow on the heads of some granivorous quadrupeds, and serve them for weapons.

No beast that hath horns hath upper teeth.—*Bacon*.

2. An instrument of wind-music first made of horns.

The squire can nicher to approach,
And wind his horns under the castle-wall,
That with the noise it shook as it would fall.—*Spenser, Faerie Queen*.

There's a post come from my master, with his horns full of good news.—*Shakespeare, Merchant of Venice*, v. 1.

The goddess . . . to her crooked horns,
Such as was then by Latian shepherds borne,
Aids all her breath: the rocks and woods around,
And mountains, tremble at th' infernal sound.—*Dryden, Translation of the Æneid*, vii. 715.

3. Extremity of the waxing or waning moon, as mentioned by poets.

Shee looke the bed, such fruitfulness convey'd,
That ere two moons had slumber'd either horn,
To crown their bliss, a lovely boy was born.—*Dryden*.

4. The feelers of a snail: (whence the proverb, 'To pull in the horns,' to repress one's ardour).

Love's feeling is more soft and sensible,
Than are the tender horns of cockled snails.
—*Shakespeare, Love's Labour's lost*, iv. 3.
—*Andronicus*.

Hearing of our Marcius's banishment,
Thrust forth his horns again into the world,
Which were inuol'd when Marcius stood for Rome,
And thrust not once peep out.—*Id., Coriolanus*, iv. 6.

5. Drinking-cup.

They attended the banquet, and served the heroes
With horns of mead and ale.—*Mason, Notes on Gray's Poems*.

6. Winding stream.

With sevenfold horns mysterious Nile
Surrounds the skirts of Egypt's fruitful soil.
—*Dryden, Translation of the Georgics*, iv. 400.

7. Antler of a cuckold.

If I have horns to junk one mad, let the proverb go with me, I'll be horn-mad.—*Shakespeare, Merry Wives of Windsor*, iii. 5.
Merchants, venturing through the main,
Slight pirates, rocks, and horns for gain.—*Bulter, Hudibras*.

Horn mad. Perhaps mad as a cuckold.

I am glad he went not in himself: if he had, he would have been horn-mad.—*Shakespeare, Merry Wives of Windsor*, l. 4.

Horn-mad, mean of them, to let others lie with their wives, and wink at it.—*Barton, Anatomy of Melancholy*, to the reader.

Horn. *s. a.* Invest with horns.

I not repent me of my late disguise.—
If you can horn him, sir, you need not.—*B. Jonson, Volpone*.

Horn with horn; horn under horn. This is a combination applied to that kind of common-right wherby cows and oxen were

turned out on commons extending over or lying within the boundaries of more than one parish.

The commoning of *horn with horn* was properly when the inhabitants of several parishes let their common herds run upon the same open spacious commons, that lay within the bounds of several parishes; and therefore that there might be no dispute upon the right of tithes, the bishop ordains that the cows should pay all profit to the minister of the parish where the owner lived.—*Toulmin, Law Dictionary, Grainger.*

Horn-shavings. *s. pl.* Scrapings or raspings of the horns of deer; hartshorn.

What had she then?—Only a bit of the mother: They burnt old shoes, wove-fathers, wove-fathers, A few horn-shavings, with a bone or two, And she is well again. *R. Johnson, Magdalen Lady.*

Horn-silver. *s.* In *Mineralogy*. Chloride of silver.

Hornsilver is rare in the European mines; but it occurs in great quantity in the district of Zacatenco, Fresnillo, and Oatzen in Mexico. *Cres, Dictionary of Arts, Manufactures, and Mines.*

Hornbeam. *s.* Native tree so called.

Betulus, or the *hornbeam* tree, grows great and very like unto the elm, or hazel tree, having a great body; the wood or timber whereof is better for arrows or shafts, poles for mills, and such like devices, than elm or with hazel: for in time it wasteth so hard that the toughness and hardness of it may be rather compared to horn than unto wood, and therefore it was called *horubus* or *lurelbeam*.—*G. Barde, Herbal, p. 179: 1633.*

The *hornbeam* is indigenous to a great part of England, and abounds in Essex, Kent, Norfolk, &c.; it is also common in parts of Wales, in Lancashire, and in the north midland counties; it does not, however, extend to the northernmost counties; nor do we think it truly indigenous to Scotland; although Sir W. Hooker includes it in his *Flora Scotica*. . . . It is also a native of Ireland. *Sedg, British Forest Trees.*

Hornbeam, or *hornbeech*, apparently from Latin 'ornus,' with the usual prefix of an aspirate, the tree having by the older botanists been classed under that genus.—*Dr. Prior, Popular Names of British Plants.*

Hornbill. *s.* Bird so called, of the genus *Buceros*.

The epiderm is in some places continued as a simple layer over the corium, following its wrinkles and folds, as around the naked necks of some vultures. It is moulded upon the bony mandibles to form the beak, and in some birds adheres to osseous productions on the cranium, where it forms a species of horn; and it is remarkable that these instances occur chiefly in those orders of birds, the *Cuculiformes* and *Rosstrales*, which are most analogous to the rudiments among quadrupeds: the cassowary and helmeted curassow are examples. The *hornbills* are, however, instances in the vulturiform, and the kinship in the galliniform order.—*Owen, Anatomy of Vertebrates, rh. xxii.*

Hornblende. *s.* [German direct, *blende*.] Mineral so called. See extract.

Hornblende is also a mineral abundantly distributed in several igneous and altered rocks. It is characterised by its dark green or velvet black colour, its peculiar form of crystallisation, and its shining lustre. It is opaque and tough, but yields pretty easily to the knife. It contains a considerable portion of iron (the darker varieties especially) combined with silica, alumina, lime and magnesia. It has a distinct cleavage and a coarse uneven fracture, and yields a powder small when fractured upon. Auzette is another name for the same mineral, distinguished from *hornblende* by its higher lustre, greater hardness, and conchoidal fracture, and is more frequently found in volcanic rocks of comparatively modern date, than in the oldest igneous and altered rocks. *Aust. & Geology, Introductory, Descriptive, and Practical, vol. ii. p. 178.*

Hornblende rock, united with quartz, is called *hornstone*.—*1861, 185.*

Hornbook. *s.* First book of children covered with horn to keep it unsullied; primer.

He teaches you the *horn-book*. *Shakespeare, Love's Labour's Lost, v. 1.*

Nothing has been considered of this kind out of the ordinary road of the *hornbook* and primer.—*Locke.*

To master John the English maid A *hornbook* gives of glimmer-lust; And that the child may learn the better, As he can name, he calls the letter. *Prior, Alms.*

Horned. *adj.*

1. Furnished with horns.

As when two rams, stir'd with ambitious pride, Fight for the rule of the rich felled flock, Their *horned* fronts no longer on either side Do meet, that, with the terror of the shock, Antagonised both stand senseless as a block. *Spenser, Faerie Queen.*

Thither all the *horned* hinds resort, To graze the ranker mead. *Sir J. Denham, Cooper's Hill.*

2. Shaped like a horn or crescent; resembling horns; crooked.

The *horned* moon three courses did expire, *Spenser, Faerie Queen, iv. 6. 43.*

A steep cloud-kissing rock, whose *horned* crown With proud imperial looks beholds the main. *Mirror for Magistrates, p. 650.*

That king of *horned* heads, whose plentiful urn Sifts forth fatness to the fruitful corn. *Dryden.*

Hornedness. *s.* Attribute suggested by

Horned; appearance resembling a horn.

The *hornedness* of the new moon is still faintly considered by the vulgar as an omen with regard to the weather. They say, on that evening, the new looks sharp.—*Reade, Popular Antiquities.*

Hornet. *s.* [? See, for a suggestion, extract.]

Native fish so called, *Ammodites* *Tobianus*, closely akin to the common Sand lance. Both species of *ammodites* are included by Professor Nilsson among the fishes of Scandinavia; both species also occur in the Forth. Dr. Neill, in his account of the fishes of that locality, says, the Edinburgh fishermen call the large ones *hornet*, probably an abbreviation of *hornet*, in reference to the greater length of body . . . and the hornlike elongation of the lower jaw; by means of which they are enabled to bury themselves in the wet sands of the sea-shore. *Forsell, British Fishes.*

Hórner. *s.* One who works in horn, and sells horn.

The skin of a bull's forehead is the part of the hide made use of by *hórners*, whereupon they shave their horns. *Grev.*

Hórnet. *s.* [A.S. *hynnetre*.] Very large, strong, stinging fly, which makes its nest in hollow trees.

Silence, in times of suffering, is the best; 'Tis dangerous to disturb a *hórnet's* nest. *Dryden.*

Hórnets do mischief to trees by breeding in them. *Mortimer, Husbandry.*

Hórnet. *adj.* [translation of Lat. *cornipes*.] Hoofed.

Mad frantick men, that did not only quake! With *hórnet* horses, and horses wheels, Joy's storm to emulate. *Shakspere, As You Like It.*

Hórny. *v. a.* Invest with horns, *Lutecians*.

I proceed now to the second kind of theft, which I kept in store for women; I mean that whereby they *hórny* their husbands. *World of Wonders, p. 161: 1608.*

This versifying my wife has *hórny'd* me. *Beaumont and Fletcher, Four Plays in One.*

Hórning. *s.* [A.S. *hornung*.] Appearance of the moon increasing.

It [the begin of Mahomet] fell out upon Friday the fifth of July, and the of the incarnation, beginning use their years are dated from the new moon of that time, but which they account not as others from the conjunction itself, but from the *hórning*, which is the cause why they set up in their steeples a crescent. *Gregory, Paston, q. 168: 1630.*

Hórnyish. *adj.* Somewhat resembling horn; hard. *Rare.*

Temperance, as if it were of a *hórnyish* composition, is too hard for the flesh, by keeping under the body with fastings and watchings, till it bring it in obedience.—*Sir M. Sandys, Essays, p. 21: 1624.*

 Him look beneath a boding *horoscope*.
 His sire, the blasphe'm'd Vulcan of a shop,
 From Mars his forge went to Minerva's school.
Dryden.

The Greek name this the *horoscope*,
 This governs life, and this marks out our parts,
 Our humours, manners, qualities, and arts.

Horoscope. *Transliteration of Manilius*.
 They understood the power of such of their own
 horoscopes in the same dust they sprang.
Butler.

On one is a complete *horoscope* containing the
 places of the sun, moon, and every planet, noted
 down on the zodiac in degrees and minutes of a
 degree; and with these particulars the mathematician
 undertook to foretell marriages, fortune, and
 death of the person who had been born at the in-
 stant when the heavenly bodies were so situated.—
Sharpe, History of Egypt, ch. xiii.

Horoscopy. *s.* Calculation of nativities.
 It would have posed old Era Pater to have found
 out any given day in this year to erect a scheme
 upon—good days, bad days, were so allotted (ac-
 cording to the confounding of all solar horoscopes).
Lamb, Essays of Elia, Rejoicings upon the New
Year's Coming of Age.

Horrent. *adj.* [Lat. *horrens*, -entis, pres.
 part. of *horreo*—grow rough, shiver.]
 Pointed outwards; bristled with points.
Rhetorical.

Him a globe
 Of fiery aetherium enrobed round
 With bright imbraxy and horrent arms.
Milton, Paradise Lost, ii. 511.

The cruel winds have hard'nd upon the coast
 Some helpless bark; while sacred pilot melts
 The general eye, or terror's icy hand
 Smiles their distorted limbs and horrent hair.
Akenside, Pleasures of Imagination, b. ii.

Horrible. *adj.* [Lat. *horribilis*; Fr. *horri-
 ble*—see *Horrent*.] Dreadful; terrible;
 shocking; hideous; enormous.

No colour affecteth the eye much with displea-
 sure; there be sights that are horrible, because they
 excite the memory of things that are odious or fear-
 ful.—*Bacon*.

Eternal happiness and eternal misery, meeting
 with a persuasion that the soul is immortal, are of
 all others, the first the most desirable, and the lat-
 ter the most horrible to human apprehension.—
South, Sermons.

Horribleness. *s.* Attribute suggested by
 Horrible; dreadful; hideousness;
 terrible; fearfulness.

The horrible-ness of sin, the terror of God's indig-
 nation.—*Archbishop Cranmer, Defence of the Sacra-*
ment, fol. 7, 1550.

 lity and virtue, *horribly* infects children.—*Locke*.

Horrid. *adj.* [Lat. *horridus*.]

1. Hideous; dreadful; shocking.

Give colour to my pale cheek with thy blood,
 That we the horrid may seem to those
 Which chime to find us.
Shakespeare, Cymbeline, iv. 2.

Not in the bottom
 Of horrid hell can come a devil more damn'd,
 In evils to top Marbeth. *Id., Macbeth*, iv. 3.

Horror on them fell,
 And horrid sympathy. *Milton, Paradise Lost*, x. 540.

2. Shocking; offensive; unpleasant.

Already I year tears survey,
 Already hear the horrid things they say.
Pope, Rape of the Lock, canto iv.

3. Rough; rugged.

Horrid with fern, and intricate with thorn,
 Few paths of human feet or tracks of beasts were worn.
Dryden.

Horridly. *adv.* In a horrid manner; terri-
 fically; shockingly.

Making night hideous! and we fools of nature,
 So *horridly* to shake our disposition,
 With thoughts beyond the reaches of our souls.
Shakespeare, Hamlet, i. 4.

Horridness. *s.* Attribute suggested by

Horrid; hideousness; enormity.

A bloody designer anhoris his instrument to take
 away such a man's life, and the confessor represents
 the horridness of the fact, and brings him to repen-
 tance.—*Hammond*.

The looks of beauty she knew how to wear,
 And make her *horridness* appear so sweet,
 That she the wisest and most piercing eyes
 Had often blinded by her fallacies.

There needs no comment to set forth the horrid-
 ness of these assertions.—*Bishop Hall, Corruption*
of the Church of Rome.

Horrid. *adj.* Causing horror.

His jaws horridly arm'd with three-fold fate,
 Here dwells the direful shark. *Thomson*.

Horridly. *adv.* Strike with horror.

Horripilation. *s.* [horreo—shiver + pilus—
 hair.] Setting, or standing, of the hair on
 end.

Read these without horripilation if you can.—
Lamb, Letter to Manning.

Horror. *s.* [Lat. *horror*; Fr. *horreur*.]

1. Terror mixed with detestation; passion
 compounded of fear and hate, both strong.

Over them sad horror, with grim hue,
 Did always soar, beating his iron wings.
Deer horror seizes every human breast;
 Their pride is humbled, and their fear confest.
Dryden.

2. Dreadful thoughts.

I have slept full with horrors;
 Direness, familiar to my slumber's rose thoughts,
 Cannot now start me. *Shakespeare, Macbeth*, v. 5.

3. Gloom; dreariness.

Lies through the perplex'd paths of this drear wood,
 The nothing horror of whose shady brows
 Threats the forlorn and wandering passenger.
Milton, Comus, 3d.

Black melancholy sits and round her throws
 A death-like silence, and a dread repose.
 Her gloomy presence saddens all the scene,
 Shades every flower, and darkens every green;
 Deepens the murmur of the falling floods;
 And breathes a browner horror on the woods.
Pope, Epitaph to Abbot.

4. In *Medicine*. Shivering; shuddering.

All objects of the senses, which are very offensive,
 do cause the spirits to retire; and upon their flight,
 the parts are in some degree destitute, and so there
 is induced in them a trepidation and horror.—
Brown, Natural and Experimental History.

Horse. *s.* [A.S. *hors*.]

1. Animal so called.

A horse: a horse! my kingdom for a horse!
Shakespeare, Richard III, v. 4.

2. Constellation so called.

Thy face, bright Centaur, autumn's heats retain,
 The softer season suiting to the man;
 Whilst winter's shivering God afflicts the Horse;
 With frost, and makes him an uneasy course.
Creuch, Translation of Manilius.

3. Plural, or collective, in sense.

The galloping of horse: who was't name by?
Shakespeare, Macbeth, iv. 1.

The armies were appalled, consisting of twenty-
 five thousand horse and foot, for the repulsing of
 enemy at their landing.—*Davon, Considerations*
on a War with Spain.

If they had known that all the king's horse were
 quartered behind them, their foot might very well
 have marched away with their horse. *Lord Clarendon, History of the Grand Rebellion*.

The *Arctian horse*

With ill success engage the Latin force.
Dryden, Translation of the Æneid, x. 504.

4. Something on which anything is sup-
 ported: (as, a horse to dry linen on).

5. Wooden machine which soldiers ride by
 way of punishment: (sometimes called a
 timber-mare).

As fine as a horse. Tawdrily or gaudily
 dressed.

It being the custom in this month (May) for the
 passengers to give the wagoner at every inn a rib-
 bon to adorn his team, who soon discovered the ori-
 gin of the proverb, as fine as a horse; for, before
 they got to the end of their journey, the poor beasts
 were almost blinded by the tawdry, partly-renewed
 flowing honours of their heads.—*Gentleman's Maga-*
zine, vol. xxiv, p. 354: 1754.

Take horse. Set out to ride.

I took horse to the lake of Constance, which is
 formed by the entry of the Rhine.—*Addison, Travels in Italy*.

In *Composition*. As a prefix, it signifies
 something large or coarse.

Horse. *v. a.*

1. Mount upon, furnish with, a horse.

He came out with all his clowns, *horsed* upon such
 cart-joles, and so furnish'd, as I thought with my-
 self if that were thrift, I would none of my friends
 ever to thrive.—*Sir P. Sidney*.

After a great flight there came to the camp of
 Gonsalvo, the great captain, a gentleman proudly
horsed and armed: Diego de Mendoza asked the
 great captain, Who's this? Who answer'd, It is
 St. Elmo, who never appears but after the storm.—
Baron, Amphitryon.

2. Carry on the back.

That treat of the discomfiting of keepers, *horsing*
 the deer on his own back, and making off with
 equal resolution and success.—*Butler, Characters*.

3. Ride anything.

Stalls, bulks, windows
 Are smother'd, each are fill'd, and riders *hors'd*
 With various complexions; all agreeing
 In earnestness to see him.
Shakespeare, Coriolanus, ii. 1.

4. Cover a mare.

If you let him out to *horse* more mares than your
 own, you must feed him well.—*Mortimer, Hus-*
bandry.

Horse. *v. n.* Get on horseback.

Lapping himself up handsomely in his long cloak,
 he went to horse; and rode as women use; then
 mounted the barber likewise on his mule.—*Shelton, Translation of Don Quixote*, iii. 13.

 horses; stable-boy.

Some *horse-boys*, being awake, discovered them
 by the fire in their matches.—*Knodice, History of*
the Turks.

Horsebreaker. *s.* One whose employment
 it is to tame horses to the saddle.

Under Sagittarius are born chariot-racers, *horse-*
breakers, and tapers of wild beasts.—*Creuch*.

Horsechestnut. *s.* Tree so called.

It [*horsechestnut*] hath digitated or fingered
 leaves; the flowers, which consist of five leaves, are
 of an enormous figure, opening with two lips;
 there are male and female upon the same spike;
 the female flowers are succeeded by nuts, which grow in
 green prickly husks. Their whole year's shoot is
 commonly performed in three weeks' time, after
 which it does no more than increase in bulk, and
 become firm; and all the later part of the summer
 is occupied in forcing and strengthening the buds
 for the next year's shoots.—*Miller*.

It is the generally received opinion that the *horse-*
chestnut tree is a native of the mountainous parts
 of Asia, and that its introduction into Europe took
 place about the middle of the sixteenth century;
 Cuspin informs us that at Vienna, in 1558, there was
 a plant of this species that had been brought there
 twelve years before, and our countryman Gerard in
 1570, the first of our writers who mentions it,
 speaks of it . . . as a rare foreign tree. . . Mr. Boyle,
 however, in his illustrations, says he never met with
 the common *horse-chestnut* in the mountainous
 parts of Northern India, though there the pavia or
 Indian chestnut is abundant.—*Sells, British Forest*
Trees.

Horsechestnut, said to be so called from its fruit
 being used in Turkey, the country from which we
 received it, as food for horses that are broken or
 touched in the wind. . . In this country horses will
 not eat them, and the name was perhaps, in reality,
 given to those nuts to express contempt.—*Dr.*
Prior, Popular Names of British Plants.

Horsecourser. *s.* [N.Fr. *couracier* = broker.]

Dealer in horses.

A Florentine bought a horse for so many crowns,
 upon condition to pay half down: the *horsecourser*

comes to him next morning for the remainder.—*Sir E. T. Esdras*.

A servant to a *horse-courser* was thrown off his horse.—*Winnian, Surgery*.

He that lights upon a horse in this place [Smithfield] from an old *horse-courser*, would both in wind and limb, may light of a horse's wife in the stew.—*D. Japton, Harleian Miscellany*, ix. p. 317. (Nares by H. & W.)

The provender by diverse *horse-courers* that live by the sale of horses, doe feed them with sudden rie or bran-meat and, panning them up that they may be the fatter to the eye, yet it is not good food to labour with.—*B. Gage, On Husbandry*, b. lii. 120. (Nares by H. & W.)

Horsedrench. s. Physic for a horse.

The most sovereign prescription in Galen... of no better report than a *horsedrench*.—*Shakespeare, Coriolanus*, ii. 1.

Horseflower. s. Native plant so called.

McLampyng is called of some *Tritium vaccini*; in English, cow-wheat and *horse-flower*.—*Gerarde, Herball*, p. 91: 1633.

The *horse-flies* cause much distress to horses in the vicinity of the New Forest, and handfily may sometimes be taken off the groins and other parts not well covered with hair.—*London, Encyclopædia of Gardening*, pl. ii. b. iv.: 1664.

Horsefoot. s. Plant so called.

This plant [which the moderne writers have referred to the *Cercaria* of the ancients, and to the kind of cold's foot] I have thought good to name in English *horse-foot*, for that the leaves exceed cold's foot in largeness, yet are like them in shape; and of this plant *Chusinus* (whom I here chiefly follow) hath described two sorts . . . both these grow in the Andrian and Sirian Alps under the sides of woodes, among bushes and such shadowy places; but not in England that I have yet heard of.—*Gerarde, Herball*, p. 413: 1633.

Tussilago, or sole-foot, hath many white and long creeping roots, somewhat fat . . . when the stalks and seed is perished there appears springing out of the earth many broad leaves, green above, and next the ground of a white herbe or grayish colour, fashioned like a *horse-foot*, for which cause it was called sole-foot and *horse-foot*.—*Ibid.*, p. 412: 1633.

Horseguards. s. pl. [*horse* and *guard*.] Regiments of horse of the King's Guard; as the Life-Guards were formerly called, and as now the Oxford Blues are.

Twelve gentlemen of the *horseguards* were impanelled, having unanimously chosen Mr. A. Trancham, who is their right-hand man in the troop, for their foreman in the jury.—*Addison, Tatler*, no. 253.

Horsehair. s. Hair of horses.

His glittering helm, which terribly was graced With waving *horse-hair*.—*Dryden*.

Used adjectivally.

Thus as he speaks, great Hector stretch'd his arms To take his child; but lo! the infant shrunk, Crying, and with his mother's short'ning breast, Scared by the tawny helm and *horse-hair* plume, That nodded, fearful, on the warrior's crest.

—*Lord Derby, Translation of Homer*.

Horseheel. s. [A.S. *hors* = horse, and *hele* = Lat. *helenium*, the name of a plant.] Plant so called; Elicampagne.

Hors-hele, *horse-heal*, or *horse-heel*, . . . by a double blunder . . . has been corrupted into *horse-hele*, and the plant employed by apothecaries to heal horses of scabs, and more heels.—*Dr. Prior, Popular Names of British Plants*.

Horsekeeper. s. One employed to take care of horses; groom; formerly *horse-knave*.

Your *horsekeeper* tells ye the merits of your horse.—*Dr. White, Sermons*, p. 50: 1615.

Horseleech. s. Gravel leech that bites horses.

The *horseleech* hath two daughters, crying Give, give.—*Spenser, Eccl. 16*.

Let us to France; like *horseleeches*, my boys, The very blood to suck.—*Shakespeare, Henry V.* ii. 3.

Horselitter. s.

1. Carriage hung upon poles between two horses, in which the person carried lies along.

He that before thought he might command the waves of the sea, was now cast on the ground, and carried in an *horselitter*.—*S. Mordaunt*, l. 8.

2. Litter for a horse; long dung.

Horseload. s. As much as a horse can carry.

They have, like good snappers, laid ye down their *horseload* of citations and fathers at your door.—*Willan, Reasons of Church Government urged against Prelacy*.

Horseloaf. s. See extract.

The next food [*horse-loaf*], which is somewhat stronger and better, is bread thus made; take two bushels of good clean beans and one bushel of wheat, and grind them together; then through a fine range bolt out the quantity of two pecks of pure meal, and bake it in two or three loaves by itself; and the rest sift through a small-sieve; and so bake it in great loaves, and with the coarse bread feed your horse in his stall, and with the finer bread against the days of sore labour.—*G. Markham*, b. i. p. 52. (Nares by H. & W.)

Oh that I were in my cat-tub, with a *horse-loaf*, something to hearten me.—*Rowland and Fletcher, Night-walker*, v. 1. (Nares by H. & W.)

Her face was wan, a lean and withered skin, Her stature went three *horse-loaves* did exceed.

—*Harrington, Translation of Ariosto*, vii. 62. (Nares by H. & W.)

Lastly for horse-bread that three *horse-loaves* be sold by every baker for a penny, xiii. for xij, and every loaf to weigh the full weight.—*Walton, Country Justice*: 1620. (Nares by H. & W.)

Horseman. s.

1. One skilled in riding.

A skilful *horseman*, and a huntsman bred.—*Dryden*.

2. One who serves in wars on horseback.

Encounters between *horsemen* on the one side, and foot on the other, are seldom with extremity of danger; because as *horsemen* can hardly break a battle on foot, so men on foot cannot possibly chase *horsemen*.—*Sir J. Hayward*.

Before night, however, the attention had altogether subsided; but it was suddenly revived by a bold imposture. A *horseman* in the uniform of the Guards spurred through the City, announcing that the King had been killed.—*Macaulay, History of England*, xli. xxi.

3. Rider; man on horseback.

With descending showers of brimstone fired, The wild Barbarian in the storm expired! Wrapt in devouring flames the *horseman* rag'd, And spur'd the steel in equal flames ev'g'd.

—*Addison*.

A *horseman's* coat shall hide Thy taper shape, and comeliness of side.—*Prior, Henry and Emma*.

Horsmanship. s. Art of riding; art of managing a horse.

He caulked with such ease into his seat, As if an angel dropt down from the clouds, To turn and wind a fiery Pegasus, And witch the world with noble *horsmanship*.

—*Shakespeare, Henry IV. Part I.* iv. 1.

They phrase themselves in terms of hunting or *horsmanship*.—*Sir H. Walton*.

His majesty, to show his *horsmanship*, slaughtered two or three of his subjects.—*Addison*.

Then peers grew proud, in *horsmanship* excel; Newmarket's glory rose, as Britain's fell.

—*Pope, Imitations of Horace*, b. ii. ep. i.

The great *horsemuscle*, with the fine shell, that breeth in ponds, do not only scrape and slant as the oysters do, but remove from one place to another.—*Bacon*.

Horsrace. s. Match of horses in running.

In *horsraces* men are curious that there be not the least weight upon the one horse more than upon the other.—*Ibid.*

Trajan, in the fifth year of his triumph, entertained the people with a *horsrace*.—*Addison*.

Horsradish. s. Esculent root so called.

Horsradish is increased by sprouts springing from the old roots left in the ground, that are cut or broken off.—*Mortimer, Husbandry*.

Horsran. s. See extract.

Horsran is a contrivance for . . . drawing up hard wheelbarrows of soil from the deep cuttings of foundations, canals, docks, &c., by the help of a horse, which goes backwards and forwards instead of round as in a *horse-gin*.—*Guill, Encyclopædia of Architecture*, Glossary.

Horseshoe. s.

1. Plate of iron nailed to the feet of horses.

I was thrown into the Timine, and could glow-ing hot in that surge, like a *horseshoe*.—*Shakespeare, Merry Wives of Windsor*, iii. 5.

2. Plant so called of the genus *Hippocrepis*; [Gr. ἵππος = horse + σπυρίς = sundial, shoe: so that the words translate one another].

eth up in certain nuttled and some places of Italy and Languedoc. . . . *Horseshoe* is commonly called in Italian *Sferro da Cavallo*; you may name it *Perron equinum*; in English *horse-shoe*.—*Gerarde, Herball*, p. 1230: 1633.

Horsetail. s. Tail of a horse.

1. Turkish standard.

The Pope did not attempt to extinguish the passion for war in a people like the Hungarians, even if he had any sense of its incurably with the Gospel. They were to go to battle no longer under their old national ensign, the *horse-tail*, but under the banner of the Cross. —*Milman, History of Latin Christianity*, l. v. ch. viii.

Their *horse-tails* are plucked from the ground, and the sword

From its sheath; and they form, and but wait for the word,

Tartar and Spathi and Turcoman,

Strike your tents, and throng to the van.

—*Ripon, Siege of Cariah*.

2. Plant so called of the genus *Equisetum*.

Russian gardening in respect to its *horticultural* productions.—*London, Encyclopædia of Gardening*, § 473.

Horticulture. s. [Lat. *hortus* = garden + *cultura* = culture.] Art of cultivating gardens.

Favours of the more refined parts of *horticulture*.—*Feely*.

Already a reform of agriculture had been com-

mened. . . Evelyn had, under the formal sanction of the Royal Society, given instruction to his countrymen in planting. Temples, in his intervals of leisure, had tried many experiments in horticulture, and had proved that many delicate fruits, the natives of more favoured climates, might, with the help of art, be grown on English ground. — *Macaulay, History of England*, ch. iii.

Horticulturalist. *s.* One is fond of, or skillful in, Horticulture.

Hobley wrote horticultural, the common form is horticulturalist. — *Rich.*

Hybrid plants are continually produced in gardens between proximate species, by a process well known to horticulturists. — *Prichard, Physical History of Man*, vol. i. p. 133.

Hortulan. *adj.* [Lat. *hortulanus*.] Belonging to a garden.

Each edition of my hortulan kalender is yours. — *Beelys, Kalender*.

Hortus siccus. *s.* [Lat. *hortus* = garden; *siccus* = dry.] Collection of specimens of plants dried and preserved; herbarium.

I ran from auction to auction, became a critic in shells and fossils, bought a *hortus siccus* of insectible value, and purchased a secret art of preserving insects. — *Johanna, Idler*, no. 18.

Hortyard. *s.* Same as Orchard.

The hortyard entering, [he] admires the fair And pleasant fruits. — *Sauls, Translation of Ovid's Metamorphoses*, vol. i. 1153, p. 200.

Hosanna. *s.* [Hebrew.] Form of acclamation, of blessing, of wishing well; exclamation of praise to God. See extract.

Through the vast of heaven It sounded, and the faithful armies rung Hosanna to the Highest.

The word *hosanna* is a contraction of Hebrew words, meaning 'Save, I beseech thee,' a form of acclamation which the Jews were wont to use in their feast of tabernacles, in which also they used to carry boughs in their hands, and to sing psalms, as it is in the second book of Maccabees, ch. x. Both these customs of boughs and hymns were usual among the Greeks, in any time of sacred festivity. — *Hammond, On St. Matthew*, xxi. 9.

Hose. *s.* Part of a machine for distribution of water; in a fire engine, the leathern pipes.

To this pier, water of an excellent quality is conveyed by pipes; so that boats may come at and by enjoying a hose to the river, as if there for this purpose, fill the casks without the usual trouble and fatigue. — *White, Journal*, p. 11.

Hose. *s.* pl. *hosen*. [A.S. *hos, hosen*.]

1. Breaches.

These men were bound in their coats, *hosen*, hats, and other garments, and cast into the midst of the burning fiery furnace. — *David*, iii. 21.

He cross-examin'd both our hose, And plunder'd all we had to lose.

Butler, *Hudibras*.

2. Stockings; covering for the legs.

He, being in love, could not see to garter his hose; and you, being in love, could not see to put on your hose. — *Shakespeare, Two Gentlemen of Verona*, ii. 1.

Hosier. *s.* One who makes, manufactures, or deals in, stockings.

As arrant a cockney as any hosier in Cheap-side. — *Swift*.

Hosiery. *s.* Hosier's ware.

There is a great variety of different frames in use for producing various kinds of hosiery. The first, which forms the foundation of the whole, is that for knitting plain hosiery, or the common stockings frame. — *Lee, Dictionary of Arts, Manufactures, and Mines*.

Hospice. *s.* Hostel. *Obsolete*.

But the pilgrimages of Anglo-Saxon kings, and a numerous number of the people, to Rome; the chivalry self-imposed to support a hospice there; the fervent zeal of Boniface for the papal claims, are all proofs of a mild sentiment to the august mother of the faith. — *C. H. Pearson, The early and middle Ages of England*, ch. ix.

Hospitable. *adj.* [Fr. *hospitable*; Lat. *hospitalis*.] Giving entertainment to strangers; kind to strangers.

I'm your host; With soldiers' hands my hospitable favours. You should not rattle thus.

Shakespeare, *King Lear*, iii. 7.

Receive the ship-wreck'd on your friendly shore; With hospitable rites relieve the poor.

Dryden, *Translation of the Æneid*, l. 802.

Hospitalableness. *s.* Attribute suggested by hospitable disposition to entertain strangers; kindness to strangers.

I have two ways to entertain my Saviour; in his members, and in himself. In his members, by charity and hospitalableness; 'what I do to one of these little ones, I do to him.' In himself, by faith; 'if any man open, he will come in and sup with him.' — *Bishop Hall, Contemplations*, b. iv.

His [Abraham's] benignity to strangers, and hospitalableness, is remarkable among all his deeds of goodness. — *Barrow, Works*, i. 424.

Hospitably. *adv.* In a hospitable manner.

Ye Jesus hospitably live, And strangers with good cheer receive. Prior. The former liveth as joyously and hospitably as the other. — *Swift*.

Εὐπρεπὲς, sociabile, hospital; a good house-keeper. *Boiss, Hieronymus, Epistolæ*, p. 231: 1153.

Hospitality. *s.* [Fr. *hospitalité*.] Practice of entertaining strangers; liberality in receiving guests or visitors.

The laudable custom of forbidding all access of strangers into their courts, are, in that respect, deservedly blamed, as being enemies to that hospitality which, for common humanity sake, all the nation should embrace. Hooker, *Ecclesiastical Polity*.

He has this spirit of faction broke all the laws of charity, neighbourly love, alliance, and hospitality. — *Swift*.

Hospitalier. *s.* [Lat. *hospitalarius*; Fr. *hospitalier*.] See second extract.

Gilbert, master of the hospitaliers, chiefly stirred up the king to this war. — *Falter, Church History*, p. 13.

Many of these devoted combined the profitable employment of trade with the holier office of the pilgrim; and those who were thus enabled to, established a relationship with the lords of the neighbouring provinces, and it frequently in their power to relieve their less fortunate brethren. In the middle of the eleventh century, some merchants of Amalfi, a rich city of the kingdom of Naples, having in the course of their trading in Egypt ingratiated themselves with the caliph Mustaser Billah, who at that time held the holy city under his sway, obtained permission to establish a hospital within the limits of Jerusalem, for the use of poor and sick Latin pilgrims. In accordance with the order of the caliph, the Mustaser governor of the city assigned to these pious men a site close to the Holy Sepulchre, on which, as soon as possession could be obtained, they erected a chapel dedicated to the Virgin, giving it the name of St. Mary and Latinus, to distinguish it from those churches where the service was performed according to the Greek, and from that time its sacred duties were carried on by Benedictine monks appointed for the purpose. At the same time, two hospitals, one for either sex, were erected in the vicinity of the chapel, for the reception of pilgrims; and eventually each of these hospitals had a separate chapel annexed to it: that for the men being dedicated to St. John the Evangelist, and the one destined for the women to St. Mary Magdalene. Many pilgrims, who on their arrival from Europe had here experienced the kindness and hospitality so liberally extended to all wayfarers, abandoned the idea of returning to their native homes, and formed themselves into a band of charitable assistants, who, without any regular religious profession, devoted themselves to the service of the hospital, and the care of its sick inmates. All the chief cities of Italy, and the south of Europe generally, subscribed liberally for the support of this institution; the merchants of Amalfi, who were its original founders, becoming the stewards of their bounty; and as its beneficial influence became more widely known throughout Europe, from the favourable reports of grateful pilgrims on their return from these distant climes, the amount of their re-

venue, and consequently of their powers of usefulness, became yearly augmented. Such was the original establishment of the hospitaliers of Jerusalem, which may justly be considered as the cradle of the order of St. John, and from this pious fraternity of charitable devotees sprang a body of men who for centuries became the terror of the infidel and the bulwark of christianism in the east. — *W. Porter, Knights of Malta*, vol. i. ch. i. p. 13.

Hospitate. *v. n.* [Lat. *hospitatus*, pret. part. of *hospitare*.] Reside under the roof of another. *Rare*.

That always chooses an empty shell, and this hospitates with the living animal in the same shell — *Grev, Museum*.

Hospitious. *s.* Hospitable. *Rare*.

One, having Oulney past . . . Through those rich fields doth run, till lost, in her fields. The shire's hospitious town also in her course divide. Drayton, *Polyolbion*, song 22. (Ord MS.)

Host. *s.* [N.Fr. *hoste*; Lat. *hospes, hospitis*.]

1. One who gives entertainment to another.

He never entertained either guests or hosts with long speeches, till the mouth of hunger be stopped. — *Sir P. Sidney*.

2. Landlord of an inn.

Time is like a fashionable host, That slightly shakes his parting guest by the hand; But with his arms outstretch'd, as he would fly, Grains in the corner. Shakespeare, *Twelfth and Cressida*, lib. 3.

Host. *s.* [from Lat. *hostis*.—see extract from Wedgwood.]

1. Army; numbers assembled for war.

The waters returned, and covered the chariots, and the horsemen, and all the host of Pharaoh. — *Ezekiel*, xiv. 25.

In the troubled times following the breaking up of the Roman empire the first duty of the subject was to follow his lord into the field when required. The summons to the performance of this duty was expressed by the terms *banitus in hostem*, to order out against the enemy, or to order out on military campaign. 'Quicunque liber homo in hosti ubi banitus fuerit et venire contempserit penam heremum comparet,' i.e. as it is explained, let him pay a fine of sixty shillings. — *Edict of Charlemagne in Marten, Dissertation 26*. The term *hostis* then, which primarily signified the enemy against whom the expedition was to be made, was compendiously used for the military service itself, and is frequently taken as synonymous with *hostes*, *expeditio*, or *exercitus expeditio*, being then used as a feminine noun. A suppletion is addressed to Charlemagne, 'ne episcopi denique in hostem vocentur hostes' (i.e. with demands of military service), 'sed quicunque in hostem periculum' (which may be translated either, when we march against the enemy, or when we proceed on military duty or join the ranks), 'hij propriis resident in parochia.' The same immunity is expressed in a charter of A.D. 968, 'ne ab hominibus huius ecclesie hostis expeditio requiratur.' — *Wedgwood, Dictionary of English Etymology*.

2. Any great number.

Give to a gracious message An host of tongues; but let all findings tell Themselves when they be told. Shakespeare, *Antony and Cleopatra*, ii. 5.

2. Woman who keeps a house of public entertainment.

Undistinguished civility is like a whore or a *hostess*.—*Sir W. Temple*.

Hostess-ship. s. State, office, rank, or condition of an hostess.

It is my father's will I should take on me The *hostess-ship* of the day; you're welcome, sir. —*Shakespeare, Winter's Tale*, iv. 3.

Hostile. s. Host in the sense of the consecrated wafer. *Scarcely English*.

Another priest, that lived in the court, gave him the pte with him *hostie* in it.—*Bishop Burnet, History of his own Time*: an. 1685.
The priest immediately withdrew the *hostie*, which is still preserved.—*Drummond, Travels*, p. 12.

Hostile. adj. [Lat. *hostilis*; from *hostis*—enemy.] Adverse; opposite; suitable to an enemy.

He has now at last Given *hostile* strokes, and that not in the presence Of dreadful justice, but on the ministers That do distribute it.

Added to *hostile* force, shall urge thy fate. —*Dryden*.

Hostilely. adv. [the sound of the *l* double; *hostile* + *ly*—like.] In a hostile manner.

I was speaking of the greatest human happiness *hostilely* attacked, and in danger of being lost.—*Warburton, Sermons*, vol. ii. appendix, p. 62. (Orel MS.)

Hostility. s. [Fr. *hostilité*.] Practices of an open enemy; open war; opposition in war.

Neither by treason nor *hostility* To seek to put me down, and ruin myself.

Hostility being thus suspended with France, preparation was made for war against Scotland.—*Sir J. Hopton*.

We have showed ourselves fair, nay, generous adversaries; and thus carried on even our *hostilities* with humanity.—*Bishop Atterbury*.

Hostile. v. a. Make or render hostile.

When England, Spain, Holland, and Russia, united with the powers already *hostilized* against us, impious union that had reduced robbery, murder, and profaneness to a cool and practical system, I thought there was the fairest prospect of their success.—*Seward, Letters*, iii. 376: 1794.

Hosting. s.

1. Assemblage of armed men; muster. *Obsolete*.

When the lord deputy hath raised any general *hostings*, the noblemen have claimed the leading of them.—*Spenser, View of the State of Ireland*.
Lords have had the leading of their own followers under them to the general *hostings*.—*Ibid*.

2. Hostile encounter.

Strange to us it seem'd At first, that angel should with angel war, And in fierce *hosting* meet.

Yet from his loins New authors of dissension spring: from him Two branches, that in *hosting* long extend For sovereign sway. —*J. Philips, Cyder*, h. ii.

Hostler. s. One who has the care of horses at an inn.

The cause why they are now to be permitted in want of convenient inns for lodging travellers on horseback, and *hostlers* to tend their horses by the way.—*Spenser, View of the State of Ireland*.

These tabernacles of our bodies, which are the *hottries* of our souls, and temples of the Holy Ghost.—*Jeremy Taylor, Artificat Handicrafts*, p. 11.

Swift rivers are with sudden ice constrain'd, And studded wheels are on its back sustain'd; An *hotry* now for wagons, which before Tall ships of burden on its bosom bore.

Dryden, Translation of the Georgics.
Hot. adj. [A.S. *hæt*.]

1. Having the power to excite the sense of heat; contrary to cold.

The great *hotness* which the motion of the air in great circles, such as are under the zircle of the world, produceth, do refrigerate; and therefore, in those parts, men is nothing so *hot* as about nine in the forenoon. —*Bacon*.
Hot and cold were in one body flat; And soft with hard, and light with heavy mixt.

Black substances do soonest of all others become *hot* in the sun's light, and burn; which effect may proceed partly from the multitude of refractions in a little room, and partly from easy commotion of so very small corpuscles.—*Sir I. Newton*.

2. Lustful; lewd.

What *hotter* hours, Unrestrain'd in vulgar fume, you have Luxuriately jerk'd out.

—*Shakespeare, Antony and Cleopatra*, iii. 11.

3. Violent; furious; dangerous.

That of Carthage, where the Spaniards had ing of our coming, was one of the *hottest* services, and most dangerous assaults, that hath been known. —*Bacon*.
He resolved to storm; but his soldiers declined that *hot* service, and pled it with artillery.—*Lord Clarendon, History of the Great Rebellion*.
To court the eye directs us, when we found The assault so *hot*, as if 'twere only there.

Come, come, Lord Mortimer, you are as *show*, As *hot* Lord Percy is on fire to go.

—*Shakespeare, Henry IV. Part I*, iii. 1.
Nature to youth *hot* rudeness doth dispose, But with cold prudence age doth recompense.

—*Sir J. Denham, O. Old Age*, pt. I.

Achilles is impatient, *hot*, revengeful; Rages, patient, considerate, and careful of his people.—*Dryden*.

5. Eager; keen in desire.

It is no wonder that men, either perplexed in the necessary affairs of life, or *hot* in the pursuit of pleasures, should not seriously examine their tenets.

—*Locke*.
She has, quoth Ralph, a posture, Which makes him leave so *hot* a mind t' her.

—*Beller, Hudibras*.

6. It is applied likewise to the desire, or sense raising the desire, or action excited: (as, 'A *hot* pursuit'.)

Nor law, nor clerks of conscience will we hear, When in *hot* search of gain and full career. —*Dryden*.

7. Pungent.

Hotbed. s.

1. Bed of earth made *hot* by the fermentation of dung.

The bed we call a *hotbed* is this: there was taken horse-dung, old and well rotted; this was laid upon a bank half a foot high, and supported round about with planks, and upon the top was cast sifted earth two fingers deep.—*Ib*.

Preserve the *hotbed* as much as possible from rain. —*Reyns*.

2. Figuratively. Place favourable for the growth or development of anything.

Edinburgh is a *hot-bed* of genius. I have had the good fortune to be made acquainted with many authors of the first distinction; such as the Drs. Humes, Robertson, Smith, Wallace, Blair, Ferguson, Wilkie, &c. and I have found them all as agreeable in conversation as they are instructive and entertaining in their writings. These acquaintances I owe to the friendship of Dr. Carlyle, who wants nothing but inclination to figure with the rest upon paper. —*Smollett, Expedition of Humphrey Clinker*.

Used adjectivally.

This I perceive, that when a sect grows old, Converts are few, and the converted cold:

HOTL

First comes the *hot-bed* heat, and while it glows, The plants spring up, and each with vicar crows; Then comes the cooler day, and though a while The verdure prospers and the blossoms smile, Yet poor the fruit, and formed by long delay, Nor will the profits for the culture pay.
The skilful gardener then in longer sleep, But turns to other beds for bearing crops.

—*Crooke, The Thorough, Religious &c.*
Hotblooded. adj. Having a fiery temper; lustful.

Those who intrust a petulant, *hot-blooded*, ill-informed lad with power, are more to blame than he for the mischief which he may do with it. How could it be expected of a lively page, raised by a wild freak of fortune to the first influence in the empire, that he should have bestowed any serious thought on the principles which could to guide judicial decisions? —*Massey, Critical and Historical Essays*, Lord Bacon.

Nor the *hot-blooded* gods assist me! remember, Jove thou wast a bull for thy Europa. —*Id., Merry Wives of Windsor*, v. 5.

Hottrained. adj. Violent; vehement; furious.

You shall find 'ther *hottrai'd* youth, y' bankrupts. —*Dryden, Spanish Frig.*

Hotchpotch. s. [?]

1. Mingled last; mixture; confused mass.
Such patching up with Littleton's *hotchpot* of an *antiquary*, and, in effect, brings the same rather to a *habesh* confusion than any one entire language.—*Campbell, Remains*.

A mixture of many disagreeing colours is ever unpleasant to the eye, and a mixture of *hotchpotch* of many tastes is unpleasant to the taste. —*Bacon, Natural and Experimental History*.
Nor music, nor hours, nor carous would remain; But a wash'd heap, a *hotchpotch* of the brain.

—*Dryden, Translation of Juvénal*.

2. In *Lar*. See extract.

A daughter which hath had given unto her any lands in frank-marriage, claiming to be coheir her father's death to other lands with some sisters, is constrained to suffer that part of land given her before her father's death, to be put in *hotchpot*, that is, to be mingled together with the lands whereof her father died seized, so that an equal division may be made of the whole. —*Littleton*, 1666.

Hotcockles. s. [Fr. *hantes coquilles*.] Play in which one covers his eyes, and guesses who strikes him.

He hums and kicks like Chrysippus when he saw an ass eat a fig; and sits upon *hot-cockles* till it be blazed abroad, and, without, intends his neighbours to make bonfires for his cool hair, and ranseth all the bells of the parish to ring forth the peal of his own fame. —*Optick Glass of Humours*, 1624. (Quoted by H. & W.)

The chrythra is certainly not our *hotcockles*; for that was by pinching, not by striking. —*Arbuthnot and Pope*.

As at *hotcockles* once I laid me down, And felt the weighty hand of many a clown, Buxom gave a gentle tap, and I Quick rose, and read soft mischief in her eye.

—*Gay, The Shepherd's Week*, Monday.

Hotel. s. [French.] Inn (generally implying one of a superior kind).

Hotheaded. adj. Vehement; violent; passionate.

One would not make the same person zealous for a standing army and public liberty, nor a *hot-headed*, crack-brained economist forward for a scheme of moderation. —*Arbuthnot*.

By this declaration, he made her own pence with Jerry; but the *hot-headed* boy is more than ever increased against Wilson. —*Smollett, Expedition of Humphrey Clinker*.

A few *hot-headed* men wished to bring in a bill, which should at once annul all the statutes passed by the Long Parliament, and should restore the Star Chamber and the High Commission; but the reaction, violent as it was, did not proceed quite to this length. —*Massey, History of England*, ch. ii.

Hothouse. s.

1. Place to sweat in; bagnio: (with which word it agrees in having the secondary bad sense of brothel.)

Now she professes a *hathouse*, which is a very ill house too. —*Shakespeare, Measure for Measure*, ii. 1.
Where lately harboured many a famous whore, A purging bill, now it's upon the door, Tells you it is a *hathouse*; so it may, And still be a whorehouse: they are synonymous. —*B. Jonson*.

2. Place enclosed, and covered, and kept hot, for rearing tender plants, and ripening fruits.

Hotly. adv. In a hot manner.

1. With heat; not coldly.

The shadow had forsaken them,
And Titan, tired in the mid-day heat,
With burning eye did *holy* overlook them.
Shakespeare, Venus and Adonis.

2. Violently; vehemently.

The *star* was in the end so *holy* pursued, that
he was driven to make courage of despair.—*Sir P. Sidney.*

I do contest
As *holy* and as nobly with thy love,
As ever in ambitious strength I did
Contend against thy valour.
Shakespeare, Coriolanus, iv. 3.

3. Lustfully.

Vicious birds, that *holy* bill and breed,
And largely drink, because on salt they feed.
Dryden.

Hotmouthed. adj. Headstrong; ungovernable.

I fear my people's faith,
That *hotmouth'd* heat that bears against the curb,
Hard to be broken.
Dryden, Spanish Friar.

Hótness. s. Attribute suggested by Hot.

God is the goal of *hótness*, as heat is the heat
of *holiness*.—*Treasury of Christian Religion, (Orel MS.)*

Hótpress. v. a. Place sheets of paper between heated plates of metal, in order to give smoothness and a glaze to them.

While Southey's epics from the creaking shelves,
And little's lyrics shine in hot-pressed leaves.
Byron, English Bards and Scotch Reviewers.

Hótpressing. part. adj. Act of one who hotpresses.

Hotpressing, in printing, [is] a mode of giving a
glossy appearance to books. The printed sheets are
placed between glazed or milled boards to thick-
ness together of about five inches, and laid on two
cold iron plates at the bottom of a hydraulic screw-
press, then a red plate, a hot plate, another red
plate, a further supply of sheets between glazed
boards, and so on till the press is full. The press is
then jammed up, or screwed down with a powerful
lever, and left for a short time.—*Brande and Cox, Dictionary of Science, Literature, and Art.*

Hótsheet. s.

1. ? Shag term for some sort of soldier.

When those inferior primers' houses are curried
by hungry inferior balladiers, and reverend rusty
fellows, with a brace or two of *hot-shots*, so that
their palaces are more like prisons than the free and
noble courts of commanding potentates.—*Ibid.*
(Nares by H. & W.)

2. ? Stimulant; provocative.

In the forward count Captain Crab, Lieutenant
Lobster, (whose catching always put me in
mind of a sergeant,) the blinding prawn, the well-
armed oyster, the scudlop, the walke, the mussel,
cockle, and the periwinkle; these are *hot-shots*, ven-
ereal provocatives, busy in substance, and busy in
operation. *Taylor the Water-poet, Works: 1630.*
(Nares by H. & W.)

Hótspar. s.

1. Violent, passionate, precipitate and heady person.

My nephew's trespass may be well forgot;
It hath the excuse of youth and heat of blood,
A hairbrain'd *hotspar* govern'd by a spleen.
Shakespeare, Henry IV. Part I. v. 2.

Wars are begun by hurried, discoloured cap-
tains, parasitical fawners, unquiet *hotspars*, and
restless innovators. *Barton, Anatomy of Melancholy.*

Of God observ'd
The one just man alive, by his command,
Shall build a wondrous ark, as thou beheld'st,
To save himself and *household* from amidst
A world devote to universal wreck.

Milton, Paradise Lost, xi. 817.

He has always taken to himself, amongst the sons of men, a peculiar *household* of his love, which at

all times he has cherished as a father, and governed as a master; (this is the proper *household* of faith; in the first age of the world, 'twas sometimes literally no more than a single *household*, or some few families.—*Bishop Sprat*).

Great crimes must be with greater crimes repaid,
And second funerals on the former laid;
Let the whole *household* in one ruin fall,
And may Diana's curse o'ertake us all.

Dryden, Fables.

Learning's little *household* did embark,
With her world's fruitful system in her sacred ark.

Swift.

In his own church he keeps a seat,
Says grace before and after meat;
And calls, without affecting airs,
His *household* twice a-day to prayers.

Id.

The men clamber up the activities, dragging their knee with them, where they feed them and milk them, and do all the dairy work in such sorry *hovels* and sheds as they build to inhabit in during the summer. *Ray, Wisdom of God manifested in the Works of the Creation*.

Hovel. v. a. Shelter in, or as in, a hovel.

And wast thou fair, poor father, To have thee with swine and rogues forlorn, In short and muddy straw? *Shakespeare, King Lear*, iv. 7.

Hoven. s. See extract.

Hoven, a disease common to cattle on calving time, generally of green color. It consists in the pouch of the creature being swelled to a very great degree, which, if not prevented, puts an end to the life. *Complete Farmer*. (Ord MS.)

Hover. v. n.

1. Hang in the air over head, without flying off one way or other.

Al, my poor princess! ah, my tender babes! If yet your gentle souls fly in the air, And be not fix'd in down perpetual, Hover about me with your airy whirs, And hear your mother's lamentation. *Shakespeare, Richard III*, iv. 3.

Great flights of birds are *hovering* about the bridge, and settling upon it. *Addison*.
Till as the earthly part decays and falls, The captive breaks her prison's mould'ring walls; Hovers a while upon the sad remains, Which now the job, or sepulchre, contains. And thence with liberty undommed flies, I patient to regain her native sky. *Pope, Rape of the Lock*, canto ii.

Some less refin'd, beneath the moon's pale light Hover, and catch the shooting stars by night, Or seek the mists in grosser air below, Or dip their pinions in the central bow. *Pope, Rape of the Lock*, canto ii.

2. Stand in suspense or expectation.

The landlord will no longer covenant with him; for that he daily looketh after change and alteration, and *hovers* in expectation of new worlds. *Spenser, View of the State of Ireland*.

3. Wander about one place.

We see so wrinkle a prince at the head of so great an army, *hovering* on the borders of our confederates. *Addison*.
The truth and certainty is seen, and the mind fully possesses itself of it; in the other, it only *hovers* about it. *Locke*.

Hover. s. Protection; shelter by hanging over.

The pond also breedeth crabs, eels, and shrimps; and in the beginning,ysters grew upon the banks of trees, (an Indian miracle), which were cast in thither to serve as a *hover* for the fish. *Curee, Survey of Ceylon*.

Hovering. part. adj. Hang over.

A *hovering* mist came swimming o'er his sight, And seal'd his eyes in everlasting night. *Dryden*.

Hovering. verbal abs. Act, or state, of one who hovers.

A new play had just been acted, and the conversation, after a few preliminary *hoverings*, settled upon it. *Sir E. B. Lytton, Pelham*.

How. adv. [A.S. *hu*, *hwa*. See **Who**.]

1. In what manner.

Mark'd you not, How that the guilty kindred of the queen Look'd pale, when they did hear of Clarence' death? Prosecute the means of thy deliverance By ransom, or how else. *Shakespeare, Richard III*, ii. 1.

'Tis much in our power *how* to live; but not at all when or *how* to die. *Sir R. L. Edmundo*.

It is pleasant to see *how* the small territories of this little republic are cultivated to the best advantage. *Addison, Travels in Italy*.

2. To what degree.

How long wilt thou refuse to humble thyself before me? *Jeremiah*, x. 3.
How much better is it to get wisdom than gold! and to get understanding rather to be chosen than silver! *Proverbs*, xvi. 16.

How oft is the candle of the wicked put out! and how oft cometh their destruction upon them! *Job*, xli. 17.

O how love I thy law! it is my meditation all the day. *Psalms*, cxix. 97.
How many children's plagues, and mother's cries! How many woful widows left to howl To sad disgrace! *Daniel, Civil Wars of York and Lancaster*.

Consider into how many differing substances it may be analysed by the fire. *Hagley*.

3. For what reason; from what cause.

How now, my love? Why is your cheek so pale? *Shakespeare, Midsummer-Night's Dream*, i. 1.
How is it thou hast found it so quickly? *Genesis*, xxvii. 10.

4. For what price.

How a score of ewes now? *Shakespeare, Henry IV, Part II*, iii. 2.

5. By what means.

Men would have the colours of birds' feathers, if they could tell *how*; or they will have gay skins instead of gay clothes. *Bacon, Natural and Experimental History*.

6. In what state.

For *how* shall I go up to my father? *Genesis*, xlii. 34.
Whence am I forc'd, and whither am I borne? *Dryden, Translation of the Eccl.*

7. It is used in a sense marking proportion or correspondence.

Behold, he put no trust in his servants; and his angels he charged with folly: *how* much less in them that dwell in houses of clay, whose foundation is in the dust? *Job*, iv. 18.
A great division fell among the nobility, so much the more dangerous by *how* much the spirits were more active and high. *Sir J. Heywood*.
By *how* much they would diminish the present extent of the sea, so much they would impair the fertility and fountains and rivers of the earth. *J. J. J.*

Things so ordained are to fill thee, *howbeit* not necessarily any longer than till there grow some urgent cause to ordain the contrary. *Hooker, Reformation of Policy*.
There is a knowledge which God hath always revealed unto them in the works of nature; this they honour and esteem highly as profound wisdom, *howbeit* this wisdom saveth them not. *Ibid*.
There was no army transmitted out of England, *howbeit* the English colonies in Ireland did win ground upon the Irish. *Sir J. Davies, Discourse on the State of Ireland*.

Howdy. s. [?] Midwife. *Obsolete*, or provincial.

I once heard an etymon of *howdy* to the following effect: *how d'ye*; midwives being great gossipers! This is evidently of a piece with Swift's 'All eyes under the grate.' *Brand, Popular Antiquities*, p. 451.

Howdye. [contracted from *how do ye*, and sometimes augmented to *how d'ye do*.] In what state is your health?

I now write no letters but of plain business, or plain *howdyes*, to those few I am forced to correspond with. *Pope*.

The charge receiv'd, away ran I, And here, and there, and yonder fly, With services, and *howdyes*; Then home return full fraught with news. *Dodley*.

However. adv.

1. In whatsoever manner; in whatsoever degree.

This ring he holds In most rich choice; yet in his idle fire.

To buy his will, it would not seem too dear,
Hawker repeated of.

Shakespeare, All's well that ends well, iii. 7.

Now I feel thy power

Within me clear, not only to discern
Things in their causes, but to trace the ways
Of highest agents, down to lowest wiles.

Milton, Paradise Lost, ix. 683.

2. At all events; happen what will; at least.
Our chief end is to be freed from all, if it may be,
however from the greatest evils; and to enjoy, if it
may be, all good, however the chiefest.—*Archbishop*
Tillotson.

3. Nevertheless; notwithstanding; yet.
In your excuse your love does little say;
You might have loved to take a surer way. *Dryden.*
Its views are bounded on all sides by several
ranges of mountains, which are however at so great
a distance, that they leave a wonderful variety of
beautiful prospects.—*Addison, Travels in Italy.*
Few turn their thoughts to examine how those dis-
eases in a state are bred, that hasten its end, which
would, however, be a very useful inquiry.—*Swift.*

Howitzer. s. [German direct, *haubitze.*] See extract.

Howitzers in artillery are a kind of mortars in-
vented by the Germans about the year 1583 or 1594,
which are mounted upon carriages like travelling
gun-carriages, and have their muzzles placed nearly
in the middle. The construction of *howitzers* is as
various as that of mortars, excepting the chambers,
which are all cylindric. They are all distinguished
by the diameter of their bore.—*Rees, Encyclopædia.*

Howker. s. [German direct, *huker.*] Vessel
so called, much used by the Dutch.

Howkers carry from fifty to two hundred tons;
and with a small number of hands will go to the
East Indies; they are commonly navigated with
two masts, viz. a main-mast and a mizen-mast;
they tack soon and short, will sail well, and lie near
the wind, and live almost in any sea.—*Chambers.*

Howl. v. n. [Lat. *ululo.*]

1. Cry as a wolf or dog.

Methought a legion of foul fiends
Rav'n'd our war, and howl'd in mine ears
Such hideous cries, that with the very noise
I trembling wak'd. *Shakespeare, Richard III. i. 4.*
He found him in a desert land, and in the waste
howling wilderness. *Isaiah, lxxviii. 16.*
Hard as his native rocks, cold as his sword,
Fierce as the wolves that howl'd around his birth
He hates the tyrant, and the suppliant scorns.
Smith.

2. Utter cries in distress.

Therefore will I howl, and cry out for all Moab.—
Jeremiah, xlviii. 31.
I have words
That would be howl'd out in the desert air,
Where hearing should not reach them. *Shakespeare, Macbeth, iv. 3.*
Pence, monster, peace! (to tell thy lurid tale
To savages, and howl it out in deserts!) *A. Phillips.*

Howl. s.

1. Cry of a wolf or dog.

Alarnd by his sentinel the wolf,
Whose howl's his watch. *Shakespeare, Macbeth, ii. 1.*
These and the like rumours are no more than the
last howl of a dog dissected alive.—*Swift.*

2. Cry of a human being in horror.

She raves, she runs with a distracted pace,
And fills with horrid howls the midnight place.
Dryden, Translation of the Æneid, vii. 220.

Howler. s. One who howls. In *Zoology.*

Howling ape of the genus *Myceles*.

In the platyrrhini the cranium is proportionally
larger and the jaws less, as the species are smaller
in size; they thus exemplify the immature charac-
ters of the larger species. The cranium is more
globular, the occiput more prominent, the foramen
magnum more advanced in position, and with a
more downward aspect, in the maromys and
outletis or ti-tis, than in the *howlers*. . . . In the
red *howler* the superciliary region is almost flat
and vertical, at right angles with the parietal sur-
face, from which it is separated by a well-defined
ridge; the foramen magnum looks almost directly
backward. . . . The circumference of proclivity of the
skull of the *howler* is the extraordinary depth of the
mandibular ramus, especially of their angular and as-
cending portions. This development relates to the
protection and support of the still more extraordi-
narily developed larynx and laryngeal apparatus
—the organs of the loud and dissonant cries which
have procured for these South American monkeys
their common name.—*Owen, Anatomy of Verte-
brates.*

Howlet. s. [Fr. *hulotte.*] Little owl.

Estriates, damnyng apes, howlettes, merenaydes,
and other odible monsters. *Bala on the Revela-
tions: 1524.*

Adler's fork, and blind worm's sting.

Lizard's leg, and howlet's wing.

Shakespeare, Macbeth, iv. 1.

Out, thou howl!
Thou should'st ha' given leg a mudge-owl, and then
Th' hadst made a present of thyself.

R. Jackson, Sad Shepherd.

Howling. part. adj. Wild: (as, 'a howling
wilderness').

Howling. verbal abs.

1. Cry of a wolf or dog.

As when a sort of wolves infest the night
With their wild howlings at fair Cynthia's light.
Waller.

2. The cry of one in distress.

The songs of the temple shall be howlings in that
day.—*Isaiah, viii. 3.*
The damned use that word in hell,
Howlings attend it.

Shakespeare, Romeo and Juliet, iii. 3.

3. Any loud or horrid noise.

With hollow howlings they did chant
That hellish ode. *Dr. H. More, Jesus, p. 327: 1647.*
A peal of thunder immediately follows, with dread-
ful howlings.—*Dryden, King Arthur.*

Herons, who, after Moses, was one of the most
ancient, howsoever he hath been since corrupted,
doth in the substance of all agree. *Sir W. Raleigh,*
History of the World.

2. Although.

The man doth fear God, howsoever it seems not
in him.—*Shakespeare, Much Ado about Nothing, ii. 3.*

How. v. a Hough; ham-string.

Thou art a coward,
Which hows himself behind, restraining
From course required. *Shakespeare, Winter's Tale, i. 2.*

Leontine perceived the old soldier's meaning,
and with his sword how'd his horse, saying aloud,
This day, valiant soldiers, shall you leave me both
your general and fellow-soldier, fighting on foot
as one of yourselves. *Knutson, History of the Turks.*

How. s. [Dutch, *huy.*] Large boat some-
times with one deck.

He sent to Germany, strange aid to rear;
From whence oft-sailed arrived three huge
of Saxons, whom he for his safety employs.

To define a large and *how*, which are between a
boat and a ship, is hard.—*Watts, Logick.*

How. interjection meaning stop, stay.

Away, nasy C. E. transformed by Grace! *How!*
back in her sty.—*Bishop Hall, Hammer of the*
Married Chryse, p. 161.

When one ship hails another, the words are,
What ship's *how*? that is, stop, and tell the name of
your ship. *Boye, Anecdotes of the English Lan-
guage, p. 16.*

Hubbub. s. Tumult; riot.

They heard a noise of many harpings shrill,
And striking hubbub's then approaching were,
Which all the forest did with horrible fill.

Spenser, Faerie Queene, iii. 10. 43.

An universal hubbub was
Of stunning sounds, and voices all confus'd,
Rising through the hollow dark, assaults his ear
With loudest vehemence.

Milton, Paradise Lost, ii. 651.

Wolves raise a hubbub at large,
And dogs howl when she shines in water.

People pursued the madness with all contempt of
the government; and in the hubbub of the first day
there appeared nobody of sense or breeding, but
the actors were really of the dregs of the people.—
Lord Clarendon, History of the Grand Rebellion.

For six mortal hours it lasts, in this manner; the
infinite hubbub uncheck'd.—*Carlyle, The French*
Revolution, pt. i. li. ii. ch. vi.

... the mighty and quiet Amsterdam, renowned
throughout the world for its haven bristling with
immense masts, its canals bordered by stately
mansions, its gorgeous hall of state, walled, roofed,
and floored with polished marble, its warehouses
filled with the most costly productions of Ceylon
and Sumatra, and its Exchange resounding with
the endless hubbub of all the languages spoken by
civilized men.—*Murray, History of England,*
ch. ix.

Hubbub-bec. s. Hubbub.

Within this hour the *ghehoob*
Will be all over the prison: I am then
Kissing the man they look for.

De Witt, and Fletcher, Ten Noble Kinemen.

His followers and kin,
Who sat and were came crowding in.

With hubbub-bec. *Irish Hudibras: 1689.*

Not the sweet harp that's claim'd by Jews,
Not that which to the far more ancient Welsh be-
longs.

Not that which the wild Irish use,
Frightning even their own wives with loud hub-
bub-bec. *S. Wesley, Prudence on a Hug.*

Huckaback. s. [?] Coarse linen with a
raised surface (as that of towels) so called.
He bought a lot of damaged huckaback to cut into
kitchen towels.—*Colman the younger, Hic-at-
Lan.*

Was your face ever sent for the housemaid to scrub?
Did you ever feel huckaback softened with suds?
And you ever your nose twiddled up in a snub?
Or your eyes knuckled out with the back of the
hand. *T. Hood.*

Hucking. part. adj. Acting as a huckster.

A wear, and hard, and huckish chapman shall
never lay equal flesh.—*Holke, Sermon at the end of*
his Remains, p. 20: 1673.

Huckle. s. According to preceding editions,
hip. See *Hucklebone*.

Through beaten down and wounded sore,
P' the shille, and a leg that bore
One side of him, and that of bone,
But much it better, the wooden shoe;
Straight—getting up on stump and huckle,
He with the foe began to buckle. *Butler, Hudibras, b. ii.*

Hucklebone. s. [?] Hip-bone; ♀ last
vertebra of the sacrum. In *Anatomy.*

Os coccygis.
Nay, and that were the worst, we would not greatly
care.

For harding of her huckle-bone, or breaking of her
cru.
But grea ter is her grief.

Gammer Gurton's Nolle: 1551.

Huckster. s. [see extract from *Wedgwood*.]

1. One who sells goods by retail, or in small
quantities; a pedlar.

There cannot be a more infamous trade than
the being hucksters to such vile merchandise.—*Dr.*
H. More, Government of the Tongue.
God deliver the world from such guides, or rather
such hucksters of souls, the very shame of religion.
—*South, Sermons, ii. 325.*

Should thy shoe wench ashle, down, down you fall,
And overturn the wedding huckster's stall.
The wedding huckster shall not stir these men,
But peace expect for nuts and pears set down.

There should be a confederacy of all servants, to
drive those China hucksters from the doors.—*Swift,*
Grg. Trivia, li. 123.

2. Usurer.
A merchant shall hardly keep himself from doing
wrong, and an huckster shall not be freed from
sin. *Erasmianus, xvi. 23.*

3. Trickish man follow.

Now the ape wanted his huckster man.
Spenser, Mother Hubbard's Tale.

Some such desperate huckster should devise
To raise this bare's heart from her cowardice.
Bishop Hall, Satire, iv. 4.

[*Huckster*.—German, *huck*, *hucker*, a retailer, regent, . . .
Dutch, *hucker*, *hucker*, camp, propaga. (Kilman.)
Havarian, *hucker*, *hucker*, *hucker*; Swabian, *hucker*,
hucker, a petty dealer, huckster. The term has
always implied a certain amount of adroitness, like
re-cess or regent, and shuffles, like them, one
who sells at second-hand at an advanced price. The
liber Abbot of the City of London contains an ordi-
nary regarding the city officers that "demonia
de mille vitale sicut servatorem, no huck-
ster de curiose." l. 46. It is essentially the same
I with German teacher; Dutch, *wocker*, *wocker*,
wocker; Swabian, *hucker*; Old Norse, *oker*, (interred,
unary, properly increase, from the same source with
Latin, *augere*; Gothic, *aukan*; Anglo-Saxon, *accra*,
to increase. The Old High German *wocker* is ap-
plied to the increase of plants; *erke-wocker*, the
fruits of the earth. (Nider.) It is plain that *huck-*
ster was understood as signifying an encroacher or
enhancer of prices when it was translated in Latin
uniostratus, uniostris. *Antonius* militant ser-
vices per vasa ad decemquingentis clerisquibus condant
uota car, *crasa*, *crasa*, *crasa*, *crasa*, *crasa*, *crasa*,
tureta. *Antonius* dilectus *Indice* rectoris
(John de Gherardus and Gherardus). *Antonius*, a
huckster, (Xenodius in Sat. Antiquus.) *Wedg-*
wood, Dictionary of English Etymology.]

Huckster. v. a. Make a matter of bargain.

Some who had been called from shops and war-
ehouses, without other merit, to sit in supreme coun-
cils, (as their breeding was) fell to huckster the
commonwealth.—*Milton, History of England, b. iii.*

Huckster. v. n. Deal in petty bargains.

Dequidism itself is obliged to truck and huckster
The sultan gets such obedience as he can. His go-
vernment with a loose rein, that he may govern at all.—
Burke, Speech on Conciliation with America.

Hucksterage. s. Dealing; business.

The huckle hucksterage of piddling tithe.—
Milton, Of Reformation in England.

Huckster. s. Huckster.

These hucksters or money-jobbers will be found
1183

necessary, if this brass money is made current.—*Swift.*

Huddle. v. g.

1. Dress up close so as not to be discovered; muddle.

2. Put on carelessly in a hurry.
At twelve she rose with much ado;
Her clothes were huddled on by two.

3. Cover up in haste.
Young, fair, and good! ah, why should young, and
And good be huddled in untimely grave?

4. Perform in a hurry.
I have given much application to this poem: this
is not a play huddled up in haste.—*Dryden.*

When continu'd rain
The lab'ring husband in his house restrain,
Let him forego his work with timely care,
Which else is huddled when the skies are fair.

5. Throw together in confusion.
Our adversary, huddling several suppositions to-
gether, and that in doubtful and general terms,
makes a medley and confusion.—*Lodge.*

6. Huddle. v. n. Come in a crowd or hurry.
Glance an eye of pity on his woes,
That have of late so huddled on his back,
Enough to press a royal merchant down.

7. Huddle. s. • Crowd; tumult; confusion:
(with the sense of obscurity).
That the Aristotolian philosophy is a huddle of
words and terms insignificant, has been the censure
of the wisest.—*Glaucille.*

8. Huddle. s. • One who huddles.
As confused huddler of things.—*Cotgrave and
Sherrard.*

9. Huddling. part. adj. Confused.

Or that dread lion's back her seat in deadly hue.

11. Hue. s. [A.S. *hwe, hwean.*] Colour; dye.
To add another hue unto the rainbow,
Is wasteful and ridiculous excess.

12. Hue. s. [A.S. *hwe, hwean.*] Colour; dye.
Flowers of all hue, and without bloom the rose.
Colossal row red, love's proper hue.

13. Hue. s. [A.S. *hwe, hwean.*] Colour; dye.
Your's is much of the caution hue,
To change the die with a distant view.

14. Hue. s. [A.S. *hwe, hwean.*] Colour; dye.
Hoot, shout.] Clamour; legal pursuit;
alarm given to the country.

15. Hue. s. [A.S. *hwe, hwean.*] Colour; dye.
Hue and cry, villain, go! Assist me, knight, I am
undone! fly, run, hue and cry! villain, I am un-
done.—*Shakespeare, Merry Wives of Windsor*, iv. 5.

16. Hue. s. [A.S. *hwe, hwean.*] Colour; dye.
Immediately comes a hue and cry after a gang of
thieves, that had taken a purse upon the road.—*Sir
R. L. Estrange.*

If you should hiss, he wears he'll hiss as high;
And, like a culprit join the hue and cry.—*Addison.*
The hue and cry went after Jack, to apprehend
him dead or alive, wherever he could be found.—*Arbuthnot, History of John Bull.*

Hugging. part. adj. Blustering.
A hugging, shining, flat-rim, cringing coward,
A cankerworm of peace, was raised above him.

A thief and justice, fool and knave,
A hugging, shining, flat-rim, cringing coward,
A cankerworm of peace, was raised above him.

Now what's his end? O charming glory, say!
What, a fifth act to crown his hugging play?

What a small pittance of reason and truth is
mixed with those hugging opinions they are swelled
with.—*Lodge.*

Huffy. adj. Windy; unsubstantial.
The way of physiologizing by matter, forms and
qualities, is a more huffy and phantasmal thing than
the other.—*Cutworth*, 63. (Ord MS.)

Hug.**1. Close embrace.**

Why these close hugs? I owe my shame to him, *Thap.*

2. Particular gripe in wrestling, called a Cornish hug.

Knock down, was the word in the civil wars, and we generally added to this skill the knowledge of the *Cornish hug*, as well as the grapple, to play with hand and foot. — *Author*, no. 173.

Huge, adj.**1. Vast; immense.**

Let the state of the people of God, when they were in the house of bondage, and their manner of serving God in a strange land, be compared with that which Canaan and Jerusalem did afford; and who would not wonder that there was a difference between them? — *Hooker, Ecclesiastical Polity*.
This space of earth is so huge, as that it equalled in greatness, not only Asia, Europe, and Africa, but America. — *Abbot*.

2. Very great.

Part, huge of bulk,
Wallowing unwieldy, enormous in their gait,
Tempest the ocean; these beaistical
Huge of living creatures, in the deep
Stretch'd like a promontory, sleeps or swims,
And seems a part of the land.

3. Great even to deformity or terrible.

Through forest huge, and lone untravell'd heaths,
With desolation brown, he wanders waste.

4. Having any quality in a great or high degree.

The patch is kind enough, but a huge feeder.
Shakespeare, Merchant of Venice, ii. 3.
The mercy, and the pardon, and the huge magnification of that court. — *Hammond, Works*, iv. 563.
He received admiration always as huge kindness. — *Bishop Fell, Life of Hammond*.

Hugely, adv. In a huge manner.**1. Immensely; enormously.**

Who cries out on pride,
That can therein tax any private party?
Both it not flow as hugely as the sea?
Shakespeare, As you like it, ii. 7.

2. Greatly; very much.

Some think it is enough, in all instances, if they pray *hugely* and fervently. — *Jeremy Taylor, Sermons*, p. 131: 1663.

Their case is *hugely* suspicious, though they then repent and call for mercy. — *Id., Holy Dying*, § iv. ch. 7.

A thing so *hugely* pleasurable. — *Hammond, Works*, iv. 579.

It was *hugely* accidental, that Jewish king of Israel, being commanded by the prophet to strike upon the ground 12 Kings, xiii. should strike no other than just three times. — *South, Sermons*, i. 284.

I am *hugely* bent to believe, that whenever you concern yourselves in our affairs, it is for our good. — *Swift*.

Hugeness, s. Attribute suggested by Huge; enormous bulk; greatness.

For though, in *hugeness*, that blacke fleet of
Spain

Did far surpass: yet was it three more slow
In blinde sterage waiting to and fro.

My mistress exceeds in goodness the *hugeness* of your unworthy thinking. — *Shakespeare, Cymbeline*, i. 3.

Hugeous, adj. Huge. Rare.

Certainly the most treble and permanent glory proceedeth of such monuments as by reason some great and notable commoditie and profit to the life of men, rather than of the *hugeous* heapes of stones of the Pyramids of Egypt, wherein is thought also to see but the faine and barbarous ostentation of superfluous riches. — *Eden, Translation of the Decades of Peter Martyr*. (Owl MS.)

Huggermugger, s. [Swedish, i mjugg.] Se-cresy; bye-place.

The patrimony which a few
Now hold in *huggermugger* in their hand,
And all the rest do rob of goods and land.

We have done but greedily.
In *huggermugger* to enter him.

But if I can but find them out,
Where'er they be in *huggermugger* lurk,
I'll make them rue their handy work.

There's a distinction betwixt what's done openly and barefaced, and a thing that's done in *huggermugger*, under a seal of secrecy and concealment. — *Sir R. L. Estlin*.

The *in* often, perhaps in conversation generally, omitted; in which case the word is more of an adverb than a substantive.

Hugger, s. Flattery; fawning; making up to any one.

If we are to believe the Courier, this species of *hugger* is likely to take place. — *Cobbet*.

Huggy, adj. Huge. Rare, or rhetorical.

This *huggy* rock one finger's force apparently will move. — *Corven, Survey of Cornwall*.

The wide winds blow, and the *huggy* plain,
Sackville, *Mirror for Magistrates*, induction.
Scarcely had he finish'd, when with speckled pride,
A serpent from the tomb began to glide:
His *huggy* look on seven high columns roll'd,
Blue was his breadth of back, but streak'd with scaly gold.

Dryden, Translation of the Æneid, v. 111.

Huisser, s. [Fr. huisser.] Usher.

It makes *haisiers* servicable men. — *R. Johnson, Forest*.

Huke, s. [N.Fr. hucque.] Clouk; mantle.

As we were thus in conference, there came one that
To be a messenger in a rich *huke*. — *Bacon, New Atlantis*.

Hulk, s. [see extract from Wedgwood.]**1. Vessel of heavy tonnage so called.**

The mussy anchors w'd,
One English ship, two *hulks* of Holland, and
In such a galle, *Mirror for Magistrates*, p. 414.
collected together above four
hulks, *Translation of Cæsar*. (Rich.)

2. Body of a ship.

There's a whole merchant's venture of Boardman's stuff in him: you have not seen a *hulk* better stuffed in the hold. — *Shakespeare, Henry IV. Part II*, ii. 1.
The custom of giving the colour of the sea to the *hulks*, sails, and mangers of their fly-boats, to keep them from being discovered, came from the Venetians. — *Arbuthnot*.
They Area's *hulk* will tax,
And scrape her piteously sides for wax. — *Swift*.

3. Anything bulky and unwieldy: (us, 'A hulk of a fellow').

And Harry Monmouth's brawn, the *hulk* Sir John,
Is prisoner to your son.
Shakespeare, Henry IV. Part II, i. 1.
The *hulk* of a tall Brahman, behind whom I stood in the corner of a street, shadowed me from notice. — *Bishop Hall*.

[Italian, *olea*, *ore*, i. a great ship or bulk. French, *houe*, *ouge*, *ouge*, a bulk or huge boat. (Oggrave.) Probably the word may originally mean a *tub*, a name we give in contempt to a clumsily-built ship. Norse, *hok*, a jail, jar, tub; Latin, *orca*, *orca*, a jar; *laumoloe*, *laumoloe*, *laumoloe*, a jar; Flemish, *duck*, *duck*, the name of a ship, place where the food water collects; Old English, *horeck*, the boat. 'O' boy that fled to one of the Flemish shippis and hid him in the *horeck*. (Oggrave, 234.) In the same way Dutch, *hoge*, a heretic, from *hoge*, a deep and large drinking-vessel. — *Wedgwood, Dictionary of English Etymology*.]

Hull, v. a. Peel off the hull or husk of any seed.

The male will *hull* the seeds for his parent with his bill, and present them to her in this state. — *Latham, Synopses*, i. 310.

Hull, s. [German, *Hülle* - covering, veil.] Husk or integument of anything; outer covering.**Hull, s. Body of a ship; hulk.**

And as the bird, so different is the flight;
Their mounting shot is on our sails designed;
Deep in their *hull* our deadly bulwarks light,
And through the yielding planks a passage find.

So many arts hath the Divine wisdom put together, only for the *hull* and tackle of a thinking creature. — *Gray*.

Lie a *hull*, or at *hull*. Spoken of a ship, either in a dead calm or a storm, when she cannot carry all her sails; or her masts are taken down or gone, and she is left at the direction of the waves.

We took in our sail, and lay a *hull*, too sufficiently. — *Sir P. B. Robert, History of some Parts of the East*, p. 324.
Like a ship at *hull* and becalmed. — *Hammond, Works*, iv. 623.

Hull, v. n. Float; drive to and fro upon the water without sails or rudder.

They saw a sight full of pitious strangeness; a ship, or rather the carcase of the ship, or rather some few bones of the carcase, *hulling* there, part broken, part burned, and part drowned. — *Sir P. Sidney*.

He look'd, and saw the ark *hull* on the flood.
Milton, Paradise Lost, xi. 840.
People walking down upon the shore saw some-what come *hulling* toward them. — *Sir R. L. Estlin*.

Hulver, s. Holly.

Save *hulver* and thorn, thereof sail for to make.
Tasso, Fire Hundred Points of good Husbandry.

Hum, interj. Sound implying doubt and deliberation.

Let no one care despise the heaviest sound
That ever yet they heard. — *Hum*! I guess at it.
Shakespeare, Macbeth, iv. 3.

See Sir Robert . . . hum!
And never laugh for all my life to come.
Pope, Epilogue to the Satires, dialogue i. 27.

Hum, v. n.**1. Make the noise of bees.**

An airy nation flew.
Thick as the *humming* bees that hunt the golden dew
In summer's heat. — *Dryden*.

2. Make an inarticulate and buzzing sound.

I think he'll hear us: yet to bite his lip,
And *hum* at good Cominius, much ungarter me.
Shakespeare, Coriolanus, v. 1.

3. Make a confused noise, like that of bustling crowds at a distance.

The city swarms intense: the publick haunt,
Full of such throngs and warm with mix'd discourse,
Hums indistinct. — *Thomson, Seasons, Winter*.

4. Pause in speaking, and supply the interval with an audible emission of breath.

Having pump'd up all his wit,
And *hum'd* upon it, thus he writ.

Butler, Hudibras.

I still acquiesc'd,
And never *hum'd* and how'd sedition,
Nor smil'd treason. — *Id.*
to man by *humming* and having a good while;
but, in the end, he gave up himself to the physicians. — *Sir R. L. Estlin*.

5. Make a low dull noise; murmur.

Humming rivers, by his cabin creeping,
Rock soft his slumbering thoughts in quiet ease.
P. Fletcher, Pædærgy Ecdæsiæ, ii. 17.
Still *humming* on, their drowsy course they keep,
And hush'd so long, like tops, are hush'd asleep. — *Pope*.

6. Express applause: (approbation was commonly expressed in public assemblies by a hum, about a century ago).

Here the spectators *hum'd*. — Gentlemen, this *humming* is not at all becoming the gravity of this court. — *Treat of the Regicides*, fol. 49, b. 1680.

Hum, v. a.**1. Applaud.**

The better sort among them will confess it a rare matter to hear a true edifying sermon in either of their great churches; and that such as are most *hummed* and applauded there, would be severely suffered the second hearing in a peace congregation of pious Christians. — *Milton, Epitaph for Sweet Edmund*.

2. Sing low; utter murmuringly or indistinctly.

Hum half a tune.
The wild wind *hum*s the sullen song to-night. — *Pope*.
Rev. G. Lull, ib.: 1780.

3. Cause to hum or make a dull noise: (as, 'to hum a gig or top').

Impose upon a person.

Hum, s.**1. Noise of bees or insects.**

To black Bees's summons,
The shroud-born beetle, with his drowsy *hum*,
Hath rung night's yawning peal. — *Shakespeare, Macbeth*, iii. 2.

Nor undelighting is the *hum* of bees,
To him who mows through the woods at noon.
Thomson, Seasons, Summer.

2. Low confused noise, as of bustling crowds at a distance.

From camp to camp, through the foul womb of night,
The *hum* of either army's stillly wounds.

Shakespeare, Henry IV. Part II, iv. chorus.

Tower'd rifles please us then,
And the busy *hum* of men,
Where throngs of knight's and barons hold
In weeds of peace high triumphs hold.

One theatre there is of vast resort,
Which withouten request was call'd the court;
Hark now the great exchange of news tis held,
And full of *hums* and buzz from noon till night. — *Dryden*.

Hark to the trumpet and the drum,
And the mournful sound of the barbarous horn,
And the flap of the banners, that flit as they're borne.

And the neigh of the steed and the multitude's *hum*,
And the clash, and the shout, they came! they came!
Byron, Siege of Corinth.

3. Low dull noise.

Who sat the nearest, by the words o'ercome,
Slept fast; the distant nodded to the hum.
Pope, Dunciad, ll. 401.

4. Pause with an inarticulate sound.

These shrines, these hums and haws,
When you have said, ah! so goodly, come between,
Ere you can say a'n's honest.

Shakespeare, Winter's Tale, ll. 1.
Your excuses want some grains to make them
current: hum and ha will not do the business.—
Dryden, Spanish Friar.

5. Expression of applause.

You hear a hum in the right place.—*Spectator.*
The friends of the government were greatly elated
by the proceedings of this day. During the follow-
ing week hums were entertained that the parlia-
ment might be induced to vote a peace establish-
ment of thirty thousand men. But these hopes were
elusive. The hums with which William's speech
had been received, and the hiss which had drowned
the voice of Seymour, had been misunderstood.—
Macaulay, History of England, ch. xxiii.

Hum. s. HONX.

A landlord of bath put upon me a queer hum.
Epigram, Oxford Magazine.
I dare say all this is hum, and that all will come
back.—*Lamb, Letter to Manning.*

Hum. s. Strong spirituous liquor.

The taking of tobacco, with which the devil
is so delighted:—and calls for hum.
You takers of strong waters and tobacco,
Mark this.
B. Johnson, Devil is an Ass.

Humane. adj. [Lat. humanus; Fr. humain.]

1. Having the qualities of a man.

It will never be asked whether he be a gentleman
born, but whether he be a humane creature?—
Swift.

2. Belonging to a man.

The king is but a man as I am: the violet smells
to him as it doth to me; all his senses have but hu-
man conditions.—*Shakespeare, Henry V. iv. 1.*
For man to tell how humane life began
Is hard; for who himself beginning knew?
Milton, Paradise Lost, viii. 250.
Thou, serpent, multipl'st beast of all the field,
I knew; but not with human voice indu'd.
Id., l. 530.

Intuitive knowledge needs no probation, nor can
have any, this being the highest of all human cer-
tainties.—*Locke.*

It is no disparagement, therefore, to the science of
human nature, that those of its general propositions
which descend sufficiently into detail to serve as a
foundation for predicting phenomena in the con-
crete, are for the most part only approximately true.
... Human beings do not all feel and act alike in
the same circumstances; but it is possible to deter-
mine what makes one person, in a given position,
feel or act in one way, another in another; how any
given mode of feeling and conduct, compatible with
the general laws (physical and mental) of human
nature, has been, or may be, formed. In other
words, mankind have not one universal character,
but there exist universal laws for the formation of
character. And since it is by these laws, combined
with the facts of each particular case, that the whole
of the phenomena of human action and feeling are
produced, it is on these that every rational attempt
to construct the sciences of human nature in the con-
crete, and for practical purposes, must proceed.—
J. S. Mill, System of Logic.

**Humane. part. adj. Invested with hu-
manity.**

Of your saying it followeth, that the bread is hu-
mane or incarnate.—*Archbishop Cranmer, Answer to
Bishop Gardiner, p. 380.*

Humane. adj. [Fr. humaine.]

1. Kind; civil; benevolent; good-natured.

Love of others, if it be not spent upon a few, doth
naturally spread itself towards many, and maketh
men become humane and charitable.—*Bacon.*
Envy, malice, covetousness, and revenge are
abolished: a new race of virtues and graces, more
divine, more mild, more humane, are planted in
their stead.—*Bishop Sprat.*

2. Literate. See Humanity in fourth sense.

These terms do properly signify this gesture in
Aristotle, Athenians, Euripides, Sophocles, and all
humane authors.—*Sir T. Browne, Vulgar Errors,*
p. 24. (Ord MS.)

He was well-skilled in all kinds of humane litera-
ture.—*Wood, Athenæ Græciæ, l. 510. (Ord MS.)*

Humane. adv. Kindly; with good-nature.

If they would yield us the superiority, while it
were wholesome, we might guess they relieved us
humanely.—*Shakespeare, Coriolanus, l. 1.*

Humanist. s. Same as Humanitarian.

Physicians use commonly to intend some other art
or practice, which they fancy more than their pro-
fession, for you shall have of them antiquaries, poets,
humanists, statesmen, merchants, divines; and in

every of these better seen than in their professions.
—*Bacon, Advancement of Learning, b. ii.*
Of all sorts of men in the world, none repute them-
selves, or are reputed by others, wiser, than the pro-
found humanist and cunning politician.—*Julius, in
his Stylized, p. 608.*

**Humanitarian. s. One who supports the
human nature of Christ.**

He [Schubert] [Humboldt] was so noted an humani-
tarian, disputant, and theologian, so well read in
the fathers and schoolmen, that he had scarce his
equal in the University.—*A. Wood, Athenæ Græciæ,*
(Ord MS.)

Humanity. s.

1. Nature of man.

Look to thyself; reach not beyond humanity.—
Sir P. Sidney.

To preserve the Hebrew satire and uncorrupt,
there hath been used the highest caution humanity
could invent.—*Sir T. Browne.*

2. Humankind.

If he can untie those knots, he is able to teach all
humanity, and will do well to oblige mankind by
his information.—*Chamwell.*

3. Benevolence; tenderness.

All men ought to maintain peace, and the common
olive of humanity and friendship in diversity of
opinions.—*Locke.*

How few, like thee, enquire the wretched out,
And court the office of soft humanity?
Like thee reserve their raiment for the naked,
Reach out their hand to feed the crying orphan,
Or mix their pitying tears with those that weep?
Rice.

4. Philology; grammatical studies. In Latin,

humaniores literæ; in French, les humani-
tés; with the definite article and plural:
(an aculemic term).

If then we may spend some of young years in
studies of humanity; what better and more sweet
study is there for a young man than poetic?—*Har-
rington, Apology of Poetry.*

A man but young,
Yet old in judgement; theoretic and practick
in all humanity.—*Massinger, Fatal Dowry.*

The most eminent scholars which England
produced both in philosophy and humanity.—*T. War-
ton.*

**Humanization. s. Investing with the char-
acter of Humanity.**

The Romans had some of these diversions and
amusements, which, though they contribute to the
dissipation of our time, do greatly promote the
humanization of our manners.—*Priestley, Lectures on
History, ll. 288. (Ord MS.)*

They [the negro slaves] ought to be forcibly re-
minded of the state in which their brethren in Africa
still are, and taught to be thankful for the pro-
vidence which has placed them within reach of the
means of escape. I know no right except such as
flows from righteousness; and as every Christian
believes his righteousness to be imparted, so must his
right be an imparted right too. It must flow out
of a duty, and it is under that name that the process
of humanization ought to begin and be conducted
throughout.—*Coleridge, Table Talk.*

**Humanize. v. a. Make human; invest with
the character (on the favourable side) of
humanity; soften; make susceptible of
tenderness or benevolence.**

Here will I paint the characters of woe.—
And here my faithful tears in showers shall flow,
To humanize the flints whereon I tread.
Sir H. Wotton.

Was it the business of music to humanize our
nature with compassion, forgiveness, and all the in-
stances of the most extensive charity?—*Adams.*

**Humanized. part. adj. Invested with the
character of humanity.**

What entertainment can possibly arise to an
elegant and humanized mind, from seeing a noble
beast struck to the heart by its merciless hunter, or
one of our own weak species cruelly mangled by an
animal of much superior strength?—*Alsmoth, Cætero,*
b. ii. lett. 2. (Ord MS.)

**Humanizing. part. adj. Investing with the
character of humanity; softening.**

Whatever is beneficent and humanizing in the
aims, tendencies, and proper objects of the state,
it [the church] collects in itself as in a focus to
radiate them back in a higher quality; or, to change
the metaphor, it completes and strengthens the
edifice of the state, without interference or commix-
ture, in the more art of laying and securing its own
foundations.—*Coleridge, Church and State, p. 134.*

Cyril had himself too much of the hot Egyptian
blood in his veins; and the bishop, instead of ally-
ing this sanguinary propensity by the gentle and
humanizing influences of Christianity, was rarely
the last to raise the banner of strife, never the first
to lay it down, never laid it down until his enemies
were prostrate at his feet.—*Milman, History of
Latin Christianity, b. ii. ch. iii.*

Humankind. s. Mankind.

Blind with a taste exact, yet unconfin'd;
A knowledge both of books and humankind. *Pope.*

Humanly. adv. In a human manner.

1. After the notions of men; according to
the power of men.

Thus the present happy prospect of our affairs,
humanly speaking, may seem to promise.—*Bishop
Atterbury.*

2. Kindly; with good-nature: (now written
humely).

Though learn'd, well bred; and though well bred,
sincere;
Modestly bold, and humanly severe. *Pope.*

Humbird. s. Humming bird.

All ages have conceived the wren the least of birds,
yet our own plantations have shew'd us one far less;
that is, the humbird, not much exceeding a beetle.—
Sir T. Browne.

Humble. adj. [Lat. humilis; Fr. humble.]

1. Not proud; modest; not arrogant.

And mighty proud to humble weak does yield.

We should be as humble in our imperfections and
sin as Christ was in the fulness of the spirit, great
wisdom, and perfect life.—*Jeremy Taylor, Rules and
Exercises of Holy Living.*

But, if an humble husband may request,
Provide and order all things for the best.
Dryden, Wife of Bath's Tale, 515.

She should be humble, who would please;
And she must suffer, who can love. *Prior.*

2. Low; not high; not great.

The example of the heavenly lark,
Thy fellow-park, Cowley, may I
Above the skies let thy proud music sound,
Thy humble nest build on the ground.
Coch. p.

Ah! perchance, hadst thou but known the joys which
dwell
With humbler fortunes, thou wouldst curse thy
royalty! *Rice.*

Humble. v. a.

1. Make humble; make submissive; make
to bow down with humility.

Humble yourselves under the mighty hand of God,
that he may exalt you. *1 Peter, v. 6.*

Let the sinner put away the evil of his doings, and
humble himself by a speedy and sincere repentance:
let him return to God, and then let him be assured
that God will return to him.—*Rogers.*

2. Crush; break; subdue; mortify.

We are pleased, by some implicit kind of revenge,
to see him taken down and humbled in his reputa-
tion, who had so far raised himself above us. *Ad-
dison.*

Fortune not much of humbling me can boast;
Though double tax'd, how little have I lost! *Pope.*

3. Make to condescend.

This would not be to condescend to their capacities,
when he humbles himself to speak to them, but to
lose his design in speaking.—*Locke.*

4. Bring down from a height.

In process of time the highest mountains may be
humbled into valleys; and again, the lowest valleys
raised into mountains. *Hakewell, Apology.*

In some of the Pronouncing Dictionaries
(perhaps in most of them) this word is
given as one of the words beginning with
h which are to be sounded as if the h was
absent, i. e. as *umble*; and many speakers
may be found who take some trouble to
speak accordingly. The pronunciation is
not only wrong, but (what in the eyes of
many is worse) vulgar. The combination
which gives rise to it is *umble-pie*. To
eat *humble-pie* is a term for eating one's
own words, or for being humiliated.
Thimble-pie is a similar term, meaning,
among schoolboys and children, a rap or
tap on the head with a *thimble*. It
means punishment, just as *humble-pie*
means *humiliation*. The real *umble-pie* is
a dish which few speakers who sound
humble without the h would care to take
their pronunciation from. It is a pie made
of the *umbles* of a beast. The true *umbles*
are the uavel-string and placenta of such
domestic animals as have them in sufficient
bulk to make a pie of. With some latitude,
it means a pie made of the parts akin to
it; i. e. it is giblet-pie, *mutatis mutandis*, of
cows, sheep, and pigs. It is, probably, a
long time since such was a common dish;

still less a genteel one. The pronunciation, however, which has grown out of it still exists as vulgar-genteel refinement.

Humblebee. *s.* [two words.] Bee without a sting.

The honeybees steal from the *humblebees*. And for night tapers crop their waxen thighs. *Shakespeare, Midsummer-Night's Dream*, iii. 1.

This puts us in mind once again of the *humblebees* and the tinderbox. — *Bishop Atterbury*.

Humblecundumble. *s.* Slang for humble servant.

Madam, your *humblecundumble*. — *Swift, Polite Conversation*.

Humbleness. *s.* Attribute suggested by Humble.

It was answered by us all, in all possible *humbleness*; but yet with a countenance, that we knew that he spoke it but mockingly. — *Lucas*.

A grain of glory, mixt with *humbleness*, Cures both a fever and lethargickness. — *Sir T. Herbert*.

Humbleplant. *s.* See extract.

The *humbleplant* is so called, because as soon as you touch it, it prostrates itself on the ground, and in a short time cleaves itself again: it is raised in hotbeds. — *Mortimer*.

Humbling. *verbal abs.* Humiliation; abatement of pride.

Yearly ruin'd some say, to undergo This annual *humbling* certain number'd days, To dash their pride and joy for man seduc'd. — *Milton, Paradise Lost*, x. 673.

Humbly. *adv.* In an humble manner; without pride; with humility; modestly; with timorous modesty.

In midst of dangers, fears, and death, Thy goodness I'll adore; And praise thee for thy mercies past, And *humbly* hope for more. — *Addison*.

Humble. *s.* [probably from the combination given in the extract from Ben Jonson. See Wedgwood.]

1. Plausibly deceit.

There is a word very much in vogue with the people of taste and fashion, which though it has not even the 'penultima' of a meaning, yet makes up the sum total of the wit, sense, and judgment of the addressed people of taste and fashion! — This piece will prove a confounded *humbug* upon the nation. . . . These theatrical managers *humbug* the town damnable. . . . *Humbug* is neither an English word, nor a derivative from any other language. It is indeed a blackguard sound, made use of by most people of distinction! It is a fine make-weight in conversation, and some great men deceive themselves as egregiously as to think they mean something by it! — *Steuart*, vol. ii. p. 41: 1751.

As long as we have a man's body, we play our vanities upon it, surrounding it with *humbug* and ceremonies, laying it in state, and packing it up in gilt mails and velvet; and we finish our duty by placing over it a statue, written all over with lies. — *Thackeray, Vanity Fair*.

2. Plausibly deceiver.

And when he deplored with tears in his eyes almost, the little *humbug*! that his relationship prevented him from calling you out, evad, I believed him. — *Id., The Newcomes*, vol. ii. p. 182: ed. 1861.

3. A modern term. Perhaps for *humbug*, from a passage in the *Alchemist*: —

'Sir, against one o'clock prepare yourself, Till when you must be fasting; only take Three drops of Vinegar in at your nose, Two at your mouth, and one at either ear, To sharpen your five senses, and cry hum Thrice, and thou *bee* as often.'

(*B. Jonson, The Alchemist*.) — *Wedgwood, Dictionary of English Etymology*.

Humdrum. *adj.* Dull; dronish; stupid.

Small we, quoth who, stand still *humdrum*, And see about 'em all all alone, By numbers barely overthrown? *Batter, Antibras*.

I was talking with an old *humdrum* fellow, and, before I had laid his story out, was called away by business. — *Addison, Whig Reminiscer*, no. 3.

Keep'er! you old dotard snook, Sweetly snoring in the clunk.

'Who is he?' 'Tis the *humdrum* Wynne, Half encompassed by his klu.' — *Swift*.

Humectate. *v. a.* Wet; moisten.

The Nile and Niger do not only moisten and con-temperate the air by their exhalations, but refresh and *humectate* the earth by their annual inundations. — *Sir T. Browne*.

Her rivers are divided into sluices, to *humectate* the bordering soil. — *Hovel, Vauxhall Forest*.

Humectation. *s.* Act of wetting; moistening.

Plashes of brim, applied to a blow, will keep it down

rom swelling: the cause is repression, without im-
mectation, or entrance of anybody. — *Bacon, Nat-
ural and Experimental History*.

That which is connected by excretion, or ex-
pression of humidity, will be resolved by *humectation*,
as earth and clay. — *Sir T. Browne, Vulgar Errors*.

Humecting. *part. adj.* [Lat. *humecto* = wet.]

Wetting.

The medicaments are of a cool *humecting* quality,
and not too much astringent. — *Winn, Surgery*.

Humective. *adj.* Having the power to wet

or moisten.

These fountain waters have an *humective* and ve-
getative virtue within them, to water and to make
things prosper and grow up. — *Earthenware, Sacra*, p.
218: 1633.

Humectively. *adv.* In a humective manner.

By way of living *humectively*, or moistly, as by
baths of pure fresh waters, and other such like re-
medies, the radical humor may be the longer con-
served. — *Time's Store House*, vol. 2. (Ond MS.)

Humeral. *adj.* [Lat. *humeralis*, from
humerus = shoulder.] Belonging to the
shoulder.

The largest crooked needle should be used, with a
ligature, in taking up the *humeral* arteries in ampu-
tation. — *Sharp, Surgery*.

Humiliation. *s.* [Lat. *humi* = on the

ground; *rubatio*, -onis = lying down.] Act
of lying on the ground.

Fasting and sackcloth, and ashes and tears, and
humiliations used to be companions of repentance
— *Bishop Hurd*.

Humid. *adj.* [Lat. *humidus*.] Moist; wet;
watery.

Iris there, with *humid* bow,
Waters the odoriferous banks that blow
Flowers of many mingled hue,
Than her purpled scarf can show.

Milton, Comus, 102.

The queen, recover'd, rous'd her *humid* eyes,
And first her husband on the poop espies. — *Dryden*.
If they slip easily, and are of a ill size to be ac-
tuated by heat, and the heat is big enough to keep
them in agitation, the body is fluid; and if it be apt
to stick to things, it is *humid*. — *Sir I. Newton, Op-
ticks*.

Humidity. *s.* Moisture.

We'll use this *humid* *humidity*, this gross
watry pumpkin. — *Shakespeare, Merry Wives
of Windsor*, ii. 3.

Young animals have more tender fibres, and more
humidity, than old animals, which have their juices
more exalted and refining. — *Aristotle, On the
Nature and Choice of Animals*.

[*Humidity*] is that quality which we call *mois-
ture*, or the power of wetting other bodies. It dif-
fers very much from fluidity, depending altogether
on the coherency of the component particles of any
liquor to the pores or surfaces of such particular
bodies as it is capable of adhering to. This quick-
silver is not a moist liquor, in respect to our hands
or clothes, and many other things it will not stick
to; but it may be called so in reference to gold, tin,
or lead, to whose surfaces it will presently adhere.
And even water itself, that wets almost every thing,
and is the great standard of *humidity*, is not cap-
able of wetting every thing; for it stands and runs
easily off in globular drops on the leaves of cabbage
and many other plants; and it will not wet the
feathers of ducks, swans, and other water-fowl. —
Quincy.

Humile. *v. a.* Humiliate or humble. *Har-*

David ought to *humile* himself. — *Bishop Fisher*,
p. 4.

Humiliate. *v. a.* Humble.

Humiliating. *part. adj.* Humbling.

Nature has been sparing of her gifts to this noble
lord; but where birth and fortune are united, we
expect the noble pride and independence of a man
of spirit, not the servile *humiliating* compliance of
a courtier. — *Letitia of Justice*.

I asked him (Johnson) if *humiliating* was a good
word. He said he had seen it frequently used, but
he did not know it to be legitimate English. He
would not admit civilisation, but only civility. —
Dowdell, Life of Johnson, vol. 65: 1772.

He exacted from the republic of Genoa the most
humiliating submission. — *Macaulay, History of
England*, ch. ii.

Humiliation. *s.*

1. Descent from greatness; act of humility.

The former was an *humiliation* of deity, the latter
an *humiliation* of mankind; for which cause they
followed upon the latter an exaltation of that which
was humbled; for with power he created the world,
but restored it by obedience. — *Hooker, Ecclesiastical
Polity*.

2. Mortification; external expression of sin
and unworthiness.

John fasted poorly, according unto the apparel he
wore, that is, of camel's hair; and the doctrine he

preached was *humiliation* and repentance. — *Sir T.
Browne, Vulgar Errors*.

3. Abatement of pride.

It may serve for a great lesson of *humiliation* to
unkind, to behold the habits and passions of men
trampling over interest, friendship, honor, and
their own personal safety, as well as that of their
country. — *Swift*.

At Kew House, he had to calm the rage of a
young hero incensed by multiplied wrongs and *hu-
milations*, and then to pass to Whitehall for the
purpose of soothing the peevishness of a sovereign,
whose temper, never very gentle, had been rendered
morally irritable by age, by declining health, and
by the long habit of listening to flattery and exacting
implicit obedience. — *Macaulay, Critical and Histori-
cal Essays, Lord Bacon*.

Humility. *s.*

1. Freedom from pride; modesty; not arro-
gance.

When we make profession of our faith, we stand;
when we acknowledge our sins, or seek unto God for
favour, we fall down; because the gesture of con-
stancy becometh us best in the one, in the other
the behaviour of *humility*. — *Hooker, Ecclesiastical
Polity*.

The *humility* of the style gained them many
friends. — *Lord Clarendon, History of the Grand
Rebellion*.

There are some that will use
Humility to serve their pride, and even
Humble upon their way, to be the prouder
At their journey's end. — *Sir J. Ingham, Sophy*.

'T is an easy matter to extol *humility* in the midst
of low. . . . to begin a fast after di. — *South,
Sermons*.

As high turrets, for their airy steep,
Require foundations in proportion deep;
And lofty edders as far upwards shew,
As to the ether heavens they drive the root;
So low did her secure foundation lie,
She was not humble, but *humility*. — *Dryden*.

2. Act of submission.

With these *humilities* they satisfied the young
king, and by their bowing and beading avoided
the present storm. — *Sir J. Davies*.

Humming. *verbal abs.*

1. Noise of bees or flies.

The *humming* of bees is an unequal buzzing. —
Bees.

So weary bees in little cells repose;
But if night robbers lift the well-sorted hive,
An *humming* through the season city grows. — *Dryden, Annae, Absalom*, cxxviii.

Hears *humming* of unnumber'd flies. — *J. War-
ton, Ode to Evening*.

2. Inarticulate sound.

I put my hand, sir, I heard a *humming*,
And that a strange one too, which did awake me. —
Shakespeare, Tempest, ii. 1.

3. Dull, unmeaning noise.

The unusual accents of the Indians, to us, are but
inarticulate *humming*; as are ours to their other-
wise tuned organs. — *Charlevoix*.

Humming (as applied to *ale*). For the ex-
planation of the previous edition see ex-
tract from Todd. The present editor is
inclined to deduce it from *hummel* = hop;
in which case it means well-hopped.

With *humming* ale encouraging his feast.
Dryden, Wife of Bath's Tale.

Rum, brandy, gin with choicest snuck,
From Holland brought, Batavia's rack;
All these will mount avail,
To cheer a truly British heart,
And lively spirits to impart,
Like *humming* tuppie ale.

Soup uncer'd (perhaps inaccurately) to Gay.

[*Sprightly ale*: probably from the spirituous liquor
called *hum* which also perhaps displaced; or from a
mixture of *hum* with the malt liquor, as spirits are
now sometimes mixed with it. — *Todd*.]

Humming-bird. *s.* Bird of the family Tro-

chilidae.

The northern and Nootka *humming-birds* are
found in the northern continent of America. — *Sir
W. Jardine, Naturalist's Library*.

Hummock. *s.* [hump.] Little hill; rising
ground.

Point Possession bore N.N.E. about three miles'
distance, and some remarkable *hummocks* on the
north. — *Harkerworth, Voyages*.

Spreading bays, with smooth sand beaches, cov-
ered with many shells and fragments of shells,
separate the hills and *hummocks* on the west side,
but all these beaches are partly covered with num-
bered hills and with boulders, more or less rounded,
these latter marking the progress of weathering,
and measuring in some degree the rate of destruc-
tion of the granite above. — *Anders, The Channel
Islands*.

Hummocks. *s. pl.* [Persian, *hamum*; the
accent being on the last syllable. In Eng-

lish it is on the first. The word, however, is so nearly limited to the well-known hotel in Covent-Garden so called, that it may be deemed a *proper* rather than a *common* name. Sweetening-places, or baths.

Artificial grots, having also *humours* of stone paved with white marble. — *Sir T. Morel, Esq. in of mine Years Travels into Africa and the Great Asia*, p. 176.

The *humours* (or sweetening-places) are many [at Cuzco in Persia]. — *Ibid.*, p. 211.

Humoral. adj.

1. Proceeding from the humours.

This sort of fever is comprehended under continued humoral fevers. — *Harris, Discourse on Consumption*.

2. In Medicine, it is specially applied to the doctrine which deduced all or the greater proportion of diseases from a degeneration of the fluid rather than the solid part of the body: Solidism being its opposite.

I have, therefore, assumed the general principles of Humoralism. And, if I have rendered them more correct, and more extensive in their application, and, more particularly, if I have avoided introducing the many hypothetical doctrines of the humoral pathology which disordered both him and all the other systems that have hitherto prevailed, I hope I shall be excused for attempting a system, which, upon the whole, may appear new. — *Cullen, Works*, vol. i. p. 470.

Floridus Schuyli of Leyden sought to recommend the iatrochemical doctrines, by maintaining that they were to be found in the Hippocratic writings; nor was it difficult to give a chemical interpretation of the humoral pathology of the ancients. The Italian physicians, for the most part, took this line, and attempted to show the agreement of the principles of the ancient school of medicine with the new chemical notions. This, indeed, is the usual manner in which the diffusion of new theoretical ideas becomes universal. — *Harris, History of Scientific Ideas*, vol. ii. p. 173; ed. 1828.

It was incumbent on Cullen, after having constructed a theory of disease by reasoning from the solids, to have constructed another theory by reasoning from the fluids; not that a co-ordination of the two theories might have raised a science of pathology, as complete as the then state of knowledge allowed. But to this, his mind was unequal. Able though he was, he lacked the grasp of intellect which characterized Adam Smith, and which made that great man perceive, that every defective argument, which is founded on a suppression of premises, must be compensated by a parallel argument, which takes these premises into account. No little was Cullen aware of this, that, having built up that system of pathology which is known to medical writers as solidism, he never took the pains to accompany it by another system, which gave the first rank to the fluids. On the contrary, he believed that his plans were complete and exhaustive, and that what is termed humoral pathology was a fiction, which had too long usurped the place of truth. — *Watts, History of Civilization in England*, vol. ii. ch. 32.

Humoral pathology is simply a requirement of common practical sense; and it has always held a place in medical science, a though the limits of its domain have, no doubt, been variously circumscribed or interpreted at different times. Of late years, it has met with a new back and support in morbid anatomy, which, in the inadequacy of its discoveries in the solids to account for disease and death, has been compelled to seek for an extension of its boundary through a direct examination of the blood itself. — *Translation of Rokitsky's Pathological Anatomy*, vol. i. p. 362; ed. 1854.

Humoralist. s.

1. One who conducts himself by his own fancy; one who gratifies his own humour.

By a wise and timely limitation the peasant humours and humors must be collected and purged, or cut off; merrily, in such a case, in a king, is true cruelty. — *Bacon, Advice to a Father*.

Many of the rest were as bad men as princes; humors rather than good humours. — *Sir T. Browne, Christian Morals*, p. 12.

Extraordinary men of arts, in all ages, are generally observed to be the greatest humorsists: they are so full of the sweetness of their own conceptions, that they become morose when they are drawn from them. — *Isaac P. Spral, History of the Royal Society*, p. 230.

The humorsist keeps to himself much more than he wants, and gives his superfluities to purchase heaven. — *Adrian*.

The notion of a humorsist is one that is greatly pleased, or greatly displeased, with little things; his actions seldom directed by the reason and nature of things. — *Watts*.

2. One who has odd conceits; eccentric or grotesque person.

Do ye see a *fine humorsist*, that will not dress a

dish, nor lay a cloth, nor walk abroad on a Sunday, and yet make no conscience of wearing his nightgown on the workday? — *Bishop Hall, Sermons, The Hypocrite*.

3. One who studies or describes the humours of people; one whose writing or conversation is characterized by humour, as a kind of wit.

An infectious collection of base vices and fashions of men and women . . . will be of use only among humorsists for jests and table-talk. — *Sir T. Morel, Letter to Sir F. Bacon*.

These poor gentlemen endeavour to gain themselves the reputation of wits, and humorsists, by such monstrous conceits as almost qualify them for Bedlam. — *Addison, Spectator*, no. 38.

At last Michael tries to raise the devil, and the devil comes at his call. My devil was to be, like Goethe's, the universal humorsist, who should make all things vain and nothing worth, by a perpetual collocation of the great with the little in the presence of the infinite. I had many a trick for him to play, some better, I think, than any in the Faust. In the meantime, Michael is miserable: he has power, but no peace, and he every day more keenly feels the tyranny of hell surrounding him. In vain he seems to himself to assert the most absolute empire over the devil, by imposing the most extravagant tasks; our thing is as easy as mother to the devil. — *What next, Michael?* is repeated every day with more imperious severity. — *Schubert, Titled Talk*.

Sir Willoughby, who remembered the humorsist in all his departed glory, and still venerated him as a temple where the deity yet breathed, thought the altar was overthrown, made to this extraordinary remembrance no other reply than a long whiff, and a 'Well, Russell, damn it, but you're a queer fellow.' — *Sir E. L. Bulwer, Pelham*, ch. xiii.

Humorous. adj.

1. Full of humour, in the sense of moisture; damp; dewy; humid. Rare.

The humorous fogs deprive us of his sight. — *Dryden, Bores's II. v. canto 1*.

Every lofty top, which late the humorous night bespangled had with pearl. — *Id., Polydoron*, song 13.

He hath hid himself, among these trees, To be conversed with the humorous night. — *Shakespeare, Romeo and Juliet*, ii. 1.

2. Capricious; irregular; without any rule but the present whim.

I am known to be a humorous patrician; said to be something imperfect, in favouring the first complaint; luscious and tender-like, upon too trivial motion. — *Shakespeare, Coriolanus*, ii. 1.

Thou fortune's clump, that dost never fight But when her humorous ladyship is by, To teach thee safety. — *Id., King John*, iii. 1.

He's humorous as winter, and as sudden As fawns congealed in the spring of May. — *Id., Henry IV. Part II. iv. 4*.

O, you awake then: come away, Times be short are made for play; The humorous moon too will not stay: What doth make you thus delay? — *R. Jonson*.

Vast is his courage, boundless is his mind, Rough as a stern, and humorous as the wind. — *Dryden*.

He that would learn to pass a just sentence on persons and things, must take heed of a fanciful temper of mind, and an humorous conduct in his affairs. — *Watts, Logic*.

3. Full of grotesque or odd images.

Some of the commentators tell us, that Marston was a lawyer who had lost his cause; others that this passage alludes to the story of the satyr Marston, who contended with Apollo, which I think is more humorous. — *Addison, Letters to Italy*.

4. Pleasant; jocular.

The humorous vein, thy pleasing folly, Lies all neglected, all forgot; And pensive, way ring, melancholy, Then dread it and hope it thou know'st not what. — *Prior*.

Humorously. adv. In a humorous manner.

1. Merrily; jocosely.

A cabinet of models Juvenal calls *very humorously*, 'conspicuum argumentum in titulus farcesque mimas.' — *Addison*.

It has been humorously said, that some have fished the very jokes for papers left there by men of wit. — *Swift*.

2. Capriciously; whimsically.

We resolve by halves, and unadvisedly; we resolve rashly, silly, or humorously, upon no reasons that will hold. — *Calverley*.

Humorously. s. Attribute suggested by Humorous.

It must be extreme humorouslyness to deny a Providence in them. — *Goodman, Winters Evening's Conference*, pt. iii.

Humorsome. adj.

1. Peevish; petulant.

I am glad that, though you are incredulous, you are not humorously too. — *Goodman, Winters Evening's Conference*, pt. iii.

[This] seems to me very humorously and unreasonable. — *Blackwall, Sacred Character*, l. 17.

2. Odd; humorous: (in this sense it is less used).

Our science cannot be much improved by masquerades, where the wit of both sexes is altogether taken up in continuing singular and humorous disguises. — *Swift*.

Humorsomely. adv. In a humorsome manner; peevishly; petulantly.

There is no time of the world, where in there are not very plainly the prints of divinity, and evidences of a Providence continually presiding over the world, if a man do not humorously despise them. — *Goodman, Winters Evening's Conference*, pt. iii.

Humours. s. [Lat. humor; Fr. humeur.]

1. Moisture.

The aqueous humor of the eye will not freeze, which is very admirable, seeing it hath the perpetuity and fluidity of common water. — *Ray, Wisdom of God manifested in the Works of the Creation*.

2. Different kind of moisture in man's body, reckoned by the old physicians to be phlegm, blood, choler, and melancholy, which, as they predominated, were supposed to determine the temper of mind.

Believe not these suggestions, which proceed From mischief of the mind and humours black, That mingle with thy fancy. — *Milton, Samson Agonistes*, 680.

3. Tendency to disease; morbid disposition.

He denied himself nothing that he had a mind to eat or drink, which gave him a body full of humours, and made his fits of the gout frequent and violent. — *Sir W. Temple*.

The child had a humor which was cured by the waters of Glashbury. — *Firding*.

4. General turn or temper of mind.

As there is no humor in which impudent poverty cannot make itself servicable; so were there now of those of desperate ambition, who would build their houses upon others' ruin. — *Sir P. Sidney*.

There came a young lord, led with the humor of youth, which ever thinks that good whose goodness he sees not. — *Id.*

King James, as he was a prince of great judgment, so he was a prince of a marvellous pleasant humor; as he was going through Lanes by Greenwich, he asked what town it was; they said Lanes. He asked, a good while after. What town is this we're now in? They said still it was Lanes; then, said the king, I will be king of Lanes. — *Bacon, Apophthegms*.

They, who were acquainted with him, knew his humor to be such, that he would never constrain himself. — *Deplan*.

In cases where it is necessary to make examples, it is the humor of the multitude to forget the crime, and to remember the punishment. — *Addison*. Good humor only teaches charms to last. Still makes new comments, and maintains the past. — *Pope, Epistles to Miss Blount*, ep. i.

5. Present disposition.

It is the curse of kings to be attended by slaves, that take their humors for a warrant to break into the bloody house of life. — *Shakespeare, King John*, iv. 2.

Another thought her nobler humor fed. — *Fairfax*.

Their humors are not to be won, But when they are imposed upon. — *Hunter, Hudibras*.

But one submissive word which you let fall, Will make him in good humor with us all. — *Dryden, Translation of the First Book of the Iliad*.

6. Grotesque imagery; jocularly; merri-ment.

In conversation humor is more than wit, consists more than knowledge. — *Sir W. Temple*.

7. Petulance; peevishness.

Is my friend all perfection, all virtue and discretion? Has he not humors to be endured, as well kindnesses to be enjoyed? — *South, Sermons*.

8. Trick; practice.

I like not the humor of lying; he hath wronged me in some humors: I should have borne the humors better to her. — *Shakespeare, Merry Wives of Windsor*, ii. 1.

9. Caprice; whim; predominant inclination.

In private, men are more bold in their own humors; and in concert, men are more obnoxious to others' humors: therefore it is good to take both. — *Idem*.

Madame D'Arbly has left us scarcely any thing but humors. Almost every one of her men and women has some one propensity developed to a morbid degree. In Cœlia, for example, Mr. Delville never opens his lips without some allusion to his

own birth and station; or Mr. Briggs, without some allusion to the hoarding of money; or Mr. Hobson, without betraying the self-indulgence and self-importance of a purse-proud upstart; or Mr. Simkins, without uttering some sneaking remark for the purpose of carrying favour with his customers; or Mr. Meadows, without expressing apathy and weariness of life; or Mr. Allmy, without declaiming about the vices of the rich and the misery of the poor; or Mrs. Hefield, without some indefinite rucy on her son; or Lady Margaret, without indicating jealousy of her husband. Morrice is all skipping, off-hand, impertinence, Mr. Gosport all sarcasm, Lady Honoria all lively prattle, Miss Jarrold, all silly prattle, . . . But we cannot deny that, in the rank in which she belonged, she had few equals, and scarcely any superior. The variety of *humours* which is to be found in her novels is immense; and though the talk of each person separately is monotonous, the general effect is not monotonous, but a very lively and agreeable diversity. — *Albion, Critical and Historical Essays, Madame D'Arbly.*

Humour. v. n.

1. Gratify; soothe by compliance.

If I had a suit to master Shallow, I would *humour* his men with the imputation of being near their master; if to his men, I would curry with master Shallow. — *Shakespeare, Henry IV. Part II. v. 1.*

If I were Brutus now, and he were Cassius, I should not *humour* Mr. A. — *Julius Caesar, l. 2.* Obsequence and subjection were never enjoined by God to *humour* the passions, hums, and vanities of those who are commended to obey our governors. — *Swift.*

— You *humour* me, when I am sick;
Why not when I am splenetic?

Pope, Imitations of Horace, ep. vii. Children are fond of something which strikes their fancy most, and sullen and regardless of everything else, if they are not *humoured* in that fancy. — *Watts, Logic.*

2. Fit; comply with.

To after any than suit he writ the man,
That with smooth air couldst *humour* best our tongue. — *Milton, Sonnets, xlii. 7.*

'Tis my part to invent, and the musician to *humour* that invention. — *Dryden, Preface to Allion and Albion.*

We have too many instances of the readiness with which the natives of India have *humoured* the fancy of Europeans about their mythology to be much surprised that the Gurusans should have adopted the fables of Dionysus, which they may have learnt from the questions of the invaders, and have deviously turned to their own profit. — *Bishop Threlkell, History of Greece, ch. lii.*

This morbid state of mind may continue for some time, — particularly when *humoured* by friends, without exciting much alarm, or leading them to adopt measures of restraint. — *Eschard, Treatise of Practical Medicine, Insanity.*

Hump. s. [Dutch, *hump* — hump, hunch.]

Protruberance formed by a crooked back.

These defects were mended by matches; the eyes were opened in the next generation, and the *hump* fell. — *Tatler.*

Humpback. s. Crooked back; high shoulders.

The chief of the family was born with an *humpback* and very high nose. — *Tatler.*

Hunch. v. n. [hump.]

1. Strike or punch with the fists.

A great troop of women, and their fellows at their heels, ever and anon *hunching* and jostling one another. — *Sir R. L'Estrange, Translation of Quevedo, p. 148.*

Jack's friends began to *hunch* and push one another: Why don't you go and cut the poor fellow down? — *Arbuthnot, History of John Bull.*

2. Render hunchbacked.

Thy crooked mind within *hunch'd* out thy back,
And wander'd in thy limbs. — *Dryden.*

Hunch. s. Thick piece of anything, such as bread, having the character of a hump rather than a slice.

Hunches of pudding and humps of fat. — *Albert Smith, Mr. N. . . . s. Follies.*

Hunchback. s. Humpback: (as, 'The hunchback of Notre Dame'; 'The Hunchback, by S. Knowles').

Hundred. adj. [A.S.] Number so called, 10×10.

Hundred. s. Company, body, or collection consisting of an hundred.

Very few will take this proposition, that God is pleased with the doing of what he himself commands, for an innate moral principle: whoever does so, will have reason to think *hundreds* of propositions innate. — *Locke.*

Lands taken from the enemy, were divided into centuries or *hundreds*, and distributed amongst the soldiers. — *Arbuthnot.*

Hundred. s. [from L.Lat. *hundredum*.] Canton or division of a county, perhaps once containing a hundred divisions.

Imposts upon merchants do seldom good to the king's revenue; for that that he wins in the *hundred* he loseth in the shire. — *Bacon.*

For justice they had a bench under a tree, where Ket sat, and with him two of every *hundred* whence their companies had been raised; here complaints were exhibited. — *Sir J. Heyward.*

Hundred. s. [L.Lat. *hundredarius*.] One of the jury upon a controversy, dwelling in the hundred where the land lies; one that hath the jurisdiction of a hundred, and holdeth the hundred court; the bailiff of a hundred.

Some of the jury were obliged to be returned from the hundred in which such lay; and, if none were returned, the army might be challenged for defect of *hundreders*. — *Sir W. Blackstone, Commentary on the Laws of England.*

Hundredth. adj. Ordinal of hundred.

Hungary-water. s. Distilled water prepared from rosemary flowers, so called on a queen of Hungary, for whose use it was first made.

The lawyer was enquiring into the circumstances of the robbery, when the coach stop, and one of the ruffians, putting a pistol in, demanded their money of the passengers; who readily gave it them; and the lady, in her fright, delivered up a little silver bottle of about a half-pint size, which the rascal clapping it to his mouth, and drinking her health, declared, he'd some of the best Nectar he had ever tasted; this the lady afterwards assured the company was the mistake of her maid, for that she had ordered her to fill the bottle with *Hungary-water*. — *Fiddling, Adventures of Joseph Andrews.*

Hunger. s. [A.S.]

1. Desire of food; pain felt from fasting.

Therefore shall thou serve thine enemies, which the Lord shall send against thee, in *hunger*, and in thirst. — *Deuteronomy, xxviii. 48.*

2. Any violent desire.

The immaterial felicities we expect, do naturally suggest the necessity of preparing our appetites and *hangers* for them, without which heaven can be no heaven to us. — *Dr. H. More, Discourse of Folly.*

Hunger. v. n.

1. Feel the pain of hunger.

Now in the morning, as he returned into the city, he *hungred*. — *Matthew, xxi. 18.*

Widely they gape, and to the eye they rear,
As if they *hungred* for the food they bore. — *Catchy.*

2. Desire with great eagerness; long.

Don't thou so *hunger* for my empty chair,
That thou wilt needs invest thee with my honours
Before thy hour be ripe? O, foolish youth,
Thou seek'st the greatness that will overweigh thee!
Stay but a little. — *Shakespeare, Henry IV. Part II. iv. 4.*

And from the sting of famine fear no harm,
Nor mind it, fed with better thoughts that feed
No *hungering* wure to do my father's will. — *Milton, Paradise Regained, ii. 24.*

Bred up in poverty and straits at home;
Lost in a desert here, and *hungerbitten*. — *Milton, Paradise Regained, ii. 414.*

Hungerer. s. One who hungers.

The thwarted *hungerer* for . . . takes up the miserable commonplaces of politics; and is the radical. — *Craig, Historical Sketches, Speeches, and Characters, The Church in Ireland.*

Hungering. verbal abs. Suffering from hunger.

France has been her long curriculum of *hungering*, instructive and productive beyond modern curricula; which extends over some seven most strenuous years. — *As Jean Paul says of his own life, 'to a great height shall the business of hungering go.'* — *Carlyle, The French Revolution, pt. I. h. vi. ch. iv.*

Hungerly. adj. Hungry; in want of nourishment. (In the extracts the construction is *adverbial*.)

His beard
Grew thin and *hungerly*, and seem'd to ask
His supper he was drinking. — *Shakespeare, Twelfth of the Shrew, iii. 2.*

You have said I'm hungry, and I feed
Most *hungerly* on your sight. — *Id., Timon of Athens, i. 1.*

Most *hungerly* on your sight. — *Id., Timon of Athens, i. 1.*

They are all but stomachs, and we all but food;
They eat us *hungerly*, and when they're full,
They belch us. — *Shakespeare, Titus Andronicus, iii. 4.*

Hungerstarve. v. n. Starve with hunger.
I will *hungerstarve* all the goals of the Gentlemen. — *Travellers of the Christian Religion. (Ord MS.)*

Hungerstarved. part. gik. Starved with hunger; pinched by want of food.
— *Shakespeare, Henry VI. Part I. l. 5.*

By extortion and oppression, by unmerciful
raking in of rents and wresting from them excessive
fines, they make them starved and *hungerstarved*. — *Id., Id., l. 5.*

As in some way to use the allusion, I came,
The *hungerstarved*, the naked, and the lame,
Want and misery, fled before her name. — *Dryden.*

Hungred. adj. Pinched by want of food:
(in the following extracts preceded by *am*,
improperly, inasmuch as *am* (of which *is*
is the shortened form) precedes the *verbal* in
-ing ('he went *a hunting*,' i.e. *on hunting*)
rather than the *participle* in -ed. See On.
And when he had fasted forty days and forty
nights, he was afterwards *hungred*. — *Matthew, iv. 2.*
— *Hours do in a small degree nourish, and we see
men *hungred* have to smell hot bread. — Bacon.*

HUNT

2. Chase.

The hunt is up, the morn is bright and gay;
The fields are triumphant, and the woods are green.
Shakespeare, Titus Andronicus, ii. 2.

3. Pursuit.

I've heard myself proclaim'd;
And by the happy hollow of a tree,
Escap'd the hunt. *Shakespeare, King Lear, ii. 3.*

Hunter. s. One who hunts.

a. Sportsman.

This was the arms or device of our old Roman hunters; a passage of Manlius lets us know the young hunters had Messenger for their patron.—*Adrian, Poets in Italy.*

b. Dog.

Of dogs, the val'd ille
Distinguishes the swift, the slow, the subtle,
The housekeeper, the hunter.
Shakespeare, Macbeth, iii. 1.

c. Horse: (as 'racer, hunter, buck, cart-horse')

Hunting. verbal abs.

1. Act, or practice, or habit of one who hunts.

When we grow up to men, we have another species of manly sports; in particular, hunting. I dare not attack a diversion, which has such authority and custom to support it.—*Guardian, no. 61.*

2. Search, or pursuit, in general.

Very much of kin to this is the hunting after arguments to make good one side of a question, and wholly to neglect and refuse those which favour the other side.—*Locke.*

Hunting-seat. s. Temporary residence for the purpose of hunting.

Near it [is] a house built by one of the grand dukes for a hunting-seat, but now converted into an inn. *Tray, Letters.*

Huntress. s. Female hunter.

And thou, thrice crowned queen of night, survey
With thy dusky eye, from thy pale ashy slave,
Thy huntress' name, that my full life didh away.
Shakespeare, As you like it, iii. 2.

Homer represents Diana with her quiver at her shoulder; but at the same time he describes her as an huntress.—*Brooke.*

Huntsman. s.

1. One who delights in the chase.

Like as a huntsman, after weary chase,
Seeing the game escape from him away,
Sits down to rest him. *Spenser, Sonnets.*

2. Person connected with a pack of hounds whose office it is, in conjunction with that of whipper-in, to manage the hounds during a run.

Apply this moral rather to the huntsman, that managed the chase, than to the master.—*Sir R. L'Estrange.*

Huntsmanship. s. Condition, or practice, of a huntsman (in its first, or more general, sense).

At court you fellows every day
Give the art of rhyming, huntsmanship, or play.
Jonas.

To betoken his huntsmanship, he holdeth in his hand the skin of a wild beast.—*Gregory, Pastimes, p. 228: 1650.*

Hurdle. adj. Made of Hurdles. Hoddren (as in hudden grey), which, whether Scotch or provincial, is sometimes used (rhetorically) by even prose writers in English, is a wrong form of this.

It is, when he is reaping, making hay, or when he is helping in his hudden flock.—*Shenstone.*

Hurdle. s. [A.S. *hyrdel.*]

1. Fence, movable and temporary, sometimes wattled (in which case it is provincially called a *fleake*); sometimes made like a light gate (in which case it is provincially called a *tray*).

The sled, the tumblel, *hurdles* and the fall,
These all must be prepar'd.
Dryden, Translation of the Georgics.

2. Crate on which criminals were dragged to execution.

Settle your fine joints 'midst Thursday next,
Or I will drag thee on a *hurdle* chitler.
Shakespeare, Romeo and Juliet, iii. 5.

The blacksmith was hanged, drawn, and quartered at Tyburn: taking pleasure upon the *hurdle*, to think that he should be famous in after times.—*Bacon.*

An established church was then, as a matter of course, a persecuting church. Edward persecuted Catholics, Mary persecuted Protestants, Elizabeth persecuted Catholics again. The father of those

HURL

three sovereigns had enjoyed the pleasure of persecuting both sects at once, and had sent to death, on the same *hurdle*, the heretic who denied the real presence, and the traitor who denied the royal supremacy.—*Mausolus, Critical and Historical Essays, Harlequin and his Times.*

[*Hurdle, hurdling.*] Dutch *hurde*, a hurdle, fence of branches or osiers; *hurden-saoul*, a wicker wall. German *hurde*, a frame of rods, hurdle, grate; *hürstap*, a fence made with hurdles, formally identical with English *hurdles*, diverted by sense to signify a fencing of boards. French *hurdle*, wattle-work for walls, gave rise to Middle Latin *hurdium*, a wicker defence in sieges.

Et que reddidit luto *hurdicia* naves.
Old Norse *hurð*, a door, properly a wicker gate. The origin is Swiss *hurdt*, a pole, French *hard*, *hurdt*, a wattle, *hurden*, a little wattle. Hence French *hour*, *hurdle*, a framework of poles to keep tannin from the ground in a tannery, *hurdenche*, a woman's scaffold.—*Wegmann, Dictionary of English Etymology.*

Hurdle. v. a. Cover, or close with hurdles. The ground was dug in various places, as if for the purpose of further improvements, and here and there a sickly little tree was carefully *hurdled* round, and several plums its young heart out at the continent.—*Sir E. B. Lytton, Pelham, ch. xii.*
In *hurdled* cotes the flocks are penned.
Spenser, Sonnets, &c., p. 173.

Hurds, or Hards. s. [A.S. *hordus, hordun.*] Coarse tow, whether consisting of flax or hemp.

From the superficial part to the myddest which is the frate, it (the cocen-unt) is involved and covered with many woldman lyke unto those *hurdies* of tow which they use in Andalusia. Of this tow or wold, the East Indians make a certeyne kynde of cloth of three or foure sortes, and cordes for the sayles of shippes.—*Selden, Translation of P. Martyr, 163.* (Ond MS.)

Hurdy-gurdy. s. [?] Musical instrument, combining the structure of a barrel organ and guitar, so called.

Whom have we here? a sightly wrenn and sturdy!
Horn! plays, I see, upon the *hurdy-gurdy*.
Keats, Ode on Melancholy.

He plays the good old air—such as the *hurdy-gurdy* players of Metz and Jan Steen criud so pleasantly before cottage doors.—*A. A. Sala, Dutch Pictures, The Shadow of a young Dutch Painter.*

Hurl. v. a. [?] Throw with violence; drive impetuously.

If he thrust him of hatred, or *hurl* at him by laying of wait.—*Numbers, xxv. 20.*

They were armed with bows, and could use both the right hand and the left in *hurling* stones and shooting arrows.—*1 Chronicles, xii. 2.*

Hurl ink and wit,
As madmen stones.
Conjure him far to drive the Grecian train,
And *hurl* them headlong in their fleet and main.
Pope, Translation of the Iliad.

France therefore has done two things very completely: she has *hurled* back her German invaders far over the marches; and likewise she has shattered her own internal social constitution, even to the minutest fibre of it, into wreck and dissolution.—*Carlyle, French Revolution, pt. iii. b. ii. ch. i.*

Hurl. s. Act of casting or throwing.

The goals with *hurler* and amaze look'd down,
Beholding rocks from their firm basis torn,
Mountain on mountain thrown.
With threatening *hurl* that shook th' ætherial firmament.
Congreve, Ode on taking Namur.

Hurl. v. a. [?] Fr. *hurler* = shriek.]

The glad-herald that does view
His ship far come from wat'ry wilderness,
He *hurls* out vows.
Highly they rag'd against the Highest,
Hurling defiance toward the vault of heaven.
Milton, Paradise Lost, l. 663.

He in the same *hurl* murdering such as he thought would withstand his desire, was chosen king.—*Knolles, History of the Turks.*

Hurler. s. One who throws, or hurls.
The stone that strikes the wall
Sometimes bounds back on th' *hurler's* head.
Harrington, View of the Church, p. 48.

This curving Rhine, a *hurler* of stones as well as a raller.—*Milton, Apology for Smeaton.*

Hurling. s. One who plays at hurling.
The *hurlers* must hurl man to man, and not two set upon one man at once.—*Carew, Survey of Cornwall.*

Hurling. s. Game so called; see extract.
Hurling taketh its denomination from throwing of the ball, and is of two sorts; to goals, and to the country: for *hurling* to goals there are fifteen or thirty players, more or less, chosen out on each side,

HURR

who strip themselves, and their join hands in ranks, one against another: out of these ranks they match themselves by pairs, one embracing another, and so pass away; others of which couple are to watch one another during this play.—*Curee, Survey of Cornwall.*

Hurricane. s. [so also, *hurtleberry* = Whorlberry; *hoop* = whoop.] Whirlwind.
Like center'd down the howling Eurus blown,
By rapid *hurricanes* from his mansion thrown.
Saunders, Paraphrase of the Book of Job.

No sudden *hurricanes* shall your bulwark cast
On trembling earth. *Id., Christ's Passion, p. 13.*

Hurly. s. Tumult; commotion; bustle.
Winds take the ruffian billows by the top,
That with the *hurly* death itself awakes.
Shakespeare, Henry IV. Part II. iii. 1.

Nothing, I see this *hurly* all on foot.
Id., King John, iii. 4.

Hurly-burly. s. Same as preceding.
All places were filled with tumult and *hurly-burly*, every man measured the danger by his own fear; and such a pitiful cry was in every place, as in cities presently to be besieged.—*Knolles, History of the Turks.*

When, I pray you, were these classical assemblies, and these ædificious stirs and *hurlyburlys* of Martinists.—*Sir G. Paul, Life of Archbishop Whitgift, p. 63.*

Hurly-burly. adj. Tumultuous.
Poor discontented,
Which gaze and rub the elbow at the news
Of *hurlyburly* innovation.
Shakespeare, Henry IV. Part I. v. 1.

In the *hurlyburly* days of queen Elizabeth.—*Perceval's Underworld, p. 11: 1668.*

Hurrah. interj. Shout of joy, or triumph, or applause, or encouragement: at first, perhaps, the shout of soldiers at the onset.

An European warrior who rushes on a battery of cannon with a loud *hurrah*, will sometimes shriek under the surgeon's knife, and fall into an agony of despair at the sentence of death.—*Mausolus, Critical and Historical Essays, Warren Hastings.*

Hurricane. s. [Spanish, *huracan*, ? from *Carib*.] Violent tropical storm.

We believe a *hurricane* was begun, a vast or unwanted tumour in the air. *Sir T. Herbert, Relation of some Years' Travels into Africa and the Great Asia, p. 41.*

A poet who had a great genius for tragedy, made every man and woman too in his plays stark raving mad: all was tempestuous and lumbering; heaven and earth were coming together at every word; a mere *hurricane* from the beginning to the end.—*Dryden.*

So, where our white Numidian wastes extend,
Sudden th' impetuous *hurricane* descent,
Whel'd through the air, in circling eddies play,
Tear up the sands, and sweep whole plains away.
Johnson, Ode on the Death of King David.

'Johnson,' observed Hogarth, 'like King David, says that all men are liars.' 'His incredulity,' says Mrs. Thrale, 'amounted almost to disease.' She tells us how he browbeat a gentleman, who gave him an account of a *hurricane* in the West Indies, and a poor quaker who related some strange circumstances about the red-hot balls fired at the siege of Gibraltar.

'It is not so. It cannot be true. Don't tell that story again. You cannot think how poor a figure you make in telling it.'—*Mausolus, Critical and Historical Essays, Howell's Life of Johnson.*

Hurricane. s. Older and less English form of *hurricane*.

Blow winds and crack your cheeks;
You cataracts and *hurricanes*, mount.
Shakespeare, King Lear, iii. 2.

A storm or *hurricane*, though but the force of air, makes a strange havoc where it comes.—*T. Burnet, Theory of the Earth.*

The winds are not only wild in a storm, but even stark mad in an *hurricane*.—*Fuller, Holy State, p. 122.*

Hurrier. s. One who hurries. *Hellenism.*
Stars, that horrid *hurrier* of men. *Chapman.*

Hurry. v. a. Hasten.
Your nobles will not hear you; but are gone
To offer service to your enemy;
And wild amusement *hurries* up and down
The little number of your doubtful friends.
Shakespeare, King John, v. 1.

Impetuous lust *hurries* him on to satisfy it.—*South, Sermons.*

The multitude, in all countries, are patient to a certain point. Ill usage may rouse their indignation, and *hurry* them into excesses, but the original fault is in government.—*Letters of Junius, let. 1.*

Hurry. v. a. Move on with precipitation.
Did you but know what joys your way attend,
You would not *hurry* to your journey's end.
Dryden.

Hurry. s. Tumult; precipitation; commotion.

Among all the horrible hurries in England, Ireland was then almost quiet. — *Sir J. Heyward*.
It might have pleased him in the present heat and hurry of his race; but must have displeased him indignity in the sate reflection. — *North, Sermons*.
The pavement sounds with trampling feet,
And the mist hurry barricades the street.
Gay, Trivia.

Hurry-scurry. *adv.* Confusedly; in a bustle; with noise and tumult.
Each hole and cupboard they explore,
Each creek and cranny of his chamber,
Run hurry-scurry round the floor,
And o'er the bed and tester clamber.
Gray, Long Story.

Used substantially.
In the hurry-scurry of money-making, men-making, and machine-making, we had altogether outgrown, not the spirit, but the organisation of our institutions. — *Disraeli the younger, Coningsby*, b. ii. ch. i.

Hurst. *s.* [A.S.] Small wood. At present a geographical rather than a common name, being pre-eminently common, as the second element of a compound (*Exhurst, Hawkhurst*) in Kent, Surrey, and Bedfordshire. As a prefix it is less common, and often adjectival (*Hurst Green*). It sometimes stands alone (*Hurst* in Northamptonshire and elsewhere).

To her neighbouring chase the courteous forest showed
So just-received joy, that from each rising hurst,
Where many a goodlie oak had carolled been
The Sylvans in their meads their mirthful meeting tell.
Drayton, Polyolbion, song 2.

Hurt. *v. a.* [A.S. *hyrtan*.]

1. Injure; harm; do mischief.
He that overcometh shall not be hurt of the second death. — *Revelation*, ii. 11.

2. Wound; pain by some bodily harm.
My heart is turn'd to stone; I strike it, and it hurts my hand. — *Shakespeare, Othello*, iv. 1.

3. Damage; impair.
See thou hurt not the oil and the wine. — *Revelation*, vi. 6.

Hurt. *s.*

1. Hurt; mischief.
I have slain a man to my wounding, and a young man to my hurt. — *Genesis*, iv. 23.
The hurt thereby is greater than the good.
Spenser.

2. Wound or bruise.
Carter adventured bravely, and received two great hurts in his body. — *Sir J. Heyward*.

3. Injury; wrong.
Why should damage grow to the hurt of the kings. — *Esse*, iv. 22.

Hurtful. *adj.* Mischievous; pernicious.
Secret neglect of our duty is but only our own hurt: one man's contempt of the common prayer of the church (God may be much hurtful unto many). — *Hooker, Ecclesiastical Polity*.
The hurtful heat in the vineyard shun,
Nor plant it to receive the setting sun.
Dryden, Translation of the Georgics, ii. 410.

Hurtle. *v. n.* [Fr. *hurter*.]

1. Dash in collision.
They drew out their swords, and hurtled together with violence. — *History of Prince Arthur*, pt. i. ch. xxviii.

2. Clash; rattle.
The noise of battle hurtled in the air.
Shakespeare, Julius Caesar, ii. 2.
Iron sleds of arrowy shower
Hurled in the darken'd air.
Gray, Odes, vii.

3. Move violently.
Sudden uprieth from her stately place
The roiall dame, and for her cocho doth call:
All hurtlen forth.
Spenser, Faerie Queen, l. 4, 10.

His approved will to ward,
Or strike, or hurtle round in warlike rage.
Ibid., ii. 5, 8.

Hurtle. *v. a.* Move with violence, or velocity; whirl round; brandish.
His harmful club he gan to hurtle high,
And threaten battle to the fiery knight.
Spenser, Faerie Queen.

Hurtless. *adj.* Innocent; harmless; innoxious; doing no harm.
Unto her home he oft would go,
Where bold and hurtless many a play he tries,
Her parents liking well it should be so;
For simple goodness shined in his eyes.
Sir P. Sidney.

[She] joy'd to make proof of her cruelty
On gentle dame, so hurtless, and so true.
Spenser, Faerie Queen.
Shorter every can he takes,
And vain efforts and hurtless blows he makes.
Dryden, Translation of the Knit.

Hurtless. *adv.* In a hurtless manner; without harm.

Your neighbours have found you so hurtless strong,
That they thought it better to rest in your friendship
Than make new trial of your enmity. — *Sir P. Sidney*.

Hurtling. *verbal abs.* Act of that which hurtles.

Kindness
Made him give battle to the furies,
Who quickly fell before him; in which hurtling,
From miserable slunder I awak'd.
Shakespeare, As you like it, iv. 3.

Husband. *s.* [A.S. *husbanda*.]

1. Male member of a married pair; correlative to Wife.

Thy husband is thy lord, thy life, thy keeper,
Thy head, thy sovereign.
Shakespeare, Taming of the Shrew, v. 2.

2. Male of animals. *Latinism, vir gregis*.
Ev'n though a snowy ram thou shalt behold,
Prefer him not in haste, for husband to thy fold.
Dryden, Translation of the Georgics, iii. 504.

3. Manager; economist; one who knows and practises the methods of frugality and profit: (generally accompanied by some epithet implying bad or good). The verb commoner than the substantive.

Edward I. showed himself a right good husband;
owner of a lordship ill husbanded. — *Sir J. Davies, Diarconne on the State of Ireland*.

I was considering the shortness of life, and what all husbands we are of a tender fortune. — *Collier, On Power*.

I gave each of them a musket, with a firelock on it, and about eight charges of powder and ball, charging them to be very good husbands of both, and not to use either of them but on urgent occasions. — *De Foe, Life and Adventures of Robinson Crusoe*.

4. Husbandman. *Obsolete*.

Husband's work is laborious and hard.
Spenser, Mother Hubbard's Tale.
I heard a great husband say, that it was a common error to think that chalk helpeth arable grounds. — *Bacon*.
But when cold weather and continued rain
The labouring husband in his house restrain,
Let him forego his work.
Dryden, Translation of the Georgics, l. 350.

Husband. *v. a.*

1. Supply with a husband. *Obsolete*.
Think you I am no stronger than my sex,
Being so father'd and so husbanded?
Shakespeare, Julius Caesar, ii. 1.

If you shall prove
This ring was ever here, you shall as easy
Prove that I husbanded her bed in Florence,
Where yet she never was.
Ibid., All's well that ends well, v. 3.

In my sight,
By me invested, he appears the best, . . .
That were the most, if he should husband you.
Ibid., King Lear, v. 3.

2. Manage; economize.

It will be pastime passing excellent,
If it be husbanded with modesty.
Shakespeare, Taming of the Shrew, Induct. sc. 1.
The French, wisely husbanding the possession of a victory, kept themselves within their trenches. — *Baron, History of the Reign of Henry VII.*

If thou be master-general, spend not all
That thou canst speak at once; but husband it,
And give men turns of speech.
Herbert.

She (Greville) wanted an eye to see her new position and relations, and a hand to collect, husband, and employ her remaining resources. — *Bishop Thirlwell, History of Greville*, ch. iv.

If a sun was bestowed on the wretched adventures, such as, properly husbanded, might have supplied him for six months, it was instantly spent in strange freaks of sensuality. — *Murray, Critical and Historical Essays, Croker's Edition of Boswell's Life of Johnson*.

3. Till; cultivate the ground with proper management. *Obsolete*. In a modern writer this sentence might certainly occur; but its meaning would certainly be economize, make the most of. It may be thus in the extract.

A farmer cannot husband his ground, if he sits at a great rent. — *Bacon*.

Husbandable. *adj.* Fit for husbandry. *Rare*.

The Sueres (a people of Germany) had no land which they held in particular, or divided among them; neither were they permitted to tarry longer than a year in a place to till or make a husband-ah. — *Time's Store-house*, p. 12. (Old MS.)

Husbandless. *adj.* Without an husband.

A widow, husbandless, subject to fears;
A woman naturally born to fears.
Shakespeare, King John, iii. 1.

Husbandly. *adj.* Frugal; thrifty. *Rare*.
Have plots full of mills, if ye plow overhwart;
And compass it then, in a husbandly part.
Tasso, First Hundred Points of good Husbandry.

Husbandman. *s.* One who works in tillage.
This busy serves you for good uses; he is your serving-man, and your husbandman. — *Shakespeare, Henry IV. Part II*, v. 3.

The mule being more swift in his labour than the ox, more ground was allowed to the mule by the husbandman. — *Bacon*.

Husbandry. *s.*

1. Tillage; manner of cultivating land.
He began with a wild method to run over all the art of husbandry, especially employing his tongue about well tilling of a field. — *Sir P. Sidney*.

Ask'd if in husbandry he might do know,
To plough, to plant, to reap, to sow.
Spenser, Mother Hubbard's Tale.

Peace hath from France too long been chid;
And all her husbandry doth lie on heaps,
Corrupting in its own fertility.
Shakespeare, Henry V, v. 2.

Used metaphorically.

Her plentiful womb
Expresseth his full till and husbandry.
Shakespeare, Measure for Measure, l. 5.

The seeds of virtue sown, by the husbandry of Christian counsel, produce better fruit than the strength of self-nature. — *Sir W. Raleigh, History of the World*.

2. Thrift; frugality; parsimony.
There's husbandry in heaven;
The candles are all out. — *Shakespeare, Macbeth*, ii. 1.

You have already saved several millions to the publick, and that what we ask is too inconsiderable to break into any rules of the strictest good husbandry. — *Swift*.

3. Care of domestic affairs.
I commit you to your hands
The husbandry and manage of my house.
Shakespeare, Merchant of Venice, iii. 4.

Hush. *interj.* Silence.

The king hath done you wrong; but hush! 'tis so.
Shakespeare, All's well that ends well, ii. 3.
There's something else to do; hush and be mute,
Or else our spell is marr'd.
Ibid., Tempest, iv. 1.

Hush. *adj.* Still; silent; quiet.
As we often see, amidst some storm,
A silence in the howls, the rock stand still,
The loud winds speechless, and the orb below
As hush as death. — *Shakespeare, Hamlet*, ii. 2.

Hush. *v. n.* Be silent.
This frown'd, that fawn'd, the third for shame did hush;
Another seem'd envious or coy;
Another in her teeth did gnaw a rush;
But at these strangers' presence every one did hush.
Spenser, Faerie Queen.

Hush. *v. a.* Silence; quiet; appease.
It was my breath that blew this tempest up,
I fear your stubborn rage of the jug;
But since you are a gentle convertite,
My tongue shall hush again this storm of war,
And make fair weather in your blush-ring land.
Shakespeare, King John, v. 1.

When in a bed of straw we shrink together,
And the loud winds shall whistle round our heads,
Will thou then talk thus to me? Will thou then hush my cares thus, and comfort me with love?
Ure, Venice Preserved, l. 1.

Her aim at length is kind,
Calms every storm, and hushes every wind;
Prepares his empire for his daughter's ease,
And for his hatching nephews smooths the seas.
Dryden.

With the return of light the rain had ceased, and the storm was hushed; and the troops were immediately embarked. — *Bishop Thirlwell, History of Greville*, ch. iii.

A king's life, and so much else that depends thereon, hangs trembling in the balance. Man after man mounts; the buzz hushes itself till he have spoken: death; banishment; imprisonment till the peace. — *Carlyle, The French Revolution*, pt. iii. l. i. ch. vii.

With up. Suppress in silence; forbid to be mentioned.

This matter is hushed up, and the servants are forbid to talk of it. — *Pope*.

Hushmoney. *s.* Bribe to hinder information; pay to secure silence or hush up a matter.

A dexterous steward when his tricks are found,
Hushmoney sends to all the neighbours round;
Ibid.

His master, unsuspecting of his pranks,
Pays all the cost, and gives the villain thanks.

I expect *hush-money* to be regularly sent for every
folly or vice any one commits in this whole town;
and hope I may pretend to deserve it better than a
chamber-maid or a valet de chambre.—*Tatler*, no. 28.

Husk. s. [Dutch, *hulache*.] Outmost integument of fruits.

Most seeds in their growing, leave their husk or
rind about the root.—*Baron, Natural and Experimental History*.

Do not content yourselves with mere words, lest
you feed upon husks instead of kernels.—*Watts*.

Hushiness. s. Attribute suggested by
Husky.

'I tell no lies,' said the butcher, with the same
mild hushiness as before.—*Silas Marner*, ch. vi.

Husky. adj. Abounding in, consisting of,
husks.

Most have found
A husky harvest from the grudging ground.
Dryden, Translation of the Georgics, l. 514.

Husky. adj. [? connected with A.S. *hwost*
= cough.] Hoarse.

'Here the mouth of sad Melpomene
Is wholly bent to tragedy's discourse:—
Here means the wrathful nurse, in seas of tears,
And loud Canto's, to tell a dismal tale;
A tale wherein she lately hath bestowed
The husky humour of her hoarse quill.
Tragedy of Soliman and Perseda, ed. 1599.

Prose was dead, and Sergeant Quirk
Grew husky, and had left the circuit.

Arundel Thorne returned to his cousin, and seating
himself at the table, took up a book, and began reading
it the wrong side upwards; then he threw down
a ball of silk, then he cracked a netting needle, and
then with a husky sort of voice, and a half loud,
and altogether an air of infinite confusion, he said,
'This has been an odd affair, May, of the Duke of
St. James and Sir Lucius Grafton?'—*B. Disraeli*
the younger, The Young Duke, l. ii, ch. xv.

'Bed it was,' said the butcher, in his good-natured
husky tone.—*Silas Marner*, ch. vi.

Hussar. s. [German; ? of Hungarian origin.] Soldier so called.

Two Hungarian miles from Frieslat lies Baur
we being here upon the 10th of March: the *hussar*
who drove our chariot hither, after we had supped
went out.—*Brown, Travels*, &c., p. 24: 168.

He made his levees and his cabinet of one continued
piece of cloth, after the manner of the *hussar*.
—*Spectator*, no. 574.

Hussar. s. Cuse, in the establishment of a
sempstress, or female sewer, for cotton,
worsted, needles, and the like. Often connected
with Huswife, as if the name of
some indispensable element in manage-
ment or economy. *Perhaps*, connected
with gossip-lum = cotton.

Hussy. s. [huswife.] Wench.

Get you in, *hussy*, go: now will I personate this
hopeful young jade.—*Southey, Tancréd and Aultery*.
Why there, then—look ye there! Younda, you
shall have him; *hussy*, you shall have him.—*G. Col-*
man the elder, The Jealous Wife, iv. 2.

Hustings. s. generally plural. [A.S. *husting*.]

1. Council; court held.

From the sheriff's court in the city of London, a
writ of error lies to the court of *hustings* before
the mayor, recorder, and sheriffs.—*Sir W. Black-*
stone, Commentaries on the Laws of England.

2. Place of meeting to choose a member of
parliament.

I stood at the *hustings* (except when I gave my
thanks to those who favoured me with their votes)
less like a candidate, than an unconcerned spectator
of a public meeting.—*Hurke, Speech at Bristol*.

It was not pretended, they did not even pretend
themselves, that there was any thing new in the doc-
trines which they preached from the *hustings*, and
disseminated in every part of the kingdom. The
discoveries had long since been made, and were gradu-
ally doing their work, encroaching upon old er-
rors, and making proselytes in all directions. The
reformers of our time swam with the stream: they
sided what it would have been impossible long to
resist.—*Buckle, History of Civilization in England*,
i. v.

Used adjectively.

Gratitude to Lord Grey was the *hustings*-cry at
the end of 1852.—*B. Disraeli the younger, Coningsby*,
b. ii. ch. i.

Hutselo. v. a. [Low German, *hutselen*.] Crowd
and press; mob.

In this convulsion, above all, no word he could
speak would find favour; he says now, banishment;

and in mute wrath quits the place for ever,—much
hailed in the corridors.—*Carlyle, History of the*
French Revolution, pt. iii. h. ii. ch. vi.

Did ever any grave senate, since the beginning of
the world, treat a man as a criminal merely because
he had been robbed, pelted, *huzzed*, dragged through
snow and mire, and threatened with death if he re-
turned to the house which was his by law?—*Macaulay, History of England*, ch. xvi.

Huswife. s. Female manager of a house;
female husband; economist; thrifty
woman.

Good *huswife* provides, ere a sickness do come,
Of sundry good things for her house to have none.
Tusser, Five Hundred Points of good
Housewifery.

Huswife. v. a. Manage with economy and
frugality.

But *huswifery* the little Haven had lent,
She duly paid a groat for quarter-rent;
And pluck'd her belly, with her daughters two,
To bring the year about with much ado.

Dryden, The Cuck and the Fox, v.

Huswife. s. See Hussy.

Huswifely. adj. Thrifty; frugal; becom-
ing a housewife.

Good *huswifely* physick.
Tusser, Five Hundred Points of good
Housewifery.

His [Tusser's] *huswifely* admonitions . . . are not
particularly addressed to the farmer.—*T. Warton, History of English Poetry*, iii. 307.

Huswifery. s. Management good or bad.

Good *huswifery* trieth
To rise with the cock;
Ill *huswifery* lieth
Till fume of the clock.

Tusser, Five Hundred Points of good
Housewifery.

Thy good lady . . . therein ray'd
The just reward of her high *huswifery*;
To have her linen, plate, and all things nigh,
When she was far.

H. Johnson, Forest.

Hut. s. [N.F. *hute*.]

1. Four cottages.

Our wandering solists, in woeful state, . . .
To a small red hut came at last,
Where dwelt a good old harvest yeoman,
Called in the neighbourhood Thimmon,
Who kindly did these solists baffle,
In his poor hut to pass the night.

Swift, Bani and Philemon.

By a house, I mean a building with one story over
another; by a *hut*, a dwelling with only one floor.
—*Johnson, Journey to the Western Islands of Scot-*
land. (Ordn. MS.)

2. Temporary building, more like a house
than a tent, for soldiers; (as, 'to *hut*
troops,' i.e. to lodge them in huts).

Hut. v. a. Place (soldiers) in huts.

They were obliged to *hut* their camp, and remain
in the open fields till January.—*Smollett, History*
of England, vol. iii. ch. vi.

Hutch. s. [A.S. *huccca*.] Coffin, chest,
or case for storing articles of housekeep-
ing; safe.

In their tabernacles, ampers, *hutches*; or as a
mystery in their locked closets.—*Sheldon, Miracles*
of Antichrist, p. 235: 1816.

The best way to keep them, after they are thrashed,
is to dry them well, and keep them in *hutches*, or
close casks.—*Mortimer, Housewifery*.

Archbishop Chichester gave a borrowing chest to
the university of Oxford, which was called Chichester's
hutch.—*T. Warton, Notes on Milton's Comus*.

Hutch. v. a. Lay up in, or as in, a hutch,
coffin, or chest; hoard.

In her own loins,

She *hutch'd* the all-worship'd ore, and precious gems.
Milton, Comus, 718.

Huzz. interj. Exclamation, or shout, of
admiration or applause.

Liberty, property, and old England for ever,
huzz!—*Goklamith, Essays*, xiv.

Huzz. s. Utterance of the shout Huzz.

The *huzz* of the rabble are the same to a bear as
they are to a prince.—*Sir R. L. Estlin*.

The whole armament was in the highest spirits.
The rowers, flushed by success, and animated by the
thought that they were going to fight under the eyes
of the French and Irish troops who had been assem-
bled for the purpose of subjugating England, pulled
manfully and with loud *huzz* towards the six huge
wooden castles which lay close to Fort Limet.—
Macaulay, History of England, ch. xviii.

Huzz. v. a. Shout Huzz.

With that I *huzzed*, and took a jump across the
table.—*Tatler*, no. 48.

Huzz. v. a. Receive with huzzes.

He was *huzzed* into the court by several weavers
and clothiers.—*Addison*.

Huzzing. verbal *abs*. Shouting of Huzz.

From the Place Louis Quinze, where they alight,
all the way to the Hôtel-de-Ville, it is one sea of tri-
colour cockades, of clear national muskets; a
tempest of *huzzings*, hand-clappings, aided by 'oc-
casional rollings' of drum-music.—*Carlyle, The*
French Revolution, pt. i. h. v. ch. viii.

Hyacinth. s. [Gr. *ὑάκινθος*; Lat. *hyacin-*
thus.]

1. In Botany. Plant so called. The garden, or
florists', hyacinth falls into numerous vari-
eties and sub-varieties. The wild hya-
cinth, a native plant, is the *Hyacinthus*
(*Agrostis*) *nouscriptus*. The *Muscari racemiosum* is called, from its inflorescence,
the Grape, and, from its smell, the Starch
hyacinth.

The *hyacinth* hath a bulbous root: the leaves are
long and narrow; the stalk is upright and naked,
the flowers growing on the upper part in a spike:
the flowers consist each of one leaf, are naked, tubu-
lose, and cut into six divisions at the brim, which
are reflexed: the ovary becomes a roundish fruit
with three angles, which is divided into three cells,
which are filled with roundish seeds.—*Miller*.

2. In Mineralogy. Gem so called; Jacinth.

The *hyacinth* is the same with the lapis leucurus
of the ancients. It is a less showy gem than any of
the other red ones. It is seldom smaller than a seed
of hemp, or larger than a nutmeg. It is found of
various degrees of deepness and paleness; but its
colour is always a dusky red, with a considerable
admixture of yellow; the most usual is that mixed
red and yellow, which we know by the name of
flame-colour.—*Sir J. Hill, On Gems*.
Diamonds, sapphires, rubies, topazes, *hyacinths*,
and chrysoberyls are reckoned the most valuable
gems.—*C. C. Dictionary of Arts, Manufactures, and*
Mines, Gems.

Hyacinthine. adj. Made of, constituted by,
belonging to, resembling hyacinths.

[His] *hyacinthine* locks
Round from his parted forehead mainly hung.
Milton, Paradise Lost, iv. 361.

His curling locks like *hyacinthine* flowers.
Cowper, Translation of the Odyssey.

Hyades. s. pl. [Gr. *ὑάδες*; ὥ = rain.] Con-
stellation so called, and connected by the
ancients with rainy weather.

We may add that it is also usual to distinguish
the Head of Medusa, near Perseus; the Pleiades
upon the back, the *Hyades* upon the forehead, of the
Bull. . . In the description of the shield of Achilles
the immortal poet speaks of the Pleiades, the
Hyades, Orion, the Bear, or Chariot.—*Arago, Popu-*
lar Astronomy, translated by Admiral P. W. M.
Smith and R. Grant, b. viii.

Then first on was the hollowed alder swan;
Then sailors quarter'd heaven, and found a name
For every fix'd and every wandering star;
The pleiads, *hyads*, and the northern car.

Dryden, Translation of the Georgics, l. 807.

Hyaline. adj. [Gr. *ὑάλην*, from *ὑάλος* =
sea-green, also glass; Lat. *hyalus*.]

1. In Medicine. Transparent, clear, and
slightly consistent (i.e. as a jelly). The
older and more common use of the word is
in the derivative form *Hyaloid* = *hyaline*-
like, which is used both as an adjective and
a substantive for the capsule of the vitreous
humour of the eye. From this *hyaline*, a
newer word (meaning 'like the contents of
the *hyaloid*') seems to be derived, rather
than from the original Greek.

Dr. Sankey's own examinations have only as yet
extended to the capillaries, which he believes to be
more or less diseased in every case of general par-
alysis. The most constant appearance is a tortuosity
of these vessels, which may amount to a complex
twisting, or little knots of varicose vessels of a very
complicated kind. Another appearance is a sort of
hyaline deposit, sitting more or less closely around
the capillaries; but it must be observed that neither
of the above morbid changes are confined to general
paralysis.—*Copland, Dictionary of Practical Medicine*.

2. A rhetorical, or poetic, term for the colour
of the sea or atmosphere. Used *substan-*
tively.

Another heaven

From heaven-gate not far, founded in view
On the clear *hyaline*, the blue sea.
Milton, Paradise Lost, vii. 617.

Hyaloid. adj. [Gr. *-ειδής* = like, having the

look, or appearance, (*αἰος*) of anything.] See Hyaline.

Hybrida. s. [Lat. from Greek, *hybrida*.] Cross-breed; mongrel; individual whose parents belong to either different species, or different varieties of the same species.

It is not to be wondered at that in wild nature *hybrida* varieties should be far from uncommon. . . . Saxifraga lutea purpurea of La. Poirson and Saxifraga ambigua of De Caudville are only wild accidental *hybrida* between Saxifraga uredioides and caryophylla.—*Lindley*.

Angles, Jutes, Saxons, and Danes poured into our own country for centuries, but they only came in boat-loads; and, although comparatively numerous, must at all times have been much inferior in number to the native inhabitants. The probability, then, is that we are more British than Teutonic by descent, although, believing ourselves purely the latter, we call ourselves Anglo-Saxons. At the best we are but *hybrida*, yet, probably, not the worse for that. Among the lower animals in the wild state, no *hybrida* are ever produced, and something similar to this, although from a very different cause, is found to be the case in the rude state of human society. There is here a repugnance, amounting, indeed, to hostility, which prevents it.—*J. Crawford, Classification of the Races of Man, Transactions of the Ethnological Society*.

Hybrida. adj. Having the origin, or character, of a hybrid; belonging to the class of hybrids; bastard. Applied, in *Philology*, to words formed of elements from different languages; and, more generally still, to heterogeneous objects of any kind.

We should by all means deal with our separatists, and dissenters, as St. Paul did with those judging *hybrida* Christians. *South, Sermons*, v. 118.

In America, a natural republicanism quickly got rid of the *hybrid* method formerly adopted by the States of New England, and left every form of faith to its own resources. *Gludson, The State in its Relations with the Church*.

The Jews speak the languages of the many races among whom they are settled, and no section of them speaks the language of the Pentateuch, or any modification of it. The Egyptians speak Arabic nearly to the loss of their original tongue. . . . A German tongue with an admixture of Latin, is now the language of the great majority of the people of Britain. . . . Assuredly we do not conclude from these facts that the ancient Egyptians were of the Aryan race, the aboriginal people of France and Spain of Italian, or those of Britain of the Geric. What we should infer, even if we did not know it to be historically true, is simply that the countries in question were late in the occupation of foreign invaders, who mixed their blood largely with that of the original inhabitants, resulting in the production of a *hybrid* population originating in races distinct, yet nearly allied.—*J. Crawford, Classification of the Races of Man, Transactions of the Ethnological Society*.

Hybridism. s. Character, state, or condition of a hybrid.

'Hybrid' is improperly formed; but 'shepherdess,' with the base English and the affix of French origin, is a specimen of *hybridism*.—*Dr. R. G. Latham, English Language*.

Hybridity. s. Same as Hybridism.

These are all well-ascertained instances of *hybridity*.—*Prichard, Physical History of Man*.

Hybridization. s. Rendering hybrid.

The most eminent physiologists seem to be arriving at the opinion that the fertilization of the ovule, as it is termed, consists in the union of a part of the contents of a pollen-grain with certain matter contained in the ovule, and that the embryo originates from this mixed matter. The correctness of this opinion is rendered still more probable by the consideration of what takes place under the circumstances of *hybridization* of species. *Thwaites, Annals of Natural History*, l. n. s. 163.

Hybridizing. verbal abs. Act of hybridization.

The best paper we possess on the practical value of the facts elicited by *hybridizing* is . . . from the pen of the late Dean of Manchester.—*Lindley*.

We can prove the aspirative, and that is by the use of *hybridizing* experiments.—*Dr. Herbert, in Journal of the Horticultural Society*.

Hybridous. adj. Hybrid. Rare.

Why such different species should not only mingle together, but also generate an animal, and yet that that *hybridous* production should not again generate, is to me a mystery.—*Ray*.

Hyd- and Hydro-. This, as may be seen by the entries, is an import prefix. The Greek word, *ὕδωρ* = water, its genitive case being *ὕδατος*; a fact which shows that either the final *p* is no part of the root, or that it

has been got rid of. The vowel, too, which precedes it is long, *-ωπ*. Now, the ordinary rule in compounds from the Greek and Latin, where the substantive is what is called *impariagglabie* (i. e. when the oblique cases have a consonant which is wanting in the nominative), is that it is from the fuller form that the compound is developed. Hence, the derivatives from *ὕδωρ*, and the compounds connected with them, ought to begin, not with *hydro-*, but with *hydut-*. As *Hydatid*, however, is the only word so formed, the others are more accurately derived from the adjectival form, *ὕδατος*, or rather from the root of it.

Hydatid. s. [Gr. *ὕδατος*, *ὕδωρ*, *ὕδατος* = water; Lat. *hydatid*. See Hydro-.] Entozoon (intestinal worm) so called.

All the water is contained in little bladders, adhering to the liver and peritonium, known by the name of *hydatidæ*.—*Wiemann, Nergers*.

The simplest of all forms of these parasites is the *hydatid* or *acanthocyst*. This consists of a vesicle filled with fluid, and apparently possessing no further organization. A careful examining of the wall of this vessel, however, shows that, besides the enveloping cyst, it contains two or more cells, and that in the substance of the inner one are the rudiments of new cells in various stages of growth. These, as they advance in development, project more and more into the cavity of the parent cell, and at last become detached from its wall, and lie loosely within it; shortly before this separation, however, the young *hydatid* is seen to contain smaller cells, which increase in size along with it.—*Carpenter, Principles of Human Physiology*, § 309, l. c. ed. 1861.

Hydatidæ . . . are of an unfrequent occurrence in several of the internal organs of the body. They are called *acanthocystæ*, headless bag. In size they vary from the bigness of a pea to that of a swan's egg. They look like, or rather they are, spherical membranous bubbles filled with a thin colorless liquid which holds in solution a large quantity of common salt. . . . These *hydatid* tumours are more common in the liver than in any other single organ. . . . Minute in their origin, *hydatidæ* may enlarge and multiply till the tumour formed by them attains an enormous size, and at length destroys life by its bulk and pressure. . . . Of course, the direct consequences of the pressure will depend much upon the parts occupied by the *hydatidæ*. You may easily imagine what kind of symptoms are likely to ensue when they are lodged within the abdomen, within the bile yielding thorax, within the myeloid skull.—*Walton, Lectures on the Principles and Practice of Physic*, lect. lxxiv.

Hydra. s. [Gr. *ὕδωρ*; Lat. *hydra* = water-serpent; such being its meaning as a common term. As an English word, however, its origin is rather from *Hydra*, the proper name; the particular *Hydra* of the lake Lerne (the Lernean *Hydra*) being a fabulous monster, snake or dragon, from which as fast as one head was cut off, another shot out afresh. The destruction of this monster was the second labour of Heracles.]

1. From the Lernean *Hydra*; (generally connected with *head*, and suggesting the notion of a many-headed monster; often used adjectivally).

Now rebellion raise
Their *hydra* heads, and the false North displays
Her broken league to imp her serpent wings.
Milton, Sonnets, xv. 6.

The *hydra* of the many-headed hissing crew.
Dryden.

More formidable *hydra* stands within,
Whose jaws with iron teeth severely grin.
Id., Translation of the Æneid, vi. 778.

2. In Zoology. Polype so called. See extracts.

Of the *hydra* or fresh-water polype, two species are commonly known, the *hydra viridis* or green polype, and *hydra fusca*, or brown polype. . . . The body of the *hydra* consists of a stupid bag or sac which may be regarded as a stomach. . . . At the upper end . . . is a ventral opening which is commonly termed the mouth, and this is surrounded by a circle of tentacles or arms, usually from six to ten in number. . . . A striking proof of the simplicity of the structure of the *hydra* is the fact that it may be turned inside out like a glove; that which was before its external orment becoming the lining of its stomach and vice versa.—*Carpenter, Principles of Human Physiology*, § 286.

The relations of the parts may be illustrated thus:—Cut off the finger of a leather glove that has a lining; and let the leather and the lining represent the ectoderm and endoderm of a *hydra*. Thrust the point of the glove-finger back into the cavity, until the introverted portion comes out beyond the open end. Cut off the projecting apex of the introverted portion level with the edges of the open end; and then make the edges of the introverted portion and the outer portion. The arrangement of structures will then typify that which is common to all animals except the protozoa and the lower celenterata: the introverted part representing the alimentary canal; the outer part representing the body; . . . and the closed cavity between the two representing the perivisceral sac. This, however, is not the whole parallelism. If in the glove-finger, representing in its original form the *hydra*, we suppose the leather standing for the ectoderm to be growing outwards, and the lining standing for the endoderm to be growing inwards, then if in the part that is introverted the same relations of growth are maintained, it is manifest that of its two layers the one which was outwards and is now inwards, will grow towards the open cavity which stands for the alimentary canal, while the other layer for the perivisceral sac. And these are the directions of growth actually found in the parts thus symbolized.—*Herbert Spencer*.

Hydragogue. adj. [Gr. *ὕδωρ* = water + *αγω* = lead, bring out, induce.] Having a tendency to induce, or the property of inducing a flow or discharge of water; (specially applied in *Medicine* to a certain purgative medicine which not only brings away fecal matter, but brings along with it a great quantity of liquid matter).

Euterium has a violent *hydragogue* action.—*Pereira, Materia Medica and Therapeutica*.

Hydragogue. s. Hydragogue medicine.

Hydragogue [are] such medicines as occasion the discharge of watery humours; which is generally the case of the strongest cathartics, because they shake most forcibly the bowels and their appendages.—*Quincy*.

Hydrangea. s. Garden plant so called.

Hydrangea may now be planted in pots.—*Abercrombie, Gardener's Journal*, April.

Hydraulic. adj. [Gr. *ὕδωρ*, and *αἰδω* = pipe, tube.] Connected with, relating, applied to hydraulics.

We have employed a virtuoso to make an *hydraulic* engine in which a chemical liquor resembling blood, is driven through elastic channels.—*Arbuthnot and Pope*.

A pressure of five hundred tons may be obtained from a well-made *hydraulic* press with a ten-inch ram and a one-inch set of pumps.—*Ure, Dictionary of Arts, Manufactures, and Mines*.

Hydraulic. adj. Same as *Hydraulic*.

Among the engines in which air is useful, pumps may be accounted and other *hydraulic* machines.—*Dehaan, Physics-Theory*.

Hydraulics. s. See Hydrodynamics.

Hydraulics . . . considers the motion of fluids . . . as distinguished from *hydrostatics*, (likewise in that science which treats of certain machines or engines in which fluids are principally concerned. . . . *Hydraulics* explains the equilibrium of fluids, or the circulation of fluids at rest; upon reasoning that equilibrium, motion ensues; and here *hydraulics* commences. *Hydraulics*, therefore, supposes *hydrostatics*.—*Eurypodius Metaphysica*.

Galileo, in a treatise entitled *Dele Cose due stanno nell' Acqua*, lays down the principles of *hydraulics* already established by Stevin, and among others what is called the *hydraulic* paradox. Whether he was acquainted with Stevin's writings may be perhaps doubted; it does not appear that he mentions them. The more difficult science of *hydraulics* was entirely created by two disciples of Galileo, Castelli and Torricelli. It is one every where of high importance, and especially in Italy. The work of Castelli, *Della Misura dell' Acque Corrente* and a continuation, were published at Rome in 1628. His practical skill in *hydraulics*, displayed in carrying off the stagnant waters of the Arno, and in many other public works, seems to have exceeded his theoretical science. An error into which he fell, supposing the velocity of fluids to be as the height down which they had descended, led to false results. Torricelli proved that it was as the square root of the altitude.—*Hallam, History of the Literature of Europe during the fifteenth, sixteenth, and seventeenth Centuries*, pt. ii. c. viii.

Hydrocele. s. [Gr. *ὕδωρ* = water.] Dropsy of the testicle.

In the local variety of dropsy that is called *hydrocele*, the re-accumulation of liquid is sometimes prevented by exciting just so much inflammation of the membrane as may cause its opposite surfaces to adhere; whereby, the cavity itself being abolished.

any return of the disease is required impossible.—*Watson, Lectures on the Principles and Practice of Physic*, lect. 26.

Hydrocephalic, *adj.* Relating to, connected with, constituted by, Hydrocephalus.

The children of such families often die in infancy or early youth; are frequently scrofulous, and are liable to *hydrocephalic* and convulsive diseases; and, if they grow up, are frail in body and imbecile in mind, or predisposed to mental disorders.—*Copland, Dictionary of Practical Medicine*.

Hydrocephalus, *s.* [Gr. *κεφαλή* = head.] Dropsy in the head. See extracts.

A *hydrocephalus*, or dropsy of the head, is only incurable when the serum is extravasated into the ventricles of the brain.—*Arbuthnot, On the Nature and Choice of Aliments*.

When the cerebral ventricles are distended with water, we express the diseased condition by the term *hydrocephalus*; when serum liquid collects in the pleura or in the pericardium, we say that the patient has *hydrothorax* or *hydropericardium*.—*Watson, Lectures on the Principles and Practice of Physic*, lect. 27.

Hydrochloric, *adj.* In Chemistry. Constituted by the combination of hydrogen and Chlorine. See Muriatic.

When heartburn is attended by rancid, septic, or insipid eructations, the mineral acids, as the nitric, the *hydrochloric*, and the aromatic sulphuric acids, given in simple camphor, or aromatic water, or in suitable tonic infusions, will be most serviceable.—*Copland, Dictionary of Practical Medicine*.

A concentrated aqueous solution of this [*hydrochloric*] acid has long been known under the name of spirit of salt and of marine or muriatic acid; but in the purer form of gas it was discovered in 1774 by Priestley. . . . One of the most striking properties of *hydrochloric* acid gas is its powerful attraction for water.—*Turner, Elements of Chemistry*, p. 273.

Hydrocyanic, *s.* In Chemistry. Constituted by the combination of hydrogen and Cyanogen. See Prussic.

Cyanogen unites as a compound radical with oxygen, hydrogen, and most other non-metallic elements; and also with the metals; many of the latter compounds are similar to the haloid salts, but others . . . possess a perfectly distinct character. . . . *Hydrocyanic* acid, prussic acid, discovered by Scheele (for a knowledge of its nature and chemical properties we are indebted to Gay-Lussac), is a constituent of the water distilled from the leaves and blossoms of several stone-fruits; . . . its vapour, when inhaled, instantly acts as a most powerful poison.—*Turner, Elements of Chemistry*, pp. 724-730.

Hydrodynamies, *s.* [Gr. *δύναμις* = power; *δυναμικός* = having, relating to, power.] That branch of general Mechanics which considers the equilibrium and motion of fluids.

The terms *hydrostatics* and *hydrodynamics* have corresponding significations to the *statics* and *dynamics* in the mechanics of solid bodies; viz. *hydrostatics* is that division of the science which treats of the equilibrium of fluids, and *hydrodynamics* that which relates to their forces and motion. It is, however, very usual to include the whole doctrine of fluids under the general term *hydrodynamics*, and to divide the divisions relative to their equilibrium and motion by the terms *hydrostatics* and *hydrodynamics*. *Hydrostatics* is that branch of *hydrodynamics* which relates to the equilibrium and pressure of fluids. . . . *Hydraulics* treats of the phenomena attending the motion of fluids.—*Encyclopædia Metropolitana*.

Hydrogen, *s.* In Chemistry. Elementary substance so called; in combination with oxygen, a constituent of water (whence its name *Hydro* + the root of *γεννέω* = beget, produce).

Hydrogen was first correctly described in 1766 by (Avogadro), under the name of inflammable air. It had been previously confounded with other combustible gases, and was called phlogiston, with the notion that it is the matter of heat. . . . [It] is colourless, inodorous, tasteless; always gaseous when uncombined; a powerful refractor of light; the lightest body in nature, and hence the best material for filling balloons.—*Turner, Elements of Chemistry*, p. 187; 1847.

Men are not, when brought together, converted into another kind of substance, with different properties; as *hydrogen* and oxygen are different from water, or as *hydrogen*, oxygen, carbon, and azote, are different from urea, mucus, and tendons. Human beings in society have no properties but those which are derived from, and may be resolved into, the laws of the nature of individual man.—*Ibid.*, b. vi. ch. vii. § 1.

• Sir H. Davy, from finding that the flame of *hydrogen* gas was not communicated through a long slender tube, conjectured that a shorter but still

slenderer tube would answer the same purpose; this led him to try the experiment, in which, by continually shortening the tube, and at the same time lessening its bore, he arrived at last at the wire-gauge of his safety-lamp.—*J. S. Mill, System of Logic*, b. iv. ch. ii. § 4.

Hydrographer, *s.* One who employs himself in hydrography; one who investigates or illustrates the geography, or topography, of the sea.

It may be drawn from the writings of our *hydrographer*.—*Boyle*.

Hydrographical, *adj.* Relating to maps or charts, which represent the sea-coast, rocks, islands, shoals, shallows, and the like.

Christopher Columbus, the first great discoverer of America, was a man that carried his living by making and selling *hydrographical* maps.—*Chambers*.

Hydrography, *s.* [Gr. *γράφω* = write, describe.] Description of the waters (especially the marine and oceanic) parts of the terraqueous globe; system of survey of particular coasts and seas; maritime surveying.

For the reception of which waters he had prepared a channel, low deep, or how great a part of the earth is filled with them, I suppose is beyond this man's skill in philosophy or hydrography to determine.—*Bishop Croft, Animadversions on Dr. T. Burnet's Theory of the Earth*, p. 54.

Hydromancy, *s.* [Gr. *μάντις* = prophecy.] Prediction by water.

Divination was invented by the Persians; there are four kinds of divination: *hydromancy*, *pyromancy*, *areomancy*, and *geomancy*.—*Agiliff, Parnassus Juristicus*.

The origin of *hydromancy* is ascribed by Varro to the Persians, and Numa is said to have recourse to it for instruction how he should settle the ceremonies of religion.—*Brady, Dictionary of Science, Literature, and Art*.

Hydromel, *s.* [Gr. *ὕδωρ* + *μέλι* = honey.] Drink, or beverage, composed of honey and water.

Hydromel is a drink prepared of honey, being one of the most pleasant and universal drinks the northern part of Europe affords, as well as one of the most ancient.—*Mortimer*.

In fœtus the elements prescribed by Hippocrates were ptisan and cream of barley; *hydromel*, that is, honey and water, when there was no tendency to a delirium.—*Arbuthnot, On the Nature and Choice of Aliments*.

Hydrometer, *s.* [Gr. *μέτρον*, *s.*; *μετρίω*, *v.*; measure.] Instrument to measure certain qualities of water (generally its specific gravity).

Hydrometer is an instrument for ascertaining the specific gravity of liquids. Reaumur's *hydrometer*, which is much used in France and other countries of the continent of Europe, when plunged in pure water of the specific gravity of 50° Fahrenheit, marks (upon its scale) in a solution containing fifteen per cent. of common salt and eighty-five of water by weight, it marks 15°, so that each degree is meant to indicate corresponding with one per cent. of that salt.—*Vee, Dictionary of Arts, Manufactures, and Mines*.

Hydrometry, *s.* Measurement (of the specific gravity) of water.

In . . . 1626 he [Donaldeo Guallatin] was made professor of mathematics, and four years afterwards a new chair was created for him, under the title of that of *hydrometry*, which, from that period, was accounted deserving of being ranked among the cultivated sciences.—*Cressy, Encyclopædia of Civil Engineering*, p. 298; ed. 1854.

Hydrophobic, *adj.* Connected with, relating to, Hydrophathy; (as, 'a *Hydrophobic* establishment').

Hydrophatist, *s.* One who practises, one who puts faith in the practice of, Hydrophathy.

(For example see extract under next entry.)

Hydrophathy, *s.* [Gr. *πάθος* = suffering.] Treatment of diseases by water.

He has tried both *hydrophathy* and homeopathy . . . has now settled into a confirmed *hydrophatist*.—*Sala, Dutch Pictures*.

Hydrophobia, *s.* [Gr. *φόβος* = fear.] Dread of water; specially applied to it in Medicine as a symptom in the disease caused by the bite of a mad dog.

Among those dismal symptoms that follow the bite of a mad dog, the *hydrophobia* or dread of water is the most remarkable.—*Quincy*.

The pathognomonic signs [of *hydrophobia*] are,—cramps of the muscles of the pharynx and thorax; spasmodic action of the diaphragm; a great dread of fluids; a recurrence of paroxysms of ptyalism on attempting to drink, or on exposure to a current of air; the flow of viscid saliva (*hydrophobic* saliva), delirium, exultation, and generally death. A person, we will suppose, is bitten by a rabid animal. After an interstital interval, called the stage of incubation or the latent period, complaint is made of mental uneasiness, chilliness, languor, and lassitude; there is restlessness also, loss of appetite, and more or less headache. Sometimes a sensation of numbness, or even of great soreness, in the bitten part is experienced, but in any case the precursory symptoms are followed in two or three days by the confirmed stage of the disease. This commences generally with garrulity, peculiar sighings, moans, and fever; to which succeed stiffness of the neck, difficulty of breathing and swallowing, a horror of liquids, an alarming sense of suffocation, and an excessive secretion of tenacious saliva causing frequent hawking and spitting. There now set in violent spasmodic contractions of the whole body; the paroxysms being occasioned especially by the sight of liquids, or the sound of running water, or any attempt at drinking. . . . The stage of incubation in *hydrophobia* may be said to vary from thirty days to eighteen or twenty months; the duration perhaps depending upon the virulence and quantity of the poison, as well as upon the constitution and age of the party inoculated. The period appears to be shorter in very young persons than in those more advanced in years. Cases are recorded where the symptoms have set in as early as the eighth day; but others are known in which their appearance has been delayed for four, five, and seven years. In one instance related by Dr. Harsley it is said that twelve years intervened between the bite and the first *hydrophobic* symptoms.—*Thomson, Practice of Medicine*, pt. i. iv.

Hydrophobic, *adj.* Connected with, relating to, Hydrophobia.

(For example see extract under preceding entry and Hyperæsthesia).

Hydrophoby, *s.* Hydrophobia, of which it is the more vernacular though less common form.

A letter from Dr. Lister to Mr. Asdon, dated at York, March 26, 1853, was produced, containing an account of an *hydrophoby* in a man bitten by a mad dog.—*Birch, History of the Royal Society*, iv. 107.

Hydriole, *adj.* Dropsical.

The world's whole map is sunk:
The general bath the *hydriole* earth hath drunk.

Donne.
Every lust is a kind of *hydriole* distemper, and the more we drink the more we shall thirst.—*Archbishop Tillotson*.

Hydriole wreathen by degrees decay,
(Giving the more, the more they waste away;
By their own ruin they augmented lie,
With thirst and heat amidst a deluge fry.

Sir E. Blackmore.

Hydriole, *s.* Dropsical person.

Our sort of remedy he uses in dropsies, the water of the *hydriole*.—*Arbuthnot*.

Hydriole, *adj.* Same as Hydroptic.

Causticities heat the watery parts of the body; as urine, and *hydriole* water.—*Bacon, Natural and Experimental History*.

Hydriole swellings, if they be pure, are pollicid.

—*Wise, Surgery*.

Hydropsy, *s.* Dropsy.

Soft-swollen and pale, here lay the *Hydropsy*,
Unwieldy man, with belly monstrous round.

Thomson, *Castle of Indolence*.

Hydroscopic, *s.* [Gr. *σκοπέω* = see, observe.]

Instrument for measuring the dampness, or moisture, of the air, or a gas.

It seems to me if a statistical *hydroscope* could be had, it would be very convenient in regard to its fitness, both to determine the degree of the moisture or dryness of the air, and to transmit the observations made of them to other.—*Boyle*, vol. i. p. 788. (Rich.)

Hydrostatic, *adj.* Connected with, relating to, Hydrostatics.

This character of specific gravity may be applied by any person of common intelligence, with the aid of a small *hydrostatic* balance.—*Vee, Dictionary of Arts, Manufactures, and Mines*, *Ure*.

It is hardly to be expected that the above reasoning will, at first sight, produce conviction in the mind of the reader, except he have . . . followed, with clear and steady apprehension, some of the trains of reasoning by which the pressures of fluids are determined; as, for instance, the explanation of what is called the *hydrostatic paradox*.—*Whewell*.

Hydrostatics, *s.* [Gr. *στάσις*, *στάσις* = from

root of *stiv* = stand.] See Hydrodynamica.

His [Boyle's] incomparable treatises of the air and hydraulics.—*Bentley, Sermons*, vii.

The lofty column of water issuing out of the trumpet of Fame, exceeded all our conceptions of the power of hydraulics.—*Swinburne, Travels through Spain*, let. 43.

The first discovery made in hydraulics since the time of Archimedes is due to Stevinus. He found that the vertical pressure of fluids on a horizontal surface is as the product of the mass of the vessel by its height, and showed the law of pressure even on the sides.—*Hutton, History of the Literature of Europe during the fifteenth, sixteenth, and seventeenth Centuries*, pt. ii. ch. viii. § 20.

Hydrostatical. adj. Same as Hydrostatic.

A human body forming in such a fluid, will never be recomable to this hydrostatical law: there will be always something lighter beneath, and something heavier above; because, hence, the heavier in specie, will be ever in the midst.—*Bentley*.

Hydrostatically. adv. According to hydrostatics.

The weight of all bodies around the earth is ever proportional to the quantity of their matter: as for instance, a pound weight, examined hydrostatically, ... doth always contain an equal quantity of solid mass.—*Bentley, Sermons*, vii.

Hydrostatician. s. Investigator of hydrostatics.

It is known to hydrostaticians that, according to a theorem of Archimedes, the weight of a body belonging to that kind may be gathered from the weight of the water, that is equal in magnitude to that part of the body that is immersed in that liquor when the said floats freely upon it.—*Hughes*, vol. vi. p. 482. (Rich.)

Hydrotic. s. Hydragogue, the latter being the commoner term; purger of water or phlegm.

He seems to have been the first who divided purges into hydrotics and purgers of bile. —*Arcthot, Tables of ancient Chins, Weights, and Measures*.

Hyena. s. Hyena. Rare, or a misprint.

I will weep when you are disposed to be merry; I will laugh like a hyena, when you are inclined to sleep. —*Shakespeare, As you like it*, iv. 1.

Hyena. s. [Gr. *hyena* = animal so called.

A wonder more amazing would we find; The hyena shows it, of a double kind: Varying the sexes in alternate years, In one begets, and in another bears.

Dryden, Fables.

The hyena was indeed well joined with the lever, as having also a lag in those parts, if thereby we understand the hyena odorata, or civet cat.—*Sir T. Browne, Vulgar Errors*.

The keen hyena, fellow of the fell. —*Thomson*.

Hyetographical. adj. Connected with Hyetography.

Independent of anomalies, we observe that the amount of rain diminishes as we recede from the equator. This fact has led meteorologists to divide ... our globe into hyetographical regions.—*D. P. Thompson, Introduction to Meteorology*, § 150.

Hyetography. s. [Gr. *hyet* = rain + *graphein* = describe.] Description of the phenomena and causes of rain-fall.

The rain-gauge ... one of the most important instruments in hyetography.—*D. P. Thompson, Introduction to Meteorology*.

Hygiene. s. [Gr. *hygie* = goddess of health, health.] See extract.

Hygienic remedies are [the] remedies derived from the department of hygiene. Under the absurd name of non-naturals the ancients included six things necessary to health; but which, by accident or abuse, often became the cause of disease, viz. Air, Aliment, Exercise, Excretion, Sleep, and Affections of the mind. These are now denominated hygienic agents.—*Pereira, Elements of Materia Medica and Therapeutics*, p. 60: ed. 1840.

Hygienic. adj. Relating to, connected with, constituted by, consisting in, hygienic: (often opposed to Therapeutic).

(For example see preceding entry).

Hygienical. adj. Same as Hygienic.

Things relating to the hygienical part of physics.—*Boyle*, vol. ii. p. 183. (Rich.)

Hygology. s. [Gr. *hygie* = doctrine of the phenomena and causes of the moisture of the atmosphere.

[On the sea.] we approach the chief problems of hygology in their least complicated form.—*Sir J. W. Lubbock, Manual of Scientific Enquiry*, vol. ii. Meteorology.

Hygrometric. s. [Gr. *hypos* = wet, moist, and

metron, *s.*, *metron*, *r.* = measure.] Instrument to measure the degrees of moisture.

I have news from Paris, that a friend of his has found out a very sensible hygrometer, which, besides marking the moisture of the air, will also be improved to wind up a pendulum: which, if it succeeds, will be a kind of perpetual motion.—*Boyle*, b. vi. 301. (Rich.)

A sponge, perhaps, might be a better hygrometer than the earth of the river. —*Arcthot, On the Effects of Air on human Bodies*.

A great many hygrometers have been invented; but they may all be referred to three principles. The construction of the first kind of hygrometer is founded upon the property of some substances of expanding in a humid atmosphere, owing to a deposition of moisture within them; and of contracting it again in a dry air, and in consequence contracting. ... The second kind of hygrometer points out the opposite states of dryness and moisture by the rapidity of evaporation. ... The third kind of hygrometer is on a principle entirely different from the foregoing. ... It is desirable on some occasions and merely to know the hygrometric condition of air or gases, but to deprive them entirely of their vapour. —*Turner, Elements of Chemistry*, p. 40-51.

Hygrometric. adj. Relating to, connected with, constituted by, Hygrometry.

It is true that from meteorologic causes, inanimate objects are daily, sometimes hourly, undergoing modifications of temperature, of bulk, of hygrometric and electric condition. —*Herbert Spencer, Data of Biology*, § 23.

If, as is manifest, the state of an organism is constantly affected by the state of its environment—if, as we know to be the fact, the changes of temperature, composition, and also those mechanical actions, and those variations of its visible structure which occur in it, are liable to stop the processes going on in the organism; and if, as is seen in the instances hourly afforded, the changes that take place in the organism have the effect of directly or indirectly counterbalancing these changes in the environment; then, it follows that the life of the organism will be short or long, low or high, according to the extent to which changes in the environment are met by corresponding changes in the organism. —*Ibid.* § 121.

Hygrometry. s. Science and art of determining the atmospheric air or gases; measurement of moisture.

Hygrometer, or hygrometer [is] an instrument for measuring the degrees of moisture in the air. Hygrometry is the science of the measurement of the moisture of the air, with the principles on which hygrometers are constructed. Hygrometric substances have their humidity always proportionable to the places they are in ... hygrometric—belonging to the art of determining the specific weight of moist bodies ... hygrometric [is] the science of comparing degrees of moisture.—*Wilkes, Encyclopaedia Londinensis*.

Hygroscope. s. [Gr. *skopein* = see, view, spy, observe.] Instrument to show the moisture and dryness of the air, and to measure and estimate the quantity of either extreme.

(For example see under Hygrometry.)

Hygroscoptic. adj. Having affinity to water.

Hygroscoptic substances have their humidity always proportionable to the places they are in.—*Adams*.

Hygrostatic. adj. Connected by Hygrostatics.

Hygrostatic. s. Hygology.

(For example see Hygrometry.)

Hylosauras. s. [Gr. *hylos* = wood, connected with, relating to, wood + *sauros* = lizard.] In Paleontology. See extinct; also Ichthyosaurus.

The hylosaurus (or lizard of the World) appears to have been a land saurian of very large proportions (probably as much as fifteen feet in length), and covered with scales or dermal plates of moderate size and elliptical shape, which seem to have irregularly covered the skin.—*Austen, Geology, Introductory, Practical, and Scientific*.

Hylotheical. adj. [Gr. *hyla* = wood; and, in a secondary sense, matter.] In Portuguese *madeira* = wood or timber, is derived from the Latin *materia* = matter. In all the compounds, with the exception of the one which immediately follows (Hylozoismus), and which is a newly coined word, this secondary meaning prevails, the words in which it occurs belonging to the domain of speculative philosophy.] Presiding over matter.

By this hylotheical principle, or plastic nature, I

so many of the vital motions of the body may be kept in play. —*Hallivell, Metamorphosis*, p. 70: 1881.

Hylozoic. adj. [Gr. *hyla* = life.] Connected with, relating to, constituted by, the doctrine of Hylozoism.

The to which the hylozoic corporealists pay all in. Hylozoism is a certain blind atheism or god-called Nature, or the life of matter.—*Cudworth, Intellectual System*, p. 106. (Rich.)

When they [Spinoza and his followers] speak of the intelligence and knowledge of God, they mean to attribute these powers to him in no other sense than the ancient hylozoists attributed them to all matter; that is, that a stone, when it falls, has a sensation and consciousness; but that that consciousness is no cause at all, or power of acting. Which kind of intelligence, in my tolerable propriety of speech, is no intelligence at all. And consequently the arguments that proved the Supreme Cause to be properly an intelligent and active being, do also undeniably prove that he is likewise indwelt with liberty and choice; which alone is the power of acting.—*Locke, On the Abstractedness*, § 2.

Hylozoical. adj. Hylozoic.

There hath been already mentioned another form of Atheism called by us hylozoical.—*Cudworth, Intellectual System*, p. 106. (Rich.)

Hylozism. s. Doctrine by which life, or divine character, was attributed to matter, or the world. See Pantheism.

Hylozism makes all body, as such, and therefore every smallest atom of it, to have life essentially belonging to it.—*Cudworth, Intellectual System*, p. 103. (Rich.)

Hylozist. s. Supporter of Hylozoism.

And from thenceforward I do descend also further to hylozism ... we ought not to overvalue every hylozist, professing to hold a deity and a rational and immortal for a mere disguised atheist or a counterfeited historical theist.—*Cudworth, Intellectual System*, p. 106. (Rich.)

Hyman. s. [Gr. *hyman* = membrane.]

1. God of marriage.

He wore a garland of roses and myrtles on his head, and on his shoulders a robe like an imperial mantle, white and unspiced all over, excepting only that, where it was clasped at his breast, there were two golden turtle-doves that intoned it by their bills, which were wrought in rubies. He was called by the name of Hyman, or Hyman, or Hyman.

Hyman, a married immortal, or Love; and, seconding the good inclinations which he had inspired, bound the hands of both brides.—*Addison, Quinlan*, no. 132.

2. Virginal membrane.

Hymanal. adj. Connected with Hyman as the god of marriage.

Chorus hymanal
Two triumphal chant,
Matched with thine would be all
But an empty want.

A thing wherein we feel there is some hidden want.
Shelley, To a Skylark.

Hymanical. s. [Gr. *hyman* = marriage song.

For her the spouse prepares the bridal ring,
And her white virgins hymenals sing. —*Pope*.

Hymanean. s. Same as Hymanal.

... in close recess
With flowers, garlands, and sweet-smelling herbs,
Espoused Eve deck'd first her nuptial bed,
And heavenly chime the hymanean sung.
Milton, Paradise Lost, iv. 706.

Hymanoptera. s. [Gr. *hyman* = membrane, and *pteron* = wing.] In Entomology. Name of a class of insect. See extract.

The insects which have four membranous wings simply veined, and crossing each other horizontally when at rest, form the order Hymanoptera: they undergo a complete metamorphosis, and include the most useful of insects, e.g. the bee. ... The insects which have the anterior pair of wings in the condition of the hemelytra, form the order Hemiptera; but certain genera have the dense part of the anterior wings reduced to so small a strip, that they are scarcely distinguishable, except by size, from the posterior pair, and these insects constitute a section of the order termed Homoptera.—*Owen, Lectures on Comparative Anatomy*, lect. xvi.

Hyman. s. [Gr. *hyman* = encomiastic song, or song of adoration to some superior being.

As I earnest, in praise of mine own dame,
So now in honour of thy mother dear.
An honourable hyman I take should frame.
Our solemn hyman to solemn dirges change;
Our bridal flowers serve for a buried corpse.
Shakespeare, Romeo and Juliet, iv. 5.

When steel crosses
Soft as the parrot's silk, let hyman be made
An overture for the wars. —*Id., Cato*, l. 9.
There is an hyman song; but the subject of it is
always the praises of Adam, and Noah and Abraham,
concluding ever with a thanksgiving for the
nativity of our Saviour.—*Bacon*.

Farewell, you happy shades,
Where angels first should practise hymns, and string
Their funeral harps, when they to Heaven would
sing. *Dryden.*

Hymn. v. n. Praise in song; worship with hymns.

Whose easier labours were to serve their Lord
High up in heaven, with songs to hymn his throne.
Milton, Paradise Lost, iv. 947.

Alexander came to a rilly colled, Nysa, which
banded of Dionysus as its founder, and, as evidence
of the fact, showed the ivy and laurel which he had
planted. . . . And near the city was the mountain
which he had named Meros, or Mera, in memory of
his marvellous birth. The Meroclausians, it is said,
made a pilgrimage to the mountain, wore them-
selves chaplets of the ivy that grew in the thickets
on its sides, and joyfully hymned the heart-cheering
Power. *Bishop Thirlwall, History of Greece, ch. liii.*

Hymn. v. n. Sing songs of adoration.
They touch'd their golden harps, and hymning
prais'd
God and his works. *Milton, Paradise Lost, vii. 938.*
He had not left alive this patient saint,
This mild of affluents, but sent him hence
To hold a peaceful branch of palm above,
And hymn'd in the quire. *Dryden, Spanish Friar.*

Hymnic. adj. Relating to hymns.
Where she (fair halle) tuning her chaste layes
Of England's enjowment to her hymnicke string.
Mirror for Magistrates, p. 773.
He rounds the air, and breaks the hymnic notes
In birds, heaven's choristers, organick thrushes.

Hymning. verbal abs. Song, or music, con-
sisting of hymns; choir engaged on hymns.
Thus they in heaven above the starry sphere
Their happy hours in joy and hymning spent.
Milton, Paradise Lost, iii. 416.

Hymnology. s. [Gr. *hymos* = word, doctrine,
principle.] System, collection, or arrange-
ment, of hymns (specially church music).
That hymnology which the primitive church used
at the offering of bread and wine for the eucharist.
Made, Diet. Bibl., p. 141.

Even in the hymnology of the Latin church, her
lyric poetry, it is remarkable that, with the rever-
sion of the Te Deum, these hymns, which have
struck as it were, and cloven to the universal heart
of Christendom, are mostly of a late period. . . .
Much of it, no doubt, like the lyric verse of the
Greeks, was twin-born with the music; it is inseparably
wedded with the music; its cadence is
musical rather than metrical. It succeeds, as it
were, the grave full tones of the chant, the sustained
grandeur, the glorious thirst, the tender fall, the
mysterious dying away of the organ. It must be
heard, not read. Decompose it into its elements,
coldly examine its thoughts, its images, its words,
its versification, and its magic is gone. . . . Its pro-
found religiousness has a charm to foreign ears,
wherever there is no stern or impassionate resistance
to its power. In fact, all hymnology, vernacular as
well as Latin, is poetry only to unprejudiced or imbi-
tated ears. *Milman, History of Latin Chris-
tianity, b. xiv. ch. iv.*

Hyoid. adj. and s. [like *y*, the form of the
Greek letter *Y*, *u*-psilon.] In *Anatomy*.
Bone so called; in man, the bone between
those of the lower jaw and the collar-bones,
i. e. the bones of the throat chiefly support-
ing the root of the tongue.

In the *hyoid* bone, simple as its form is in man,
there are no fewer than five centres of ossification,
one for the body, one for each of the great cornua,
and one for each of the lesser cornua. *Carpenter, Principles of Physiology.*

Hyoidal. adj. Connected with the hyoid
bone.

(For example see under *Howler*.)

Hyoscyamus. s. [Lat. from Greek *ἵος*, *hios* =
sow, swine, and *σῆμα* = bean.] Henbane;
for which it is the medical term.

The treatment should consist mainly of attention
to the digestive functions and state of the bowels
to the exhibition of quinine with camphor and
hyoscyamus, the preparations of bark with the
alkalies of mineral acids, or the preparations of
iron; and to the external application of the tere-
binthinate ointment or embrocation already noticed.
Copland, Dictionary of Practical Medicine.

Hyper-, Hype-, and Hyper- The first of
these forms is merely an abbreviation of
the second, which is used when the word
which follows begins with a vowel. It is
the Greek for *under*. *Hyper*, on the other
hand, is the Greek for *over*. Word for
word, they are the same as the Latin *sub*
and *super*, to which the remarks here

made may be extended. With all four the
import, as the element of a compound, is
of a twofold character. The word meaning
under or *over* may be—

1. Purely and simply a Preposition or
Adverb of place, as it is in such English
words as *underground*, *overhead*. Or it
may—

2. Denote degree, as in such English
combinations as *under-done*, *over-done*.

Hyperbale. s. [Gr. from root of *ὑπάλλασ-
σω* = leave under.] Figure by which words
change their cases, tenses, or relations with
each other.

Now these graces he requir'd as carefully to be
kept as providently gotten, and admonishing that they
forake us not, speaking by an *hyperballe*, he gives us
a caveat that we forsake not them and withall teacheth
how ready to bee gone from us. *Glacier, On Pro-
verbs, p. 33. (Orl MS.)*

Hyperaspist. s. [*Gr. ὑπερασπίς* = shield-bearer,
ἀσπίς = shield.] Defender.

I appeal to any indifferent reader, whether G. M.
be not by his *hyperaspist* forsaken in the plain libel.
Chillingworth, Works, p. 201. ed. 1704.

The *hyperaspists* of the ancients bestrode their
fellows fallen in battle, and covered them with their
shields. *Warburton, Note on Marketh.*

Hyperbaton. s. [Gr.; root of *παίρω* = go.]
Figure in writing, when the words are
transposed from the plain grammatical
order.

If your meaning be with a violent *hyperbaton*
to transpose the text. *Milton, Antiochianus upon a
Defence of the Humble Remonstrance.*

The words are at times so transposed as to create
an *hyperbaton*. *Durrell, Critical Remarks on Job,*
preface.

Hyperbola. s. [Gr.; root of *βάλλω* = throw;
the Latin rather than the Greek form.]
See extract.

[A *hyperbola*] in geometry [is] a section of a cone
made by a plane, so that the axis of the section in-
clines to the opposite leg of the cone, which in the
parabola is parallel to it, and in the ellipse inter-
sects it. The axis of the hyperbolic section will
meet also with the opposite side of the cone, when
produced above the vertex. *Harris.*

Had the velocities of the several planets been
greater or less than they are, or had their distances
from the sun, or the quantity of the sun's matter,
and consequently his attractive power been greater
or less than they are now, with the same velocities,
they would not have revolved in concentric circles,
but have moved in *hyperbolas* very eccentric.

Booth.
A conic section in the locus of a point, whose dis-
tances from a fixed point and a straight line, given in
position, are to each other in a constant ratio. . . .
[the ratio] may be either a ratio of equality, or of lesser
or greater inequality. . . . The *hyperbola* is the locus
of a point, whose distance from the focus is always
greater, in a given ratio, than its distance from the
directrix. *Encyclopædia Metropolitana, Conic Sec-
tions.*

Hyperbole. s. [see *Hyperbola*; the Greek
rather than the Latin form.] Figure in
rhetoric by which anything is increased or
diminished beyond the exact truth: (as,
'He runs faster than lightning').

Which, from the tongue of roaring Typhon dropt,
Would seem *hyperbole*.
Shakespeare, Troilus and Cressida, i. 3.

Taffeta phrases, silken terms, jewels,
Three-pill'd *hyperboles*, spruce affectation,
Figures pedantical, these summer flies,
Have blown the fall of unquested ostentation.

St. Lee's Labour's lost, v. 2.
Hyperboles, no daring and so bold,
Disabling bounds, are yet by rules controull'd
Above the clouds, but yet within our sight,
They mount with truth, and make a tow'ring flight.

The common people underrate rallery, or at
least rhetoric, and will not take *hyperboles* in too
literal a sense. *Swift.*

The *hyperbole* of Juliet seemed to be verified with
respect to him. 'Upon their brows shame was
admitted to sit.' *Mauclay, Critical and Historical
Essays, Lord Bacon.*

Hyperbolic. adj. Belonging to the hyper-
bola; having the nature of a hyperbola.

Conciliated in the middle with squares, with
triangles before, and behind with *hyperbolic* lines.
Green, Mæneum.

Hyperbolic. adj. [from *hyperbola*.] Having
the character of a hyperbola.

The horny or pellucid coat of the eye riseth up, as
a hillock, above the convexity of the white of the
eye, and is of an *hyperbolic* or parabolical figure.
*Ray, Wisdom of God manifested in the Works of
the Creation.*

Hyperbolic. adj. [from *hyperbole*.] Exag-
gerating or extenuating beyond fact.

An *hyperbolic* liar, a flatterer, a parasite. *Bur-
ton, Anatomy of Melancholy*: to the reader.
Look upon vices and vicious objects with *hyper-
bolic* eyes, and rather enlarge their dimensions,
that their unseen deformities may not escape thy
sense. *Sir T. Browne, Christian Morals, lib. 3.*

It is parabolical, and probably *hyperbolic*, and
therefore not to be taken in a strict sense. *Boyle.*
'Perhaps,' says Sallust, 'with the exception of
Ariosto, no one has been more a poet by nature than
he [Marin], a praise, however, which may justly
seem *hyperbolic* to those who recall their attention
to the highest attributes of poetry.' *Hallam, Intro-
duction to the Literature of Europe in the fifteenth,
sixteenth, and seventeenth Centuries, pt. iii. ch. v.*

Hyperbolism. s. Hyperbolic character.

Some particular expressions are found in it, which,
with all the allowance that can be made for the
hyperbolism of the oriental style, are not easily ap-
plicable to the parties, even in a royal marriage. *Bishop Horley, Sermons. (Orl MS.)*

Hyperbolist. s. One who hyperbolizes.

I came to think the Psalmist an *hyperbolist* for
comparing the transcendent sweetness of God's
Word to that inferior one of honey, which is like it
in nothing more, than in that of both, their sweetness
experience gives much advantage over notions than
descriptions can. *Boyle, On the Style of Holy
Scripture, p. 263.*

Hyperbolize. v. n. Speak or write with
exaggeration or extenuation.

You have heard . . . how some of the ancientest
fathers do speak, and how they *hyperbolize* some-
times, in some points, in their popular sermons. *Bishop Montagu, Appeal to Caesar, p. 290: 1625.*

The Spanish traveller was so habituated to *hyper-
bolize*. *Harell, Instructions for foreign Travel,*
p. 178.

Which if but a rhetorical flourish, doth yet *hyper-
bolize* into blasphemy. *Parker, Holy War, p. 246.*

Hyperbolize. v. n. Exaggerate; mention
in a hyperbolic manner; reduce to a hyper-
bole.

Vain people, *hyperbolizing* his fact, . . . he grew
by their flattery into that uselessness of conceit. *Putherby, Atheomastix, p. 203: 1622.*

Hyperborean. adj. [Lat. and Gr. *Boreas* =
the north wind; God of the North Wind;
a proper rather than a common name.]
Northern.

Another property of an excellent language is the
generality, or large extent thereof, wherein our
tongues within Christendom may compare with
ours. For the German, of whom our shores (the
Mænon, Jutia, and Angles) are a part, have used
themselves, and their Teutonic tongue, (though in
divers dialects, which ting both caused,) throw
all High and Low German, their primitive habitation;
but also in divers other countries, where their
victorious hand, enlarging still their territories, hath
enslaved them; as in Denmark, Sweden, Lapland,
Finland, Gotland, Norway, England, and the East
Part of Scotland, even from Harwick to the Or-
kneys, now the Isles of Orkney: which the very lan-
guage, differing but little in dialect from the North-
ern or older English, doth shew. And therefore
the Highland or Western Scots, (which include
are the right Scots, speaking the Scottish or Irish
tongue,) do call the Easterlings or Lowland-men
(as the Welsh do us) Saxons or Mænon. Likewise
in the other Northern Isles; as Greenland, Feroe-
land, Iceland, &c. even to the *hyperborean* or frozen
land.

Neither only these Northern parts, but the
South countries also, wheresoever they set their
foote, have yielded to their puissance; Africa,
subdued by their Franks and Norium; Africa,
overrun by their Vandals; and Italy, by their Lombards,
Goths, and Vandals: though in these parts
their language be mixt and much corrupted with the
speech of the conquered people, whom they suffered
to remaine among them. *Budler, English Gram-
mar, 1633.*

The body moulded by the climate endures
The Equator heats and *hyperborean* frosts.

Armstrong.
The *hyperborean* ice he wander'd o'er,
And solitary roam'd round Tanais's shore.

J. Warton, Translation from Virgil.
The rough and full-mouthed pronunciation of the
High-Germanic tongues . . . may be the natural pro-
duce of the bracing air of the South; the clearer and
nester pronunciation of the Low-Germanic ones,
that of the milder influence of the plain; the sharp-
ner and sharper sounds of the Scandinavian group,
that of the more chilly and ploughing *hyperborean*
atmosphere in which they have grown up and been
formed. *Craik, History of the English Literature
and the English Language, vol. i. p. 6.*

Hypocriticism. *s.* Critic exact or captious beyond use or reason.

Those *hypocriticks* in English poetry differ from the opinion of the Greek and Latin judges, from the Italian and French, and from the general taste of all ages.—*Dryden*.

Hypocritical. *adj.* Critical beyond necessity or use.

We are far from impeaching those nice and *hypocritical* punctilios, which some astrologers oblige our partners in.—*Boylers*.

Such *hypocritical* readers will consider my lusus was to make a body of reduced sayings, only taking care to produce them in the most natural manner.—*Swift*.

Hyperdulia. *s.* [Gr. *ὑπερδουλεία* = slavery, service, servitude; *δουλος* = slave.] Superior kind of service, among the Romanists, to the Virgin Mary.

From whom our Romanists still first learn their *hyperdulia*, or transcendent kind of service, where-with they worship the Virgin Mary.—*A Archbishop Usher, Answer to the Jesuit Malone*, p. 359.

From all Romish dulia, and *hyperdulia*, Good Lord deliver us.—*Thid.* p. 362.

Hyperduly. *s.* English form of the preceding.

Call you this devotion, as you please, whether duly or *hyperduly*.—*Brevint, Saul and Samueel at Endor*, p. 322.

Hyperesthesia. *s.* [Gr. *ὑπερσθησις* = sensation.]

In *Physiology and Psychology*. Exalted sensation.

In these cases, such is the morbid peripheral acuteness of sensibility, that the minimum portion of cold wind, or even the faintest breath of air from the mouth, coming in contact with the cutaneous surface of the *hyperesthetic* patient, has often induced a fearful prostration of spasmodic suffering. In cases of acute visceral inflammation involving some of the ganglia of the great sympathetic, the general sensibility has become keenly acute. In certain hysterical affections of women the sensation is often intensely manifested. To such a degree has this *hyperesthesia* been observed, that patients have been known to scream violently when the skin has been only touched. The faintest whisper, suddenly opening the door, or rustle of a newspaper, have been known, in such states of the nervous system, to induce severe convulsions of violent convulsive spasm.—*Dr. Forbes Winslow, Obscure Diseases of the Brain and Mind*, ch. 22.

Hyperion. *s.* In *Botany*. Plant so called; St. John's wort.

Hyperion, called "fœus demonum," reckoned among sacred magical plants, on account of the Druids using them.—*Stukely, Paleographia Sacra*, p. 16.

Hypermeter. *s.* [Gr. *ὑπέρμετρον* = measure.] Excess, or instance of excess, over the standard required.

When a man rises beyond six foot, he is an *hypermeter*, and may be admitted into the tall club.—*Addison*.

Hyperphysical. *adj.* Supernatural (which it translates? *ὑπέρ* = super + *φυσικός* = natural).

These are *hyperphysical* opticks, and drawn from the heavens.—*Aubrey, Miscellany*, p. 147.

Hyperæroësis. *s.* Growth of fungous or proud flesh.

Where the *hyperæroësis* was great, I sprinkled it with precipitate, whereby I more speedily freed the ulcer of its putrefaction.—*Wiseeman, Surgery*.

Hyper trophy. *v. a.* Overnourish.

Whatever form of unconsciousness belongs to the heart, the patient's own instinct is continually telling him that he must be still. . . . (The heart) is sooner *hyper trophied*, sooner attenuated, sooner dilated, and the disturbed blood-vessels sooner break themselves to congestions, and effusions, and hemorrhages, and inflammations.—*Dr. G. H. Latham, Lectures on Subjects connected with Clinical Medicine*, lect. xxiv.

Hyper trophy. *s.* [Gr. *ὑπερτροφία* = nutrition.] Excess of nutrition.

We now come to those affections of the heart which may be usefully classed together under the name of unsoundness from disorganization. They consist in alterations of size and shape and bulk and capacity, and are the same which are commonly denoted by the terms *hypertrophy*, atrophy, dilatation, and contraction. And I shall continue to use the same terms. . . . *Hyper trophy* is a simple augmentation, and atrophy is a simple diminution of bulk and consistence in the heart's muscular substance. In *hypertrophy* its muscular substance is more red than natural, its carnes columnæ are increased in thickness, and its proper fibrous texture is everywhere more strikingly manifest, while there

is no interstitial deposition of matter new in its kind. In atrophy its muscular substance is less red than natural, its carnes columnæ less developed, and its proper fibrous texture less distinguishable, but there is still the appearance of muscle, shrunken and withered as if from an insufficient supply of nourishment. . . . A few years ago pathological anatomy had come to regard two particular forms of disorganization as the natural opposites of each other, and was fond of using names chosen on purpose to mark their contrast. These names were *eccentric hypertrophy*, and *concentric hypertrophy*.—*Dr. P. M. Latham, Lectures on Subjects connected with Clinical Medicine*, lect. xxvii.

Hyphen. *f.* [Gr. *ὑφ'* = Note of conjunction: (as, *vir-tue*, *ever-living*).

What a sight it is to see writers committed together by the same for *ceremonies*, *syllables*, *junctis*, *colours*, *commas*, *hyphens*, and the like. *B. Jonson, Discoveries*.

(See also Preliminary Notices, &c.)

Hypnotic. *s.* [Gr. *ὑπνός* = Medicine that induces sleep.

I need no better *hypnotic* to make me sleep.

Sir T. Browne, Religio Medici.

He writes, as an *hypnotic* for the spleen.

Young, Epistle to Pope.

Hypocaust. *s.* [Gr. *καυστός* = burnt.] Subterraneous chamber, or stove, in which was a furnace that served to heat the baths of the Greeks and Romans; and in modern times applied to the place which keeps warm a stove or hot-house.

The apartments on the east side. . . . were probably warmed by the *hypocaust*.—*Lycous, Antiquit'*.

Hypochondria. *s.* often plural. [Gr. *χόνδρος* = cartilage.] Parts on each side of the body, in front, lying under the cartilages of the ribs.

The blood moving too slowly through the celiac and mesenteric arteries, produce various complaints in the lower bowels and *hypochondria*; from whence such persons are called *hypochondriacs*.—*Arbuthnot, On the Nature and Choice of Aliments*.

Hypochondria. *s.* Same as *Hypochondriasis*.

Will Hazard was cured of his *hypochondria* by three glasses.—*Tatler*, no. 231. (Orel MS.)

Moping here did *hypochondria* sit.

Mother of spleen, in robes of various dye,

Who vexed was full oft with ugly fit,

And some her frantic dream'd, and some her dream'd

a wit.

Thomson, Castle of Indolence.

Hypochondria. *s. pl.* Greek form of *Hypochondria*.

In the description of symptoms we are often obliged to speak of particular portions of the abdomen; and it will be of future convenience to us if we make ourselves acquainted at starting with such a superficial map, marking out the topography of the belly. . . . Draw a horizontal line round the body touching the extremities of the costiform cartilages. . . .

Draw another such a horizontally, touching the lower edge of the false ribs; and a third touching the crest of each ilium. We have then three horizontal zones formed. These must be further subdivided by vertical lines; one on each side from the anterior spinous process of the ilium perpendicularly upwards. Each zone will be thus divided into three regions.

The middle region of the upper zone is the epigastric region; on either side are the *hypochondria*. The middle region of the middle zone is the umbilical region; the iliac region, or the flanks, lie to the right and left of it. The *hypogastric* region is the middle region of the lowermost zone; another manual regions are contiguous to it.—*Watson, Lectures on the Principles and Practice of Physic*, lect. lxx.

Hypochondria. *adj.* Melancholy; disordered in the imagination; suffering from *Hypochondriasis*.

Such is the *hypochondria*, melancholy complexion of its islanders, that we seem made of butter, every accident makes such a deep impression upon us.—*Bishop Berkeley, Letters*, lxxx, p. 182; 1744.

Hypochondria. *s.* One who is melancholy, or disordered in imagination; sufferer from *Hypochondriasis*.

How the humours of the body arrive at an ability thus to impregnate the mind with counsels wild and monstrous beyond the varieties of Africa, is an enquiry not pertinent here; but to question that so they can, is to speak ourselves strange in all the stories of *hypochondriacs* [which] books and discourses abound with.—*Spencer, On Vulgar Prophecies*, p. 98; 1853.

Scarcely could draw his life in attention of that most fundamental truth, the belief of one God; and yet he's not reserved either as *foolish hypochondriac*.—*Dr. H. More, Discourse of Christian Fidelity*.

Sir Henry Holland has well observed that the

hypochondriac, by fixing his business with morbid intention on different organs not merely creates disordered sensations in them but disordered actions.—*Dr. T. H. Tanner, Fragments of Medicine*, p. 322.

Hypochondriac. *adj.* *Hypochondriac* (*adj.*).

A straightness of liver, which I should be glad to know whether yet observe in other *hypochondriac* patients.—*Sir H. Watson, Medica*, p. 360.

Cold sweats are many times mortal, and always suspected; as in great fevers, and *hypochondriac* passions, being a relaxation or forsaking of the spirits.—*Bacon, Natural and Experimental History*.

Hypochondriacally. *adv.* In a *hypochondriac* manner.

Feelings of uneasiness, or even pain, originate in the mind a disease existing in particular parts of the body; they may be the lungs, stomach, heart, brain, liver, or kidneys. Slight irregularities, and functional disturbances, in the action of these organs being observed are at once suggestive to the mind, *hypochondriacally* disposed, of serious and fatal disease, progressing in the part to which the attention is conveyed. *Dr. Forbes Winslow, Obscure Diseases of the Brain and Mind*, p. 263.

Hypochondriacism. *s.* Melancholy; disordered imagination: (*Hypochondriasis* commoner).

In *hypochondriacism* the insanity not being formed, there is for the most part a capacity for action.—*Johnston, On Madness*, p. 25.

Hypochondriasis. *s.* *Hypochondriac* affection or passion.

Mental afflictions produce *hypochondriasis*, by creating a disorder in the stomach and intestines, and in the nervous system.—*Christison, On Mental Derangement*, p. 200.

Hypochondriasis [is] chronic indigestion, with languor, flatulency, dejection of mind, and fear arising from inadequate causes; general exaltation of sensibility; a rapid succession of morbid phantasies, simulating numerous diseases; or otherwise a real, but variable state of suffering, exaggerated by the morbid sensibility and fears of the patient, with unweariness of purpose, and distressing anxiety respecting his complaints. *Hypochondriasis* has been very differently arranged by medical writers.

Voced placed it among spasmodic diseases, and Cullen, much more correctly, in that order of nervous complaints which depend upon defective vital power.—*Copland, Dictionary of Practical Medicine*.

Hypochondry. *s.* One of the two regions called *hypochondria*.

If from the liver, there is usually a pain in the right *hypochondry*; if from the spleen, hardness and grief in the left *hypochondry*. *Barton, Anatomy of Melancholy*, p. 200.

Every swelling the *hypochondria* which, by drinking up the nourishment of the neighbouring parts, makes the whole body lean and unweary.—*Scott, Christian Life*, p. li, ch. iii.

Hypocist. *s.* [Gr. *ὑπό* = Lat. *cistus* = plant so called, *gum-cistus*.] See extract. *Obsolete*.

Hypocist is an insipidated juice, miserably hard and heavy, of a bluish black colour, when broken. The stem of the plant is thick and fleshy; and much thicker at the top than towards the bottom. The fruits contain a tough glutinous liquor, gathered before they are ripe; the juice is expressed, then formed into cakes.—*Sir J. Hill*.

Hypocrisy. *s.* Dissimulation with regard to the moral or religious character.

Laying aside all malice, and all guile, and *hypocrisy*. *1 Peter*, ii. 1.

Next stood *hypocrisy* with lily leer, Soft smiling and demurely looking down; But hid the dagger underneath the gown.

Dryden, Fables.

Hypocrisy is much more eligible than open infidelity and vice; it wears the livery of religion, and is cautious of giving scandal; may, continued disguises are too great a constraint; men would leave off their vices, rather than undergo the toil of practising them in private.—*Swift*.

Hypocrite. *s.* [Gr. *ὑποκριτής*.] 1. Disssembler in morality or religion.

He heartily prays some occasion may detain us longer: I have sworn he is no *hypocrite*, but prays from his heart.—*Shakespeare, Much Ado about Nothing*, i. 3.

A wise man hateth not the law; but he that is an *hypocrite* therein, is as a ship in a storm.—*Proverbs*, xxxiii. 8.

For *hypocrite*, you seek to cheat in vain: Your silence utters, you ask time to rest. *Dryden*.

The making religion necessary to interest might increase hypocrisy; but if one in twenty should be brought to true piety, and nineteen be only *hypocrites*, the advantage would still be great.—*Swift*.

2. Dissembler.

Ye honest men, beware,
Nor trust its smoothness; the third circling glass
Suffices Virtue; but may *hypocritely*,
Who shily speak one thing, another think,
Hateful as hell, still please inwardly drunk on,
And through intemp'rance grow nefarious swine.
J. Phillips, *Cphr.* h. ii.

Hypocritely. *adv.* Hypocritically. *Rare.*

He is rebuked, like a stubborn boy,
That pities his lesson, another boy.
While in his hand his master strikes the rod;
But if he turns his back, doth float and nod.
Spenser, *The Faerie Queene*, l. 10. (Ord MS.)

Hypocritid. *adj.* Dissembling; insincere;
appearing differently from the reality.

Let others screw their hypocritical face. — Swift.

Hypocritical. *adj.* Same as preceding.

Now you are confounding your enormities; I know
it, that hypocritical down-cast look. — Dryden,
Spanish Friar.

Whatever virtues may appear in him, they will be
esteemed an hypocritical imposture on the world;
and in his private pleasures, he will be presumed a
libertine. — Rogers.

Hypocritically. *adv.* In a hypocritical man-
ner; with either simulation or dissimula-
tion; without sincerity; falsely.

Simon and Levi spoke not only falsely, but insidi-
ously, nay hypocritically, abusing at once their
promises and their religion. — Dr. H. More, *Govern-
ment of the Tongue*.

Hypocritish. *adj.* Hypocritical. *Rare.*

We perceive that Jesus read things in the hypo-
critish hearts of the pharisees. — *Treasury of Chris-
tian Religion*. (Ord MS.)

Hypogastrie. *adj.* [Gr. *γαστήρ* = belly.] Belonging to the lower belly.

The swelling we supposed to rise from an effusion
of serum through all the hypogastric arteries. —
Wismann, *Surgery*.

(See also *Hypochondria*, & *pl.*)

Hypogæa. *adj.* [Gr.: root of *γῆ* = race, kind; *γῆραι* = beget.] See extract.

All the rocks that have been described in the present chapter, together with others which I have now thought it necessary to allude to, are sometimes spoken of as one group, under the name *hypogæa*, or *Plutonæ*. . . *hypogæa*, an expression introduced by Mr. Lyell, involves to a certain extent the reception of a theory which well deserves notice. . . Mr. Lyell proposes to include under the one name *hypogæa* all those unstratified rocks which offer no appearance of mechanical origin, together with the large classes of stratified rocks which do not contain any mark of organic remains, owing to changes which are assumed to have taken place in their intimate structure since their original deposition. — *Applied Geology, Introductory, Descriptive and Practical*, vol. ii, p. 160; 2d. ed. 1844.

Hypogæum. *s.* [Gr. *γῆ* = earth.] See extract.

Hypogæum [is] a name which the ancient architects gave to all the parts of a building that were under ground, as cellars and vaults. — Harris.

Hypostasis. *s.* [Gr. *ὑπόστασις* = under standing; element for element, it is the same as Sub-stance, Under-standing; but it is also a theological rather than a metaphysical term.] See extracts.

1. Personality (a term used in the doctrine of the Holy Trinity).

The oneness of our Lord Jesus Christ, referring to the several *hypostases* in the one eternal, indivisible, divine nature, and the eternity of the Son's generation, and his co-eternity and consubstantiality with the Father, are assertions equivalent to those comprised in the ancient simple article. — Hammond.

What was precisely the notion which these Latin Fathers intended to convey, and how far it approached the classical signification of the word 'Person', it may not be easy to determine. But we must presume that they did not intend to employ it in what is, even in the ordinary sense of the word 'Person', both because 'Personæ' never, I believe, bore that sense in pure Latinity, and also because it is evident that, in that sense, 'three divine Personæ' would have been exactly equivalent to 'three Gods'; a meaning which the orthodox always disavowed. It is probable that they had nearly the same view with which the Greek theologians adopted the word *ὑπόστασις*, which seems calculated to express that which stands under (i. e. the Subject of) Attributes. They meant, it may be presumed, to guard against the suspicion of teaching, on the one hand, that there are three Gods, or three Lords of the one God; or, on the other hand, that Father, Son, and Holy Ghost are no more than three Names, all of the same signification. . . It is perhaps to be regretted that our Divines, in rendering the Latin 'Personæ', used the word 'Person', whose ordinary sense, in the present day at least, differs in a most important point from the theological sense, and yet is not so remote from

it as to preclude all mistake and perplexity. If *ὑπόστασις*, or any other completely foreign term had been used instead, no idea at all would have been conveyed except that of the explanation given; and thus the danger at least of being misled by a word, would have been avoided. . . It is worth observing, as a striking instance of the little reliance to be placed on etymology as a guide to the meaning of a word that *ὑπόστασις*, 'Substantia', and 'Understanding', so widely different in their sense, correspond in their etymology. — Archbishop Whately, *Elements of Logic*, appendix i, Ambiguities Terms, Person.

2. In *Medicine*. Sediment of urine.

Here's an *hypostasis* argues a very bad stomach. — *Nob. & Microcosmus*.

Hypostatical. *adj.*

1. Constitutive; constituent as distinct ingredient

Let our Caruodines warn men not to subscribe to the grand doctrine of the egyptians, touching their three hypostatical principles, till they have a little examined it. — Boyle.

2. Personal; distinctly personal.

Beside that grounded upon the hypostatical union; beside that glorious condition upon his resurrection; there was yet another and that more proper occasion. — Bishop Pearson, *On the Creed*, art. vi.

Hypostatically. *adv.* Personally.

That they should see all things and transactions, hear all prayers and orations, 'in speculo divinitatis', is like incredible; a thing which the humanity of Christ himself, though hypostatically united to the divinity, did not pretend to. — Dr. H. More, *Antidote against Idolatry*, ch. ii.

Hypoténuse. *s.* [Gr. *ὑποτίνασις*, second norist participle of *τείνω* = stretch, *γῆννη* = line, a substantive of the feminine gender, being understood; hence the participle itself is feminine.] Line that subtends the right angle of a right-angled triangle.

The square of the hypotenuse in a right-angled triangle, is equal to the squares of the two other sides. — Locke.

Hypotheca. *s.* [Gr. *ὑπόθεσις* = case, keeping-place; from root of *τίθημι* = put.] See extract.

Hypotheca in the civil law was where the possession of the thing pledged remained with the debtor. — Jacob, *Law Dictionary*.

Hypothecarius. *adj.* Relating to, constituted by, a Hypotheca.

Though a real or hypothecary action does not lie against a feudal estate, yet a personal action lies to compel the heir to satisfy and discharge all such incumbrances as the testator shall lay on such hereditary life. — *Ayliffe, Parergon Juris Canonici*, p. 337. (Ord MS.)

Hypothecate. *v. a.* [Lat. *hypotheca*.] Pawn; give in pledge.

Whether they to whom this new pledge is hypothecated have redeemed their own. . . I leave it to those who recollect that men are mortal to determine. — Drake, *On a Republic*.

To hypothecate a ship is to pawn the same for necessities; and a master may hypothecate either ship or goods for relief when in distress at sea; for he represents the traders as well as the owners; and in whose hands soever a ship or goods hypothecated come, they are liable. — Jacob, *Law Dictionary*.

He had found the treasury empty and the pay of the navy in arrears. He had no power to hypothecate any part of the public revenue. Those who lent him money lent it on no security but his bare word. It was only by the patriotic liberality of the merchants of London that he was enabled to defray the ordinary charges of government till the meeting of the convention. — Macaulay, *History of England*, ch. xii.

Hypothèque. *s.* Same as Hypotheca.

An execution cannot in civil cases proceed to a man's bed, wearing apparel, and other things of the like kind, necessary to his daily use; because these things do not pass under an *hypothèque*; nor are a man's wearing clothes taken away from him, though condemned to die as a criminal; but when a debtor has no other goods to satisfy the judgment, his household goods and bed are liable to an execution; and only his wearing apparel on his back shall be left him. — *Ayliffe, Parergon Juris Canonici*, p. 372. (Ord MS.)

Hypóthesis. *s.* [Gr. *ὑπόθεσις* = placing, position.] System formed upon some principle, not proved as a fact or phenomenon of itself, but assumed because it accounts, or is supposed to account, for certain results; provisional cause or force.

The mind casts and turns itself restlessly from one thing to another, till at length it brings all the ends of a long and various *hypóthesis* together;

seen how one part coheres with another, and so clears off all the appearing contrarieties that seemed to be criss, and make the whole intelligible. — South, *Sermos*.

What imagin'd sovereignty,
Lord of his new *hypóthesis* he reigns;
He reigns; how long? till some warmer rise;
And he too, mighty thoughtful, mighty wise,
Studies new lines, and other circles fables. — Prior.

To this *hypóthesis* of a double ether he was driven by his aversion to admit any vacuum in nature; the rotundity of the fiercer corporeities having been produced, as he fancied, by their continual circular motions, which had rubbed off their angles. This seems at present rather a chimera *hypóthesis*, but it is literally that which Descartes presented to the world. — Hutton, *Introduction to the Literature of Europe in the fifteenth, sixteenth and seventeenth Centuries*, pt. iii, ch. viii, § 34.

An *hypóthesis* being a mere supposition, there are no other limits to *hypótheses* than those of the human imagination; we may, if we please, imagine, by way of accounting for an effect, some cause of a kind utterly unknown, and acting according to a law altogether fictitious. But as *hypótheses* of this sort would not have any of the plausibility belonging to those which ally themselves by analogy with known laws of nature, and besides would not supply the want which arbitrary *hypótheses* are generally invented to satisfy, by enabling the imagination to represent to itself an obscure phenomenon in a familiar light; there is probably no *hypóthesis* in the history of science in which both the agent itself and the law of its operation were fictitious. Either the phenomenon assumed as the cause is real, but the law according to which it acts, were supposed; or the cause is fictitious, but is supposed to produce its effects according to laws similar to those of some known class of phenomena. . . *Hypótheses* of the second kind are such as the vortices of Descartes, which were fictitious, but were supposed to obey the known laws of rotatory motion; or the two rival *hypótheses* respecting the nature of light, the one ascribing the phenomena to a fluid emitted from all luminous bodies, the other (now more generally received) attributing them to vibratory motions among the particles of an ether pervading all spaces. — J. S. Mill, *System of Logic*, iii. xiv. induct.

It appears, then, to be a condition of a genuinely scientific *hypóthesis*, that it be not derived always to remain an *hypóthesis*, but be of such a nature as to be either proved or disproved by that comparison with observed facts which is termed verification. This condition is fulfilled when the effect is already known to depend on the very cause supposed, and the *hypóthesis* relates only to the precise mode of dependence; the law of the variation of the effect according to the variations in the quantity or in the relations of the cause. With these may be classed the *hypótheses* which do not make any supposition with regard to causation, but only with regard to the law of correspondence between facts which accompany each other in their variations, though there may be no relation of cause and effect between them. Such were the different false *hypótheses* which Kepler made respecting the law of the refraction of light. It was known that the direction of the line of refraction varied with every variation in the direction of the line of incidence, but it was not known how; that is, what changes of the one corresponded to the different changes of the other. In this case any law, different from the true one, must have led to false results. — Ibid., iii. 16.

Hypothetical. *adj.* Including a supposition; conditionally.

Conditional or hypothetical propositions are those whose parts are united by the conditional particle 'if'; as, 'if the sun be fixed, the earth must move.' — Hutton.

According to the foregoing remarks, *hypótheses* are invented to enable the Deductive Method to be earlier applied to phenomena. But in order to discover the cause of any phenomenon by the Deductive Method, the process must consist of three parts; induction, ratiocination, and verification. . . Now, the *Hypothetical* Method approaches the first of the three steps, the induction to ascertain the law; and contents itself with the other two operations, ratiocination and verification; the law, which is renowned from being assumed, instead of proved. This process may evidently be legitimate on one supposition, namely if the nature of the case be such that the final step, the verification, shall amount to, and fulfil the conditions of, a complete induction. . . We want to be assured that the law we have *hypothetically* assumed is a true one; and its leading deductively to true results will afford this assurance, provided the case be such that a false law cannot lead to a true result; provided no law, except the very one which we have assumed, can lead deductively to the same conclusion which that leads to. And this proviso is often realized. . . Newton began by an assumption, that the force which at each instant deflects a planet from its rectilinear course, and makes it describe a curve round the sun, is a force tending directly towards the sun. He then proved that if this be so, the planet will describe equal areas in equal times; and lastly, he proved that if the force acted in any other direction whatever, the planet would not describe equal areas in

tually, if not the word *me* itself, some modification of the root that occurs. Thus in a language so comparatively distant from our own as the Fin, we find words so like *me*, as *minä = I, minum = my*, and *me = we*; whilst in a language so comparatively near as the Gaelic, though we find (as is expected) the root *me*, we find it to the exclusion of either *I* or any equivalent term—e.g. *me = I*, and *me, mo = mine, du-mh = to me*.

Considering, then, not only the exceptional character of the term *I*, but the fact of the languages to which it belongs being the most advanced, or developed, in the world, it seems likely that the word is a new one, and that, as language proceeded, the notion of a pronoun of the first person (i.e. a name for the speaker, whoever it might be) instead of remaining simple and uncompounded, became divided by a separation of the speaker as the originator of an action or the agent to a verb (the *terminus a quo*), and the same person as an object towards which an action tended (the *terminus ad quem*), or as an object connected with some other (e.g. in the way of ownership, as '*My hat*'). To the expression of the first of these notions *I*, to the second *me* was dedicated.

Nevertheless, if we suppose this to have been the case, it by no means follows that *I* should always be a nominative case, and that *me* should never be one. The latter word might retain some part of its old power, and the former might be used only as the *subject* of a proposition.

Now this is certain, that if '*It is me*' be doubtful English, '*C'est je*' is undoubtedly bad French; and if '*It is I*' be the only correct form in French, '*C'est moi*' is the only tolerable one in French. It is submitted then, as a point of general grammar, that it is more likely '*It is me*' is right than that '*C'est moi*' is wrong.

If we go further back, we find the same avoidance of *I* (*ἐγώ, ego*) in the predicate. Word for word translations of '*It is I*' which in Greek and Latin would be *ἐστὶν ἐγώ* and *est ego*, are non-existent; yet, in Latin, the combination of the copular verb with an oblique case of the first personal pronoun is common (*est mihi* = there is to me = I have); and that in a sense which was by no means without an adequate representation. In Greek the well-known words of our Saviour, when walking on the water to St. Peter, are *ἐγώ εἰμι*.

Be of good cheer, it is *I*; be not afraid.—*Matthew*, xiv. 27.

The mention of the nominative and accusative of the personal pronoun seems not inaptly to introduce a discussion of the well-known and much-controverted phrase—'*It is me*'. Now this is an expression which every one uses. Grammarians (of the smaller order) pretend; schoolmasters (of the lower kind) prohibit and chastise; but English men, women, and children go on saying it, and will go on saying it as long as the English language is spoken. Here is a phenomenon worth accounting for. '*Not at all*,' say our censorious; '*don't trouble yourself about it; it is a mere cantonment*.' Leave it off yourself, and try to persuade every one else to leave it off. But, my good sirs, I cannot.—*Dr. Alford*, *A Plea for the Queen's English*, § 192.

Hence, it is probable that not only is *me* when used as a predicate justifiable, but that *I*, so placed, is of doubtful propriety. For further remarks see *Me*.

2. In Metaphysics. A translation into English of the German *Ich*. See *Ego*.

For Transcendentalist Matter has an existence, but only as a phenomenon; were we not there, neither would it be there: it is a mere Relation, or rather the result of a Relation between our living souls and the First Great Cause. . . . The tree is green and hard, not of its own native virtue, but simply be-

cause my eye and hands are fashioned so as to discern such and such appearances under such and such conditions. . . . There is in fact, says Fichte, no tree there; but only a Manifestation of Power from something that is not *I*. The same is true of material Nature at large, of the whole visible Universe, with all its movements, figures, accidents, and qualities: all are impressions produced on Me by something Different from Me. 'This, we may suppose, may be the foundation of what Fichte means by his famous *Ich und Nicht-Ich* (*I and not-I*); words, which taking lodging (to use the Hindustani phrase) in certain 'heads' that were to be let unfurnished, occasioned a hollow echo, as of laughter, from the empty Apartments; though the words are, in themselves, quite harmless, and may represent the basis of metaphysical Philosophy as fitly as any other words. (*Cicero, Critical and Miscellaneous Essays*, Novellæ.)

3. The affirmative particle *Aye*, wrongly spelt.

Hath Romeo slain himself? Say thou but *I*,
And that bare vowel, I, shall poison more
Than the death-darting eye of cockatrice.

Shakespeare, Romeo and Juliet, iii. 2.
Did your letters pierce the queen?
I, sir; she took 'em and read 'em in my presence,
And now and then an ample tear trill'd down.

Id., King Lear, iv. 3.
I, now the spheres are in their times again.

Id., Junon, Maquas at Court.

Nothing but No and I, and I and No,
How falls it out so strangely, you reply?
I tell you, fair, I'll not be answered so.

With this affirming No, denying *I*.

I say, I love; you slightly answer: *I*;
I say, you love; you praise me out a No;

I say, I die; you calm me with *I*;
Save me, I cry; you sigh me out a No.

Must we and I have naught but No and *I*?

No I am I if I no more can have;
Answer no more, with silence bids reply,

And let me take myself what I do crave;
Let No and *I*, with I and you be woe;

Then answer No and *I*, and I and No.
Boylan, (Nares by H. & W.)

If then your taciturnity wants,
I to your *I* must answer No;

Therefore leave off your spelling plea,
And let my *I* be *I* per se.

Wid's Interpreter, p. 116. (Nares by H. & W.)

Iambic. *adj.* Connected with, constituted by, the Iambus. The metrical system to which this term properly applies is that of the Greek and Latin, wherein the iambus consists of a long syllable preceded by a short one; its notation being \sim . Thus far, then, the word is not only more Greek or Latin than English, but the thing which it denotes is Greek or Latin also. Nevertheless, it occurs in our own Prosody. Here, however, the foot or measure is determined by accent rather than quantity, and the English iambic is, not a long syllable preceded by a short one, but an accented syllable preceded by one without an accent. *Drum, bibunt, ἄγω, ποιοῦν*, are Latin and Greek iambs, their quantitative notation being \sim , and their accentual (*a* denoting the accent, *x* the want of it) notation *xa*. The English iambs are words like *remorse, unity*, &c., in which the accentual notation *xa* is the exact reverse of that of the classical languages. Hence, the parallelism between the quantitative iambs of the ancients and the accentual iambs of the moderns, which the name in the first instance has a tendency to suggest, is non-existent; or rather, the so-called modern iambs are to be opposed rather than compared to the ancient ones. The same applies to the English trochees, anapaests, and dactyles. See also Iambus.

Aristotle observes, that the iambic verse in the Greek tongue was the most proper for tragedy; because, at the same time that it lifted up the discourse from prose, it was that which approached nearest to it than any other kind of verse.—*Addison*, *Spectator*, no. 30.

Vivification is the arrangement of a certain number of syllables according to certain laws. The feet of our verses are either iambic, as '*Alôft*,' '*Crêto*,' or trochaic, as '*lôft*,' '*Lôfty*.' Our iambic measure comprises every four syllables.

'Most good, most fair,
(O things as rare.)'
—*Johnson*, *Grammar of the English Language*.

Iambic. *s.* Iambic foot, or metre.

In thy felonious heart though venom lies,
It does but touch thy Irish pen, and dye;
Thy genius calls thee not to purchase fame
In keen iambicks, but mild anagrams.

Apollon, Marguerite, 201.
The well-known lines of Adrian to Florus, and his reply,

'*Ken uolo Florus esse*,' &c.
are accidental trochees, but not wholly so; for the last line,

'*Seythias pati prunas*,'

requires the word *pati* to be sounded as an iambic. . . . The break in the middle of the Alexandrine has nothing analogous to it in the trimeter iambic, but exactly corresponds to the invariable law of the pentameter. . . . We find two species of Latin verse; one metrical, which Prudentius, Fortunatus, and others aspired to write; the other rhythmical, somewhat licentious in the number of syllables, and wholly accidental in its pronunciation. . . . The trochaic line in which the stress falls on the uneven syllables, commonly alternating by eight and seven, a very popular metre from its spirited flow, was adopted in military songs. . . . It was also common in religious chants. The line of eight syllables, or dimeter iambic, in which the stress falls on the even places, was still more frequent in ecclesiastical verse. . . . The Alexandrine of twelve syllables seems to be the trimeter iambic of the ancients. *Hollan*, *Introduction to the Literature of Europe during the fifteenth, sixteenth, and seventeenth Centuries*, pt. i. ch. l. § 35, and notes.

Iambus. *s.* [*Gr. iambos*.] In (Greek and Latin) *Prosody*. Dissyllabic foot so called, in which the first syllable is short, the second long. Metre constituted or characterised by such feet. From its early use (see extract) in satirical compositions, it often carries with it the notion of abuse or invective. Iambic (though *adjectival* in origin) is the commoner term. For its application in English see Iambic, *adj.*

The invention of the iambus, the rival of the elegy in authority and early popularity, was familiarised by the ancients, as was that of many other metrical forms, to Archilochus. . . . In the Margites, however, assigned . . . to Homer iambic verses were interspersed with heroic hexameters. . . . The measure succeeded itself instinctively, to primitive genius, in any attempt to impart to the poetical treatment of a subject, not so much dignity or solemnity, as emphatic pungency. . . . smartness. This view, together with the remote mythical antiquity of the iambic measure, is supported in the tradition of the Homeric hymn to Ceres by what is probably the earliest extant vestige of the name, the title of the Eleanian nymph *Iambe*, who contributes by her jokes and drolleries to dissipate the grief of the goddess for her lost daughter.—*Murray*, *Critical History of the Language and Literature of ancient Greece*, b. ii. ch. i. § 7.

Iatromathematical. *adj.* Constituted, or adopted, by an iatromathematician.

(For example see next entry.)

Iatromathematician. *s.* [*Gr. iatros = physician*.] Physician who relies chiefly on a mathematical physiology; generally as opposed to one (*intro-chemist* or *chemiatrie*) whose doctrines were chemical rather than mechanical.

A second school of medicine, which superseded this, is called the *iatromathematical*. This seems to have arisen in Italy. Borelli's application of mechanical principles to the muscles has been mentioned above. These physicians sought to explain everything by statical and hydraulic laws; they were therefore led to study anatomy, since it was only by an accurate knowledge of all the parts that they could apply their mathematics. John Bernoulli even taught them to employ the differential calculus in explaining the bodily functions. But this school seems to have had the same leading defect as the chemiatrie; it forgot the peculiarity of the laws of organisation and life, which often renders those of inert matter inapplicable. Picazzini and Boerhaave were leaders of the *iatromathematicians*; and Mead was reckoned the last of its distinguished patron.—*Hollan*, *Introduction to the Literature of Europe during the fifteenth, sixteenth, and seventeenth Centuries*, pt. iv. ch. viii. § 3.

It is not necessary for us to dwell longer on this subject, or to point out the total insufficiency of the iatromathematical physiology. The iatromathematicists had neglected the effect of the solids of the living frame; the *iatromathematicians* attended only to these. And even these were considered only as canals, as cords, as levers, as lifeless machines. These reasoners never looked for any powers of a higher order than the cohesion, the resistance, the gravity, the attraction, which operate in inert matter. If the chemical school assimilated the physician to a vintner or brewer, the iatromathematical physiologists made him an hydraulic engineer; and, in

fact, several of the *astronomers* were at the same time teachers of engineering and of medicine. — *Hewlett, History of Scientific Ideas*, ii. 190.

ibex. *s.* [Lat.] Antelope so called.

The goats are not numerous in species; in Europe the *ibex* is the most celebrated. . . . The species seems to be confined to the highest mountains in Europe, the Alps, particularly the Rhodian, and the Pyrenees with their loftiest branches. . . . In Savoy and Switzerland they are now rarer than in the Tyrol. . . . The Abyssinian *ibex* (*Capra ibex*) . . . is numerous in the mountains of Abyssinia and Upper Egypt. . . . The Caucasian ibex (*Capra Caucasica*) is equal if not superior in strength and agility to the Alpine. . . . The *ibex* (*Capra ibex*) is distinguished from the former by the horns forming an acute angle to the front, with the ribs less broad, assuming an undulating edge, and the posterior part rounded. . . . In size and proportion it is nearly the same as the *ibex*. — *Translation of Currier's Règne Animal*.

The horns are large, . . . robust, annulated, and bent back, as in the *ibex*, standing rather near the orbits, and rising vertically from the forehead; with the annuli most prominent towards the front, and reaching upwards to about two-thirds of their whole length. — *Nesbitt, Natural History and Classification of Quadrupeds*, § 261.

ibis. *s.* [Lat.] Bird so called; Egyptian stork. See extracts.

A certain bird called *ibis*, about the banks of the Nile, first taught the Egyptians the way of administering clysters; for this bird has often been observed, by means of its crooked bill introuit into the anus, to inject salt-water, as with a syringe, into its own bowels, and thereby to exonerate its paunch when too much obstructed. — *Greeshall, Art of Embalming*, p. 232.

Besides these gods, the Egyptians worshipped a great number of beasts, as the ox, the dog, the wolf, the hawk, the crocodile, the *ibis*, the cat. . . . Among us says Cuvier, it is very common to see temples adorned, and statues carried off; but it was never known, that any person in Egypt ever abused a crocodile, an *ibis*, or cat; for its inhabitants would have suffered the most extreme torments, rather than be guilty of such sacrilege. It was death for any person to kill one of these animals voluntarily; and even a punishment was decreed against him who should have killed an *ibis*, or cat, with or without design. — *Translation of Rollin's Ancient History*, vol. i. h. l. p. 1. ch. ii. § 1.

The appearance of the glossy *ibis* (*ibis falcinellus*) in this country, though not uncommon, is still accidental. — *Farrall, British Birds*.

With the Latin plural.

Australasia is the only part of the world in which the *ibides* are not found. . . . It is only since the publication of Bruce's Travels that positive notions have been gained respecting the genus to which we should refer the bird which was so venerated by the Ancient Egyptians. . . . Bruce found in Lower Ethiopia a bird was there named Abou hannes (Father John), and, on comparing it with the embalmers and with the ancient descriptions, he recognized it to be the true black and white *ibis*. . . . the same as the Moored or Abou-hannes (Father of the Sick) of the Arabs. . . . Another *ibis*, entirely black, was equally revered by the Egyptians and embalmers in a similar manner. — *Translation of Currier's Règne Animal*.

ice. *s.* [A.S. *is*.] In all the allied languages the spelling is with *-s*. In English, however, *ice* would run the risk of being sounded *ize*. The present orthography (if so it may be called) here, as in *pence*, *whence*, and many other words, does much to disguise the etymology.]

1. Water or any other liquid made solid by cold.

This sensible warm motion to become a kneaded clod, and the delighted spirit To bathe in fiery floods, or to reside In thrilling regions of thick-ribbed ice. — *Shakespeare, Measure for Measure*, iii. 1. The ice was here, the ice was there, The ice was all around, It snowed, and grew, and cracked and howled, Like noises in a swoon. — *Coleridge, Ancient Mariner*.

Used metaphorically.

Thou art all ice, thy kindness frozen. — *Shakespeare, Richard III.* iv. 2.

2. Vind so called, consisting, generally, of water or cream partially frozen and flavoured with fruits.

Break the ice. Make the first opening to any attempt.

If you break the ice, and do this feat, Achieve the elder, set the younger free For our sakes, whose hap shall be to have her Will not so graciously be to be ingrate. — *Shakespeare, Taming of the Shrew*, i. 2.

After he'd a while look'd wise, At last broke silence and the ice. — *Butler, Hudibras*. I saw the identical object of my search. — *Daily himself*. We were on opposite sides of the way. I saw him, and saw that he saw me. The moment was trying and critical; — would he break the ice should I? Our eyes met, and the doubt seemed to be mutual; — the inclination much the same. It is quite impossible to describe the sort of feeling by which we were both actuated. I saw he wished to cross over and speak; I wished (and thought he saw I did) to cross over and speak to him. I cannot explain the affair of the minute which followed, but, at the end of it, we had shaken hands, and were walking together. — *Theodore Hook, Gilbert Gurney*, vol. iii. ch. i.

Ice. *v. a.*

1. Cover with ice; turn to ice; cool by means of ice.

"Thy chrysal, friend, is'd in the frozen sea."

P. Fletcher, *Picnic Eclogues*, v. 11.

2. In Cookery or Confectionary. Glaze with a coat (often of sugar) which resembles ice. (For example see Icing.)

Used figuratively.

Noise and passion, and hardy confidence, freed over with some unmelting pretences, can engage the affections of the vulgar more than inequality and real moderation. — *Puller, Moderation of the Church of England*, preface: 1679.

iceberg. *s.* [*berg*=hill, from Dutch or German direct.] Floating island of ice; drifted glacier.

One way in which the unnatural is often made to appear, for a time, natural, is, by giving a lively and striking description which is correct in its several parts, and natural only when these are combined into a whole, like a painter who should give an exact picture of an English country-house, of a grove of palm-trees, an elephant and an iceberg, all in the same landscape. — *Archbishop Whately, Elements of Rhetoric*, ch. ii. § 2.

The great glaciers generated in the valleys of Spitzbergen . . . are almost all cut off at the beach. . . . In Bull's Bay, on the contrary, . . . where there is no warmer under-current, the glaciers stretch out from the shore, and furnish repeated crags of mountains masses of ice which float off into the ocean. The number and dimensions of these bergs is prodigious. . . . other bergs have been occasionally met with . . . as far south as lat. 4° and longitude 60° west. . . . The distance to which ice bergs float . . . is very different. — *Sir C. Lyell, Principles of Geology*, b. i. ch. vii.

The ice-berg is the creation of many years; originally a prodigious glacier, repelling in the valley of some polar mountain, it has been loosened from its bed and tumbled in the ocean. Driven by the undertow, it floats a fantastically and majestic island. — *D. P. Thompson, Introduction to Meteorology*, § 231.

icefield. *s.* Expanse of water either wholly frozen or blocked up with floating masses of ice.

Here they were becalmed in a large bay, with three apparent openings between the islands which formed it; but every where, as far as they could see, surrounded with ice. There was not a breath of air, the water was perfectly smooth, the ice covered with snow, low and even, except a few broken pieces near the edge; and the pools of water in the middle of the ice-floes just crusted over with young ice. On the next day the ice closed upon them, and no opening was to be seen any where, except a hole or lake, as it might be called, of about a mile and a half in circumference, where the ships lay fast with their ice anchors. They filled their casks from these ice-floes, which was very pure and soft. — *Southey, Life of Nelson*, ch. i.

icehouse. *s.* House in which ice is stored, and kept solid.

Considering at how little expense an icehouse can be constructed, it is surprising that any respectable habitation in the country should not have one attached to it. The simplest and most scientific form is a double cone, that is two cones joined base to base; the one being of stone or brickwork, sunk under the ground, with its apex at the bottom, into which the ice is rammed; the other being a conical roof of carpentry covered with thatch and pointed at top. The entrance should be placed always on the north side. It should consist of a corridor or porch with double doors, and be screened from the sunbans by a small shed. — *Ure, Dictionary of Arts, Manufactures, and Mines*.

icepail. *s.* Pail containing ice for cooling wine.

"This is as it should be," said I, looking round at the well-filled table, and the sparkling spirits immersed in the ice-pails; "a genuine friendly dinner." — *Sir E. B. Lytton, Pelham*, ch. xvii.

Ichneumon. *s.* [Gr.]

1. Quadruped so called, of the genus Herpestes.

The crocodile . . . is awed by none more than the ichneumon. — *Sir T. Herbert, Travels*, p. 365. The ichneumon makes it the whole business of his life to break the eggs of the crocodile. — *Addison, Spectator*, no. 125.

We proceed to the third subdivision of the Viperina, which includes the Manganistes, the first of which is the celebrated Ichneumon. . . . Brown, Linnaeus, Buffon, and all naturalists before Schreber, admitted but a single species of the Manganistes or Ichneumon, though Edwards had expressed a doubt concerning the identity of his Ichneumon with that of Egypt. — *Translation of Currier's Règne Animal*.

2. Insect so called of the genus Ichneumon: (often used adjectivally with fly.)

The generation of the ichneumon fly is in the bodies of caterpillars, and other nymphs of insects. — *Dehro, Physics-Theology*.

If we have reason to complain of the number of caterpillars, and of their fatal ravages in the vegetable kingdom, we ought to congratulate ourselves on the existence of the ichneumon, which are their natural enemies. We know that the ancient naturalists designated under this denomination a little quadruped inhabiting the banks of the Nile, and which received divine honours from the Egyptians in consequence of the opinion that it destroyed the eggs of the crocodile, and even entered the mouth of that reptile, and proceeding into its body, gnawed its entrails. . . . Thus the name of ichneumon has been well applied to the insects of which we are treating. . . . The ichneumon of the entomologists had destroyed the eggs . . . and the caterpillars themselves, and the crystals which contain them. — *Translation of Currier's Règne Animal*.

Ichneographical. *adj.* Representing a certain plot of ground.

Permett has assisted the text with a figure or ichneographical plot. — *Kerley*, ii. 1.

Here you have the ichneographical plan of the temple of Juno. — *Dryden, Tragedy*, p. 116.

Ichnography. *s.* [Gr. *ichnē* + *grapō*.] Ground plot.

It will be more intelligible to have a draught of each front in a paper by itself, and also to have a draught of the ground-plot or ichnography of every story in a paper by itself. — *Mason*.

Ichnology. *s.* [Gr. *ichnē* = word, doctrine, principle.] In Geology. Principles, and details, connected with the investigation of the footsteps, or tracks, of certain animals left as impressions on certain strata.

Our knowledge of the footsteps of recent animals, what may be called modern ichnology, is so limited that we cannot . . . with any degree of certainty mark even the class of beings by which they have been made. — *Sir W. Jardine, Ichnology of Land-animal*, p. 7: 1851.

ichor. *s.* [Gr. *ichōr*.] Thin watery humor like serum. See next entry.

Milk, drawn from some animals that feed only upon flesh, will be more apt to turn rancid and putrefy, requiring first a saline taste, which is a sign of putrefaction, and then it will turn into ichor. — *Arbuthnot, On the Nature and Choice of Aliments*.

Of course his perspiration was but ichor, Or some such other spiritual liquor. — *Byron, Vision of Judgement*, a. 25.

ichorous. *adj.* Serous; sanious; thin; undigested. In Medicine, ichor means nearly the same as serum, i.e. a thin unhealthy discharge, as opposed to the laudable pus of healthy inflammatory action; in other words, the term is one of disparagement. In general language, it is rather involutionary than otherwise, denoting something thinner than blood, but thinner because subtler and more spiritual. The blood of the gods was ichor, and the first instance of the word is where it is applied by Homer to the blood of Venus when wounded by Diomed.

The hung-growth is imputed to a superficial sanious or ichorous excretion. — *Harris, Discourse of Consumption*.

The pus from an ulcer of the liver, growing thin and ichorous, corrodes the vessels. — *Arbuthnot, On Diet*.

ichthyic. *adj.* [Gr. *ichthēr* = fish.] In Zoology. Having the character of a fish.

You may perhaps think that I have been dissatisfied by the extrinsic interest of personal discovery, in dwelling so long upon the cranial structure of the lepidodend; but I persuade myself that the actual value and intrinsic importance of this remarkable type of ichthyic organisation, will insensibly attract and attention we have been bestowing upon it. The

skeleton of the lepidosiren affords the right key to the complexities of those of the typical and better ossified fishes. I believe it to manifest, upon the whole, the highest grade which is attained in the class of fishes, in the direct progress to perfection, or, in what may be termed the vertebrate high road. — *Osborn, Lectures on Comparative Anatomy*, lect. iv. In the lepidosiren the notochord, the parapsidæ, the attachment of the scapula to the acetabulum, the branched covering of the permanent gills, the opercular bones, the presence of a spiral intestinal valve, the relative position of the anus, the extra-oral nasal sacs, the scaly integuments, the mucous tubes on the head, the 'lateral line,' in short, the totality of the organisation of the lepidosiren, exemplify its fundamental ichtyologic nature. — *Ibid.*, *Analogue of Vertebrates*.

Ichthyological adj. Relating to, connected with, Ichthyology.

The Royal Society not only receives all this mass of ichtyological facts, but selects it for publication. — *Motham, Parasite of Literature*.

Ichthyologist. *s.* Investigator of ichthyology.

Cuvier observes that [in] the History of Fishes [by Willoughby and Ray]... many species are described which will not be found in earlier ichtyologies, and that those of the Mediterranean especially are given with great precision. — *Motham, Introduction to the Literature of Europe during the fifteenth, sixteenth, and seventeenth centuries*, pt. iv. ch. viii. § 15.

Ichthyology. *s.* [Gr. ἰχθυόω — word, discourse, principle.] Investigation of the natural history and classification of fishes.

Some there are, as cane and sheep, which carry no name in ichthyology. — *Sir T. Brown, Vulgar Errors*.

Of the value of this principle of harmony, some idea may be formed from the circumstance, that on it Agassiz has based the whole of that celebrated classification, of which he is the sole author, and by which fossil ichthyology has for the first time assumed a precise and definite shape. — *Locke, History of Creation in England*, vol. i. ch. vi.

Ichthyosaurus. *s.* [Gr. ἰχθυόω — lizard.] Extinct reptile, combining the characters of a fish with those of a lizard; *Ichthyosaurus*, *Plesiosaurus* (approximate lizard), and other similar compounds, are common in *Geology*.

Waters in which the *Ichthyosaurus* lived. — *Mantell, Wonders of Geology*.

Ichthyosis. *s.* [Gr.] In *Medicine*. Skin disease so called from the thickened cuticle resembling a fish's skin: fish-skin disease.

Ichthyosis consists of a morbid enlargement and elevation of the papillæ, and a thickening of the epidermis. Hoary peduncles are thus formed, which spread out to acquire by ad irregular tips, and, undergoing partial exfoliation, soon then resemble the scales of a fish. This affection is general or local, and hereditary or accidental. When it is hereditary, it either is congenital, or it does not appear until some months after birth. The local form is most frequently accidental, the more general affection is congenitally congenitally or hereditary. — *Copland, Dictionary of Practical Medicine*.

Ichthyotomist. *s.* [Gr. root of τήνω — cut; τμήν — section.] One engaged in the dissection of fish.

The first spinal nerve [in fishes] rises usually by two roots, the dorsal one giving a median, rarely by non-ganglionic roots exclusively from the paravertebral tracts; it usually emerges between the occipital and the atlas, and divides into a small dorsal and a larger ventral branch; this communicates with the ventral branch of the next spinal nerve, and supplies the pectoral fin-muscles, the suboccipitals, and the sternohyoids; it is called hypobranchial nerve by some ichtyologists. — *Osborn, Lectures on Comparative Anatomy*, lect. viii.

Ice. *s.* [Ice-ichthyl.] Shoot of ice commonly hanging down from the upper part. If distilled vinegar or aqua-fortis be poured into the mouth of a beak, the subsiding powder, dried, retains some medicinal virtue; but if the menstruum be evaporated to a consistency, and afterwards dissolved into water, or crystals, the substance with no power upon them. — *Sir T. Brown, Vulgar Errors*.

From locks unmelting and from the frozen bed,
Long icicles depend, and crackling sounds are heard. — *Drayton*.

Ice. *verbal obs.* Covering with ice; giving the character of ice to anything; (special application in *Cookery*).

The splendid *icing* of an immense historick plum-cake was embossed with a delicious image of the destruction of Troy. — *T. Warton, History of English Poetry*, iii. 302.

To glaze or ice pastry. . . The best mode of icing fruit-tarts, . . . is to moisten the paste with cold water, to sift sugar thickly upon it. . . When a white icing is preferred the pastry must be drawn from the oven when nearly baked and brushed with white of egg. . . then well covered with sifted sugar. — *Eliza Acton, Modern Cookery*, ch. xvi.

Ice. *s.* [A.S. *gicel*.] Probably, so closely connected with ice as to have the same meaning, whether simple or compound. It occurs as *jokle* in the North Frisian, and in the Icelandic as *jokul* — glacier, or snow-capped mountain? *Hecla*.

Be she constant, be she *Ice*,
Be she fire, or be she *Ice*,
Still unalloyed is his life
That is wedded to a wife.

Cotton, Joys of Marriage: 1000.

Icon. *s.* [Gr. εἰκών.] Image, picture, or representation.

Boys, in his tract of divination, hath set forth the icons of these ten, yet added two others. — *Sir T. Brown, Vulgar Errors*.

Some of our own authors, and many Netherlanders, whose names and words are published, have deserved good commendation. — *Hakewell, Apology*.

Iconoclasm. *s.* Image-breaking.

The simplicity of the Alpine peasants was naturally averse to the wealth of the monastic establishments which began to arise among them; there might survive some vague tradition of the iconoclasm and holiness of Chastus of Turin, or of the later rebores of Arnold of Brescia, in Zurich. — *Milman, History of Latin Christianity*, l. x. ch. viii.

Iconoclast. *s.* [Gr. εἰκονοκλάτης; κλάω — break.] Image-breaker.

Pope Stephen IV. in 768 condemned this council in a synod of Italian bishops, who asserted the honour of images against the eastern iconoclasts. — *Fox, On Ecclesiastical Councils*, d. 275.

Constantine, unlike his brethren, was an ardent iconoclast. — *Milman, History of Latin Christianity*, l. iv. ch. viii.

Iconoclastic adj. Breaking or destroying images.

I have sometimes reflected that what reason the Turks should appoint such marks [in their mosques] to direct their faces towards, in prayer, and if I may be allowed to conjecture, I believe they did it at first in testimony of their iconoclastic principle; and to express to them both the reality of the Divine presence there, and at the same time also its invisibility. — *Mantell, Travels*, p. 65.

Most of these [statues] at York were destroyed, in the first editions of iconoclastic zeal. — *Scriver, Travels through Spain*, letter 16.

Yet this question, thus prematurely agitated by the iconoclastic emperors, and at this period of Christianity so fatally misdirected, is one of the most grave, and it should seem inevitable controversies, arising out of our religion. — *Milman, History of Latin Christianity*, l. iv. ch. viii.

Iconochron. *s.* [Gr. εἰκόν — twenty; χρόνος — time, tale.] Figure having twenty sides.

But we must not forget that this disposition to what Bacon calls audacity was full of danger as well as of hope. It led Plato into error, I believe Kepler afterwards, and many others in all ages of scientific activity. It led Plato into error, for instance, when it led him to assert in the 'Timæus' that the four elements, earth, air, fire and water, have, for the forms of their particles respectively, the cube, the icosahedron, the pyramid, and the octahedron. — *Whewell, History of Scientific Ideas*.

Icteric adj. [Lat. *icterus* — jaundice, for which it is the medical term.] Connected with, constituted by, relating to the jaundice: (construction substantival in the extract).

In the jaundice the color is wanting, and the icterical have a great sourness, and gripes, with windiness. — *Plater*.

Ice. *adj.*

1. Covered with, made, consisting, having the nature of ice; cold; frosty.

Here feel we but the penalty of Adam,
The seasons difference; as the *icy* fang,
And blanching chiding of the winter's wind.

Shakespeare, As you like It, ii. 1.

He relates the excessive coldness of the water they met with in summer in that icy region, where they were forced to winter. — *Jugle*.

Tempt *icy* seas, where scarce the waters roll,
Where clearer flames grow round the frozen pole.

Byron.

2 Applied to immaterial objects; generally to temperament or disposition; cold.

Thou wouldst have never learn'd
The icy precepts of respect.

Shakespeare, Timon of Athens, iv. 3.

If thou dost find him tractable to us,
Encourage him, and tell him all our reasons;
If he be loquacious, *icy*, cold, unwilling,
Be thou so too. — *Shakespeare, Richard III*, iii. 1.

Idea. *s.* Native freshwater fish so called, akin to the Roach: *Leuciscus* (Cyprianus) idus.

According to Mr. Stewart, this species was taken at the mouth of the Nith by the late Dr. Walker. . . Black says this fish is distinguished by the bulky character of the body, and the anal fin having thirteen rays. It was first described by Gessner, and is found in Pomerania, Westphalia, Sweden, Norway, Denmark, and Russia. . . Sir Thomas Morgan Wilson . . . caught a fine large specimen of the *idea*, whilst trawling for pike on a windy day in the Gota Elf. . . The fish weighed between four and five pounds. — *Tarrell, British Fishes*.

A careful analysis of the long olfactory nerve in the eel, the *idea*, or the roach, shows that it is a fasciculus of filaments distinct from their origin. — *Osborn, Lectures on Comparative Anatomy*, lect. viii.

Idea. *s.* [Gr. ἰδέω; for remarks on the pronunciation see the last extracts of the entry.] Mental image.

Our Saviour himself, being to set down the perfect idea of that which we are to pray and wish for on earth, did not teach to pray or wish for more than only that here it might be with us, and with them it is in heaven. — *Hooker, Ecclesiastical Polity*.

How good, how fair,

Answering his great idea.

Milton, Paradise Lost, vii. 550.

Whichever the mind perceives in itself, or its immediate object of perception, thought, or understanding, that I call *idea*. — *Locke*.

But yet, after all this, there being men who persuade themselves that they have clear, positive, comprehensive ideas of Infinity, it is fit they should be told, and I should let very glad (with some others that I know who acknowledge they have none such) to be better informed by their communication. — *Ibid.*

The form under which these things appear to the mind, or the result of our apprehension, is called an *idea*. — *Watts*.

I know of no *idea* or notions that have a better claim to be necessary simple and original than those of space and time. — *Locke, Essay on the Powers of the Mind*, vol. i. p. 354.

The leading doctrine of Locke, as is well known, is the derivation of all our simple ideas from sensation and from reflection. The former present, comparatively, no great difficulty; but he is not very clear or consistent about the latter. He seems in general to limit the word to the various operations of our own minds in thinking, believing, willing, and so forth. This, as has been shown formerly, is taken from, or at least evidenced with, the notion of Cause, or in his System of Philosophy. It is highly probable that Locke was acquainted with that work; if not immediately, yet through the account of the philosophy of Cause, published in English by Dr. Clarke, in 1663, which I have not seen, or through the excellent and rigorous abridgement of the System by Bernier. But he does not strictly confine his *idea* of reflection to this class. Duration is certainly no mode of thinking; yet the *idea* of duration is reckoned by Locke among those with which we are furnished by reflection. The same may perhaps be said, though I do not know that he expresses himself with equal clearness as to his account of several other ideas, which cannot be derived from external sensation, nor yet can be reckoned modifications or operations of the soul itself, such as number, power, existence. Most of the perplexity which has arisen on this subject . . . may be referred to the equivocal meaning of the word *idea*. The Cartesian understood by this whatever is the object of thought, including an *intellectus* as well as an *imaginatio*. By an *intellectus* they meant that which the mind conceives to exist, and to be the subject of knowledge, though it may be immaterial and incomprehensible. . . . Arguing, if he is the author of L'art de Penser, mentions the *idea* of a chameleon, or figure of 1000 sides, as an instance of the distinction between that which we imagine and that which we conceive or understand. Locke has employed the same instance to exemplify the difference between clear and obscure ideas. According to the former, we do not imagine a figure with 1000 sides at all; according to the latter, we form a confused image of it. We have an *idea* of such a figure, it is agreed by both; but in the sense of Arnauld, it is an *idea* of the understanding alone; in the sense of Locke, it is an *idea* of sensation, framed like other complex ideas by putting together those we have formerly received, though we may never have seen the precise figure. — *Milman, Introduction to the Literature of Europe in the fifteenth, sixteenth, and seventeenth centuries*, pt. iv. ch. iii. § 107, 108, 109.

The metaphysical inquiry into the nature and composition of what have been called abstract ideas, or in other words, of the notions which answer to the mind to classes and to general names, belongs not to logic, but to different science, and our purpose does not require that we should enter upon it here. We are only concerned with the universally

acknowledged fact, that such general notions or conceptions do exist. The mind can conceive a multitude of individual things as one assemblage or class; and general names do really suggest to us certain ideas or mental representations, otherwise we could not use the names with consciousness of a meaning. Whether the idea called up by a general name is composed of the various circumstances in which all the individuals denoted by the name agree, and of no others, (which is the doctrine of Locke, Brown, and the conceptualists); or whether it be the idea of some one of those individuals, clothed in its individualizing peculiarities, but with the accompanying knowledge that those peculiarities are not properties of the class, (which is the doctrine of Berkeley, Dugald Stewart, and the modern nominalists); or whether (as held by Mr. Mill) the idea of the class is that of a miscellaneous assemblage of individuals belonging to the class; or whether, finally, (what appears to be the truest opinion,) it be any one or any other of all these, according to the accidental circumstances of the case; certain it is, that some idea or mental conception is suggested by a general name, and that it is this idea which we employ it with consciousness of a meaning. And this, which we may call if we please a general idea, represents in our minds the whole class of things to which the name is applied.—*J. S. Mill, System of Logic*, iv. ch. ii. § 1.

The current pronunciation makes the word either an actual dissyllable, or an approach to it, by the dropping or slurring over the final *a*. Yet the Greek was *idea*. In the following the form is trisyllabic:—

Happy you that may to the saint, your only idea,
Although simply attir'd, your manly affection offer.
Sir P. Sidney.

I did hide your lineaments,
Being the right idea of your father,
Both in your form and nobleness of mind.
Shakespeare, Richard III. iii. 7.
Her sweet idea wander'd through his thoughts.
Piercy.

If Chance, by the best idea wrought,
The fairest nymph before his eyes be set, *Dryden.*
This pronunciation is still common in verse, and not extinct, when persons affect purity of speech, in prose.

Hail, sympathy! thy soft ideas bring,
Gray, New Monthly, in *Anti-Jacobin*.

Ideal. adj. Mental; intellectual; not perceived by the senses.

There is a two-fold knowledge of material things; one real, when the thing, and the real impression thereof on our senses, is perceived; the other *ideal*, when the image or idea of a thing, absent in itself, is represented to and considered on the imagination.
Claude, Philosophical Principles.

Ideal. s. Ideal type or standard: (with *the*, *this*, *that*, or some similarly defining word).

I've seen much finer women, ripe and real,
Than all your beauties of the stone ideal.
Byron, Don Juan.

The ideal of morality has no more numerous rival than the ideal of highest strength, of most powerful life; which also has been named (very falsely as it was there meant) the ideal of poetic greatness. It is the maximum of the severe; and has, in those times, gained, precisely among the greatest weaknesses, very many proselytes. By this ideal, man becomes a least-spirit, a mixture; whose mental will, for weakness, a mental power of attraction.—*Carlyle, Critical and Miscellaneous Essays*, Nov. 13 (from whom it is a translation).

Idealism. s. System of metaphysical philosophy founded upon the doctrine that the objects of the external world are what they are, less on the strength of any material properties of their own, than through the action of the mind, in which they exist as ideas.

Now, without entering into the intricacies of German philosophy, we need here only advert to the character of *idealism*, on which it is everywhere founded, and which universally pervades it. In all German systems since the time of Kant, it is the fundamental principle to deny the existence of matter; or rather, we should say, to believe it in a radically different sense from that in which the Scotch philosopher strives to demonstrate it, and the English philosopher believes it without demonstration. To any of our readers, who has dipped never so slightly into metaphysical reading, this *idealism* will be no incommensurable thing. . . . The *idealist*, again, holds that his philosophy is transcendental, that is, ascending beyond the senses; which, he asserts, all philosophy, properly so called, is, and by its nature, must be.—*Carlyle, Critical and Historical Essays*, November.

Idealist. s. Supporter of the doctrine of idealism.

On innumerable other points, we find the same

discrepancy between the two schools. The *idealist*, for example, asserts that our notions of cause, of time, of personal identity, and of substance, are universal and necessary; that they are simple; and that, not being susceptible of analysis, they must be referred to the original constitution of the mind. On the other hand, the sensationist, so far from recognizing the simplicity of these ideas, considers them to be extremely complex, and backs upon their universality and necessity as merely the result of a frequent and intimate association. This is the first important difference which is inevitably consequent on the adoption of different methods. The *idealist* is compelled to assert, that necessary truths and contingent truths have a different origin. The sensationist is bound to affirm that they have the same origin. The further these two great schools advance, the more marked does their divergence become. They are at open war in every department of morals, of philosophy, and of art. The *idealists* say that all men have essentially the same notion of the good, the true, and the beautiful. The *sensationists* hold that there is no such standard.

I speak of *idealists*.
The *idealist* though the word *idealist* is often used by metaphysicians in a very different sense.—*Buckle, History of Civilization in England*, vol. I. ch. vi. and note.

Idealism. v. n. Form ideas.

Others attributed it [religion] to meditation and wonder on the beauty and magnificence of nature, or the forebodings and expectations of futurity congenial to man, or their natural propensity to idealize.—*Martin, Account of Menes's History of all Religions*, 1784.

Ideally. adv. As conceived as an idea.

A transubstant is made materially from some parts, and *ideally* from every one.—*Sir T. Browne, Vulgar Errors*.

Ideate. v. a. Fancy; form in idea. *Rare.*

Let us minute souls;
For thus friends absent speak: this case controuls
The tediousness of my life; but for these
I could *ideate* nothing which could please.
Donne to Sir H. Wotton, Poems, p. 116.
What good statesmen would they be, who should
ideate or fancy such a commonwealth?—*Kant.*

Ideist. s. Idealist: (this latter being, at present, the commoner word).

If that be so, I must necessarily conclude, that the nominalists and the *ideists* have their apprehensive faculties very differently turned.—*Locke*, (Ord. 18.)

Ideistic. s. Same.

The hearer's *ideistic* heard you knew,
The same numerically true. *Baker, Indubita.*

Ideistical. adj. Commoner form of *Identic*.

Their *ideistical* was with mine.
Sir A. Hall, Origin of Man.
These ridiculous *ideistical* propositions, that faith is faith, and rule is a rule, are first principles in this controversy of the rule of faith, without which nothing can be solidly concluded either about rule or faith. *Archbishop Tillotson, Sermons*.

If this pre-existent eternity is not compatible with a successive duration, as we clearly and distinctly perceive that it is not, then it remains, that some being, though infinitely above our finite comprehension, must have had an *ideistical*, invariable continuance from all eternity, which being is no other than God.—*Watley, Sermons*.

Ideologically. adv. In an idealical manner.

In artificial things the introduction of a new form makes not the matter to be *ideologically* different from what it was.—*Ross, On Sir K. Duglas*.

Identification. s. Determination of identity.

He may then be able, for aught we know to the contrary, to join the soul or spirit of man to himself. And so to make but one person of both; such an *identification* I take to be impossible.—You may take it to be so; but I am sure you cannot prove it.—*Shelton, Discourse on the Resurrection*.
I am not ready to admit the *identification* of the British fact with Gospel faith.—*Bishop Watson, Charge*.

Identify. v. t.

1. Prove, determine, or fix.

All collections must set forth the christian name, surname, and addition of the state and degree, mystery, town, or place, and the county of the officer; and all this to *identify* his person.—*Sir W. Blackstone, Commentaries on the Laws of England*.

2. Make the same: (as, 'his cause is *identified* with mine').

All the divine perfections, being intrinsic unto and *identified* with the divine nature or essence.—*Jacobsen, Works*, 1. 391.

Let us *identify* let us incorporate ourselves with the people.—*Barker, Speech on Economical Reform*, p. 216. (Ord. 18.)

This would, however, which establishes the practical doctrine, that the State is to be neutral in questions involving religious truth and error, starves many persons, both practical statesmen and

speculative reasoners. . . . The abstinence of the State from *identifying* itself with one of the rival churches, appears to them in the light of a salutary neglect of religious duty, or even a profession of religious unbelief.—*Sir G. C. Lewis, On the Influence of Authority in Matters of Opinion*, ch. ix. § 3.

Identity. s. Sameness.

There is a fallacy of equivocation from a society in issue, inferring an *identity* in nature; by this fallacy was devised that drunk aqua-fortis for stone water.—*Sir T. Browne, Vulgar Errors*.

Certainly those notions must needs be regular, where there is an *identity* between the rule and the faculty.—*South, Sermons*.
Considering any thing as existing at any determined time and place, we compare it with itself existing at another time, and thence form the ideas of *identity* and diversity.—*Locke*.

By cutting off the sense at the end of every first line, which must always rhyme to the next following, is produced too frequent an *identity* in sound, and hinders every couplet to the point of an epigram.—*Prose*.

Ideological. adj. Connected with, relating to, constituted by the doctrine of ideas.

I would willingly have confined myself to those better understood expressions, and perceived to the end in the suggested discussion; which I have hitherto observed from *ideological* discussions; considering the mechanism of our thoughts to be a topic distinct from and irrelevant to the principles and rules by which the trustworthiness of the results of thinking is to be estimated. Since, however, a work of such high pretensions, and it must also be said, of so much real merit, has rested the whole theory of induction upon such *ideological* considerations, it seems necessary for others who follow, to claim for themselves and their doctrines whatever position may properly belong to them on the same metaphysical ground. And this is the object of the succeeding chapter.—*J. S. Mill, System of Logic*, pt. iv. ch. i. § 4.

Ideology. s. [Gr. *logos* = word, doctrine, system, principle.] Mental philosophy; psychology.

Our neighbours, in the mean time, have made choice of the term *ideology* (a Greek compound involving the very word we have been attempting to discard) to express that department of knowledge which has been called the science of the human mind. *D. Stewart, Philosophical Essays*, 3. (Right.)

Ideos. s. [Lat. *ideas*.] A term anciently used among the Romans, and still retained in the Roman calendar. It is the 15th day of each month, except in the months of March, May, July, and October, in which it is the 15th day, because in these four months it was six days before the nones, and in the others four.

A soldier says I do you beware the *ideos* of March.—*Shakespeare, Julius Caesar*, 1. 2.

Idiocy. s. [Gr. *idiotia*.] State of an Idiot.

I stand not upon their *idiocy* in thinking that horses did eat their bits. *Baron*.
Idiocy is characterized by the want of mental power being congenital. While mania or monomania and dementia form the 'dementia accidental', *idiocy* forms the 'dementia naturalis' of lawyers. This intellectual deficiency is marked by a peculiar physiognomy, an absence of all expression, and a vague and unmeaning look, who rely on and may in a word be clearly identified. In many cases of congenital deficiency, the mind is capable of receiving a few ideas, and of profiting to a certain extent by instruction. To this state the term *idiocy* is applied. It may be regarded as a minor degree of *idiocy*.—*Dr. A. S. Taylor, Medical Jurisprudence*, &c. ch. iv.

Idiom. s. [Gr. *idioma*, *idioma*; Lat. *idioma*, peculiar.] Mode of speaking peculiar to a language or dialect; particular cast of a tongue; phrase; phraseology.

He did romantic our tongue, leaving the words translated as much Latin as he found them; wherein he followed their language, but did not comply with the *idiom* of ours.—*Dryden*.

Some that with care true eloquence shall touch,
And to just *idioms* fix our doubtful speech. *Prose*.
The great test of speech is frequency of translation. No task was ever turned from one language into another, without imparting something of its native *idiom*; this is the most mischievous and consequently baneful of single words may enter the language, and the fabric of the tongue continue the same, but new phraseology changes much at once; it alters not the single stones of the building, but the order of the edifice.—*Johnson, Preface to Dictionary*.

The British, to speak plainly, has little or no resemblance to the English. Many of their terms may have gained admission among us; as from the vicinity and long intercourse we have had with that

people may necessarily be imagined; but their *idioms* and *genius* are as radically and essentially different as air two languages can possibly be.—*Drake, On the Origin of the English Language, Archaeologia*, vol. v. p. 317.

The language of Sévigné and Hamilton is eminently colloquial; scarce a turn occurs in their writings which they would not have used in familiar society; but their was the colloquy of the gods, ours of men; their *idiom*, though still simple and French, had been refined in the saloons of Paris, ... while in our own contemporary writers, with little exception, there is what defers the dialogue of our country, a tone not so much of provincialism, or even of what is called the language of the common people, as of one much worse, the dross of vulgar ribaldry, which a gentleman must clear from his conversation before he can assert that name.—*Haberm, Introduction to the Literature of Europe in the fifteenth, sixteenth, and seventeenth Centuries*, pt. iv. ch. vii. § 32.

Idiomatie. adj. Peculiar to a tongue; phraseological.

Since phrases used in conversation contract meanings by passing through the mouths of the vulgar, a poet should guard himself against *idiomatic* ways of speaking. *Spectator*.

The characterization of English writers in the first division of the [17th] century were not maintained in the second, though the change, as was natural, did not come on by very rapid steps. The peculiarity of unpolished Latinisms, the affectation of singular and not generally intelligible words from other sources, the love of quaint phrases, strange analogies, and ambitious efforts at antithesis, gave way by degrees; a greater ease of writing was what the public demanded; and what the writers after the Restoration sought to attain. They were more strictly *idiomatic* and English than their predecessors.—*Haberm, Introduction to the Literature of Europe in the fifteenth, sixteenth, and seventeenth Centuries*, pt. iv. ch. vii. § 32.

Idiomatieal. adj. Same as Idiomatie.

Milton mistakes the *idiomatical* use and meaning of 'munditie'.—*T. Warton, Notes on Milton's Smaller Poems*.

Idiopathe. adj. In *Medicine*. Occurring as a separate and independent ailment, rather than as a symptom (*σνν* = with + *παθος* = falling, occurrence, or casualty) of, and sympathetically (*σνν* = with + *παθος*) with, anything else. Sympathetic being the term to which it is most specially opposed.

It has been customary with authors to call all these cases of tetanus, which are not brought on by wounds, symptomatic; they are no more so than those which are said to be *idiopathic*.—*Dr. Rush, On Tetanus*. (Ord MS.)

Idiopathy. s. [Gr. *ιδιος* = suffering; root of *παθω* = suffer.] Peculiar sensibility.

Men are so full of their own fancies and *idiopathies*, that they scarce have the civility to interchange any words with a stranger.—*Dr. H. More, Sermon of the Soul*, preface to pt. ii.

An elephant hath his *idiopathy*, and a man his, at the hearing of a pipe: a cat, and an eagle, at the sight of the sun.—*Shid*, notes, p. 329.

Idiosyncrasy. s. [Gr. *ιδιος* = private, peculiar + *σνν* = with + *σνν* = mixture.] Peculiar temper or disposition of body not common to another.

Whether quails, from any *idiosyncrasy* or peculiarity of constitution, do innocuously feel upon hellebore, or rather sometimes but medicinally use the same.—*Sir T. Browne, Vulgar Errors*.

The understanding also hath its *idiosyncrasies*, as well as other faculties.—*Glaucoille, Scrupis Scientificis*.

Idiot. s. [Gr. *ιδιος* = private person; one who takes no part in public matters. Hence, one who is ill-informed, or destitute of intellectual sympathies; the import becoming more and more disparaging as the word grew older. In the 16th century it had a weaker meaning than at present. *Idiot*, neither fool nor wise; half innocent. *Promptorium Parvulorum*.—Wedgwood.] Fatuous person; one with a congenital deficiency of intellect; foolish, silly, weak person. For its medical and medico-legal import see second extract under Idiocy.

[Idiot is] a tale, Told by an *idiot*, full of sound and fury, Signifying nothing. *Shakespeare, Macbeth*, v. 5. What else doth he herein, than by a kind of ratiocination tell his humble suppliants that he holds them *idiots*, or base wretches, not able to get relief?—*Sir W. Raleigh, Essays*.

By idle boys and *idiots* vilified, Who moe and my calamities deride. *Sandys*. Things not understood of them who are but *idiots*, and understand no other than their mother tongue.—*Knatchbull, Annals of the Christian Church*, xlii. 13. Many *idiots* will believe that they see what they only hear.—*Deanna*.

To Idiocy (sometimes spelt Idiotey) there is sometimes given the sound of a -i, as if the notion of the idiotic character was conveyed by the affix -cy, and the -i belonged to the word *Idiot*. The formation, however, is that of such words as *Prophecy*, which is *prophet-ry*, but from *prophet*.

Idiotie. adj. Having the character of an idiot.

The stupid succession persisted to the last, in maintaining that the sun, moon, and stars, were no bigger than they appeared to the eye; and other such idiotic stuff, against mathematical demonstration.—*Deutley, Philothesia Lipsiensis*, § 40.

Idiotical. adj.

1. Same as Idiotey.

2. Idiomatic. *Rare; and faulty, as being both unnecessary and ambiguous.*

The language of the ambitious authors of Greece is, upon occasion, *idiotical* and vulgar.—*Blackwall, Sacred Classics*, i. 271.

Idiotism. s. [from *idiot*.]

1. Fully; natural imbecility of mind.

The wisdom of this world is *idiotism*. Strength a weak reveal. *Decker, Old Fortunatus*. To come to the knowledge of his own stolidity, *idiotism*, and gullibility.—*Translation of Boccaccio*, p. 17: 1020.

It matters not whether our good humour be constructed by others into imbecility, or even *idiotism*; it is happiness to ourselves; and none but a fool would measure his satisfaction by what the world thinks of it.—*Goldsmith, Essays*, iii.

2. [Gr. *ιδιος* = peculiar.] Peculiarity of expression; mode of expression peculiar to a language; idioms.

That our last accurate translation of the English Bible hath women in the margin, is a power advantage; who need not that it is the manner of that exquisite edition to set all the *idiomatics* of either language, and divers readings, in the margin?—*Bishop Hall, House of married Chryse*.

Scholars sometimes in common speech, or writing, in their native language, give terminations and *idiomatics* suitable to their native language unto words newly invented.—*Sir M. Hale*.

We may have lost some of the *idiomatics* of that language in which it was spoken.—*Dryden, Life of Plutarch*.

Idiotise. v. n. Become an idiot.

It looks as if the heads of the greatest men *idiotised*, when they meet together. *Translation of Montaigne's Persian Letters*, let. cix.

Idie. adj. [A.S. *idil*, *idil*.]

1. Lazy; averse from labour.

The tale of the bricks, which they did make heretofore, you shall lay upon them; you shall not diminish aught thereof; for they be *idie*.—*Keodas*, iv. 8.

2. Not engaged; affording leisure.

For often have you writ to her; and she in modesty, Or else for want of *idie* time, could not again reply. *Shakespeare, Two Gentlemen of Verona*, ii. 1.

3. Unactive; not employed.

Why stand ye here all the day *idie*? They say unto him, Because no man hath hired us.—*Matthew*, xxi. 4.

No war or battle's sound Was heard the world around, The *idie* spear and shield were high up hung. *Milton, On the Nativity*, 53.

Children generally like to be *idie*; all the care then is, that their busy humors should be constantly employed in something of use to them.—*Locke, Thoughts on Education*.

4. Useless; vain; ineffectual.

They *idiotised*, all resistance lost, All courage; down their *idie* weapons dropp'd. *Milton, Paradise Lost*, vi. 833.

And threatening France, plac'd like a painted Jove, Held *idie* thunder in his lifted hand. *Dryden*.

The power that guards the sacred lives of kings? Why slept the lightning and the thunderbolts, Or bent their *idie* rage on fields and trees, When vengeance call'd 'em here? *Id.*, *Spanish Friar*.

5. Unfruitful; barren; not productive of good.

Of antrea vast, and deserts *idie*, It was my hint to speak. *Shakespeare, Othello*, i. 3

The murmuring surge, That on the unnumber'd *idie* pebbles chafes, Cannot be heard so high. *Shakespeare, King Lear*, iv. 6.

A poor and *idie* sin. *B. Jonson, Sejourn*.

6. Trifling; of no importance: (usu. 'An *idie* story').

Stiffen it then, then money god, quoth he, That all thine *idie* I refuse; All that I need I have; what needeth me? To covet more than I have come to use? *Spenser, Faerie Queen*.

This answer is both *idie* in regard of us, and also repugnant to themselves.—*Hooker, Ecclesiastical Polity*.

They are not, in our estimation, *idie* reproaches, when the authors of needless innovations are opposed with such negatives, as that of *Idie*: how are these new devices brought in, which our fathers never knew?—*Shid*.

His friend smil'd scornful, and, with proud contempt, Rejects as *idie* what his fellow dreamt. *Dryden, The Cuck and the Fox*, 310.

An *idie* reason lessens the weight of the good cause you gave before.—*Swift*.

He wishes to recall the precious hours he has spent in trifles, and loitered away in *idie* unprofitable diversions.—*Rogers*.

Idie. v. n.

1. Lose time in laziness and inactivity.

These did no hurt, were sober, but went *idling* about the grove with their hands in their pockets, and telling the number of the trees there.—*Andrew, Archdeacon*, ii. 320.

Yes, I was from this poetical madness, Next page he says, in sober sadness, 'Tis she and all her fellow-fools Sit *idling* in their high abodes. *Prior, Alma*, canto i.

2. Play lightly.

A lover may bestride the gossamer air, That *idie* in the warm summer air. *Shakespeare, Romeo and Juliet*, ii. 4.

Idie. v. n. Waste idly; consume unprofitably.

If you have but an hour, will you improve that hour instead of *idling* it away?—*Lord Chesterfield*.

Idieheaded. adj.

1. Foolish; unreasonable.

These *idieheaded* sackers resorted thither.—*Cure*.

2. Delirious; infatuated.

Upon this loss she fell *idieheaded*, and to this very day stands near the place still.—*Sir B. L'Estrange*.

Idleness. s. Attribute suggested by *Idie*.

1. Laziness; sloth; sluggishness; aversion from labour.

Nor is excess the only thing by which sin breaks men in their health, and the comfortable enjoyment of themselves; but many are also brought to a very ill and impending habit of body by mere *idleness*, and *idleness* is both itself a great sin, and the cause of many more.—*South, Sermons*.

2. Absence of employment.

All which yet could not make us accuse her, though it made us pine away for sight, to let us of our time in so troublesome an *idleness*.—*Sir P. Sidney*.

Nature being liberal to all without labour, necessarily imposing no industry or travel, *idleness* bringeth forth no other fruits than vain thoughts and licentious pleasures.—*Sir W. Raleigh*.

3. Omission of business.

Ten thousand harms, more than the ill I know, My *idleness* hath hatch. *Shakespeare, Antony and Cleopatra*, i. 2.

4. Unimportance; trivialness.

To the English court assembly now, From every region, apex of *idleness*. *Shakespeare, Henry IV. Part II. iv. 4*.

5. Inefficiency; uselessness; worthlessness.

Either to have it sterile with *idleness*, or manured with industry.—*Shakespeare, Othello*, i. 3.

6. Unreasonableness; want of judgement; foolishness; madness.

There is no lust of affection but is joined with some *idleness* of brain.—*Racon, Considerations on War with Spain*.

Idiepatred. adj. *Idie-headed*; stupid.

Let him be found never so *idiepatred*, he is still a grave drunkard.—*Sir T. Overbury, Characters*, sign. O. 3.

Idler. s. One who idles.

Many of these poor fishermen and *idlers*, that are commonly prevented to his majesty's ships, are so ignorant in sea-service as that they know not the name of a rope.—*Sir W. Raleigh*.

Idles. s. Fit of laziness: (the preceding, as it were the name of a disease like the

measles, and other complaints, the term for which has a plural form.)

Idle nullum litem dicit; I have been sick of the *idle* to-day.—*Withal*. (Quoted by H. & W.)

Idlesby. *s.* Inactive or lazy person: (a coined word; *Idlesby* is a like formation).

I know not whether among those 'nilil accents,' *idlesby*, or 'male accents,' ill speakers of their time, I should place the newsmonger, and amorous trifler, that spendeth his forenoon on his glass and barler.—*Whitlark, Manners of the English*, p. 301.

Idleness. *s.* Idleness. *Obsolete; rhetorical.*

Developing the mountains, leaves, and flowers, And shining in the hawling brook, where-by, Clear as its current, glide the musing hours With a calm languor, which, though to the eye *Idleness* it seem, hath its morality. If from society we learn to live, 'Tis solitude should teach us how to die; It hath no flatterers; vanity can give No hollow aid; alone—man with his God must strive.

Byron, Childs Harold, canto iv. st. xxxiii.

Idly. *adv.* In an idle manner.

1. Lazily; without employment.

A young gentleman, or a young maid, that liveth wealthily and *idly*.—*Ancham, Schoolmaster*.

2. Foolishly; in a trifling manner.

To rave or speak *idly* in ebriety.—*Barret, Alceste*.

He hath *idly* gone about the bush a little.—*Bishop Hall, Honour of married Clergy*, p. 161.

And modern Angli, whose capricious thought Is yet with stores of wilder notions fraught, Too soon convinc'd, shall yield that fleeting breath, Which play'd so *idly* with the darts of death.

Prior, Ode to the Memory of the Hon. Col. George Villiers.

3. Carelessly; without attention.

In a theatre, the eyes of men, After a well-acted actor leaves the stage, Are *idly* bent on him that enters next, Thinking his prattle to be tedious.

Shakespeare, Richard II., v. 2.

But shall we take the muse abroad To drop her *idly* on the road? And leave our subject in the middle, As Butler did his bear and fiddle?

Prior, Alma, canto ii.

4. Ineffectually; vainly.

Let this and other allegations, suitable unto it, cease to bark any longer *idly* against the truth, the course and passage whereof it is not in them to hinder.—*Hooker, Ecclesiastical Polity*.

Idol. *s.* [Gr. εἶδωλον; Lat. *idolum*.]

1. Image worshipped as God.

Used adjectively.

They did ascribe upon the *idol* altar, which was upon the altar of God.—*Maccebeus*, i. 60. A nation from one faithful man to spring, Him on this side Euphrates yet residing, Bred up in *idol* worship.

Milton, Paradise Lost, xii. 113.

The apostle in there arguing against the superstitions who joined in the *idol* feasts, and whom he therefore accuses of participating of the *idol* god. —*Bishop Atterbury*.

2. Image.

Never did art so well with nature strive, Nor ever *idol* seem'd so much alive; So like the man, so golden to the sight; So like within, so counterfeit and light.

Dryden, Medal, 6.

3. Ideal representation. *Obsolete.*

Men beholding so great excellence, And rare perfection in mortality, Do her adorn with sacred reverence, As th' *idol* of her maker's great magnificence.

Spenser, Faerie Queen.

4. One loved or honoured to adoration.

He's honoured and lov'd by all; The soldier's god, and people's *idol*.

Sir J. Denham, Sephy.

5. The idols of Bacon.

Of the splendid passages in the Novum Organum none are perhaps so remarkable as his celebrated division of fallacies, not such as the dialecticians had been accustomed to refute, depending upon equivocal words, or faulty disposition of premises, but lying far deeper in the natural or incidental prejudices of the mind itself. These are four in number: *idola tribus*, to which, from certain common weaknesses of human nature, we are universally liable; *idola speciei*, which from peculiar dispositions and circumstances of individuals mislead them in different manners; *idola fori*, arising from the current usage of words, which represent things much otherwise than as they really are; and *idola theatri*, which false systems of philosophy and erroneous methods of reasoning have introduced. Hence, as the refracted ray gives us a false notion as to the place of the object whose image it transmits, so our own minds are a refracting medium to the objects of their own contemplation, and require all the aid of

a well-directed philosophy either to rectify the perception, or to make allowances for its errors. These *idola*, *idola*, images, illusions, fallacies, or, as Lord Bacon calls them in the Advancement of Learning, false appearances, have been in the market-place. But it would be better, unless we retain the Latin name, to employ one of the synonymous terms given above. For the use of *idol* in this sense is little warranted by the practice of the language, nor is it found in Bacon himself, but it has misled a host of writers, whoever might be the first that applied it, even among such as are conversant with the Novum Organum.—*Hallam, Introduction to the Literature of Europe in the fifteenth, sixteenth, and seventeenth centuries*, pt. iii. ch. iii. §§ 58, 59.

Idolater. *s.* [see *Idolatry*.]

1. One who pays divine honours to images; one who worships for God that which is not God.

The state of *idolaters* is two ways miserrand, in that which they worship they find no : cour; and secondly, at his hands, whom they ought to serve, there is no other thing to be looked for but the effects of most just displeasure, the withdrawing of grace, dereliction in this world, and in the world to come confusion.—*Hooker, Ecclesiastical Polity*.

An astrologer may be no Christian; he may be an *idolater* or a pagan; but I would hardly think astrology to be compatible with rank atheism.—*Bentley, Sermons*.

2. Simply, an adorer; great admirer.

Joison was an *idolater* of the ancients.—*Bishop Hurd*.

Idolater. *s.* Idolater.

The Jews were punished for their *idolatry* by *idolaters*, and restored by *idolaters*.—*Crisp, Historical Sketches, Speeches, and Characters, England the Fortress of Christianity*.

Idolater. *s.* Idolater, of which it is the proper form. See *Idolatry*.

Idolateress. *s.* Female idolater.

They would not treat, unless his first acknowledged his father to be a tyrant, and his mother an *idolateress*.—*Howell, Letters*, iv. 43.

Whose heart, though large, Remitt'd by fair *idolateress*, fell To idols foil.

Milton, Paradise Lost, i. 444.

Idolatrial. *adj.* Tending to, comprising, consisting of, idolatry. *Rare.*

We have in our church no public worshiping of idols, no heathenish or idolatrial service.—*Bishop Hooper, Examination as to Apparel*, sign. 122, 4.

This pretence would not only establish purgatory, but the worship of images, and the multitude of gods and idolatrial services, and very many superstitions.—*Jeremy Taylor, Ductor Dubitantium*, vol. i. p. 554.

Idolatrize. *v. a.* Worship as an idol.

Apollo easily perceived, that Lapis did manifestly *idolatrize* Tullius. Translation of Horvati, p. 17: 1620.

Idolatrize. *v. n.* Behave, act, or comport one's self as an idolater; practise idolatry.

Let when for answer unto him they come The lustful people should *idolatrize*.

Dryden, Moors, 1009. (Oral MS.)

And as the Egyptians did *idolatrize* Unto the sun.

W. Browne, Britannia's Pastorals, i. 1.

Succeeding ages would *idolatrize*, And as his numbers, so his reliques prize.

Valentine, On the Death of Duane.

Idolatrizing. *verbal abs.* Act, or practise, of an idolater.

How should either swearing, or blaspheming, or *idolatrizing*, be sin, if there were not a God, against whom they were committed?—*Fotherby, Altheimantia*, p. 41.

Idolatrous. *adj.* Tending to idolatry; comprising idolatry, or the worship of false gods.

Neither may the pictures of our Saviour, the apostles, and martyrs of the church, be drawn by an *idolatrous* eye, or be set up in churches to be worshipped.—*Peachment, On Drawing*.

Idolatrously. *adv.* In an idolatrous manner.

Not therefore whatsoever idolaters have either thought or done; but let whatsoever they have either thought or done *idolatrously*, be so far forth abhorred.—*Hooker, Ecclesiastical Polity*.

Idolatry. *s.* [Gr. εἰδωλον + λατρεία = service, λατρεία = servo.] Hence, the full form of this compound should be *Idolo-latry*. The two *l's* have been fused in one, or one has been omitted. In *Idolater* and *Idolator* the same has happened to the two *r's*; viz.,

the *r*- of *λατρεία*, and the *r* of endings *-er* and *-or*.] Worship of images; worship of anything as God which is not God.

Thou shalt be worshipp'd, king'd, lov'd and ador'd.

And were there none in his *idolatry*, My substance should be daim'd in thy stead.

Shakespeare, Two Gentlemen of Verona, iv. 4.

Idolatry is not only an accounting or worshiping that for God which is not God, but it is also a worshipping the true God in a way unsuitable to his nature; and particularly by the mediation of images and corporeal resemblances.—*South, Sermons*.

The kings were distinguished by judgements or blessings, according as they promoted *idolatry*, or the worship of the true God.—*Addison, Spectator*.

Idolish. *adj.* Devoted to, fitted for, ornamented with, idols. *Rare.*

They have stuffed their *idolish* temples with the wretched images of your nation.—*Milton, Reason of Church Government urged against Prebary*, b. ii.

Idolism. *s.* Idolatrous worship; defence of idolatrous worship.

How wilt thou reason with them, how refute Their *idolisms*, traditions, parables?

Milton, Paradise Regained, iv. 133.

Idolist. *s.* Worshipper of images. *Rhetorical.*

I to God have brought Dishonour, obloquy, and op'd the mouths Of *idolists* and atheists.

Milton, Samson Agonistes, 481.

Idolize. *v. a.*

1. Worship idolatrously.

The reason Theodoret assigns for God's changing the diet of men from the fruits of the earth to the flesh of animals is, that, foreknowing they would *idolize* his creatures, he might aggravate the absurdity, and make it the more ridiculous to do so, by their consuming at their tables what they sacrificed to at their altars.—*Bibliotheca Biblica*, i. 246.

2. Love or reverence to adoration.

Those who are generous, humble, just and wise, Who not their gold, nor themselves *idolize*.

Sir J. Denham.

Parties, with the greatest violation of Christian unity, denominated themselves, not from the grand author and finisher of our faith, but from the first promulgator of their idolized opinions.—*Dr. H. More, Decay of Christian Piety*.

Idolizer. *s.* One who loves or reverences to adoration.

Overlooking *idolizers* of the faculty of free-will.—*Dr. H. More, Mystery of Guiltless*, p. 281: 1600.

The *idolizers* of monarchy, with equal flattery, have attributed the same prerogative to temporal princes.—*Bishop Mannersham, Two Discourses*, p. 132: 1681.

Though I be not such an *idolizer* of antiquity as Harris, yet they have great claims for me.—*Bishop Warburton, Letters to Horck*, let. xxxviii.

Idolous. *adj.* Abounding in, given to, idols.

Obsolete.

Was not this, think you, good wisdom counsel of this *idolous* hyson?—*Bale, Acts of English Prelates*, pt. i. fol. 90, b.

Idoloneous. *adj.* [Lat. *idoneus*.] Fit; proper; convenient; adequate.

You entangle, and so fix their saline part, by making them corrode some *idoloneous* body.—*Boyle*.

An ecclesiastical benefice is sometimes void 'de jure & facto,' and then it ought to be conferred on an *idoloneous* person.—*Ayliffe, Parergon Legis Canonici*.

Idyl. *s.* [Gr. εἰδωλον; Lat. *idylum*.] Small, or short, descriptive poem: (generally pastoral).

Theocritus is his victim in the Dissertation on Pastoral Poetry; but Fontenelle gave the Sicilian his revenge; he wrote pastorals himself; and we have altogether forgotten, or, when we again look at, can very partially approve, the *idyls* of the heathen, while those Doric dactyls of Theocritus still linger like what Schiller has called soft music of yesterday, from our schoolboy reminiscences on our aged ears.—*Hallam, Introduction to the Literature of Europe in the fifteenth, sixteenth, and seventeenth centuries*, pt. iv. ch. vi. § 19.

Idyl. *conj.* [A.S. *gif*.]

1. Supposing, provided, in case it be so.

Thou shalt be above only, and thou shalt not be beneath, if that thou hearken unto the commandment of the Lord thy God.—*Deuteronomy*, xxviii. 13.

If that rebellion Caus'd like itself, in laws and subject routs; I say, if damn'd communion so appear'd In his true, native, and most proper shape, You, reverent father, and these noble lords, Had not been here.

Shakespeare, Henry 8th, Part II. iv. 1.

b. Whether or no.

Uncertain if thy angry, or chance;
But by this easy rise they all advance.
She doubts if two and two make four:
It can't—it may—and it must;
To which of these must Alma trust?
Nay, further yet they make her go,
In doubting if she doubts or no.

Prior, *Alma*, canto iii.

c. Allowing that; suppose it be granted that.

Such mechanical circumstances, if I may so call them,
were not necessary to the experiments.—
Boyle.

d. Though. Rare.

They themselves decreed
Their own revolt, not I; if I foreknew,
Foreknowledge had no influence on their fault.
Milton, Paradise Lost, iii. 116.

Used substantively.

Absolute approbation, without any cautions, qualifications, &c.—*Hooker, Ecclesiastical Polity*.
If they have done this deed, my noble lord—
If I talk to thee to me of this? Thou art a traitor.
Shakespeare, Richard III. iii. 4.

Ignaro. s. [Latin.] Contemptuous term of

“elder days for a blockhead.”
It was intolerable insolence in such *ignaros* to
challenge this for poetry, which they understood
not.—*Hishop Mountain, Appeal to Caesar*, p. 290:
1625.

No man can be such an *ignaro*, as to imagine his
sins will be to be made of wire, or his body to be immortal
in brass.—*Heery, Sermons*, p. 10: 1654.

Ignarus. adj. [Lat. *ignarus*, from *ignis* =

fire.] Fiery; containing fire; emitting
fire; having the nature of fire.

That the fire burns by heat, leaves us still igno-
rant of the immediate way of igneous solutions.—
Glaucius, Synopsis Scientiarum.

He [Leibnitz's] hypothesis supposes the gradual
cooling of the earth from igneous fusion.—*Hutton*,
Introduction to the Literature of Europe during
the fifteenth, sixteenth, and seventeenth Centuries,
pt. iv. ch. viii. § 33.

Ignify. v. a. Form into fire.

The ignited part of matter was formed into the
body of the sun.—*Starkley, Palaeogeography Sacra*,
c. p. 20.

Ignipotent. adj. [Lat. *ignipotens*: *potens*,

-entis = powerful, presiding over.] Pre-
siding over fire.

Vulcan is call'd the power ignipotent.
Pope, Translation of Homer.

Ignis fatuus. s. [Lat.; literally, foolish, rain,

misleading fire.] Will with the wisp; Jack
with the lantern.

An *ignis fatuus*, that bewitches
And leads him into pools and ditches.
Baile, Hudibras, l. 1, 609.

Scared and guided by the *ignis fatuus* of popular
superstition.—*Scripps Taylor, Artificient Hantman-*
ness, p. 32.

Vapours arising from putrid waters are usually
called *ignis fatuus*.—*Sir I. Newton, On Opticks*.

Ignitable. adj. Inflammable; capable of

being set on fire.

Such bodies only strike fire which have sulphur
or ignitable parts.—*Sir T. Browne, Vulgar Er-*
rors.

Ignite. v. a. Kindle; set on fire.

Take good firm chalk, *ignite* it in a crucible, and
then powder it.—*Gray, Museum*.

The ignited particles hasten to dip themselves in
the neighbouring stream.—*Sir H. Shere, in Lord*
Baltimore's Memoirs, p. 10.

Wine, in his *Thymus*, enumerating the ignited
juices, names wine in the first place.—*Bishop*
Berkley, Siris, § 212.

Ignite. v. n. Take fire.

A fuse fell upon the hot sand and ignited.—*Rich-*
ardson, Travels in Sahara.

Ignited. part. adj. *Kindled so as to take

fire.

(For example see Incendiarism.)

Ignition. s. Act of kindling or setting on

fire.

The laborant stirred the kindled nitre, that the
ignition might be presently communicated.—*Boyle*.
These black circular lines we see on dishes and
other turned vessels of wood, are the effects of *igni-*
tion, by the pressure of an obelisk stick upon the
wood turned round in the lathe.—*Ray*.

Ignivomous. adj. [Lat. *ignivomus*; *vomo*

= vomit.] Vomiting fire.

“Vulcanus and *ignivomus* mountains are some of
the most terrible shocks of the globe.—*Derham*,
Physico-Theology.

Ignobility. s. Want of magnanimity.

To look up the states of true knowledge, from
them that affectingly seek it to the glory of God,
is a property belonging only to the hypocritical
Pharisees and false lawyers. A most sign of *ig-*
nobility can not be seen, then to pride such noble
monuments. *Bide, in Letitia's New Year's Gift*.
Pope Sixtus the fifth, who was a very poor man's
son, and his father's house ill thicket, so that the
sun came in many places, would sport with his *ig-*
nobility, and say, “That he was unto decess illustre,”
son of an illustrious house.—*Bacon, Apophthegms*,
(Ord MS.)

Ignoble. adj. [Lat. *ignobilis*; Fr. *ignoble*.]

1. Mean of birth; not noble; not of illustri-

ous race.

As when in tumults rise the *ignoble* crowd,
Mad are their motions, and their tongues are loud.
Dryden, Translation of the Æneid, l. 213.

2. Worthless; not deserving honour.

The noble side doth want her proper limbs;
Her royal stock graft with *ignoble* plants.
Shakespeare, Richard III. iii. 7

Ignoble. v. a. Make ignoble. Rare.

And lastly, the good entertainment of the invin-
cible navy; which was chased till the chosen were
wary, after infinite loss, without taking a cock-
boat, without firing a shot, and the discretion of the
mercy of the winds and the discretion of their
adventures, making a perambulation or pilgrimage
about the northern seas, and *ignobling* many shores
and points of land by shipwreck, and so returned
home with scorn and dishonour, much greater than
the terror and expectation of their setting forth.—
Bacon, Discourses in Praque of Queen Elizabeth.

Ignobleness. s. Attribute suggested by

Ignoble; meanness; want of dignity.

The *ignobleness* of their dispositions and breed-
ing.—*Junius, Cursus of Miracles*, 113. (Ord MS.)

Ignobly. adv. In an ignoble manner; ig-

nominiouly; meanly; dishonourably;
reproachfully; disgracefully.

To those, that sorer race of men, whose lives
Religious lifted them the sons of God,
Shall yield up all their virtue, all their fame
Ignobly! *Milton, Paradise Lost*, xl. 621.

Ignominious. adj. Mean; shameful; re-

proachful; dishonourable.

They with pale fear surpris'd,
Fled *ignominious*. *Milton, Paradise Lost*, vi. 394.

Caligula, though a traitor to the state,
And tortured, scap'd this *ignominious* fate.
Dryden, Translation of Juvenal.

They rave, and she transferred the cursed advice,
That monarch should their inward soul disguise,
Dissemble and command, be false and wise;
By *ignominious* arts for service ends,
Should compliment their foes, and shun their
friends. *Prior, Solomon*, b. ii.

Nor has this kingdom deserved to be sacrificed to
one single rapacious, obscene, *ignominious* pro-
ject.—*Swift*.

Ignominiously. adv. In an ignominious

manner; meanly; scandalously; disgrace-
fully; shamefully; reproachfully.

It is some ally to the infamy of him who died
ignominiously to be buried privately.—*South, Ser-*
mons.

Ignominy. s. [Lat. ignominia.] Disgrace

reproach; shame; infamy; meanness; dis-
honour.

Strengthen from truth divided, and from just,
Hauds, might merits but disguise
And *ignominy*. *Milton, Paradise Lost*, vi. 381.

Their generals have been received with honour
after their defeat, wars with *ignominy* after con-
quest.—*Addison*.

Ignomy. s. Abreviation of Ignominy.

Barbarous.

Thy *ignomy* sleep with thee in the grave!
Shakespeare, Henry VI. Part I. v. 4.

Springing the terms of honour wholly on the
one part, and of hatred and *ignomy* on the other.
—*Sir E. Stanley, State of Religion*.

They are said in their own coin; they are with
ignomy repaid reproach.—*Bishop Richardson, On*
the Old Testament, p. 264.

Ignoramus. s. [Lat. first person plural, pre-

sent tense, of ignoro = we know not.]

1. Word endorsed on a bill of indictment
thrown out by a grand jury.

2. Foolish fellow; vain un instructed pre-
tender: (treated as if a Latin substantive
in use).

“Ever you find an *ignoramus* in place and power,
and can have so little conscience and so much con-
science as to tell him to his face that he has a wit and
an understanding above all the world beside,...

I dare undertake, that, as fulsome a dose as you
give him, he shall readily take it down, and admit
the commendation, though he cannot believe the
thing.—*South, Sermons*, ii. 353.

As if, forsooth, there could not be so much as a
few houses fired, a few ships taken, or any other
calamities which befall this little corner of the
world, but that some scepter'd *ignoramus* must
presently find and pick it out of some shamed, un-
fired prophecy of Ezekiel, Daniel, or the Revela-
tion.—*Ibid.* v. 57.

Ignorance. s.

1. Want of knowledge; illiterateness.

If all the clergy were as learned as themselves are
that most exemplin of *ignorance* in others, yet our
book of prayer might remain the same.—*Hooker*,
Ecclesiastical Polity.

Ignorance is the curse of God,
Knowledge the wing wherewith we fly to heav'n.
Shakespeare, Henry VI. Part II. iv. 7.

If we see right, we see our woe;
Then what avails it to have eyes?
From *ignorance* our comfort flows?
The only wreathed are the wise. *Prior*.

2. Want of knowledge respecting some par-
ticular thing.

It is in every body's power to pretend *ignorance*
of the law.—*Sherlock*.

Of future events, that Being, and no other, can
have the same knowledge as of the past, who is ac-
quainted with all the causes, remote or immediate,
internal and external, on which each depends. But
every one is accustomed to anticipate future events,
in human affairs, as well as in the material world,
in proportion to his knowledge of the several circum-
stances connected with each; however different in
amount that knowledge may be, in reference to dif-
ferent occurrences. And in both cases alike, we al-
ways attribute the failure of any anticipation to the
ignorance or mistake respecting some of the circum-
stances. When, e.g. we fully expect, from our
supposed knowledge of some person's character, and
of the circumstances he is placed in, that he
will do something which, eventually, he does not
do, we at once and without hesitation conclude that
we were mistaken either as to his character, or as to
his situation, or as to our acquaintance with human
nature, generally.—*Whately, Logic, Appendix I.*
Amplified Terms, xi.

3. Want of knowledge discovered by exter-
nal effect.

Forgive us all our sins, negligences, and *ignorances*.
—*Book of Common Prayer*.

Punish me not for my sins and *ignorances*.—
Zeph. iii. 3.

Ignorant. adj.

1. Wanting knowledge, unlearned; unin-
structed; unenlightened.

So foolish was I, and *ignorant*: I was as a beast
before thee. *Psalm*, lxxii. 22.

Thy letters have transported me beyond
this *ignorant* present time, and I feel now
The future in the instant. *Shakespeare, Macbeth*, i. 5.

He that doth not know those things which are
of use for him to know, is but an *ignorant* man,
whatsoever he may know besides.—*Archbishop Tillot-*
son.

2. Unknown; undiscovered. *Rhetorical.*

If you know aught which does behoove my know-
ledge

Thereof to be inform'd, imprison't not
In *ignorant* concealment. *Shakespeare, Winter's Tale*, l. 2.

3. Without knowledge of some particular:
(with *of*).

Let not judges be so *ignorant* of their own right
as to think there is not left to them, as a principal
part of their office, a wise application of laws.—
Johnson, Rhetoric.

O villain ill forsworn! Better had I
Lied *ignorant* of future! so had born
My part of evil only. *Milton, Paradise Lost*, xl. 763.

4. Unacquainted with: (with *of*).

Ignorant of guilt, I fear not shame. *Dryden*.

5. Ignorantly, made *or* done.

It is sleeping,
Your *ignorant* builders, on our terrible sea
Like egg-shells mov'd. *Shakespeare, Cymbeline*, iii. 1.

Ignorant. s. One untaught, unlettered, un-

instructed.

Let this drove carry what price it will
With noble *ignorants*. *B. Jonson, Forest*.

Look into the private closets of their devout
ignorants, what difference shall you find between
the image and the suppliant.—*Bishop Hall, Quo*
enitas!

Did I for this take pains to teach
Our zealous *ignorants* to preach?
Sir J. Denham, A Speech against Peace.

Ignorantly. adv. In an ignorant manner;

without knowledge; unskilfully; without information.

The greatest and most cruel force we have,
Are those whom you would ignorantly save.

Dryden.

Ignorant *r. a.* [Lat. *ignoro*; pres. part. *ignorans*, -antis; *ignorantia*.] Not know; be ignorant of.

I *ignorant* not the stricter interpretation, given by modern critics to divers texts by me alleged.—*Boyle*.

Philosophy would solidly be established, if men would more carefully distinguish those things that they know from those that they *ignore*.—*Id.*

Ignote, *adj.* [Lat. *ignotus*.] Unknown. *Rare*.

A traveller passing through the conflux of *ignote* countries.—*Sir M. Stanley, Ruins*, p. 1: 1634.
Shall such very *ignote* and contemptible pretensions be allowed a place among the most renowned of poetick writers?—*Phillips, Theatrum Poeticum*, pref.: 1676.

Ignominia, *s.* Requite so called.

In the *ignominia* a single broad tubercular cartilage extends into the alveolar cavity from the outer side, terminating below in two tubercles.—*Owen, Anatomy of Vertebrates*.

In the flying lizard, and the *ignominia*, the stomach is rather pyriform, but the shape varies with the state of the contents.—*Id.*

Ignomodon, *s.* [Gr. *ὀϊστος*, -ιστος; -tooth.] Large extinct reptile so called, having teeth like those of the *Ignomodon*, i.e. serrated at the edges.

The *Ignomodon*, first discovered by Dr. Mantell, has left none of its remains in the Wealden strata of the south-eastern counties and Isle of Wight, than has any other genus of associated saurian.—*Eggs, Manual of Elementary Geology*, ch. xvii.

Ille, *s.* Improper form of *Aisle*.

Upward the columns shoot, the roofs ascend,
And arches widen, and hark *illic* extend.

Pope.

Illeus, *s.* [Latin.] In *Medicine*. Intussusception of the bowels; colic.

An *illic*, commonly called the twisting of the guts, is really either a circumvolution, or insertion of one part of the gut within the other.—*Arbuthnot*.

Illex, *s.* [Latin.] Holm, or evergreen, oak.
The *illex*, or great scarlet oak, thrives well in England, is a hardy sort of tree, and easily raised of acorns. The Spaniards have a sort they call *cazura*; the wood of which, when old, is finely embellished, as if it were painted.—*Mortimer, Husbandry*.

The pulchre of Lord Montfort was in the most distinguished quarter of the city, and stood in the midst of vast gardens full of walks of laurel, avenues of *illex*, and fountains of lions.—*H. Disraeli, Henrietta Temple*, ch. iv.

Illic, English; the Latin being *illex*.

The *illex* in Lindsey Park are of great age, and seem to be as hardy as any of the other trees.—*Jones, Glossary in Natural History*.

Illic, *adj.* [Lat. *illic*—bowels.] Relating to the lower bowels.

Those, who die of the *illic* passion, have their bellies much swelled.—*Plater, On the Hemorrhoids*.

Ill, *adj.*

1. Bad in my respect; contrary to good, whether physical or moral; evil.

Neither is it *ill* air only that maketh an *ill* wat; but *ill* ways, *ill* markets, and *ill* neighbours.—*Bacon, Essays*.

2. Unsuitable; improper.

He was saying to himself, that he was a very *ill* man to be in visiting and professing love to Flavia, when his heart was enthrall'd to another.—*Spectator*, no. 388.

3. Sick; disordered.

You wish me health in every happy season;
For I am on the sudden something *ill*.

Shakespeare, Henry IV. Part II. iv. 2.

I have known two signs of the greatest consequence lost, by the government falling *ill* in the time of the sickness.—*Sir W. Temple*.

Ill, *adv.*

1. Not well; not rightly in any respect.

Ill at ease, both she and all her train
The searching sun had home, and beating rain.

Dryden, The Flower and the Leaf, 407.

2. Not easily; with pain; with difficulty.

Thou desirest
The punishment all on thyself! alas!
Bear thine own first, *ill* able to sustain
His full wrath, whose thou feel'st as yet least part,
And my displeasure bear'st not *ill*.

Milton, Paradise Lost, l. 948.

Ill bears the sex a youthful lover's fate,
When just approaching to the nuptial state.

Dryden.

As the *first element* in a compound.

Near to an old *ill* favoured castle they meant to perform their unskilfully grand. *Sir P. Sidney*.
The match had been so *ill* made for Pleurisy, that his *ill* led life would have tumbled to destruction, had there not come fifty to his defence.—*Id.*

You shall not find me, daughter,
After the slander of most step-mothers,
Ill eyed and ugly.

Shakespeare, Cymbeline, l. 2.
Lead back thy Marston to their ancient Elbe:
I would restore the fruitful Kent, the art
Of Vertigen for Hengist's *ill* bought aid.

Dryden.
Sparta has not to boast of such a woman;
Nor Troy to thank her, for her *ill* plac'd love.

Id.
The faded dragon never guarded more
The golden floor, than he his *ill* god store.

Id., Translation of Juvenal.
Did you never taste delicious drink out of an *ill* looked vessel?—*Sir K. J. Estlin*.

Nor has he erred above once by *ill* judged superfluity.—*Gorb, Translation from Greek*.

Others *ill* have been condemn'd to toil
Their tedious life.

Prior.
We simple toasters take delight
To see our women's teeth black white;
And every maw *ill* brood follow
Sneers at a mouth profoundly yellow.

Id., Hymn, canto ii.
The second daughter was a pensive, froward, *ill* conditioned creature as ever was.—*A. Routhnot, History of John Bull*.

I see thy sister's tears,
Thy father's anguish, and thy brother's death,
In the pursuit of our *ill* fated loves.

Adrian, Cato.
Bid him employ his ears for those my friends,
And make good use of his *ill* gotten power.

Id.
By such *ill* men must be let them himself. *Id.*
If a man had but an *ill* favoured nose, the deep thinkers would contrive to impute the cause to the prejudice of his education.—*Swift*.

They would not make bold, as every where they do, to destroy *ill* formed and mis-shaped productions.—*Locke*.

Ill, *s.* [A.S. *yfel*.]

1. Wickedness; depravity; contrariety to holiness.

Ill, to man's nature, as it stands perverted, hath a natural modish strength in continuance.—*Id.*

Young men to imitate all *ill* are prone;
But are compelled to avowise alone;
For then in virtue's shape they follow vice.

Dryden, Translation of Juvenal.

2. Misfortune; misery.

Who can all sense of others' *ill* escape,
Is but a brute at best in human shape.

Id., Translation of Juvenal.
Though plung'd in *ill* and overclouded in care,
Yet never let the noble mind despair;

When prest by dangers, and beset with foes,
The gods their timely succour interpose;
And when our virtue sinks, overwhelm'd with grief,
By unforeseen expedients bring relief.

A. Philips.

Ill, *v. a.* Injure. *Rare*.

The sparrow with her airy bill,
Defends her breast from such as would thrust *ill*.

Sylvester, Du Bartas, 46. (Ord MS.)

Illabile, *adj.* [Lat. *labar*—slide, slip.] Incapable of slip or error. *Rare*.

Even infinite wisdom and power could not make a creature (for God cannot work contradictions) that was of its own nature, *illabile*, infallible, and impeccable.—*Chrysostom, Discourses*, iv. (Ord MS.)

Illability, *s.* Incapability of slip or error. *Rare*.

Before that secondary nature of eternal infallibility, *illability*, and impeccability could be brought about, on the most perfect of created intelligences, it must necessarily be, by continued habits, produced by repeated acts.—*Chrysostom, Discourses*. (Ord MS.)

Illapso, *s.* [Lat. *illapso*, preterite part. of *illabar*; *labor*—glide in.]

1. Immission or entrance of one thing into another.

What ravelling transports now
Seize on that intellect! how glad it glow
With fresh *illapso* of the purest light.

J. Hall, On the Death of Lord Hastings,
Lacrymæ Memoriam: 1650.

The prophetic *illapso* could never grace an humane soul.—*J. Spencer, On Volage Prophecies*, p. 40: 1665.

As a piece of iron red hot, by reason of the *illapso* of the fire into it, appears all over like fire; so the souls of the blessed, by the *illapso* of the divine essence into them, shall be all over divine.—*Norris*.

2. Casual coming; accession in the medical sense: (as, 'the accession of a fit of ague').

Life is oft preserved
By the bold swimmer in the swift *illapso*
Of accident disastrous.

Thomson, Seasons, Summer.

Passion's fierce *illapso*

Rouses the mind's whole fabric.

Akenside, Pleasures of Imagination, l. ii.

Illaqueate, *r. a.* [Lat. *illaqueatus*, pass. part. of *illaqueo* (*laqueo*—to snare; *illaqueatio*, -onis).] Entangle; entrap; ensnare.

I am *illaqueat*, but not truly captivated into your conclusion.—*Dr. H. More, Divine Dialogues*.

They that take upon them to be the only solvers from sin, are themselves held fast in the snare of eternal death; and do as necessarily *illaqueate* all others therein whom they proselyte to their religion.—*Id., Antidote against Idolatry*, pref.

Illaqueation, *s.*

1. Act of snaring, or entangling; taking in a noose; luring. *Rare*.

The word in Matthew doth not only signify suspension, or penitential *illaqueation*, but also suffocation.—*Sir T. Browne*.

2. Ensnaring; entrapping. *Rare*.

They wholy gave themselves up to learn to wrangle, and arts of *illaqueation*.— *Evelyn, Letter to Bishop Nicholson*.

Illatio, *s.* [Lat. *illatio*, -onis; *illatus*—brought in.]

1. Inference; conclusion drawn from premises.

Which might be inferred by those that were rather apt to make evil than good *illations* of our proceeding.—*Id.*

Herein there seems to be a very erroneous *illation* from the indulgence of God unto Cain, concluding an immunity unto himself.—*Sir T. Browne, Vulgar Errors*.

Illatio so orders the intermediate ideas as to discover what connection there is in each link of the chain, whereby the extremes are held together.—*Locke*.

2. In a more limited sense, *illation* means an imperfect syllogism formed by conversion or inversion; in which there are only two terms, i.e. no middle term: as,

Some pagans were good men.
Some good men were pagans.

Illative, *adj.* Relating to, denoting, *illation* or conclusion.

There is a great deal of difference between a mere *illative* necessity, which consists only in the logical consequence of one thing upon another, and between a causal necessity, which efficiently and antecedently determines and joins the faculty upon working. *Smith, Science*, viii. 84.

In common discourse or writing such causal particles as 'for' and 'therefore' manifest the act of reasoning as well as the *illative* particles 'then' and 'therefore'.—*Watts*.

Illative, *s.* That which denotes *illation* or conclusion.

This [word] 'for' that leads the text in, is both a relative and an *illative*; referring to what he had said in the foregoing words; and inferring a necessary consequence of one clause upon the other: 'I urge out the old heaven: 'for' Christ our Passover is sacrificed for us.'—*Bishop Hall, Remains*, p. 166.

Illatively, *adv.* In an *illative* manner; by *illation*, second sense.

Most commonly taken *illatively*.—*Bishop Richard, On the Old Testament*, p. 434.

Illaudable, *adj.* [Lat. *illaudabilis* from *laus*, *laudis*—praise.] Unworthy of praise; blamable. *Latinism*.

Strength from truth digested and from just, *illaudable*, might merit but dispraise.

Milton, Paradise Lost, vi. 381.

You, my lord, have, I fear, been awed into a restraint of your genius in that point, by that *illaudable*, (or otherwise) ill-grounded, and *illaudable* maxim of Mr. Pope.

'For took alms, but men of sense approve.'
—*Johnson, Observations on Lord Bute*, p. 102.

Notwithstanding these various censures, I must own myself of opinion, both that the abolition of monastic institutions might have been conducted in a manner consistent in justice as well as policy, and that Henry's profuse alienation of the abbey lands, however *illaudable* in its motive, has proved upon the whole more beneficial to England than any other disposition would have turned out.—*Hallam, Constitutional History of England*, vol. i. ch. 41.

Illaudably, *adv.* In an *illaudable* manner.

It is natural for all people to turn, not *illaudably*, too favourable a judgement of their own country.—*Brown*.

Illecebreous, *adj.* [Lat. *illecebre*—allurements.] Full of allurements.

Not the *illegitima* decorations of Venus, but the valiant acts and noble affairs of princes.—*Sir T. Egge, The Carver's*, fol. 10.

The study is elegant, and the matter *illegitima*, that is to say, sweet to the reader.—*Ibid.*, fol. 120, b.

Illegit. adj. [Lat. *legalis*, from *lex*, *legis*—law.] Contrary to law.

No intent can oblige the subject against law, unless an *illegal* patent passed in one kingdom can bind another, and not itself.—*Smith*.

Illegality. s. Contrariety to law.

He wished them to consider what votes they had passed, of the *illegality* of all those commissions, and of the unjustifiableness of all the proceedings by virtue of them.—*Lord Clarendon, History of the Grand Rebellion*.

After the restoration from the captivity, down to the days of our Saviour, the priests were notoriously generals, soldiers, judges, statesmen, and chief ministers of state; and even kings; without any respect or mark of *illegality* taken notice of by our Saviour, or his Apostles, just as they might be teachers in the synagogue, and doctors of the law. But they enjoyed none of these posts in right of their priesthood; they were only allowed to them as to any other qualified Jew.—*Bishop Story, On the Priesthood*, p. 33.

Illegally. adv. In an illegal manner.

Matches *illegally* struck up, contrary to the pretended conditions.—*Bishop Hall, Cases of Conscience*, 179.

Illegible. adj. [Lat. *legibilis*, from *lego*—read.] Incapable of being read.

The secretary poured the ink-box all over the writings, and so defaced them that they were made altogether *illegible*.—*Hovell*.

Illegitimacy. s. Condition of one unlawfully begotten.

There was convincing evidence of *illegitimacy*, though never was possible.—*Taylor, Principles and Practice of Medical Jurisprudence*, ch. xliii.

Illegitimate. adj. [Lat. *legitimus*—lawful, legitimate.] Unlawfully begotten.

Grieve not at your state; For all the world is *illegitimate*.—*Charlton*.
Hence *illegitimate*, I was deprived of that endearing tenderness and uncommon satisfaction, which a good man finds in the love and conversation of a parent.—*Johnson, Spectator*.

Illegitimate. v. a. Render illegitimate; prove a person illegitimate.

The cardinal, his uncle, would first have *illegitimated* him.—*Sir H. Wotton to Sir E. Bacon, Remains*, p. 479.
Born with a legal claim to honour and to affluence, he was in two months *illegitimated* by the parliament.—*Johnson, Lives of the Poets, Savage*.

Illegitimation. s.

1. State of one not begotten in wedlock.

Richard III. had a resolution, out of his hatred to both his brethren, to dissolve their issues, upon false and incompetent pretences, the one of attainting, the other of *illegitimation*.—*Bacon, History of the Reign of Henry VII.*

2. Want of genuineness.

Many such like pieces, which, neither in their sense nor idiom agreeable with the times they pretend to, do bear in their very fronts the apparent brands of *illegitimation*.—*Dean Martin, Letters*, p. 67: 1682.

Illesive. adj. [Lat. *læsus*, pass. part. of *lædo*—hurt.] Not injurious or hurtful; innoxious.

Their places of resort might be so fitted with instruments, as they might be like academies of instruction and proficiency, and these they might sweeten with the adding of *illesive* games.—*Pallham, Remains*, 84. (Ord MS.)

Illeivable. adj. That cannot be levied or exacted.

He rectified the method of collecting his revenue, and removed obnoxious and *illeivable* parts of charge.—*Sir M. Hale*.

Illeliberal. adj. [Lat. *liberalis*, from *liber*—free.]

1. Not noble; not ingenuous.

'Tis certainly as easy to be a scholar as a gamester, or many other characters equally *illeliberal* and low.—*Harrius, Hermes*, b. iii. ch. v. (Ord MS.)

2. Mean, as unconnected with the liberal arts.

There is no art, neither liberal nor *illeliberal*, but it cometh from God, and leadeth to God.—*Fotherby, Athanasius*, p. 173: 1682.

3. Not classic; or prosalike.

Whenever you write Latin, remember that every word or phrase which you make use of, but cannot find in Cæsar, Cicero, Livy, Horace, Virgil, and

Ovid, is bad, *illeliberal* Latin, though it may have been written by a Roman.—*Lord Chesterfield, Letters*, 144. (Ord MS.)

Illeliberality. s. Meanness of mind; parsimony; nigardliness; want of munificence.

The *illeliberality* of parents, in allowance towards their children, is an infamous error, and acquaints them with shifts.—*Bacon*.

Illicit. adj. [Lat. *licitus*—allowed.] Unlawful.

He was licentious, profane, corrupt, too proud to behave with common politeness, yet not too proud to pocket *illicit* gain.—*Macaulay, History of England*, ch. iv.

Illicit. v. a. Enliven. Barbarous.

Corporal light cannot be, because then it would pierce the air, nor disilluminate bodies; and yet every day we see the air *illicit*.—*Sir W. Raleigh*.

To *illicit* every one that cometh into it, [the world].—*Galatree, God's Eye upon Israel*, preface: 1645.

Illicted. part. adj. Enlightened.

Illicted minds see a greater lustre in knowledge than in the blue gold.—*Bishop Reynolds, On the Passions*, ch. xxviii.

This tale comes to Chrysostome by a third person, not by the *illicted* saint himself.—*Sheldon, Miracles of Antichrist*, p. 78: 1616.

Ilmitable. adj. Incapable of being bounded or limited.

Although in adoration of idols, unto the subtiler heads, the worship perhaps might be symbolical; yet was the idolatry direct in the people, whose credulity is *ilmitable*, and who may be made believe that any thing is God.—*Sir T. Browne*.

With what an awful world-revolving power, Were first th' unwelsh planets launch'd along The *ilmitable* void!—*Thomson, Seasons, Summer*.

Ilmitation. s. What admits of no certain determination. Rare.

The *ilmitation* of age, and the miseries that attend it.—*Bishop Hall, Bala of Gilead, Of Old Age*, § 1.

Ilimited. part. pref. Unbounded; interminable; unlimited.

They saw his power *ilimited* and irresistible.—*Bishop Hall, Contemplations*, h. iv.

In the former parts, the omnipotence of a Christian suffered no restraint; it was *ilimited*, unconfined.—*Hales, Golden Remains*, p. 126.

Neither doth the use or exercise of this dominion depend upon any one, so as to receive any direction or regulation, or to render any account of the administration of it; as being *ilimited*, absolute, and supreme; and so the fountain from whence all dominion in any other is derived.—*Bishop Pearson, Exposition of the Creed*, art. i.

Ilmitedness. s. Attribute suggested by *ilimited*; exemption from all bounds.

The absoluteness and *ilmitedness* of his commission was generally much spoken of.—*Lord Clarendon, History of the Grand Rebellion*.

Iliteracy. s. Want of letters or learning.

As I believe that what I have mentioned gave rise to the opinion of Shakespeare's want of learning; so what has continued it down to us may have been the many blunders and *iliteracies* of the first publishers of his works.—*Boyle, Preface to Shakespeare*.
The deplorable condition of indigence and *iliteracy*.—*T. Warton, History of English Poetry*, ii. 452.

Iliteral. adj. Not literal. Rare.

Descending under the earth, is a translation most of all unexact and *iliteral*.—*Dr. Dawson, Texts on the Logos*, p. 251: 1765.

Iliterate. adj.

1. Unlettered; untought; unlearned; unenlightened by science: (applied to persons).

The duke was *iliterate*, yet had learned at court to supply his own defects, by the drawing unto him of the best instruments of experience.—*Sir H. Wotton*.

The *iliterate* writer, empirick like, applies To minds diseas'd unsafe chance remedies: The learn'd in schools, where knowledge first began, Studies with care th' anatomy of man; Sees virtue, vice, and passions in their cause, And fame from science, not from fortune draws.

In the first ages of Christianity not only the learned and the wise, but the ignorant and *iliterate*, embosom'd torments and death.—*Archbishop Tillotson*.

2. Unlearned; rude; barbarous: (applied to things).

There are in many places heresy and blasphemy, and impertinence, and *iliterate* rudeness.—*Jeremy Taylor, On Extremity Prayer*.

Iliterateness. s. Attribute suggested by *iliterate*; want of learning; ignorance of science.

Many acquainted with chymistry but by report, have, from the *iliterateness* and impudence of those that pretend skill in it, entertained an ill opinion of the art.—*Boyle*.

There needs no other argument of the *iliterateness* of these people [the Spaniards], and indeed of the slender growth of Christian religion there, than the very canons which were established by the council held in Aranda, in the year 1573, whereof one was, That every priest should be bound to say mass at least three or four times every year; and another, That the chief benefices and dignities should not be conferred upon any who did not understand grammar, & *linguam que non sepa grammatica*.—*Charlevoix, Travels*. (Ord MS.)

Iliterature. s. Want of learning.

The more usual causes of this deprivation are want of holy orders, *iliterature*, or inability for the discharge of that sacred function, and irreligion.—*Ayliffe, Paraphrase upon Canonic*.

They, who in their present *iliterature* were so prone to sedition, . . . would be much more so if heated by bookish speculations.—*L. Addison, Description of Federal's Harbory*, preface: 1671.

If the historian intended merely to arraign the abots of *iliterature*.—*H. Warton, Specimens of Barnes's Errors*, p. 63.

Ilnature. s. Habitual malevolence; want of humanity.

Ilnature inclines a man to those actions that thwart and sour and disturb conversation, and consists of a propensity to do ill turns, attended with a secret joy upon the sight of any mischief that befalls another, and of an utter insensibility to any kindness done him. South, Sermons.

Ilnature. adj.

1. Habitually malevolent; wanting kindness or good-will; mischievous; desirous of another's evil; mobhiving.

These ill qualities dominate a person *ilnatured*, they being such as make him grievous and uneasy to all whom he deals and associates himself with.—*South, Sermons*.

Stay, silly bird, th' *ilnatured* hawk refuse; Nor be the hearer of unwhimsical news.—*Addison, Translation from Ovid*.

2. Intractable; not yielding to culture.

The family studies of increase, Rich foreign mould on their *ilnatured* hand induce.—*J. Philips, Cyder*, b. i.

Ilness. s. Attribute suggested by *ill*.

1. Badness or inconvenience of any kind, natural or moral; wickedness.

That wouldst be great; Art not without ambition; but without The *illness* should attend it.

He that has his chains knocked off, and the prison doors set open, is perfectly at liberty, though his preference be determined to stay, by the *illness* of the weather.—*Locke*.

2. Sickness; malady; disorder of health.

Since the account her majesty received of the insolent faction, during her late *illness* at Windsor, she hath been willing to see them deprived of power to do mischief.—*Swift*.

Illogical. adj.

1. Ignorant or negligent of the rules of logic, or reasoning.

One of the dissenters appeared to Dr. Sanderson so bold and *illogical* in the dispute, as forced him to say he had never met with a man of more pertinacious confidence and less ability.—*J. Walton*.

2. Contrary to the rules of logic, or reason.

Reason cannot dispute and make an inference so utterly *illogical*.—*Dr. H. More, Discourse of Christian Piety*.

Ilstarred. adj. Influenced by evil stars with respect to fortune; unlucky.

O, *il-starred* lovers! what avail it me To have thy love? I have mine, what boots it thee?—*Panthea, Translation of Guarini's Pastor Fido*.
Il-starred birds, that listening, not admiring.

Il-starred, though brave, did no vision foreboding Tell you that Fate had broken your course; Say, were you destined to die at Culloden? Victory graced not your fate with applause.—*Byron, Hours of Idleness*.

Ilude. v. a. [see *Illusion*.] Deceive; mock; impose on; play upon; torment by some contemptuous artifices of mockery.

Sometimes althwart sometimes he strook him straight And felled off his blow, & *ilude* him with such bait.

If the solitaires of these rocks do not *ilude* me.—*Shelton, Translation of Don Quixote*, iv. 1.

In vain we measure this amazing sphere,
And find and fix its centre there or here;
While its circumference, according to be brought
Ev'n into fancy'd space, *illuminates* our vanquish'd thought.
Prior, *Solomon*, b. 1.

illúme, v. a. [see *illuminate*.]

1. Enlighten; illuminate.

When you same star, that's westward from the pole
Had made his course, 't *illúme* that part of heav'n,
Where now it burns. *Shakespeare, Hamlet*, l. 1.

2. Brighten; adorn.

The mountain's brow,
illúme'd with fluid gold, his near approach
Betoken. *Thomson, Seasons, Summer*.

illuminant, s. That which illuminates.

Speaking of light substantially, 'tis so far from
arguing a divine nature in the bodies that are en-
riched with it, whether, as the planets, by partici-
pation from an external *illuminant*, or as the sun
from an internal principle; that a burned stone,
withness that of Iodonia, will afford, in proportion to
its bulk, incomparably more borrowed light than
one of the planets.—*Boyle, Free Enquiry*, p. 117.
(Ord MS.)

illúminate, v. a.

1. Enlighten; supply with light.

No painting can be seen in full perfection, but as
all nature is *illuminated* by a single light.—*Sir H. Wotton*.

He made the stars,
And set them in the firmament of heaven,
To *illúminate* the earth and rule the night.
Milton, Paradise Lost, vii. 348.

Reason our guide, what can she more reply
'Than that the sun *illúminate* the sky?
'Than that night rises from his absent ray,
And his returning lustre kindles day?
Prior, Solomon, b. 1.

2. Adorn with festal lamps or bonfires.

3. Enlighten intellectually with knowledge or grace.

When he *illúminates* the mind with supernatural
light, he does not extinguish that which is natural.
—*Locke*.

4. Adorn with pictures or initial letters of
various colours.

5. Illustrate.

My health is insufficient to amplify these remarks,
and to *illúminate* the several pages with variety of
examples.—*Watts*.

That famous and truly *illuminatè* doctor, Francis
Junius, the glory of Leyden.—*Bishop Hall, Epistles*.
A pious, pure, *illuminatè* brother!

B. Jonson, Volpone.

illúminate, s. One of the Illuminati.

These new *illuminates* have such evening shifts
ith them.—*Wotton, Quædlibet of State*, p. 44:
bæc.

Not unlike the refined and quiet *illuminatè* of
our time.—*Law, Essay of Brightest Beauty*, p. 15:
bæc.

Such *illuminatè* are our classical brethren.—
Bishop Montagu, Appeal to Cæsar, p. 16: 1625.

illúminated, part. adj. In Bibliography.

Having letters with pictorial ornamenta-
tions, i. e. with the fourth sense of *illu-
minate*.

With what eagerness I pictures, medals, and
illuminatè missals have been brought forth from
... est mysterious cabinets for her amusement!
*Mason, Critical and Historical Essays, Diary
and Letters of Madame F. Ardis*.

Used substantively. *Illuminates*.

It has been maintained, or implied, that all exist-
ing denominations of Christianity are wrong, none
representing it as taught by Christ and His apostles;
that it distorts of the world at its birth; ... that it
has existed indeed among men ever since, and exists
at this day, but as a secret and hidden doctrine,
which does not receive here and there a supernatural
influence in the hearts of individuals, and is
manifested to the world only by glimpses, or in
phases, according to the number or the station of
the *illuminatè*, and their connexion with the history
of the four times.—*H. Newman, Essay on the
Development of Christian Doctrine*, internal.

illuminatè, s. [Lat. plural of *illuminatus*;

Italian, *illuminato* = enlightened.] Persons
pretending to special spiritual or intellec-
tual illumination, several sects having, at
different times and places, borne the name.

Another pestilential seed there was, not long since,
of *illuminatè* in Armenia, whose fathers were a
hypocritical crew of their priests; who, abiding in
themselves and their followers a certain angelical
purity, fell suddenly to the very counterpoint of
justifying baseness.—*Sir E. Sandys, State of Arme-*

illumination, s.

1. Act of supplying with light.

The *illumination* of manuscripts borrowed their
title from the illumination which a bright genius
gives to his work.—*Acton, Dissertation on Reading
the Classics*.

2. That which gives light.

The sun is but a body lightened, and an *illumi-
nation* created.—*Sir W. Raleigh, History of the
World*.

3. Festal lights hung out as a token of joy.

Flowers are strew'd, and lamps in order plac'd,
And windows with *illuminations* grac'd.
Dryden, Translation of Persius.

4. Infusion of intellectual light, knowledge,
or grace.

Hymns and psalms are such kinds of prayer as
are not conceived upon a sudden; but framed by
meditation beforehand, or by prophetic *illumina-
tion* are inspired.—*Hooker, Ecclesiastical Polity*.

illuminative, adj. Having the power to
give light.

What makes itself and other things be seen, being
accompanied by light, is called fire: what admits
the *illuminative* action of fire, and is not seen, is
called air.—*Sir E. Digby, Treatise on the Nature of
 Bodies*.

illuminator, s.

1. One who gives light.

Chaucer, writing his poeasies in English, is of some
called the first *illuminator* of the English tongue.—
Forsteyn, Ecceitiation of Decayed Intelligence,
ch. vii.

2. In Bibliography. One who illuminates.
(For example see *Illumination*, l.)

illúmine, v. a.

1. Enlighten; supply with light.

His understanding was *illuminé* with the beams
of divine truth.—*Tracy, Prince Henry's Annu-
al*, p. 12: 1618.

To comfort his words, outflow
Millions of flaming swords, drawn from the thighs
Of mighty cherubim; the sudden blaze
Far round *illuminé* hell.

Milton, Paradise Lost, l. 663.

What in me is dark,
illúmine! what is low, raise and support!
Idid, l. 25.

Now here was this species of recreation more hap-
pily conducted than at the Duchess de G.—*Id*.
The rooms, though small, decorated with taste,
brightly *illuminé*; a handsome and gracious host-
ess, the Duke the very pearl of gentility, and
and daughters worthy of such parents.—*Diary of
Contagion*, b. vi. ch. l.

2. Decorate; adorn

To Calu, Judah paid one honest line;
O let my country's friends *illúmine* mine. *Pope*.

illúsiôn, s. [Lat. *illusio*, -onis, from *illudo*
= play with, mock; pass. part. *illusus*.]
Mockery; false show; counterfeit appear-
ance; error.

There wanted not some about him that would
have persuaded him that all was but an *illúsiôn*.—
Bacon, History of the Reign of Henry VII.

We must use some *illúsiôn* to render a pastoral
delightful; and this consists in exposing the best
she only of a shepherd's life, and in concealing his
miseries.—*Pope*.

illúsiive, adj. Deceiving by false show.

The heathen lands, who idle fables dress,
illúsiive dreams in mystic forms express.

Sir R. Blackmore.

illúsiory, adj. Deceiving; fraudulent.

Sultrily, in those who make profession to teach
or defend truth, hath passed for a virtue; a virtue
indeed, which, consisting for the most part in with-
holding out the fallacious and *illúsiory* use of obscure
or deceitful terms, is only fit to make men more
convinced in their ignorance.—*Locke*.

illústrate, v. a.

1. Brighten with light.

Then let us borrow from the glorious sun
A little light to *illústrate* this net.
Dr. H. More, Song of the Soul, l. 2, 7.

2. Brighten with honour.

Matter to me of glory! whom their hate
illústrates, when they see my regal power
Given me to quell their pride.
Milton, Paradise Lost, v. 738.

3. Explain; clear; elucidate.

Authors take up popular conceits, and from tra-
dition unjustifiable, or false, *illústrate* matters of
undeniable truth. *Sir T. Browne*.

illústration, s. Explanation; elucidation;
exposition; (it is seldom used in its ori-
ginal signification for material brightness).

Whoever looks about him will find many living
illústrations of this emblem.—*Sir E. L. Estrange*.

Space and duration, being ideas that have some-
thing very obscure and peculiar in their nature, the
comparing them one with another may perhaps be
of use for their *illústration*.—*Locke*.

illústrative, adj. (in the extrinsic *illústrative*.)
Having the quality of elucidating or clear-
ing.

Purging and pruning with all industry,
What's dead or useless, less demonstrative,
What's dull or barid, nought *illústrative*.

Dr. H. More, Song of the Soul, l. 2, 41.

illústrator, s. One who illustrates, bright-
ens, clears, or beautifies.

The right gracious *illústrator* of virtue
*Chapman, Sonnets at the end of his
Translation of Homer*.

illústrious, adj.

1. Bright; shining.

Shaking his *illústrious* tresses,
Sandys, Translation from Ovid, b. ii.
His locks behind,
illústrous on his shoulders flows with wings,
Lay waning round. Milton, Paradise Lost, iii. 626.

2. Conspicuous; noble; eminent for excel-
lence.

In other languages the most *illústrious* titles are
derived from things sacred.—*South, Sermons*.

illúxurious, s. Not luxurious. *Rare*.

The widow Andover and her two daughters
quitted the *illúxurious* soil of their native country,
for the more elegant pleasures of the English court.
—*Earl of Orrery, Remarks on the Life and Writings
of Dr. Swift*.

imáge, s. [Fr. *image*; Lat. *imago*.]

1. Any corporeal representation, generally
used of statues; statue; picture.

Whose is this *image* and superscription? *Mat-*

thews, xxi. 20.
This *image* of a deity may be a proper object for
that which is but the *image* of a religion.—*South*.

Still must I be upbraid'd with your line;
But your late brother did not prize me less,
Because I could not boast of *image*. *Dryden*.

2. Idol; false god.

Manasseh set the carved *image* in God's house. —
2 Chronicles, xxxiii. 7.

3. Copy; representation; likeness.

I have bereft a worthy husband's death,
And liv'd by looking on his *image*;
But now two mirrors of his princely countenance
Are crack'd in pieces by unkindly death.

Shakespeare, Richard III. ll. 2.
He made us to his *image* all agree;
That *image* is the soul, and that must be,
Or not the maker's *image*, or he free. *Dryden*.

4. Semblance; show; appearance.

This is the man should do the bloody deed;
The *image* of a wicked heinous fault
Lives in his eye; that close aspect of his
Does show the mood of a much troubled breast.

Shakespeare, King John, iv. 2.

The face of things a frightful *image* bears,
And present death in various forms appears.
Dryden, Translation of the Æneid.

5. Idea; representation of anything to the
mind; picture drawn in the fancy.

The *image* of the best
I'll show you here at large.
Shakespeare, Merry Wives of Windsor, iv. 4.

Outcasts of mortal love! can we conceive
Image of night, delight, soft, or great? *Prior*.

When we speak of a figure of a thousand angels,
we may have a clear idea of the number and thou-
sand angels; but the *image*, or sensible idea, we
cannot distinguish by fancy from the *image* of a
figure that has nine hundred angels.—*Watts*.

imáge, v. a. Copy by the fancy; imagine.

How are immaterial substances to be *imagé*,
which are such things whereof we can have no
notion? *Dryden*.

Fate some future hard shall bid join
In sad similitude of griefs to mine,
Condemn'd whole years in absence to deplore,
And *image* charms he must behold no more. *Pope*.

imágerý, s.

1. Sensible representations; pictures; sta-
tuës.

Of marble stone was cut
An altar, carv'd with cunning *imágerý*.
Spenser, Faerie Queene.

When in those oratories night you see
Rich carvings, portraiture, and *imágerý*;
Where every figure to the life express'd
The godhead's power. *Dryden, Palamon and Arcite*, ll. 465.

Your gift shall two large globes be
Of silver, wrought with curious *imágerý*.
And high engrav'd. *Id.*, *Translation of Spenser*.

2. Representations in writing; such descrip-

tions as force the image of the thing described upon the mind.

I wish there may be in this poem any instance of *real imagery*.—*Dryden*.

3. Show; appearance.

Things of the world fill the imaginative part with beauties and fantastic images.—*Jeremy Taylor*.
What can thy *imagery* of sorrow mean?
Secluded from the world, and all its care,
Hast thou to grieve or joy, to hope or fear? *Prior*.
All the visionary beauties of the prospect, the paint and *imagery* that attracted our senses, fade and disappear.—*Rogers*.

4. Forms of the fancy; false ideas; imaginary phantasies, &c.

It might be a mere dream which he saw; the *imagery* of a melancholic fancy, such as musing men mistake for a reality.—*Bishop Atterbury*.

5. Form; make.

They are our brethren, and pieces of the same *imagery* with ourselves.—*Felltham, Remains*, ii. 53.

Imaginable. adj. Capable of being imagined.

It is not *imaginable* that men will be brought to play what they cannot esteem.—*South, Sermons*.
Men, sunk into the greatest darkness *imaginable*, retain some sense and awe of a Deity.—*Archbishop Tillotson*.

Imaginate. adj. Imagining; forming ideas.

We will enquire what the force of imagination is, either upon the body *imaginate*, or upon another body.—*Bacon*.

Imaginant. s. One who imagines, exercises, practises, or sports with, the imagination.

Imagination is the power and art of imagination, more intensive upon other bodies than the body of the *imaginant*.—*Bacon, Advancement of Learning*, i. d.

The air of common report, or the single testimony of some superstitious and melancholy *imaginant*.—*J. Spencer, Discourse concerning Prodiges*, p. 223: 1755.

Imaginary. adj. Fancied; visionary; existing only in the imagination.

Fortune is nothing else but a power *imaginary*, to which the successes of human actions and endeavours were for their variety ascribed.—*Sir W. Raleigh, History of the World*.

Why wilt thou add to all the griefs I suffer *imaginary* ills and fancied tortures?—*Addison, Cato*.

Imagination. s.

1. Fancy; power of forming ideal pictures; power of representing things absent to one's self or others.

Imagination I understand to be the representation of an individual thought. *Imagination* is of three kinds: joined with belief of that which is to come; joined with memory of that which is past; and of times present, or as if they were present; for I comprehend in this *imagination* figured and as present, as if one should imagine such a man to be in the vestments of a pope, or to have wings.—*Bacon*.

Our simple apprehension of corporeal objects, if present, is sense; if absent, *imagination*: when we would perceive a material object, our fancies present us with its likeness.—*Glanville*.

2. Conception; image of the mind; idea.

Sometimes despair darkens all her *imaginings*; sometimes the active passion of love cheers and shakes her invention.—*Sir P. Sidney*.

Princes have but their titles for their glories, An outward honour for an inward toil; And, for most *imaginings*, They often feel a world of restless cares.

—*Shakespeare, Richard III.* i. 4.

Better I were distressed, So should my thoughts be weeded from my griefs; And woe, by wrong *imaginings*, lose The knowledge of themselves. *Id.* *King Lear*, iv. 6.
His *imaginings* were often as just as they were bold and strong.—*De Witt*.

3. Contrivance; scheme.

Thou hast seen all their vengeance, and all their *imaginings* against me.—*Lamentations*, iii. 60.

4. Unsolid or fanciful opinion.

We are apt to think that space, in itself, is actually boundless; to which *imagination*, the idea of space, of itself leads us.—*Locke*.

Imaginative. adj.

1. Having an active, full of, imagination.

Witches are *imaginative*, and believe oftentimes they do that which they do not.—*Bacon, Natural and Experimental History*.

2. Characterized by imagination.

Jeopetters and restraints upon the *imaginative* and fantastic part, because our fancy is usually pleased with the entertainment of shadows and

enough.—*Jeremy Taylor, Rule and Exercise of holy Living*.

The genius of Dryden is neither very *imaginative* nor very pathetic, but he is an agreeable and weighty writer, with an ardour if not a highly creative fancy.—*Cruik, History of English Literature and the English Language*, vol. i. p. 536.

Imaginé. v. a. Fancy; paint in the mind; devise; scheme; contrive.

They intended well against thee, they *imaginé* a mischievous device.—*Psalms*, xli. 11.

Imaginer. s. One who imagines, who forms ideas.

The juggler took upon him to know that such an one should paint in such a place of a garter that was laid up; and still he did it, by first telling the *imaginer*, and after adding the actor think.—*Bacon, Natural and Experimental History*.

Imagining. verbal abs. Act of one who imagines; fancy; imagination; thing imagined.

Present fears

Are less than horrible *imaginings*.

—*Shakespeare, Macbeth*, i. 3.
Among that large class of young persons whose reading is almost entirely confined to works of imagination, the popularity of Lord Byron was unbounded. . . . Many of them practised at the glass in the hope of catching the curl of the upper lip, and the sweep of the brow, which appear in some of his portraits. A few discarded their neckcloths in imitation of their great leader. For some years the *Misery* press sent forth no novel without a mysterious, unhappy, Lara-like peer. The number of hopeful undergraduates and medical students who became thinkers of dark *imaginings*, on whom the freshness of the heart ceased to fall like dew, whose passions had consumed themselves to dust, and to whom the relief of tears was denied, knows all calculation.—*Macaulay, Critical and Historical Essays, Life of Lord Byron*.
But pauper not a hasty time,
Nor feed with crude *imaginings*
The herd, wild hounds and feeble wings,
That every sophister can throw.

—*Tranyson*.

Imaginous. adj. Imaginative. Rare.

Others that he awaked out of this *imaginous* sleep, and due now indeed truly repent and believe, find many wants, much defectiveness, in their repentance, their faith, their hope, their fear of God.—*Gutaker, Just Man*, 235. (Ord M.)

Imago. s. [Lat.] In Entomology. Full-formed insect: (as opposed to Chrysalis and Larva).

The stages through which insects pass are four: the egg, the larva, the pupa, and the *imago*.—*Kirby and Spence*, (Ord M.)

The physiologist very well knows, that throughout the animal kingdom in general, the actions are dependent on the nervous structure. He knows that each reflex movement implies the agency of certain nerves and ganglia; that a development of complicated instincts, is accompanied by a complication of the nervous centres and their commissural connections; that in the same creature in different stages, as larva and *imago* for example, the instincts change as the nervous structure changes; and that as we advance to creatures of high intelligence, a vast increase in the size and complexity of the nervous system takes place.—*Herbert Spencer, Principles of Psychology*.

To keep this commandment *immaculate* and blameless, to teach the Gospel of Christ.—*Hosker, Ecclesiastical History*.

The king, whom catholics count a saint-like and *immaculate* prince, was taken away in the flower of his age.—*Bacon*.

Immaculeable. adj. [Lat. *malleus* = hammer.]

Not to be wrought upon; not to be impressed.

On the stiffness of a British soil! how *immaculeable* does it render their stony natures to the force of all humane impressions!—*Memoirs of Sir Edmund Burke*, p. 79: 1802.

Immanation. s. [Lat. *manu* = flow; pass.

part. *manatus*.] Flowing, or streaming, in of anything (actually or figuratively); influx (to which it is, etymologically, unapproximate synonym; *fluo* = flow).

A quick *immanation* of continuous fantasies.—*Lamb, Letter to Coleridge*.

Immane. adj. [Lat. *immunis*.] Vast; prodigiously great. *Obsolete*.

Immane Archers, weeping Phylades,

Orion, who with storm plows up the seas.

Saul's, *Paraphrase of the Book of Job*, p. 15. What *immane* difference is there between the twenty-fourth of February, and commencement of March?—*Kriegel*, b. i. ch. xvii. § 3.

Often coupled with *cruelty*; indeed, (Cockeran's definition of the word is 'immune, cruel, wild.'

Doth it not appertain to the just judgement of God to avenge such *immune* *cruelties*?—*Sheldon, Miracles of Antichrist*, p. 179: 1610.

Those *immane* *cruelties*, which divers have exercised upon men's dead bodies.—*Fotherby, Atheism*, p. 297: 1622.

Immanely. adv. In an immane manner; monstrously; cruelly.

They have not done the same by the power of miracles and integrity of life, but only by dint of sword, which did so *immanely* and barbarously make havoc of them, to the destruction of some millions.—*Sheldon, Miracles of Antichrist*, p. 178.

A man of excessive strength, valiant, liberal, and fair of aspect, but *immanely* cruel.—*Milton, History of England*, b. i.

Immanency. s. Internal dwelling.

The *immanency* and inherency of this power in Jesus is evident in this, that he was able to communicate it to whom he pleased.—*Bishop Pearson, Exposition of the Creed*, art. ii.

Immanent. adj. [Lat. *im* = in + *manens*,

-entis, pres. part. of *maneo* = wait, tarry, remain.] Intrinsic; inherent; internal.

Judging the infinite essence by our narrow senses, we ascribe intellectual, volitional, and such like *immanent* actions, to that nature which hath nothing in common with us.—*Glanville*.

What he wills and intends once, he wills and intends from all eternity; it being grossly contrary to the very first notions we have of the infinite perfections of the Divine Nature to make or suppose any new *immanent* act in God.—*South, Sermons*.

Immanifest. adj. Not manifest; not plain.

Rare.

A time not much unlike that which was before time, *immanifest* and unknown.—*Nir T. Browne, Vulgar Errors*.

Immanity. s. [See Immune.] Barbarity; savageness.

It was both impious and unnatural, That such *immanity* and bloody strife Should reign among professors of one faith.

Shakespeare, Henry VI. Part I. v. 1. We shall be then most assured to taste of their fierce *immanity*.—*Sheldon, Miracles of Antichrist*, p. 138.

A belline kind of *immanity* never ranged so among men.—*Howell, Letters*, ii. 35.

The poet brings in his goddess blaming the rusticks for their *immanity*.—*Sir T. Herbert, Relation of some Years' Travels into Africa and the Great Asia*, p. 38.

Immarcescible. adj. [Lat. *marceo* and *marcesco* = wither, fade.] Unfading. *Rare*.

So minister abdicating, that you forget not mercy; that when the Chief Shepherd shall come, you may

perceive the *immarcescible* crown of glory, through Jesus Christ our Lord.—*Form of Consolation of Bishops*, 1629.

This crown, which Thou hast hid up for us, is *immarcescible*.—*Bishop Hall, Meditations of the Love of Christ*, § 11.

They were inflamed with the desire of enlarging the kingdom of Christ here, and of obtaining that *immarcescible* crown hereafter.—*Dr. H. More, Exposition of the Seven Churches*, ch. iii.

Not for a garland of flowers, but for wreaths of *immarcescible* glory.—*Hallivell, Melanconia*, p. 108.

If the prize which we expect in the race of our imperfect obedience be an *immarcescible* crown.—*Bishop Pearson, Exposition of the Creed*, art. ii.

Immarcescibly. adv. In an *immarcescible* manner. *Rare*.

The honour that I now reach at, is no less than a crown, and that not fading and corruptible, as all the earthly diadems are, but *immarcescibly* eternal, a crown of righteousness, a crown of glory.—*Bishop Hall, Immortal World*, b. ii. 12. (Ord 34.)

Immortal. adj. Not mortal or warlike. *Rare*.

My powers are unlit,

Myself *immortal*.

Chapman, Translation of the Odyssey.

Immátchable. adj. Incapable of being matched; peerless. *Barbarous*.

Where learned More and Gardiner I met,

Men in those times *immátchable* for wit.

Mirror for Magistrates, p. 530.

Immaterial. adj.

1. Incorporeal; distinct from matter; void of matter.

Angels are spirits *immaterial* and intellectual, the glorious inhabitants of those sacred palaces, where there is nothing but light and immortality; no shadow of matter for tears, discontents, and misanthropic passions to work upon; but all joy, tranquillity, and peace, even for ever and ever to dwell.—*Hosker, Ecclesiastical History*.

As then the soul a substance hath alone;

Besides the body, in which she is contain'd;

So hath she not a body of her own,

But is a spirit and *immaterial* mind.

Sir J. Davies, On the Immortality of the Soul.

2. Unimportant; without weight; impertinent.

It may not be *immaterial* to add, that the dramatic pieces above spoken of shared the same fate.

—*Stafford, Life of Pope*, p. 21. (Ord M8.)

It may seem *immaterial* whether we shall not recollect each other hereafter.—*Cooper*. (Ord M8.)

Immaterialism. s.

1. Immateriality.

A wise like to wet fingers drawn on glass,

Which sets the teeth on edge; and a slight clatter

Like showers which on the midnight guests will pass,

Resounding like very supernatural water,

Come over Juan's ear, which threshold, alas!

For *immaterialism* is a serious matter;

So that even those whose faith is the most great

In souls immortal, shun them like the plague.

Byron, Don Juan, xvi. 114.

2. Doctrine by which the existence of matter is denied.

Immaterialist. s. See Materialist.

Immateriality. s. Incorporeity; distinctness from body or matter.

There are sicknesses that walk in darkness, and in exterminating angels that fly waft up the curtains of *immateriality*.—*Jeremy Taylor, Sacred Sermons on the Consolation of Charity*.

Few perhaps at present, who believe in the *immateriality* of the human soul, would deny the same to an elephant.—*Hallam, Introduction to the Literature of Europe in the fifteenth, sixteenth, and seventeenth centuries*, pt. iv. ch. iii. § 116.

Immaterialize. v. a. Render immaterial; invest with the character of immateriality.

Immaterialized. part. adj. Distinct from matter; incorporeal.

Though wisdom in the most fixed cognition be no trouble to *immaterialized* spirits, yet is more than our embodied souls can bear without assault.—*Glanville, Scipio's Scintilla*.

Immaterialize. adj. Not consisting of matter; incorporeal; wanting body. *Rare*.

It is a virtue which may be called *immaterial* and *immaterialize*, whereas there be in nature but few.—*Bacon*.

Philosophy makes all *immaterialize* belongs to be created in this first day.—*Dr. H. More, Conjecturae Cabalisticæ*, p. 144.

Immature. adj. [Lat. *immaturus*.] 1. Not ripe, actually or figuratively.

Immature or unripe hopes.—*Dr. Jackson, Works*, iii. 329.

IMMA

2. Not perfect; not arrived at fulness or completion.

The land enterprise of Panama was an ill-measured and immature counsel, grounded upon a false account, that the passages were no better fortified than Drake had left them.—*Bacon*.

This is your time for faction and debate, for partial favour, and permitted hate: Let now your immature dismission cease, sit quiet.—*Dryden*.

3. Premature; hasty; early; come to pass before the natural time.

How were we affected here in England for prince Henry's immature death!—*Burton, Anatomy of Melancholy* p. 163.

We are released, and call not that death immature, if a man lives till seventy.—*Jeremy Taylor, Rule and Exercises of holy Living*.

Immaturity. *s.* Unripeness; incompleteness; state short of completion.

In state, many things at first are crude and hard to digest, which time and deliberation can supple and enervate; but in religion, wherein is no immaturity, nothing out of season, it were far otherwise.—*Milton, Reasons of Church Government urged against Prelacy*, li.

I might reasonably expect a pardon from the ingenious for faults committed in an immaturity of age and judgement.—*Chaulville*.

Immobility. *s.* [Lat. *immoebilis*; *mobilis*, from *mo*—flow, glide.] Want of power to pass. *Rare*.

From this phlegm proceed white cold tumours, viscosity, and consequently immobility of the joints.—*Arctus*.

Immeasurable. *adj.* Immense; not to be measured; indefinitely extensive.

Churches reared up to an height immeasurable, and adorned with far more beauty in their restoration than their founders before had given them.—*Hooker, Ecclesiastical Polity*.

Immeasured. *part. pres.* Unmeasured, this latter being the commoner word.

Gemmas, and such dreadful weights, As far exceeded men in their immensurable nights.—*Spenser, Faerie Queene*, li. 10, 8.

Immechanical. *adj.* Not according to the laws of mechanics. *Rare*.

We have nothing to do to show any thing that is immechanical, or not according to the established laws of nature.—*Chycre*.

Nothing will rear a head possessed with immechanical notions.—*Mend*.

Immediacy. *s.* Condition of that in immediate or direct relation to something else: (opposed to *indirect* or *mediate*); hence, as explained by Johnson, with the remark that it is a harsh word, and, as he believes, peculiar to Shakespeare, personal greatness; power of acting without dependence. See *Mediatize*.

He led our powers, Bore the commission of my place and person, The which immediacy may well stand up, And call itself your brother.—*Shakespeare, King Lear*, v. 3.

Immediato. *adj.* [Lat. *medius*—middle; *medium*—intermediate agent or way.]

1. Being in such a state with respect to something else as that there is nothing between them; proximate; with nothing in the way of a medium intervening.

Moses mentions the immediate causes of the deluge, the rains and the waters; and St. Peter mentions the more remote and fundamental causes, that constitution of the heavens.—*Barnes*.

2. Not acting by second causes.

It is much to be ascribed to the immediate will of God, who giveth and taketh away beauty at his pleasure.—*Abbot*.

Had *Hydra*, as he should have done, taken the same ground, the discourse would have run thus.—*Philomus*. Is not a substance a senseless being, or a being endowed with sense and perception?—*Hydra*. I cannot say.—*Philomus*. How do you mean you cannot say?—*Hydra*. I mean that like you, 'I know nothing' of any qualities of bodies save those I immediately perceive through the senses; and I cannot immediately perceive through the senses whether material substance is senseless or not.—*Philomus*. But you do not doubt that it is senseless?—*Hydra*. Yes; in the same way that you doubt my external reality—doubt whether I am anything more than one of your ideas. Did we not, at the beginning, *Philomus*, distinguish between things known immediately and things known mediately?—*Philomus*. Yes.—*Hydra*. Did you not make me admit that sensations are the only sensible things; that is, the

IMME

only things immediately perceived; and that I cannot know the causes of these sensations immediately, but can only know them mediately by reasoning.—*Philomus*. I did.—*Hydra*. And your whole argument is an attempt to show that these things which I know immediately—their things, whose existence I infer as the causes of my sensations, do not exist at all.—*Philomus*. True.—*Hydra*. How, then, can you put any trust in my reply, when I either say that matter is sensitive, or that it is not sensitive? The only sensitiveness that I can immediately perceive is in my own.—*Philomus*. You know that I am sensitive.—*Hydra*. Yes, but how? I see you turn when spoken to, and shrink when burned; from such facts, joined with my personal experiences, I infer that you are sensitive as I am; and if you must have an answer to your question, I infer that matter is not sensitive, because it shows no such signs.—*Philomus*. Well.—*Hydra*. Will you not see that if you adopt this answer your whole reasoning is vitiated? You set out to disprove a certain portion of my mediately knowledge. To do this, you now ask from me another portion of my mediately knowledge, as you have already asked several, and will, I suppose, ask more. You are combining these many portions of mediately knowledge, and will draw from them a conclusion; and this conclusion—this piece of mediately knowledge, you will, I suppose, offer to me in place of the mediately knowledge you would disprove. Certainly I shall reject it. I demand that every link in your argument shall consist of immediately knowledge. If that one of them is an inference, and not a thing immediately perceived by sense, I shall say that your conclusion has the same uncertainty with this that you combat, plus the uncertainty attendant on all argument. Say, I demand, were every step in your demonstration a piece of immediately knowledge, I should argue that as the inference you drew was but mediately knowledge, it could have no greater warrant than the adversary one.—*Robert Spenser, Principles of Psychology*.

3. Instantly; present with regard to time.

Immediate are my needs, and my relief Must not be lost and turn'd to me in words, But find supply immediate.—*Shakespeare, Timon of Athens*, li. 1.

Death denou'd that day, Which he presumes already vain and void, Because not yet inflicted, as he fear'd, By some immediate stroke.—*Milton, Paradise Lost*, x. 40.

But she, however, of victory sure, Contains the wealth in display'd; And need'd with more immediate power, Calls cruel silence to her aid.—*Prior, Ode to a Lady*.

Immediately. *adv.* In an immediate manner.

1. Without the intervention of any other cause or event.

It's acceptance of it, either immediately by himself, or mediately by the hand of the bishop, is that which vests the whole property of a thing in God.—*South, Sermons*.

2. Instantly; at the time present; without delay.

Her father hath commanded her to slip Away with Mendel, and with him at Elton Immediately to marry.—*Shakespeare, Merry Wives of Windsor*, iv. 6.

Immediato. *adj.* [Lat. *mediabilis*—capable of being cured.] Not to be healed; incurable.

For which immediato thou, Due to that time, we disdain heaven's certain'd, Wherein confusion absolutely reign'd.—*Mirrored for Magistrates*, p. 522.

Wherein had censured such abundance of malignant humours, that it might truly be said, it was immediato.—*Translation of Boetius*, p. 136: 1628.

My griefs not only pain me . . . But finding no redress, ferment and rage, Nor less than wounds immedicable, Rankle and fester, and gangrene To black mortification.—*Milton, Samson Agonistes*, 617.

Immelodious. *adj.* Not melodious; unmusical. *Rare*.

My life be as thou wast, when thou didst grow With thy green mother in some shady grove, When immelodious winds had made thee move.—*Dramas, Sonnet to his Love*.

Immemorial. *adj.* Past time of memory; so ancient that the beginning cannot be traced.

All the laws of this kingdom have some memorials in writing, yet all have not their original in writing; for some obtained their force by immemorial usage or custom.—*Sir M. Hale*.

By a long immemorial practice, and prescription of an age thorough and happy, they came to believe that for a reality, which, at first practice of it, they themselves knew to be a cheat.—*South, Sermons*.

IMME

Immense. *adj.* [Lat. *immensus*—unmeasured, and, in a secondary sense, vast.] Unlimited; unbounded; infinite.

O goodness infinite! goodness immense! That all this good of earth shall produce!—*Milton, Paradise Lost*, xii. 469.

As infinite duration hath no relation unto motion and time, so infinite or immense essence hath no relation unto body; but is a thing distinct from all corporeal magnitude, which we mean when we speak of immensity, and of God as of an immense being.—*Grew*.

Immenseness. *s.* Attribute suggested by Immense.

The immenseness of whose excellencies [is] too highly raised for us.—*Dr. H. More, Conjecturae Galilei*, p. 43.

The immenseness of the victory, and the consequences that might have attended it.—*Lord Clarendon, Life*, li. 512.

Immensity. *s.* Unbounded greatness; infinity.

By the power we find in ourselves of repeating, as often as we will, any idea of space, we get the idea of immensity.—*Locke*.

Immeasurable. *adj.* Not to be measured.

One God of immeasurable majesty.—*Old Poem in Ashmole's Theatrum Chemicum*, p. 308: 1652.

Immerge. *v. a.* [Lat. *mergo*—dip.] Put under, or as under, water.

Their heads are gross, their souls are immerg'd in matter, and drown'd in the mistiness of an unwholesome cloud.—*Jeremy Taylor, Sermons*, p. 208: 1653.

Immerit. *s.* Want of desert: (preferred by Johnson to *Demerit*).

When I receive your lines, and find there expressions of a passion, reason and my own immerit tell me it must not be for me.—*Sir J. Suckling*.

Immerited. *adj.* Not deserved: (Unmerited commoner).

Those on whom I have in the plenteous manner shower'd my bounty and immerited favour have darted on me.—*King Charles, in the Principall Poetics*, p. 270.

Immeritous. *adj.* Undeserving; of no value. *Rare*.

A truly immeritous, and undecaying discourse.—*Milton, Colasterion*.

Immerse. *v. a.* [Lat. *mersus*, pass. part. of *mergo*—sink, plunge.] Put under, or as under, water; sink or cover deep.

He stood More than a mile immerg'd within the wood; At once the wind was laid.—*Dryden, Theodora and Haurora*, ss.

Applied (like *sink* and *quench*) to the state of persons either in deep ignorance, or low servitude to the pleasures of sense.

It is a melancholy reflection, that our country, which, in times of popery, was called the nation of saints, should now have less appearance of religion in it than any other neighbouring state or kingdom; whether they be such as continue still immersed in the errors of the church of Rome, or such as are recovered out of them.—*Johnson, Freeholder*.

It is impossible to have a lively hope in another life, and yet be deeply immersed in the enjoyments of this.—*Bishop Atterbury*.

Immerse. *adj.* Buried; covered; sunk deep.

After long inquiry of things immersed in matter, I interpose some object which is immaterial, or less material; such as this of sounds, that the intellect may become not partial.—*Bacon*.

Immersion. *s.*

1. Act of putting any body into a fluid below the surface; state of sinking below the surface of a fluid.

Achilles's mother is said to have dipped him, when he was a child, in the river Styx, which made him invulnerable all over, excepting that part which the mother held in her hand during this immersion.—*Addison, Guardian*.

2. State of being overwhelmed or sunk in any respect.

It was the Platonic doctrine, that humane souls or minds descended from above, and were sown in generation, that they were sown, supplied, and intoxicated by this descent and immersion into animal nature.—*Bishop Berkeley, Siris*, § 313.

Immersive. *adj.* Connected with, arising from, immersion. *Rare*.

When the sun's *immense* heat doth so boil the water in the cloud, like unto the urine which a man maketh in a burning fever, it breaketh red when it falleth.—*Spenser, Spenserian Gloss*, 143.

Immethodeal. adj. Not having method; without regularity. *Rare*.

Their sudden thoughts, *immethodeal* discourses, and slovenly sermonizations.—*Waterhouse, A apology for Learning*, p. 187: 1683.

They *immigrate* into the wishes they utter.—*Neville, &c.*, p. 67: 1694.

Immigration. s. Entering, or passing into, a place: (as opposed to E-migration).

Hitherto I have considered the Saracens either at their *immigration* into Spain about the ninth century, or at the time of the crusades, as the first authors of romantic fables among the Europeans.—*T. Watson, History of English Poetry*, vol. I. sign. C. 3. b.

Imminence. s. Impending character of anything; thing imminent.

I do not speak of flight, of fear, of death; but dare all *imminence*, that gods and men address their dangers in.

—*Shakespeare, Troilus and Cressida*, v. 11.

Imminent. adj. [Lat. *imminere*, -entis.] Impending; at hand; threatening.

What dangers at any time are *imminent*, what evils hang over our heads, God only know, and not we.—*Hooker, Ecclesiastical Polity*.

Imminution. s. [Lat. *imminutio*, -onis; minus = lessen.] Diminution; decrease.

Without any addition, *imminution*, or alteration.—*Bishop Ouse, Canon of Scripture*, p. 14.

These revolutions are as exactly uniform as the earth's are, which could not be, were there any place for chance, and did not a Providence continually oversee and secure them from all alteration or *imminution*.—*Bay, Wisdom of God manifested in the Works of the Creation*.

Immiscible. adj. [Lat. *miscere* = mix.] Incompatible of mixture. *Rare*.

It is incredible . . . that the result of such a chain of *immiscible* and conflicting particles.—*Godwin, Intellectual System*. (Ord. MS.)

Immission. s. [Lat. *immissio*, -onis; missus = sent, pass. part. of *mittere* = send.] Act of sending in: (as opposed to E-mission).

To God must be ascribed these stirrings, these breakings; whether, by a just and efficacious permission, as sin, or by a just *immission*, as punishment.—*Bishop Hall, Remains*, p. 74.

Transient *immissions*, and representations of the ideas of things future to the imagination.—*South, Sermons*, iii. 416.

Immit. v. a. [see Immission.] Send in; inject.

But grant an entire efficacy to this balsamic liquor, (oil or juice of cedar,) thus clysterwise *immitted* into the intestines; yet . . . medicines this way exhibited to the dead immediately flow out again.—*Wrenhill, Art of Embalming*, p. 273: 1705.

Immitigable. adj. [Lat. *mitigo* = mitigate.] Incapable of being softened.

War was declared, and neither the Emperor nor the Pope now attempted to disguise their mutual *immitigable* hatred.—*Milman, History of Latin Christianity*, h. x. ch. v.

—*Dr. H. More, Song of the Soul*, l. 2, 22.

Immobility. s. Incapability of being moved; want of, resistance to, motion.

The course of fluids through the vascular solids must in time harden the fibres and abolish many of the canals; from whence dizziness, weakness, *immobility*, and debility of the vital force.—*Arbuthnot, On the Nature and Choice of Humours*.

Duration is best perceived when we are able to detain an idea for some time without change, as in watching the motion of a pendulum. And though it is impossible for the mind to continue in this state of *immobility* more, perhaps, than about a second or two, this is sufficient to give us the idea of duration as the necessary condition of existence.—*Hallam, Introduction to the Literature of Europe during the fifteenth, sixteenth, and seventeenth Centuries*, pt. iv. ch. iii. § 118.

Immoderacy. s. Excess. *Rare*.

The strength of delight is in its whiteness or rarity, and slings in its satiety: mediocrity in its life, and *immoderacy* its confusion.—*Sir T. Browne, Christian Morals*, ii. 1.

Immoderate. adj. Excessive; exceeding the due mean.

Our means, very effectual for the preservation of health, is a quiet and cheerful mind, not afflicted with violent passions, or distracted with *immoderate* cares.—*Ray, Wisdom of God manifested in the Works of the Creation*.

Immoderateness. s. Attribute suggested by Immoderate; want of moderation.

Both Solomon speak this honey's excess only, and not of *immoderateness* in general.—*Shelford, Learned Discourses*, p. 85.

Adversaries join together in reproaching us for this *immoderateness*, and, by their *immoderateness* in so doing, do also justify the moderation of our church.—*Fulter, Moderation of the Church of England*, p. 41.

Immoderation. s. Want of moderation; excess.

Their sin proceeded from themselves . . . and consists in the abuse of his fatherly indulgence by a wild *immoderation* and excess.—*Hallisell, Melanprophet*, p. 10.

So dangerous a thing is an ignorant and indiscreet preacher, and a bold, *immodest* auditor.—*Dr. H. More, Conjectura Cabbalistica*, p. 225.

2. Unchaste; impure.

Immodest deeds you hinder to be wrought; But we proscribe the least *immodest* thought.

—*Dryden*.

3. Obscene.

'Tis possible that the most *immodest* word be look'd upon, and burn'd; which, once attain'd, Your highness knows, ceases to no farther use But to be known and hated.

—*Shakespeare, Henry IV. Part II. iv. 4*.

Immodest words admit of no defence, For want of decency is want of sense.

—*Lord Rosemagn*.

Immodestly. adv. In an immodest manner.

He would have us live soberly . . . not wantonly, not *immodestly*, and innocently.—*Bishop Walton, Christian Maxims*, l. iii. v. 1573.

This these Corinthian women (conceiving themselves, when they prayed or prophesied in the church, to be acting the part of also-priests, uttering oracles like the Pythia, or celebrating sacrifices as the Muses or Bacchae) were so fond as to imitate; and accordingly cast off their veils, and discovered their heads *immodestly* in the congregation; and thereby (as the apostle speaks) dishonoured their heads.—*Macle, Diatribe*, p. 200.

Immodesty. s.

1. Want of delicacy; impudence.

I beseech your grace to assist us: or else the *immodesty* of his competitor will bear down this most

honest and bashful creature.—*Lord Keeper Williams, Cædula*, p. 91: 1624.

I am thereby led into an *immodesty* of proclaiming another work, which I have long devoted to the service of my country.—*Sir H. Wotton, Reliquie Wottonianæ*, p. 71.

2. Want of modesty; indecency.

Immorigerous. adj. [Lat. *morigeror* = humour, manage.] Rude; uncivil; disobedient. *Rare*.

Such creatures as are *immorigerous*, we have found out expedients to reclaim.—*Blackhouse, History of the Bible*, l. 150.

Immorigerousness. s. Attribute suggested by Immorigerous. *Rare*.

All degrees of delay are degrees of *immorigerousness* and unwillingness.—*Jeremy Taylor, Great Exemplar of Sanctity and holy Life*, p. 1.

Immortal. adj. [Lat. *immortalis*.] Exempt from death; being never to die.

To the king eternal, *immortal*, invincible, the only wise God, be glory for ever.—*1 Timothy*, i. 17.

Immortal. s. Divine being; god or goddess.

The Paphian queen, With gored hand, and veil so rudely torn, Like terror did among the *immortal* breed, Taught by her wound that goddesses may bleed.

—*Wallace*.

Immortalist. s. See extract.

This burning they had from the inhabitants by later, who were called *Immortalists*, because in the midst of all their dark notions of things, they saw this clearly, that virtuous and good men do not die, but their souls do go into blessed regions, &c.—*Jeremy Taylor, Funeral Sermons*, 392. (Ord. MS.)

Immortality. s. Exemption from death; life never to end.

This corruptible must put on incorruption, and this mortal must put on *immortality*.—*1 Corinthians*, xv. 53.

If the *immortality* of souls proclaim'd,

Whom th' oracle of men the wisest than'd.

—*Sir J. Denham, Of the Art of War*, &c. iv.

When we know cognition is the prime attribute of a spirit, we infer its *immortality*, and thence its *immortality*.—*Watts*.

Immortalize. v. a.

1. Make immortal; perpetuate; exempt from death.

Christ is risen from the grave, having conquered death by dying; and is ascended into the pure and peaceable habitation of glory: Therefore all his members, who are united to him in the inseparable bonds of faith and love, shall feel the effects of his powerful life, in *immortalizing* their very bodies.—*Hallward, Sacred Method of Saving Human Souls*, p. 103.

2. Exempt from oblivion.

Drive them from Orleans, and be *immortalized*.—*Shakespeare, Henry VI, Part I, l. 2*.

3. Keeps up; continues.

Revenge . . . by fresh returns of provocation brings in, what has in vain been attempted in nature, a kind of 'perpetual motion' in malice, and *immortalizes* quarrels and contentions.—*Norris, On the Benefits of a*, p. 183.

Immortalize. v. n. Become immortal.

Mislead not the want of issue among your greatest afflictions, as those do, that cry, Give me children, or else my name dies; the poorest way of *immortalizing* that can be, and as natural to a sinner as a prince.—*Adams, Advice to a Son*, p. 70.

• Enslaved all disfigure, and fix the year previous, When British bands begin to *immortalize*.—*Boyd, Imitations of Homer*, ii. li. ep. i.

Immortalization. s. Want of subjection, or mortification, of the passions and affections. *Rare*.

It mixes violence with industry, and fury with zeal, . . . and violence with desire, and *immortalization* in all the appetites and passions of the soul.—*Jeremy Taylor, Sermons*, p. 134: 1653.

Immotive. adj. Motionless.

They are all laid in the stillness of an *immotive* calm.—*Pelham, Remains*, 62. (Ord MS.)

He affects an *immovability* of purpose which he is far from possessing.—*Theodore Hook, Gilbert Gurney*.

Immovable. adj. Incapable of being moved.

We shall not question his removing the earth, when he finds an *immovable* base to place his empire upon.—*Sir T. Browne*.

How much happier is he, who, centring on himself, remains *immovable*, and smiles at the madness of the dance about him!—*Dryden, Don Sebastian*.

Immund. adj. [Lat. *immundus*.] Unclean. *Rare*.

Through their own nastiness and stinkiness, *immund*, and sordid manner of life, they suffer their air to putrefy, and themselves to be choked up.—*Barton, Anatomy of Melancholy*, p. 81.

Immundicity. s. Uncleanness; impurity. *Rare*.

Not is there any moral *immundicity* of a more dangerous induration, than this of wanton discourses.—*W. Montague, Decent Knaves*, pt. i. p. 133: 1618.

Immunity. s. [Fr. *immunité*; Lat. *immunitas*.]

1. Discharge from any obligation.

Of things harkens whatsoever there is, which the whole church doth observe, to argue for any man's *immunity* from observing the same, it were a point of most insolent madness.—*Hooker, Ecclesiastical Polity*.

2. Privilege; exemption from onerous duties.

(Granting great *immunities* to the commons, they prevailed so far as to cause Vallinus to be proclaimed successor.)—*Sir P. Sidney*.

Moreover Simon chose men and sent to king Demetrius, to the end he should give the land an *immunity*, because all that Tryphon did was to spoil.—*1 Maccabees*, xiii. 34.

3. Freedom.

Common apprehensions entertain the antithetical condition of freedom, receiving only in that land an *immunity* from venemous creatures.—*Sir T. Browne, Vulgar Errors*.

But this annex'd condition of the crown, *immunity* from groves, you disown.—*Dryden*.

Immure. v. a. [Lat. *murus*: wall.] Enclose, confine, shut up, imprison within, or as within, walls.

Put, you ancient stones, these tender babes, Whom envy hath *immured* within your walls!—*Shakespeare, Richard III*, iv. 1.

Can you believe that man's all-knowing mind Can to a mortal body be confined? Though his foul foolish prison her *immure* On earth, she, when escap'd, is wise and pure.—*Sir J. Denham, Of Old Age*, pt. iv.

Immure. s. Wall; enclosure. *Rare*.

Their vow is made To ransack Troy; within whose strong *immures* The ravish'd Helen, Menelaus' queen, With wanton Paris sleeps.—*Shakespeare, Troilus and Cressida*, prologue.

Immusical. adj. Inharmonious; wanting proportion of sound: (Unmusical commoner).

• All sounds are either musical, which are ever equal, or *immusical*, which are ever unequal, as the voice in speaking, and whisperings.—*Bacon, Natural and Experimental History*. We consider the *immusical* note of all swans we ever beheld or heard of.—*Sir T. Browne*.

Immutability. s. Exemption from, or incapability of, change; invariableness; unchangeableness.

To shew unto the heirs of promise the *immutability* of his counsel.—*Hebrews*, vi. 17.

This *immutability* of (God) they strive unto, by working after one and the same manner.—*Hooker, Ecclesiastical Polity*.

Immutabile. adj. [the in- negative.] Unchangeable; invariable; unalterable.

That by two *immutabile* things, in which it was impossible for God to lie, we might have a strong commendation.—*Hebrews*, vi. 18.

Thy threatenings, Lord, as thine, thou may'st revoke.

But if *immutabile* and fix'd they stand, Continue still thyself to give the stroke, And let not foreign force oppress the land.—*Dryden, Anna Mirabilis*, ecclx.

Immutably. adv. [the in- negative.] In an immutable manner.

His love is like his essence, *immutably* eternal.—*Boyle*.

Immutation. s. [the in- not negative.] Change; alteration.

Lo, what delightful *immutations* On her soft flowing veils we contemplate.—*Dr. H. More, Song of the Soul*, l. 1, 23.

Strong and violent hath been the *immutation* which sudden joy hath wrought in the body.—*Bishop Reynolds, On the Passions*, ch. xxi.

Immutate. v. a. [the in- not negative.] Change; alter.

(God can immediately *immutate*, change, corrupt, destroy, or annihilate whatsoever pleaseth His divine majesty.)—*Balcan, Treatise of Angels*, p. 106: 1613.

Imp. s. [see extracts from Tooke and Todd.]

1. Graft, scion, or sucker.

Boughs, branches, twigs, young *imps*, sprays, and buds.—*Newton, Herbal to the Bible*: 1587.

[Mr. Steevens would not to have travelled to Wales, for that which he might have found at home. Our language has absolutely nothing from the Welsh. *Imp* is the past participle of the Saxon *impen*, to plant, to graft.—*Morris, Book, Diversions of Purse*, ii. 311.]

[Without stopping to notice here the sweeping assertion as to the Welsh language, which will be considered in another part of this dictionary, I may add that the German *impfen*, is also to graft; and that the earliest usage of our word, is in the sense of the shoot of a tree.—*Todd*.]

2. Son; offspring; progeny; youth.

That most noble *imp*, the Duke's grace, your most dear son.—*Lord Cromwell to King Henry VIII*. And thou, most dreaded top of highest Jove, Fair Venus' son!—*Spenser, Faerie Queene*.

That faire city, wherein make abode So many learned *imps*, that shoot abroad, And with their branches spread all Britany.—*Todd*. The tender *imp* was weaned from the teat.

Loath them as the most basely-begotten *imps*.—*Bishop Hall, Cases of Conscience*. Proving.

A toward *imp*, I call'd him home.—*R. Jonson, Every Man in his Humour*.

3. Subaltern; puny devil.

In this our age, the church of England is vexed with two horrible *imps* and messengers of our enemy Satan.—*Anderson, Exposition upon Becclesford*, fol. 28, l. 1: 1577.

Much we deny not to be the *imps* and limbs of Satan.—*Hooker, Ecclesiastical Polity*.

Imp. v. a. [see extracts from Tooke and Todd, under Imp, s.]

1. Plant; graft; adopt.

Nothing is more dangerous than to be *imp'd* in a wicked family; this relation too often draws in a share both of guilt and punishment.—*Bishop Hall, Jehu and Jehoram*. (Ord MS.)

2. Mend or improve us by a graft; splice: (applied in Falconry to the process of repairing the wing of a hawk when the quills are broken, by means of an adscititious feather).

If then we shall shake off our slavish yoke.

Imp out our drooping country's laden wings.—*Shakespeare, Richard II*, ii. 1. This bird was hatched in the council of Lateran, fully plumed in the council of Trent, and now lately bath'd her feathers *imp'd* by the modern casuists.—*Bishop Hall, Old Religion*, ch. xiii. §1.

New Rebellious rales Their hydra heads, and the false North displays Her broken league to *imp* their serpent wings.—*Milton, Sonnets*, xv. 8.

Help, ye sat satyrists, to *imp* my rage With all the scorpions that should whip this age.—*Churchyard*.

With cord and canvas from rich Hamboirgh sent, His navy's mottled wings he *imp* once more.—*Dryden, Annals Mirabilis*, cxliii.

New creatures rise, A moving mass at first, and short of thicks; Till shooting out with legs, and *imp'd* with wings, The grubs proceed to be with jointed stings.—*Id., Translation of the Georgics*, iv. 437.

The Mercury of heaven with silver wings *Imp'd* for the flight, to overtake his ghost.—*Southey*.

Impacable. adj. [Lat. *parabilis*, from *par*, pacis - pence.] Not to be softened or appeased.

Freely from hands of *impacable* fate, And power of death, they live for aye above.—*Spenser, Rime of Time*.

Impact. v. a. [Lat. *impactus*, from *in* + *pango* - frame, make, construct.] Drive close or hard.

They are angular; but of what particular figure is not easy to determine, because of their being *impacted* so thick and confusedly together.—*Woodward, On Fossils*.

Impact. s. Collision, with special reference to its result as a driving or moving power.

It was long thought, . . . (for did Newton himself . . . count the assumption, but eluded it by an arbitrary hypothesis,) that nothing (of a physical nature at least) could account for motion, except previous motion; the impulse or *impact* of some other body. It was very long before the scientific world could prevail upon itself to admit attraction and repulsion (i.e. spontaneous tendencies of particles to approach or recede from one another) as ultimate laws, no more requiring to be accounted for than impulse itself; if indeed the latter were not, in truth, resolvable into the former.—*J. N. Mill, System of Logic*.

Impaint, Impair, Impalement. See Enpaint, &c.**Impalpability. s.** Character of that which is impalpable.

The pope Gregory the Great and Eutychius, the patriarch of Constantinople, had a curious dispute, whether the bodies of the righteous, after the resurrection, should be solid, or thinner than the air: Gregory was for the palpability, and Eutychius for the *impalpability*; and the dispute ended, as it is to be supposed, in a Greek quarrel.—*Jordan, &c. marks on Ecclesiastical History*, vol. iii. p. 170: ed. 1843.

Impalpable. adj.

1. Not to be perceived by touch.

If beaten into an *impalpable* powder, when poured out, it will coalesce a liquor, by reason that the smallness of the parts do make them easy to be put into motion.—*Boyle*.

2. Not coarse or gross.

His own religion from its simple and *impalpable* form was much less exposed to the ridicule of scenic exhibition.—*T. Warton, History of English Poetry*, iii. 280.

Impânate. adj. [Lat. *panis* = bread.] Embodied in bread. *Rare*.

This speech memento not that the body of Christ is *impânate*.—*Archbishop Cranmer, Answer to Bishop Gardiner*, l. 339.

Impânate. v. a. Embody with bread. *Rare*.

If the elements really contain such immense treasures, what need have we to look up to the natural body above; or what have we to do but to look down to those *impânated* relics, to the elements embodied with all graces and virtues, and replenished with that very divinity which makes the humanity so considerable?—*Waterland, Charge to the Rector*, p. 61.

Impânation. s. Supposed sub-sistence of the body of Christ with the species of bread in the Lord's supper. *Rare*.

Forasmuch as he is joined to the bread but sacramentally, there followeth no *impânation* thereof; no more than the Holy Ghost is inseparable, that is to say, made of water, being sacramentally joined to the water in Baptism.—*Archbishop Cranmer, Answer to Bishop Gardiner*, p. 384.

Some have imagined that our Lord's divinity becomes personally united with the elements, as well as with his own natural body, having in that sense

two personal bodies. This conceit has sometimes gone under the name of 'assumption,' as it imports the deity's assuming the elements into a personal union; and sometimes it has been called *empanation*, a name following the analogy of the word 'incarnation.'—*Waterland, Charge on the Sacrament*, p. 34.

Impánel. See Empanel.

Imparadise. v. a. [Italian, *imparadisare*.] Place as in Paradise; beautify: (Empanadise used by Donne).

Thus these two,
Imparadised in one another's arms,
The happier Eden, shall enjoy their ill
Or bliss on bliss. *Milton, Paradise Lost*, iv. 506.

Imparalleled. part. pr. Unparalleled. *Rare*. That this dear price should be paid for a little wild mirth, or gross and corporal pleasure, is a thing of such unparalleled folly, that if there were not too many instances before us, it might seem incredible.—*Bishop Burnet, Life of Lord Rochester*, p. 108.

Impardonable. adj. Unpardonable. *Rare*. Not that it is in its nature unpardonable.—*South, Sermons*, s. 323.

Imparsyllabic. adj. [Lat. *par* = equal; *syllaba* = syllable.] In Grammar. A term applied to certain inflections, and certain words having such inflections, wherein the number of syllables is increased; as Gr. *αἰών, αἰώνιος*; Lat. *lapis, lapidus*, opposed to *vinus, vivus*, *dominus, domini*. See *Parisyllabic*.

Imparity. s. [Lat. *paritus*, from *par* = equal.] 1. Inequality; disproportion.

Some bodies are hard, some soft: the hardness is caused chiefly by the joinings of the spirits, and their *imparity* with the tangible parts.—*Bacon*.

2. Oddness; indivisibility into equal parts.

What verity is there in that numeral concept, in the lateral division of man, by even and odd; and so by parity or *imparity* of letters in men's names, to determine misfortune on either side of their bodies?—*Sir T. Browne, Vulgar Errors*.

3. Difference in degree either of rank or excellence.

He, who by the hand of his holy Apostle, founded this church of Crete in Titus, and his elders in a meet and decent *imparity* and subordination, would maintain his own ordinance amongst us also.—*Archbishop Bancroft, Sermons*, p. 31.

Impark, Imparlance. See Empark, &c.

Impart. v. a. [N. Fr. *impartier*; Lat. *impertio*.]

1. Communicate; grant as to a partaker.

I find thee knowing of thyself,
Expressing well the spirit within thee free,
My image, not imparted to the brute,
Whose fellowship therefore I must for thee
Good reason was thou freely shouldst dislike.
Milton, Paradise Lost, viii. 441.

2. Grant; give.

High state and honours to others impart,
But give me your heart. *Dryden*.

3. Make known; show by words or tokens.

As in confession the revealing is for the case of a man's heart, so secret men come to the knowledge of many things, while men rather discharge, than impart their minds.—*Bacon*.

Impartial. adj. Free from partiality.

Swears I hope, and fate I cannot fear;
Alive or dead, I shall deserve a name;
Love is impartial, and to both the same.
Dryden, Translation of the Eniad, s. 631.

Impartialist. s. One who affects impartiality.

I am professedly enough an impartialist.—*Boyle, Style of Holy Scriptures*, p. 76.

Impatiability. s. Equitableness; justice; indifference.

A pious and well disposed will gives not only diligence, but also *impatiability* to the understanding in its search into religion, which is absolutely necessary to give success into our enquiries into truth; it being scarce possible for that man to hit the mark, whose eye is still glancing upon something beside it.—*South, Sermons*.

Impatiment. s. Communication of knowledge; disclosure. *Rare*.

It beckons you to go away with it,
As if it were *impatiment* did desire
To you alone. *Shakespeare, Hamlet*, i. 4.

Impassable. adj. Not to be passed; not admitting passage; impervious.

There are in America many high and *impassable* mountains, which are very rich.—*Sir W. Raleigh*.
Vol. I.

Impassability. s. Exemption from suffering; insusceptibility of injury from external things.

These bodies of ours shall come out of their graves with all their parts entirely as they now are; altered indeed, I confess, in quality, in agility, in glory and splendour, in *impassability*.—*Maler, Golden Rule*, p. 2.

Two divinites might have pleaded their prerogative of *impassability*, or at least not have been wounded by any mortal hand.—*Dryden, Rival*, dedication.

Impassible. adj. Incapable of suffering; exempt from the agency of external causes; exempt from pain.

This most pure part of the soul, and (as Aristotle sayeth) divine, *impassible*, and incorruptible, is named in Latin, *Intellectus*. *Sir T. Elgot, The Governour*, fol. 201.

After Thy resurrection and knowledge of Thine *impassible* condition, it was not strange for them to talk of Thy kingdom.—*Bishop Hall, Contemplations, The Crucifixion*.

Impenitency. s. Impenitence.

Before the revelation of the gospel the wickedness and **impenitency** of the heathens was a much more excusable thing, because they were in a great measure ignorant of the rewards of another life.—*Archbishop Tillotson*.

Impenitent. adj. Finally negligent of the duty of repentance; obdurate.

Our Lord in anger hath granted some **impenitent** man's requests; as, on the other side, the Apostle's suit he hath of favour and mercy not granted.—*Hooker, Ecclesiastical Polity*.

Impenitent. s. One who neglects the duty of repentance.

When the reward of penitents and punishment of **impenitents** is once assented to as true, 'tis impossible but the mind of man should wish for the one, and have dislikes to the other.—*Hawmood*.

Impennous. adj. [Lat. *impennis*—wingless; *penna*—wing.] Wanting wings.

It is generally received an earwig hath no wings, and is reckoned amongst **impennous** insects; but let that shall with a needle just aside the short and sheathy cases on their back, may draw forth two wings, larger than in many flies.—*Sir T. Browne*.

Impepiole. See Empepiole.

Imperate. adj. [Lat. *imperatus*, pass. part. of *impero*—command.] Done by order; with consciousness; by direction of the mind. *Rare*.

The chief internal acts of any habit may be quick and vigorous, when the external **imperate** acts of the same habit utterly cease.—*South, Sermons*.

Those natural and involuntary actions are not done by deliberation, yet they are from the energy of the soul and instrumentality of the spirits, as well as those **imperate** acts, wherein we see the empire of the soul.—*Sir M. Hale*.

Imperative. adj.

1. Commanding; expressive of command.

He therefore instead of using an **imperative** style, by downright commanding such and such things, chose rather in a more gentle and condescending way to insinuate what was his will and our duty.—*Norris, On the Hostilities*, p. 230.

2. In Grammar. Term applied to the mood in which a command is conveyed, as Walk! Look! &c.: (used, also, substantively, as, 'the imperative'—the imperative mood).

The verb is formed in a different manner, to signify the intention of commanding, forbidding, allowing, disallowing, intruding; which likewise, from the principal use of it, is called the **imperative** mood.—*Clarke, Latin Grammar*.

Imperatorial. adj. [Lat. *imperator*—commander; whence *emperor*.] Commanding.

Moses delivered his law after an **imperial** way, by saying, Thou shalt not do this, and Thou shalt not do that.—*Norris, On the Hostilities*, p. 230.

Imperceptible. adj. Not to be discovered; not to be perceived; small; subtle; quick or slow, so as to elude observation.

Some things are in their nature **imperceptible** by our senses; yea, and the more refined parts of material existence, which, by reason of their subtilty, escape our perception.—*Sir M. Hale*.

The parts must have their outlines in waves, resembling flames, or the gliding of a snake upon the ground: they must be almost **imperceptible** to the touch, and even.—*Dryden*.

Imperceptible. s. That which is not im-

mediately perceived or discovered, on account of its smallness.

Microscopes bring to light shoals of living creatures in a spoonful of vinegar, &c. . . I should be wonderfully pleased to see a natural history of **imperceptibles**, containing a true account of such vegetables and animals as grow and live out of sight.—*Tadler*, no. 118.

Imperceptible. adj. Not perceiving; not having the power of perception.

There is no supposing the soul to be **imperceptible** in sleep, but by supposing the perceptivity of it to depend upon matter, which was shown in many places of this section to be a contradiction; or by supposing that it sleeps in its own nature.—*A. Baxter, Enquiry into the Nature of the Human Soul*, i. 340.

Imperdible. adj. [Lat. *perdo*—lose.] Not to be destroyed, or lost.

As they are harder in their acquisition, so are they more **imperdible** and steady in their stay.—*Folltham, Sermon on Ecclesiastes*, ii. 11.

Imperfect. adj. Not complete; not absolutely finished; defective.

Optimus is a light, vain, crude, and **imperfect** thing, settled in the imagination; but never arriving at the understanding, there to obtain the tincture of reason.—*R. Jonson*.

The still-born sounds upon the palate hung, And died **imperfect** on the faltering tongue. *Dryden*.

As obscure and **imperfect** ideas often involve our reason, so do dubious words puzzle men.—*Locke*.

Imperfect. v. a. Make imperfect. *Rare*.

Time, which perfects some things, **imperfects** also others.—*Sir T. Browne, Christian Morals*, ii. 24.

Imperfection. s. Defect; failure; fault, whether physical or moral, whether of persons or things.

Laws, as all other things human, are many times full of **imperfection**; and that which is supposed beloved unto men, is with oftentimes most pernicious.—*Hooker, Ecclesiastical Polity*.

The world is more apt to censure than applaud, and himself fuller of **imperfections** than virtues.—*Addison, Spectator*.

Imperfectness. s. Attribute suggested by Imperfect.

Their authority, joined to the knowledge of my own **imperfection** in the language, over-ruled me.—*Pope, Letter to Mr. Bridges*, cited by Dr. Warton.

Imperforate. adj. [Lat. *perforatus*—bored through.] Not pierced through; without a hole through.

Sometimes children are born **imperforate**; in which case a small puncture, dressed with a tent, effects the cure.—*Sharp, Surgery*.

Imperforated. part. pres. Wanting any opening usually present.

It impenetrates sometimes in **imperforated** persons.—*Sir T. Browne, Vulgar Errours*, vii. 16.

Imperial. adj. [Fr. *impérial*; Lat. *imperialis*; *imperium*—command; *impero*—to command.]

1. Royal; possessing royalty.

Aim he took At a fair vestal, thro'ned in the west; But I might see young Cupid's fiery shaft Quench'd in the chaste beams of the watery moon. And the **imperial** vota passed on In maiden meditation, fancy free. *Shakespeare, Midsummer-Night's Dream*, ii. 2.

2. Betokening royalty; marking sovereignty.

My aim from thee: 'tis this **imperial** crown, Which, as immediate from thy place and blood, Derives itself to me. *Shakespeare, Henry IV, Part II*, iv. 4.

3. Belonging to an emperor or monarch; regal; royal; monarchical.

The main body of the marching foe Against the **imperial** palace is design'd.—*Dryden*.
To tame the proud, the fetter'd slave to free, Those are **imperial** arts, and worthy thee. *Id., Translation of the Aeneid*, vi. 1172.

Imperialism. s. System or state of imperial government.

Roman **imperialism** had divided the world into master and slave.—*C. H. Pearson, The Early and Middle Ages of England*, ch. xxxiv.

Imperialist. s. One that belongs to an emperor's party.

The **imperialists** imputed the cause of so shameful a flight unto the Venetians.—*Kneller, History of the Turks*.

Imperialistic. s. a. Invest with imperial character, or with the character of an emperor.

Imperialized, adj. Invested with an imperial character, or character of an emperor. The Romanists cast away the witness of all imperialized authors then living.—*Fallor, Holy War*, p. 160.

Imperiality, s. Imperial power.

Which seventh cannot be your papacy; it must then of necessity be a short Roman imperiality or empire, which followed upon the destruction of the sixth.—*Sheldon, Miracles of Antichrist*, p. 163; 1616.

Imperial v. a. Endanger. See *Emperil*.

Roman George III. detected the French, of whom he knew as much as he knew of the inhabitants of Kautchak or of Tibet, Pitt, contrary to his own judgment, engaged in a war with France by which England was seriously imperilled, and the English people burdened with a debt that their remotest posterity will be unable to pay. *Buckle, History of Civilization in England*, vol. i. ch. vii.
To the profound views of Hume respecting causation, he gravely objects, that if they were carried into effect, the operation of criminal law would be imperilled.—*Ibid.*, vol. ii. ch. vi.

Imperious, adj.

1. Commanding; tyrannical; authoritative; haughty; arrogant; assuming command.

If it be your proud will
To show the power of your imperious eyes.

Spenser.

This imperious man will work us all
From princes into pages.

Shakespeare, Henry VIII., ii. 2.

He is an imperious dictator of the principles of vice, and lieutenant of all contradiction. *Dr. H. More, Divine Dialogues*.
How much I suffer'd, and how long I strove
Against the assaults of this imperious love!

Dryden.

Recollect what disorder lusty or imperious words
From parents or teachers have caused in his thoughts.

Locke.

2. Powerful; ascendant; overbearing.

A man, by a vast and imperious mind, and a heart large as the sand upon the sea shore, could command all the knowledge of nature and art.—*Archbishop Tillotson*.

Imperiously, adv. In an imperious manner; with arrogance of command; with insolence of authority.

Who can abide, that, against their own doctrine,
Six whole books should, by their fatherhoods of Trent,
Be under pain of a curse, imperiously obtruded
Upon God and his church?—*Bishop Hall*.

It is not to insult and domineer, to talk disdainfully, and revile imperiously, that presumes a censure from any one.—*South, Sermons*.

Imperiousness, s. Atrilience suggested by imperious.

1. Authority; air of command.

So would he use his imperiousness, that we had
A delightful fear and awe, which made us loth to
lose our hopes.—*Sir P. Sidney*.

2. Arrogance of command.

Imperiousness and severity is but an ill way of
treating men, who have reason of their own to guide
them.—*Locke*.

Imperishable, adj. Incapability of perishing.

Devotion offers to transfigure our affections, from their inane and passive shapes, into manly and imperishable forms; and raise them up from infirmity to virtue; and make those desires, which have been the image of terrestrial things, to bear only that of the celestial.—*W. Montague, Decont Romany*, pt. i. p. 37; 1648.

We find this our empyreal form
Incapable of mortal injury.
Imperishable; and though pierc'd with wound,
Soon closing, and by native vigour heal'd.
Milton, Paradise Lost, vi. 423.

Impermanence, s. Want of duration; instability.

Melancholy impermanence of human blessings.—*Seward, Letters*, iv. 286; 1794.

Impermanency, s. Same as Impermanence.

Meditating, out of the wrongs contemplation of the mutability of all worldly happiness, a remedy against the evil of that flickering and impermanency.—*W. Montague, Decont Romany*, pt. i. p. 58; 1648.

Impermeability, s. State or quality of being impermeable.

Governing the impermeability of glass by electricity.—*Philosophical Transactions*, vol. ii. p. 313.

Impermeable, adj. That may not be passed through.

Lands that have a retentive or impermeable soil, should be differently constituted from those that have one less retentive or more permeable.—*Kitchin, On Manure*, p. 84.

Impermeable, or Impermutabile, adj.

[Lat. *muta, permuto* = change.] Incapable of being changed.

We see this order to be impermutabile, that who so will apply him self to gather roots, shall suitably meet with sweet liquorous, and other whilks with some cockle.—*Bacon, Translation of P. Martyr*, 148. (Ord MS.)

Impersonal, adj.

1. Wanting personality.

2. In Grammar. Not varied according to the persons: (often *postpositive*, as, 'verbs impersonal'; often, too, *substantival*).

Methodists—'it seems to me,' where there is no pronoun to precede it, is our typical impersonal verb.—*Dr. R. G. Latham, English Language*.

Impersonality, s. Indistinction of personality.

Junius is pleased to tell me, that he addresses himself to me personally. I shall be glad to see him. It is his impersonality that I complain of.—*Letters of Junius, Sir W. Draper*.

Impersonate, v. a.

1. Personify; embody as a person.

The Egyptians, who impersonated nature, had made her a distinct person, and even deified her under the name of Isis.—*Bishop Berkeley, Siris*, § 298.

The musques and personifications of the age of Elizabeth were not only furnished by the heathen divinities, but often by the virtues and vices impersonated.—*T. Warton, History of English Poetry*, iii. 104.

Some of these musques were moral dramas, where the virtues and vices were impersonated.—*Hurd, Dialogues*.

Whether from righteous indignation or malignity, from moral earnestness or jealousy and hatred of authority, whether its inspiration was holy and generous or worldly and envious, or, as in most human things, from mingling and contradictory passions, the monkish Latin set in and inflamed the unextinguished protest against the Church. The Statists impersonated a kind of bold reckless antagonism against Rome and the hierarchy, confounding together in their Goliath, as Statists in later days, solemnity and buffoonery, pedantic learning and vulgar humor, a profound respect for sacred things and freedom of invective against sacred persons.—*Milman, History of Latin Christianity*, ix. xiv. ch. iv.

2. Represent by an impersonation: (this is the better sense).

States are not ordinarily invested with definite responsibilities for other states, although it be nevertheless true that they may sometimes arise. But with respect to the diffusion of religion throughout the body of the nation which it impersonates, this is in the view of reason, a part of the primary law of its self-preservation and self-improvement. . . . Impersonating and representing them, it receives much of its colour from them, and reciprocally imparts it. *Gliddone, The State in its Relations with the Church*, ch. ii.

His age acknowledged Benedict as the perfect type of the highest religion, and Benedict impersonated his age.—*Milman, History of Latin Christianity*, ix. xl. ch. vi.

Impersonation, s. Representative personality, or personification.

In kind of public marriage each party enters in full to the other all which it immediately possessed; in natural consequence the secular arm would come into view, and almost entirely at the disposal of the Church; and offences against the latter would be held as commensurate crimes against the former, by virtue of their reciprocal impersonation.—*Gliddone, The State in its Relations with the Church*, ch. vii.

The persons of Mr. Galloway's numerous stranger still are the naked errand of the same intellectual power, unobscuredly endowed with galvanic life. Though with happier symmetry, they are as much made out of chains and links of reasoning, as the monster was fashioned by the chemistry of the student, in the celebrated novel of his gifted daughter. Falkland and Caleb Williams are the mere impersonations of the unbounded love of reputation, and irresistible curiosity.—*Talfourd, Memoirs of Lamb*.

Imperspicuity, s. Want of clearness or perspicuity.

Either very long, or very short, periods are subject to obscurity: one not opening and spreading the matter enough; the other overburdening the auditor's memory. Yet whose will not lose the sentences and elegance in the one, or suffer the dismembering in the other, must in some things hazard the imperspicuity of his style.—*Instructions for Oratory*, p. 88; Oxford, 1682.

Impersuadable, adj. Not to be moved by persuasion.

Every pious person ought to be a Noah, a preacher of righteousness; and if it be his fortune to have an impersuadable an auditor, if he cannot avert the deluge, it will yet deliver his own soul.—*Dr. H. More, Decay of Christian Piety*.

Impertinence, s. Impertinent character; anything so characterized.

We should avoid the venation and impertinence of pedants, who affect to talk in a language not to be understood.—*Swift*.

Impertinency, s. Same as Impertinence.

1. That which is of no present weight; that which has no relation to the matter in hand; something not belonging to the subject.

None though they lead a single life, yet their thoughts do end with themselves, and account future times impertinencies.—*Bacon*.
O matter and impertinency mix'd,
Reason and madness! *Shakespeare, King Lear*, iv. 6.

2. Trifle; thing of no value.

I envy your felicity, delivered from the gilded impertinencies of life, to enjoy the moments of a solid contentment.—*Keynes*.

Nothing is more easy than to represent an impertinency as any parts of learning, that have no immediate relation to the happiness or convenience of mankind.—*Addison*.

There are many subtle impertinencies learnt in the schools, and many painful trifles, even among the mathematical theorems and problems.—*Watts, Improvement of the Mind*.

3. Troublesome; intrusion.

It will be said I handle an art no way suitable to my employments or fortune, and so stand charged with intrusion and impertinency.—*Sir H. Wotton, Elements of Architecture*.

4. Sauciness; rudeness.

It often happens in public assemblies, that a party who can neither together, or whose impertinencies of an equal place, act in concert, and are so full of themselves as to give disturbance to all that are about them. Sometimes you have a set of whisperers, who lay their heads together in order to sacrifice every body within their observation; sometimes a set of laughers, that keep up an insipid mirth in their own corner, and by their noise and gestures show they have no respect for the rest of a company. *Spectator*, no. 165.

Impertinent, adj. [Lat. *pertinens, -entis*, pres. part. of *pertinere* = bend or hold on to anything (as a road); belong to anything.]

1. Of no relation to the matter in hand; of no weight.

The law of angels we cannot judge altogether impertinent into the affairs of the church of Christ.—*Hooker, Ecclesiastical Polity*.

The contemplation of things that are impertinent to us, and do not concern us, is but a more specious idleness.—*Archbishop Tillotson*.

2. Importunate; intrusive; meddling.

That spear directed by an impertinent malice, which opened his side, though it brought forth blood and water, raised no dolorous sensation; because the body was then dead.—*Bishop Pearson, Exposition of the Creed*, art. iv.

3. Foolish; trifling; negligent of the present purpose.

'Tis not a sign two lovers are together, when they can be so impertinent as to enquire what the world does.—*Love*.

Impetus. *s.* [Lat.] Violent tendency to any point; violent effort.

Why did not they continue their descent till they were contiguous to the sun, whither both mutual attraction and impetus carried them?—*Bentley, Sermons*.

Under a government of legitimacy, the presumption is far rather in favour of institutions of a popular origin—and in a democracy, in favour of arrangements tending to check the impetus of popular will.—*Sir G. C. Lewis, On the Influence of Authority in Matters of Opinion*, ch. vi.

The impetus which they communicated, survived their own day, and, like all great movements, was felt in every department of thought.—*Buckle, History of Civilization in England*, vol. ii. ch. vi.

Impiety. *s.* Want of piety.

1. Irreverence to the Supreme Being; contempt of the duties of religion.

To keep that oath were more impiety
Than Jephthah's, when he sacrificed his daughter.
Shakespeare, Henry VI. Part III. v. 1.

2. Act of wickedness; expression of irreligion: (in this sense it has a plural).

If they die unprovided, no more is the king guilty of those impieties for which they are now visited.—*Shakespeare, Henry V.* i. 1.

Where shall I first complain? can mighty Jove
Or Juno such impieties approve?

Sir J. Denham, Poems of Dido.

We have a melancholy prospect of the state of our religion: such amazing impieties can be equalled by nothing but by those cities consumed of old by fire.—*Swift*.

Impignorate. *v. a.* [Lat. *pignus*, *pignoris* = pledge.] Pledge; pawn.

The islands (Orkney and Shetland) were then impignorated to England. . . . They were originally Danish possessions.—*Laing, Residence in Norway*.

Impinge. *v. n.* [Lat. *impingo*.] Fall against; strike against; clash with.

Things are reserved in the memory by some corporeal excision and material image, which, having impinged on the common sense, rebound thence into some vacant cells of the brain.—*Glanville, Securus Scientia*.

The cause of reflection is not the impinging of light on the solid or impervious parts of bodies.—*Sir I. Newton, Opticks*.

Impinguate. *v. a.* [Lat. *pinguis* = fat.] Fatten; make fat. *Rare*.

Frictions also do more fill and impinguate the body than exercise; for that in frictions the inward parts are at rest.—*Bacon*.

Impious. *adj.* [Lat. *impius*.] Irreligious; wicked; profane; without reverence for religion.

That Scripture standeth not the church of God in any strid to direct, but may be left pass as needless to be consulted with, we judge it profane, impious, and irreligious to think.—*Hooker, Ecclesiastical Polity*.

Shame and reproach is generally the portion of the impious and irreligious.—*South, Sermons*.

When vice prevails, and impious men bear sway,
The post of honour is a private station.

Adrian, Cato.

Since after thee may rise an impious line,
Coarse manglers of the human face divine:
Paint on, till fate dissolve thy mortal part,
And live and die the monarch of thy art.

They, impious, dare to prey
On herds devoted to the god of day.

Pope.

Impish. *adj.* Having the character of an imp.

The boy put on an impish look.—*Sir E. B. Lytton, Eugene Aram*.

Impiobility. *s.* Inexorableness; irreconcilable enmity; unappeasable malice.

How can you him unworthy then decree,
In whose chief part your worths implanted be?
Sir P. Sidney.

No need of public sanctions this to bind,
Which Nature has implanted in the mind. *Dryden*.

Implantation. *s.* Act of setting or planting; fixation; insertion.

This [is] more especially by the expressed way of insertion or implantation.—*Sir T. Browne, Miscellanies*, p. 48.

Implausible. *adj.* Not specious; not likely to seduce or persuade.

No improbable, no implausible means for accomplishing so great efforts.—*Barrow, Works*, i. 343.

Nothing can better improve political schoolboys than the art of making plausible or implausible harangues against the very opinion for which they resolve to determine.—*Swift*.

Imploded. *part. adj.* See *Emplend*.

By this excellent institution, four military tenants of the county or neighbourhood elected twelve others from the district, who were to declare upon oath with whom the imploded property lay.—*C. H. Pearson, The early and middle Ages of England*, ch. xxxiii.

Imploder. *s.* One who indicts another; accuser.

The Gombette law, which was instituted by Gombaud, king of Burgundy in the year 501, allowed the expedient of dwelling to those imploders, whom the administered oath to offenders did not sufficiently satisfy for an obtaining of their resigned and voluntary acquittance from the cause complained of.—*History of Swelling*, p. 3.

Implensing. *adj.* Unpleasing. *Rare*.

A melancholy man is a stranger from the drove: one that nature made sociable, because she made him man; and a crazed disposition hath altered; implensing to all, as ill to him.—*Sir T. Overbury, Characteristica*, sign. (1, 5 b: 1627).

Implément. *s.* [Lat. *implementum*, from *impleo* = fill, pass. part. *impletus*; *impletio*, -*onis*.] *Obsolete*.

1. Something that fills up vacancy, or supplies wants.

Unto life many implements are necessary; more, if we seek such a life as hath in it joy, comfort, delight, and pleasure.—*Hooker, Ecclesiastical Polity*.

Implex. *adj.* [Lat. *implexus*.] Intricate; entangled; complicated; complex: (this latter being the true opposite to Simple).

Every poem is, according to Aristotle's division, either simple or implex: it is called simple when there is no change of fortune in it; implex, when the fortune of the chief actor changes from bad to good, or from good to bad.—*Addison, Spectator*, no. 257.

Implimate. *v. a.* [Lat. *implimateus*, pass. part.

of *implico*: *aplica*—a fold; Fr. *impliquer*.] Entangle; embarrass; involve; infold.

The implications of scripture do so mutually *implicate* and hinder each other, that the concrete acts but very languidly.—*Boyle*.

Implication. s.

1. Involution; entanglement.

Three principal causes of sinfulness are the grossness, the quiet content, and the implication of compound parts.—*Boyle*.

2. Inference not expressed, but tacitly inculcated.

Though civil causes, according to some men, are of less moment than criminal, yet the doctors are, by implication, of a different opinion.—*Aylife, Parergon Juris Canonici*.

Implicatively. adv. By implication.

In revealing the confusion of these men, it is *implicitly* granted, their fault was not then to be punished, and so it appears no fault.—*Sir G. Buck, History of Richard III.* p. 102: 1616.

Implicit. adj.

1. Entangled; infolded; complicated. Latinitism.

The humble shrub,
And bush with frizzled hair *implicit*.
Milton, Paradise Lost, vii. 322.

2. Inferred; tacitly comprised or involved in something else; not expressed: (opposed to Explicit).

In the first establishments of speech there was an *implicit* compact, founded upon common consent, that such and such words should be signs, whereby they would express their thoughts one to another.—*South, Sermons*.

In the following the meaning is, perhaps, meant to be equivocal; being both *entangled*, and involving *implication* in the logical sense of the term.

Many of these [periods] together, if without connections, are but *implicit* argumentation at most.—*Instructions for Gregory, Oxford*, p. 37: 1682.

3. Mixed up with, and resting upon another; connected with another over which that which is connected to it has no power; trusting without reserve or examination.

There be false peace or unities, when the peace is grounded but upon an *implicit* ignorance; for all colours will agree in the dark.—*Bayan*.

No longer by *implicit* faith we err,
Whilst every man's his own interpreter.

Sir J. Denham, Progress of Learning.
By *implicit* credulity, I may believe a letter yet not opened, when I am confident of the writer's veracity.—*Johnson*.

Implicitly. adv. In an implicit manner.

The divine inspection into the affairs of the world doth necessarily follow from the nature and being of God; and he that denies this, doth *implicitly* deny his existence; he may acknowledge what he will with his mouth, but in his heart he hath said there is no God.—*Hooker*.

My blushing mune with conscious fear retires,
And whom they like, *implicitly* admires.
Romans.

Implicitly. adj. As implied.

Impoliteness. s. Want of politeness. Rare.

The *impoliteness* of his manners seemed to attend his sincerity.—*Lord Chesterfield*.

Testacea, for instance, kept me the other night two or three hours beyond my usual time of supping, while she was fretting because Mr. — did not come home, till the system were all spoiled, rather than she would be guilty of the *impoliteness* of teaching me in his absence. *Laurel, Memoirs of Eliza, A Bachelor's Complaint of the Behaviour of Married People*.

Impolitic. adj. Imprudent; indiscreet; void of art or forecast.

He that is sooth to beware of an enemy's policy, doth not give counsel to be *impolitic*; but rather to use all prudent foresight and circumspection, lest our simplicity be over-reach'd by cunning slights.—*Hooker, Ecclesiastical Polity*.

Impolitely. adv. In an impolitic manner.

In the pursuits of their own remedies, they do it so *impolitely*.—*Baron, Reports in Parliament*, 5 Jacobi.

Imponderable. adj. [Lat. *pondus*, -eris=weight.] Incapable of being weighed;

wanting weight (actually or approximately). Applied in *Physics* to Light, Heat, and the Electric force, when considered as substances. These may be called the *imponderables*, the construction being *substantival*.

The influence of the *imponderables* has been here carefully calculated.—*Turner, Chemistry*.

Imponderous. adj. Void of perceptible weight.

It produces visible and real effects by *imponderous* and invisible emissions.—*Sir T. Browne, Vulgar Errors*.

It may *import* us in this calm to hearken more than we have done to the storms that are now raining abroad.—*Sir W. Temple*.

If I endure it, what *imports* it you? *Dryden*.

These words are entered as they stood in the previous editions, except that *import*=importance is entered as a separate word. That it is separated from *import* (the opposite to *export*) is shown by its accent. Whether there are not two other, or rather two pairs of words besides, is doubtful.

1. It is certain that the element *in-* has two meanings. In *import* and *import* conveying the notion of *tendency*, *bearing*, and the like, it means *within*, and signifies that which the importing agent carries with it. In *import* and *import* as used in commerce, it means *into*, i.e. delivery at one spot after conveyance from another.

2. Again, though *portus*=carry stands in the previous editions as the common basis of the two words, a case may be made out in favour of *portus*=part being the root of the commercial terms. If so, the existence of a second pair of words is beyond doubt.

Importable. adj. [from *in*=+*un*.] Incapable of being borne; unbearable; intolerable.

Venus... hideth to shew her *importable* violence.
—*Sir T. Rhyol, Goweriana*, Ed. 127, li.

When the month praleth, man heareth; when the heart, God heareth. Every good prayer knocketh at heaven for a blessing; but an importunate prayer pierceth it (though as hard as brass) and makes way for itself into the ears of the Almighty.—*Bishop Hall, Meditations. (Ord MS.)*

2. Troublesome; not easy to be borne. Obsolete.

Bethink you, how to the importunate accidents of this human life all the world is exposed.—*Donne, History of the Septuagint, p. 143.*

Importunate. r. a. Importune.

Therefore, to purge users so pestilent,
Two heavenly scowls the Lord to Solon sent,
Whom, deeming mortals, let importunate
To take his lodging, and to taste his cuts.
Sylvestre, Du Bartas, lvi. (Ord MS.)

Importunator. s. Incessant solicitor, or demander.

Abnegators and dispensers against the law of God,
but tyrannous importunators and exactors of their own.—*St. B. Sandys, State of Religion.*

That it importunes death and doleful drearyhedd.
Spenser, Faerie Queen.

Importune. v. a. Entered thus, because there are cases where there is no noun for it to govern, as in the one from Gray in the preceding entry. It is, probable, however, that some indeterminate word like *one, anyone* is understood.

Importune. adj.

1. Constantly recurring; troublesome by frequency. Rare.

All that charges did fervently apply,
With greedy unlice and importune toll;
And planted there their huge artillery,
With which they daily made most dreadful battery.
Spenser, Faerie Queen.

Henry, king of England, needed not to have bestowed such great sums, nor so to have busied himself with importune and incessant labour, to compass my death and ruin, if I had been a feigned person.—*Bacon, History of the Reign of Henry VII.*

2. Troublesome; vexatious.

And th' armies of their creatures all, and some
Do serve to them, and with importune might
War against us, the vassals of their will.
Spenser.

Certainly the just God cannot be so importune and unreasonable a master, as to enjoin us what is physically impossible, to expect to reap where he has not sown, to require bricks without allowance of straw.—*Beaumont, Sermons, ix.*

3. Unreasonable; coming, asking, or happening, at a wrong time.

No fair to thine
Equivalent, or second! which compell'd
Me thus, though importune perhaps, to come
And gaze and worship thee.
Milton, Paradise Lost, ix. 608.

4. Cruel; inexorable.

The stroke of death is importune, and cannot be voyaged.
Bishop Fisher, Exposition of the Seven Penitential Psalms, p. 33.

They did lament his luckless state,
And often blame the too importune fate.
Spenser, Faerie Queen, l. 12, 16.

The accent is doubtful. Spenser writes *importune* both for the adjective and the verb; Milton (for the adjective) *importune*. The current rule is that not only the verb and noun be distinguished by their accents, but that the accent of the verb be on the final syllable. This, of course, gives *importune, v.* and *importune, adj.* The adjective, however, has probably been used in conversation by no living speaker, *importune* being a common pronunciation. *Importunity* suggests it. The analogy of *opportune* complicates rather than simplifies the question. That the accent is as I have given will scarcely be denied. It is only the adjective, however, which exists. There is no such verb as *opportune*, and few (or no) modern instances of such an adjective as *importune*.

Importunately. adv. In an importune manner.

The palmer bent his ear unto the noise,
To work who called so importunately;
Again he heard a more earnest voice,
That bade him come in haste.
Spenser, Faerie Queen.

With a play on the words.

The constitutions that the apostles made concern-

IMPO

ing deacons and widows, are, with much importunity, but very importunately urged by the disciplinarians.—*Bishop Sanderson.*

Importuner. s. One who importunes.

Preclude your ears against all rash, rude, irrational, innovating importuners.—*Waterhouse, Apology for Learning, p. 187: 1683.*

Importunity. s. Incessant solicitation.

Overcome with the importunity of his wife, a woman of haughty spirit, he altered his former purpose.—*Kaules, History of the Turks.*

Impoſeable. adj. Capable of being laid as obligatory on anybody.

They were not simply impoſeable on any particular man, farther than he was a member of some church.—*Hammond.*

Impoſe. r. a. [Lat. pono = place; pass. part. positus.]

1. Lay on as a burthen or penalty.

It shall not be lawful to impose toll, tribute, or custom, upon them.—*Exod. vii. 24.*
(On iniquitous rulers and tyrannical kings impose Thy plagues, and curse them with such ills as these.
Pope.

2. Enjoin as a duty or law.

What good or evil is there under the sun, what action correspondent or repugnant unto the law which God hath imposed upon his creatures, but in or upon it God doth work, according to the law which himself hath eternally purposed to keep?—*Hooker, Ecclesiastical Polity.*

Impose but your commands,
This hour shall bring you twenty thousand hands.
Dryden.

3. Fix on; attach; impute to.

This cannot be allowed, except we impute that unto the first cause which we impose not on the second; or what we deny unto nature, we impute unto nativity itself.—*Sir T. Browne.*

4. Obtrude fallaciously.

Our poet thinks not fit
To impose upon you what he writes for wit.
Dryden.

5. In Printing. Put the puges on the stone, and fit on the chase, in order to carry the form to press.

Impoſe on. Deceive; put upon (the two words translate each other).

Physicians and philosophers have suffered themselves to be so far imposed upon as to publish chymical experiments, which they never tried.—*Boyle.*

He that thinks the name centaur stands for some real being, imposes on himself, and mistakes words for things.—*Locke.*

Impoſe. s. Command; injunction; thing imposed. Rare.

According to your ladyship's impose,
I am thus early come.
Shakespeare, Two Gentlemen of Verona, iv. 3.

Impoſer. s. One who imposes.

1. One who enjoins as a law; one who lays anything on another as a hardship.

The universities' sufferings might be manifested to all nations, and the imposers of these onus might repent. *J. Walton.*

2. One who places or puts anything on another.

The coronary thorns did not only express the scorn of the imposers, by that figure into which they were contrived; but did also pierce his tender and sacred temples to a multiplicity of palms, by their numerous acuminations.—*Bishop Pearson, Exposition of the Creed, art. iv.*

Imposition. s.

1. Act of laying anything on another.

The second part of consecration is the prayer and benediction of the bishop, made more solemn by the imposition of hands. *Hammond.*

2. Act of attaching or annexing.

The first imposition of names was grounded, among all nations, upon future good hope conceived of children.—*Camden.*

The imposition of the name is grounded only upon the preeminence of that element whose name is ascribed to it.—*Boyle.*

3. Injunction of anything as a law or duty.

Their determination is to trouble you with no more suit; unless you may be won by some other sort than your father's imposition, depending on the casibus.—*Shakespeare, Merchant of Venice, l. 2.*
From imposition of strict laws, to free
Acceptance of large grace; from servile fear
To filial; works of law, to works of faith.
Milton, Paradise Lost, xii. 304.

4. Constraint; oppression: (with a mixture of the next meaning).

The constraint of receiving and holding opinions by authority was rightly called imposition.—*Locke.*

A greater load has been laid on us than we have been able to bear, and the arduous impositions have been submitted to, in order to forward the dangerous designs of a faction.—*Swift*.

5. Cheat; fallacy; imposture.

It was therefore determined that we should dispose of the horse at the neighbouring fair; and, to prevent imposture, that I should go with him myself.—*Goldsmith, Vicar of Wakefield*, l. 14.

6. Supernumerary exercise enjoined scholars as a punishment: (an *academical* term).

When impositions were supply'd,
To light my pipe, or soothe my pride.

T. Warlen, Progress of Discontent.

Impossible. *adj.* Incapable of being done; not to be attained; impracticable.

With men this is impossible; but with God, all things are possible.—*Matthew*, xix. 26.

Difficult it is, but not impossible.—*Chillingworth*.
(For other examples see under *Impossibility*.)

Impossible. *s.* Impossibility.

I credit less
Than witches, which impossible confess.
Donne, Poems, p. 71.

Impossibility. *s.*

1. Incapability of being done; that which cannot be done.

Though men do, without offence, wish daily that the affairs, which with evil success are past, might have fallen out much better; yet to pray that they may have been any other than they are, this being a manifest impossibility in itself, the rules of religion do not permit.—*Hosker, Ecclesiastical Polity*.

Impossible! oh no, there's none, *Cowley*.

Could I bring thee to a captive home,
[Of the word *impossibility*], it may be said either that there are three species of it, or that it may be used in three different senses. 1st. What may be called a mathematical impossibility, is that which involves an absurdity and self-contradiction; e.g. that two straight lines should enclose a space, is not only impossible but inconceivable, as it would be at variance with the definition of a straight line. And it should be observed, that inability to accomplish any thing which is, in this sense, impossible, implies no limitation of power, and is compatible, even with omnipotence, in the fullest sense of the word. If it be proposed, e.g. to construct a triangle having one of its sides equal to the other two, or to find two numbers having the same ratio to each other as the side of a square and its diameter, it is not from a defect of power that we are precluded from solving such a problem as these; since in fact the problem is in itself unmeaning and absurd: it is, in reality, nothing, that is required to be done. It is important to observe respecting an impossibility of this kind, that it is always susceptible of demonstrative proof. Not that every such impossibility has actually been proved such; or that we can be certain it ever will be; but that it must be in itself capable of proof—the materials of such proof—the data on which it may be founded,—being (whether discovered or not) within the range of our knowledge. This follows from the very character (as above described) of such truths as the mathematical; mathematical impossibilities being of course included under that term. For, every such truth must be implied, however tedious and difficult may be the task of eliciting it—in the definitions we set out with, and consequently in the terms, which are the exact representatives of those definitions: e.g. that any two sides of a triangle are greater than the third—in other words, that it is impossible to construct a triangle, one of whose sides shall be equal to the other two—is a matter of easy and early demonstration. The incommensurability of the side and the diameter of a square,—in other words, the impossibility of finding two numbers having to one another the ratio of the side to the diameter,—is a truth which was probably believed some time before a demonstration of it was found; but it is no less implied in the definitions of 'straight line,' 'square,' &c. In the case of the circle again, the ratio of the diameter to the circumference has been long sought by mathematicians; and no one has yet demonstrated, or perhaps ever will, either, what their ratio is, or, on the other hand, that they are incommensurable; but one or the other must be within the sphere of mathematical demonstration. When therefore any one says that perhaps so and so may be an impossibility in the mathematical sense, though we may never be able to prove it such, he is to keep in mind that at least such proof is within the scope of inquiry, and that no increase of knowledge, in the sense of 'information respecting facts,' can be needed to furnish materials for the demonstration. Every such impossibility must be implied—though we may not perceive it, in the terms employed; in short, it must be properly a 'contradiction in terms.' 2ndly. What may be called a physical impossibility is something at variance with the existing laws of nature, and which consequently no being subject to those laws (as we are), can surmount; but we can easily conceive a being capable of lifting about what in the ordinary course of nature is impossible; e.g. to multiply five loaves into food for a multitude, or to walk on the surface

of the waves, are things physically impossible, but imply no contradiction; on the contrary, we cannot but suppose that the being, if there be such an one, who created the universe, is able to alter at will the properties of any of the substances it contains. . . . 3dly. Moral impossibility signifies only that high degree of improbability which leaves no room for doubt. In this sense we often call a thing impossible, which implies no contradiction, or any violation of the laws of nature, but which yet we are rationally convinced will never occur, merely from the multitude of chances against it; as, e.g. that unloaded dice should turn up the same face, one hundred times successively. And in this sense, we cannot accurately draw the line, so as to determine at what point the improbability amounts to an impossibility; and hence we often have occasion to speak of this or that as almost impossible, though not quite, &c. The other impossibilities do not admit of degrees of approach. That a certain throw should occur two or three times successively, we should not call very improbable; the improbability is increased at each successive step; but we cannot say exactly when it becomes impossible; though one would scruple to call one hundred such occurrences impossible. *Archbishop Whately, Elements of Logic*, appendix, Ambiguous Terms, xi. Impossibility.

2. Impracticability; state of being not feasible.

Simple Philoclea, it is the impossibility that dith tormented me; for unlawful desires are punished after the effect of enjoying, but impossible desires in the desire itself.—*Sir P. Sidney*.

Admit all these impossibilities and great absurdities to be possible and convenient.—*Archbishop Whately*.

Those who assert the impossibility of space existing without matter, must make body infinite.—*Locke*.

Impost. *s.* [Fr. *impost*, *impôt*.] Tax; toll; custom paid.

Taxes and imposts upon merchants do seldom
I to the king's revenue; for that that he wins
in the hundred, he loseth the shire.—*Bacon, Essays*.

Impost. *s.* [Fr. *imposte*.] In Architecture. That part of a pillar, in vaults and arches, on which the weight of the whole building lies; capital of a pier or pilaster which receives an arch; any supporting piece.

An impost is said to be mutilated when its projection is diminished, so that it does not exceed that of the adjoining pilaster which it accompanies.—*Giesell, Encyclopedia of Architecture*, Glossary.

Impostor. *s.* One who cheats by a fictitious character.

Shame and pain, poverty and sickness, yea death and hell itself, are but the trophies of those fatal conquests got by that grand impostor, the devil, over the deluded sons of men.—*South, Sermons*.

Used adjectively.

With the Fratrell, to him the fatal gift of Constantine was the doom of true religion; with them he almost adores poverty; but it is industrious down-trodden rustic poverty; and that of the impostor beggar, common in his days, and denounced as sternly as by the political economy of our own, still less of the religious mendicant. Both these I freely excluded from his all-embracing charity.—*Milman, History of Latin Christianity*, b. xiv. ch. vii.

Impostorship. *s.* Character of an impostor.

Knelling rather to make this phantasm an expounder, or indeed a depraver of St. Paul an examiner and discoverer of this impostorship.—*Milton, Of Predicall Episcopacy*, (Ord MS.)

Impostress. *s.* Female impostor.

I put the case of the impostress Elizabeth Barton, that said, that if King Henry the Eighth took not his wife again, Catherine daughter, he should be no longer king.—*Bacon*, v. 352. (Ord MS.)

Impostrious. *adj.* Having the character of an impostor.

We know these latter chiefly from the evidence of Plato, their pronounced enmity; yet even his evidence, when construed candidly and taken as a whole, will not be found to justify the charges of corrupt and immoral teaching, impostrious pretence of knowledge, &c. which the modern historians pour forth in loud chorus against them.—*Grube, History of Greece*, pt. ii. ch. lxvii.

Impostumate. *v. n.* Form an abscess; gather; form a cyst or bag containing matter.

That high food of spiritual pride and confidence . . . will be sure to impostumate in the soul.—*Hammond, Works*, iv. 574.

The broken impostumated, and afterwards turned to a stinking ulcer, which made everybody shy to come near her.—*Arbuthnot*.

Impostumate. *v. a.* Afflict with an impostume.

Our vices impostumate our souls.—*Sir G. Baker, History of Richard III.*, p. 53: 1016.

Impostumated. *part. adj.* Afflicted with, constituted by, or constituting, an impostume.

I have induced them to the quick, and not only let out the impostumated matter, but taken away the proud and dead flesh.—*Dr. Griffith, Samaritan Review*, p. 41: 1060.

They would not fly that surgeon, whose lancet threatens none but the impostumated parts.—*Dr. H. More, Decay of Christian Piety*.

Impostumation. *s.* Act of forming an impostume; state in which an impostume is formed.

He that maketh the wound bleed inwards, endangereth malign ulcers and pernicious impostumations.—*Bacon, Essays*.

Impostume. *s.* [see extract from Johnson.] Collection of purulent matter in a bag or cyst.

New rotten diseases, ruptures, catarrhs, and bladders full of impostume, make superfluous discoveries.—*Shakspeare, Troilus and Cressida*, v. 10.

An error in the judgement is like an impostum in the head, which is always noxious, and frequently mortal.—*South, Sermons*.

[This seems to have been formed by corruption from *impudens*, as South writes it; and *impudens* to have been written erroneously for *apostem*, *abscessus*, an abscess.—*Johnson*.]

Impostume. *v. a.* Afflict with an impostume.

Impostumated. *part. adj.* Afflicted with an impostume.

I did always forewarn that your impostumated stomach would belch forth some bawdy matter.—*Sir J. Heyward, Answer to Doleman*, ch. v.

Imposturage. *s.* Imposition; cheat. *Rare*.

Many other practices of human art and invention, which help crankiness, lameness, dimness of sight, &c. no man is so foolish as to impute to the devil's invention, or to count them any harmful imposturage.—*Jeremy Taylor, Artificial Happiness*, p. 127.

Imposture. *s.* Cheat; fraud; supposititiousness; cheat committed by giving to persons or things a false character.

That the soul and soul's have nothing to do with grosser locality is generally opinionated; but who is it that retains not a great part of the imposture, by allowing them a definite 'ubi,' which is still but imagination?—*Glennville, Scipias Scientificæ*.

We know how successful the late usurper was, while his army believed him real in his zeal against kingship; but when they found out the imposture, upon his aspiring to the same himself, he was presently deserted, and never able to crown his usurped greatness with that title.—*South, Sermons*.

Form new legends,
And fill the world with follies and impostures.—*Johnson, Irene*.

Impostured. *adj.* Having the nature of imposture.

What have vile I to do with noble day,
Which shows us heaven's fair face! that face

Wantonly scorn'd, and cast my love away
Upon impostur'd lust's foul mystery.
Beaumont, Pyrrhus, ii. 102.

Imposturous. *adj.* Deceitful; chenting.

Twice my thoughts were prompted by mine eye to hold thy strictness false and imposturous.—*Beaumont and Fletcher, Woman-Hater*.

A proud, lustful, imposturous villain.—*Dr. H. More*, letter quoted in *Ward's Life of Dr. More*, p. 352.

Impotence. *s.*

1. Want of power; inability; imbecility; weakness.

Weakness, or the impotence of exerting animal motion, attends fever.—*Arbuthnot*.
God is a friend and a father, whose care supplies our wants, and defends our impotence, and from whose compassion in Christ we hope for eternal glory hereafter.—*Rogers*.

2. Incapacity of propagation.

Infused with obscenity must prove
As hateful, sure, as impotence in love.
Byron, Essay on Criticism, pt. ii.
Impotence [in] incapacity of sexual intercourse, and inability of procreation. *Impotence* and sterility are so related, that they may be considered under one head, although distinguished by some nomenclature. . . . *Impotence* may exist in either sex, but most commonly in the male, owing to some conformation. Sterility most frequently depends upon the female, although it sometimes is owing to the male; and, in a practical point of view, if not in a

medico-legal one, it is more frequently thus owing than is stated in books. Those who are thus irregularly or constitutionally *impotent*, are of a trico-phlematic or lymphatic temperament.—*Copland, Dictionary of Practical Medicine*.

3. Want of control over one's self. *Latinism*. Will he, so wise, let loose at once his ire, Balks through *impotence*, or unreason, To give his enemies their wish, and end Them in his anger, whom his anger saves To punish endless? *Milton, Paradise Lost*, li. 135.

Yet all combin'd, Your beauty and my *impotence* of mind. *Dryden*.

Impotency. *s.* Same as *Impotence*. *Rodas* were poor by *impotency* of nature; as young fatherless children, old decrepit persons, idiots, and cripples.—*Sir J. Heyward*. This is not a restraint or *impotency*, but the royal prerogative of the most absolute King of kings; that he wills to do nothing but what he can; and that he can do nothing which is repugnant to his divine goodness.—*Bentley*.

Impotent. *adj.* 1. Weak; feeble; wanting force; wanting power.

We that are strong must bear the imbecility of the *impotent*, and not please ourselves.—*Hooker, Ecclesiastical Polity*. Although in dreadful whirls we hung, High on the broken wave, I knew thou wert not slow to hear, Nor *impotent* to save. *Addison, Spectator*.

2. Disabled by nature or disease. In these [poor] lay a great multitude of *impotent* folk, of blind, halt, withered, waiting for the moving of the water.—*John, v. 3*. And there sat a certain man at Lystra, *impotent* in his feet, being a cripple from his mother's womb, who never had walked.—*Acts, xiv. 8*. The *impotent* poor might be relieved, and the idle forced to labour.—*Sir W. Temple*.

3. Wanting restraint; (with *of*). Then, *impotent* of tongue, her silence broke, Thus turbulent in rattling tone she spoke. *Dryden, Translation of the First Book of the Iliad*, 723.

4. Without power of propagation. He told bean Prim, who is thought *impotent*, that his mother would not have him, because he is a *envious*, and had committed a rape.—*Tuller*.

Impotent. *s.* *Impotent* person. Your task shall be With all the force and power of your wit, To enforce the pained *impotent* to smile. *Shakespeare, Lord's Labour's lost*, v. 2.

Impotently. *adv.* In an *impotent* manner.

1. Without power generally. The church of England is blessed with a true clergy, and glorious; and such a one as his Italian generation may *impotently* envy and marvel at.—*Bishop Hall, Image of married Clergy*, p. 96. Proud Caesar, midst triumphal cars, The spoils of nations, and the pomp of wars, Ignobly vain, and *impotently* great, Shew'd Rome her Cato's figure drawn in state. *Pope, Prologue to Addison's Cato*.

2. Without government of one's self; without self-control. *Latinism*. He loves her most *impotently*, and she loves not him.—*Burton, Anatomy of Melancholy*, p. 179. The danger is of being *impotently* passionate.—*Dr. H. More, Conjectures on Cubitatio*, p. 283.

Impound. *v. a.*

1. Inclose as in a pound; shut in; confine. The great care was rather how to *impound* the rebels, than none of them might escape, than that any doubt was made to vanquish them.—*Bacon, History of the Reign of Henry VII.*

2. Shut up in a pinfold. England Hath taken and *impounded* as a stray The king. *Shakespeare, Henry V.* 1. 2. Seeing him wander about, I took him up for a stray, and *impounded* him, with intention to restore him to the right owner.—*Dryden, Don Sebastian*.

Impoverish, *Impover*. See *Empoverish*, &c.

Impracticability. *s.* *Impracticable* character of anything. All I shall observe on this head is, to entrust the polemic divine, in his controversy with the Deists, to push home the ground of his belief, and the *impracticability* of theirs.—*Goldsmith, Essays*, iv. (Ord MS.)

Impracticable. *adj.*

1. Incapable, wholly or approximately, of being performed. To preach up the necessity of that which our experience tells us is utterly *impracticable*, were to affront mankind with the terrible prospect of universal damnation.—*Boyle*.

2. Unmanageable; stubborn. That fierce *impracticable* nature Is govern'd by a dainty-finger'd girl. *Rome, Jane Shore*, l. 1.

Impracticableness. *s.* Attribute suggested by *Impracticable*. I do not know a greater mark of an able minister than that of rightly adapting the several faculties of men, nor is any thing more to be lamented than the *impracticableness* of doing this.—*Swift*. The greatest difficulty in these sieges was from the *impracticableness* of the ground.—*Bishop Burnet, History of his own Time*.

Imprecate. *v. a.* [Lat. *imprecatus*, preterite part. of *imprecor*; *imprecatio*, -*onis*.] Call for evil upon one's self or others. Eudes, who had blessed the Norman banners at Hastings, was allowed to slink unharmed through the camp, with the royal trumpets blaring and the English *imprecating* curses on his head.—*C. H. Pearson, The early and middle Ages of England*, ch. xxv.

Imprecation. *s.* Curse; prayer by which any evil is wished to another or one's self. My mother shall the horrid furies raise With *imprecations*. *Chapman, Translation of the Odyssey*.

Impregn. *v. a.* *Impregnate*. *Rhetorical*. The cane did again appear with a linen hanging thereat so grossly *impregn'd*, as it promised to be deliver'd of a most happy burthen.—*Shelton, Translation of Don Quixote*, iv. 13. Semple doth *impregn* the bear, *Impregn'd* of love. *Dr. H. More, Song of the Soul*, l. 1, 28. In her ears the sound Yet rung of his persuasive words, *impregn'd* With reason, to her seeming. *Milton, Paradise Lost*, ix. 736.

Impregnable. *adj.* 1. Not to be stormed; not to be taken. Two giants kept themselves in a castle, seated upon the top of a rock, *impregnable*, because there was no coming to it but by one narrow path, where one man's force was able to keep down an army.—*Sir P. Sidney*.

2. Unshaken; unmoved; unaffected; invincible. The man's affection remains wholly unconcerned and *impregnable*; just like a rock, which, being plied continually by the waves, still throws them back again, but is not at all moved. *South, Sermon*.

Impregnant. *s.* [Lat. *prægnans*, -*antis*.] Pregnant; *impregnate*. *Rare*. There was never anything ugly or mis-shapen, but the claus; wherein notwithstanding, to speak strictly, there was no deformity because no form, nor was it yet *impregnant* by the voice of God.—*Sir T. Browne, Religio Medici*.

Impregnate. *v. a.* Fill with young; make prolific. Hermaphrodites, although they include the parts of both sexes, cannot *impregnate* themselves.—*Sir T. Browne*. Christianity is of so prolific a nature, so apt to *impregnate* the hearts and lives of its proselytes, that it is hard to imagine that any branch should want a due fertility.—*Dr. H. More, Decay of Christian Piety*.

Impregnate. *v. n.* Become pregnant. Were they, like Spanish jewels, to *impregnate* by the wind, they could not have thought on a more proper invention.—*Addison, Spectator*, no. 127.

Impregnated. *adj.* *Impregnated*; made prolific. The soul hereby grows (as it were) big, and *impregnate* with a temptation.—*South, Sermon*, vi. 155. With native earth their blood the mountains mix'd; The blood, endu'd with animating heat, Did in the *impregnate* earth new sons beget. *Dryden*.

Impregnation. *s.* 1. Act of making prolific; fecundation. They ought to refer matters unto nature, which is the first begotting; and *impregnation*; but when they are elaborate in the womb of their counsel, and grow ripe to be brought forth, then they take the matter back into their own hands.—*Bacon*. 2. That with which anything is *impregnated*. What could implant in the body such peculiar *impregnation*, as should have such power?—*Derham, Physico-Theology*.

Imprejudicate. *adj.* Unprejudiced; not prepossessed; impartial. *Rare*. The solid reason of one man with *imprejudicate* apprehensions, begets as firm a belief as the authority of aggregated testimony of many hundreds.—*Sir T. Browne*.

Impræparation. *s.* Unpreparedness; want of preparation. *Rare*. *Impræparation* and unreadiness when they find in us, they turn it to the mooting up of themselves. *Hooker, Ecclesiastical Polity*. It is our infidelity, our *impræparation*, that makes death any other than advantage.—*Bishop Hall, Contemplations*, li. iv.

Impræscriptible. *adj.* Without the compass of prescription; by no length of time to be aliened or lost. The end of every political association is the preservation of the natural and *impræscriptible* rights of man.—*Narce, Works*, li. 156: 1810.

Impréssé. *s.* [From Italian, *impressa*. — *Sir H. Walton*.

6. Printing; edition; number printed at
once; one course of printing.

For ten years since which his works have had in
so many years, at present a hundred books are
scarcely published once a twelvemonth. — *Dryden*.

It is certain, that the recent introduction into
England of the art of typography, to which our
countrymen afforded the most liberal encourage-
ment, and which for many years was almost solely
confined to the *impression* of English books, the
fashion of translating the classics from French ver-
sions, the growing improvements of the English
language, and the diffusion of learning among the
laity, greatly contributed to multiply English com-
position both in prose and verse. — *T. Watson, His-
tory of English Poetry*, ii. 407. (Ox. MS.)

Impressible. *adj.* Liable, subject to,

Thus arose the *impropriate* livings in the hands of laymen, which are now actual estates. — *Croft, Historical Sketches, Speeches, and Characters, The Church in Ireland.*

Impropriated. part. adj. Made impropriate.

Those *impropriated* livings, which have now no settled endowment, and are therefore called *advowsons*; they are such as belonged formerly to those orders who could serve the cure of them in their own persons, as the canon regular of the order of St. Augustine, which being afterwards devolved into the hands of laymen, they lived poor curates to serve them, at the cheapest rate they could. — *H. Wharton, Detection of Errors in Barne's History of the Reformation*, p. 67: 1233.

Impropriation. s.

1. Exclusive possession.

The Catholics had, as they deemed, the *impropriation* of all divine knowledge. — *Loc, Bliss of Brightest Beauty*, p. 29: 1014.

2. Alienation of the possessions of the church.

An *impropriation* is properly so called when the church land is in the hands of a layman; and an *appropriation* is when it is in the hands of a bishop, college, or religious house, though sometimes these terms are confounded. — *Ayliffe, Parergon Juris Canonici.*

Having an *impropriation* in his estate, he took a course to dispose of it for the augmentation of the vicarage. — *Spelman.*

Impropriator. s.

1. One who seizes to himself.

I should condemn any man for a most unconscionable incloser and *impropriator*, that should take upon himself to give and her leave to speak or write this or the like, which is as common for every one as the air which we breathe. — *Dean Martin's Letters*, p. 23: 1042.

2. Layman that has the possession of the lands of the church.

Where the vicar leases his glebe, the tenant must pay the great tithes to the rector or *impropriator*. — *Ayliffe, Parergon Juris Canonici.*

Impropriety. s. Unfitness; unsuitableness; imbecuity; want of justness.

These mighty ones, whose ambition could suffer them to be called gods, would never be flattered into immortality; but the proud have been convinced of the *impropriety* of that appellation. — *Sir T. Browne, Vulgar Errors.*

Particular instances of the same, *plural*.

Many gross *improprieties*, however authorised by practice, ought to be discarded. — *Swift.*

Every language has its immodities, which, though inconstant, and in themselves once unnecessary, must be tolerated among the imperfections of human things, and which require only to be reversed, that they may not be increased, and ascertained, that they may not be confounded; but every language has likewise its *improprieties* and absurdities, which it is the duty of the lexicographer to correct or prescribe. — *Johnson, Preface to Dictionary.*

Improsperity. s. Want of prosperity, or success. *Rare.*

Some relics of this feud . . . were long after the coming of the one family's almost utter extinction, and of the other's *improsperity*. — *Nauclon, Fragmenta Regalia, Knarvon.*

Improsperous. adj. Unsuccessful.

This method is in the design probable, how *improsperous* never the wickedness of men hath rendered the success of it. — *Hannibal, On Pseudo-morale.*

Our prodigies us at once into the guilt of bold,

and punishment of *improsperous* rebels. — *Dr. H. More, Discourse of Christian Piety.*

Seven revolting years are wholly run, Since the *improsperous* voyage we begun.

Dryden, Translation of the Aeneid.

Imprévable. adj. Capable of being improved.

We have stock enough, and that too of so *imprévable* a nature, that is, capable of infinite advancement. — *Dr. H. More, Discourse of Christian Piety.*

Man is accustom'd with moral principles, *imprévable* by the growth of his faculties. — *Sir M. Hale, Origin of Mankind.*

I have a fine spread of *imprévable* lands, and am already planting woods and draining marshes. — *Addison, Spectator.*

Impréve. v. a.

1. Advance anything nearer to perfection; raise from good to better: (we amend a bad, but *impréve* a good thing).

I have not to *impréve* the honour of the living by inquiring that of the dead. — *Sir J. Ashmole, Preface to Translation from Apocrypha.*

Heaven seems *impréved* with a superior ray, And the bright arch reflects a double day.

Pope, Translation of the First Book of the Thebais of Statius.

To stated and public instruction he added familiar visits and personal application, and was careful to *impréve* the opportunities which conversation afforded of diffusing and increasing the influence of religion. — *Johnson, Life of Watts*. (Ord MS.)

2. Augment; increase (for the worse).

Some learned men, who own the gospel, say there is nothing mysterious herein; an assertion, which, though it may be innocently meant, yet is so unlimited as it may, I think, be very easily *impréved* to an ill use. — *Grove, Cosmologia Sacra*, b. v. ch. iv. (Ord MS.)

This ill principle, which being thus habitually *impréved*, and from personal corruption spreading into general and unfeeling in the course of all the misdeeds and disorders, public and private, which trouble and infect the world, is to be altered and corrected only by discipline. — *South, Sermons*, v. 17.

The hardest contest between man's inclination and duty, is in those who have wilfully contracted vicious habits, and by that means rendered their duty much more difficult to themselves; leaving gently *impréved* the evil inclinations of nature by wicked practice. — *Archbishop Tillotson*, ii. 278. (Ord MS.)

3. ? Prove in the sense of try.

Some unhappy sinner in law, and waste of his fortune in those suits, made some impression upon his mind, which being *impréved* by domestic afflictions, and those indulgences to himself which naturally attend those afflictions, rendered his age less reformed than his youth had been. — *Lord Clarendon, Life*, i. 32.

Impréve. v. n. Advance in goodness.

We take care to *impréve* in our frugality and diligence; virtues which become us, particularly in times of war. — *Bishop Atterbury.*

Spelt with e.

That fool who said in his heart there is no God, e're long *impréved* into a wit, and loudly swears there is neither in heaven nor in earth. — *Ailesford, Sermons*, i. 270: 1044. (Ord MS.)

Impréve. v. a. [Lat. *in* : *un*.] Disprove. *Rare.*

Though the prophet Jeremy was unjustly accused, yet doth not that *impréve* any thing that I have said. — *Archbishop Whitgift.*

Improvement. s.

1. Melioration; advancement of anything from good to better.

Some virtues tend to the preservation of health, and others to the *improvement* and security of estates. — *Archbishop Tillotson.*

2. Act of improving; something added or changed for the better: (sometimes with *on*).

The parts of Sinon, Camilla, and some few others, are *improvements* on the Greek poet. — *Addison, Spectator.*

3. Progress from good to better.

There is a design of publishing the history of architecture, with its several *improvements* and designs. — *Addison.*

4. Progress in any respect; increase.

When the corruption of men's manners, by the habitual *improvement* of this vicious principle, comes from personal to be general and universal, so as to diffuse and spread itself over a whole community, it naturally and directly tends to the ruin and subversion of the government. — *South, Sermons*, v. 17.

5. Instruction; edification.

I took upon your city as the best place of *improvement*: from the school we go to the university, but from the university to London. — *South, Sermons.*

6. Effect of melioration.

Love is the greatest of human affections, and friendship the noblest and most refined *improvement* of love. — *South, Sermons.*

Impréver. s. One who improves; one who makes himself or any thing else better; anything that makes anything better.

They were the greatest *imprévés* of those qualifications with which courts used to be adorned. — *Lord Clarendon, History of the Grand Rebellion*. (Clark is a very great *impréver* of most lands. — *Mortimer, Husbandry.*

Imprévidé. part. pref. Unforeseen; unexpected; *imprévidé* against. *Rare.*

She subscribed both This crafty messenger with letters vain, To work new war, and *imprévidé* death, By breaking off the band betwixt us twain. — *Spenser.*

Imprévidé. s. Want of foresight; want of caution.

Men would escape floods by running up to mountains; and though some might perish through *imprévidé*, many would escape. — *Sir M. Hale.*

The *imprévidé* of my neighbour must not make me inhuman. — *Sir R. L'Estrange.*

Imprévident. adj. Wanting foresight; wanting care to provide.

I shall conclude this digression, and return to the time when that brisk and *imprévident* resolution was taken! — *Lord Clarendon, History of the Grand Rebellion.*

With of.

When men well have fed, the blood being warm, Then are they most *imprévident* of harm. — *Daniel.*

Imprévidently. adv. In an *imprévident* manner; without forethought; without care.

Instructed in her course, *imprévidently* rash. — *Dryden, Polydoron*, song xii.

Improvvisatore, Improvisatrice. s. [Italian; the form in *-ice* is feminine, meaning a female improvisatore.] Professional extempore versifier, or dramatist; the thing, being wanting in England, the name is scarcely naturalized.

Improvise. v. a. Extemporize; provide extempore, or on the spur of the moment.

Improvise. part. adj. Extemporizer.

Some embryos were one and a half line, others three-fourths of a line, in size: the ova and the mammiform young are loose in the cavity; but the further developed young are attached by a special pedicle to the walls of this *improvise* marsupium. — *Deen, Lectures on Comparative Anatomy*, lect. 3.

Improvision. s. Want of forethought.

Her *improvision* would be justly necessary. — *Sir T. Browne.*

Imprudence. s. Want of prudence; indiscretion; negligence; inattention to interest.

Where good with bad were match'd, who of themselves Abhor to join; and by *imprudence* mix'd, Produce prodigious fruits of body or mind. — *Milton, Paradise Lost*, xi. 686.

Imprudent. adj. Wanting prudence; injudicious; indiscreet; negligent.

There is no such *imprudent* person as he that neglects God and his soul. — *Archbishop Tillotson.*

Impudence. s. Shamelessness; immodesty.

A woman, if she maintain her husband, is full of anger, *impudence*, and much reproach. — *Ecclesiasticus*, xiv. 22.

These clear truths, that either their own evidence forces us to admit, or common experience makes it *impudent* to deny. — *Locke.*

Impudence in an Englishman is seldom and (except in a Scotchman) it is not metable and rapacious; in an Irishman, absurd and fawning. — *Spectator*, no. 20.

Impudent. adj. [Lat. *pudet* — it shames; pres. part. *pulens*, *-entia*; *putor* — shame; *pudicitia* — modesty.] Shameless; wanting modesty.

It is not a confident brow, nor the throng of words that come with such more than *impudent* assurance from you, can thrust me from a level consideration. — *Shakespeare, Henry IV. Part II. ii. 1.*

When we behold an angel, not to fear, Is to be *impudent*. — *Dryden, Spanish Fryar.*

Impudently. adv. Shamelessly; without modesty.

With open mouths, and *impudently* rail. *Sandys.*

Impudicity. *s.* Immodesty.

They are so unacquainted with Rome's impurities and *impudicity*.—*Shelton, Miracles of Antichrist*, p. 18: 1616.

That usual pride, levity, or *impudicity*, which they observed or suspected in many.—*Jeremy Taylor, Artificial Happiness*, p. 115.

Impugn. *v. a.* [Fr. *impugner*; Lat. *impugno*; *pugno* = fight.] Attack; assault by law or argument.

You say, that in the odd church the truth of this mystery was never *impugned* openly.—*Archbishop Cranmer, Answer to Bishop Gardiner*, p. 263.

To knights of great emprise
The charge of justice given was in trust,
That they might execute her judgments who,
And with their might beat down licentious laws,
Which proudly did *impugne* her sentence just.

I cannot think myself engaged to discourse of his, as to their nature, use, and abuse; and that not only in matters of moment and business, but also of recreation, which is *impugned* by some, though better defended by others.—*South, Sermons*.

Impugnatio. *s.* Opposition; resistance.

The little is a perpetual *impugnatio*, and self-conflict; either part labouring to oppose and vanquish the other.—*Bishop Hall, Of Contention*, § 18.

Impugner. *s.* One who *impugns*, attacks, or invades.

To defend them from the pretended slanders of their *impugners*.—*Pulke against Alva*, p. 324: 1581.

The *impugners* of our English church.—*Bishop Morton, Episcopacy Asserted*, p. 2.
Leaving ourselves thus his willing *impugners*.—*Milton, Apology for Smectynymus*.

Impuissance. *s.* [Fr. *puissance* = power, *puissant* = powerful; from root of Lat. *possum* = I am able.] Impotence; inability; weakness; feebleness.

As he would not trust Ferdinand and Maximilian for supports of war, so the *impuissance* of the one, and the double proceeding of the other, lay fair for him for occasions to accept of peace.—*Thomson, History of the Reign of Henry VII.*

Impulse. *s.* [Lat. *impellere*, pass. part. *impulsus*; *impulsio*, *-usis*.]

1. Communicated force; effect of one body acting upon another.

If these little *impulses* set the great wheels of devotion on work, the largeness and height of that shall not at all be prejudiced by the smallness of its occasion. *South, Sermons*.

Bodies, from the *impulse* of a fluid, can only errate in proportion to their surfaces, and not according to their quantity of matter, which is contrary to experience.—*Chyane*.

2. Influence acting upon the mind; motive; idea impressed.

Moses, by Joe's *impulse*, Mezentius and his, Smeeth's Venus, with his ardour warmed His fainting friends.

Depledge, Translation of the Eccl., s. 976.
Moses saw the bush burn without being consumed, and heard a voice out of it: this was something, besides that an *impulse* upon his mind to go to Pharaoh, that he might bring his brethren out of Egypt.—*Locke*.

3. Hostile impression.

Like two great rocks against the raging tide
(If Virtue's force with Nature's we compare).
Cannon'd the two united chiefs abide,
Sustain the *impulse*, and receive the war.

Prior, Ode to Queen Anne, 1706.

Impulsion. *s.*

1. Agency of body in motion upon body.

The motion in the minute parts of any solid body passeth without sound; for that sound that is heard sometimes is produced only by the breaking of the air, and not by the *impulsion* of the air.—*Barrow, Natural and Experimental History*.

2. Influence operating upon the mind.

My keeper with compassion mov'd to see,
How grief's *impulsion* in my breast did beat,
Thus silence broke.

Microne for Magistrate, p. 632.
But thou shalt find
Divine *impulsion*, presuming how thou might'st
Find some occasion to infer our loss.

Milton, Samson Agonistes, 421.
He always opposed, upon the *impulsion* of conscience, all mutations in the church.—*Lord Clarendon, Life*, i. 97.

Influence, *impulsions*, or inclinations, . . . from the lights above.—*Sir T. Browne, Christian Morals*, iii. 7.

Impulsive. *adj.* Having the power of impulse; moving; impellant.

Nature and duty bind him to obedience;
But those being placed in a lower sphere,
His fierce ambition, like the highest mover,
Has hurried with a strong *impulsive* motion
Against their proper course.

Sir J. Johnson, The Sophy, iii. 1.
But although . . . it has not been thought the duty of the State to take an active and *impulsive* part in promoting the truth upon secular subjects, it has not been held that the State could with propriety be equally passive with respect to the permission of error.—*Sir G. C. Lewis, On the Influence of Authority in Matters of Opinion*, ch. ix. § 14.

Impulsive. *s.* Impellent cause or reason.

Notwithstanding all which motives and *impulsive* reasons, Sir Thomas (Barrow) refused to be sent abroad.—*Sir H. Walton, Remains*, p. 103.

Impunctuality. *s.* Unpunctuality. *Rare.*

I made to account for his *impunctuality*, some of his intimates were dispirited in quest of him.—*Observer*, no. 139. (Ond MS.)

Impunably. *adv.* Without punishment. *Rare.*

Xenophon represents the opinion of Socrates, that . . . no man *impunably* violates a law established by the gods.—*Ellis, Knowledge of Divine Things*, p. 65.

Impunity. *s.* [Lat. *impunitus*; *punitio* = punish.] Freedom from punishment; exemption from punishment.

In the regulation of subjects they will gladly continue, as long as they may be protected and justly governed, without oppression on the one side, or *impunity* on the other.—*Sir J. Doria*.

A general *impunity* would confirm them; for the vulgar will never believe that there is a crime where they see no penalty.—*Addison, Freicholder*.

Impure. *adj.* [Lat. *impurus*.]

1. Defiled with guilt; unholiness; (of men).

No more can impure man retain and move
In that pure region of a worthy love,
Than earthly substance can unfettered aspire,
And leave his nature to converse with fire. *Douglas*.

2. Contrary to sanctity; unhallowed; unholiness; (of things).

Hypocrites austere talk,
Condemning us *impure*, what God has made
Pure, and commands to seem, leaves free to all.
Milton, Paradise Lost, iv. 715.

3. Unchaste.

If black scandal, or foul fact's reproach,
Attend the sequel of your *impudence*,
Your more enforcement shall acquaintance me
From all the *impure* hints and stains the coast.

Shakespeare, Richard III., iii. 7.
One could not devise a more proper hell for an *impure* spirit, than that which Plato has touched upon.—*Addison*.

Impure. *v. a.* Render foul or impure; defile. *Rare.*

That other inundation seared the world, this *impures* it. *Bishop Hall, Sermons*, Works, ii. 203.

Impureness. *s.* Atrribute suggested by impure; (Impurity commoner).

1. Want of purity or chastity.

The act of a substantial *impureness* committed.
Milton, Doctrine and Discipline of Divorce.

2. Base admixture.

The *impureness* of mixed posterity.—*Felltham, Remains*, i. 85.

Impurity. *s.*

1. Want of sanctity; want of holiness.

The seal of a man grown to an inward and real *impurity*.—*Milton, Doctrine and Discipline of Divorce*, b. ii. ch. vi.

2. Act of uncleanness.

Real *impurity* joined among the monkish clergy. *Bishop Ath. Church, Sermons*.

3. Feculent admixture.

Clearse the alimentary duct by vomiting and clysters: the *impurities* of which will be carried into the blood.—*Arbuthnot*.

Impurple. See Empurple.

Imputable. *adj.*

1. Chargeable upon anyone; that of which one may be accused.

It is rather *imputable* to that prudent modesty which so much becomes every good woman.—*Jeremy Taylor, Artificial Happiness*, p. 169.
That first sort of foolishness is *imputable* to them.—*South, Sermons*.

2. Accessible; chargeable with a fault. *Improper.*

If the wife departs from her husband, through any default of his, as on the account of cruelty,

then he shall be compelled to allow her alimony; for the law deems her to be a dutiful wife as long as the fault lies at his door, and she is in no wise *imputable*.—*Ayliffe, Paragon Juris Canonici*.

Imputableness. *s.* Attributability suggested by imputable.

"It is necessary to the *imputableness* of an action, that it be avoidable."—*Noggin*.

Imputation. *s.*

1. Attribution of anything.

a. In the way of discredit: (the commoner import).

Whatever happens, they also the least feel that source of vulgar *imputation*, which will withstand they deserve.—*Hosier, Ecclesiastical History*.

I have formerly said that I could diminish your writings from those of any others: 'tis now time to clear myself from any *imputation* of self-conceit on that subject. *Depledge*.

Let us be careful to guard ourselves against these senseless *imputations* of our enemies, and to rise above them. *Addison*.

Neither do I reflect upon the memory of his late majesty, whom I entirely acquit of any *imputation* upon this matter. *Saith*.

b. In the way of credit: (the rarer import).

If I had a suit to master Shallow, I would labour his men with the *imputation* of being near their master.—*Shakespeare, Henry IV. Part II.*, v. 1.

2. Hint; slight notice.

Autumn is a good man.—Have you heard any *imputation* to the contrary? No, no; my meaning is to have you understand me that he is sufficient.—*Shakespeare, Merchant of Venice*, i. 3.

Imputative. *adj.* Having the nature of an imputation.

In all things righteousness, acceptance, or sanctification, is free and *imputative*.—*Translation of Bullinger's Sermons*, p. 1652.

The fourth is the *imputative* righteousness of Christ, either exhibited or not rightly understood.—*Newton, Life of Bishop Bull*.

Imputatively. *adv.* By imputation; attributively.

Such made choice of a slave, rather than a free woman, to bring to her husband's bed, that the child, which the slave might impregn to bear, might *imputatively*, at least, be accounted hers.—*Stockhouse, History of the Bible*, b. in. ch. i.

Impute. *v. a.* [Fr. *imputer*; Lat. *imputo*.]

1. Charge upon; attribute: (generally in an ill sense).

It was *imputed* to him for righteousness.—*Romans*, iv. 22.

I made it by your persuasion, to satisfy those who *imputed* it to folly.—*Sir W. Temple*.

Impute your dangers to our ignorance.—*Dryden*.

2. Reckon to one what does not properly belong to him; credit.

The merit
Imputed shall also give them who resources
Their own both righteous and unrighteous deeds.
Milton, Paradise Lost, iii. 200

Im- Inseparable element in a long list of compounds. It is always a prefix.

Followed by *b*, *p*, or *m*, it becomes *im-*, as may be seen from the preceding entries. Followed by *t*, it becomes *it-*; by *r*, *r-* as in *iraduable*, *irreligious*, &c. How it comports itself before *gn*, though there are but few words which illustrate the change it undergoes, is worth noticing as an interesting point in general philology. Before *gn*, it loses its consonantal element altogether, and becomes simply *i*, as in *i-guable*; for such is the etymological division of this word. The only other entries are *i-gnore*, and *i-gnamy*, with their derivatives. *I-gnoscible*, from *ignoscere* = pardon, is entered by Johnson, and retained by Todd, but without an example. Neither do I find more than these in the Basis of Comparison (Third Period) of the Philological Society. This form, then, is rare.

Nevertheless, it exemplifies a series of words in which an original *g* has, to a great extent, disappeared; only, however, in the simple word. And that naturally; inasmuch as *g* and *k*, followed by *n* in the same syllable, have a tendency in many languages, to drop off. They do so, as

far as pronunciation is concerned, in our own, though not in the allied languages; *knabe* (*knave*), *knacht* (*knight*), &c. being sounded in German with the initial *k* distinctly heard. In Greek, too, words like *γῆρας* are commoner than words like *ἡναιος* in Latin, where *natus* is commoner than *quintus*—the Latin giving both *in-natus* and *ex-quintus*. But the compounds may keep what the root rejects; and that for a plain reason. Prefix a word like *co-*, to *gnatus*, and the *g*, by being divided between two syllables, gains in facility of pronunciation. Hence, certain combinations preserve the *g* that the fundamental word has lost.

In the matter of sound this *g* might comport itself in two ways. (1) It might be sounded with the *-i-*, and, so sounded, look as if it were simply a part of the negative prefix; a mere modification of the *n* of *in-*; or (2) it might become *-ng-*, giving in the first instance the combination *ing-nobilia*, the *g* of the root having lost its power as a separate consonant, but having nasalized the *n* of the prefix. The first of these alternatives is what we find in our own language. In the French the second seems to have prevailed. The French *ignoble* is sounded more like *in-goble* (though it is needless to say that this is but the roughest of approximations to the true sound) than *ig-noble*. Now here the *g* sound represents the *g*, and follows, instead of (as in English) preceding the *n*. But there are two *n*'s, the *n* of *noble*, and the *n* of *in*. It is suggested that it is the former which is dropped, and that it is the latter which is preserved. If so, a curious point of orthography has been illustrated; one which is generally explained by supposing a transposition. The doctrine here conveyed gives no transposition; merely the fact that out of two *n*'s, with a softened *g* between them, the second is lost.

It is chiefly as a Latin adverb that *in* is used, and it has three powers; (1) as in *in-strua*, whence *in-struct*; (2) as in *in-cludo*, whence *in-clude* or shut in; (3) as in *in-tolerable*, where its import is negative, i.e. that of the English *not*, and *un-*, as in *un-known*.

1. The import of *in-*, in the compounds of the first division, though of great importance and some obscurity in Latin, is of little note in English. In English this prefix exists only so far as it belongs to certain words which have been introduced from the Latin as *wholes*. There being no such separable particle in English, we never have recourse to it in making compounds; and there is no ambiguity. In French it occurs as *en-*, and between words of French and Latin origin there is sometimes room for doubt. As a general rule, however, the distinction is clear. *Enchantment* is French; *incantation*, Latin: one from *canto* directly; one from *canto* indirectly.

2. For the *in-* inclusive, see *En-*.

3. The *in-* negative is what commands attention here.

With the compounds of *in-*, having the power of a negative, the chief complication arises from the concurrent use of the English prefix *un-*. This often precedes even words of Latin origin.

When do we use *in-*, and when *un-*? The rule that carries us the farthest is this,—that for *in-* to be used, the word should be

wholly, and either actually or possibly Latin; one that is introduced into the English as a complete and ready-made word. The least intermixture of an English element muddies the compound. A good word to illustrate this is *ineffable*. There is the Latin word *ineffabilis* (unspeakable), and there is no such English word as *effable*; except, of course, so far as it has been derived from its commoner compound. This may always happen; but a very little thought tells us that the secondary word is not always the oldest, i.e. as an English word.

The two most notable exceptions are *insufferable* and *inability*. *Sufferable* and *ability* are English—not Latin. Yet *un-sufferable* and *unability* (spite of *unable*) sound harshly. The doctrine that explains the first of these hybrid terms is that, as *sufferable*—*tolerable*, *in-sufferable* has been suggested, as a sort of concurrent form, for *in-tolerable*. *Inability* may be explained in two ways. Though *able* is English, *habilis* is Latin. I prefer, however, looking to the coincidence of *-ability*, as in *penetrability*, &c., in its character of a derivational element, with *ability* as a whole word in English. Such is the explanation for the two most notable exceptions to the rule laid down.

How far does the rule apply? In the main it applies to words in the first instance only. A word, to begin with the negative *in-*, must be originally a Latin word; but when introduced into English, it may, to a certain extent, be treated as an English root. The adverbial suffix *-ly* is English; yet we may say *in-constant-ly* and *in-cessant-ly*. The suffix *-ness* is in the same predicament: yet it may easily be used too freely. To words like *submissiveness*, he would be an over-nice purist who objected. Yet, unless the pure notion of abstraction were to be expressed for some metaphysical purpose, most of us would prefer the approximate abstract *penetrability* to the more (logically) correct *penetrableness*. In fact, there are so many cases where the true Latin forms *in-tude*, *-ion*, and *-ity*, are so near in meaning to the English form in *-ness*, that hybridism may be avoided with a gain on the side of purity and no great loss on that of logic. If *-ness*, however, be used, *in* and not *un-*, is the right prefix. In like manner the participial forms in *-ate* are better than the true English participles in *-ated*, and *inanimate* better than *inanimated*: for which latter word, even independent of the shade of difference in its import, *un-animated* is the better form.

We have now taken due cognizance of the statement, that in order to be preceded by *in-* a word must be Latin. How far must Latin words not be preceded by *un*? *Naturalis* is Latin, *conscious* is Latin, and *congruous* is Latin. Nevertheless, while we say *in-congruous*, we say *un-conscious*, and *un-natural*; not to mention the fact of such a word as *impolite* being exceptionable. Concerning these it may be said that certain words, though of Latin origin, are so thoroughly Anglicized as to comport themselves in composition as English. I doubt, however, whether the explanation does not lie deeper. There are several compounds in which the Latin language favoured *in-* less

than certain combinations of *non* (not), and *minime* (in the least degree). *Conscious* was, certainly, one of these; *non-conscious*, *non-naturalis* (in the Latin stages of the language), *minime politus* being common. The rationality of these is a point of Latin philology. It is indicated, however, here for the sake of showing that in the laying down a rule the main exceptions have not been either overlooked or kept back.

En. prep. [A.S.]

1. Word preceding the name of any object material, or immaterial, by which another object is inclosed.

His [Dryden's] Essay on Dramatic Poetry, published in 1688, was reprinted sixteen years afterwards, and it is curious to observe the changes which Dryden made in the expression. . . . The Anglicism of terminating the sentence with a preposition is rejected. Thus, 'I cannot think so contemptibly of the age I live in,' is exchanged for 'the age in which I live.'—Hallam, *Introduction to the Literature of Europe during the fifteenth, sixteenth, and seventeenth centuries*, pt. iv. ch. vii. § 37.

2. *On. Obsolete.*

And in his necks

Her proud foot setting.

Spranger, Færie Queen, v. 4. 40.

All who in vain thins

Built their fond hopes of glory.

Milton, Paradise Lost, iii. 18.

In that. Because.

Some things they do in that they are men; in that they are wise men and christian men, some times; some things in that they are men misled, and biased with error. *Hooker, Ecclesiastical Polity*.

In as much. Since; seeing that.

These things are done voluntarily by us, which other creatures do naturally, in as much as we might say our doing of them if we would.—*Hooker, Ecclesiastical Polity*.

En. adv.

1. Within some place; not out: (as, 'Come in'—enter).

2. Engaged for any affair.

We know the worst can come; 'tis thought upon: We cannot slink behind *in*, we must go on. *Shakespeare, Merchant of Venice*, li. 5.

The pragmatical flies value themselves for being in at every thing, and are found at last to be just good for nothing. *Sir R. J. K. strange*.

3. Placed in some state.

Who loses and who wins; who's in, who's out.

Shakespeare, King Lear, v. 3.

Must never patriot then declaim at sin,

Unless, good man, he has been fairly in?

Pope, Epilogue to the Satires, dialogue ii.

4. Noting immediate entrance.

Go to thy fellows; bid them cover the table, serve in the meat, and we will come in to dinner.—*Shakespeare, Merchant of Venice*, li. 5.

He's too big to go in there—what shall I do?—Let me see!—I'll in, I'll in; follow your friend's counsel, I'll in.—*Id., Measure for Measure*, li. 3.

5. Into any place; closely.

Next fill the hole with its own earth again,

And trample with thy feet, and tread it in.

Drake, Translation of the Georgics, li. 313.

With a second *in*.

In the said cavity lies loose the shell of some sort of bivalve larger than could be introduced in at those holes.—*Woodward*.

6. Close; home.

The posture of left-handed fencers is so different from that of the right-handed, that you run upon their swords if you push forward; and they are in with you, if you offer to fall back without keeping your guard.—*Titter*.

Used substantively, as, 'He knows all the ins and outs of the place.'

Breed in and in. Breed from the same family.

Play in and out. Play fast and loose.

How infamous is the false, fraudulent, and unaccountable person; especially if he be arrived at that consummate and robust degree of falsehood as to play in and out, and show tricks with oaths, the sacred bonds which the conscience of man can be bound with.—*South, Sermons*.

Inability. *s.* [For the preference of *in-*, to *un-*, see *In-*.] Want of ability or power.

If no natural nor casual inability cross their desires, they always delighting to injure themselves with actions most beneficial to others, cannot but gather great experience, and through experience the more wisdom.—*Hooker, Ecclesiastical Polity*.

Inabstinence. *s.* Want of power to abstain.

Disseas direct of which a monstrous crew
Are the shall appear, that thou may'st know
What misery the *inableness* of Ken
Shall bring on man. *Milton, Paradise Lost*, xl. 401.

Inabesively. adv. Without abuse.

A state of mortality shall always want that infinite wisdom, and purity of intention which resideth in the deity, and which makes power to consist in *inabesively* only there, as in its proper sphere. *Lord North, Light in the Way to Paradise*, p. 91: 1682.

Inaccessibility. s. State of being, character of that which is, inaccessible.

That side which fronts on the sea and haven needs no art to fortify it, nature having supplied that with the *inaccessibility* of the precipice. *Butler, Remains*, l. 417.

Inaccessible. adj. Incapable of being reached or approached.

What'er you are,
That in this desert *inaccessible*,
Under the shade of melancholy boughs,
Lose and neglect the creeping hours of time.

This part, which is so wide, is not altogether *inaccessible*; and that an easy way may be found to it, 'tis to consider nature and to copy her. *Dryden*.

Inaccuracy. s. Want of exactness or accuracy.

There are two small *inaccuracies* in this sentence.

—*Bishop Hurd, on Addison's Spectator*, no. 512.

Inaccurate. adj. Not exact; not accurate.

The expression is plainly *inaccurate*. — *Bishop Hurd, on Addison's Spectator*, no. 315.

Inaction. s. Forbearance, or cessation, from action.

The times and amusements past are not more like a dream to me than those which are present: I lie in a refreshing kind of *inaction*. — *Pope*.

Fragments of the worst kind succeed to perfect *inaction*. — *Bishop Berkeley, Maxims*, § 58.

Inactive. adj. Other than active; not busy or diligent; idle; indolent; sluggish; unfavourable to activity.

Not the vain visions of *inactive* schools,
Not fancy's maxims, nor opinion's rules,
Ever form'd the man, whose generous warmth
Extends

To enrich his country. *Shenstone*.

His [Rowe's] plays are misused and pleasing poems; but *inactive* and unmoving tragedies. — *J. Watson, Essay on the Writings and Genius of Pope*.

Others are . . . doomed to lose four months in *inactive* obscurity. — *Johnson, Rambler*, no. 124.

Inactivity. s. Idleness; rest; sluggishness.

Virtue, conceal'd within our breast,

Inadequate. adj. Not adequate or equal to the purpose; defective; falling below the due proportion.

Remorse for vice
Not paid, or paid *inadequate* in price,
What farther means can reason now direct?

Dryden.

Inadequate ideas are such, which are but a partial or incomplete representation of those archetypes to which they are referred. — *Locke*.

Inadequation. s. Want of exact correspondence. *Rare*.

This difference only arising from *inadequation* of languages. — *Criticism in Fuller's Moderation of the Church of England*, p. 418.

Inadmissible. adj. Incapable of being allowed or admitted.

It must always be remembered, that bishop Leath's verbiage is designed for the learned; in our vulgar use 'narrow' for 'chosen choir'; 'this' for 'avenue oak'; &c. would be clearly *inadmissible*. — *Archbishop Newcome, Essay on the English Translations of the Bible*, p. 365.

Inadvertence. s. Carelessness; negligence; inattention.

Many persons have lain under great and heavy penalties, which have taken their first rise from some *inadvertence* or indiscretion. — *Dr. M. More, Government of the Tongue*.

Inadvertency. s. Same as Inadvertence.

There is a difference between them, as between *inadvertency* and deliberation, between surprise and set purpose. — *South, Sermons*.

From an habitual heedless *inadvertency*, men are

so intent upon the present, that they mind nothing else. — *Sir R. L. Edwinge*.

The productions of a great genius, with many lapses and *inadvertencies*, are infinitely preferable to the works of an inferior kind of author, which are scrupulously exact. *Addison*.

I languish in a condition too horrible to be described, and which in a kind of humanity, and what is much more, Christianity, seems a strange punishment for a little *inadvertency* and indiscretion. — *Felding, Adventures of Joseph Andrews*.

Sudden fits of *inadvertency* will surprise vigilance, slight avocations will reduce attention, and casual eclipses of the mind will darken learning. — *Johnson, Preface to Dictionary*.

Inadvertent. adj. Not attending to things as they occur; negligent; careless.

But he was always *inadvertent*. — *Lamb, Letter to Wordsworth*.

Inaquate. adj. [Lat. *aqua* = water.] Embodied in water. *Rare*.

For as much as he is joined to the liquid but sacramentally, there followeth no *inanimation* thereof, no more than the Holy Ghost is *inanimate*, that is to say, made water, being sacramentally joined to the water in baptism. — *Archbishop Cranmer, Answer to Bishop Gardiner*, p. 304.

Inauration. s. State of being inaqueate. *Rare*.

The second reason is almost as fully involved, alluding from *inanimation* to *inauration*. — *Bishop Gardiner, Reply to Archbishop Cranmer*, p. 309.

Inarch. v. a. See extract.

Inarching is a method of grafting which is commonly called grafting by approach. This method of grafting is used when the stock and the tree may be joined: take the branch you would *inarch*, and, having fitted it to that part of the stock where you intend to join it, pare away the rind and wood on

one side about three inches in length: after the same manner cut the stock or branch in the place where the graft is to be united, so that they may join equally together that the sap may move. — *Miller*.

Inarching. *verb. abs.* See *Inarch*.

Inarticulate. *adj.* Not uttered with distinctness like that of the syllables of human speech.

Observe what *inarticulate* sounds resemble any of the particular letters. — *Bishop Wilkins, Mathematical Magick*.

By the harmony of words we elevate the mind to a sense of elevation; as our solemn music, which is *inarticulate* poetry, does in churches. — *Dryden*.

During the month which followed the death of Mary the King (William III.) was incapable of exertion. Even to the addresses of the two Houses of Parliament he replied only by a few *inarticulate* sounds. — *Mackay, History of England*, ch. xxi.

Inarticulation. *s.* Confusion of sounds; indistinctness in pronouncing.

The verses seemed to be obscure: but then it was by the ambiguity of the expression, and not by the *inarticulation* of the words. — *Lord Chesterfield*.

Inartificial. *adj.*

1. Contrary to art.

I have ranked this among the effects; and it may be thought *inartificial* to make it the cause also. — *Dr. H. More, Discourse of Christian Piety*.

2. Not made by art; plain; simple; artless; rude.

It was the *inartificial* process of the experiment, and not the artfulness of any commentary upon it, which they have had in veneration. — *Bishop Spalding, History of the Royal Society*, p. vi.

Inattention. *s.* Disregard; negligence; neglect; heedlessness.

We see a strange *inattention* to this most important prospect. — *Rogers*.

(Orl MS.)

Such whose white satin upper coat of skin,
Cut upon velvet rich incarnadine,
Has yet a body (and of flesh) within.

Larcker, Lucania, p. 124.

Incarvate. *v. a.* [Lat. *incarnatus*, pass. part. of *incarno*.] Clothe with flesh; em-
body with flesh.

He was not yet born nor incarnate. — *Archbishop
Cranmer, Answer to Bishop Gardiner, p. 83.*

With gods to sit the highest, am now constrain'd
Into a least, and mix with bestial slime,
This essence to incarnate and inhume.

Milton, Paradise Lost, ix. 163.

If quick reversion, and true discrimination, and the
happy faculty of *incarnating* the idea of his part,
are properties essential in the almost unobtainable
composition of a great and perfect actor, these
and many more will be found in Mr. Dutton. — *Chamber-
land, Life of Hamlet.*

Incarvate. *v. n.* Form flesh; hurl.

When Dr. James and I first viewed it [the
wound], he was in a hopeful condition, and in very
good temper, and began to *incarnate*. — *Proceedings
of the Royal Society, Birch, ii. 253.* (Orl MS.)

Incarvate. *adj.*

1. Clothed with flesh; embodied in flesh.

Undoubtedly even the nature of God itself, in the
person of the Son, is *incarnate*, and hath taken to
itself flesh. — *Hooker, Ecclesiastical Polity.*

2. ? Possessed.

But he's possess'd,

Incarvate with a thousand imps.

Swift.

3. Deep red colour.

Yellow, pale, ruddy, blue, white, gray, and *in-
carvate*. — *Quintessence of Lore, 1696.*

For repairing, with some additions, of the rich
incarnate velvet bed, being for the reception of his
body, [1690]. — *Parliamentary History, vol. 3.*
p. 306.

Incarvation. *s.*

1. Act of assuming body.

We must beware we exclude not the nature of
God from *incarnation*, and so make the Son of
God incarnate not to be very God. — *Hooker, Eccle-
siastical Polity.*

Upon the Annunciation, or our Lady-day, melle-
tate on the *incarnation* of our lord I Saviour. —
Jeremy Taylor, Guide to Devotion.

2. State of breeding flesh.

The pulsation under the cicatrix proceeded from
the too lax *incarnation* of the wound. — *Wicman,
Surgery.*

3. Colour of flesh.

The other sort of flower was of a deep *incarna-
tion*, not unlike the gillflowers of Spain. — *History
of Peru, p. 250.*

Incarvative. *s.* Medicine that generates
flesh. *Obsolete.*

Such are these caustic plasters, preparatory to
the *incarnation*, the knife, and the lance. — *Ham-
mond, Works, iv. 484.*

I detested the abscess, and *incarnate* by the com-
mon *incarnation*. — *Wicman, Surgery.*

Incarvation. *s.* [Lat. *carvna* = chain.]

Enchaining.

How much more nobly would a philosopher thus
employed, spend his time, than by sitting at home,
curiously intent upon adding one star more to his
catalogue, or one monster more to his collection,
still, if possible, more triflingly zealous in the
calculation of floss, or the sculpture of a cherry,
stone. — *Holdsworth, Cities of the World, iv. 166.*
(Orl MS.)

Incarvative. *adj.* Unwary; negligent; heed-
less.

His rhetorical expressions may easily captivate
any incautious reader. — *Ked, Against Horat.*

Incarvateness. *s.* Want of habits of
caution. *Rare.*

By this means is the passion strengthened, and
the person whom it respects weakened, this by *in-
carvateness* and credulity, that by restraint and
apprehension. — *Bishop Reynolds, On the Passions,*
144. (Orl MS.)

Incarvate. *v. a.* [Lat. *incendo*; pass. part. *in-
census*.] Inflame. *Obsolete.*

Oh! there's a fine *incensus* his blood!

Marton, Scourge of Villany, ii. 6; 1229.

With the heat, brought with thee, they *incen-*
diate the brain beyond measure. — *Barton, Anti-my of
Metaphysics, p. 207.*

Incarvate. *s.* Willful firing of buildings,
crops, or the like.

Incendiarism is sometimes an act of partial insanity
— *Shommonie* incendiary of Esquimaux pyromania.
As in the foregoing disorder, persons are sometimes
impelled to the commission of this act by an irre-
sistible impulse, which their will was incapable of
overcoming. Most of these cases have occurred in
girls and young women, who were either pregnant,
disordered in the uterine functions. — *Cyclopedia,
Dictionary of Practical Medicine.*

Although no one can deny there is no proof of
such a phenomenon as the spontaneous combustion
of a living body, it must be admitted that by li-
tion of the particles of organic or inorganic matter
combustion may take place independently of the ap-
proach or contact of an ignited substance. . . . We
have yet much to learn respecting the cause of this
spontaneous ignition of bodies. . . . Towards the
latter part of the last century several fires occurred
in the Russian navy, as well as in the warehouses on
shore, which were at first attributed to *incendiarism*,
but were subsequently discovered to be owing to the
spontaneous inflammation of masses of hemp and
flax impregnated with oil. Experiments were made
on the subject by the Imperial Academy of Sciences,
and it was shown to the satisfaction of the Russian
Admiralty, that such materials, when heaped to-
gether, and allowed to remain for some time undisturbed,
a full mass of air, would spontaneously ignite. The
great fire in Plymouth Dockyard in 1810 was sup-
posed to have arisen from a similar cause, although
there was a strong suspicion that it was the act of
an incendiary. — *Dr. A. S. Taylor, Medical Juris-
prudence.*

Incendiarist. *s.*

1. One who sets houses or towns on fire in
malice or for robbery.

Fire has frequently involved in the common calu-
mny persons unknown to the *incendiarist*. — *Sir W.
Blackstone, Commentary on the Laws of England,*
(See also *Incendiarism*.)

2. One who inflames factions or promotes
quarrels.

Incendiarist of figure and distinction, who are
the inventors and publishers of gross falsehoods,
cannot be regarded but with the utmost detestation.
Johnson.

Several *incendiarists* of Greece drove them out as *incen-
diarists*, and pests of common weals. — *Bosley.*

3. Simply, an exciter; whatever stirs up.
Rare.

To these two above-mentioned causes, or *incendiarists*,
of this rage, I may very well annex time, place, &c.
— *Barton, Anatomy of Metaphysics, p. 106.*

Incendiarist. *adj.* Inflaming faction; pro-
moting quarrel.

With this menace the *incendiarist* informer left
De Fide, in order to carry his threats into
effect. — *History of Drury, p. 140; 1770.*

Incense. *s.* [Lat. *incensum* = a thing burnt; *Fr. encens*.] Perfumes exhaled by fire in
honour of some god or goddess.

Upon such sacrifices, my Cordelia,
The gods themselves throw incense.

Shakespeare, King Lear, v. 3.

Nunn the rites of strict religion knew;
On crystallar mid the incense dune. — *Prior.*

Incense. *v. a.* Perfume with incense.

The prayers of the saints, *incensed* by his
[Christ's] meditation and merit. — *Barrow, Works,*
111.

Incense. *v. a.* Enkindle to rage; inflame
with anger; enrage; provoke; irritate to
anger; heat; fire; make furious; exas-
perate.

The world, too sunny with the gods,
Incense them to send destruction.

Shakespeare, Julius Caesar, i. 3.

Had idolatry and other faults,
Happy in the popular sin, will so *incense*
God as to leave them.

Milton, Paradise Lost, xii. 337.

How could my pious son thy power *incense*?
Or what, alas! is vanquished Troy's offence?
— *Dryden, Translation of the Aeneid, l. 317.*

Incensement. *s.* Rage; heat; fury.

His *incensement* at this moment is so implacable,
that satisfaction can be now but by pains of death.
— *Saskia, Evelyn's Night, in 4.*

Incension. *s.* Act of kindling; state of
being on fire.

Soul both its wretchedness by deceiving; and sub-
tle or windy spirits are taken off by *incension* or
evaporation. — *Barrow.*

Incensive. *adj.* Having the power of in-
censing; having a tendency to incense,
kindle, inflame, excite.

To be extremely hated, and indignantly per-
secuted, without any fault committed, or just oc-
casion offered, is greatly *incensive* of human passion.
— *Barrow, Works, iii. 115.*

Incensor. *s.* Kindler of anger; inflamer of
passions. *Rare.*

Many priests were impetuous and importunate
incensors of the race. — *Dr. A. Haywards.*

Incite. *v. a.* That which kindles, provokes,
encourages; incitement; motive; encou-
ragement; spur, whether to good or ill:
(with *to*).

Generosity of opinions, to our natural constitution,
is one great *incite* to their reception. — *Glauville,
Scipio's Speeches.*

It encourages speculative persons, with all the *in-
citive* of place, profit, and preferment. — *Addison,
Plea for the City.*

The wealth and prosperity of the southern pro-
vinces, the hope of plunder, was of itself sufficient
incite to the lower adventures; to the nobler
there was the chivalrous passion for war and adven-
ture; while the easier mode of obtaining pardon for
sins, without the home and toilsome, and perilous
and costly journey to the Holy Land, brought the
superstitions of all ranks in throngs under the con-
centrated banners. — *Mitford, History of Latin Chris-
tendom.*

In the sixteenth century Queen Catherine was an
obstacle to the establishment of the kitchen, an
incite to unreasonable hopes. — *Fraser, History of
England, ch. ii.*

Incite. *adj.* Inciting; encouraging:
(with *to*).

Competency is the most *incite* to industry:
too little makes men desperate, and too much care-
less. — *Dr. J. More, Discourse of Christian Policy.*

Incipient. *s.* [Lat. *incipio*, -onis.] Be-
ginning.

The *incipient* of putrefaction hath in it a matu-
ration. — *Bacon.*

Many *incipients* are but, as Epicurus termeth
them, 'tentamina,' that is, imperfect offers and as-
says, which vanish, and amount to no substance, with
out duration. — *Id.*

Incipient. *adj.* Noting beginning.

An *incipient* and desirous proposition, as, the sun
vanish as the sun rises; but the sun have not yet
begun to vanish, therefore the sun is not yet risen.
— *Locke.*

Incipient. *s.* [Latin.]

1. Beginner; one who is in his rudiments.

2. Academical term, denoting that the per-
son is admitted to a degree which is not
completed.

Incipient or recent masters in the universities,
ruminative. — *Hobbes.*

In the year 1574, Mr. Hooker's grace was given
him for *incipient* of arts: Dr. Herbert Westphaling,
a man of noted learning, in *incipient* via chancellor;
and, the next following, he was completed master. —
L. Walton, Life of Hooker.

There were only ten *incipients* in arts, and three
in theology and jurisprudence. — *T. Bacon, History
of English Poetry, ii. 419.*

Incertain. *adj.* Uncertain. *Barbarous.*

The matter is *incertain*.

Lawless and *incertain* thoughts.

Shakespeare, Measure for Measure, iii. 1.

Willow misery

Outlives *incertain* pomp.

Id., Timon of Athens, iv. 3.

With words confused *incertain* tales they told.
Fairfax, Translation of Tasso.

Incertainly, adv. In an uncertain manner; doubtfully. *Barbarous.*

Answer *incertainly* and ambiguously. *Hulnot.*

Incertainly, s. Uncertainty. *Barbarous.*
The certain lizard

Of all *incertainities*. *Shakespeare, Winter's Tale, iii. 2.*

Showing the corruption, *incertainities*, and disagreements of these volumes. *Milton, Animadversions upon a Defence of the Humble Remonstrance.*

Incertainly, s. Uncertainty; doubtfulness. Under this *incertainly*, let us see what the count advances more distinctly concerning the Persons in the Deity. *Bishop Lavington, Moravian's comparison, p. 9.*

Differences arose upon the sense and interpretation of these laws. Thus we were brought back to our old *incertitude*.—*Burke, Vindication of Natural Society, c.*

Incassant, adj. [Lat. *cessans, -entis*; pres. part. of *cesso*—*cease*.] Unceasing; uninterrupted; continual; uninterrupted.

The *incassant* weeping of my wife,
For'd me to seek delays.

Shakespeare, Comedy of Errors, i. 1.

Incassant? could hope to change the will
Of him who all things can, I would not cease
To weary him with my assiduous cries.

Milton, Paradise Lost, xi. 307.

Incassantly, adv. In an incessant manner; without intermission; continually.

Both his hands were all the while
Alone the water were in high extent,
And said to wash themselves *incassantly*.

Spranger, Furies Queen.

Incassantly, and to his reading brings not
A spirit and judgement equal or superior.

Milton, Paradise Regained, iv. 323.

The Christians, who carried their religion through so many persecutions, were *incassantly* comforting one another with the example and history of our Saviour and his apostles.—*Johnson.*

Incassible, adj. Unceasing; continual.

The *incassible* blows which still do wound our ears.—*Shelton, Translation of Don Quixote, li. 6.*

Inccest, s. [Fr. *inceste*; Lat. *incestum*.] Unnatural and forbidden conjunction of persons within degrees prohibited.

It's not a kind of incest to take life
From thine own sister's shame?

Shakespeare, Measure for Measure, iii. 1.

They call incest an unlawful weddling of a man with a woman, against the honour of blood and affinity. For incest signifies the marriage circle, which the bride did wear, to shew that the marriage was just and lawful.—*Translation of Halliwell's Sermons, p. 236.*

He who entered in the first act, a young man like Pericles, prince of Tyre, must not be in danger in the fifth act of committing incest with his daughter.

—*Dryden, Translation of Inflexible's Act of Pointing.*

[The etymology, which has been assigned to the Latin word, is more simple, viz. in and *cestus*. And the Latin word, as well as the Italian, means also any forbidden union between the sexes. See Halliwell's Life of Giovanni, note, p. 161. * Per incesto il Boccaccio non intendeva soltanto la colpa carnale, il consanguineo letto, ma ogni illegittimo conniugio. —*Toldi.*]

Inccestuous, adj. Guilty of incest; guilty of unnatural copulation.

Hide thee, thou bloody hand,
Thou perjur'd, and thou simular man of virtue,
Thou art *incestuous*.

Shakespeare, King Lear, iii. 2.

We may easily guess with what impudence the world would have heard an *incestuous* herald discoursing of chastity.—*South, Sermons.*

Are you reach to this *incestuous* love,
You must divine and human rights remove.

Dryden.

Inch, s. [A.S. *ince*; Lat. *uncia*.]

1. Measure of length supposed equal to three grains of barley laid end to end; the twelfth part of a foot.

A foot is the sixth part of the stature of man, a span one eighth of it, and a thumb's breadth or *inch* one seventh-second. —*Holliter.*

The sun should never miss, in all his race,
Of time one minute, or one *inch* of space.

Sir R. Blackmore.

2. Proverbial name for a small quantity.

The plebeians have not your fellow tribunes;
They'll give him death by *inches*.

Shakespeare, Coriolanus, v. 4.

1232

As in hating, so in length is man,
Contracted to an *inch*, who was a span.

Is it so desirable a condition to consist by *inches*,
And lose our blood by drops? —*Collier.*

The common were growing by degrees into power
And property, painful ground upon the patricians
inch by *inch*. —*Swift.*

3. A nice point of time.
Behold me, I think we watch'd you at an *inch*.
Shakespeare, Henry VI. Part 1. i. 4.

Inch, v. a.
1. Drive by inches.
Valiant they say, but very popular;
He gets too far into the soldiers' graces,
And *inches* out my master. *Dryden, Cleomenes.*

2. Deal out by inches; give sparingly.
The rest are commonly too sparing in the *inching*
out of the possibility of our assurance by nice distinctions. —*Bishop Hall, Kilmass, p. 257.*

Inch, v. n. Advance or retire a little at a time.
Now Turnus doubts, and yet disdains to yield,
But with slow paces measures back the field,
And *inches* to the walls.

Dryden, Translation of the Æneid, ix. 1064.

Inchable, adj. Unchangeable. *Barbarous.*
You bawling, blundering, *inchable* slave!

Shakespeare, Tempest, i. 1.

Inchastity, s. Want or loss of chastity. *Barbarous.*

On those women, who pretend that poverty pro-
voketh to *inchastity*. —*Jordan, Poems, § 2.*

Inchmeal, s. Piece an inch long; (con-
struction often *adverbial*). See Piece-
meal.

All the infections that the sun sucks up
From bogs, fens, flats, on Prospero fall, and make
him
By *inchmeal* a disease. *Shakespeare, Tempest, ii. 2.*

Inchoate, v. a. [Lat. *inchoatus*, pass. part.
of *inchoo*.] Begin; commence.

Plato mentions that the great soul of this world
does at least *inchoate*, and rudely delineate, the fab-
rick of our body at first. *Dr. H. More, Song of the Soul, Notes, p. 383; 1617.*

The higher congruity of life being yet but im-
perfectly *inchoate*. —*Glasse, On the Free existence of Souls, p. 139.*

Inchoate, adj. Begun; entered upon.

Oh, that all the saints of God, in a comfortable
grace of their *inchoate* blessedness could sing for
joy. —*Bishop Hall, Christ's Medical, § 8.*

The preparation of the imperfect, *inchoate*, very
moderate state of the Christian in this life. —*Haw-
mond, Works, iv. 365.*

It was just that the State should refuse to cancel
any of the equitable or *inchoate* rights, which could
be shown to have arisen under the Act of 1791, with-
out the consent of parties. —*Gladden, The State in its Relations with the Church, b. ii. ch. ix.*

Inchoately, adv. In an inchoate or inci-
pient degree.

Whether as fully just by thy gracious reputation,
or as *inchoately* just by thy gracious inspiration. —
Bishop Hall, Works, ii. 205.

Inchoation, s. Beginning.

It discerneth of four kinds of causes; forces,
franks, crimes, various of mediant, and the *in-
choations* or middle acts towards crimes capital, not
actually perpetrated. *Baron.*

The setting on foot some of those arts in those
parts would be looked upon as the first *inchoation*
of them, which yet would be but their reviving. —
Sir M. Hale, Origin of Mankind.

There is another life in which those divine *in-
choations* shall be completed. —*Glasse, Sermons, p. 291.*

Inchoative, adj. Inceptive; noting incho-
ation or beginning.

These acts of our intellect seem to be some *in-
choative* or imperfect rays. —*W. Montague, Divine
Knays, pt. i. p. 387; 1648.*

Incid, v. a. [Lat. *incido*, from *in* + *cedo* =
cut.] Make an incision; cut.

Incid, v. n. Act in the way of incision.

Medicines are said to *incide* which consist of
pointed and sharp particles; as acids, and most
salts, by which the particles of other bodies are di-
vided from one another: thus expectorating medi-
cines are said to *incide* or cut the phlegm. *Quincy.*

The incisions are promoted by all spontaneous sub-
stances, which include the mucus in the first pas-
sages. —*Arbuthnot.*

'Cut the phlegm' is a common expression.

Incidence, s. [Lat. *incido*, from *in* + *cedo* =
fall.] See Extracts.

The direction with which one body strikes upon
another, and the angle made by that line, and the
plane struck upon, is called the angle of *incidence*.

In the occurrences of two moving bodies, their *inci-
dence* is said to be perpendicular or oblique, ac-
cording to their directions or lines of motion make a straight
line or an oblique angle at the point of contact. —
Quincy.

In mirrors there is the like action of *incidence*,
from the object to the glass, and from the glass to
the eye. —*Bacon.*

In equal *incidences* there is a considerable in-
equality of refractions, whether it be that some of
the incident rays are refracted more and others less
constantly, or one and the same ray by refraction
disturbed. —*Sir I. Newton, On Opticks.*

The permanent whiteness argues, that in like *in-
cidence* of the rays there is no such separation of
the emerging rays. —*Ibid.*

Incidence, s. Same as Incidence.

What *incidence* thou dost guess of harm declare,
Is creeping towards me.

Shakespeare, Winter's Tale, i. 2.

He enjoys his happy state most when he commu-
nicates it, and receives a more vigorous joy from
the reflection than from the direct *incidence* of his im-
pulses. —*Norris.*

Incident, adj. [Lat. *incidenta, -entis*; Fr.
incident.]

1. Falling on anything.
The shaft of the candlestick had four *bowles*, with
six branches proceeding from it. And that the *in-
cident* light it gave to the table and the altar might
be the more conveniently reflected, it was necessary
it should be higher than them both. —*Greene, Cos-
mologicæ, b. iv. ch. viii. (Ord MS.)*

2. Casual; fortuitous; occasional; happen-
ing accidentally; issuing in beside the
main design; happening beside expecta-
tion.

As the ordinary course of common affairs is dis-
posed of by general laws, so likewise men's *in-
cidental* necessities and utilities should be with
special equity considered. *Hobbes, Ecclesiastical
Polity.*

In a complex proposition the predicate or subject
is sometimes made complex by the pronouns who,
which, whose, whom, &c. which make another propo-
sition; as, every man, who is pious, shall be
saved; Julius, whose surname was Cæsar, overcame
Pompey; bodies, which are transparent, have many
pores. Here the whole proposition is called the
primary or chief, and the additional proposition is
called an *incident* proposition. —*Watts.*

3. Happening; apt to happen.

Constancy is such a firmness of friendship as
overlooks all those failures of kindness, that through
passion, *inchoate* in human nature, a man may be
guilty of. *South, Sermons.*

4. Liable.

A contented and cheerful submission to the will
of God in the saddest condition to which human
nature is *incident*. —*Archbishop Tillotson, v. 314.
(Ord MS.)*

Incident, s. Something happening beside
the main design; casualty.

His wisdom will fall into it as an *incident* to the
point of lawfulness. *Baron, Addressment touch-
ing a Holy War.*

No person, no *incident* in the play, but must be
of use to carry on the main design. *Dryden, Trans-
lation of D'Avenant's Act of Building.*

In the Italian republics, the celebrated party di-
vision of Guelphs and Ghiblins was derived from
the conflict between the Emperor and the Pope;
afterwards other party distinctions, as that of the
Neri and Bianchi at Florence, were founded on *in-
cidental* peculiar to each State. —*Sir G. C. Lewis, On
the Influence of Authority in Matters of Opinion, ch. viii.*

Incidental, adj. Incident; casual; hap-
pening by chance; not intended; not delib-
erate; not necessary to the chief pur-
pose.

The satisfaction you received from those *inci-
dental* discourses which we have wandered into. —
Milton.

By many religious duties scarce appear to be re-
garded at all, and by others only as an *incidental*
business, to be done when they have nothing else to
do. *Rogers.*

Incidental, s. Accident.

To say the truth, either in the case of death or
life, almost every body and every thing is a cause or
object for humanity, even prosperity itself, and
health itself; so many weak pitiful *incidental* at-
tend on them. —*Pope.*

Incidentally, adv. In an incidental man-
ner; beside the main design; occasionally.

These general rules are but *incidentally* and *in-
cidentally* mentioned in Scripture, rather to manifest
unto us a former, than to lay upon us a new obliga-
tion. *Bishop Sanderson.*

I treat either purposely or *incidentally* of colours.
—*Dugdale.*

Incidentally. *adv.* Occasionally; by the way; incidentally? (the latter being the commoner word).

It was *incidentally* moved amongst the judges what should be done for the king himself, who was attended; but resolved that the crown takes away doctors.—*Bacon, History of the Reign of Henry VII.*

Incinerate. *v. a.* [Lat. *cinis, -eris, pl. cineres* = ashes.] Reduce to ashes: (in the first extract, though there is no name of the object incinerated, the verb is active rather than neuter).

By baking, without melting, the heat indurates, then maketh fragile; lastly, it doth *incinerate* and calcinate.—*Bacon.*

That power which is requisite to raise a body now purified and *incinerated*.—*Burton, Hermosa, p. 55: 1847.*

These drops are soon *incinerated* and calcined into such salts which produce coughs.—*Harvey, Discourse on Consumption.*

Incinerate. *adj.* Reduced to ashes.

Fire burneth wood, making it first liminous, then black and brittle, and lastly broken and *incinerate*.—*Bacon.*

Incineration. *s.* Act of burning anything to ashes; state of anything incinerated.

The phoenix kind,
Of whose *incineration*,
There riseth a new creation.

These quarries are of all the most obstinate, which arise out of the *incineration* of a former ruin.—*Sir H. Wotton, Resurrex, p. 40.*

I observed in the flat salt of urine, brewed by decomposition to be very white, a taste not unlike common salt, and very different from the caustic saline taste of other salts made by *incineration*.—*Hogel.*

Incipient. *adj.* [Lat. *incipiens, -entis, pres. part. of incipio* = begin.] Commencing.

Certainly in any sense, a second or third fluxion seems an obscure mystery. The *incipit* verities of an *incipient* celerity, the nascent argument of a nascent argument, i.e. of a thing which hath no magnitude, &c.—*Bishop Berkeley, Analogy, § 4.*

Incircumscribable. *adj.* Not to be bound, confined, or circumscribed.

When thou speakest of God, thou must consider a thing that in nature is single, without composition, without conversion; that is invisible, immortal, *incircumscribable*, incircumscriptible.—*Archbishop Cranmer, Answer to Bishop Gardiner, p. 345.*

Incircumscription. *s.* Absence of circumscription, limit, or definite boundary.

As God preserves man by his mercy, so his mercy hath all its operations upon man, and returns to its own centre and *incircumscription* and infinity unless it issues forth upon us.—*Jeremy Taylor, Miscellany of Divine Mercy, (Ord MS.).*

Incircumspect. *adj.* Wanting circumspection.

Our fashions of eating make us indisposed to labour *incircumspect*, incircumspect, heady, rash.—*Tryphile, Description of St. Malton, v.*

Incircumspection. *s.* Want of caution, heed, or circumspection.

An unexpected way of deception, whereby he more easily led away the *incircumspection* of their belief.—*Sir T. Browne, Vulgar Errors.*

Incise. *v. a.* [Fr. *inciser*; Lat. *incisus*, pass. part. of *incido* = cut in.] Incide. *Obsolete.*

If Truth's hand
Incise the story of our land,
Posterity shall see a fair
Structure.

Nor had his love to any (had not stone
And stocks discovered it) been ever known;
Which, (for on them he set his plaints) *incise*,
By chance presented it to Sylvie's eyes.

Sheridan, Translation from St. Augustine.

Incised. *adj.* Cut; made by cutting: (as, 'an incised wound').

I brought the incised lips together.—*Wierman, Surgery.*

Incision. *s.*

1. Cut; wound made with a sharp instrument.

Let us make *incision* for your love,
To prove whose blood is reddest, his or mine.

Shakespeare, Merchant of Venice, II. 1.

The reception of one is as different from the admission of the other, as when the earth falls open under the *incisions* of the plough, and when it gapes to drink in the dew of heaven, or the refreshments of a shower.—*South, Sermons.*

Used adjectively.

A small *incision* knife is more handy than a larger for opening the bag.—*Sharp, Surgery.*

2. In *Medicine.* Cutting as of phlegm. See *Incide.*

Absterion is a securing off, or *incision* of viscous humours, and making them fluid, and cutting between them and the part; as in viscous water, which curdles them.—*Bacon.*

Incisive. *adj.* Having the quality of cutting or dividing; sharp; trenchant.

The odour of many corals will cohere by being precipitated together, and be destroyed by the effusion of very piercing and *incisive* liquors.—*Hogel.*

Incisor. *s.* Cutting tooth.

The *incisors* of the upper jaw are larger and broader than those of the lower.—*B. Moore, On the Teeth.*

No marsupial animal is devoid of *incisors* in the upper jaw, like the ordinary ruminants of the placental series.—*Owen, Anatomy of Vertebrates.*

Incisure. *s.* Cut; aperture; incision.

In some creatures it is wide, in some narrow, in some with a deep *incisure* up into the head, for the better catching and holding of prey, and commencing of hard food.—*Iberham.*

Incitation. *s.* Incitement; incentive; motive; impulse; act of inciting; power of inciting.

After that Dionise, by their *incitation*, had expelled Plata out of Sicily, they abandoned their mild and severity.—*Sir T. Elphinstone, The Government, 64: 132.*

Dr. Ridley defines magnetical attraction to be a natural *incitation* and disposition conforming unto cohesivity, an union of one magnetical body unto another.—*Sir T. Browne, Vulgar Errors.*

The multitude of objects do proportionably multiply both the possibilities and *incitations*.—*Dr. H. More, Government of the Tongue.*

Incite. *v. a.* [Lat. *incito*; Fr. *inciter*.] Stir up; push forward in a purpose; animate; spur; urge on.

Antiochus, when he *incited* Prusias to join in war, set before him the greatness of the Roman empire it to a fire, that took and spread from kingdom to kingdom.—*Bacon.*

Nature and common reason, in all difficulties, where prudence or courage are required, do rather *incite* us to fly for assistance to a single person than a multitude.—*Sieff.*

Incitement. *s.* Motive; incentive; impulse; inciting cause.

A married it were, if a man of great capacity, having such *incitements* to make him desirous of all furtherances unto his cause, could espy in the whole scripture of God nothing which might breed at least a probable opinion of likelihood, that if authority was the same way *incitements*.—*Hooker, Ecclesiastical Polity.*

Let his acts speak him; and this shield,
Let down from heaven, that to his youth will yield
Such copy of *incitement*.

Hardly seems sent hither by some good providence, to be the *incitement* of great good to this island.—*Milton.*

But if thou must reform the stubborn times,
Averting from the sea the father's crimes,
And from the long records of distant age
Derive *incitements* to renew thy race,
Say from what period thou has Jews design'd
To date his vengeance?

Pope, Translation of the First Book of the Psalms.

Inciter. *s.* One who, or that which, incites.

They held it as an *inciter*.—*Philham, Rindres, li. 34.*

All this which I have deputed to thee, are *inciters* and rousers of my mind.—*Shelton, Translation of Don Quixote, in. 6.*

Incivility. *s.*

He does offend against that reverence which is due to the common apprehensions of mankind, whether true or not, which is the greatest *incivility*.—*Archbishop Tillotson.*

2. Act of rudeness: (in this sense it has a plural.)

Abstain from dissolute laughter, uncivil jests, loud talking and jarring, which, in civil account, are called indecencies and *incivilities*.—*Jeremy Taylor, Rule and Exercise of holy Living.*

Inclination. *s.* [Lat. *inclination, -onis*, from *inclino* = call out with the idea of blame.] Blame.

What the king of Israel is in all the bright bold of his state and supererogation, foregoing his solemn day with his richest devotion, steps forth a prophet of God, and interrupts that glorious service, with a

loud *inclination* of judgement.—*Bishop Hall, Jeroboam, (Ord MS.).*

No less in their *inclination* at the insulting frumps, then zealous of their own safety and reputation, do these idolatrous prophets now rend their throats with *inclination*.—*Id., Jeroboam with the Idolatry, (Ord MS.).*

Inclavate. *adj.* [Lat. *clavatus, clavus* = nail, peg, club.] Set; fast fixed.

(Teeth) are more *inclavate*, and *inclavate* into the jaw bones, by triple or quadruple roots.—*Smith, Portrait of Old Age, p. 81: 1000.*

Inclavency. *s.* Unmercifulness; cruelty; severity; harshness; roughness; want of clemency.

And though by tempests of the prize bereft,
In heaven's *inclavency* some ease we find:
Our foes we vanquish'd by our valour left,
And only yielded to the seas and wind.

Tryphile, Anna Mirabilis, xii.

Inclément. *adj.* Unmerciful; un pitying; void of tenderness; harsh.

Teach us further by what means to slum
The *inclément* season, rain, ice, hail, and snow.
Milton, Paradise Lost, x. 1002.

Naked, defenceless, on a barren land:
Proposals to my wants, a vast supply,
To guard the woodshed from the *inclément* sky.

Pope, Translation of the Odyssey, vi. 212.

Inclinable. *adj.*

1. Having a propension of will; favourably disposed; willing; tending by disposition.

A marvel it were, if a man of capacity could espy in the whole scripture nothing which might breed a probable opinion, that divine authority was the same way *inclinable*.—*Hooker, Ecclesiastical Polity.*

With *to*.

The gall and bitterness of certain men's writings, who spared him little, made him, for their sakes, the less *inclinable* to that truth which he himself should have honoured.—*Hooker, Ecclesiastical Polity.*

Desire,
Inclinable now grown to touch or taste,
Solicited her longing eye.

Milton, Paradise Lost, ix. 712.

2. Having a tendency.

If such a crust naturally fell, then it was more likely and *inclinable* to fall this thousand years than the last; but if the crust was always gradually nearer and nearer to falling, that is, that it had not ended eternally.—*Keating.*

Inclination. *s.*

1. Tendency towards any point: (with *to*).

The two rays, being equally refracted, leave the same *inclination* to one another after refraction which they had before; that is, the *inclination* of half a degree answering to the sun's diameter.—*Sir I. Newton, Opticks.*

2. Natural upness.

Though most of the thick woods are *inclined* up since the promontory has been cultivated, the still many spots of it which show the natural *inclination* of the soil tends that way.—*Johnson.*

3. Propension of mind; favourable disposition; incipient desire: (with *to*).

The king was wonderfully disinclined, when he found that the prince was lately alienated from all thoughts of *inclination* to the marriage.—*Lord Clarendon, History of the Great Rebellion.*

A mere *inclination* to a thing is not properly a willing of that thing; and yet, in matters of duty, men frequently reckon it for such: for otherwise how should they so often plead and rest in the honest and well inclined disposition of their minds, when they are justly charged with an actual non-performance of the law?—*South, Sermons.*

4. Love; affection; regard: (in this sense it admits *for*).

We have had few knowing painters, because of the little *inclination* which princes have for painting.—*Dryden.*

5. Disposition of mind.

Report the features of Octavia, her years,
Her *inclination*.

Shakespeare, Antony and Cleopatra, ii. 2.

6. Fancy.

This was the character of Monsieur Huet, who was a great *inclination* of mind, tho' he pass'd for a numerous man.—*Sir W. Temple, l. 438. (Ord MS.).*

7. Flexion; act of bowing.

There was a pleasant arbor, and by art
But of the trees own *inclination* made.

Spenser, Faerie Queene, vi.

To sit, did not (here) signify an *inclination* or flexion, any determinate position or position, of the body.—*Bishop Pearson, Exposition of the Creed, art. vi.*

8. Tendency of the magnetic needle, to the east or west.

It was found to be this very inclination to the axis of the earth; and proportionally, though not equally, answering to the degrees of latitude.—*Gregory, Posthumus*, p. 282; 1620.

9. In *Pharmacy*. Act by which a clear liquor is poured off from some faeces or sediment by merely stooping the vessel; decantation.

Inclinatorily, adv. Obliquely; with inclination to one side or the other: with some deviation from north and south.

Whether they be refrigerated *inclinatory*, or somewhat equinoctially, that is, toward the eastern or western points, they discover some verticity.—*Sir T. Browne, Vulgar Errors*.

Inclinatory, adj.

1. Having a quality of inclining to one or other.

If that *inclinatory* virtue be destroyed by a touch from the contrary pole, that and which before was elevated will then decline.—*Sir T. Browne, Vulgar Errors*.

2. Applied to the magnetical needle.

This needle, touched with the stone, and directing towards the north and south, the mariners, as the mathematical philosophers, call their directory needle: not only for the reason intimated, but to distinguish it also from the other, called the *inclinatory* needle.—*Gregory, Posthumus*, p. 241.

Incline, v. n. [*Lat. inclino*; *Fr. incliner*.]

1. Bend; lean; tend towards any part: (generally with *to* or *towards*).

Her house inclineth unto death, and her paths unto the dead.—*Psalm*, li. 14.

Still to this place
My heart inclineth, still I hither turn my eyes;
Hither my feet unbidded lead their way.—*Rome*.

2. Bend the body; bow.

The winged warrior bow inclin'd
At his Creator's feet with reverence due.—*Paradise Lost*, i. 60.

Adam bow'd low; he, kindly, from his state
Inclin'd not, but his coming thus declar'd.—*Milton, Paradise Lost*, xi. 249.

3. Be favourably disposed to; feel desire beginning.

Both his majesty
Incline to it or no?—He seems indifferent;
Or rather swaying more upon our part.—*Shakespeare, Henry V.*, i. 1.

Their hearts inclin'd to follow Abimelech.—*Judges*, ix. 3.

Incline, v. a.

1. Give a tendency or direction to any place or state.

The timely dew of sleep,
Now falling with soft slumberous weight, inclines
Our eyelids.—*Milton, Paradise Lost*, iv. 614.

A towering structure to the palace join'd;
To this his steps the thoughtful prince inclin'd.—*Pope, Translation of the Odyssey*, l. 637.

Thus far both armies in Belinda yield;
Now to the barbarian state inclines the field.—*Id., Rape of the Lock*, canto iii.

2. Turn towards anything, as desirous or attentive.

Incline our hearts to keep this law.—*Book of Common Prayer, Communion Service*.

But they hearkened not, nor inclin'd their ear.—*Jeremiah*, vii. 24.

But that from us ought should ascend to heaven
So prevalent, as to concern the mind
Of God high-blessed, or to incline his will,
Hard to belief may seem, yet this will pray.—*Milton, Paradise Lost*, xi. 143.

3. Bend.

An embracing vine,
Whose boughs hanging down seem'd to entice
All passers-by to taste their luscious wine,
And did themselves into their hands incline,
As freely offering to be gathered.—*Spenser, Faerie Queen*, ii. 12, 54.

With due respect my lady I inclin'd,
As to some being of superior kind.—*Dryden*.

Incluse. See *Enclose*.

Includo, v. a. [*Lat. includo*, pass. part. *inclusus*; *claudio* = shut.]

1. Enclose; shut in: (as, 'The shell includes a pearl').

2. Comprise; comprehend.

This desire being recommended to her majesty, it lik'd her to include the same within one intire lease.—*Bacon*.

Instead of enquiring whether he be a man of virtue, the question is only whether he be a whig or tory; under which terms all good and ill qualities are comprehended.—*Swift*.

Inclusion, s. Act of including.

The Dutch should have oblig'd themselves to make no peace without the inclusion of their allies.—*Sir W. Temple, Letter to the Duke of Ormond*, Works, vol. i. (Ord MS.).

Inclusive, adj.

1. Enclosing; encircling.

O, would that the inclusive verge
Of golden metal, that must round my brow,
Were red-hot steel, to sear me to the brain.—*Shakespeare, Richard III.*, iv. 1.

2. Comprehended in any sum or number: (as, 'From Wednesday to Saturday inclusive'—both Wednesday and Saturday taken into the number).

I'll search where every virtue dwells,
From courts inclusive down to cells.—*Swift*.

Inclusively, adv. In an inclusive manner.

This much shall serve for the several periods or growth of the common law, until the time of Edward I. inclusively.—*Sir M. Hale*.

Incluster, Incoach. See *Encluster*, &c.

Incoercible, adj. [*Lat. coercere* = compel.]

1. Capable of being compelled.

The same author, for the production of this effect, ascribes something of a wild and incoercible nature latent in that charcoal.—*James, Health Preserver*, (Ord MS.).

Incoexistence, s. Quality of not existing together; non-association of existence.

Rare.

Another more incurable part of ignorance, which sets us more remote from a certain knowledge of the coexistence or incoexistence of different ideas in the same subject, is, that there is no discoverable connection between any secondary quality and those primary qualities it depends on.—*Locke*.

Incoffin. See *Encoffin*.

Inco, s. adj. and adv. [contraction of *Inco-cognito*.] Unknown; private.

Some words are hitherto but fairly split, and therefore only in their way to perfection; as *inco*, and *plump*; but in a short time, it is to be hoped, they will be further checked to *inc*, and *plene*.—*Tatler*, no. 230.

No, no, let me alone. I'll go *inco*; leave my chariot at some distance; proceed prudently, and take care of myself.—*Colman the elder, The Jealous Wife*, iv. 1.

There were odd whispers of her parentage. Every potentate was, in turn, enlisted to the gratitude of mankind for the creation of this novel. Now, it was an emperor; now, it was a king. A cruel-like then put in his claim; and then an archduke. Friday, she was married to-morrow, she was single. To-day her husband was a prince; *inco*, to-morrow, a drum-major well known. Even her name was a mystery.—*H. Disraeli, The Young Duke*, b. iii. ch. iii.

First element of a compound; as in *income-tax*—tax levied upon a person's annual income.

incoming. part. pres. Coming in; (as, 'an *incoming*, opposed to an 'outgoing tenant').

Incommensurability. s. State of one thing with respect to another, when they cannot be compared by any common measure.

Mr. W. Warner made an inverted logarithmic table, whereas Briggs's table fills his margin with numbers, increasing by units, and overcame them with his logarithms, which, because of *incommensurability*, must needs be either abundant or deficient.—*Aurey, Anecdotes*, ii. 579.

Incommensurable. adj. Not reducible to any common measure; not to be measured together, so as to allow the proportion of one thing to another to be stated.

Our disquisitions about vacuum or space, *incommensurable* quantities, the infinite divisibility of matter, and eternal duration, will lead us to see the weakness of our nature.—*Watts*.

Incommensurate. adj. Not admitting one common measure.

The diagonal line and side of a quadrat, which, to our apprehension, are *incommensurate*, are yet commensurate to the infinite comprehension of the divine intellect.—*Dr. H. More*.

Incommixture. s. State of being unmixed.

In what parity and *incommixture* the languages of that people stood, which were casually discovered in the heart of Spain, between the mountains of Castile, no longer ago than in the time of Duke D'Alva, we have not met with a good account further than that their words were Baskish or Cantabrian.—*Sir T. Browne, Miscellanies*, p. 135.

Incommode. r. a. Inconvenient. *Rare*.

Neither know I whether is more hard to manage of the two; a dejected estate, or prosperous; whether we may be more *incommoded* with a rusty horse, or with a tired one.—*Bishop Hall, Of Contentment*, § 2.

Incommode. s. a. Put to trouble or inconvenience; embarrass.

Temporal pressures and adversities . . . may sometimes *incommode* the man, yet can never reach the spirit; and, though they break theasket, can never rattle at the jewel.—*South, Sermons*, vi. 131.

Incommodation. s. Inconvenience.

What *incommodation* is that, after the brisk native heat of the sun in the day-time, to have the variety of the more mild beams of the moon.—*Judicious on Glauville*, p. 115: 162.

Incommodement. s. Inconvenience. *Rare*.

I persisted in my ordinary course of living and business, though with severe *incommodement*.—*Cheyne, English Melody*, p. 315: 1753.

Incommodeous. adj. Inconvenient; troublesome.

Things of general benefit, for in this world what is so perfect that no inconvenience does ever follow it? may by some accident be *incommodeous* to a few.—*Hooker, Ecclesiastical Polity*.

Men's intentions in speaking are to be understood, without frequent explanations and *incommodeous* interruptions.—*Locke*.

Incommodeously. adv. In an inconvenient manner; inconveniently; not at ease.

I told how myself had stood so *incommodeously* by means of the great press, as I heard it not well.—*Harington, Brief View of the Church of England*, p. 130: 1653.

Incommodeousness. s. Attribute suggested by Inconmodious; inconvenience.

Diseases, disorders, and the *incommodeousness* of external nature, are inconsistent with happiness.—*Bishop Burnet*.

Incommodity. s. Inconvenience; trouble.

Declare your opinion, what *incommodity* you have conceived to be in the common law, which I would have thought made free from all such dislike.

Spenser, View of the State of Ireland.
If iron can be incorporated with flint or stone, without over great change, or other *incommodity*, the obscure doth make the compound stuff profitable.—*Bacon*.

By considering the region and the winds, one might so cast the rooms, which shall most need fire, that he should little fear the *incommodity* of smok.—*Sir H. Wotton, Elements of Architecture*.

Incommunicability. s. Incapability of being communicated.

The *incommunicability* of this place with many out of his church.—*Hales, Golden Remains*, p. 181.

Light without darkness is the *incommunicable* claim of him that dwells in light inaccessible.—*Glauville*.

It was agreed on both sides, that there was one supreme excellency, which was *incommunicable* to any creature.—*Bishop Stillingfleet*.

2. Not to be expressed; not to be told.

Neither did he treat them with these peculiarities of favour in the extraordinary discoveries of the gospel only, but also of these *incommunicable* revelations of the divine love, in reference to their own personal interest in it.—*South, Sermons*.

Incommunicableness. s. Attribute suggested by Incommunicable.

As by honouring him, we acknowledge him God, so by the *incommunicableness* of honour we acknowledge him one God.—*Made, Apology of the latter Times*, p. 33.

Incommunicably. adv. In an incommunicable manner.

To annihilate is both in reason, and by the consent of divines, an *incommunicably* effect of a power divine, and above nature, as is creation itself.—*Hooker, Apology*.

Incommunicated. part. pres. Not imparted.

Excellencies, so far as we know, *incommunicated* to any creature.—*Dr. H. More, Antidote against Idolatry*, ch. ii.

Incommunicating. part. pres. Having no intercourse with each other.

The judgments and administrations of common justice are preserved from that confusion that would ensue, if the administration was by several *incommunicating* hands, or by provincial establishments.—*Sir M. Hale, Common Law*.

Incommutable. adj. Incapable of commutation.

Such attributes are essentially *incommutable*.—*Cutworth, Intellectual System*. (Oral MS.)

Incommutability. s. Incapability of commutation; unchangeableness. *Rare*.

This order, by its own *incommutability*, keeps all things unmixed within their several ranks and conditions, which otherwise would run into confusion.—*Translation of Boethius*, p. 187: Oct. 1674.

Incompacted. part. pres. Not joined; not cohering.

Salt, say they, is the basis of solidity and permanency in compound bodies, without which the other four elements might be variously blended, but would remain *incompacted*.—*Boyle*.

Incomparable. adj. Excellent beyond comparison or competition.

My heart would not suffer me to wait any occasion, whereby I might make the *incomparable* Pamela see how much extraordinary devotion I bore to her service.—*Sir P. Sidney*.

If I could leave this argument of your *incomparable* beauty, I might turn to one which would equally oppress me with its greatness.—*Dryden*.

Incomparably. adv. In an incomparable manner.

1. Beyond comparison; without competition.

A founder it had, whom I think *incomparably* the wisest man that ever the French church did enjoy, since the hour it engaged him.—*Hooker, Ecclesiastical Polity*.

2. Excellently; in the highest degree.

There are the bands of Antoninus Pius, the Faustinas, and Marcus Aurelius, all *incomparably* well cut.—*Addison, Travels in Italy*.

We are full of *incompassion*: . . . we have little fellow-feeling of their griefs.—*Bishop Sanderson, Sermons*, p. 148: 1681.

Incompassionate. adj. Void of pity, tenderness, or compassion.

Perhaps the sea to my afflicted state Will prove than her less *incompassionate*.—*Shelburne, Poems*, Lydia: 1651.

Incompassionateness. s. Attribute suggested by Incompassionate; want of tenderness or pity.

The *incompassionateness* of other great men

which were merciless, cruel, and hard-hearted.—*Granger, Commentary on Ecclesiastes*, p. 16: 1621.

Incompatibility. s. Inconsistency of one thing with another.

He overcame that natural *incompatibility*, which hath been noted between the vulgar and the sovereign favour.—*Sir H. Wotton*.

Incompatible. adj. Inconsistent with something else; incapable of subsisting or being possessed together with something else.

Fortune and love have ever been so *incompatible*, that it is no wonder, madam, if having but so much of the one for you, I have ever found so little of the other for myself.—*Sir J. Sackville*.

We know those colours which have a friendship with each other, and those which are *incompatible*, by mixing together those colours of which we would make trial.—*Dryden*.

You say that your half-penny was given you by way of pension. I will not dwell upon the singularity of uniting in their own person two sorts of provision, which in their own nature, and in all military and parliamentary views, are *incompatible*.—*Junius, Letters*, let. vii.

With *with*.

Since I have proved to be *incompatible* with mere bodies, even those of the most compound and elaborate texture.—*Beattie*.

Incompetency. s. Inability; want of adequate ability, qualification, or competency.

Our not being able to discern the motion of a shadow of a dial-plate, or that of the hands upon a clock, ought to make us sensible of the *incompetency* of our eyes to discern some motions of natural bodies incomparably slower than these.—*Boyle*.

Nothing can justify the willfulness that supply, in those who have the power to give it, except some inherent *incompetency*; and that there is no such inherent *incompetency* in the essential character of governors, their early practice bears sufficient witness.—*Gloucester, The State in its Relations with the Church*, ch. ii.

Incompetent. adj. Not competent, suitable, adequate, or proportionate.

Richard III. had a resolution, out of hatred to his brother, to dissolve their issues, upon false and *incompetent* pretences, that of bastardy, the other of illegitimacy.—*H.*

Argument, with equal advantages of parts, are not the most *incompetent* judges of sacred things.—*Dryden*.

Incompetibility. s. Incompatibility. See *Competible*.

The reason of the stress rests not upon the *incompetibility* of excess of one influence upon another, either in intension or extension; but the *incompetibility* of any multitude to be infinite.—*Sir M. Hale*.

The *incompetibility* of true faith with carnal desires.—*Hammond, Works*, iv. 604.

Incompatible. See Competible: (with with).

May not the outward expressions of love in many good Christians be greater to some other object than to God? Or is this *incompatible* with the sincerity of the love of God?—*Hammond*.

With *to*.

The redundancy of infinitude is equally *incompatible* to continued or successive motion, and depends upon the impossibility of things successive with infinitude.—*Sir M. Hale*.

Incomplete. adj. Imperfect; unfinished.

It denotes him in mercy to account himself *incomplete* and manned without us.—*Hooker, Ecclesiastical Polity*.

In *incomplete* ideas we are apt to impose on ourselves, and warble with others, especially when they have particular and familiar names.—*Locke*.

Incompleteness. s. Attribute suggested by Incomplete; imperfection; unfinished state.

He supplies what her *incompleteness* was seeking.—*Milton, Doctrina and Discipline of Divinity*, to the parliament.

The *incompleteness* of our seraphic lover's happiness, in his fruitions, proceeds not from their want of satisfactoriness, but of an entire possession.—*Boyle*.

Incomplex. adj. Complicated; (opposed to simple).

Otherwise it is unintelligible, how any *incomplex* thing (as they speak) can be the complete or intelligible object of belief.—*Burrow, Works*, ii. 33.

Incompliance. s.

1. Intractableness; impracticableness; contradictions temper.

Self-conceit produces peevishness and *incompliance* of humour in things lawful and moderate.—*Archbishop Tillotson*.

2. Refusal of compliance.

Consider the vast disproportion between the worst inconvincences that can attend our *incompliance* with men, and the eternal displeasure of an offended God.—*Rogers*.

Incomplying. part. pref. Stubborn.

It hinders us from arming ourselves with that obstinate resolution of mind, that stubborn *incomplying* virtue, which is requisite to preserve a man untroubled and blameless.—*Bishop Atterbury, Sermons*, sermon xxi. (Ord MS.)

Somewhat *incomposed* they are in their trimming, and extraordinary tender of their young ones.—*Burcell*.

Thus Satan; and him thus the anarch old,
With filtering speech and change *incomposed*,
Answer'd.

In the middle droops
The strong laborious eye, of honest front,
Which *incomposed* he shakes.

Thomson, Seasons, Summer.

Incompossibility. s. Quality of being not possible but by the negation or destruction of something; inconsistency with something.

The manifold *incompossibilities* and lubricities of matter cannot have the same fluxus in any modification.—*Dr. H. More*.

Though the repugnancy of infinitude be equally incompatible to continued or successive motion, and depends upon the *incompossibility* of the very nature of things successive or extensive with infinitude, yet that *incompossibility* is more conspicuous in discrete quantity, that is, from individuals already actually distinguished.—*Sir M. Hale, Origin of Mankind*.

Incompossible. adj. Not possible together; not possible but by the negation of something else.

Your being the servants of men is not inconsistent with your service of God, nor that servitude *incompossible* with Christian liberty.—*Jeremy Taylor, Ductor Infortunatus*. (Ord MS.)

That strange kind of omniscience which some have attributed to understanding, lies not in a power of conceiving things wholly impossible, or hypotetical ideas of absolute non-entities, but in a kind of African copulation of such species of things together, which in nature seem wholly *incompossible*, as the schools speak, or have no congruity at all in the order of the universe.—*Bishop Stillingfleet, Origines Sacre*, b. iii. (Ord MS.)

Incomprehensibility. s. Incapability of being (mentally) comprehended.

The constant, universal sense of all antiquity unanimously confesses an *incomprehensibility* in many of the articles of the Christian faith.—*South, Sermons*, ii. 217.

The idea of difficulty, and even *incomprehensibility*, may be largest.—*White, Sermons*, notes, p. 2.

Incomprehensible. adj.

1. Incapable of being (mentally) comprehended; not to be fully understood.

His precepts tend to the improving and perfecting the most valuable part of us, and amonishing *incomprehensible* rewards as an eternal weight of glory.—*Hammond*.

Stars that seem to roll
Mystery *incomprehensible*.

Milton, Paradise Lost, viii. 19.

One thing more is *incomprehensible* in this matter.—*Locke*.

The laws of vegetation and propagation are the arbitrary pleasure of God, and may vary in manners *incomprehensible* to our imaginations.—*Hentley*.

2. Not to be contained (generally). *Obsolete*.

Presence every where in the sequel of an infinite and *incomprehensible* substance; for what can be every where but that which can nowhere be comprehended?—*Hooker, Ecclesiastical Polity*.

Incomprehensibleness. s. Attribute suggested by Incomprehensible.

I might argue from God's *incomprehensibleness*: if we could believe nothing but what we have ideas of, it would be impossible for us to believe God is incomprehensible.—*Watts*.

Incomprehensibly. adv. In an incomprehensible manner.

We cannot but be assured that the God of whom and from whom are all things is *incomprehensibly* infinite.—*Locke*.

Incomprehension. s. Want of comprehension.

These mazes and *incomprehensions*.—*Bacon, Advancement of Learning*, b. ii.

Incomprehensiveness. adj. Wanting comprehension.

A most *incomprehensiveness* and inaccurate title: for

this edition, the last and the best, contains the three first as well as the three last books.—*T. Warton, History of English Poetry*, iv. 4.

The *incompressibility* of water is not absolute.—*Rees, Cyclopædia, Water*.

Inconceivable. adj. Not to be concealed, hid, or kept secret.

The *inconceivable* imperfections of ourselves will hourly prompt us our corruption, and loudly tell us we are sons of earth.—*Sir T. Browne, Vulgar Errors*.

Inconceivability. adj. Incapable of being conceived by the mind.

Such are Christ's promises, divine *inconceivable* promises; a bliss to be enjoyed to all eternity, and that by way of return for a weak obedience of some few years.—*Hammond*.

It is *inconceivable* to me, that a spiritual substance should represent an extended figure.—*Locke*.

How two others can be diffused through all space, one of which acts upon the other, and by consequence is rejected upon without retarding, scattering, dispersing, and confounding one another's motions, is *inconceivable*.—*Sir I. Newton, Opticks*.

Inconceivableness. s. Attribute suggested by Inconceivable; quality or state of being inconceivable.

If any of these ways of attaining salvation seem to some men *inconceivable*, this very *inconceivableness* is thought by others a proper character to set out all for mystery.—*Brechet, Sent and Senses of Belief*, p. 6.

When once this method is known, there is no difficulty or *inconceivableness* in it, as can reasonably make a wise and considerate man call in question the truth of a well attested revelation, merely upon that account.—*Clarke, Evidences of Natural and Revealed Religion*.

Inconceivably. adv. In an inconceivable manner; degree beyond human conception.

Does that man take a rational course to preserve himself, who refuses the rudiments of those lesser troubles, to secure himself from a condition *inconceivably* more miserable?—*South, Sermons*.

Inconceivable. adj. Inconceivable. *Rare*.

It is *inconceivable* how any such man, that hath stood the shock of an eternal duration without corruption, should after be corrupted.—*Sir M. Hale, Origin of Mankind*.

Inconcinny. s. [Lat. *concinna* = neat.] Unapiness; unsuitableness; disproportion. *Rare*.

Such is the *inconcinny* and insignificance of Grotius's interpreting of the six seals; which is quite otherwise in Mide.—*Dr. H. More, Mystery of Godliness*, p. 181: 180.

Inconcludent. adj. Giving no (logical) conclusion. *Rare*.

The depositions of witnesses themselves, as being false, various, contradictory, single, *inconcludent*.—*Ayliffe, Parergon Juris Canonici*.

Inconformity. s.

1. Incompliance with the practice of others.

We have thought their opinion to be, that utter *inconformity* with the church of Rome was not an extremity wherein we should be drawn for a time, but the very mediocrity itself, wherein they meant we should ever continue.—*Hooker, Ecclesiastical Polity*.

2. Refusal to join in the established religion.

Mr. Buckley is sent to the high commission for *inconformity*.—*Archbishop Laud to King Charles I.*

Inconfused. part. pref. Not confused; distinct. *Rare*.

All the curious diversity of articulate sounds of the voice of man, or birds, will enter into a small cranny *inconfused*.—*Bacon, Natural and Experimental History*, ii. 102.

Inconfusion. s. Distinctness. *Rare*.

The cause of the confusion in sounds, and the *inconfusion* in species visible, is, for that the sight worketh in right lines, and so there can be no coincidence in the eye; but sounds that move in oblique and acute lines, must needs encounter and disturb the one the other.—*Bacon*.

Incongruence. s. Unsuitableness; want of adaptation.

Inutility is but relative, and depends upon the congruity, or *incongruence* of the component particles of the liquor to the pores of the bodies it touches.—*Boyle*.

Incongruent. adj. Unsuitable; unfit; inconsequent.

It will be not *incongruent* to our matter, to shew what profile may be taken by the diligent reading of ancient poets.—*Sir T. Elyot, The Governour*, fol. 52.

An Christ's spirit and grace gives such power to go beyond the precepts; so it is not *incongruent* that it should so modify sins in his members to make them venial and not killing.—*Shelford, Learned Discourses*, p. 130.

Incongruity. s.

1. Unsuitableness of one thing to another.

The fathers make use of this acknowledgment of the *incongruity* of images to the Deity, from thence to prove the *incongruity* of the worship of them.—*Bishop Stillingfleet*.

2. Inconsistency; inconsequence; absurdity; impropriety.

To avoid absurdities and *incongruities*, is the same law established for both arts: the painter is not to paint a cloud at the bottom of a picture, nor the poet to place what is proper to the end in the beginning of a poem.—*Drake*.

3. Disagreement of parts; want of symmetry.

She, whom after what form suffer we see,
Is discord and rude *incongruity*;
She, who is dead, she's dead.

Donne.

Look on your indolence, that heathen, useless behaviour in the house of God. — *Hammond, Works*, iv. 514.

Let us make the church the scene of our penitence, as of our faults; deprecate our former indolence, and, by an exemplary reverence, redress the want of penitence. — *Dr. J. More, Decay of Christian Piety*.

Indevout. *adj.* [Fr. *indévot.*] Not devout; not religious; irreligious.

They are only our prayers, that must stay us from being carried away with the violent assaults of discontentment: under which a praying soul can no more misery than an *indévot* soul can enjoy safety.—*Bishop Hall, Of Contentation*, § 25.

A wretched, careless, indévot spirit.—*Jeremy Taylor, Sermon*, 363.
He prays much, yet curses more: whilst he is mock, but indévot.—*Dr. H. More, Discourse of Christian Piety*.

Index. *s.* [Lat.]

1. Discoverer; pointer out; indicator: (pl. *indexes*).

a. Figuratively.

That which was once the *index* to point out all virtues, does now mark out that part of the world where least of them reside.—*Dr. H. More, Discourse of Christian Piety*.

Every common dauber writes rascal and villain under his pictures, because the pictures themselves have neither character nor resemblance. But the works of a master require no *index*.—*Letter of Junius*, let. xii.

b. Physically or mechanically. As part of any organ or instrument.

They have no more inward self-consciousness of what they do or suffer, than the *index* of a watch, of the hour it points to. *Health*.

c. In Anatomy. Forefinger: (used *adjectively* in the extract).

The Fingers, however, offer an anomaly, in the fore-hand, by the stunted phalanx of the *index* digit.—*Owen, Anatomy of Vertebrates*.

2. Of a book; table of reference: (more usually applied to an alphabetical list of words or subjects at the end of a volume; more rarely to the table of contents).

If a book has no *index*, or good table of contents, 'tis very useful to make one as you are reading it; and in your *index* to take notice only of parts new to you.—*Watts*.

John was taught from out the best edition, Expounded by learned men, who place, Judiciously, from out the school-boy's vision,

The grosser parts; but fearful to deliver, Too much their modest hand by this omission, And pitying are his mutilated cases, They only add them all in an appendix, Which saves, in fact, the trouble of an *index*. *Byron, Don Juan*, l. 41.

3. In *Algebra* (pl. *indices*). Figure, or letter, denoting a number, written on the right side of another figure or letter, with a similar import, showing how many times the latter is multiplied; indicator of the power of a sign of number.

Indexterity. *s.* Want of dexterity; want of readiness; want of handiness; clumsiness; awkwardness.

The indexterity of our consumption-curers demonstrates their dimness in including its causes.—*Harvey, Discourse of Consumption*.

Indiaman. *s.* Ship for the trade with (East) India.

No place is so propitious to the formation either of close friendships or of deadly enmities as an *Indiaman*. There are very few people who do not find voyage which lasts several months insupportably dull.—*Moranby, Critical and Historical Essays, Warren Hastings*.

Indicant. *s.* That which indicates.

A physician, in order to a case, considers first the nature, causes, and symptoms of the disease, as the prime *indicants* of what he is to do; next the patient, season, and other coincidents; and then the means.—*Grew, Compendium Nuclei*, p. 68. (Ord. MS.)

Indicate. *v. a.*

1. Show; point out.

Mentioned in a manner that seems to indicate some connexion between them.—*Mabius, Note on Russell's Life of Johnson*.

The first sight of a fiery sword was but an *indicative* sign, an hieroglyphic and obscure language of a war.—*J. Spencer, Discourse concerning Prophecy*, p. 204.

Ridicule, with ever-pointing hand Conscious of every shift, of every shift *Indicative*, his honest jolt betrays.

2. In *Grammar*. Mood so called, in which case it often stands alone as a substantive: (we may say either, 'I am is in the indicative mood,' or, 'I am is the indicative of the copular verb').

Indict. *v. a.* Charge any before a grand court of justice by a written accusation.

I was (unluckily warrior as I am) Arraigning his iniquities with my soul; But now I find I had abused the witness, And he's indicted falsely. *Shakespeare, Othello*, iii. 4. (For another example see under *Indictment*.)

Indiction. *s.*

1. Declaration; proclamation.

After a lesson 'ad res repetendas,' and a refusal, and a denunciation, and *indiction* of a war, the war is left at large.—*Bacon*.

There is a solemn mourning, and there is a private and domestic; the solemn is by public *indiction* of authority.—*Bishop Hall, Remains*, p. 164.

2. In *Chronology*. See extract.

The *indiction*, instituted by Constantine the Great, is properly a cycle of tributes, orderly disposed, for fifteen years, and by it accounts of that kind were kept. Afterwards, in memory of the great victory obtained by Constantine over Maxentius, a Cal. Oct. 312, by which an entire freedom was given to Christianity, the council of Nice, for the honour of Constantine, ordained that the accounts of years should be no longer kept by the Olympiads, which till that time had been done; but that, instead thereof, the *indiction* should be made use of, by which to reckon and date their years, which hath been done A.D. 513, Jan. 1.—*Johnson*.
The emperor Justinian made a law, that no writing should pass without the date of the *indictions*.—*Gregory, Pastoress*, p. 140.

Indictive. *adj.* Proclaimed; declared.

In all the funeral of note, especially in the public or *indictive*, the corpse was first brought with a vast train of followers, into the forum.—*Kennet, Roman Antiquities*, ii. 5.

Indictment. *s.* Accusation laid against any one before a court of justice.

Read the *indictment*.

Shakespeare, Winter's Tale, iii. 2.
The surgeon having declared, that by law he was bound to *indict* for the thief's escape, as it was out of his house: he was a little comforted however by Mr. Barnabas's opinion, that as the escape was by night the *indictment* would not lie.—*Felding, Adventures of Joseph Andrews*.

She was styled accordingly, in the *indictment*, 'Mary, daughter and heir of James the Fifth, late King of Scots, otherwise called Mary queen of Scots, daughter of France.' We read every that some lawyers would have had her tried by a jury of the county of Stafford, rather than by the special commission; which Elizabeth noticed as a strange indignity. The commission, however, was perfectly legal under the recent statute.—*Hallam, Constitutional History of England*, ch. iii. vol. i.

A motion in arrest of judgment was instantly made, on the ground that a Latin word endorsed on the back of the *indictment* was incorrectly spelt. The objection was undoubtedly frivolous.—*Macaulay, History of England*, ch. xv.

Indifference. *s.*

1. Neutrality; freedom from motives on either side; impartiality; negligence; want of affection, interest, or sympathy.

Indifference cannot but be criminal, when it is conversant about objects which are so far from being of an indifferent nature, that they are of the highest importance.—*Addison*.

A place which we must pass through, not only with the *indifference* of strangers, but with the vigilance of those who travel through the country of an enemy.—*Johnson*.

Indifference, clad in wisdom's guise,

All fortitude of mind supplies;
For how can strong hearts be won,
In those who never pity pity?

Swift, On the Death of Dr. Swift.

The people of England should be frightened with the French king and the pretender once a year: the want of observing this necessary precept, has produced great *indifference* in the vulgar.—*Arbuthnot*.

2. State in which no moral or physical reason preponderates; state in which there is no difference.

The choice is left to our discretion, except a principal head of some higher duty remove the *indifference* that such things have in themselves: their *indifference* is removed, if we take away our own liberty.—*Hunter, Ecclesiastical Polity*.

Indifference. *s.* Indifference.

Read the book with *indifference* and judgement, and then come not but greatly recommend it.—*Archbishop Whigg*.

In choice of a committee it is better to choose indifferent persons, than to make an *indifference* by putting in those that are strong on both sides.—*Johnson, Essays*.

A perfect *indifference* in the mind, not determinable by its last judgement, would be as great an imperfection as the want of *indifference* to act, or not to act till determined by the will.—*Locke*.

He will let you know he has got a clasp with as much *indifference* as he would a piece of publick news. *Swift*.

And if it do not always fulfill the conception of a just *indifference*, the very cases where it deviates from the rule demonstrate its validity; they testify to the original truth that the state is just, by the strong inherent sense which they arouse in the mass of men, and only of involuntarily, but of actual strong sustained, and of resentment thereupon.—*Goldwin, The State in its Relations with the Church*, ch. ii.

Indifferent. *adj.*

1. Neutral; not determined to either side.

Both his majesty
Incline to it or no? He seems *indifferent*.
Shakespeare, Henry V., i. 1.
Being *indifferent*, we should receive and embrace opinions according as evidence gives the attestation of truth.—*Locke*.

Let guilt or fear
Disturb man's rest; Cato knows neither of them;
Indifferent in his choice to sleep or die.
Addison, Cato, v. 1.

2. Unconcerned; inattentive; regardless.

One thing was all to you, and your heedness made you *indifferent* to every thing else.—*Sir W. Temple*.
It was a law of Solon, that any person who, in the civil commotions of the republic, remained neutral, or an *indifferent* spectator of the contending parties, should be condemned to perpetual banishment.—*Addison, Freethinkers*.

But how *indifferent* soever man may be to eternal happiness, yet surely in eternal misery, none can be *indifferent*.—*Rogers*.

3. Without such difference as to render one thing preferable for its own sake to another.

The nature of things *indifferent* is neither to be commended nor forbidden, but left free and arbitrary.—*Hunter, Ecclesiastical Polity*.

Customs, which of themselves are *indifferent* in other kingdoms, become exceeding evil in this realm, by reason of the inconveniences which followed thereupon.—*Sir J. Davies, Discourse on the State of Ireland*.

Though at first it was free, and in my choice whether or no I should publish these discourses; yet the publication being once resolved, the dedication was not *indifferent*.—*South, Sermons*.

This I mention only as my conjecture, it being *indifferent* to the matter which way the learned shall determine.—*Locke*.

4. Impartial; disinterested.

Metaph was partial to none, but *indifferent* to all; a master for the whole, and a father to every one.—*Archam*.

I am a most poor woman and a stranger, Born out of your dominions; having here No judge *indifferent*, and no more assurance Of equal friendship and proceeding.

Shakespeare, Henry VIII., li. 4.
There can hardly be an *indifferent* trial had between the king and the subject, or between party and party, by reason of this general kindred and consanguinity.—*Sir J. Davies*.

5. Passable; having mediocrity; of a middling state; neither good nor worst.

Who would expect, when few can make a list,
Bedewist *indifferent* writing and the best? *Dryden*.
This has obliged me to publish an *indifferent* col-
lection of poems, for fear of being thought the au-
thor of a worse. *Prior*.
There is not one of these subjects that would not
sell a very *indifferent* paper, could I think of grati-
fying the public by such mean and base methods.
Addison.

Used substantively.

What difficulties there are, which as yet withhold
our ascent till we be further and better satisfied, I
hope no *indifferent* man, either will scorn or re-
fuse to hear. *Hucker, Ecclesiastical Polity*, b. ii.
p. 1. (Ord. M.)

Used adverbially.

I am myself *indifferent* honest; but yet I could
accuse me of such things, that it were better that
my mother had not born me.—*Shakespeare, Hamlet*,
iii. 1.

This will raise a great scum on it, and leave your
wife *indifferent* clear.—*Mortimer*.

Indifferentism. s. System of indifference; (generally applied to religious creeds and philosophical speculations).

Yet even in this respect Latin owes its vitality,
and should its Latinity, to Christian writers. An-
gustine and Jerome . . . have a kind of doctored
management, a vigorous mastery, and a nobleness
of language, unrivalled in their days. Sublime
Sermons surpasses in style any later historical work;
Salvian is better than the *Phariseists*. . . . *Heathen-
ism, or indifference*, strongly enough, kept up
the Pagan supremacy in poetry alone. Claudian
and even the few lines of Meropides, stand higher
in purity, as in the life of poetry, than all the Chris-
tian hexameters. — *Milman, History of Latin
Christianity*, b. xiv. ch. iii.

Indifferently. adv. In an indifferent manner.

1. Without distinction; without preference.

Whiteness is a mean between a
tint *indifferently* to them all, so as with equal faci-
lity to be tinged with any of them. — *Sir I. Newton, Optics*.

Though a church of England man thinks every
species of government equally lawful, he does not
think them equally expedient, or for every country
indifferently. — *Swift*.

2. Equally; impartially.

That they may truly and *indifferently* minister
justice. — *Book of Common Prayer*.

3. In a neutral state; without wish or aver-

sion.
Set honour in one eye, and death in the other,
And I will look on both *indifferently*. — *Shakespeare, Julius Caesar*, i. 2.

4. Not well; tolerably; passably; mid-

dlingly.
A moyle will draw *indifferently* well, and carry
great burthens. — *Coryar*.

I hope it may *indifferently* entertain your lord-
ship at an unbecoming hour. — *Roe*.

An hundred and fifty of their beds, sown together,
kept me but very *indifferently* from the floor. — *Swift, Gulliver's Travels*.

Indigence. s. Want; penury; poverty.

For 'gain that *indigence*, that brings me low,
Makes me myself, and him above to know. — *Dryden*.

Indigency. s. Same as Indigence.

The richest tie and bond of all human society is
neither reason, nor speech, nor *indigency*; but re-
ligion and piety. — *Euthyphro, Athenian*, p. 38;
1622.

Such *indigencies* as, by the curse of God and re-
straint of his blessings, [were] on the fruits of their
land. — *Dr. E. Pockock, On Hosa*, p. 64.

Where there is happiness, there must not be *indi-
gency*, or want of any the comforts of life. — *Dr. T. Burnet, Theology of the Earth*.

Athenians worshipped God with temples and sacri-
fices, as if he needed habitation and sustenance; and
that the heathens had such a warm apprehension
about the *indigency* of their gods, appears from
Aristophanes and Lucian. — *Beattie*.

Indigene. s. Native. Rare.

The alaternus, which we have lately received from
the hottest parts of Launceston, thrives with us, as
if it were an *indigene*. — *Reynolds*.

Indigenous. adj. [Fr. *indigène*; Lat. *indigena*.] Native to a country; originally produced or born in a region.

Negroes were all transported from Africa, and are
not *indigenous* or proper natives of America. — *Sir
Browne*.

It is wonderful to observe one creature, that is,
mankind, *indigenous* to so many different climates.
— *Arbuthnot*.

Indigent. adj. [Lat. *indigena*, -entis = want- ing, lacking, standing in need.]

1. Poor; needy; necessitous.

Charity consists in relieving the *indigent*. — *Addi-
son*.

2. In want; wanting; (with *off*).

Hence, heap of wrath, foul *indigested* lump;
As crooked in thy manners as thy shape.
Shakespeare, Henry VI, Part II, v. 1.

3. Not well considered and methodised.

By irksome deformities, through endless and
redundant *indigested* prayers, the . . . after-
times disengage the worst part of Christian duty
towards God. — *Hooker, Ecclesiastical Polity*.

The political creed of the high-principled men
was the protestant succession upon a firmer founda-
tion than all the *indigested* schemes of those who
profess revolution principles. — *Swift*.

4. Not concocted in the stomach.

All dreams, as in old Galen I have read,
Are from repetition and complexion bred;
From rising fumes of *indigested* food.
Dryden, The Cuck and the Fox, 110.

5. Not purified or subdued by heat.

That it [the air] be not too gross, nor too penes-
trative; . . . not *indigested*, for want of sun; not in-
cubated, for want of wind. — *Sir H. Wallis, Ele-
ments of Architecture*, p. 1.

6. Not brought to suppuration.

His wound was *indigested* and inflamed. — *Hic-
man*.

Indigestible. adj.

1. Incapable of digestion by the stomach.

Eggs are the most nourishing and easiest of all
animal food, and most *indigestible*: no body can
digest the same quantity of them as of other food. —
Johnston, On the Nature and Choice of Aliments.

2. Not capable of being received.

Who but a bug, fond of the world and the descrip-
tive, could have heaped forth such a torrent of in-
digestible similes? — *T. Warton, An Enquiry into
the Authenticity of the Poems attributed to Th.
Bunbury*, p. 74.

Indigestion. s. Incapability of, difficulty in, digesting food; dyspepsia.

These things which, whether in nature or art, are
want to pass for the carriage of light, have in them
sometimes, at least in respect of our sight, some-
kind of darkness and opacity. The candle hath his
smoke, the fire his smoke, and blackness of *indigestion*,
the moon her spots, and the very sun itself his
eclipses. — *Bishop Hall, Breviary*, p. 37.

The fumes of *indigestion* may indispose men to
thought, as well as to diseases of danger and pain. —
Sir W. Temple.

Indigulate. v. a. [Lat. *indigilatus*, pass. part.

of *indigilo*; *digilus* = finger.] Point out;
show by the fingers.

Antiquity expressed numbers by the fingers: the
depressing this finger, which in the left hand in-
dicated but six, in the right hand *indigulated* six
hundred. — *Sir T. Brown, Vulgar Errors*.

As though there were a sensibility of urine, we
foolishly conceive we behold therein the anatomy of
every particle, and can thereby *indigulate* their af-
fections. — *Boh*.

We are not to *indigulate* the parts transmitted. —
Harvey.

Indigitation. s. Act of pointing out or showing, as by the finger.

Which things I conceive no obscure *indigitation*
of providence. — *Dr. H. More, Antidote against
Atheism*.

Indign. adj. [Fr. *indigne*; Lat. *indignus*.]

On thee, thou trouble of the world.
Shakespeare, Richard III, i. 3.

Indignity. v. a.

1. Treat disdainfully. Rare.

Where that discourteous dame with scornful
pride,
And false entreaty him *indignified*,
That from heart it hardly could sustain. —
Spenser, Faerie Queen, vi. 1, 30.

2. Treat unbecomingly. Rare.

Therefore in closure of a thankful mind,
I deem it best to hold eternally
Their bounteous deeds and noble favours shroud,
Than by discourse them in *indignify*. —
Spenser, Colin Clout.

Indignity. s. Contumely; contemptuous injury; violation of right, accompanied with insult.

Bishops and prelates could not but have bleeding
hearts to behold a person of so great place and
worth constrained to endure so foul *indignities*. —
Hooker, Ecclesiastical Polity.

Man be woe, and for him loath
Magnificent this world, and earth his seat,
Him best pronounced; and, O *indignity*!
Subject to his service and woe.

And flaming ministers, torch and tend
Their earthly charge. — *Milton, Paradise Lost*, ix. 152.

He does not see how that mighty passion for the
church can well consist with those *indignities* and
contumelies men bestow on the clergy. — *Swift*.

Indignity. s. In an indign manner; un-
worthy; not according to desert. Rare.

O Saviour, didst thou take flesh for our redemption
to be thus *indignity* used, thus mingled, thus
tormented. — *Bishop Hall, Contemplations on the Old
and New Testaments, The Crucifixion*.

Indigo. s. [Lat. *indicum*, as being produced in India.] Plant, of the genus *Heliotropium*, and the natural order Leguminosae, so called, the leaves of which yield a blue dye; the dye itself.

Indigo [is] a plant, by the Americans called anil.
In the middle of the flower is the style, which af-
terwards becomes a jointed pod, containing one or
two seeds in one partition, from which *indigo* is
made, which is used in dyeing for a blue colour. —
Milner.

Indignatory. adj. Not dilatory or slow. Rare.

Since you have formed . . . new orders . . . you
would be pleased in like manner to give them a
new form of *indignatory* execution. — *Cervantes, Sup-
plement to Candide*, p. 103; 1654.

Indiligence. s. Want, absence of diligence; slothfulness; carelessness. Rare.

It is not as great an indelicacy, that an excellent
conceit and capacity, by the *indiligence* of an idler
thence, should be disgraced. — *H. Johnson, Dis-
course*.

He that is bound to use all diligence to subdue
his corruptions, at least to suppress them; if he
do not so, this *indiligence* of his hath made of his con-
science. — *Hammond, Works*, i. 191.

Indiligent. adj. Not diligent; careless.

Rare.

Neither art, they [wisdom and knowledge] so casual . . . as to fall upon the indigent and mis- serving.—*Filtham, Sermon on Ecclesiastes*, ii. 11.

2. *Figuratively*, with a *bad* sense. Wrong; improper; unfair; dishonest.

The tender prince
Would fain have come with me to meet your grace;
And by his mother who professes with-hold,—
For what an indirect and peevish course
Is this of hers?—*Shakespeare, Richard III.* iii. 1.

Those things which they do know they may upon sundry indirect considerations, let pass; and although themselves do not err, yet may they de- ceive others.—*Hooker, Ecclesiastical Polity*.
O pity and shame! that they who to live well
Entered so fair, should turn aside, to tread
Paths indirect.—*Milton, Paradise Lost*, ii. 620.
Indirect dealing will be discovered one time or other, and then he loses his reputation.—*Archbishop Tillotson*.

Indirection, s. Oblique means; dishonest practice. *Obsolete*.

And thus do we, of wisdom and of reach,
With windlasses, and with essays of bias,
By indirections find directions out.—*Shakespeare, Hamlet*, ii. 1.

I had rather edify my heart than wring
From the hard hands of peasants their vile trash,
By any indirection.—*Id., Julius Cæsar*, iv. 3.

Most of the indirection and artifice, which is used among men, does not proceed so much from a de- gree of civility in nature, as an affection of appearing men of consequence by such practices.—*Tulley*, no. 191.

Indirectly, adv.

1. In an indirect manner; not in a right line; obliquely; not in express terms.

Still she suppresses the name, which continues his doubts and hopes; and at last she indirectly mentions it.—*Brown*.

1. Resisting all separation of its parts; firm; stable.

When common gold and lead are mingled, the lead may be severed almost unaltered; yet if, instead of the gold, a tincture of the red elixir be mingled with the saturn, their union will be so *indissoluble*, that there is no possible way of separating the diffused elixir from the fixed lead.—*Bayle.*

2. Binding for ever; subsisting for ever; not to be loosed.

Far more comfort it were for us to be joined with you in bonds of *indissoluble* love and unity, to live as if our persons being unity, our souls were but one.—*Hooker, Ecclesiastical Polity.*

There is the supreme and *indissoluble* communion between men, of which the heathen poet with us are all his generation.—*Racine, Advertisement touching a holy War.*

They might justly wonder, that men so taught, so obliged to be kind to all, should behave themselves so contrary to such heavenly instructions, such *indissoluble* obligations.—*South, Sermons.*

Indissolubleness. s.

Attribute suggested by Indissoluble; indissolubility; resistance to separation of parts.

Adam, though consisting of a composition intrinsically dissolvable, might have held, by the Divine Will, a state of immortality and *indissolubleness* of his composition.—*Sir M. Hale.*

Indissolubly. adv.

In an indissoluble manner; in a manner resisting all separation.

On they move,
Indissolubly firm; nor obvious hill,
Nor straitning vale, nor wood, nor stream divide
Their perfect ranks. *Milton, Paradise Lost, vi. 68.*
The remaining ashes, by a further degree of fire, may be *indissolubly* united into glass.—*Boyle.*

They willingly unite
Indissolubly firm; from Darius' mouth
To northern Orades. *J. Phillips, Cyclus.*

Indissolvable. adj.

Incapable of being dissolved; indissoluble (q. v.).

1. Not separable as to its parts.

Metals, corroded with a little acid, turn into rust, which is an earth tasteless and *indissolvable* in water; and this earth, imbibed with more acid, becomes a metallic salt.—*Sir I. Newton.*

2. Subsisting for ever; not to be loosed.

O inviolable, *indissolvable*, and divine power.—*Sir P. Bunsen, Present State of the Greek and Armenian Churches, p. 320.*

3. Obligatory; not to be broken; binding for ever.

Deposition and degradation are without hope of any remission, and therefore the law styles them an *indissoluble* bond; but a commoner dissolvable bond. *Agstiff, European Juris Civica.*

Indistancy. s.

Condition of objects not separated by any notable distance. *Rare.*

The soul thus existing after death, and separated from the body, thence of a nature spiritual, is really and truly in some place; if not by way of circumscription, as proper bodies are, yet by way of determination and *indistancy*; so that it is true to say, this is really and truly present here, and not elsewhere.—*Bishop Pearson, Exposition of the Creed, art. v.*

Indistinct. adj.

1. Not plainly marked; confused.

That which is now a horse, even with a thought, The rack dissolves, and makes it *indistinct*.
Shakespeare, Antony and Cleopatra, iv. 12.

She warbled in her throat,
And tun'd her voice to many a merry note;
But *indistinct*, and neither sweet nor clear.
Drayton, The Flowers and the Leaf, 110.

When we speak of the infinite divisibility of matter, we keep a very clear and distinct idea of division and divisibility; but when we come to part too small for our senses, our ideas of these little bodies become obscure and *indistinct*.—*Watts.*

2. Not exactly discerning.

We throw out our eyes for brave Othello,
Ev'n till we make the main and the aerial blue
An *indistinct* regard. *Shakespeare, Othello, II. 1.*

Indistinctible. adj.

Incapable of being distinguished or separated.

A favourite old romance is founded on the *indistinctible* likeness of two of Charlemagne's knights, Amys and Amelion.—*T. Warton, History of English Poetry, iii. liv.*

Indistinction. s.

Absence of distinction.

1. Confusion; uncertainty.

The *indistinction* of many of the same name, or the misapplication of the net of one unto another, hath made some doubt. *Sir T. Browne, Vulgar Errors.*

2. Omission of discrimination; indiscriminate.

An *indistinction* of all persons or equality of all orders, is far from being agreeable to the will of God.—*Bishop Sprat.*

Indistinctly. adv.

In an indistinct manner.

1. Confusedly; uncertainly; without definiteness or discrimination.

In its sides it was bounded distinctly, but on its ends confusedly and *indistinctly*, the light there vanishing by degrees.—*Sir I. Newton, On Opticks.*

2. Without being distinguished.

Making trial thereof, both the liquors soaked *indistinctly* through the bowl.—*Sir T. Browne, Vulgar Errors.*

Indistinctness. s.

Attribute suggested by Indistinct; confusion; uncertainty; obscurity.

There is unwhimsiness or *indistinctness* in the style of these pieces, concerning the cause and form of the earth.—*Dr. T. Barrow, Theory of the Earth.*

Clid are makes the corners and coat of the crystalline humour grow thicker; so that the light, for want of a sufficient refraction, will not converge to the bottom of the eye, but beyond it, and by consequence paint in the bottom of the eye a confused picture; and according to the *indistinctness* of this picture, the object will appear confused.—*Sir I. Newton.*

Indistinguishable. adj.

Incapable of being distinguished.

Do I curse thee?—Why no, you run away butt; you whomsoever *indistinguishable* cur.—*Shakespeare, Troilus and Cressida, v. 1.*

Indisturbance. s.

Calmness; freedom from disturbance. *Rare.*

The notion of sitting in implicit rest, quietness, and *indisturbance*.—*Bishop Pearson, Exposition of the Creed, art. vi.*

What is called by the Stoicks *apathe*, and by the Scepticks *indisturbance*, seems all but in mean great tranquillity of mind.—*See W. Temple.*

Indivisible. adj.

Indivisible. *Rare.*

Indivisible, or even unlimited. *Shakespeare, Hamlet, II. 2.*

Individed. adj.

Undivided. *Rare.*

St. Cyril, in his first book against Julian, thinks there was a representation of the blessed, *individed* Trinity.—*Bishop Patrick, Paraphrase and Commentary on the Old Testament, Genesis, xviii. 2.*

Individual. adj.

[Fr. *individus*, *individuel*; Lat. *individus*.]

1. Separate from others of the same species; single; numerically one.

Must the whole man, musing thus, that I return
To the cold marble, or contracted wall
And never shall those particles agree,
That were in life thus *individual* be?
Pope, Solomon, II. 11.

It would be wise in them, as *individual* and private mortals, to look back a little upon the storms they have raised, as well as those they have escaped. *Swift.*

The object of any particular idea is called an *individual*; so Peter is an *individual* man, London an *individual* city.—*Watts.*

2. Undivided; not to be parted or disjoined.

An *individual* companion.
Hudibras, Mockers of the Arts, II. 6; 1619.
Long to truly shall greet our bliss
With an *individual* kiss.
Milton, Ode, On Time, 11.

To rise thus being, I lent
Out of my side to thee, nearest my heart,
Substantial life, to have thee by my side
Henceforth an *individual* soldier.
Id., Paradise Lost, IV. 453.

Under his great vigorous reign shall
United, as one *individual* soul,
For ever happy. *Id., Ibid. v. 609.*

Individual. s.

Single person or thing.

Neither is it enough to consult, *serminum genera*, what the kind and character of the person should be; for the most judgment is shown in the choice of *individuals*.—*Bacon.*

They present us with images more perfect than the life in any *individual*.—*Drayton, Translation of Despreux's Art of Painting, 10.*

Know, all the good that *individuals* find,
Or God or Nature meant to were mankind,
Blessed's whole pleasure, all the joys of sense,
Lie in three words: health, power, and competence.
Pope, Essay on Man, IV. 77.

We see each circumstance of art and *individual* of nature summed together by the extent and fecundity of his magnified.—*Id., Psyche to the Dead.*

The question occurs whether Natural History can be applied to *individual* substances? And the answer to this question is, that it can be applied, if these are such things as *individuals* individuals, since the resemblance and difference with which natural history has to do are the resemblance and difference of *individuals*. What is an *individual*? It certainly is not that which is so simple that it cannot be divided. Individual animals are composed of many parts. But if we examine, we shall find that our idea of an *individual* is, that it is a whole composed of parts, which are not similar to the whole, and have not an independent existence, while the whole has an independent existence and a definite form. What then is the *individual* individual? At first, while minerals were studied for their use, the most precious of the substances which they contained was looked upon as the characteristic of the mineral. The smallest trace of silver made a mineral an ore of silver. Thus forms and properties were distinguished, and substance was considered as identified with mineral. And hence Daubenton refused to recognize species in the *typical kind*.

He proposed to call
sorts what we call species. In this way of consider-
ing minerals, there are no *individuals*. But still
things not satisfactory; for if we take a well-formed
and distinct crystal, this clearly is an *individual*.
It may be objected, that the crystal is divisible (ac-
cording to the theory of crystallography) into smaller
parts; that these small solids are really the simple
objects; and that actual crystals are formed by com-
binations of these molecules according to certain
laws. But, as we have already said, an *individual* is
such, not because it cannot be divided, but because
it cannot be divided into parts similar to the whole.

As to the division of the form into its component laws, this is an abstract proceeding, foreign to natural history. Therefore there is so far nothing to prevent a crystal from being an individual.—*Whevell, History of Scientific Ideas*, vol. II, p. 148; ed. 1858.

(See also under Individuality.)

Individuality. s. Separate or distinct existence.

He would tell his instructor, that all men were not singular; that individuality could hardly be predicated of any man; for it is commonly said that a man is not the same he was, and that mad men are beside themselves.—*Aristophanes*.

What is an individual? . . . As applied to a man, or to any one of the higher animals, which are all sharply-defined and independent, the word individual has a clear meaning. . . . But when we extend our range of observation to the organic world at large, we find that difficulties . . . meet us everywhere under every variety of form. Each uniaxial plant may perhaps fairly be regarded as a distinct individual. . . . What, however, are we to say of a multiaxial plant? It is, indeed, usual to speak of a tree with its many branches and shoots as singular, but strong reasons may be urged for considering it as plural. . . . Shall we regard all the growing axes, &c. resulting from apices and grafts and buds, as parts of one individual, or as distinct individuals? If a strawberry-plant sends out runners carrying buds at their ends, which strike root and grow into independent plants, that separate from the original only by decay of the runners, must we not say that they possess separate individualities, and yet if we do this, we are not at a loss to say when their separate individualities were established, unless we admit that each bud was from the beginning an individual? . . . The animal kingdom presents still greater difficulties. When, from similar points on the body of a common polype, three last-out young polypoids, which, after acquiring mouths and tentacles and closing up the communications between their stomachs and the stomach of the parent, finally separate from the parent; we may with propriety regard them as distinct individuals. But when, in the allied compound hydroids, we find that these young polypoids continue permanently connected with the parent; . . . it is no longer so clear that these little ones furnished with mouths and tentacles, are severally to be regarded as distinct individuals. We cannot deny a certain individuality to the polypoid. And on discovering that some of the large . . . are transformed into colonies in which each is developed . . . we have still clearer proof that the individualities of the members are partially merged in the individuality of the group. Other organisms belonging to the same order, display still more decidedly this transition from simple individuality to a complex individuality. . . . To meet these difficulties, it has been proposed that the whole product of a single fertilized germ shall be regarded as a single individual; whether such whole product be organized into one mass, or whether it be organized into many masses, that are partially or completely separate. . . . It seems a questionable use of language to say that the embryo of a mussel, of Annelus, of Ascidium, which, within these few years, have grown up in our rivers, canals, and ponds, are all parts of one individual; and yet as this plant does not seed in England, these rootless masses, having arisen by discontinuous development, must be so regarded, if we accept the above definition. . . . There is, indeed, . . . no definition of individuality that is unobjectionable. All eyes can do for making the best practical compromise. As applied either to an animate or an inanimate object, the word individual ordinarily connotes union among the parts of the object and separateness from other objects. The fundamental element in the conception of individuality, we cannot with propriety ignore in the biological application of the word. That which we call an individual plant or animal, must, therefore, be some concrete whole, and not a discrete whole. If, however, we say that each concrete living whole is to be regarded as an individual, we are still met by the question—What constitutes a concrete living whole? A young organism arising by internal or external generation from a parent organism, passes gradually from a state in which it is an indistinguishable part of the parent organism, to a state in which it is a separate organism of like structure with the parent. At what stage does it become an individual? And if its individuality be conceived only when it completely separates from the parent, must we deny individuality to all organisms thus produced, which permanently retain their connections with their parents? . . . To answer such questions, we must revert to the definition of Life. The distinction between individual in its biological sense, and individual in its more general sense, must consist in the manifestation of life, properly so called. . . . Hence a biological individual is any concrete whole having a structure which enables it, when placed in appropriate conditions, to continuously adjust its internal relations to external relations, so as to maintain the equilibrium of its functions.—*Herbert Spencer, Inductions of Biology*, § 83-74.

Individualism. v. a. Invest with the character of individuality.

Notwithstanding the peculiarities which individualize and distinguish the humor of Addison, some difference of opinion has arisen among critics of acknowledged celebrity, with regard to its nature and resources.—*Brooks, Essays Illustrations of the Taster*, (Ord MS.).

There was a noble prodigality in these (Coleridge's) outpourings, a generous disdaining of self, . . . which might remind the listener of the first days of poetry before it became individualized by the press, when the Homeric rhapsodist wandered through new-born cities and scattered hovels, . . . when copyright did not ascertain the reciter's property, nor murdred once perpetrate and shed chilliness on his fame.—*Tuford, Memoirs of C. Lamb*.

Individually. adv.

1. With separate or distinct existence; numerically.

How should that subsist solitarily by itself, which hath no substance, but individually the very same whereby others subsist with it?—*Hooker, Ecclesiastical Polity*.

2. Not separably; incommunicably.

I dare not pronounce him conclusions, that I an attribute individually proper to the Godhead, and incommunicable to any created substance.—*Hooker, Apology*.

Individualize. v. a. Individualize.

Life is individualized into infinite numbers that have their distinct sense and pleasure.—*Dr. H. More, Antichrist against Atheism*.

No man is capable of translating poetry, who, besides a genius to that art, is not a master both of his author's language and of his own; nor must we understand the language only of the poet, but his particular turn of thoughts and expression, which are the characters that distinguish and individualize him from all other writers.—*Dryden*.

Individualize. adv. Undivided.

(O Thou, the third in that eternal trine, In individual unity divine!)

The Student, II, 311: 1751.

Individualism. s. That which makes an individual.

A philosophical empire, when individualism shall be royalty!—*Holmes & Russell*, p. 63; Oxford, 1661. It will be a very difficult point to cut the leather . . . how this numerical difference in the brain can produce effects of so vast a difference from the same vapour as to be the sole point of individualism between Alexander the Great, Jack of Leyden, and Monsieur des Caries. *Swift, Tale of a Tub*, § 8.

What is the principle of individualism? Or what is it that makes any one thing the same as it was before?—*Watts*.

Schelling defines life as the tendency to individualization. *Herbert Spencer, Inductions of Biology*, pt. III, ch. III, p. 333; ed. 1855.

Individualism. s. One who individualizes.

He is composed of the same individual matter, for it hath the same distinguishing and individualizing, to wit, the same form or soul.—*Sir K. Digby, Observations on Browne's Religio Medici*, (Ord MS.).

Indivinity. s. Want of divine power. *Obsolete*.

How openly did the oracle betray his indivinity unto Cressus, who being ruined by his amphibology, and expostulating with him, received no higher answer than the excuse of his impotency!—*Sir T. Browne, Vulgar Errors*.

Indivisibility. s. Incapable of division.

A jestle and mortar will as soon bring any particle of matter to indivisibility as the acutest thought of a mathematician.—*Locke*.

Indivisible. adv. Incapable of being divided into parts; minute to the last degree of division.

By atom, no body will imagine we intend to express a perfect indivisible, but only the least sort of natural bodies. *Sir K. Digby*.

Here is but one indivisible point of time observed, but one action performed; yet the eye cannot comprehend at once the whole object.—*Dryden, Translation of Desprez's Art of Painting*.

Indivisible. s. Particle incapable of division.

If quantity consists of indivisibles or atoms, it will follow that a secondum is all one with an insensibile. &c.—*Dr. H. More, Song of the Soul*, notes, p. 376.

Indivisibly. adv. In an indivisible manner; so as to be incapable of division.

Their act of allowance to the Greek church implies a fair independency of these two, which some of their clamorous clients appear to have indistinctly coupled.—*Bishop Hall, Honour of married Clergy*, p. 11.

Indivision. s. Undivided, non-divided, state or condition of anything.

I will take leave to maintain the indivision of the church of England, in the dogmatical point of faith.—*Bishop Hall*.

Indocible. adj. Incapable of, or unfit for, being, taught; unteachable; insusceptible of instruction. *Rare*.

Contracted and clung together with sensual delights, now he becomes utterly indocible.—*Bishop Hall, Occasional Meditations*, 104. They are insusceptant and indocible as any fool.—*Griffith, Fear of God and the King*, p. 72.

Indocibleness. s. Attribute suggested by indocible. *Rare*.

Out of peevishness and indocibleness of disposition.—*Jeremy Taylor, Liberty of Prophesying*, sect. II, p. 9. (Ord MS.).

Indocile. adj. [Lat. *docilis* = teachable; *docere* = teach; *docilitas*, *-atias*.] Difficult, or slow, to be instructed. *Rare*.

Items and more indocile beasts shall be taught to labour.—*Sir W. Petty, Advice to Martlib*, p. 23: 1648.

These certainly are the fools in the text, indocile, intractable fools, whose stupidity can baffle all arguments, and be proof against demonstration itself.—*Beatty, Sermons*.

Indocility. s. Slowness to receive, resistance to, instruction.

To have left us in their miserable darkness and indocility.—*Bishop Hall, St. Paul's Comfort*. The stiffness and indocility of the Pharisees.—*H. Montague, Descent of Man*, pref. to the court.

I have no doubt that the admirable fiction of Robinson Crusoe would have been not only much less amusing, but, to most readers less apparently natural, if Friday and the other savages had been represented with the indocility and other qualities which really belong to such beings as the Brazilian cannibals; and if the hero himself had been represented with that indistinctly apathetic docility, and carelessness about all comforts demanding steady exertion, which are the really natural results of a life of utter solitude; and if he had been described as almost losing the use of his own language, instead of remembering the Spanish.—*Archbishop Whately, Elements of Rhetoric*, pt. I, ch. II, § 2.

Indoctrinate. v. a. Instruct; tincture with any doctrine, science, or opinion.

Under a master that discoursed excellently, and took much delight in indoctrinating his young unexperienced favorite, Buckingham had obtained a quick conception of speaking very gracefully and pertinently.—*Lord Clarendon*.

Thus that never perished beyond the common belief, in which their easy understandings were at first indoctrinated, are strongly assured of the truth of their perceptions.—*Glennville*.

Indoctrination. s. Instruction; communication of doctrine; information.

Although postulates are very accommodable unto junior indoctrinations, yet are these authorities not to be embraced beyond the minority of our intellectuals.—*Sir T. Browne*.

Indolence. s.

1. Freedom from pain (the etymological rather than the usual meaning).

I have rice, if it may not rather be called indolence.—*Bishop Hough*.

2. Laziness; want of energy.

The Spanish nation, roused from their ancient indolence and ignorance, seem now to improve trade.—*Lord Brougham*.

Indolency. s. Same as Indolence.

Let Epicurus give indolency as an attribute to his gods, and place in it the largeness of the best; the divinity which we worship has given us not only a precept against it, but his own example to the contrary.—*Dryden*.

Indolent. adj. [Lat. *in-* negative + *doleo* = grieve, suffer pain; pres. part. *dolens*, *-entis*.]

1. In Medicine. Free from pain: (as, 'an indolent tumour.' Less accurately used for such as are slow to change).

2. Careless; lazy; inattentive; listless.

Ill fits a chief who mighty nations guides . . . To waste long nights in indolent repose.—*Pope, Translation of Homer's Iliad*, II, 27.

Indolently. adv. In an indolent manner.

While lul'd by sound, and undisturb'd by wit, Calm and serene you indolently sit.—*Adrian*.

Indomitable. adj. [Fr. *indomptable*; Lat. *indomitus*; *domo* = tame; pass. part. *domitus*.] Untamable.

It is so fierce and indomitable.—*Sir T. Herbert, Relation of some Years' Travels into Africa and the Great Asia*, p. 283.

Indomite. adj. Untamed; wild; savage. *Rare*.

No tiger up there, no owl so ravenous, no whole so monstrous, no not any creature, so *indominable*, but that it was subject to man's dominion, while man was subject to his Lord and Maker.—*Salkeld, Treatise of Paradise*, p. 122: 1817.

Indoor. adj. Domestic.

"I am for *in-door* nature myself," said Lord Eskdale. "Do you know I don't half like the way Man-moth is going on. He never gets out of that villa of his. He should change his air more. Tell him!"—*B. Disraeli, Coningsby*, b. viii. ch. vii.

Indorse. See Endorse.

Indraught. s.

1. An opening in the land into which the sea flows.

Rivers and floods there could be none, when there were no *indraughts*, bays, or gulphs, to receive a flood.—*Sir W. Raleigh*.

2. Inlet; passage inwards.

Navigable rivers are *indraughts* to attain wealth.—*Bacon*.

Indri. s. [?] Lemur of the genus *Lichanotus*, so called.

In the short-tailed *indri*, the atlas has a short hyaline process, but no neural spine; the transverse process is moderately long and broad, and is perforated longitudinally and vertically by the vertebral artery, which afterwards crosses the neural arch.—*Queen, Anatomy of Vertebrata*.

Indubious. adj. Not doubtful; not suspecting; certain. *Rare*.

Hence appears the vulgar vanity of exposing an *indubious* confidence in those unimportant and spurious *harper*.

Indubitable. adj. Undoubted; unquestionable; evident; certain in appearance; clear; plain.

The invention of them is notwithstanding a very presumptuous invasion of the *indubitable* rights of God.—*Dr. M. More, Antidote against Idolatry*, ch. ii.

When general observations are drawn from so many particulars as to become certain and *indubitable*, these are jewels of knowledge.—*Watts, The progress of the Mind*.

Indubitably. adv. In an indubitable manner; undoubtedly; unquestionably.

If we transport these proportions from indubitable to visible objects, there will *indubitably* result from either a graceful and harmonious contentment.—*Sir H. Wotton, Elements of Architecture*.

The patriarchs were *indubitably* invested with both these authorities.—*Bishop Spaul*.

I appeal to all sober judges, whether our souls may be only a mere echo from clashing atoms; or rather *indubitably* must proceed from a spiritual substance.—*Beattie*.

Indubitate. adj. Unquestioned; certain; apparent; evident.

If he stood upon his own title of the house of Lancaster, he knew it was confirmed by inheritance, and traced directly to the dismemberment of the line of York, held then the *indubitable* heirs of the crown.—*Bacon, History of the Reign of Henry VII.*

I have been tempted to wonder how, among the jealousies of state and court, Edward Atheling could subsist, being then the apparent and *indubitable* heir of the Saxon line.—*Sir H. Wotton*.

Induce. v. a.

1. Influence to anything; persuade: (of persons).

The self same argument in this kind, which doth but *induce* the vulgar sort to light, may constrain the wiser to yield.—*Hunter, Reckless of Policy*.

Let not the covetous desire of becoming rich *induce* you to ruin your reputation, but rather satisfy yourself with a moderate fortune; and let your thoughts be wholly taken up with acquiring to yourself a glorious name.—*Dryden*.

2. Produce by persuasion or influence: (of things).

Let the vanity of the times be restrained, which the neighbourhood of other nations have *induced*, and we strive agree to exceed our pattern.—*Bacon, Advice to P. Henry*.

3. Cause extrinsically; produce; effect.

Hence things *induce* a contraction in the pores, placed in the mouth of the stomach, which is a great cause of appetite.—*Bacon*.

This *induces* a general change of opinion, concerning the person or party like to be obeyed by the greatest or strongest part of the people.—*Sir W. Temple*.

Acidity, as it is not the natural state of the animal fluids, but *induced* by aliment, is to be cured by aliment with the contrary qualities.—*Arbuthnot, On the Nature and Choice of Aliments*.

4. Adduce. *Obsolete*.

To exprobrate their stupidity, he *induced* the providence of stocks: now, if the bird had been

unknown, the illustration had been obscure, and the exprobration not so proper.—*Sir T. Browne*.

The poet may be seen *inducing* his personages in the first third, where he discovers their humours, interests, and designs.—*Page*.

5. Bring on; superinduce; effect gradually.

Selism is marked out by the apostle as a kind of petrifying crime, which *induces* that induration to which the fearful expectation of wrath is consequent.—*Dr. H. More, Discourse of Christian Piety*.

Inducement. s. Motive to anything; that which allures or persuades to anything.

Many *inducements*, besides Scripture, may lead me to that, which if Scripture be against, they are of no value, yet otherwise are strongly effectual to persuade.—*Hunter, Reckless of Policy*.

That would me to!

Then mark the *inducement*.

Shakespeare, *Henry VIII.* li. 4.

My *inducement* of hither.

Was not at present here to find my son.

Milton, *Samson Agonistes*, 1415.

If a minority could prevail over the majority, those who were in favour of a proposition would vote against it, or would abstain from voting, in order to insure a minority to their side of the question. Besides, there would be no *inducement* to discuss a question, if, by converting a person to your opinion, you did not strengthen your side in the division when the vote came to be counted.—*Sir G. C. Lewis, On the Influence of Authority in Matters of Opinion*, ch. vii.

Inducer. s. One who induces; persuader.

How can he be a *meto* persuader or *inducer* of the people to widowhood, which hath himself been often married?—*Martin, Treatise on the Marriage of Priests*, c. iii. b. 1: 1544.

As if he were the great impeller and *inducer* of men to sin.—*South, Sermons*, vol. 5.

Inducible. adj.

1. Capable of being induced, brought on, or caused.

The satisfaction of prosperity, issuing from sense, is subject to all the changes *inducible* from the restless commotions of outward causes affecting and altering the sense.—*Burner, Works*, iii. 10.

2. Capable of being arrived at by induction.

Many things in philosophy false; confirmable by sense, yet not *inducible* by reason.—*Sir T. Browne, Religio Medici*.

Induct. s. a.

1. Introduce; bring in.

The ceremonies in the gathering were first *inducted* by the Vestians.—*G. Scudgry, Travels*.

2. Put into actual possession of a benefice.

If a person thus instituted, though not *inducted*, takes a second benefice, it shall make the first void.—*Apistie, Paragon Juris Canonici*.

Figuratively.

On Wednesday morning Jacobina was *inducted* into the conforts of the hearth of mine host: and her four little kittens newed hard by, from the shelter of a basket lined with flannel.—*Sir K. B. Lytton, Enoch Arden*, b. i. ch. ii.

Induction. s.

1. Introduction; entrance; anciently profane, and also something introductory to a play.

This is well known to be true, of them, that have large leisure to read Holy Scripture; who, remembering themselves by this my little *induction*, will leave to neglect history.—*Sir T. Elyot, The Governour*, fol. 21a. li.

These promises are fair, the parties sure.

And our *induction* full of prosperous hope.

Shakespeare, *Henry IV.* Part I. iii. 1.

Inductions are out of date, and a prodrome in verse is as stale as a duck-veiled cloak.—*Bentham and Fletcher, Wasp*, act i. sc. 1.

This is but an *induction*; I will draw

The curtains of the tragedy here after.

Shakespeare, *Guardian*.

An *induction* to those succeeding evils, which pursued that inconsiderate marriage.—*Sir G. Elyot, History of King Richard III.* p. 118.

2. In Logic. Reasoning from the more particular to the more general, as opposed to *deduction*, which is reasoning from the more general to the more particular; an approximate translation of the Greek *ἐπαγωγή* (*epi* = on; *agō* = lead; Lat. *duco*, signifying the *leading-on*, or *bringing-on*, of particular examples or instances, each confirming, or helping to confirm, the inference suggested by the preceding).

Induction is when, from several particular propositions, we infer one general; as, the doctrine of the Socinians cannot be proved from the gospels, it cannot be proved from the Acts of the Apostles, it cannot be proved from the epistles, nor the book of

Revelation; therefore it cannot be proved from the New Testament.—*Watts, Logic*.

The induction by *induction* is wonderful hard; for the things reported are full of fables, and new experiments can hardly be made out with extreme caution.—*Bacon*.

Mathematical things are only capable of clear demonstration; conclusions in natural philosophy are proved by *induction* of experiments, things moved by several arguments, and matters of fact by credible testimony.—*Locke, Essay*, b. ii. ch. x.

Although the argument from experiments and observations by *induction* be no demonstration of general conclusions, yet it is the best way of arriving which the nature of things admits of, and may be looked upon as so much the stronger by how much the *induction* is more general, and if no exception occur from phenomena, the conclusion may be general.—*Sir I. Newton, On Opticks*.

We have found, that the mental process with which *logic* is conversant, the operation of investigating truths by means of evidence, is always, even when it appears to point to a different theory of it, a process of *induction*. And we have particularly the various modes of *induction*, and obtained a clear view of the principles to which it must conform, in order to lead to results which can be relied on. The consideration of *induction*, however, does not end with the direct rules for its performance. Something must be said of those other operations of the mind, which are either necessary presupposed in all *induction*, or are instrumentally to the more difficult and complicated *induct* of processes. . . . *Induction* being merely the extension to a class of cases of something which has been observed to be true in certain individual instances of the class; the first place among the operations subservient to *induction*, is claimed by observation.—*J. S. Mill, System of Logic*, pt. iv. ch. i. § 1.

3. Formal act of giving possession to the person who has received institution of his church.

In dignifying possession is given by instalment; in reversion and vicarages, by *induction*.—*Sir W. Blackstone*.

Inductive. adj.

1. Leading; persuasive: (with to).

A British very, *Inductive* mainly to the sin of Eve.
Milton, *Paradise Lost*, xl. 518.

2. Capable of producing: (with of).

Arguments may take away infallible confidence in these evidences of fact, yet they may be probable and *inductive* of credibility, though not of science.—*Sir M. Hale, Origin of Mankind*.

3. Proceeding not by demonstration, but induction. See under *Induction*.

Inductively. adv. In an inductive manner; by induction; by inference.

This I shall make appear *inductively*, by recounting the several ends and talents, to which, with any colour of reason, it may be assigned.—*South, Sermons*, vii. 167.

Inductor. s. Person who induces another into a benefice.

He puts the incumbent into possession of the church, who, when he has taken a bell, comes forth; and the *inductor* induces a certificate of such his induction on the warrant of the archbishop, attested by those who were present.—*Thryman's Assistant, Directions*, p. 312, n. 2nd edit.

Indue. See Endue.

Indulciate. v. a. [Lat. *dulcis* = sweet.] Sweeten. *Rare*.

From the secret sweetness that gratifies and *indulciates* all his spirits.—*Felltham, On St. Luke*, (101) 318.

Indulge. v. a. [Lat. *indulgeo*; pres. part. *indulgens*, -entis.]

1. Give way to; not to restrain or oppose.

The lazy glutton safe at home will keep,
Indulge his sloth, and fatten with his sleep.
Dryden.

2. Favour; gratify with remission: (with *with* or *in*, according as the object of pleasure is physical or moral).

A mother was wont to *indulge* her children with dogs, squirrels, or birds; but then they must keep them well.—*Locke*.

To live like those that have their hope in another life, implies that we *indulge* ourselves in the gratifications of this life very sparingly.—*Rushop, Alacrity*.

3. Grant not of right, but favour.

Ancient privileges, *indulged* by former kings to their people, must not, without high reason, be revoked by their successors.—*Jeffrey Taylor, Rules and Exercises of holy Living*.
"The virgin cut ring bright, *indulged* the day"
To the brown cave, and brush'd the stream away.
Dryden.

But since among mankind so few there are,
Who will conform to philosophic fire,
This much I will *indulge* thee for thy ease,
And mirth something of our time to please.
Dryden, Translation of Juvenal.
Yet, yet a moment, one thin ray of light
Enlighten, dread chaos and eternal night!
Pope, Epigram, iv. 1.

Indulge. *v. n.* Be favourable; give indulgence: (with *in*, rarely *to*.)

He must, by *indulging* to one sort of reprovable discourse himself, defeat his endeavours against the rest. — *Dr. H. More, Discourse of the Tongue.*
Yet, in the midst of follies and vices, his courageous spirit, his fine understanding, and his natural goodness of heart, had been conspicuous. Men said that the excesses in which he *indulged* were common between him and the whole race of gay young gentlemen, but that his sympathy with human sufferings, and the generosity with which he made reparation to those whom his freaks had injured, were all his own. — *Macaulay, History of England*, ch. viii.

Indulgence. *s.*

1. Fondness; fond of kindness.
Resistant she will not brook;
And left to herself, if evil thence ensue,
She'll find his weak *indulgence* will reverse.
Milton, Paradise Lost, ix. 1184.

2. Forbearance; tenderness: (opposite of *rigour*).

They err, that through *indulgence* to others, or fondness to any sin in themselves, substitute for repentance any thing less. — *Hammond, On Penance*, *indulgent*.

Some doubt if equal pains or equal fire
The humbler muse of Comedy require;
But in known images of life, I see
The labour greater, as the *indulgence* less.
Pope, Imitations of Horace, b. ii. ep. i.

3. Favour granted; liberality.

If all those gracious *indulgences* are without any effect on us we must perish in our own folly. — *Rogers.*

4. Licence in the way of moral conduct.

The looseness and *indulgences* of this age . . . bear a proportion with the religion of the Ottomans. — *Sir R. Temple, Entertainment of Solitude*, p. 5: 16th.
What that *indulgent* where's *indulgence* to sin?
I'll ravage thee.
Shakespeare, Henry VI. Part I. i. 3.

5. Papal dispensation, by which the period of penance undergone in purgatory was shortened. See extracts.

Indulgences, dispensations, pardons, bulls, The sport of winds.
Milton, Paradise Lost, iii. 492.

In purgatory, *indulgences*, and supererogation, the assertions seem to be unimpaired in nothing but *indulgent*. — *Dr. H. More, Devy of Christian Piety.*

The doctrine of *indulgences*, as it was before the Council of Trent, and hath been since taught in the church of Rome, is big with gross errors. It depends on the fiction of purgatory; it supposes a superfluity of the satisfactions of the saints; which, being jumbled together (horror *indulgent*) with the merits and satisfaction of our Saviour, make up one treasury of the church; that the bishop of Rome keeps the key of it, as having the sole power of granting *indulgences* either by himself immediately, or by others commissioned from him. Lastly, it very absurdly extends the effect of the power of the keys, left by Christ in his church, to men in the other world. *Bishop Hall, Corruption of the Church of Rome in Answer to the Bishop of Meane's Queries.*
Leo X. is deservedly infamous for his base prostitution of *indulgences*. — *Bishop Atterbury.*

Indulgence. *s.* Indulgence.

The glories of our isle,
Which yet like golden ore, untried in beds,
Expect the warm *indulgence* of heaven. — *Dryden.*
Your majesty is still pleased, by the excellency of your nature, and by the *indulgence* of your judgment, to accept honest zeal for discretion. — *Sir H. Wotton, Remains*, p. 324.

Indulgent. *adj.*

1. Kind; gentle; liberal.
God has done all for us that the most *indulgent* Creator could do for the work of his hands. — *Rogers.*
2. Mild; favourable.
Hereafter such in thy behalf shall be
Thy *indulgent* censure of posterity. — *Waller.*

3. Gratifying; favouring; giving way to: (with *of*).

The feeble old, *indulgent* of their ease.
Dryden, Translation of the Æneid, v. 303.

Indulgent. *adj.* Relating to the indulgences of the Romish church.

For are fitted with rare *indulgent* privileges. — *Dreving, Saul and Samuel at Nadab*, ch. x.

Indulgent. *adv.* In an indulgent manner;

without severity; without censure; without self-reproach; with indulgence.

He that not only commits some act of sin, but lives *indulgent* in it, is never to be counted a reprobate man. — *Hammond.*

Who? There are none; All-gracious, none from Thee!

Whose threats are mercies, whose injunctions smiles,
Assisting, not restraining, reason's choice;
Whose sanctions, unavoidable results
From nature's course, *indulgent* reveal'd.
Young, Night Thoughts, ix.

Indulgent. *s.* One who indulges.

If, as Saint Peter saith, the severest watchers of their nature have task hard enough, what shall be hoped of the *indulgent* of it? — *W. Montague, Desert Knaves*, pt. i. p. 100: 16th.

Indulgent. *s.* [Italian.] Indulgence, ecclesiastical or commercial. *Not English.*

It was a tax laid upon the English a great many years ago, with their own consent, for the privilege of going to Aleppo. . . . This is a most scandalous *indulgent*. — *Drummond, Travels through Germany, Italy, and Greece*, p. 180: 1738.

Indurate. *v. a.* [Lat. *induratus*, pass. part. of *induro* - harden; *indurationis*; *durus* - hard.] Make hard.

Glass may be so *indurated* by fire, that it may scorn the force of the hammer. — *Gayton, Notes on Don Quixote*, 1554.

Indurate. *v. n.* Grow hard; harden.

Stones within the earth at first are but rude earth or clay; so minerals come at first of juices concrete, which afterwards *indurate*. — *Bacon, Natural and Experimental History.*

That plants and humours bodies may *indurate* under water, without approachment of air, we have experiments in coral-limes. — *Sir T. Browne, Vulgar Errors.*

Indurate. *v. a.* Make hard.

Indurate. *adj.* Hardened.

Dried, soaked, *indurate* fish. — *Barton, Anatomy of Man*, ch. p. 70.

Avoid at all times *indurate*, salt, and especially

spice and windy meat. — *Ibid.*, p. 482.

After he hath passed one year and a half in repentance, . . . then, lest he may be *indurate*, let him be admitted to the receiving of the body and blood of Christ. — *Martin, Treatise on the Marriage of Priests*, 1554.

Thine heart is full hard, *indurate* as was the heart of Pharaoh. — *For, Book of Martyrs, Examination of W. Thorpe.*

Insensible, *indurate*, and intolerable unthankfulness of the sons of Adam. — *Lee, Blime of Brightest Beauty*, p. 13: 1814.

Indurate. *part. adj.* Chillous; hardened.

A contracted *indurated* bladder is a circumstance sometimes attending on the stone, and indeed an extraordinary dangerous one. — *Shoep, Surgery.*

Love's and friendship's truly pointed dart
Fall blunted from each *indurated* heart.

Goldsmith, Traveller.

Figuratively. Impenitent; hard of heart; obdurate.

Induration. *s.*

1. State of growing hard; act of hardening.

This is a notable instance of emendation and *induration*, by burial under earth, in caves for a long time. — *Bacon, Natural and Experimental History.*

2. Obduracy; hardness of heart.

Nehemiah is marked out by the apostle as a kind of petrifying crime, which induces that *induration* to which the fearful expectation of wrath is consequent. — *Dr. H. More, Devy of Christian Piety.*

Industrial. *adj.* Relating to, or consisting in, the products of industry: (as, '*industrial exhibition*').

Industrious. *adj.*

1. Diligent; laborious; assiduous: (opposed to *sluggish*).

Frugal and *industrious* men are commonly friendly to the established government. — *Sir W. Temple.*

2. Laborious to a particular end: (opposed to *remiss*).

He himself being excellently learned, and *industrious* to seek out the truth of all things concerning the original of his own people, hath got down the testimony of the ancients truly. — *Spenser, View of the State of Ireland.*

Let me just commend
Attend the true event, and put me on
Industrious whilship. — *Shakespeare, Macbeth*, v. 4.

His thoughts were low:
To vice *industrious*; but to nobler deeds
Tumorous and slothful.
Milton, Paradise Lost, ii. 113.

3. Designed; done for the purpose.

The *industrious* perforation of the tendons of the second joints of fingers and toes, draw the tendons of the third joints through. — *Dr. H. More, Dietæ Diagonæ.*

Observe carefully all the events which happen either by an occasional concurrence of various causes, or by the *industrious* application of knowledge. — *Watts, Improvement of the Mind.*

Industriously. *adv.* In an industrious manner.

And of myself *industriously* inclin'd.

Mirror for Magistrates, p. 325.
Great Britain was never before united under one king, notwithstanding that the nation had been *industriously* attempted both by war and peace. — *Bacon.*

Some friends to vice *industriously* defend
Those innocent diversions, and pretend
That the tricks of youth are roughly blame.

Dryden, Translation of Juvenal.
I am not under the necessity of declaring myself, and I *industriously* conceal my name, which wholly exempts me from any hopes and fears. — *Swift.*

Industry. *s.* [Fr. *industrie*; Lat. *industria*; *ind.* *industrius*.] Diligence; assiduity; habitual or actual laboriousness.

Industry hath not been so long time used in the English tongue, as providence; therefore, it is the more strange, and requires the more plain exposition. It is a quality proceeding of witte and experience, by the which a man perceiveth quickly, inventeth freshly, and reasoneth speedily. Wherefore they, that be called *industrious*, do make craftily and deeply understand in all affairs what is expedient, and by what means and ways they may soundly explyte them. — *Sir T. Rigg, The Government*, fol. 72.

The sweat of *industry* would dry and die,
But for the end it works to.

Shakespeare, Cymbeline, iii. a.
See the laborious bee
For little drops of honey flow
And there with humble sweets content her *industry*.

Corby.
Providence would only invite mankind into the useful knowledge of her treasures, leaving the rest to supply our *industry*, that we might not live like idle idlers. — *Dr. H. More.*

Indweller. *s.* Inhabitant.

Too true that lands *indwellers* since have found.
Spenser, Faerie Queene, vii. 6: 35.

Unexampled of my mortal *indweller*. — *Bishop Hall, Contemplation on the Old and New Testaments*, li. v.

An house ready to fall on the head of the *indweller*. — *Id., Occasional Meditations*, § 110.

Indwelling. *part. pres.* Dwelling, residing in, or occupying, anything permanently.

Every passion, every vice, had its especial demon; lust, impety, blasphemy, vain-glory, pride, were not the man himself, but a foreign power working within him. The slightest act, sometimes no act at all, surrendered the soul to the irresistible *indwelling* agent. In Gregory's *Dialogues* a woman sets a letter without making the sign of the cross; she is possessed by a devil, who had been swallowed in the uncorrupted letter. — *Adam, History of Latin Christianity*, ii. iii. ch. vi.

Inebriate. *v. a.* [Lat. *inebrio*, pres. part. *inebrians*, *-antis*; pass. part. *inebriatus*; *inebriatio*, *-onis*; *chrius* - drunken.] Intoxicate; make drunk.

Who suggest *inebriate* less than wine pure:
sops in wine, quantity for quantity, *inebriate* more than wine of itself. — *Bacon.*

Fish, entering far in and meeting with the fresh water, as if *inebriated*, turn up their bellies and are taken. — *Savigny.*

Inebriate. *v. n.* Grow drunk; be intoxicated.

At Constantinople, fish that come from the Euxine sea into the fresh water do *inebriate* and turn up their bellies, so as you may take them with your hand. — *Bacon.*

Thy brains *inebriate* me,
That thou thy nakedness shalt boldly show.
G. Saviage, Paraphrase of the Book of Lamentations, ch. iv.

Inebriation. *s.* Drunkenness; intoxication.

That cornelians and bloodstones may be of virtue, experience will make us grant; but not that an anæsthetic prevents *inebriation*. — *Sir T. Browne.*

They did not preserve him from *inebriation* of prosperity, or restrain him from *inebriation* of poverty in adversity. — *Marsden, Critical and Historical Essays, Indian's Constitutional History*, pt. i.

Inebriety. *s.* Drunkenness.

It is generally the result of continued and habitual *inebriety*. — *Gregory, Theory and Practice of Medicine*, ii. ii.

Unedited. *pprt. pref.* Not edited, published, or put forth.

An *unedited* roll of queen Seaburg.—*T. Warton, History of English Poetry*, vol. II, add.

Unedible. *adj.* [Fr. *inedible*; Lat. *inedibilis*; from *for* = speak.] Unspeaking; unutterable; not to be expressed.

To whom the Son, with calm aspect and clear, lightning divine, *inedible*, serene, *Milton, Paradise Lost*, v. 733.

Reflect upon a clear, unblotted, acquitted conscience, and feed upon the *inedible* comforts of the memorial of a conquered temptation.—*South, Sermons*.

Unedibly. *adv.* In an inedible manner; so as not to be expressed.

So dyd the divinity *inedibly* put itself into the visible monument.—*Archbishop Cranmer, Answer to Bishop Gardiner*, p. 371.

He all his Father full expressed *inedibly* into his face reveal'd.—*Milton, Paradise Lost*, vi. 720.

Uneffective. *adj.* Productive of no effect; inefficient; useless.

As the body, without blood, is a dead and lifeless trunk; so is the word of God, without the spirit, a dead and *ineffective* letter.—*Jeremy Taylor*.

He that assures himself he never errs, will always err; and his presumptions will render all attempts to inform him *ineffective*.—*Glanville*.

Uneffectual. *adj.* Unable to produce its proper effect; weak; wanting power.

The publick reading of the Apocrypha they condemn as a thing effectual unto evil: the bare reading even of Scriptures themselves they mislike, as a thing *ineffectual* to do good.—*Hooker, Ecclesiastical Polity*.

The death of Patroclus, joined to the offer of Agamemnon, which of itself had proved *ineffectual*.—*Pope*.

(For another example see under *Ineffectiveness*.)

Uneffectually. *adv.* In an ineffectual manner.

In thirteen days' time there were slain 1000 great shot spent *ineffectually* on the brave loyalists, who held out against the numbers of Manchester's whole army.—*Aschmole, History of Herks*, ii. 284.

Uneffectualness. *s.* Attribute suggested by *ineffectual*; inefficiency; want of power to perform the proper effect.

St. James speaks of the *ineffectualness* of some men's devotion. Ye ask and receive not, because ye ask amiss.—*Archbishop Wake*.

Unefficacious. *adj.* Unable to produce a desired effect; weak; feeble.

Is not that better than always to have the rod in hand, and, by frequent use, misapply and render *inefficacious* this useful remedy?—*Locke*.

Unefficacious rather denotes its actual failure; and *inefficacious* an habitual impotence to any effect.—*Johnson*.

Unefficacy. *s.* Want of power; want of effect.

The *inefficacy* was soon proved, like that of many similar medicines.—*Gregory, Theory and Practice of Medicine*, i. vi.

Unefficiency. *s.* Want of power; inactivity.

Venus owes its security to its neutrality and *inefficiency*.—*Lord Chesterfield*.

Unefficient. *adj.* Ineffective.

He is as ineffectual in his pleasures, as *inefficient* in every thing else.—*Lord Chesterfield*.

Unellegant. *s.* Absence of beauty; want of elegance.

She was conspicuous from the notorious *unellegant* of her hair.—*Theodore Monk, Jack Bragg*.

Unellegant. *adj.*

1. Not becoming; not beautiful.

What order, so contriv'd as not to mix Tastes not well join'd, *unellegant*, but bring Taste after taste, upheld with kindest change.—*Milton, Paradise Lost*, v. 334.

2. Wanting ornament of language.

Modern critics, having never read Homer in his low and *unellegant* translations, impute the want of the translation to the poet.—*Johnson, On the Odyssey*.

Unellegantly. *adv.* In an unellegant manner.

1. Not becomingly; not beautifully.

The preliminaries of the southern trumpet is pinched, not *unellegantly*, with a flourish'd flourish.—*T. Warton, History of the Parish of Kidlington*, p. 8.

2. Coarsely; without ornament of language.

Nor will he, if he have the least taste or application, talk *unellegantly*.—*Lord Chesterfield*.

In an invocation to rhyme, while he is not *unellegantly* illustrating the plausibility of an easy association of consonant syllables, he artfully intermixes the sweetest of satire.—*T. Warton, History of English Poetry*, iv. 60.

Uneligible. *adj.*

1. Ineligible of being elected: (as, 'an *uneligible* candidate').

2. Not desirable for a choice: (as, 'an *uneligible* partner').

Uneloquent. *adj.* Not eloquent, persuasive, or oratorical.

Nor are thy lips uneloquent, sire of men, Nor tongue *uneloquent*.—*Milton, Paradise Lost*, viii. 218.

Uneluctable. *adj.* [Lat. *luctor*; pret. part. *luctatus* = wrestle, struggle, contend.] Not to be struggled against, avoided, or overcome.

As if the damnation of all sinners now were *uneluctable* and eternal.—*Bishop Pearson, Exposition of the Creed*, art. v.

Uneludible. *adj.* Not to be defeated.

Most pressing reasons, and *uneludible* demonstrations.—*Glanville, Precedence of Souls*, p. 14.

Uncept. *adj.* [Lat. *inceptus*.]

1. Trifling; foolish.

The works of nature being neither useless nor *uncept*, must be guided by some principle of knowledge.—*Dr. H. More*.

After their various unsuccessful ways, Their fruitless labour, and *uncept* essays, No cause of these appearances they find, But power exerted by the Eternal Mind.—*Sir R. Blackmore*.

2. Unfit for any purpose; useless.

When the upper and vegetative stratum was once washed off by rains, the hills would have become barren, the strata below yielding only mere sterile matter, such as was wholly *uncept* and improper for the formation of vegetables.—*Woodward*.

Unepitruide. *s.* Unfitness.

The grinding and rubbing of axes against the sockets, wherein they are placed, will cause some *unepitruide* or resistency to rotation of the cylinder.—*Bishop Wilkins*.

An omnipotent agent works infallibly and irresistibly, no *unepitruide* or sinfulness of the matter being ever able to hinder him.—*Ray, Wisdom of God manifested in the Works of the Creation*.

There is an *unepitruide* to motion from too great haste, and an *unepitruide* to motion from too great tardiness.—*Arbuthnot*.

Unepitruide. *adv.* In an inept manner; triflingly; foolishly; unfitly.

Some of them are made foolishly or *unepitruide*.—*Dr. H. More*.

All things were at first disposed by an omniscient intellect, that cannot contrive *unepitruide*.—*Glanville*.

Unepitruide. *s.* Attribute suggested by *inept*; unfitness.

The feebleness and miserable *unepitruide* of infancy.—*Dr. H. More, Precedence of Souls*, pref. 1647.

Unepitruide. *adj.* Unequal.

Welcome all toils the *unepitruide* fates decree, While toils embrace thy faithful charge to thee.—*Shadwell, Judgment of Hercules*.

Unepitruide. *s.*

1. Difference of comparative quantity.

There is so great an *unepitruide* in the length of our legs and arms, as makes it impossible for us to walk on all four.—*Ray*.

2. Unevenness; interchange of higher and lower parts.

The country is cut into so many hills and *unepitruide* as renders it defensible.—*Addison, Travels in Italy*.

If there were no *unepitruide* in the surface of the earth, nor in the seasons of the year, we should lose a considerable share of the vegetable kingdom.—*Beattie*.

3. Disproportion to any office or purpose; state of not being adequate; inadequateness.

The great *unepitruide* of all things to the appetites of a rational soul appears from this, that in all worldly things a man finds not half the pleasure in the actual possession that he proposed in the expectation.—*South, Sermons*.

4. Change of state; unlikeness of a thing to itself; difference of time or quality.

In some places, by the nature of the earth, and by the situation of woods and hills, the air is more un-

equal than in others; and *unepitruide* of air is ever an enemy to health.—*Bacon*.

5. Difference of rank or station.

If so small *unepitruide* between a man and man make in them such a commendable virtue, who, respecting superiors as superiors, can neither speak nor stand before them without fear.—*Hooker, Ecclesiastical Polity*.

Unepitruide. *adj.* Not equitable; unjust.

The way of process men take in this affair is so *unepitruide*, as certainly presages the partiality of the sentence.—*Dr. H. More, Discourse of Christian Piety*, p. 64.

Unepitruide. *adj.* Incapable of being eradicated.

The bad seed thus sown was *unepitruide*.—*Sir R. L. Lorton, Paul Clapham*.

Unepitruide. *s.* Incapability of, exemption from, error; infallibility. *Rare.*

These hidden motives of the *unepitruide* of a man of sin.—*Bishop Hall, Discourse*, p. 102.

I cannot allow their wisdom such a completeness and *unepitruide* as to exclude myself from judgment.—*Rikon Basilike*.

Unepitruide. *adj.* Exempt from error. *Rare.*

We have conviction from reason, or decision from the *unepitruide* and requisite conditions of sense.—*Sir T. Brown*.

Unepitruide. *s.* Attribute suggested by *inerrable*; exemption from error. *Rare.*

Infallibility and *unepitruide* is assumed and enclosed by the British church, without any *unepitruide* ground to build it on.—*Hooker, On the Foundation*.

Unepitruide. *adv.* Without error; without mistake; without deviation. *Rare.*

That divers humors at a distance, without copy, should draw the same picture, is more conceivable than that matter should frame itself so *unepitruide* according to the idea of its kind.—*Glanville*.

Unepitruide. *adj.* [Lat. *inertis*.] Dull; sluggish; motionless.

Body alone, *unepitruide* and lente you'll find; The cause of all things is by you assigned.—*Sir R. Blackmore*.

Unepitruide. *s.* [Lat.]

1. Sluggishness; dullness.

2. In *Mechanics*. Resistance to be overcome before a body in a state of rest is put into motion.

We can push a light boat rapidly through the water; but we may go on increasing its weight, till we are hardly able to stir it. This property of matter, then, by which it resists the reception of motion, or rather by which it resists and requires an adequate force in order that any motion may result, is called its *unepitruide*, or *inertia*. That matter has such a property, is a conception flowing from that idea of a reaction equal and opposite to the action, which the conception of all force involves. By what laws this *unepitruide* depends on the magnitude, form, and material of the body, must be the subject of our consideration hereafter. But that matter has this *unepitruide*, in virtue of which, as the matter is greater, the velocity which the same effort can communicate to it is less, is a principle inseparable from the notion of matter itself. Hermann says that Kepler first introduced this most significant *unepitruide*. Whether it is to be found in earlier writers I know not; Kepler certainly does use it familiarly in those attempts to assign physical reasons for the motions of the planets which were among the main ornaments of the discovery of the true laws of mechanics. He assumes the slowness of the motions of the planets to increase, (other causes remaining the same,) as the *unepitruide* increases; and though, even in this assumption, there is an error involved, (if we adopt that interpretation of the term *unepitruide* in which a word was one step in determining and expressing these laws of motion which depend on the fundamental principle of the equality of action and reaction.—*Whewell, History of Scientific Ideas*.

Resistances, though they will not, will not fight. Possession always is one point in law; but in lawsuits of this kind, one may say, it is ninety-and-nine points. Men do what they were wont to do; and have immense possessions and *unepitruide*; they obey him who has the symbols that elicit obedience.—*Carlyle, History of the French Revolution*.

Unepitruide. *adv.* In an inert manner; sluggishly; dully.

Ye powers, whose mysteries restored I sing, To whom Time bears me on his rapid wing, Suspend a while your force *unepitruide* string.—*Pope, Dunciad*, iv. 5.

Unepitruide. *s.* Attribute suggested by *inert*; want of motion.

A state of silence and *unepitruide*.—*Glanville, On the Precedence of Souls*, p. 125.

125

Into a state of more stupor and inebriety.—*Thiel*, p. 127.

Inebriate. *v. a.* [Lat. *escere*=food.] Lay a bait for; allure. *Rare*.

Many such pranks are played by our Jesuits, sometimes in their own habits, sometimes in others, to inebriate and beguile young women.—*Barton, Autobiog. of Melancthon*, p. 166.

Inebriation. *s.* Act of baiting. *Rare*.
He who lies true fortitude and courage, in overcoming all the devilish allurements and inebriations of flesh and blood.—*Hallwell, Excellency of Moral Virtue*, p. 107; 1632.

Inestimable. *adj.* Incapable of being estimated; too valuable to be rated; transcending all price.

I should I saw a thousand fearful wrecks,
A thousand men that fishes know'd upon;
Wrecks of good, great anchors, hinges of pearl,
Inestimable stones, unvalued jewels,
And still this prize, the inestimable prize,
Exposed to the crystal of the gazing eyes,
And hatched by the diamond's circling rays,
On that rapacious hand for ever lay!

Pope, Rape of the Lock, canto iv.
Inestimably. *adv.* In an inestimable manner; so as not to be sufficiently rated.
Things inestimably excellent.—*Dr. H. More, Sh. p. of the Son*, iii. 3, 7.

the infantry or foot; and to make good infantry it
requireth men bred in some free and plentiful man-
ner. Bacon, *History of the Reign of Henry VII.*

Infantry, s. [from infant.] Children.

It must needs pity any Christian heart to see the
infantile infancy which swarms up and down the
alleys and lanes, with curses and rudeness in their
mouths, and other rude behaviour, as if they were
intended to put off their humanity and descend into
brutes.—*Neatham, Discourse concerning Scholastic*, (Ord MS.)

In the following there is probably an ap-
proach to a poor pun.

That small infantry
Warr'd on by cranes. Milton, *Paradise Lost*, i. 575.

He hath many other baits to inveigle and infatuate them farther yet. *Barton, Anatomy of Melancholy*, p. 157.

The judgment of God will be very visible in infatuating a people, an ripe and prepared for destruction, into folly and madness, making the weak to contribute to the designs of the wicked; and suffering even those, out of a consciousness of their guilt, to grow more wicked. *Lord Clarendon, History of the Great Rebellion.*

The people are so universally infatuated with the notion, that if a cow falls sick, it is ten to one but an old woman is clapt up in prison for it. *Aldison, Traits in Italy.*

Infatuate. *adj.* Stupefied.

May hypocrites,
That stily sport one thing, another think,
That full as well, please I with the relish weak,
Drink on unwear'd; till, by envenoming cups
Infatuate, they their wily thoughts imbue.
J. Phillips, Cyder, b. ii.

The carriage of our atheists or deists is amazing; no danger so infatuate, no phrenzy so extravagant, as theirs. *Hentley.*

Infatuation. *s.* Act of striking with folly; deprivation of reason.

Where men give themselves over to the defence of wicked interests and false propositions, it is just with God to smite the greatest abilities with the greatest infatuation. *South, Sermons.*

Infatigating. *s.* [Lat. *infatus* - unlucky; ill-omened.] Act of making unlucky. *Burhama.*

As the king did in some part remove the envy from himself, so he did not observe that he did without bring a kind of immoderation and infatigating upon the marriage, as an ill presage. *Bacon, History of the Reign of Henry VII.*

How safe and agreeable a conservatory the earth is to vegetables, is manifest from their rooting, drying, or being rendered infertile in the waters, or the air; but in the earth their vigour is long preserved. *Boerhaave, Physico-Theology.*

Infelicity. *s.* Unhappiness; misery; calamity.

Whatever is the ignorance and infelicity of the present state, we were made wise and happy. *Glauville.*

Here is our great infelicity, that, when single words signify complex ideas, one word can never distinctly manifest all the parts of a complex idea. *Watts.*

Infer. *v. a.* [Fr. *inferer*; Lat. *infero*.]

1. Bring on; induce.

Servus... died away, star'd
Of villainy to be to her infer'd.
Spenser, Faerie Queen, vi. 8, 32.

Vineta infer some small detriment to the lungs. *Hareng.*

2. In Logic. Deduce syllogistically, or as by a syllogism.

One would wonder how, from so differing premises, they should all infer the same conclusion. *Dr. H. More, Inquiry of Christian Philosophy.*

They have more opportunities than other men have of perceiving public esteem, by observing well of mankind and such opportunities always infer obligations. *Bishop Atterbury.*

To infer is nothing but, by virtue of any proposition laid down as true, to draw in another as true, i. e. to see or suppose such a connection of the two ideas of the inferred proposition. *Locke.*

3. Offer; produce. *Obsolete.*

Full well hath Clifford play'd the orator,
Infering arguments of mighty force.
Shakespeare, Henry VI., Part III. ii. 2.

Hence it is inferable that such an organism will be divisible into similar halves by a vertical plane passing through its axis of motion. *Herbert Spencer, Principles of Biology*, ch. xii.

Inference. *s.* Conclusion drawn from previous arguments.

Though it may chance to be right in the conclusion, it is yet unjust and mistaken in the method of inference. *Glauville.*

These inferences or conclusions are the effects of reasoning, and the three propositions, taken all together, are called syllogism or argument. *Watts.*

Induction being merely the extension to a class of cases of something which has been observed to be true in certain individual instances of the class; the first place among the operations subsidiary to induction is claimed by observation. . . . The sole condition is, that what is supposed to have been observed shall really have been observed; that it be an observation, not an inference. For in almost every act of our perceiving qualities, observation and inference are intimately blended. What we are said to observe is usually a compound result, of which one-tenth may be observation, and the remaining nine-tenths inference. I affirm, for example, that I hear a man's voice. This would pass, in common language, for a direct perception. All, however, which is really perception, is that I hear a sound. That the sound is a voice, and that voice the voice of a man, are not perceptions but inferences. I affirm, again, that I saw my brother at a certain hour this morning. If any proposition concerning a matter of fact would commonly be said to be known by the direct testimony of the senses, this surely would be so. The truth, however, is far otherwise. I only saw a certain coloured surface; or rather I had the kind of visual sensations which are usually

produced by a coloured surface; and from these marks, known to be such by previous experience, I concluded that I saw my brother. I might have had sensations precisely similar, when my brother was not there. I might have seen some other person so nearly resembling him in appearance, as, at the distance, and with the degree of attention which I bestowed, to be mistaken for him. I might have been asleep, and have dreamed that I saw him; or, in a state of nervous disorder, which brought his image before me in a waking hallucination. In all these modes, many have been led to believe that they saw persons well known to them, who were dead, or far distant. If any of these suppositions had been true, the affirmation that I saw my brother would have been erroneous. *J. S. Mill, System of Logic*, pt. iv. ch. i. § 1.

Inferential. *adj.* Having the nature of inference.

We know by observation (omitting the inferential proofs of an existence for thousands of ages anterior) that these phenomena have continued for five thousand years. *J. S. Mill, System of Logic*, pt. iii. ch. xiv. § 2.

Inferentially. *adv.* In an inferential manner.

Subjective and partially incidental affections, . . . and are often ascribed to them inferentially. *J. S. Mill, System of Logic.*

Inferible. *adj.* Capable of being inferred.

As simple mistakes commonly beset fallacies, so more from fallacious foundations, and unsound-headed axioms, erect conclusions no way inferible from their premises. *Sir T. Browne.*

Inferior. *adj.* [Lat. *inferior*.]

1. Lower.

a. Lower in station or rank of life: (correlative to *superior*).

Render me more equal, or perhaps
Superior, for inferior who is free?
Milton, Paradise Lost, iv. 824.

b. Lower in value or excellency.

The love of liberty with life is e'en,
And life itself the inferior gift of heav'n. *Dryden.*
I have misdeed some original papers of my own, which, whether they are equal or inferior to my other poems, an author is the most improper judge of. *Id.*

2. Subordinate.

General and fundamental truths in philosophy, religion, and human life, conduct our thoughts into a thousand inferior and particular propositions. *Watts.*

Inferior. *s.* One in a lower rank or station than another.

A great person gets more by obiding his inferior than by obdaining him. *South, Sermons.*

Inferiority. *s.* Lower state of dignity or value.

The language, though not of equal dignity, yet as near approaching to it as our modern barbarism will allow; and therefore we are to be contrasted with that only inferiority which is not possible to be remedied. *Dryden.*

Infernal. *adj.* Hellish; tartarean; detestable.

His gigantic limbs, with large embrace,
Infold nine acres of infernal space.
Dryden, Translation of the Eclogues, vi. 402.

The instruments or abettors in such infernal dealings. *Addison, Spectator*, no. 243.

Infernally. *adv.* In an infernal manner; in a detestable and infernal way.

All this I perceive is infernally false. *Bishop Hacket, Life of Archbishop Williams*, p. 211: 1032.

Inferrible. *adj.* Capable of being inferred.

That Solon could not be far from Segor, which was seated under the mountains near the side of the lake, seems inferrible from the sudden arrival of him, who, coming from Solon at day-break, attained to Segor at sun-rising. *Sir T. Browne, Marcellinus*, p. 168.

Infertile. *adj.* Unfruitful; not productive; wanting fecundity; infecund.

Ignorance being of itself, like stiff clay, an infertile soil, when pride comes in search and harden it, it grows perfectly impregnate. *Dr. H. More, Government of the Tongue.*

Infertility. *s.* Unfruitfulness; want of fertility.

The same distemperature of the air that occasioned the plague, occasioned the infertility or barrenness of the soil, whereby the fruits of the earth became either very small, or very unwholesome. *Sir M. Hale, Origin of Mankind.*

Infest. *v. a.* Harass; disturb; plague.

They ceased not, in the mean while, to strengthen that part which in heart they favoured, and to infect by all means, under colour of other quarrels,

their greatest adversaries in this cause.—*Hooker, Ecclesiastical Polity.*

Infect. *adj.* [Lat. *infectus*.] Mischievous; hurtful; dangerous. *Obsolete.*

He stay'd not 'till advice which way were best
His own essay, or how himself to mend,
But with fierce fury and with force infect,
Upon him ran. *Spenser, Faerie Queene*, vi. 4, 5.

Infection. *s.* Molestation; disturbance; annoyance.

Troubling the *infection* of pirates, he hath been careful.—*Baron, Speech in the Star-Chamber*, 1617.

These bodily venations and *infections*.—*Hall's*

Infectious. *adj.* Mischievous; hostile; dangerous. *Rare.*

The natural gravity and clownish malignity of the vulgar sort are, unto primæ, as *infectious* as serpents.—*Bacon.*

Infection. *s.* Act of putting one in possession of a fee or estate held by a feudal tenure; condition of feudality.

Another military provision was conventional and by tenure, upon the *infection* of the tenant, and was usually called knight's service. *Sir M. Hale, Common Law.*

I had composed a large collection of the *infections* of church-lauds.—*Johnston, Assurance of Abbeys*, p. 30.

Infidel. *s.* [Lat. *infidelis*; *fidelis* = faithful; *fides* = faith.] Unbeliever; pagan; one who rejects Christianity.

Exhorting her, if she did marry, yet not to join herself to any *infidel*, as in those times some widows christians had done, for the advancement of their estate in this world.—*Hooker, Ecclesiastical Polity.*

Infidel. *adj.* Unbelieving; characteristic of an unbeliever. *Obsolete.*

You have written what you dreamed in your sleep, rather than what you learned of any author catholic or *infidel*.—*Archbishop Cranmer, Answer to Bishop Gardiner*, p. 362.

Their old *infidel* invaders. *Bishop Hard, On Christianity and Rome.*

The parliament [may be] not *infidel*. They 'deprecate the infidelity of that parliament.' Bold words these, indeed! *Bishop Horne, Letters on Infidelity.*

Infidelity. *s.*

1. Want of faith.

The consideration of the divine omnipotence and infinite wisdom, and our own ignorance, are great instruments of shewing the miseries of *infidelity*. *Jeremy Taylor, Rule and Exercise of holy Living.*

2. Disbelief in Christianity.

One would fancy that infidels would be exempt from that sinistral fault, which seems to grow out of the impudent fervours of religion; but so it is, that *infidelity* is presented with as much fierceness and contention, as if the safety of mankind depended upon it. *Addison, Spectator.*

3. Treachery; deceit; breach of contract or trust.

The *infidelities* on the one part between the two sexes, and the envious on the other, the vanities and vexations attending even the most refined delights that make up this business of life, render it silly and unprofitable. *Spectator.*

Infiltrate. *v. n.* Pass into anything as through a filter.

(For example see under next entry.)

Infiltration. *s.* Act of passing through a filter; liquid which has been infiltrated.

The water *infiltrates* through the porous rock... the *infiltration* quickly petrifies. *Addison, Travels in Italy.*

Infinite. *adj.* [Lat. *infinitus*.] Unbounded; boundless; unlimited; immense; having no boundaries or limits to its nature.

Impossible it is, that God should withdraw his presence from any thing because the very substance of God is *infinite*.—*Hooker, Ecclesiastical Polity.*

Infinitely. *adv.*

1. In an infinite manner; without limits; without bounds; immensely.

Nothing may be *infinitely* desired, but that good which indeed is infinite.—*Hooker, Ecclesiastical Polity.*

2. In a great degree.

This is Antonio,
To whom I am so *infinitely* bound,
Shakespeare, *Merchant of Venice*, v. 1.

The king saw that contrariwise it would follow, that England, though much less in territory, yet should have *infinitely* more addressees of their native forces than those other nations have.—*Bacon, History of the Reign of Henry VII.*

Infinitely the greater part of mankind have professed to act under a full persuasion of this great article.—*Rogers.*

Infiniteness. *s.* Attribute suggested by Infinite; immensity; boundlessness; infinity.

The cunning of his flattery, the readiness of his tears, the *infiniteness* of his vows, were but among the weakest threads of his net. *Sir P. Sidney.*

Let us always bear about us such impressions of reverence, and fear of God, that we may humble ourselves before his *Infiniteness*, and express that infinite distance between his *infiniteness* and our weakness.—*Jeremy Taylor.*

Infinitesimal. *adj.* Infinitely divided.

The notion or idea of an *infinitesimal* quantity, as it is an object simply apprehended by the mind, hath been already considered. *Bishop Berkeley, Analyst*, § 12.

The distance between them may be either infinite or *infinitesimal*, according to the measure used. *Herbert Spencer, Principles of Psychology.*

Infinitive. *s. and adj.* In Grammar. Mood so called.

In grammar, the *infinitive* affirms, or intimates the intention of affirming, which is one use of the indicative; but then it does not do it absolutely. *Clark, Latin Grammar.*

The mode is the manner of representing the being, action, or passion. When it is simply declared, or a question is asked concerning it, it is called the indicative mood. . . . When it is barely expressed, without any limitation of person or number, it is called the *infinitive*.—*Bishop Lowth, A Short Introduction to English Grammar.*

Infinitude. *s.*

1. Infinity; immensity.

Confusion heard his voice, and wild uproar
Stood still, stood vast in *infinitude* confusion.
Milton, Paradise Lost, iii. 710.

Though the redundancy of *infinitude* be equally incompatible to continued or successive motion, or continued quantity, and depends upon the impossibility of the very nature of things successive or extensive with *infinitude*; yet that impossibility is more conspicuous in discrete quantity, that arithmetical parts actually distinguished. *Sir M. Hale.*

2. Boundless number.

We see all the good sense of the age cut out, and minced into almost an *infinitude* of distinctions. *Addison, Spectator.*

Infinity. *s.*

1. Immensity; boundlessness; unlimited quantities.

There cannot be more *infinity* than one; for one of them would limit the other.—*Sir W. Raleigh, History of the World.*

The better, the more desirable; that therefore must be desirable, wherein there is *infinity* of goodness; so that if any thing desirable may be infinite, that must needs be the best of all things that are desired: an good is infinite but only God, therefore he is one felicity and bliss.—*Hooker, Ecclesiastical Polity.*

2. Endless number.

Homer has concealed faults under an *infinity* of admirable beauties.—*Brown, Notes on the Iliad*, p. 17.

The liver, being swelled, compresseth the stomach, stops the circulation of the juices, and produceth an *infinity* of bad symptoms. *Ambroise, On the Nature and Choice of Aliments.*

Infirm. *adj.* [Lat. *infirmus*.]

1. Weak; feeble; disabled of body.

Here stand I your slave:
A poor, *infirm*, weak, and dropsical old man.
Shakespeare, King Lear, iii. 2.

2. Weak of mind; irresolute.

I am afraid to think what I have done:
Look on't again, I dare not. *Infirm* of purpose;
Give me the dagger. *Shakespeare, Macbeth*, ii. 2.
That on my head all might be visited,
Thy frailty and *infirm* sex forgive me;
To me committed, and by me exposed.
Milton, Paradise Lost, x. 953.

3. Not stable; not solid.

He who fixes upon false principles trends upon *infirm* ground, and so sinks; and he who falls in his deductions from right principles, stumbles upon firm ground and falls.—*South, Sermons.*

Infirm. *v. a.* Weaken; shake; enfeeble. *Obsolete.*

Some contrary spirits will object this as a sufficient reason to *infirm* all those points.—*Sir W. Raleigh, Essays.*

The spleen is unjustly introduced to invigorate the sinister side, which, being diluted, would rather *infirm* and debilitate it.—*Sir T. Browne, Vulgar Errors.*

Infirmity. *s.* Lodgings for the sick.

These buildings to be for priory lodgings on both sides, and the end for priory cellars, whereof one should be for an *infirm*, if any special person should be sick.—*Bacon.*

Infirmity. *s.*

1. Weakness of sex, age, or temper.

Which waits upon worn thine, hath something seiz'd
His wish'd ability. *Shakespeare, Winter's Tale*, v. 1.

2. Failing; weakness; fault.

Many *infirmities* made it appear more requisite, that a wise man should study the operation of his interest.—*Lord Clarendon, History of the Grand Rebellion.*

How difficult it is to preserve a great name, when he that has acquired it is so obnoxious to such little weaknesses and *infirmities* as are so small diminutions to it. *Addison.*

3. Disease; malady.

General laws are like general rules of physick, according whereunto, as now, no wise man will desire himself to be cured, if there be joined with his disease some special accident, in regard that thereby others in the same *infirmity*, but without the like accident, may. *Hooker, Ecclesiastical Polity.*

Infirmness. *s.* Attribute suggested by Infirmitas; weakness; feebleness; infirmity.

Some experiments may discover the *infirmness* not insufficiency of the perpetuist doctrine.—*Boyle.*

Infix. *v. a.* Drive in; set; fasten.

And at the point two staves *infix'd* are,
Both deadly sharp, that sharpest steel exceeded far.
Spenser.

I never lov'd myself,
Till now, *infix'd*, I lov'd myself,
Drawn in the flatterious table of her eye.
Shakespeare, King John, ii. 2.

Immovable, *infix'd*, and broken round.
Milton, Paradise Lost, ii. 602.

The fatal dart a ready javelin found,
And deep within her heart *infix'd* the wound.
Dryden.

Inflame. *v. a.* [Lat. *inflammo*; *flamma* = flame.]

1. Kindle; set on fire; make to burn.

Love more clear, dedicated to a bare more cold,
With the clearness lays a night of sorrow upon me,
And with the redness *inflames* a world of fire within me. *Sir P. Sidney.*

His waves of torrent fire *infix'd* with rage.
Milton, Paradise Lost, ii. 281.

2. Kindle any passion; provoke; irritate.

Many [souls] put out their force *informative*,
In their ethereal corporeity.

Dr. H. More, Song of the Soul, l. 2, 21.

Informed. *adj.* [the *in-* negative.] Not formed; imperfectly formed.

After Nihil's inundation,
Infinite shapes of creatures men do find
Informed in the mud and with the same bath
Mould'd.

Conceptions, whether animate or inanimate,
formed or *informed*.—*Bishop Hall, Cases of Conscience*, ii. 3.

Informers. *s.* One who, that which, informs.

a. By animating anything.

Informers of the planetary train,
Without whose quickening glance their cumbrous
orbs
Were rude unlovely masses, inert and dead!

Thomson, Seasons, Summer.

b. By instruction.

This writer is either biased, by an inclination to believe the worst, or a want of judgment to choose his *informers*.—*Swift*.

c. By delation.

There were spies and *informers* set at work to watch the company. *Sir R. L. Estlin*.
Let no court government persecute for cause,
Nor sly *informers* watch these words to draw
Within the reach of treason.

Pope, Satire of Don Quixote, sat. ii.

Informidable. *adj.* Not to be feared; not to be dreaded. *Rare*.

Of strength, of courage haughty, and of limb
Heroick built, though of terrestrial mould;
Koe not *informidable*, exempt from wound.

Milton, Paradise Lost, ix. 481.

Informity. *s.* Shapelessness? *Rare*.

From this narrow line of position may ensue a smallness in the exclusion; but this *informity* no *informity*. *Sir T. Browne, Utriusque Errorum*.

Informous. *adj.* Shapeless; of no regular figure. *Rare*.

That a bear brings forth her young *informous* and unshapen, which she fashioneth after by licking them over, is an opinion delivered by ancient writers. *Sir T. Browne, Utriusque Errorum*.

Infornate. *adj.* Unhappy; unfortunate; (the latter the commoner word).

Perkin, destitute of all hopes, having found all either false, faint, or *infornate*, did gladly accept of the condition.—*Bacon, History of the Reign of Henry VII.*

A most *infornate* chance for him she came safe to port, she had been the richest ship that ever came into the Thames. *Hamilton, Letters*, i. 4, 42.

Infornately. *adv.* In an unfortunate manner; unhappily; un luckily. *Rare*.

Destructive rocks, upon which most of the un-
washed youth . . . do *infornately* split.—*Memoria of Sir Edmundbury Godfrey*, p. 7: 16-2.

Infornate. *s.* Misfortune. *Obsolete*.

He concluded to go to Rome, and declare his *infornate* to his said friend.—*Sir T. Elyot, The Governour*, fol. 131. b.

VOL. I.

Infraet. *adj.* [Lat. *fractus*, pass. part. from *frango*—break; *fractio*,—*onus*.] Unbroken. *Rare*.

Oh how strait and *infraet* is this line of life! you will live to the years of Melchisedek.—*Guicciardi, Sappho*, (Orel MS.).

Infraction. *s.* Act of breking; breach; violation (of treaty).

By the same gods, the justice of whose wrath Punish'd the *infraction* of my former faith.

Wallr.

The wolves, pretending an *infraction* in the abuse of their hostages, fell upon the sheep without their does. *Sir R. L. Estlin*.

Infraetor. *s.* Breaker; violator. *Rare*.

Who shall be depository of the oaths and leagues of princes, or intimate against the perjured *infraction* of them?—*Lord Herbert of Cherbourg, History of Henry VIII.*, p. 368.

Infrafragile. *adj.* Not to be broken.

The primitive atoms are supposed *infrafragile*, extremely compacted and hard, which compactness and hardness is a demonstration that nothing could be produced by them, since they could never cohere.—*Boyle*.

Infraopos. *r. a.* [Lat. *positus*—placed; pass. part. of *pono*—place.] Place beneath.

I had further an opportunity of seeing, in company with the late Professor E. Forbes, his own discovery of an instance of terrestrial surface *infraopos* to the drift travels at the east end of the Isle of Wight. *Jordan, in Proceedings of the Geological Society*, vol. 12.

Infrequency. *s.* Rarity; uncommonness.

Is it a little and *infrequency* of visitation?—*Bishop Hall, Utriusque Errorum*, § 4.

Infrequency. *s.* Uncommonness; rarity.

Either through desecration, or *infrequency*, or mere familiarity of devotion, he has suffered his mind to grow alienated from God.—*Tongue, Sermons*, p. 18: 1678.

Infrequent. *adj.* Rare; uncommon. *Rare*.

The acts wherof is at this day *infrequent* or out of use among all sorts of men.—*Sir T. Elyot, The Governour*, fol. 124. b.

Infrigidate. *r. a.* [Lat. *frigidus*=cold.]

Chill; make cold.

The drops reached little further than the surface of the liquor, whose coldness did not *infrigidate* those upper parts of the glass.—*Boyle*.

Infrigidation. *s.* Act of rendering cold.

Madame de Bourignon . . . used to boast, that she had not only the spirit of conformity in herself, but that she had also the power of recommending it to all who beheld her. This the swiftness of these days called the gift of *infrigidation*, and took occasion from it to rally her face, rather than admire her virtue.—*Father, l. c.*, 124.

Infringe. *r. a.* [Lat. *infringo*; from *frango* break.]

1. Violate; break laws or contracts.

Those many had not dur'd to do that evil,
If the first man that did it had *infring'd*,
Had answer'd for his deed.

Shakespeare, Measure for Measure, ii. 2.

Having *infring'd* the law, I waive my right
As king, and thus submit myself to fight.

Waller.

2. Destroy; hinder.

Honour, to the plain and popular instructions, do not *infringe* the efficacy, although but read. *Hooker, Ecclesiastical Polity*.

Infringement. *s.* Breach; violation.

The justification of this *infringement* is proper to that jurisdiction against which the contempt is. *Lord Chesham, History of the Grand Rebellion*.

Infringer. *s.* Breaker; violator.

A clergyman's hand ought to be without any lace, under a severe penalty to be inflicted on the *infringer* of the provincial constitution.—*Agiloff, Parisian Journal*, 1790.

Infrugal. *adj.* Not frugal; extravagant; careless.

What should betray them to such *infrugality*—
perversity of them, I can give no account without making severe reflections on their discretion.—*Gibbon, Winter Evening Conference*, p. 21: 1720.

Infundibular. *adj.* [Lat. *infundibulum*—funnel.] Having the character, or form, of a funnel: (common in *Botany*, as applied to the shape of flowers).

Infuriate. *adj.* Enraged; raging.

At the other bore, with tumult of the
Dilated and *infuriate*.

Milton, Paradise Lost, xl. 483.

7 X

Infuriate. *r. a.* Render furious or insane; fill with rage or fury.

Like those curls of entangled snakes, with which Eurymachia is said to have *infuriated* Athens and Icarus.—*Dr. H. More, Theory of Christian Piety*, p. 32.

Infuriated. *part. adj.* Rendered furious or mad.

They tore the reputation of the clergy to pieces by their *infuriated* declamations and invectives. *Becke, Thoughts on a Republic*, Peace.

Infuse. *r. a.* [Lat. *fundo*—pour; pass. part. *fusus*; *infusus*,—*unus*.]

1. Pour in; instil.

Thou almost mak'st me waver in my faith,
To hold opinion with Pythecorax,
That souls of animals *infuse* themselves
Into the trunks of men.

Shakespeare, Merchant of Venice, iv. 1.
Why should he desire to have qualities *infused* into his son which himself never possessed?—*Swift*.

2. Pour into the mind; inspire.

For when God's hand had written in the hearts
Of our first parents all the rules of good,
So that their skill *infused* themselves all health,
That ever were before or since the flood.

Spenser, Faerie Queene, i. 1.
Meat must be with meagre brought,
She therefore, upon second thought,
Infused, yet as it were by stealth,
Some small regard for state and wealth.

Swift, Colonus and Tamara.
Swift.

3. Steep in any liquor with a gentle heat; macerate so as to extract the virtues of anything without boiling: (opposed to *decoction*).

Take violets, and *infuse* a good part of them in a quart of vinegar.—*Bacon, Natural and Experimental History*.

4. Make an infusion with any ingredient; supply, tincture, or saturate with anything infused.

Drink, *infused* with flesh, will nourish faster
And easier than meat and drink together.—*Bacon, Natural and Experimental History*.

5. Fill; inspire.

Thou didst smile,
Infused with a fortitude from heav'n.

Shakespeare, Tempest, i. 2.

Infuse his breast with magnanimity,
And make him, naked, foil a man at arms.

Id., Henry VI. Part III., v. 4.

Infuse. *s.* Infusion. *Obsolete*.

Vandebate to shed into my barren sight
Some little drop of thy celestial dew,
That may my rhimes with sweet *infuse* endow.

Spenser, Hyman.

The sole *infuser* of grace.—*White, Sermon*, p. 31: 1675.

Infusible. *adj.* [in—into.] Possible to be infused.

From whom the doctrines being *infusible* into all, it will be more necessary to forewarn all of the danger of them. *Hammond*.

Infusible. *adj.* [in—not.] Incapable of being fused or melted.

Vitrification is the last work of fire, and a fusion of the salt and earth, wherein the fusible salt draws the earth and *infusible* part into one continuum. *Sir T. Browne, Utriusque Errorum*.

Infusion. *s.*

1. Act of pouring in; instillation.

Our language has received immaterial elements and improvements from that *infusion* of Hebrewisms, which are derived to it out of the poetical passages in holy writ. *Aldrich*.

2. Act of pouring into the mind; inspiration.

We participate Christ partly by imitation, as when those things which he did and suffered for us are imputed to us for righteousness; partly by baptism and real *infusion*, as when grace is inwardly bestowed on earth, and afterwards more fully both our souls and bodies in glory. *Hooker, Ecclesiastical Polity*.

3. Suggestion; whisper.

They found it would be matter of great debate, and spend much time; during which they did not observe their company, nor to be troubled with their *infusions*.—*Lord Chesham, History of the Grand Rebellion*.

Here his folly and his wishing age of his own growth, not the echo or *infusion* of other men. *Swift*.

4. Act of steeping anything in moisture without boiling.

Repeat the *infusion* of thy body oftener.—*Bacon*.

61257

5. Liqueur made by infusion.

To have the infusion strong in those bodies which have fluid spirits, repeat the infusion of the body often.

Infusive. adj. Having the power of infusion, or of being infused.

Still let my song a nobler note assume,
And sing the infusive force of Spring on man;
When heaven and earth, as if contending, vie
To raise his being, and serene his soul.

Thomas, *Seasons, Spring*.

Infusoria. s. pl. Animalcules (generally microscopic) found in water wherein vegetable matters have been steeped or infused, and, by the earlier naturalists, supposed to have been engendered thereby.

A purplish blue variety owes its colour to a trace of iodine; a red variety to oxyd of iron, and another to iron.

So will fall
He and his childless property: whose fault?
Whose but his own? *Ingrate*; he had of me
All he could have: I made him just and right,
Sufficient to have stood, though free to fall.

Milton, Paradise Lost, iii. 35.

Ingrateful, *adj.* Wanting gratitude: (Ungrateful the commoner and better word).

1. Unthankful.

Is this the love, is this the recompence
Of mine to thee, *ingrateful* Eve?

Milton, Paradise Lost, ix. 1163.

Ingrateful and treacherous guests to their best
friends and entertainers.—*Id.* *Observations on the*

Articles of Peace between the Earl of Ormond and the Irish.

He proved extremely false and *ingrateful* to me.—*Bishop Atterbury*, vol. iv. let. 64.

He found that city which he had saved so *ingrately*.—*Halewell, Apology*, p. 415.

2. Unpleasing.

He was never suspected . . . in the least degree to
dissemble his own opinions or thoughts, how *ingrately*
soever it often proved.—*Lord Clarendon*,
Life, i. 68.

Ingratefully, *adv.* Ungratefully; without
gratitude. *Rare*.

Sir Robert Curlew, her near kinsman, and whose
family and himself she (Queen Elizabeth) had raised
from the degree of a mean gentleman to high honour
in title and place, most *ingrately* forgot her
last benefit, to carry it to the rising sun then in
Scotland.—*Sir A. Weldon, Court of King James*,
p. 2.

Ingrately, *adv.* Ungratefully. *Rare*.

Nor may we saviour or forget, *ingrately*,
The heaven of silver that was sent but lately
From Ferdinandus, &c.

Sylvestor, Du Barlas, p. 135: 1621.

Ingratitude, *v. a.* [Lat. *gratia* grace, fa-
vour.]

1. Put in favour; recommend to kindness.

They will be fit helms for such ingratitude; . . . to
honour them, and *ingratitude* themselves.—*Bishop*

Richardson, Choice Observations upon the Old

Testament, p. 265: 1655.

Their manners make them see enemies in the air,
and give them their word, the more to *ingratitude*
themselves with them, that they stand nothing less
than future slaughter and desolation.—*Adrian*.

2. Recommend; render easy.

What difficulty would it not *ingratitude* to us?—*Hammond, Works*, iv. 561.

When once we come to feel the good effects of
these duties in our natures, how fast our lists do
decline, our dispositions mend, and all our graces
improve in the use of them, the sense of time will
naturally colour and *ingratitude* them to us.—*Scott*,
Christian Life, i. 4.

Ingratulating, *verb. abs.* Recommendation;
act of putting in favour.

Those have been far from receiving the rewards of
such *ingrattulations* with the people.—*Eikon Basilike*.

Which had been a very great inducement and *ingrattulating*
to women of greatest quality.—*Jeremy*

Taylor, Artificial Happiness, p. 174.

Ingratitude, *s.* Retribution of evil for good;
unthankfulness.

Ingratitude! thou marble-hearted fiend,
More hideous, when thou show'st thee in a child,
Than the sea-monster. *Shakespeare, King Lear*, i. 1.

Ingratitude is adhered both by God and man,
and vengeance attends those that repay evil for
good. *Sir R. L'Estrange*.

In the plural. *Rare*.

Time hath, my lord, a wallet at his back,
Wherein he puts alms for oblivion,
A great-sin'd monster of *ingratitude*.

Shakespeare, Twelfth and Cressida, iii. 3.

Ingrave, *v. a.* [from *grave*—tomb.] Bury;
inter.

Thy corpse, as in the custom old,
With thy forefathers doth not lie *ingrav'd*.

Gunpowder, Epigram, sign. C. 5: 1673.

Ingratitude, *v. a.* Impreguate; make pro-
liferous.

They may be so pregnant and *ingratitude* with
hateful thoughts, that they may as it were die
in travel, because they cannot be delivered.—*Father*,
Holy State, p. 25.

Ingroat. See Engroat.

Ingrédient, *s.* [Lat. *ingredior*, pres. part.
ingrediens, -entis, pret. part. *ingressus*; *in-*

gressio, -onis, from *in* + *gradior*—step in,
enter, form a part of anything.] Component
part of a body that consists of
different materials.

The ointment is made of divers *ingrédients*, where-
of the hardest to come by is the moss upon the skull

of a dead man unburied.—*Bacon, Natural and Ex-*

perimental History.

I have often wondered, that learning is not thought
a proper *ingrédient* in the education of a woman of
quality or fortune. *Addison, Guardian*.

Water is the chief *ingrédient* in all the animal
fluids and solids. *Arbuthnot, On the Nature and*

Choice of Aliments.

Spleen is a last *ingrédient* into any other dis-
temper. *Sir W. Temple*.

Ingrédient, *adj.* Entering into.

But with us, and so in every nation, many consi-
derations ought to be *ingrédient* into the constitu-
tion of a capital law.—*Jeremy Taylor, Doctor in*

theology, (Oral MS.)

God himself is the only infallible judge in a case
of this nature, of all the circumstances *ingrédient* to
the definition of good or evil.—*Grove, Cosmology*

Sacra, p. 180. (Oral MS.)

Ingress, *s.* [see *Ingrédient*] Entrance;
power of entrance; intramission.

All intrusions come from the ambient body;
either by *ingress* of the substance of the ambient
body into the body intruded; or else by excitation
of the body intruded by the body ambient.—*Bacon*,
Natural and Experimental History.

These air bladders, by a sudden subsidence, meet
again by the *ingress* and egress of the air.—*Arbuth-*

not, On the Nature and Choice of Aliments.

Ingression, *s.* Act of entering; entrance.

The fire would strain the pores of the glass too
suddenly, and break it all in pieces to get *ingression*.
—*Sir K. Digby, Treatise on the Nature of India*.

Inguinal, *adj.* [Lat. *inguen*—groin.] Belong-
ing to the groin.

The plague seems to be a particular disease, cha-
racterised with eruptions in inguines, by the inflam-
mation and suppuration of the axillary, *inguinal*,
and other glands.—*Arbuthnot*.

Inguis. See Engulf.

Inguisitate, *v. a.* [Lat. *gurgies*, -itis :
whirlpool, swallow, throat.]

1. Swallow down.

Inguisitating sometimes whole half glasses.—*Char-*

leshaunt, Poems, p. 112.

2. Plunge into; engulf.

If a man do but once set his appetite upon it,
[pleasure,] let him *inguisitate* himself never so deep
into it, yet shall he never be able to fill his desire
with it. *Eucher, Almonaster*, p. 200: 1622.

Inguisitate, *v. n.* Drink largely; swill.

Nothing pestered the body and mind sooner, than
to be still full, to eat and *inguisitate* beyond all
measure, as many do.—*Barton, Anatomy of Melan-*

choly, p. 255.

Inguisitation, *s.* Act of intemperate swal-
lowing.

Inconveniences always do happen by *inguisitati-*

ons and excessive feedings. *Sir T. Elgot, The*

Gouty Curer, fol. 31.

Too much abstemiousness turns vice, and too much *in-*

guisitation is one of the seven, and at once destroys
both nature and grace.—*Bishop Hall, Of Contem-*

ptance, § 14.

So it is written of Epicurus, that after his disease
was judged desperate, he drew up his stomach and
waxes with a large draught and *inguisitation* of
wine; whereupon the epidemic was made. *His-*

torius, de rebus illustribus, he was not sober enough
to taste any of the Stygian water.—*Bacon, Of the*

Advancement of Learning, vol. i. p. 124. (Oral MS.)

Inguisstable, *adj.* [Lat. *gusto*—taste.] Not
perceptible by the taste.

As for their taste, if the camel's nostril be
air, neither can the tongue be an instrument there-
of; for the body of the camel is so *inguisstable*, void of
all sapidity, and without any action of the tongue,
is, by the rough setery, or wizen, conducted into
the lungs. *Sir T. Browne, Vulgar Errors*.

Inhabit, *v. a.* Unkillfulness.

Whatever evil kind ignorance, . . . *inhabit*, un-
wieldiness, and confusion of thoughts beget, wisdom
prevents. *Erasmus, Seneca*.

Inhabit, *v. n.* Dwell in; hold as a dweller.

They shall build houses and *inhabit* them. *Isaiah*,
lxv. 21.

Our repentance is not real, because we have not
done what we can to undo our faults, or at least
to hinder the injurious consequences of it from
proceeding. — *Archbishop Tillotson*.

4. Detractory; contumelious; reproachful;
wrongful.
A prison, indeed injurious, because a prison, but
else well justifying affection, because in all respects
as commensurate as a prison can be. — *Sir P. Sidney*.
It is natural for a man, by directing his prayers
to an image, to suppose the being he prays to repre-
sented by that image; which how injurious, how
contumelious must it be to the glorious nature of
God? — *South, Sermon*.

If injurious appellations were of any advantage
to a cause, what appellations would those deserve
who endeavor to sow the seeds of sedition? — *Swift*.

Injuriously. *adv.* In an injurious manner;

Keep back those innumeros consequences, and corrupt imaginations violently succeeding each other.—*Spiritual Conflict*, pt. ii. p. 38: 1631.

Innutrition. s. [The n double in sound as well as spelling.] Want of nutrition.

From the manyfold differentiations caused by unlikenesses of nutrition which the whole plant feeds, we pass now to those which are thus caused in some of its parts and not in others. Among such are the contrast between flowering axes, and the axes that bear leaves only. It has already been shown that the belief expressed by Wolff in a direct connexion between fructification and innutrition, is justified inductively by many facts of many kinds. Deductively too, we saw reason to conclude that such a relation would be established by survival of the fittest, seeing that it would profit a species for its members to begin sending off migrating germs from the ends of those axes which innutrition prevented from further vegetative multiplication. Once more, when considering the nature of the phenogamic axis, we found support for this belief in the fact that the components of a flower exhibit a reversion to that type from which the phenogamic type has probably arisen—a reversion which the laws of embryology would lead us to look for where innutrition had arrested development. Hence, then, we may properly count those deviations of structure which constitute inflorescence, as among the morphological differentiations produced by local innutrition.—*Robert Spencer, Principles of Biology*, ch. xii. § 291.

Inobedience. s. Disobedience.

Let obedience to this call of Christ.—*Bishop Hall, Sermons*, p. 8: 1624.

Inobservance. s. Want of observance; disobedience; heedlessness; negligence; disregard.

The breach and inobservance of certain wholesome and politic laws. —*Bacon*.

A dull and stupid inobservance of such examples of divine justice . . . stands often arraigned in Scripture as a very great sin. —*J. Spencer, Discourse concerning Prudential*, p. 326.

Sluggishness, and inobservance of God's seasons and opportunities. —*Hammond, Works*, iv. 524.

Inidiotly and commonly proceed from negligence, or drowsy inobservance and carelessness. —*Barlow, Exposition on the Creed*.

Inobservation. s. Want of observation.

These writers are in all this guilty of the most shameful inobservation. —*Shuckford, On the Creation*, p. 118.

Inoculate. v. n. [Lat. *oculus*—eye.] Propagate any plant, by inserting its bud into another stock; practise inoculation; In-eye (for which it is the Latin equivalent).

Nor are the ways alike in all
How to engraft, how to inoculate.

—*May, Translation of the Georgics*.
Now is the season for the budding of the vine-trees; inoculate before the commencement of this month. —*Evelyn*.

But various are the ways to change the state,
To plant, to bud, to graft, to inoculate.

—*Dryden, Translation of the Georgics*, ii. 102.

Inoculate. v. a.

1. Yield a bud to another stock.

Virtue cannot so inoculate our old stock, but we shall relish of it. —*Shakespeare, Hamlet*, iii. 1.

Oh, for that Ptolemaic vine, late inoculated with a precious bud of our regal stem! —*Bishop Hall, Works*, ii. 288.

The end of love is to have two made and
In will, and in affection, that the minds
Be first inoculated, not the bodies.

—*H. Jonson, New Inn*.
Thy stock is too much out of date,
For tender plants to inoculate. —*Clayton*.

2. Infect with the small pox by inoculation.

The child once burnt dreads the fire; he runs away from the surgeon by whom he was inoculated. —*Reid*.

Inoculation. s.

1. In Horticulture. Act of inserting the eye of a bud into another stock; Ineying.

• Inoculation is practised upon all sorts of stone-fruit, and upon oranges and jasmines. Choose a smooth part of the stock; then with your knife make a horizontal cut across the rim of the stock, and from the middle of that cut make a slit downwards, about two inches in length in the form of a T; but be careful not to cut too deep, lest you wound the stock; then having cut off the leaf from the bud, leaving the foot-stalk remaining, make a cross cut about half an inch below the eye, and with your knife slit off the bud, with part of the wood to it. This done, with your knife pull off that part of the wood which was taken with the bud, observing whether the eye of the bud be left to it or not; for

all these buds which lose their eyes in stripping, are good for nothing; then raising the bark of the stock, thrust the bud therein, placing it smooth between the rim and the wood of the stock; and so having exactly fitted the bud to the stock, tie them closely round, taking care not to bind round the eye of the bud. —*Miller*.

In the stem of Osimum they all met and came to be inoculated all upon one stock, most of them by inoculation. —*Hoevel*.

2. In Medicine. Creation of a disease by the intentional introduction into the system of some morbid poison; especially for the purposes of prophylaxis, as in the inoculation for the small pox.

It is evident, by inoculation, that the smallest quantity of the matter, mixed with the blood, produces the disease. —*Arbuthnot*.

Inoculator. s. One who inoculates.

a. In Horticulture.

b. In Medicine.

And John a Goodson been now living, he would have been at the head of the inoculators. —*Friend, History of Physics*.

Inodiate. v. a. [Lat. *odium*—hatred.] Make hateful. *Rare*.

He indicts them [enemies] . . . partly to give the world fresh demonstrations of his hatred of sin, and partly to inodiate and inodiate sin to the chastised sinner. —*South, Sermons*, vi. 224.

Inodiate. part. adj. Having a tendency to render hateful. *Rare*.

The ancient members of her communion, who have all along owned and avowed for a strict conformity to her rules and sanctions, as the surest course to establish her, have been of late represented, or rather reprobated, under the inodiating character of high churchmen. —*South, Indication to Archbishop Marsh*.

Inodorate. adj. Having no scent.

Whites are more in odorate than flowers of the same kind coloured. —*Bacon, Natural and Experimental History*.

Inodorous. adj. Wanting scent; not affecting the nose.

The white of an eye is a viscous, inactive, insipid, inodorous humor. —*Arbuthnot, On the Nature and Choice of Humors*.

A great number of bodies are inodorous; and of the rest, the majority cannot be perceived to have any smell, unless held quite close to the nostrils. Things that are almost scentless at low temperatures will become strongly scented at high ones; and things that have strong scents become for a time relatively scentless if continually smelt at. —*Robert Spencer, Principles of Psychology*.

Inoffensive. adj.

1. Giving no scandal; giving no provocation.

A stranger, inoffensive, unprovoking. —*Fleetwood*.
However inoffensive we may be in other parts of our conduct, if we are found wanting in this trial of our love, we shall be deserved by God as traitors. —*Keble*.

2. Giving no uneasiness; causing no terror.

Should infants have taken offence at any thing, mixing pleasant and agreeable appearances with it must be used, till it be grown inoffensive to them. —*Locke*.

3. Harmless; hurtless; innocent.

The deists, and other cautious or enthusiasts, being in the crowd, express their zeal by turning round so long together, and with such softness, as will hardly be credited, which by reason is made inoffensive. —*Sir T. Herbert, History of some Learned Travels into Africa and the Great Asia*, p. 324.

For drink the emper
She crushes, inoffensive mist.

—*Milton, Paradise Lost*, v. 314.
With whatever gall thou wilt set thyself to write,
Thy inoffensive satires never fail.

—*Dryden, MacFlecknoe*, 192.

4. Unembarrassed; without stop or obstruction. Latinism.

From hence a passage broad,
Smooth, easy, inoffensive, down to hell.

—*Milton, Paradise Lost*, x. 304.
No have I seen a river gently glide,
In a smooth course, and inoffensive tide;
But if with dams its current we restrain,
It hews down all, and tears along the plain.

—*Addison, Translation from Ovid*.

Inoffensively. adv. In an inoffensive manner; without appearance of harm; without harm.

Though were she [Poetry] a more unworthy mistress, I think she might be inoffensively served with the broken measures of our twelve o'clock hours, which honestly service also only claimed and found of me

for that short while of my attendance.—*Bishop Hall, Postscript to his Satires.*

This vulgar tar... appears to be an excellent balsam, containing the virtues of most other balsams, which it easily imparts to water, and by that means readily and *inoffensively* communicates them into the habit of the body.—*Bishop Berkeley, Works*, § 10.

Inoffensiveness. *s.* Attribute suggested by Inoffensive; harmlessness; freedom from appearance of harm.

What is the ground of this pretended *inoffensiveness*?—*Bishop Hall, Remains*, p. 130.

Inofficious. *adj.* Not civil; not attentive to the accommodation of others.

They became very stupid by the excess, which were not so in their nature: that *inordinacy* sets them in opposition to God's designation.—*Dr. H. More, Government of the Tongue*.

Inordinate. *adj.* Irregular; disorderly; deviating from right.

These people were wisely brought to allegiance; but being straight left unto their own *inordinate* life, they forgot what before they were taught.—*Spenser, View of the State of Ireland*.

Thence arise
At least distempered, discontented thoughts;
Vain hopes, vain aims, *inordinate* desires,
Blown up with high conceits, insupporting pride.

Milton, Paradise Lost, iv, 304.
From *inordinate* love and vain fear comes all unquietness of spirit.—*Jeremy Taylor, Guide to Devotion*.

Inordinately. *adv.* Irregularly; not rightly.
As soon as a man desires any thing *inordinately*, he is presently disquieted in himself.—*Jeremy Taylor*.

Inordinateness. *s.* Attribute suggested by Inordinate; want of regularity (especially on the side of excess); intemperance of any kind.

Out of civility and *inordinateness* a man prostitutes himself to these unworthy conditions and actions of sinful pleasure; that misbecomes a man, a Christian.—*Bishop Hall, Fall of Pride*.

Those good things which we abuse to sin by the *inordinateness* of our minds.—*Jeremy Taylor, Artificial Happiness*, p. 34.

Inordination. *s.* Want of subordination and regularity; deviation from right. *Obsolete*.
This is *inordination* of soul.—*Jeremy Taylor, Sermons*, p. 125.

Schoolmen and casuists, having too much philosophy to clear a lie from that intrinsic *inordin-*

tion and deviation from right reason, inherent in the nature of it, hold that a lie was absolutely and universally sinful.—*South, Sermons*.

Inorganic. *adj.* Void of organs or parts concerned in vital functions; destitute of, not characterised by, organization. Chiefly applied to the Animal and Vegetable Kingdom, as opposed to the Mineral. *Organic* in Chemistry denotes the doctrine of those combinations which are produced by animals and vegetables, as opposed to minerals and the results of the chemist's laboratory. These constitute the *Inorganic* division of the science.

(For example see Mineral.)

Inorganical. *adj.* Destitute of organization.

Whether it be *organical* or *inorganical*.—*Barlow, Anatomy of Melancholy*, p. 26.

Many of these mushroom sets are like these *inorganical* creatures bred upon the banks of Nilus, which perished quickly, after they were bred, for want of fit organs.—*Archbishop Gresham, Schism Guarded*, p. 354.

We come to the lowest and the most *inorganical* parts of matter.—*Locke*.

Inosculation. *v. n.* [*Lat. osculation*; pref. part. of *oscular*; *oscular* - kiss; *os* - month.] Unite by mouths, or ducts, i. e. as by a kiss; (it generally applies to a complex system of intercommunications, the complexity being denoted by *in* - in and in; the construction is reflective or reciprocal, rather than truly neuter.)

This fifth conjugation of nerves is branched by *inosculation* with nerves.—*Barlow, Physico-Theology*.

Inosculation. *v. a.* Insert by *inosculation*.

It is an opinion, received by many, that the sap circulates in plants as the blood in animals; that it ascends through capillary arteries in the trunk, into which are *inosculation* other vessels of the bark answering to veins.—*Bishop Berkeley, Siris*, § 34.

Inosculation. *s.* Union by mouths, or ducts, or intercommunications.

The almost infinite ramifications and *inosculation* of all the several sorts of vessels may easily be detected by glasses.—*Id.*

Inquest. *s.* [N. Fr. *enquête*.—see *Inquire*.]

1. Judicial inquiry or examination.

What confusion of fact shall we be under, when that grand *inquest* begins; when an account of our opportunities of doing good, and a particular of our use or misuse of them, is given in?—*Bishop Atterbury*.

2. Inquiry; search; study.

This is the laborious and vexations *inquest* that the soul must make after science.—*South*.

In Law. See extract.

The *inquest* of jurors, or by jury, is the most usual trial of all causes, both civil and criminal; for in civil causes, after proof is made on either side, so much as each part thinks good for himself, if he doubt be in the fact, it is referred to the discretion of twelve indifferent men, impartial by the sheriff; and as they bring in their verdict so judgement passes; for the judge saith, the jury finds the fact; thus, then is the law thus, and so we judge.—*Cowell*.

Inquiet. *v. a.* Disquiet; trouble; disturb; (spelt with e). *Rare*.

Conscience hath made the reason, it croaketh the will, and *inquieteth* the soul.—*Bishop Fisher, Examination of the Seven penitential Psalms*.

Inquietation. *s.* Disturbance; annoyance. *Obsolete*.

How many senely personages, by outrage in riot, gaming, and excess of apparage, be enticed to thebe and robbery, and sometime to murder; to the *inquietation* of good men, and finally to their owne destruction.—*Sir T. Elyot, The Governour*, fol. 100, b.

Inquietude. *s.* Disturbed state; want of quiet; attack on the quiet.

Having had such experience of his stability and observance abroad, he found himself engaged in honour to support him at home from any further *inquietude*.—*Sir H. Waller*.

With far less of *inquietude*
Than courtiers at a banquet would.

Byron, Mazeppa.

Inquisite. *v. a.* [*Lat. inquisitus*; pass. part. of *inquire*.] Pollute; corrupt. *Rare*.

An old opinion it was, that the fish feeding upon serpents, that venomous food so *inquisite* their oval conceptions, that they sometimes came forth in serpentine shapes.—*Sir T. Browne*.

Inquisition. *s.* Corruption; pollution. *Rare*.

Their causes and notions are so full of *inquisition*, and so infected with the old received theories, as they are more *inquisitive* of experience, and cannot sit out.—*Barrow*.
An example from the *studious and inquisitive* of youth.—*W. Montague, Discourse of Knave*, pt. i, pref. (See, also, under *inconviction*.)

Inquirable. *adj.* Capable of being inquired into.

There be many more things *inquirable* by you.—*Barrow*.

The second thing *inquirable*, is, who it was that brought him forth; and that was Scholastic, the priest.—*Turner, Sermons*, p. 3: 1061.

Inquire. *v. n.* [*Lat. inquirō in + quero* = ask; pres. part. *inquirens*, -entis; pass. part. *inquisitus* (whence Fr. *enquête*, and English *inquest*); *inquisitio*, -onis.]

1. Ask questions; exert curiosity on any occasion.

a. With of before the person asked.

Herd... *inquired* of them diligently.—*Matthew*, ii, 7.

Under their erstful shade, Eneas sat,
Revolving war's events and various fate;
His left young Phyllis kept, fix'd to his side,
And oft of winds *inquir'd*, and of the tide
Argive, Translation of the *Æneid*, x, 235.

b. With after or for before an object of search.

Inquire for one kind of Tarsus.—*Acts*, ix, 11.
They are more in danger to go out of the way who are searching under a snail that will mislead them, than he that is likelier to be prevailed on to *inquire* after the right way.—*Locke*.

c. With about, when fuller intelligence is desired.

To those who *inquired* about me, my lover would answer, that I was an old dependent upon his family.—*Swift*.

2. Make examination: (with into). In the second extract it is a Latinism, translating 'Yllius ante diem patrius *inquirat* in annos.' It may deserve our best skill to *inquire* into those rules, by which we may guide our judgement.—*South, Sermons*.

The step-dame poison for the son prepares;
The son *inquires* into his father's sins.
Dryden, Translation from Ovid.

Inquire. *v. a.*

1. Ask about; seek out: (as, 'He *inquired* the way'.)

2. Call; name. *Obsolete*.

Canute had his portion from the rood,
The which he call'd Canutian, for his hire,
Now Canutian, which Kent we commonly *inquire*.
Spenser, Faerie Queene.

Inquiring. *adj.* Inquiring into; wishing to know. *Rare*.

As in a garden, roses, of his eye,
Inquiring, curious.—*Shawton, Economy*, pt. ii.

Inquirer. *s.* One who inquires; searcher; examiner; curious and inquisitive person; questioner.

This is a question only of *inquirers*, not disputers, who neither affirm nor deny, but examine.—*Locke*.

Inquiry. *s.*

1. Interrogation; search by question.

The men which were sent from Cornelius had made *inquiry* for Simon's house, and stood before the gate.—*Acts*, x, 17.

2. Examination; search.

This exactness is absolutely necessary in *inquiries* after philosophical knowledge, and in controversies about truth.—*Locke*.

Inquisition. *s.*

1. Judicial inquiry.

When he maketh *inquisition* for blood, he remembereth them; he forgetteth not the cry of the humble.—*Psalm*, ix, 12.

Though it may be impossible to recollect every failing, yet you are so far to exercise an *inquisition* upon yourself, as by observing lesser particulars, you may the better discover what the corruption of your nature always sits in.—*Jeremy Taylor*.

By your good leave,
These men will be your judges: we must stand
To the *inquisition* of their robbery
On our condition.—*Southey*.

2. Examination; discussion.

We were willing to make a *qualitative* or precedent of an exact *inquisition*.—*Lucas, Natural and Experimental History*.

It is the part of a discreet and wise patient not to leave this *inquisition* only to the physician.—*Fotherby, Aethiopic*, p. 234.

An *inquisition* and collation of several means.—*Smith, Portrait of Old Age*, p. 37.

3. In *Law*. Manner of proceeding in matters criminal, by the office of the judge.

4. Court established in certain Roman Catholic countries for the detection of heresy: (generally as a proper name with the definite article, i.e. *the Inquisition*).

Now we are upon the subject of torture, it is impossible to forget that depth of Satan, the *Inquisition*; for Satanical it is by the conjunction of three qualities: indefatigable diligence, profound subtlety, and inhuman cruelty.—*Troop, Popery Stated*, &c. pt. ii, § 12.

Inquisitional. adj. Busy in inquiry.

If the amendment of manners be aimed at, look into Italy and Spain, whether those places be one scruple the better, the looser, the wiser, the clatter, where all the *inquisitional* rigor that hath been exerted upon books.—*Milton, Arcopagitica*, 384. (Ord MS.)

By these and other means, no less politic and *inquisitional*, popery has found out the art of making men miserable in spite of their senses.—*Steele, Sermons*, xxviii.

Inquisitive. adj. Cautious; busy in search; active to pry into anything.

My boy at thirteen years became *inquisitive* After his brother.

Shakespeare, Comedy of Errors, i. 1. This idleness, together with fear of imminent mischief, have been the cause that the Irish were ever the most *inquisitive* people after news of any nation in the world.—*Sir J. Davies, Discourse on the State of Ireland*.

It is not *inquisitive* into the reasonableness of indifferent and innocent commands.—*Jeremy Taylor, Rule and Reason of Holy Living*.

It can be no duty to write his heart upon his forehead, and to give all the *inquisitive* and malicious world a survey of those thoughts, which is the prerogative of God only to know.—*South, Sermons*.

The whole neighbourhood grew *inquisitive* after my name and character.—*Adison, Spectator*.

A wise man is not *inquisitive* about things impertinent.—*Boswell*.

Inquisitiveness. s. Attilitude suggested by Inquisitive; curiosity; diligence to pry into things hidden.

Though he thought *inquisitiveness* an uncomely guest, he could not but ask who she was.—*Sir F. Smith*.

Heights that scorn our prospect, and depths in which reason will never touch the bottom, yet surely the pleasure arising from labour is great and noble; for as much as they afford perpetual matter to the *inquisitiveness* of human reason, and we are large enough for it to take its full scope and range in.—*South, Sermons*.

Providence, delivering great conclusions to us, designed to excite our curiosity and *inquisitiveness* after the methods by which things were brought to pass.—*Boswell*.

Curiosity in children's nature has provided, to remove that ignorance they were born with; which, without this busy *inquisitiveness*, will make them dull.—*Locke*.

Inquisitor. s.

1. One who examines judicially.

In these particulars I have played myself the *inquisitor*, and thus nothing contrary to religion or manners, but rather commendable.—*Bacon, Essays*.

Alms, the strict *inquisitor*, appears, And lives and craves with his assessors here.—*Dryden*.

2. One who is over curious and inquisitive: (in the extract it translates *persecutor*, as found in a well-known Latin quotation).

Inquisitors are taskers.—*Felltham, Replies*, ii. 31.

3. Officer in the Roman Catholic courts of inquisition, or the Inquisition.

The *inquisitors* in Spain charged all honest women and matrons, that had been solicited by their ghastrly fathers unto adultery, to confess the same before them.—*Folke, Against Alls*, p. 23: 154.

Inquisitorial. adj. With the severity of an inquisitor.

Liberal and *inquisitorial* abuse.—*Archdeacon Blackburne*.

He conferred on it a kind of *inquisitorial* and censorial power even over the laity, and directed it to inquire into all matters of conscience.—*Hume, History of England*, vol. iii, p. 238. (Ord MS.)

Inquisitorial. adj. With the prying severity of an inquisitor: (Inquisitorial commoner).

Under whom *inquisitorial* and tyrannical democracy, no free and splendid wit can ever flourish.—*Milton, Reason of Church Government urged against Prebacy*, b. ii.

Insa, Inrôgister. See Enrall, &c.
Inroad. s. Incursion; sudden and desultory invasion.

Many hot *inroads*

They make in Italy.

Shakespeare, Antony and Cleopatra, i. 4. From Scotland we have had in former times some alarms, and *inroads* into the northern parts of this kingdom.—*Bacon*.

By proof we feel

Our power sufficient to disturb his heaven,

And with perpetual *inroads* to alarm,

Though inaccessible his fatal throne.

Milton, Paradise Lost, ii. 101.

The loss of Shrewsbury exposed all North Wales to the daily *inroads* of the enemy.—*Lord Clarendon, History of the Great Rebellion*.

The country open lay without defence;

For poets frequent *inroads* there had made.

Dryden.

All Englishmen who valued liberty and law, saw with uneasiness the deep *inroad* which the prerogative had made into the province of the legislature.

—*Macaulay, History of England*, ch. ii.

Insafe. See Ensafe.

Insafty. s. Want of safety; hazard; insecurity. *Rare.*

Apprehending the *insafty* and danger of an intermarriage with the blood royal.—*Sir R. Naunton, Fragmenta Regalia*.

Insalubrity. s. Unwholesomeness.

To make us more sure of the *insalubrity* of this place.—*Gregory, Pastimes*, p. 6: 1630.

Socrates shows the cause of the *insalubrity* of a passage between two mountains in Armenia.—*T. Walton, History of English Poetry*, iii. 62.

Insaune. s. [Lat. *insanus*.]

1. Mad.

As most men perceive the faults of others without being aware of their own, so *insaune* people easily detect the nonsense of other men, without being able to discover, or even to be made sensible of, the incorrect associations of their own ideas.—*Haskins, On Mania and Melancholy*, ch. vii.

2. Making mad.

Were such things here as we do speak about?

Or have we eaten of the *insaune* root,

That takes the reason prisoner?

Shakespeare, Macbeth, i. 3.

Insaunate. v. a. Make mad. *Rare.*

The conceit only is able to kill, like a mad dog's biting, that not only wounds the body but *insaunate* the soul.—*Felltham, Replies*, ii. 5. (Ord MS.)

Both not the distemper of the body *insaunate* the soul?—*Ibid.*, 64. (Ord MS.)

Insaunty. v. a. Make mad; madden. *Rare.*

There may be at present some very respectable men at the head of these univ. who would *insaunty* them with some degree of prejudice, not keep them only half mad if they could.—*Nydney Smith*.

Insaunty. s. Want of sound mind; madness.

In *Medicine and Psychology* it is the usual generic term for those mental diseases of which mania, monomania, dementia, &c., are species.

There is a partial *insaunty*, and a total *insaunty*.—*Sir M. Hale*.

All power of fancy over reason is a degree of *insaunty*.—*Johnson, Rambler*, ch. xlii.

Insaupory. adj. [Lat. *sapor* - savour, flavour, taste.] Insaup. *Rare.*

However ingate or *insaupory* it seems at first, it becomes grate and delicious enough by custom.—*Sir T. Herbert, Relation of some Years Travels into Africa and the Great Asia*, p. 311.

Insaubiability. s. Incapability of being satisfied.

Exposure for increase of possession deludes the soul; and we sink into the gulfs of *insaubiability*, only because we do not sufficiently consider, that all need is very soon supplied, and all real danger of its invasion easily precluded.—*Rambler*. (Ord MS.)

Insauble. adj. Incapable of being satiated; greedy so as not to be satisfied.

The sight is of all the other senses the most comprehensive and *insauble*.—*South, Sermons*, x. 361.

Insaubleness. s. Attribute suggested by

Insatiable; greediness not to be appeased.

Both pleasure and profits, if way be given to them, have too much power to delude the mind, and to work it to a kind of *insaubleness*.—*Bishop Hall, On Contentation*, § 23.

Some men's hydrophic *insaubleness* had learned to thirst the more, by how much more they drank.—*Eikon Basilike*.

Insaubly. adv. In an insatiable manner;

with greediness not to be appeased.

They were extremely ambitious, and *insatiably* covetous; and therefore no impression, from argument or miracle, could reach them.—*South, Sermons*.

Insatiate. adj. Greedy so as not-to be satisfied.

My mother went with child

Of that *insatiate* Kildar.

Shakespeare, Richard III., iii. 3.

Insatiate to pursue

Vain war with heaven.—*Milton, Paradise Lost*, ii. 8.

Too off his pride,

And bellish discord, and *insatiate* thirst

Of others' rights, our quiet discompos'd.—*J. Phitips*.

Insatiately. adv. In an insatiate manner;

insatiably.

He [Mahomet] was so *insatiately* blidinous, that he is not ashamed to countenance his incontinency by a law.—*Sir T. Herbert, Relation of some Years Travels into Africa and the Great Asia*, p. 321.

Insatiety. s. State of being unsatisfied.

A confirmation of this *insatiety*, and consequently unprofitableness by a cause thereof: "When goods increase, they are increased that eat them."—*Grainger, Commentary on Ecclesiastes*, p. 123: 1021.

Insatisfaction. s. Want; unsatisfied state.

Obsolete.

It is a profound contemplation in nature, to consider of the emptiness or *insatisfaction* of several bodies, and of their appetite to take in others.—*Bacon, Nat. and Experimental History*.

Insatiable. adj. Incapable of being saturated, glutted, or filled.

Known to all dignity, whose hatred is *insatiable*, whose malice is embittered, whose indignation is insatiable against this settled and prosperous state of the church.—*Tranker, Fabric of the Church*, p. 113: 1004.

Insatience. s. Want of science in the sense

of information or knowledge.

Whole armies, at first dismayed at the sight of an eclipse, as a prodigy, have by a favourable interpretation of that prodigy, by help of their *insatience* of the natural cause, been persuaded to that height of courage, as they have defeated their adversaries.—*Christian Religion's Appeal to the Bar of Reason*, p. 3. (Ord MS.)

Inséence. See Enséence.

Inscribe. v. a. [Lat. *scribo* - write, pass.

part. *scriptus*; *inscriptio*, -onis.

Under the first three headings the *in-* means simply *in*; in the fourth it seems to mean *within*.]

1. Write on anything.

In all you writ to Rome, or else

To foreign princes, "Read res meus"

Was still *inscribed*.—*Shakespeare, Henry VIII.*, iii. 2.

Commutal principles are in themselves highly reasonable, and absolutely by a strong process of rationalization to be most true; and consequently the high exercise of rationalization might even their truth, though there were no such originally *inscribed* in the mind.—*Sir M. Hale, Origination of Manhood*.

Ye weeping herds! the stream with myrtle side, And break your bows as when Adonis died; And with your golden darts, now useless grown, Inscribe a verse on this relenting stone.

Pope, Pastorals, Winter.

2. Mark anything with writing: (as, 'I in-

scribed the stone with my name').

3. Dedicate informally.

One ode, which pleased me in the reading, I have attempted to translate in Pindarick verse: 'tis that which is *inscribed* to the present earl of Rochester.

—*Dryden*.

4. Draw a figure within another.

In the circle *inscribe* a square.—*Notes to Creech's Translation of Hesiod*.

Inscriber. s. One who inscribes.

I should then hope to be taught from such learning and knowledge what all those elementary characters, and final diagrams, mean to express, which Kierke has passed by unnoticed, as though making no part of the *inscriber's* intention.—*Poussall, On Antiquities*, p. 34.

Inscription. s.

1. Something written or engraved.

This variety of praise in time to come, Those long *inscriptions* crowded on the tomb.

Dryden.

2. Title; heading.

Justertius by the same title led our expectation, whereby we reaped no advantage, it answering scarce at all the promise of the *inscription*.—*Sir T. Browne, Vulgar Errors*.

3. In *Law*.

[An] *inscription* [is] an obligation made in writing, whereby the accuser binds himself to undergo

the same punishment, if he shall not prove the crime which he objects to the party accused, in his accusatory libel, as the defendant himself ought to suffer, if the same be proved.—*Aylife, Parergon Juris Canonici*.

4. Informal dedication of a book.

Inscriptive. *adj.* Having the nature or character of, or bearing, an inscription.

Inscriptive murens in a faneled abbey.—Parvula of Literature.

Inscrip. See Enscroll.

Inscrutability. *s.* [Lat. *scrutator*, pret. part. *scrutatus* = search out.] Incapability of being discovered, or traced out.

His theological conceptions were always, I confess, to me, who yet affect some insight into the human character, one of the *inscrutabilities* of mystery.—*Walsfield, Memoirs*, p. 130.

Inscrutable. *adj.* Incapable of being searched out; not to be traced out by inquiry or study.

Object unseen, *inscrutable*, invisible.
As a nose on a man's face, or weather-rock on a steep.

Shakespeare, Two Gentlemen of Verona, ii. 1.
This king had a large heart, *inscrutable* for good, and was wholly bent to make his kingdom and people happy.—*Bacon*.

Insculp. *v. a.* [Lat. *sculp*, pass. part. *sculptus*; *insculpio*, -onis; *sculptura*.] Engrave; cut. *Rare*.

The third vessel was made of lead, and thereupon was *insculp* this poetry.—*Translation of the Gesta Romanorum*.

A coin that bears the figure of an angel
Stamped in gold; but that's *insculp* upon.
Shakespeare, Merchant of Venice, ii. 7.

Inscription. *s.* Inscription. *Obsolete*.

What is it to have
A flattering, false, *inscription* on a tomb,
And in men's hearts reproach?

Turner, Revenge's Tragedy.

Inscripture. *s.* Anything engraved. *Rare*.

Timon is dead,
Entombed upon the very brow of the sea;
And on the gravestone this *inscripture*, which
With wax I brought away.

Shakespeare, Timon of Athens, v. 2.
It was usual to wear rings on either hand; but when precious gems and rich *inscriptures* were added, the custom of wearing them was translated unto the left.—*Sir T. Browne*.

Inscam, Inscarch. See Enscam, &c.

Insect. *s.* [Lat. *insectus*, pass. part. from *in* + *seco* = cut; *ἐντομή*, in Greek, whence *entomology*, has the same derivation, i. e. *in* + *τομή* = cutting.] Class of animals so called, forming a division of the animal or articulated subkingdom, the name being taken from two conspicuous segments of the body, the first dividing the head from the thorax, the second the thorax from the abdomen (well shown in the wasp).

Insecta may be considered together as one great tribe of animals: they are called *insecta* from a separation in the middle of their bodies, whereby they are cut into two parts which are joined together by a small ligature, as we see in wasps and common flies.—*Larke*.

Beast, bird, insect, or worm, durst enter none.
Milton, Paradise Lost, ii. 704.

Used *adjectivally* in the not uncommon sense of short-lived or ephemeral.

In ancient times the sacred plough employ'd
The kings, and awful fathers of mankind;
And some with whom command, your *insect* tribes
Are but the beings of a summer's day. *Thomson*.

Insected. *adj.* Having the segments of an insect.

We can hardly endure the sting of that small insected animal, [the bee].—*Huvel, Familiar Letters*, ii. 6.

Insectile. [? accent.] *adj.* Having the nature of insects.

Insectile animals, for want of blood, run all out into legs.—*Bacon*.

Insectile. *s.* Insectile animal. *Rare*.

The ant, and silk-worm, and many such *insectiles*.—*Smith, Portrait of Old Age*, p. 264.

Insectivorous. *adj.* [Lat. *coro* = devour.] Feeding on insects.

No approach to torpidity with loss of animal temperature has been determined to take place in any bird. The *insectivorous* kinds migrate—swifts and

swallows, &c., to and fro between England and Africa; and migration is performed by numerous other birds in relation to localities furnishing the food most appropriate for the nourishment of their newly-hatched young. Experiments have failed to induce torpidity in birds through artificial cold.—*Owen, Anatomy of Vertebrates*.

Insectologist. *s.* [Lat. *insecta* + Gr. *λόγος*.] Entomologist. *Barbarous*.

The insect itself is, according to modern *insectologists*, of the Ichneumonidly kind.—*Latham, Physico-Theology*.

Insecure. *adj.* [Lat. *securus*, from *cura* = care; the etymological meaning is less safety than the sense of safety, i. e. the freedom from care which safety ensures. See *Secure*.]

1. Not secure; not confident of safety.
He is liable to a great many inconveniences every moment of his life, and is continually *insecure* not only of the good things of this life, but even of life itself.—*Archbishop Tillotson*.

2. Not safe.
Am I going to build on precarious and *insecure* foundations?—*Bishop Hurd*.

Insecurely. *adv.* In an insecure manner; without certainty.

When I say *insecure*, I mean it in the sense in which the word should always be understood at courts, that is *insecurely*.—*Lord Chetfield*.

Insecurity. *s.*

1. Want of security or confidence.

It may easily be perceived with what *insecurity* of truth we ascribe effects, depending upon the natural period of time, and all arbitrary calculations, and such as vary at pleasure.—*Sir T. Browne*.

2. Want of safety; danger; hazard.

The incurable blindness and presumption, the danger and desperate *insecurity* of those that have not so much as a thought, all their lives long, to advance so far as attrition and contrition, sorrow, and resolution of amendment.—*Hammont*.

Insecution. *s.* [Lat. *insequor* = follow, follow up; pret. part. *secutus*; *insecutio*, -onis.] Pursuit. *Obsolete*.

Not the king's own horse got more before the wheel
Of his rich chariot, that might still the suggestion
feel

With the extreme hairs of his tail.
Chapman, Translation of the Iliad.

Insenate. *adj.* Stupid; wanting thought; wanting sensibility.

Ye be reprobrate; obdurate, *insenate* creatures.—*Hammont*.

So fond are mortal men,
As their own ruin on themselves involve,
Insenate left, or to sense reprobrate,
And with blindness internal struck.

Milton, Samson Agonistes, 1682.

Every fresh war was the result of His special interference: it was not caused by the meddling folly or *insenate* ambition of statesmen, but it was the immediate work of the Deity, who was thus made responsible for all the devastations, the murders, and other crimes more horrible still, which war produces.—*Jackie, History of Civilization in England*, vol. ii. ch. v.

Insensibility. *s.* Want of sensibility, sensation, or sense; inability to perceive.

Insensibility of slow motion may be thus accounted for: sensation cannot be perceived without perception of the parts of space which it left, and those which it next acquires.—*Glaucille*.

Insenible. *adj.*

1. Imperceptible; not discoverable by the senses.

What is that word honour? air; a trim reckoning.
Who hath it? he that died a Wednesday. Doth he feel it? no. Doth he hear it? no. Is it *insensible* then? yes, to the dead; but will it not live with the living? no. Why? destruction will not suffer it.—*Shakespeare, Henry IV. Part I.*, v. 1.

Two small and almost *insensible* prickles were found upon Cleopatra's arm.—*Sir T. Browne, Vulgar Errors*.

The dense and bright light of the circle will obscure the rare and weak light of those dark colours round about it, and render them almost *insensible*.—*Sir I. Newton, Opticks*.

2. Slowly gradual; so that no progress is perceived.

They fall away,
And languish with *insensible* decay. *Dryden*.

3. Void of feeling, whether mental or corporal.

I thought
I then was passing to my former state
Insenible, and forthwith to myself.
Milton, Paradise Lost, viii. 289.

4. Void of emotion or affection: (with *of* or *to*).

You grow *insensible* to the convenience of riches, the delights of honour and praise.—*Sir H. Trouph*.
You render mankind *insensible* to their beauties, and have destroyed the empire of love.—*Druid*.
Old men are not so *insensible* of beauty, as it may be, you young ladies think.—*Id.*, *Letitia*, p. 73, ed. Maline.

5. Void of sense or meaning.

If it make the indicated *insensible* or uncertain, it shall be quashed.—*Sir M. Hale, History of the Pleas of the Crown*, pt. ii. ch. xxi.

Insenbleness. *s.* Attribute suggested by *insensible*; insensibility.

Those that art the great physician in heaven,
first cure our *insensibleness*.—*Bishop Hall, Select Thoughts*, § 51.

Insenstive. *adj.* Wanting sensation.

This faculty is that which constitutes the difference between sensitive and *insensitive* creatures.—*Archbishop Tillotson*.

Insentient. *adj.* [Lat. *sentio*; *sentiens*, -entis feel, think.] Not having perception.

The dissimilitude between the sensation of our minds, and the qualities and attributes of an *insentient* inert substance.—*Id.*

Inseparability. *s.* Incapability or insusceptibility of separation or division.

The parts of pure space are inseparable, which follows from their *inseparability*, and on being nothing but change of distance between any two things; but this cannot be between parts that are inseparable.—*Larke*.

Inseparable. *adj.* Incapable of being separated or disjoined; united so as not to be parted.

The *instant* stroke of death denounc'd to-day,
Remov'd far off. *Milton, Paradise Lost*, x. 210.
Nor native country thou, nor friend shalt see;
Nor war hast thou to wage, nor year to come;
Impending death is thine, and *instant* doom. *Prior*.

3. Quick; making no delay.
Instant without delay they took alarm.
Milton, Paradise Lost, vi. 529.

4. Used adverbially.
a. At once.
Grieved that a valiant so long should wait
Unmark'd, unhonour'd, at a monarch's gate;

Instant he flew with hospitable haste,
And the new friend with courteous air embrac'd.
Pope, Translation of the Odyssey, l. 157.
b. Belonging to the present or current month.

On the twentieth *instant* it is my intention to erect a lion's head.—*Addison, Guardian*.

Instant. s.

1. Point in time so short as to be considered present, i.e. the instant or present moment.

There is scarce an *instant* between their flourishing and their not being.—*Hooker, Reformation of Policy*.

Her nimble body yet in time must move,
And not in *instants* through all places stride;
But she is high and far, heavenly, above,
In point of time, which thought cannot divide.

Sir J. Davies.

Instant in such a part of duration wherein we perceive no succession.—*Locke*.

At any *instant* of time the moving atom is but in one single point of the line; therefore all but that one point is either future or past, and no other parts are coexistent or contemporary with it.—*Bentley, Sermons*.

2. Particular time.

I can at any unreasonable *instant* of the night appear to her to look out at her lady's chamber window.—*Shakespeare, Much Ado about Nothing*, ii. 2.

Unto which promise our twelve tribes, *instantly* serving God day and night, hope to come.—*Acts*, xxvi. 7.

2. Immediately; without any perceptible intervention of time.

In a great while, the sense and affects of any one part of the body *instantly* make a transgression throughout the whole body.—*Bacon, Natural and Experimental History*.

Sleep, which *instantly* fell on me, call'd
By Nature, as in aid.

Milton, Paradise Lost, viii. 438.

As several winds arise,
Just so their natures alter *instantly*.

Mary, Translation from Virgil.

Instate. v. a.

1. Place in a certain rank or condition.

This kind of conquest does only *instate* the victor in these rights, which the conquered prince had.—*Sir M. Hale*.

Had this glistering monster been born to thy poverty, he could not have been school; nor, perhaps, had thy birth *instated* thee in the same greatness, wouldst thou have been better.—*South, Sermons*.

The first . . . should derive a blessing to his posterity, . . . and prevail at last to have them also accepted as holy, and *instated* in the favour of God.—*Bishop Atterbury*.

2. Invest. *Obsolete*.

For his possessions,
Although by confiscation they are ours,
We do *instate* and widow you withal.

Shakespeare, Measure for Measure, v. 1.

Instatement. s. Establishment.

We thence became completely justified, having not only a just title to what justification took import, but a real *instatement* therein.—*Barrow*, ii. 425. (Ord 318.)

Instaurate. v. a. Reform; repair; supply with improvement.

It is far more easy to overthrow the positive assertions of others, than to *instaurate* better in their room. —*South, Portrait of Old Age*, p. 230: 1000.

Instauration. s. Restoration; reparation; renewal.

They took *instauration* of what was deficient for institution. —*Selden, Illustrations of Drayton, Polyolion*, song xi.

Instaurator. s. Restorer; repairer; renewer; fresh or second founder.

They pretend to be the great *instaurators* of his empire, and beginners of the blessed millennium.—*Dr. H. More, Mystery of Godliness*, p. 203: 1000.

Instead. prep. [see *Stead*.]

1. In room of; in place of: (with of).

They, *instead* of fruit,

Chew'd bitter ashes. —*Milton, Paradise Lost*, x. 565.
Vary the form of speech, and *instead* of the word church, make it a question in politics, whether the monument be in danger.—*Swift*.

2. Equal to: (with of).

This very consideration to a wise man is *instead* of a thousand arguments, to satisfy him, that, in these times, no such thing was believed.—*Archbishop Tillotson*.

Instead. adv. In place of something else; by way of substitution.

He in derision sets
Upon their tongues a various spirit, to raise
Quite out their native language, and *instead*
To sow a jangling noise of tongues unknown.

Milton, Paradise Lost, xii. 33.

Insteep. v. a.

1. Soak; macerate in moisture.
Suffolk first, died, and York, all hazzled over,
Came to him where in gore he lay *insteep'd*.

Shakespeare, Henry V, iv. 6.

2. Lying under water.

The water'd rocks, and congregated sands,
Traitors *insteep'd* to clog the millicock's keel.

Shakespeare, Othello, ii. 1.

Instep. s. Upper part of the foot where it joins to the leg.

The calica was a military shoe with a very thick sole, tied above the *instep* with leather thongs.—*Archibald, Tables of Ancient Coins*, Wright, and Meunier.

Instigate. v. a. [Lat. *instigator*, pass. part. of *instigare*—urge forward.] Urge to ill; provoke or incite to a crime.

If a servant *instigates* a stranger to kill his master, this heinous murder in the stranger as principal, of course the servant is necessary only to the crime of murder, though he would have been guilty, as principal, of petty treason. —*Sir W. Blackstone*.

Instigation. s. Incitement to a crime; encouragement; impulsion to ill.

Why, what need we
Commune with you of this? But rather follow
Our forc'd *instigation*.

Shakespeare, Winter's Tale, ii. 1.

It was partly by the *instigation* of some factions, malevolent to that late principal stroke amongst them. —*Bacon*.

Shall any man that wilfully procures the cutting of whole armies to pieces set up for an innocent? As if the lives that were taken away by his *instigation* were not to be charged upon his account.—*Sir R. E. Estcourt*.

We have an abridgement of all the terrors and villany that both the corrupting of nature and the *instigation* of the devil could bring the sons of men to.—*South, Sermons*.

Instigator. s. Inciter to ill.

That sea of blood is enough to drown in eternal misery the malicious author or *instigator* of its effusion. —*L'Estrange*.

Either the eagerness of acquiring or the revenge of missing dignities, have been the great *instigators* of ecclesiastical feuds. —*Dr. H. More, Discourse of Christian Religion*.

Instil. v. a. [Lat. *stilla*—I drop; *stilla*—a drop.]

1. Infuse by drops.

He from the well of life three drops *instill'd*.

Milton, Paradise Lost, xi. 116.

2. Insinuate anything imperceptibly into the mind; infuse.

Though assemblies be had indeed for religion's sake, hurtful nevertheless they may easily prove, as well in regard of their fitness to serve the turn of heretics, and such as privily will seek adventure to *instil* their poison into men's minds.—*Hooker, Ecclesiastical Policy*.

Those heathens did, in a particular manner *instil* the principle into their children of loving their country, which is far otherwise now-a-days.—*Swift*.

Instillation. s.**1. Act of pouring in by drops.****2. Thing infused.**

They imbibe the cup of life by *instillation*. —*Johnson, Rambler*.

Instiller. s. One who instills.

Never was there such a lucid as was played in my audit, nor so artful in the flow of base principles as my tutor. —*Skelton, Ichni Revoled*, dial. viii.

Instinct. adj. Moved; animated.

Forth rush'd with whirlwind sound
The chariot of paternal deity.

Flashing thick flames, wheel within wheel undrawn,
Itself *instinct* with spirit, yet remain'd to think that
By fair chernoback slings.

Milton, Paradise Lost, vi. 719.

Coffee-house was, *instinct* by me, can correct an author's style, and display his minutest errors, without understanding a syllable of his matter or his language! —*Swift, Battle of the Books*.

It was a noble performance, *instinct* with sound principle; full of broad and striking flows of policy; bounding in unceasing appeals to justice; and hot assertions of right, in one vigorous touching and pathetic description of a Catholic soldier's feelings on reviewing some of the places he had shared the dangers of the field, yet remain'd to think that he could never taste the pleasures of command. —*Atterbury, Historical Sketch of Statesmen during the Reign of George III*, p. 100.

Instinct. s. Desire or aversion acting in the mind without the intervention of reason or deliberation; the power determining the will of brutes.

Thou knowest I am as valiant as Hercules; but beware *instinct*; the lion will not touch the lion prince; *instinct* is a great matter. I was a coward on *instinct*; I shall think the better of myself and thee, during my life; I for a valiant lion, and thee for a true prince.—*Shakespeare, Henry IV*, Part I, ii. 3.

But providence or *instinct* of nature seems,
Or reason, though disturb'd and scarce consulted,
To have guided our angel.

Milton, Samson Agonistes, 1345.

Nature first pointed out my path to me,
And easily taught me by her second force
To love the person, ere I knew the merit;
Till what was *instinct* grew up into friendship.

Addison, Cato.

Then vainly the philosopher avers
That reason guides our deed, and *instinct* theirs.
How can we justify different causes frame,
When the effects entirely are the same?
Instinct and reason how shall we divide?

Profr. Solomon, b. 1.

Reason, however able, ead at last,
Cares not for service, or but serves when press'd,
Stays till we call, and then not often near;
But honest *instinct* causes a volunteer.

Pope, Essay on Man, iii. 85.

There are many acts which man, as well as animals, performs by the guidance of nature, without seeing or seeking the reason why he does so; as the acts by which he balances himself in standing or moving, and those by which he judges of the form and position of the objects around him. These actions have their reason in the principles of economy and mechanics; but of such reasons he who thus acts is unaware; he works blindly, under the impulse of an unknown principle which we call *instinct*. When man's speculative nature seeks and finds the reasons why he should act thus or thus;—why he should stretch out his arm to prevent his falling, or assien a certain position to an object in consequence of the motion under which it is seen;—he may perform the same actions as before, but they are then done by the aid of a different faculty, which, for the sake of distinction, we may call *instinct*. *Instinct* is a purely active principle; it is seen in its action; it has no power of looking inwards; it asks no questions; it has no tendency to discover reasons or rules; it is the opposite of insight. Art is not identical with *instinct*; on the contrary, there are broad differences. *Instinct* is stationary; Art is progressive. *Instinct* is mute; it acts, but gives no rules for acting; Art can speak; she can lay down rules. But though Art is thus superior from *instinct*, she is not essentially couched with insight. She can see what to do, but she needs not to see why it is done. She may by slow rules, but it is not her business to give reasons. When man makes that his employment, he enters upon the domain of Science.—*W. Keckell, History of Scientific Ideas*, ch. viii.

Instinct. v. a. Impress as an animating power.

God would never have *instincted* the appetition of pleasure, and the faculty of enjoyment, if so strongly in man, if He had not meant that in decency he should make use of them. —*Fildham, Recluse*.

What native unextinguishable energy must be impressed and *instincted* through the whole, which the deflection of so many parts by a bad printer and a worse editor could not hinder from shining forth! —*Bentley, Preface to Milton*.

Instinctive. s. Instinct. *Obsolete.*
This natural instinct of creatures.—*Sir T. Elgot, The Governor, fol. 149.*

Instinctive. adv. Acting without the application of choice or reason; rising in the mind without apparent cause.

By quick *instinctive* motion up I sprung,
As thitherward endeavouring.

It will be natural that Ulysses's mind should forebode; and it appears that the *instinctive* presence was a favourite opinion of Homer's.—*Broome, Notes on the Odyssey.*

Instinctively. adv. In an instinctive manner; by instinct; by the prompting of nature.

The very rats
Instinctively had quit it. *Shakespeare, Tempest, l. 2.*

Instinctment. s. Instigation. *Rare.*

Charity and probability would induce us to think that whosoever is morally honest, is so out of conscience in obedience to the commands of God, and the *instinctment* of nature, so framed and qualified by God himself, hinders that out of sinister, lower, or less noble ends; and therefore I hold it to be most true, that as true religion cannot be without morality, so more can morality than is right in without religion.—*Fellham, Ecceles.* (Ord MS.)

Institute. v. a.

1. Fix; establish; appoint; enact; settle; prescribe.

God then *instituted* a law natural to be observed by creatures; and therefore, according to the manner of laws, the institution thereof is described as being established by solemn injunction. *Hooker, Ecclesiastical Polity.*

The hierarchy of the Jews was *instituted* by God himself. *Sir W. Temple.*
To *institute* a court and a country party without materials would be a very new system in politics. *Swift.*

2. Educate; instruct; form by instruction.

If children were early *instituted*, knowledge would incessantly insinuate itself. *Dr. H. More, Discourse of Christian Piety.*

3. Inwest with the spiritual part of a benefice.

No bishop shall *institute* any to a benefice, who hath been ordained by any other bishop, except he first show unto him his letters of orders.—*Constitutions and Canons Ecclesiastical, xxxix.*

Institute. s.

1. Established law; settled order.
Such is the subject of the *institute*,
And universal body of the law.

This law, though custom now directs the course,
As nature's *institute*, is yet in force
Unchanged, although dissolved. *Dryden.*

2. Precept; maxim; principle.

Thou art pale in night studies grown,
To make the *stude* *institute* thy own.

Dryden, Translation of Gernius, v. 84.

3. Organized establishment conducted by a society; (as, 'the Institute of Civil Engineers').

Institution. s.

1. Act of establishing; establishment; settlement.

The *institution* of God's Law is described as being established by solemn injunction.—*Hooker, Ecclesiastical Polity.*

It became him by whom all things are, to be the way of salvation to all, that the *institution* and resolution of the world might be both wrought with one hand.—*Id.*

This unlimited power placed fundamentally in the body of a people, is what legislators have endeavoured, in their several schemes or *institutions* of government, to deposit in such hands as would preserve the people.—*Swift.*

2. Positive law.

The precepts by which men are taught what to do are called *institutions*; so Quintilian inserted his book, *De Institutione Oratoria*, and Lucianus wrote *Institutiones*, that is, *commentaries* on the precepts and laws of Christianity. But it hath in this peculiarity of signification, that the word *institution* does signify properly rules and precepts of manners, properly the measures of practice, or rules teaching us what we are obliged to do; so, that *institution* does not directly signify a commandment, but it supposes the persons obliged, only it imparts the manner and measure of obedience.—*Jeremy Taylor, Dilectio Dubitantium, l. 421.* (Ord MS.)

They quarrel sometimes with the execution of laws, and sometimes with the *institution*.—*Sir W. Temple.*

The holiness of the first fruits and the lump is an holiness merely of *institution*, outward and nominal.

whereas the holiness of the rock is an holiness of nature, inherent and real.—*Bishop Atterbury.*

The law and *institution*, founded by Moses was to establish religion, and to make mercy and peace known to the whole earth.—*Forbes.*

3. Education.

After baptism, when it is in infancy received, succeeds instruction and *institution* in the mature and several branches of that vow, which was made at the font, in a short intelligible manner.—*Hammond, On Fundamentals.*

It is a necessary piece of providence in the *institution* of our children, to train them up to somewhat in their youth, that may honestly entertain them in their age.—*Sir R. L'Estrange.*

His learning was not the effect of precept or *institution*.—*Beaulty.*

4. Act of investing a clerk presented to a rectory or vicarage with the spiritual part of his benefice.

No person shall hereafter be received into the ministry, nor either by *institution* or collation admitted to any ecclesiastical living, nor suffered to preach, &c. except he be licensed either by the archbishop, or the bishop of the diocese where he is to be placed.—*Constitutions and Canons Ecclesiastical, xlii.*

Institutional. adj. Relating to institutions.

He began with a series of *institutional* changes.—*R. Kicarda, The Polish Captivity.*

Instruction. s.

1. Act of teaching; information.

It flows on you to speak,
Not by your own *instruction*, nor by any matter
Which your heart prompts you to.

We are beholden to judicious writers of all ages, for those discoveries and discourses they have left behind them for our *instruction*.—*Locke.*

Now (to pursue this analogy) when the materials are all ready to the builder's hand, the blocks ready dug and loushy, his work resembles one of the two kinds of discovery just mentioned, viz. that to which we have assigned the name of *instruction*; but if his materials are to be entirely, or in part, provided

by himself,—if he himself is forced to dig fresh blocks from the quarry,—this corresponds to the other kind of discovery.—*Archbishop Whately, Elements of Logic, b. iv. ch. ii. § 1.*

2. Precepts conveying knowledge.

Will ye not receive *instruction* to hearken to receive my words.—*Jeremiah, xxv. 13.*
On every thorn delightful wisdom grown,
In every stream a sweet *instruction* flows;
But some untaught o'erhear the whispering rill,
In spite of sacred leisure, blockheads still. *Young.*

3. Authoritative information; mandate.

See this dispatch'd with all the haste thou canst;
Amos I'll give thee more *instruction*.
Shakespeare, Titus Andronicus, sc. 1.

Instructive. adj. Conveying knowledge.

With a variety of *instructive* expressions by speech, man alone is endowed. *Holder.*

I would not hunch last to instruct; or if my mirth comes to be *instructive*, it shall never cease to be innocent.—*Addison.*

Instructively. adv. In an instructive manner; so as to teach; by instruction.

Deserving *instructively* to exemplify the duty and nature of charity.—*Barnard, Works, l. 283.*
He made him sing both sweetly and *instructively*.—*Arbutnot and Pope, Martinus Scriblerus.*

Instructiveness. s. Attribute suggested by instructive; power of instructing.

The benefit, and the *instructiveness* of history, and of the lives of worthy persons, is no less universally than deservedly acknowledged to be very great.—*Situation of Paradise, p. 30: 1183.*

The distinction between ideas of mere sensation and those of intellection, between what the mind comprehends, and what it conceives without comprehending, is the point of divergence between the two schools of psychology which still exist in the world.—*Hallam, Introduction to the Literature of Europe during the fifteenth, sixteenth, and seventeenth Centuries*, pt. iv. ch. iii. § 113.

Intellective. adj.

1. Having power to understand.

Because the intellective soul is not of necessity serving to any other faculty or power, therefore is she as lady, mistress, and queen, over all the other powers, faculties, or virtues of the soul.—*Brydell, Discourse of Civil Life*, p. 16; 1600.

In the section of bodies, we find man, of all sensible creatures, to have the fullest claim to his perfection, and that it was so provided by the Supreme Wisdom for the lodging of the intellective faculties.—*Sir H. Watson, Religious Writings*, p. 81.

If a man as intellective be created, then either he means the whole man, or only that by which he is intellective.—*Glauville*.

2. To be perceived by the intellect; not the senses.

Instead of beginning with arts most easy, find those be such as are most obvious to the sense, they present their young untried friends to us with the most intellective abstractions of logic and metaphysics.—*Wilson, Tracts on Education*.

Intellectual. adj.

1. Relating to the understanding; belonging to the mind; transacted by the understanding.

Religion teaches us to present to God our bodies as well as our souls: if the body serves the soul in actions natural and civil, and intellectual, it must not be eased in the only office of religion.—*Jeremy Taylor*.

2. Mental; comprising the faculty of understanding; belonging to the mind.

Locke is to teach us the right use of our reason or intellectual powers.—*Watts*.

3. Ideal; perceived by the intellect, not the senses.

In a dark vision's intellectual scene,
Beauteous a flower for sorrow made,
The melancholy Cowley lay.

A train of plumets in wild order rose,
And, join'd, this intellectual scene compose.
Pope, Temple of Fame.

4. Having the power of understanding.

Aristotle and Plato term the Maker of the world an intellectual worker.—*Hooker, Ecclesiastical Policy*.

Who would lose,
Though full of pain, this intellectual being,
These thoughts that wander through eternity,
To perish rather, swallow'd up and lost?

Milton, Paradise Lost, li. 146.

5. Proposed as the object not of the senses but intellect: (as, 'undworth names his book 'The Intellectual System of the Universe').

Intellectual. s. Intellect; understanding; mental powers or faculties. *Rare*.

Her husband . . .
Whose higher intellectual more I shun.

Milton, Paradise Lost, ix. 482.

I have not consulted the equity of my intellects in forming their weakness into such discovering premises.—*Glauville*.

The fancies of most, like the index of a clock, are moved but by the inward springs of the corporeal machine; which, even on the most subtilized intellect, is dangerously influential.—*Id., Synopsis Scientificus*.

Intellectualism. s. System of doctrines connected with the intellect, or understanding.

All these modes of teaching will resolve themselves into the mere culture of the understanding. We do indirectly by terming it intellectualism. The higher faculties must wither, and that soon, beneath its influence wherever it is introduced and prevails.—*Chadbourne, The State in its Relations with the Church*, ch. x.

Intellectualist. s. One who overrates the human understanding.

Upon these intellectualists, which are notwithstanding commonly taken for the most sublime and divine philosophers, Heraclitus gave a just censure.—*Bacon, Advancement of Learning*, b. i.

Intellectuality. s. State of intellectual power.

Science signifies little in this place, he being no better than a compassless atheist, i. e. he made a certain plastic or spiritual nature, devoid of all animality or sensibility, intellectuality, to be the highest principle in the universe.—*Hallward, Metaphysics*, p. 81; 1831.

Intelligence. s. [Lat. *intelligo* = understand; pass. part. *intellectus*.]

1. Commerce of information; notice; mutual communication; account of things distant or secret.

Intelligence, which cometh of *intelligentia*, is the perceiving of that which is first conceived by understanding called intellectus. Also intelligence is now used for an elegant word, where there fare mutual treaties of appointments, either by letters or messages, specially concerning wars, or like other great affairs, between princes or noble men.—*Sir Thomas Eliot, The Governour*, fol. 201; 1580.

It was perceived there had not been in the catholicks so much foresight as to provide that true intelligence which passed between them of what was done.—*Hooker, Ecclesiastical Policy*.

He furnished his employed men liberally with money, to draw on and reward intelligence; giving them also in charge to advertise continually what they found.—*Bacon, History of the Reign of Henry VII.*

Let all the passages
Be well secured, that no intelligence
May pass between the prince and them.

Sir J. Inham, The Sophy.

2. Commerce of acquaintance; terms on which men live one with another.

Factional followers are worst to be liked, which follow not upon affection to him with whom they range themselves; whereupon commonly cometh that ill intelligence that we see between great persons.—*Bacon*.

He lived rather in a fair intelligence than any friendship with the favourites.—*Lord Clarendon*.

3. Spirit; disembodied mind.

How fully hast thou satisfied me, pure
Intelligence of heaven!

Milton, Paradise Lost, viii. 190.

There are divers ranks of created beings intermediate between the glorious God and man, as the glorious angels and created intelligences.—*Sir M. Hale*.

Satan, appearing like a cherub to Uriel, the intelligence of the sun circumvented him even in his own province.—*Brydell*.

4. Understanding; skill.

Heaps of honey words, up heaped hideously,
They think to be chief praise of poetry;
And thereby wanting due intelligence,
Have marr'd the face of goodly poesy.

Spenser.

Intelligence. s. One who sends or conveys news; one who gives notice of private or distant transactions; one who carries messages between parties.

His eyes, being his diligent intelligences, could carry unto him no other news but discomfortable.—*Sir P. Sidney*.

How deep you were within the books of heaven?
To us, th' inspired voice of heav'n's itself;
The very organ and intelligence
Between the grace and sanctities of heav'n,
And our dull workings.

Shakespeare, Henry IV. Part II. iv. 2.

If they had instructions to that purpose, they might be the best intelligences to the king of the true state of his whole kingdom.—*Bacon*.

They have new-enters and intelligences, who make them acquainted with the conversation of the whole kingdom.—*Spekulator*.

Intelligence. adj. Conveying information; giving notice of private or distant transactions.

A mankind which
A most intelligencing law
Has [an apparitor] is a cunning hunter, uncoupling

Shakespeare, Winter's Tale, ii. 3.

That said intelligence tyrant, that includes the world with his mines of gold.—*Milton, Of Refutation in England*, b. ii.

Intelligent. adj.

1. Knowing; instructed; skillful.

It is not only in order of nature for him to govern that is the more intelligent, as Aristotle would have it; but there is no less required for government, courage to protect, and above all industry.—*Bacon*.

With of,
Intelligent of senses, they set forth
Their very caravan.—*Milton, Paradise Lost*, vii. 127.

2. Giving information: (with of).

Servants, who seem no less,
Which are to France the spies and surreptitious
Intelligent of our state.

Shakespeare, King Lear, iii. 1.

Intelligent. adj.

Food alike to the pure
Intellectual substances require,
As doth your rational.

Milton, Paradise Lost, v. 387.

2. Intellectual; exercising understanding.

In at his mouth
The devil enter'd; and his brutal sense,
His heart or head possessing, soon inspir'd
With art intelligent.

Milton, Paradise Lost, ix. 190.

Intelligibility. s.

1. Capability to be understood.

This while it added to intelligibility, would take from gradually the tedious drudgery, and certainly leave it sufficient gravity.—*Mason, Essay historical and critical on English Church Music*, p. 253.

2. Power of understanding; intellection.

The soul's nature consists in intelligibility.—*Glauville*.

Intelligible. adj. Capable of being understood.

We shall give satisfaction to the mind, to show it a fair and intelligible account of the teluge.—*T. Bacon, Theophrastus of the Earth*.

Something must be lost in all translations, but the sense will remain, which would otherwise be unnam'd, when it is scarce intelligible.—*Drish*.

Intelligible. s. Capable of being understood.

The means of derivation, and immediate notion of these intelligible objects to the understanding, are various; sometimes divine and supernatural, as by immediate irradiation or revelation; sometimes artificial and instituted, as by discourse and instituted signs, and thus intelligible are conveyed from one man to another by words or writing.—*Sir M. Hale, Origin of Jurisdiction*, (bnd MS.)

Intelligibleness. s. Attribute suggested by intelligible; possibility to be understood; perspicuity.

It is in our ideas that both the rightness of our knowledge, and the propriety of intelligibleness of our speaking, consists.—*Locke*.

Intelligibly. adv. In an intelligible manner; so as to be understood; clearly; plainly.

The genuine sense, intelligibly told,
Shows a translator both discreet and bold.

Lord Bacon, Comment.

To write of metals and minerals intelligibly, is a task very difficult than to write of animals.—*Woodward, Essay towards a Natural History of the Earth*.

Intenerate that heart, that sets so light The truest love that ever yet was seen. *Janick, Sonnets, x. 1691.*

This acknowledgement of your singular love I was never more fit to pay you than at the present, before intenerated in all my inward feelings and affections by new sickness. *Sir H. Wotton, Reliquia Wottonianae, p. 354.*

So have I seen the little pearls of a stream swept through the bottom of a bank, and intenerate the stony pavement, till it hath made it fit for the impression of a child's foot. *Jeremy Taylor, Sermons, p. 201: 1651.*

Autumn to the fruits Earth's various lap produces, vigour given Equal, intenerating milky grain. *J. Phillips, Cyder, b. ii.*

Inteneration, s. Act of softening or making tender.

In living creatures, the noblest use of nourishment is for the prolongation of life, restoration of some degree of youth, and inteneration of the parts. *Bacon.*

The stuffs died blue, are without any previous inteneration quickly tinge. *Sir W. Petty, in Bishop Sprat's History of the Royal Society, p. 293.*

Intenable, adj. [Lat. *teneo* = hold.] That cannot hold. *Obsolete.*

Yet in this cautious and intenable sieve I still pour in the waters of my love. *Shakespeare, All's well that ends well, i. 3.*

Intense, adj. [Lat. *intendo*, from *in* + *tendo* = stretch; pass. part. *intensus*; *intensio*, -onis; *intensus* is also the pass. part., whence *intense*.]

1. Raised to a high degree; strained; forced; not slight; not lax.

To observe the effects of a distillation prosecuted with an intense and unusual degree of heat, we ventured to use more. *Boyle.*

Sublime or low, intemperate or intense, The sound is still a comment to the sense. *Lord Roscommon.*

2. Vehement; ardent. Hebrews warm and animate our language, and convey our thoughts in more ardent and intense phrases. *Ibid.*

3. Kept on the stretch; anxiously attentive. But in disparity The one intense; the other still remiss, Cannot well suit with either, but soon prove Tedious alike. *Milton, Paradise Lost, viii. 546.*

Intensely, adv. In an intense manner.

1. To a great degree; not slightly; not remissly. If an Englishman considers our world, how intensely it is heated, he cannot suppose that it will cool again. *Adams.*

2. Actively; earnestly. To persons young, and that look intensely, if it be dark, there appear many strange images moving to and fro. *J. Spenser, Vanity of Vulgar Erudition, p. 103.*

Intenseness, s. Attribute suggested by intense.

1. State of being enforced in a high degree; force; (opposed to *laxity* or *remission*).

The water of springs and rivers, that sustains a diminution from the heat above, being evaporated more or less in proportion to the greater or lesser intenseness of heat. *Woodward.*

The quantity of life is to be estimated not merely from the duration, but also from the intenseness of living. *Bishop Berkeley, Siris, § 109.*

2. Vehemence; ardency.

The intemperance of the Hebrew [words] meant some intenseness in the act. *Sir N. Knatchbull, Annotations upon some difficult Texts in all the Books of the New Testament, p. 135.*

3. Great attention; earnestness.

Some may affirm this, who do not take the trouble to reflect on the state of their mind while sleeping, because of their intenseness on their waking thoughts and business, or otherwise. *A. Baxter, Enquiry into the Nature of the human Soul, li. 117.*

Intension, s. Act of forcing or straining anything; (opposed to *remission* or *relaxation*).

Sounds will be carried further with the wind than against the wind; and likewise do rise and fall with the *intension* or remission of the wind.—*Baron, Natural and Experimental History.*
Falsch differs from hope in the extension of its object, and in the *intension* of desire.—*Jeremy Taylor, Rules and Exercises of holy Living.*

Intensify. s. Excess.

The number engaged in crimes, instead of turning them into innumerable acts, only augments the quantity and the *intensity* of the guilt.—*Burke.*

We cannot measure secondary qualities in the same manner in which we measure primary qualities, by a mere addition of parts. There is this lending and remarkable difference, that while both classes of qualities are susceptible of changes of magnitude, primary qualities increase by addition of extension, secondary, by augmentation of *intensity*. A space is doubled when another equal space is placed by its side; one weight joined to another makes up the sum of the two. But when one degree of warmth is combined with another, or one shade of red colour with another, we cannot in like manner talk of the sum. The component parts do not evidently retain their separate existence; we cannot separate a strong green colour into two weaker ones, as we can separate a large force into two smaller. The increase is absorbed into the previous amount, and is no longer in evidence as a part of the whole. And this is the difference which has given birth to the two words extended and intense. That is extended which has 'partes extra partes,' parts outside of parts; that is intense which becomes stronger by some indirect and unperceived increase of agency, like the stretching of the internal surfaces of a machine, as the term intense implies. Extended magnitudes can at will be resolved into the parts of which they were originally composed, or any other which the nature of their extension admits; their proportion is apparent; they are directly and at once subject to the relations of number. Intensive magnitudes cannot be resolved into smaller magnitudes; we can see that they differ, but we cannot tell in what proportion; we have no direct measure of their quantity. How many times hotter than blood is boiling water? The answer cannot be given by the aid of our feelings of heat alone.—*Whewell, Novum Organum reformatum.*
To raise its body through a given space, its muscles have to be exerted with twice the *intensity*, at a double cost of matter expended.—*Herbert Spencer, Inductions of Biology.*

Intensive. adj.

1. Stretched or increased with respect to itself; which may admit increase of degree.

As his perfection is infinitely greater than the perfection of a man, so it is infinitely greater than the perfection of an angel; and were it not infinitely greater than the perfection of an angel, it could not be infinitely greater than the perfection of a man, because the *intensive* distance between the perfection of an angel and of a man is but finite.—*Sir J. Hale.*

2. Intent; unremitting.

Fixed with that assiduous attendance and *intensive* circumspection which a lone fortune did require, he was not unwilling to bestow upon another some part of his pains.—*Sir H. Wotton.*

Intensively. adv. In an intensive manner; by increase of degree.

God and the good angels are more free than we are, that is, *intensively* in the degree of freedom, but not extensively in the latitude of the object; according to a liberty of exercise, but not of specification.—*Archbishop Broadbent, Answer to Hobbes.*

Intent. adj. Anxiously diligent; fixed with chuse application.

a. With to.

Directions in England made most men *intent* to their own safety.—*Kikos Basilike.*

b. With on or upon.

When we use but these means which God hath laid before us, it is a good sign that we are truly *intent* upon God's glory than our own convenience.—*Jeremy Taylor.*

The general himself had been more *intent* upon his command.—*Lord Clarendon.*
They on their mirth and dance
Intent.—*Milton, Paradise Lost, l. 780.*

Of action eager, and *intent* on thought,
The chiefs your honourable danger sought. *Dryden.*
Were men as *intent* upon this as on things of lower concernment, there are none so enslaved to the necessities of life, who might not find many vacancies that might be bestowed to this advantage of their knowledge.—*Locke.*

Whilst they are *intent* on one particular part of their theme, they lend all their thoughts to prove or disprove some proposition that relates to that part, without attention to the consequences that may affect another.—*Watts.*

Intent. s. Design; purpose; drift; view formed; meaning; compass.

Although the Scripture of God be stored with infinite variety of matter in all kinds, although it

abound with all sorts of laws, yet the principal *intent* of Scripture is to deliver the laws of duties, supernatural.—*Hooker, Ecclesiastical Polity.*

This fury fit for her *intent* she chose;
One who delights in wars, and human woes.

• *Druides, Translation of the Ecchic, vii. 453.*

Of darkness visible so much he lent,
As half to shew, half veil the deep *intent.*

• *Pope, Dunciad, iv. 3.*

To all *intents* and purposes. In all senses, whatever be meant or designed.

There is an incurable blindness caused by a resolution not to see; and, to all *intents* and purposes, he who will not open his eyes is for the present as blind as he that cannot.—*South, Sermons.*

He was miserable to all *intents* and purposes.—*Sir R. L'Estrange.*

Intention. s.

1. Eagerness of desire; closeness of attention; deep thought; vehemence or ardour of mind.

Effectual prayer is joined with a vehement *intention* of the inferior powers of the soul, which cannot therein long continue without pain; it hath been therefore thought good, by turns, to interpose still somewhat for the lighter part of the mind and the understanding to work upon.—*Hooker, Ecclesiastical Polity.*

In persons possessed with other notions of religion, the understanding cannot quit these but by great examination; which cannot be done without some labour and *intention* of the mind, and the thoughts dwelling a considerable time upon the survey and discussion of each particular.—*South, Sermons.*

Intention is when the mind with great earnestness, and of choice, fixes its view on any idea, considers it on every side, and will not be called off by the ordinary solicitation of other ideas.—*Locke.*

2. Design; purpose.

I wish others the same *intention*, and greater success.—*Sir H. Popham.*

Most part of chemical distempers proceed from heat of the fibres; in which case the universal *intention* is to restore the tone of the solid parts.—*Achard, On the Nature and Choice of Aliments.*

The operations of agents about *intention* and remission; but essences are not capable of such variation.—*Locke.*

Intentional. adj. Designed; done by design.

The glory of God is the end which every intelligent being is bound to consult, by a direct and intentional service.—*Rogers.*

Intentionally. adv. In an intentional manner.

I find in myself that this inward principle doth exert many of its actions *intentionally* and purposely.—*Sir J. Hale.*

Whenever I am wishing to write to you, I shall conclude you are *intentionally* doing so to meet Bishop Atterbury, To Pope.

Intentionary. adj. Attentive. Rare.

We give no ear, no serious and *intentionary* hearkening to it; it never comes to be a meditation of the heart.—*Charandou, Tracts.* (Orel MS.)

Intensive. adj. Diligently applied; busily attentive.

Where the object is fine and accurate, it containeth much to have the sense *intensive* and erect.—*Bacon, Natural and Experimental History.*

The naked relation, at least the *intensive* consideration of that, is able still, and at this disadvantage of time, to reveal the beauty of pious contemplators.—*Sir T. Browne, Vulgar Errors.*

Intensively. adv. In an intensive manner; with application; closely; attentively. Rare.

Let us wait reverently and *intensively* upon this Bethesda of God, that when the angel shall descend and move the water, our souls may be healed.—*Bishop Hall, Contemplation on the Old and New Testaments, b. iv.*

Intentiveness. s. Attribute suggested by Intensive; state of being intensive; diligent employment or application.

The spirit of man, in our perversion through this life, is as little to trust to itself and blood, in point of counsel, for an *intention* upon the progression therein, as a traveller to be advised by his host, whether he should march on, or stay and bide in his house.—*W. Montague, Decent Essays, pt. ii. p. 221.*

Intently. adv. In an intent manner; earnestly.

If we insist passionately or so *intently* on the truth of our belief, as not to proceed to us vigorous pursuit of all just, sober, and godly living.—*Hammond, On Fundamentals.*

The odd paintings of an Indian screen may please a little; but when you fix your eye *intently* upon

them, they appear as disproportioned that they give a painful eye pain.—*Bishop Atterbury.*

The Chin medal seals him with a volume open, and reading *intently*.—*Pope.*

Inténtness. s. Attribut^e suggested by Intent; anxious application.

When after such a course, either of extreme solitude or *inténtness* upon business on the one hand, or of anxiety and freedom of conversation on the other, the frame of a man's spirit comes to be loose and unfixed, and took off from its usual guard; then let him know that the evil hour is preparing for him, and be for that.—*South, Sermons, vi. 232.*

He is now disengaged from his *inténtness* on affairs.—*Swift.*

Inter. Element in composition from the Lat. *inter* - between, among. The French form is *entre*; which, in English, becomes *inter*, as in *entertain*. That the two forms may be confounded with one another is what we expect from the confusion between *en* and *in*. The principle, however, which regulates their use is the same in both cases. When a word is introduced ready-made we take one form; when we put the parts together in English we take another. Thus we say *Entertain* and *Inter-middle*. But, though the principle is the same, the application of it is different. As compared with *in*, the French *en* prevails, being used before even words of English origin. As compared with *entre* the Latin *inter* prevails, being used before both French and English words, as *inter-marry*, *inter-faure*.

In respect to its import, *inter*, though it may signify both *among* and *between*, generally signifies the latter; with which power it is often prefixed to a word already suggestive of mutual action; being in such cases more or less unnecessary.

Inter. v. a. [Fr. *enterrer*; Lat. *terra* - earth. *Enterr*, etymologically, is the better spelling.] Bury.

The evil that men do lives after them;
The good is but *interred* with their bones.
—*Shakespeare, Julius Caesar, iii. 2.*

The ashes, in an old record of the council, are said to have been *interred* between the very wall and the altar where they were taken up.—*Addison, Tragedy in Italy.*

This best way is to *inter* them as you furrow pease.—*Shakespeare, Measure for Measure.*

Interact. s. In the Drama, Interval between the acts, usually filled up by music.

Play, in good company, is only play and not gaming not deep, and consequently not dangerous nor dishonourable; it is only the *interact* of other amusements.—*Lord Underhill.*

Interammanian. adj. [Lat. *amnias* - river.] Lying between rivers. Rare.

The passing of a river could not be reckoned an extraordinary occurrence, especially when the person spoken of lived in an *interammanian* country; and in a part of it which was also bounded by two streams, the Tiber and the Euphrates.—*Druid, Mythology, iii. 125.*

Interbastation. s. [bast - in the sense given by sempstresses.] Patchwork. Obsolete.

Many clergymen write in so diminutive a manner, with such frequent blots and interlineations, that they are hardly able to go on without perpetual hesitations.—*Swift.*

Interlining. *s.* Correction, alteration, or explanation made by writing between the lines.

[He] cancelled an old will, and forged a new; Made wealthy at the small expense of signing, With a wet seal, and a fresh interlining.

Dryden, Translation of Juvenal, sat. i. 101.

The two papers found in his [Charles the Second's] strong box concerning religion, and afterwards published by his brother, looked like study and reasoning. Trenchard told me, he saw the original in Begg's hand, to whom king James trusted them for some time. They were interlined in several places. And the interlinings seemed to be writ in a different hand from that in which the papers were writ.—*Bishop Burnet, History of his own Time.*

Interlink. *v. a.* Connect chains one to another; join one in another.

The fair mixture in pictures causes us to enter into the subject which it imitates, and imprints it the more deeply into our imagination and our memory; these are two chains which are interlinked, which contain, and are at the same time contained.—*Dryden, Translation of DuRoi's Art of Painting.*

Interlocation. *s.* [Lat. *locatio*, -onis; *locus* = place.] Interplacing; interposition.

Your eclipse of the sun is caused by an interlocation of the moon betwixt the earth and the sun.—*Duke of Buckingham, Rehearsal.*

Interlocution. *s.* [Lat. *locutio*, -onis; *loquor* = speak; pres. part. *locutus*.]

1. Dialogue; interchange of speech.

The plainest and the most intelligible rehearsal of the psalms they savour not, because it is done by interlocation, and with a mutual return of sentences from side to side. *Hooker, Ecclesiastical Polity.*
A good continued speech, without a good speech of interlocation, shews slowness. *Bacon, Essays, of Dignities.*

2. Preparatory proceeding in law; intermediate act before final decision.

These things are called accidental, because some new incident in judicature may emerge upon them, on which the judge ought to proceed by interlocution.—*Ayliffe, Pervergon Juris Canonici.*

Interlocutor. *s.* Dialogist; one who takes part in a dialogue.

Six persons, who were all, save one, interlocutors in the dialogue.—*Sir J. Heyrickton, Metamorphosis of Ajax, 1201.*

The interlocutors in that dialogue make it their business to cast scorn.—*Gregory, Notes on Scripture, p. 104.*

The interlocutors in this dialogue are Socrates, and one Minus an Athenian, his acquaintance.—*Bentley, Dissertation on Phalaris.*

Some unwise readers shall find fault with my having made the interlocutors complain with one another.—*Huy.*

Interlocutory. *adj.*

1. Consisting of dialogue.

When the minister by exhortation raised them up, and the people by protestation of their readiness declare he speaketh not in vain unto them: these interlocutory forms of speech, what are they else but most effectual, partly testifications, and partly inflammations of all piety?—*Hooker, Ecclesiastical Polity.*

2. Preparatory to decision.

The chancellor's decree is either interlocutory or final.—*Sir W. Blackstone.*

Interlope. *v. n.* Run between parties and intercept the advantage that one should gain from the other; traffic without a proper licence; forestall; anticipate irregularly.

Interloping. *part. adj.* Acting as an interloper.

I believe it is no small affliction to this gentleman's advantage, as well as his bookseller, to find their place, which they seek out in a tolerable price and paper, immediately seized on by three or four interloping printers in Great-street.—*Swift, Answer to Dr. Keble*. (Ord MS.)

Interlude. *s.* [Lat. *ludo*—I play; *ludus*—a play.]

1. Something played at the intervals of a dramatic representation, puerile, or festivity.

When there is a queen, and ladies of honour attending her, there must sometimes be masques, and revells, and interludes. *Baron, Advice to a Villain*.

The enemies of Socrates hired Aristophanes to persecute him on the stage, and by the insinuations of those interludes, conveyed a hatred of him into the people.—*Dr. H. More, Government of the Tongue*.

Dreams are but interludes, which fancy makes; When unwarmed reason sleeps, this mimic wakes. *Dryden, The Cuck and the Fox*, 325.

2. Name applied to a particular form of the early English dramas, intermediate, in point of time, to the miracle and mystery plays of the middle ages and the Elizabethan drama, as consisting in tragedies, comedies, historical plays, and the like. See extracts.

John Heywood's dramatic productions almost form a class by themselves; as they are neither miracle-plays nor moral-plays, but what may be properly and strictly called *interludes*, a species of writing of which he has a claim to be considered the inventor, although the term *interlude* was applied generally to theatrical productions in the reign of Edward IV.—*Collier, History of Dramatic Poetry*, ii. 153.

Mr. Collier appears to consider the *interludes* of John Heywood, the earliest of which must have been written before 1521, as first exhibiting the moral play in a state of transition to the regular tragedy and comedy. A notion of the nature of these compositions may be collected from the idea of one of them. A merry play between the Pardoner and the Friar, the Curate and the neighbour Parson, printed in 1577. . . . Here . . . we have a dramatic tale, or incident at least, conducted not by allegorical personifications, but by characters of real life, which is the essential difference that distinguishes the true tragedy or comedy from the mere moral. Heywood's interludes, however, of which there are two or three more of the same description with this (besides others partaking more of the allegorical character), are all only single acts, or more than the mere outbursts or enlarges of the regular comedy. . . . The earliest English comedy, properly so called, that has yet been discovered, is commonly considered to be that of Ralph Roster-house. . . . This . . . comedy carries us back to about the same date with the earliest of Heywood's *interludes*; and it certainly was produced while that writer was still alive, and in the height of his popularity. It may be observed that Wilson calls Chaucer's play an *interlude*, which would therefore seem to have been at this time the common name of any dramatic composition, in which it appears to have been for nearly a century prevailing. The author himself, however, calls his personae, sometimes it as a comedy, or *interlude*, and as an imitation of the classical models of Phœbus and Terence. *Cruik, History of English Literature and of the English Language*, vol. i. pp. 41-7.

Interlude. *s.* Actor in an interlude. *Obsolete.*

Is't not a fine sight to see all our children under interludes? *B. Jonson, Staple of News*.

Intermède. *v. n.* Intermix officiously.

The practice of Spain hath been by war, and by conditions of treaty, to intermeddle with foreign states, and declare themselves protectors general of Catholicks.—*Bacon*.

There were no ladies, who disposed themselves to intermeddle in business. *Lord Chalmers*.

A love of labour for its own sake, a restless and insatiable longing to dictate, to intermeddle, to make his power felt, a profound scorn and distrust of his fellow-creatures, made him a Frederick unwilling to ask counsel, to confide important secrets, to delegate ample powers. *Macaulay, Critical and Historical Essays, Frederick the Great*.

Intermeddler. *s.* One who intermeddles; busybody.

There's hardly a greater pest to government and families, than officious intermeddlers, and busy intermeddlers.—*Sir H. B. Esdaile*.

Thurall and our stockholders direct her majesty not to change his secretary or treasurer, who for the reason that these officious intermeddlers demanded their continuance, ought never to have been admitted into the least trust.—*Swift*.

Intermediacy. *s.* Interposition; intervention.

In birds the auditory nerve is affected by only the *intermediacy* of the eardrum. *Berthoud*.

Intermedial. *adj.* Intervening; lying between; intervening.

The love of God makes a man temperate in the midst of feasts, and is active enough without any *intermedial* appetites.—*Jeremy Taylor*.

Intermediato. *adj.* [Lat. *medius*—middle.] Intervening; interposed; holding the middle place or degree between two extremes.

Do not the most refrangible rays excite the shortest vibrations for making a sensation of a deep violet, the less refrangible the largest for making a sensation of deep red, and the several *intermediato* shades of rays, vibrations of several *intermediato* degrees, to make sensations of the several *intermediato* colours? *Sir I. Newton, Opticks*.

Intermediato. *v. n.* Intervene; interpose.

Intermediating. *part. adj.* Intervening.

The tyranny of his, the sun's fierce beams reigning here, is counteracted by those *intermediating* need-les, which conspire to the fidelity of other regions.—*Sir H. Sherrin, in Lord Halifax's Miscellanies*, p. 11.

Intermediation. *s.* Act of one who intermeddles.

All the vital functions and sensations are all performed by the spirit, by the *intermediation* only of motions, vibrations, and tremors. *Chapman, Philosophical Conjectures and Discourses*, iv. (Ord MS.)

There can be no argument, there can only when they are so circumstanced as not to be directly comparable; whenever it follows that their relative magnitudes, if determined at all, must be determined by the *intermediation* of magnitudes to which they are comparable. *H. Spencer, Principles of Psychology*.

Intermediations. *adj.* Intermediate. *Rare.*

The juncture of them being in their opinion so close, that there was nothing *intermediatio*, or that could possibly be thrust in between them.—*Coleridge, Intellectual System*, 206. (Ord MS.)

Intermedium. *s.* Medium.

It seemed necessary that I should account for my apparent tardiness to comply with the oblique request of a lady, and of a lady who employed you as her *intermedium*.—*Corneille, Correspondence*, p. 254. (Ord MS.)

Intermission. s.

1. Cessation for a time; pause; intermediate stop.

Came a rocking post,
Deliver'd letters, spits of intermission,
Which presently they read.

Shakespeare, King Lear, ii. 4.
I could intermission almost the same thing as change; for that that hath been intermitted is after a sort new.—*Johnson.*

The water ascends gently, and by intermissions; but it falls continually, and with force.—*Bishop Wilkins, Despatch.*

The peasants work on, in the hottest part of the day, without intermission.—*Luttrell.*

From the day on which Cromwell was called a second time to the chief direction of affairs, parliamentary corruption continued to be practised, with scarcely any intermission, by a long succession of statesmen, till the close of the American war.—*Macaulay, History of England, ch. xiv.*

2. Intervening time.

But, gentle heaven,
Cut short all intermissions; front to front,
Bring thou this fiend of Scotland and myself.
Shakespeare, Macbeth, iv. 3.

3. State of being intermitted.

Words borrowed of antiquity have the authority of years, and out of their intermission do win to themselves a kind of grace-like newness.—*B. Johnson.*

4. Space between the paroxysms of a fever, or any fits of pain; rest; pause of sorrow.

Rest or intermission now I find.

Milton, Paradise Lost, ii. 802.
The malignant, or malignant form of epidemic fever, is in almost all cases the remittent. . . . The mere fact of intermission shows that the constitutional power . . . is superior to the power of the disease, and gains periodically the mastery over it. . . . The progress of intermitting fevers is subject to great variation. Some run their course rapidly; some extend to weeks, or even years. The former are called acute, the latter chronic,agues.—*Gregory, Theory or Practice of Medicine, pt. i. ch. vi.*

Intermissive. adj. Coming by fits; not continual.

I reduced Ireland, after so many intermissive wars, to a perfect passive obedience.—*Howell, England's Tears.*

As though there were any friction in nature, or justifiably imaginable in professions, whose subject is under no intermission but constant way of mutation, this season is commonly termed the physicians' vacation.—*Sir W. Browne, Vulgar Errors.*

Intermit. v. a. [Lat. *mitto* = send; pass. part. *missus*; *missio*, *-missio*.] Forbear anything for a time; interrupt.

If nature should intermit her course, and leave altogether, though it were but for a-while, the observation of her own laws.—*Hooker, Ecclesiastical Polity.*

His misled, lascivious son,
Edward the Second, intermitted so
The course of glory.

Daniel, Civil Wars of York and Lancaster.

Intermit. v. n. Cease for a time; be interrupted; grow mild between the fits or paroxysms: (applied to fevers).

The bell toll toll for him that thinks it doth;
and though it intermit again, yet from that minute,
which that occasion wrought upon him, he is united to God.—*Quaker, Devotions, p. 415.*

Our fever for fully never intermits.—*Young, Centaur not fabulous, l. 2.*

Let me know the next time when your courts intermit.—*Johnson, Letter to Boswell.*

Intermittent. adj. Coming by fits. In Medicine, specially applied to diseases with periodical character of the ague.

Next to those durable pains, short intermittent or swift recurrent pains do precipitate patients into consumptions.—*Harvey.*

Used substantively.

Endemic, or endemical, fevers assume two very different forms or characters, viz. the *intermittent* and the remittent. . . . *Intermittents* are readily distinguished from every other form of idiopathic fever, by their occurrence in paroxysms, each of which may be considered as an epitome of a febrile disease, exhibiting in the course of about eight hours all the stages of fever—its rise, progress, crisis, and termination in the recovery of health. This circumstance has contributed to give to *intermittent* fever a large

INTE

share of the attention of pathologists. . . . The symptoms which occur in the paroxysm of an *intermittent* fever divide themselves in the first place into the two great classes of regular and superadded. The former admit of an obvious subdivision into three stages: the cold, the hot, and the sweating, in the course of which the different functions of the body undergo very remarkable changes. . . . After a certain interval, the main symptoms now described is renewed, and the period of recurrence given what is called the type of fever. From very early times, three primary types of *intermittent* have been observed—the quotidian, the tertian, and the quartan, in which the febrile paroxysm completes its revolution in the respective periods of twenty-four, forty-eight, and seventy-two hours. Of these the most common is the tertian, and this, therefore, is always considered as the primary type of fever. Several irregular types of *intermittent* fever have been noticed by authors, such as the double tertian, the semitercian, and the double quartan, but they are not of frequent occurrence. The double quartan may be taken as a specimen. In this variety of fever, paroxysms occur on two successive days, followed by one of intermission; the paroxysms of the first and fourth day corresponding in the character and the severity of the symptoms, as well as in the hour of attack; and so of the second and fifth, though varying in each of these points from the two others.—*Dr. Gregory, Theory and Practice of Medicine, pt. i. ch. xi.*

Intermitting. part. adj. Intermittent.

(For example see *Intermission*, 4.)

Intermittingly. adv. In an intermitting manner; at intervals; not long together.

These grains or notes, willingly left in that eye,

posed; passing between.

There is *intervenit* in the rise of eight, in tones,
two bounds or half notes. —*Baron, Natural and
Experimental History*.

Many arts were used to discuss new affection; all
which notwithstanding, for I omit thence *intervenit*,
there is conveyed to Mr. Villiers an intimation
of the king's pleasure to be sworn his servant.
—*Sir H. Wotton*.

Intervention. s. Interposition; state of
being interposed; agency between persons,
or between antecedents and consequents.

In the dispensation of God's merits to the world,
some things he does by himself, others by the *inter-
vention* of natural means, and by the mediation of
such instruments as he has appointed. —*Sir R.
L. Estlin*.

God will judge the world in righteousness by the
intervention of the man Christ Jesus, who is
the Mediator as well as the judge of the world. —*Bishop
Atterbury*.

Let us decide our quarrels at home, without
the *intervention* of any foreign power. —*Sir H.
Temple*.

Sound is shut out by the *intervention* of that lax
membrane, and not suffered to pass into the inward
ear. —*Haller*.

Intervénue. s. [see Venue.] Interposition;
state of being placed between. *Rare*.

This crown had now had two weak primers, with-
out *intervénue* of any one active. —*Sir H. Blount*,
Voyage to the Levant, p. 227: 1030.

Intervért. v. a. [Lat. *verto* = turn.] Turn
to another course, or use. *Rare*.

The duke *intervérted* the bargain, and gave the
poor widow of Kyrus for the books five hundred
pounds. —*Sir H. Wotton*.

The elder apprentice *intervérted* five pounds of
his master's money. —*Life of Frowde*, p. 8: 108.

Interview. s. Mutual sight; sight of each
other: (usually applied to a formal, ap-
pointed, or important meeting or confer-
ence).

The day will come when the passions of former
enmity being allayed, we shall with ten times re-
doubled tokens of reconciled love show ourselves
each towards other the same, which Joseph and the
brothers of Joseph were at the time of their *inter-
view* in Egypt. —*Hunter, Ecclesiastical History*.

Intervolve. v. a. [Lat. *volvō* = roll.] In-
volve one within another.

Mystical dance! which yonder starry spheres
Of planets, and of fixed, in all her wheels
Remembers nearest; masses intricate,
Eccentric, *intervolv'd*, yet regular,
Then most, when most irregular they seem.

Milton, Paradise Lost, v. 620.

Intervolve. v. a. pret. *intervolve*; past part.
-volved (less correctly *-vove* or *-volved*).

Mix one with another in a regular texture;
intermingle.

Come on, come on; and, where you go,
So *intervolve* the curious kind,
As e'en the observer scarce may know
Which lines are Pleasure's, and which not.

R. Johnson, Maquet.

Prayer . . . is of a soft and sociable nature, and it
can incorporate and sink into our business like
water into ashes, and never increase the bulk of
them: it can mix and *intervolve* itself with all our
cares, without any hindrance unto them; nay, it is
a great strength and improvement unto them. —
John, Golden Remains, p. 141.

I sat me down to watch upon a bank
With ivy enwreld, and *intervolve*
With flaunting honeysuckle. —*Milton, Comus*, 513.

Can say here nature ends and art begins;
But mix like the elements, and born like twins,
So *intervolve'd*, so like, so much the same;
None this mere nature, that mere art can name.

Sir J. Ingham, On Mr. John Fletcher's Works.
It appeared a vast ocean planted with islands,
that were covered with fruits and flowers, and *inter-
volved* with a thousand little shining seas that
ran among them. —*Addison*.

Intervolving. verbal abs. Intertexture.

What *intervolvings* or *intervolvings* can knit
the minister and the magistrate in their several
functions! —*Milton, Of Information in England*,
ii. 11.

Intervish. v. a. *Wish* mutually in respect
to each other. *Rare*.

The reason of all stoppages, semester's gall,
What tyrants and their subjects *intervish*,
Fall on that man! —*Doune, Poems*, p. 31.

Intervorking. verbal abs. Act of working
anything into anything else, as in em-
broidery.

(For example see extract under Intervear-
ing.)

Intervolved. part. adj. Worked in as part
of a tissue: (in the extract it is a Latin-
ism, or rather a mere translation of the
line, 'Purpurea *intexti* togant' aurea Bri-
tanni').

The proud theatre disclose the scene,
Which *intexti* a Briton seem to raise,
And show the triumph which their shame displays.
Drayton, Translation of the Georgics, iii. 38.

Intervolve. v. a. Weave, twist, or plait.

Intervolved. part. adj. Woven in a
wreath.

Say, happy youth, crown'd with a heavenly ray
Of the first flame, and *intervolved* bay,
Inform my soul. —*Lovell, Lucinda Posthuma*, p. 67.

Intestable. adj. Disqualified in respect to
the power to make a will. *Rare*.

A person communicated is rendered infamous
and *intestable* both actively and passively. —*Ayliffe*,
Paragon Juris Canonici.

Intestacy. s. Dying without a will; state
resulting therefrom.

Such was the condition of our affairs that arose
out of my uncle's *intestacy*. —*Theodore Hook, Gilbert
Gurney*.

Intestate. adj. [Lat. *testis* = witness; *-
testis* = witness.] Wanting a will; dying

without a will: (the presence of a witness
being of paramount importance in the va-
lidity of a will).

Why should calamity be full of words? . . .
Wily attorneys to their client woe,
Aisy succeders of *intestate* joys,
Pang-breathing orators of miseries.

Shakespeare, Richard III. iv. 4.

Woe's punishment pursues his maw,
Which satisfied and swallow'd, the penance raw,
He bears into the tomb; whence want of breath,
Repletions, vapors, *intestate* death.

Drayton, Translation of Juvenal, sat. i. 214.

Intestinal. adj. Belonging to, connected
with, constituted by, the intestines.

The months of the lacteals are opened by the *in-
testinal* tube, affecting a straight instead of a spiral
cylinder. —*Aschwin*.

Redi also enlarged our knowledge of *intestinal*
animals. —*Hallam, Introduction to the Literature
of Europe during the fifteenth, sixteenth, and se-
venteenth centuries*, pt. iv. ch. viii. § 18.

Intestine. adj.

1. Internal; inward; not external.

Of these inward and *intestinal* enemies to prayer,
there are our past sins to wound us, our present
cares to distract us, our disordered passions to
disorder us, and a whole swarm of loose and floating
imaginings to molest us. —*Dryden*.

Intestine war no more our passions wage,
E'en giddy fictions bear away their rage. —*Pope*.

2. Contained in the body.
Intestine stone, and ulcer, edic pang,
And moon-struck madness.

Milton, Paradise Lost, xi. 488.

A wooden jark, which had almost
Lost, by disease, the art to roast,
A sudden attention feels,
Increased by new *intestinal* wheels.

Swift, Banius and Phileas.

3. Domestic, not foreign.

Since the mortal and *intestinal* jars
Twist thy rebellious countrymen and us,
It hath in solemn synods been decreed,
T' admit no traffic to our adverse towns.

Shakespeare, Comedy of Errors, i. 1.

But God, or nature, while they thus contend,
To these *intestinal* disorders put an end.

Drayton, Translation from Ovid.

She saw her sons with purple deaths expire,
A dreadful series of *intestinal* wars,
Inclinations triumphs, and dishonour scars.

Pope, Windsor Forest.

Intestine. s. [Lat. *intestum*.] Gut; bowel
(often plural).

The *intestines* or guts may be inflamed by an
acid substance taken inwardly. —*Aschwin, On the
Nature and Choice of Aliments*.

The word is of no great use in our language.
Bishop Reynolds, in his *Treatise on the Passions*,
1650, uses the Latin *intestina* for *intestines* (climp.
xv.). —*Todd*.

Intimate. s. [Lat. *intimus* = inmost.] See
Enthrust, &c.

1. Inmost; inward; intimate.

That what I mother'd was of God; I knew,
From *intimate* impulse.

Milton, Samson Agonistes, 221.

Fear being so *intimate* to our nature, it is the
strongest bond of laws. —*Archbishop Tillotson*.

2. Near; not kept at a distance.

Moses was with him in the retirements of the
Mount, received from his private instructions; and
when the multitude were thundered away from any
approach, he was honoured with an *intimate* and
immediate admission. —*Bentley, Sermons*.

3. Familiar; closely acquainted.

United by this sympathetic bond,
You grow familiar, *intimate*, and fond.

Lord Beaconsfield.

Intimate. s. Familiar friend; one who is
trusted with our inmost or inward thoughts.

This desire was to entertain his reason with a
more equal converse, assign him an *intimate* whose
intellect as much corresponded with his as did his
outward form. —*Dr. H. More, Government of the
Tongue*.

Intimate. v. a.

1. Partake of mutually; share together as
friends. *Obsolete*.

So both conspiring ran to *intimate*.
Each other's griefs with gentle alleviation.

Spenser, Faerie Queene, vi. 3. 12.

2. Hint; point out indirectly, or not very
plainly.

Alexander Van Nuthen tells us, that by a way he intimates, may be made a mercury of copper, not of the silver colour of other mercuries, but green.—*Boyle*.

The name of simple ideas and state-terms, with the abstract ideas in the mind, *intimate* some real existence, from which was derived their original pattern.—*Locke*.

Thy Divinity that sits within us;
Thy Heav'n itself that points out an hierarchy,
And intimates eternity to man. *Addison, Gen. v. 1.*

Intimation. s. Hint; obscure or indirect declaration or direction.

Let him strictly observe the first stirrings and intimations; the first hints and whispers of good and evil that pass in his heart.—*South, Sermons.*

Besides the more solid parts of learning, there are several little intimations to be met with on medals.—*Addison*.

Intime. adj. [accent doubtful.] Inward; being within the mass; not being external, or on the surface; internal. *Rare*.

As to the composition or dissolution of mixed bodies, which is the chief work of elements, and requires an *intime* application of the agents, water being the principle and excess over water.—*Sir K. Digby, Treatise on the Nature of Bodies.*

Intimidate. v. a. [Lat. *timidus* - cowardly.] Make fearful; daunt; make timid.

At that tribunal stands the writing tribe,
Which nothing can intimidate, or bribe;
Time is the judge. *Young*

e. New state to which anything is brought by the agency of a cause.

Compound bodies may be resolved *into* other substances than such as they are divided *into* by the fire.—*Boyle*.

A man must sin himself *into* a love of other men's sins; for a bare notion of this black art will not carry him so far.—*South, Sermons.*

Some men art turn to some peculiar fate,
When the mad people rise against the state,
To look them *into* duty; and command
An awful silence with the lifted hand. *Dryden, Translation of Persius.*

In hollow bottoms, if any fainting chance to rise, they naturally spread themselves *into* lanes, before they can find any issue. *Addison, Travels in Italy.*

A man may wine and drink himself *into* intemperance; but it is impossible he should think himself *into* it.—*Beattie*.

Intolerable. adj. [Lat. *intolerabilis*, from *tolero* = bear, put up with; pres. part. *tolerans*, -antis; pass. part. *toleratus*.] Incapable of being borne, endured, or suffered.

If we bring into our day's thoughts the evil of many, certain and unperish, what will be and what will never be, our mind will be as *intolerable* as it is unresolvable.—*Jeremy Taylor*.

His awful presence did the crowd surprise,
Nor durst the rash spectator meet his eye;
Knew that confound'd him born for glory's way,
No there, they flash'd *intolerable* day. *Dryden, Palamon and Arcite, iii. 78.*

Some men are quickly weary of one thing; the same study long continued in is as *intolerable* to them as the appearing long in the same clothes is to a court lady.—*Boyle*.

From Parson's top the Almighty rode,
Intolerable day proclaim'd the God. *Broom, 1286*

Intolerably. adv. In an intolerable manner; to a degree beyond endurance.

She is *intolerably* cruel.

And shrewd, and forward.

Shakespeare, *Taming of the Shrew, i. 2.*
He [Rowe] has added many lines, *intolerably* flowery and unnatural. *J. Warburton, Essay on the Writings and Genius of Pope.*

Intolerance. s. Want of toleration; want of patience and candour to bear the opinions of others.

And you, my lord, is it you of all men living, that stand forth to accuse another of *intolerance* of opinions! *Bishop Leath, Letter to Bishop Warburton, p. 92.*

Those few restrictions, I hope, are no great stretches of *intolerance*, nor very violent exertions of despotism.—*Darke, Reflections on the Revolution in France.*

Intolerant. adj.

1. Not enduring; not able to endure.

Two great moisture affects human bodies with one class of diseases, and two great dryness with another; the powers of human bodies being limited and *intolerant* of excesses.—*Arbuthnot*.

2. Not favourable to toleration.

Why, then, am I branded as an *intolerant* wretch?—*Bishop Leath, Letter to Bishop Warburton, p. 92.*

Intolerant. s. One who is not favourable to toleration.

You might as well have concluded, that I was a Jew, or a Mahometan, as an *intolerant* and a persecutor.—*Bishop Leath, Letter to Bishop Warburton, p. 92.*

Intolerated. part. pref. Not endured; denied toleration.

I would have all intolerance *intolerated* in its turn. *Lord Chatham*.

Intolerant. s. Want of toleration: (Intolerance commoner).

This noise against the Jew bill proceeds from that narrow misapprehension of *intolerance* in religious, and inhospitality in civil matters, which all wise governments should oppose.—*Lord Chatham*.

Intomb. See Entomb.

Intone. v. a. ? Thunder out; ? intone.

See Intonation.

a. As after a partial, though great and adorable accomplishment of the divine economy, our Saviour came, upon a famous and well-known hour, pronounced *intone*, 'It is finished'; so, then, the great *intone* shall be *intoned* by the general voice of the whole host of heaven.—*Harris, On Isaiah iii. p. 202: 1730.*

Intonation. s. [three origins may be given to this word and its congeners; the Greek and Latin *tonus* and *tonus*, French *ton*, and the Latin *ton*, in *tono* - thunder. The French and Greek origin require, the Latin *tonus*, as Anglicized into *tone*, tolerates, the prefix *in*. *Intone*, however, is the common spelling; yet *Intonation*, from which it can scarcely be separated, is no English word.] Utterance with tone.

Whether poetry or prose were in question, one slow and uniform *intonation*, consisting of notes of equal or nearly equal length, was exclusively adopted.—*Mason, Essay on English Church Music, p. 28.*

These were all sung, and more in simple *intonation* or chant, but in this mode of figurate descent.—*Ibid, p. 30.*

In persons of [a nervous] temperament, the heart's sounds are apt to be of higher *intonation*, . . . in proportion as they are more highly *intoned*, they acquire a greater audible extent.—*Dr. P. M. Leitham, Lectures on Subjects connected with Clinical Medicine, comprising Diseases of the Heart, lect. 1.*

Intone. v. n. [see Intonation.] Make a slow protracted noise; perform any religious service with intonation.

And sublimely, sweetly, my heart beat stronger
And thicker, until I heard no longer
The snowy-landed dilettante,
Delicate-hand priest intone. *Tennyson, Maud, viii.*

Intone. v. a. Deliver as an intonation.

No speech each wild-joke, was *intoned* to us
Harmonick twang. *Pope, Dunciad, li. 253.*

Intoned. part. adj. Delivered as, characterized by, an intonation.

His [Mendel's] was not either the richly *intoned* voice swelling the full harmony of the choir, or the tender orison of the humble and weeping penitent.—*Wilman, History of Latin Christianity, v. viii. ch. v.*

Intort. v. a. [Lat. *tortus* = twisted.] Wreath; wring. *Rare*.

The brain is a conglomerate of glands, that separate the finer parts of the blood, called animal spirits; and a gland is nothing but a canal variously *intorted* and wound up together.—*Arbuthnot*.

Intoxicate. v. a. [Lat. *toxicum* = poison.] Inebriate; make drunk.

The more a man drinketh of the world, the more it *intoxicates*; and yet doth profit rather in the powers of understanding than in the virtues of the will and affections.—*Bacon, History of the Reign of Henry VII.*

As with new wine *intoxicated* both,
They swim in mirth, and merrily that they feel
Divinity within them breeding wings,
Wherewith to ascend the earth. *Milton, Paradise Lost, ix. 1099.*

My early misdeeds, now my ancient nurse,
That strong Circean liquor came to infuse,
Wherewith thou didst *intoxicate* my youth.

Sir J. Deane, *Progress of Learning, preface.*
Others, after having done fine things, yet spoil them by endeavouring to make them better; and are so *intoxicated* with an earnest desire of being above all others, that they suffer themselves to be deceived.—*Dryden, Translation of Dufrenoy's Art of Painting.*

Intoxicate. adj. Intoxicated.

Our inward eyes be nothing bright,
While in this muddy world inebriate
They lie, and with blind passions be *intoxicated*.
Dr. H. More, Ship of the Soul, id. 10.

Deep vers'd in books, and shallow in himself,
Crude or *intoxicated*, edifying toys
Milton, Paradise Regain'd, iv. 327.

Intoxication. s. Inebriation; ebriety; act of making drunk; state of being drunk.

That time, being in unity with him, did so long in hatred towards him, as to drink of the lees and dregs of Perkin's *intoxication*, who was every where else beloved.—*Bacon, History of the Reign of Henry VII.*

Whence even this proceed, but from that besetting *intoxication* which vernal merrick brings upon the mind.—*South, Sermons.*

Intractability. s. [Lat. *tracto* - treat, q. v.] Incapability of being treated, dealt with, managed, or governed; ungovernableness.

The obsequiousness to the popes, the wrong-headedness, the *intractability* of those with whom it has to deal.—*Isidore, View of the Evidences of the Christian Religion, p. i. ch. ii.*

Intractable. adj. Incapable of treatment.

By what means serpents, and other noxious and more *intractable* kinds, as well as the more innocent and useful, got together.—*Hawford, Essay towards a Natural History of the Earth.*

Intrans. See Entrance.

Intransitive. adj. Incapable of treatment.

1. Ungovernable; violent; stubborn; obstinate.

To love them who love us is so natural a passion, that even the most *intransitive* tempers obey its force.—*Rogers*.

2. Unmanageable; furious.

By what means serpents, and other noxious and more *intransitive* kinds, as well as the more innocent and useful, got together.—*Hawford, Essay towards a Natural History of the Earth.*

Intranquill. See Entrance.

Intranquillity. s. Unquietness; want of rest.

Jaculations were used for amusement, and alloy in constant toms, and to relieve that *intranquillity* which makes men impatient of lying in their beds.—*Sir W. Temple*.

He lived not far from Westminster-abbey, within hearing of the choir, which perhaps did not a little contribute to his *intranquillity*.—*Political Death of Tom Whig, Esq, p. i. p. 1710.*

Intransient. adj. Not transient or passing away; permanent.

An incommunicable, an *intransient*, indefeasible priesthood.—*Killingbeck, Sermons, p. 33.*

Intransitive. adj. In Grammar applied to verbs, not connected with the name of the object upon which the action implied takes effect.

The occasion of such difference is from a question of grammar, whether the verb be in signification *intransitive* or transitive.—*Locke, Commentary on Horace, p. 37.*

A verb *intransitive* is that which signifies an action, not connected as having an effect upon any object; as, 'emerge,' 'run.' *Clarke, Latin Grammar.*

Intransitively. adv. According to the nature of an intransitive verb.

Yet again it [the verb] is manifestly, in the same form, used *intransitively*.—*Locke, Commentary on Horace, p. 38.*

The difference between verbs absolutely neuter, and *intransitively* active, is not always clear.—*Bishop Leath, A short Introduction to English Grammar.*

Intransmutability. s. Incapability of being transmuted.

This fixedness and *intransmutability* of principles secures the universe from dissolution by the prevailing of one element over another, and turns it into its own nature.—*Ray, On the Dissolution of the World*, ch. v. sect. 4. (Ord. M.)

Intransmutable. *adj.* Incapable of being transmuted.

None of the most experienced chemists do affirm quicksilver to be *intransmutable*, and therefore call it liquor eternum.—*Ray, On the Wisdom of God manifested in the Works of the Creation*.

Intrans. *adj.* [Lat. *intrans*, -*antis*, pres. part. of *intro* = enter.] Entering.

A new oath was arbitrarily imposed on *intrants*, by which they were to observe the articles of Perth, and submit to the liturgy and canon.—*Hume, History of England*, ch. liii. (Ord. M.)

Intrap, Intreasure, Introat. See *Entrap*, &c.

Intréach. *v. n.* [from Fr. *tréncher* = cut.] Invade; encroach; cut off part of what belongs to another: (with *on* or *upon*).

Durst he, who does but for my pleasure live,
Intréach on love, my great prerogative!

Dryden, Aurengzebe.

We are not to *intréach* upon truth in any conversation, but least of all with children.—*Locke*.

Intréach. *v. a.* Cut into.

It was this very sword *intréach'd*.
Shakespeare, All's well that ends well, i. 1.
Those who care not whose living faces they *intréach* with their petulant styles.—*B. Jonson, Volpone*, dedication.

A young fellow long made love, with much artifice and *intrigue*, to a rich widow.—*Addison, Guardian*.

The hero of a comedy is represented victorious in all his *intrigues*.—*Swift*.

Chemistry divided, for a time, with wine and love, with the stage and the gaming table, with the *intrigue* of a courtier and the *intrigue* of a demagogue, the attention of the noble Buckingham.—*Macaulay, History of England*, vol. i. ch. iii.

2. Intriguery; complication. *Rare.*

Though this vicinity of ourselves to ourselves cannot give us the full prospect of all the *intrigues* of our nature, yet we have much more advantage to know ourselves, than to know other things without us.—*Sir J. Hale, Origination of Mankind*.

3. Complication or perplexity of a fable or poem; artful involution of a fictitious transaction.

If you go beyond one consequence, there are so many certain but indistinguishable fallibilities, so many *intrigues* of fancy in the disputes, and so much unpopularity in the hearer, that it is ten to one they rather do not understand one another, or do not understand the articles, and so it is in law.—*Jeremy Taylor, Doctor Deditulum*. (Ord. M.)

As causes are the beginning of the action, the opposite designs against that of the hero are the middle of it, and form that difficulty or *intrigue* which makes up the greatest part of the poem.—*Pope*.

Intrigue. *v. n.* Carry on, set in action, an intrigue.

Russia has never ceased to *intrigue* in these quarters.—*N. Educator, The Polish Captivity*.

Intrigue. *v. a.* Perplex. *Rare.*

Great discursive were apt to *intrigue* affairs, dispute the prince's resolutions, and stir up the people.—*L. Addison, Description of Western Barbary*, pref.: 1671.

How dark it [is] perplex and *intrigue* the whole course of your lives, and entangle ye in a labyrinth of knavish tricks and collusions.—*Scott, Christian Life*, l. 4.

Intriguer. *s.* One who busies himself in private transactions; one who forms plots; one who pursues women.

I desire that *intriguers* will not make a pump of my lion, and convey their thoughts to one another.—*Addison*.

That club of *intriguers* who assembled at the Feuillants, and whose cabinet meets at Madame Stal's, and makes and directs all the ministers, is the real executive government of France.—*Bucke, Thoughts on French Affairs*: 1791.

Intriguing. *part. adj.* Plotting; caballing.

The *intriguing* and determined genius of Cromwell was forced to bow down with it.—*Brand, Essay on Political Associations*, p. 127.

Intrinsic. *adj.*

1. Inward; internal; real; true.

Intrinsic goodness consists in accordance, and sin in contrariety to the secret will of God, as well as to his revelation.—*Howland, On Fundamentalism*.

2. Not depending on accident; fixed in the nature of the thing.

His name, like gold, the more 'tis tried,
The more shall its *intrinsic* worth proclaim.

Prior.

Intrinsic. *adj.* [Lat. *intrinsecus*.]

1. Internal; solid; natural; not accidental; not merely apparent.

There are sins of a contagious nature, apt to diffuse their venom to others; as there are other sins, whose evil is *intrinsic*, to the owner.—*Bishop Hall, Cases of Conscience*.

These measure the laws of God not by the *intrinsic* goodness and equity of them, but by the expediency and opposition which they find in their own hearts against them.—*Leishington Tillotson*.

The near and *intrinsic* and convincing argument of the being of God, is from human nature itself.—*Bentley*.

2. Intimate; closely familiar. *Obsolete.*

He falls into *intrinsic* society with Sir John Graham, . . . who dissuaded him from marriage.—*Sir H. Wotton*.

Far off to us, to thee near; yes, *intrinsic*.—*Bishop Hall, Contemplations on the Old and New Testaments*, b. iv.

Intrinsically. *adv.*

Altho' is a thing absolutely and *intrinsically* evil.—*South, Sermons*.

Every one of his pieces is an ingot of gold, *intrinsically* and solidly valuable.—*Prior*.

2. Within; at the inside.

In his countenance and open altercation, but the less he showed without, the more it wrought *intrinsically*.—*Sir H. Wotton*.

If once bereaved of motion, matter cannot of itself acquire it again; nor till it be thrust by some other body from without, or *intrinsically* moved by an immaterial self-active substance that can pervade it.—*Bentley*.

Intrinsicate. *adj.* Perplexed; entangled.

Such sailing courses as these,
Like rats, oft bite the body curbs in twain,
Too *intrinsicate* to unlace.

Shakespeare, King Lear, ii. 2.

Come, mortal wretch,
With thy sharp teeth this knot *intrinsicate*

Of life at once untie.

Id., Antony and Cleopatra, v. 2.
There are certainly punctilios, or (as I may more unkindly insinuate them) certain *intrinsicate* strokes and wards, to which your activity is not yet amounted.—*B. Jonson, Cynthia's Revels*.

Introduce. *v. a.* [Lat. *duco* = lead; pass. part. *ductus*; *ductio*, -*onis*.]

1. Conduct or usher into a place, or to a person.

Mathematicians of advanced speculations may have other ways to *introduce* into their minds ideas of infinity.—*Locke*.

2. Bring something into notice or practice.

This vulgar error whosoever is able to reclaim, he shall *introduce* a new way of cure, preserving by theory as well as practice.—*Sir T. Browne, Vulgar Errors*.

An author who should *introduce* a quart of words upon the stage, would meet with small applause.—*Brown*.

3. Produce; give occasion to.

Whosoever *introduces* lights in children, deserves the ray and attention of their governors.—*Locke, Thoughts on Education*.

4. Bring into writing or discourse by proper preparatives.

If he will *introduce* himself by preface, we cannot help it.—*Lager's Trick*.

Introducer. *s.* One who introduces; one who conducts another to a place or person; one who brings anything into practice or notice.

The beginning of the earl of Essex I must attribute to my lord of Leicester; but not as an *introducer* or supporter, but as a teacher.—*Sir H. Wotton*.

It is commonly charged upon the army, that the best view of drinking to excess hath been lately, from their example, restored among us; but whoever the *introducers* were, they have succeeded to a miracle.—*Swift*.

Introduction. *s.*

1. Act of conducting or ushering to any place or person; state of being ushered or conducted; act of bringing any new thing into notice or practice; introducing.

The archbishop of Canterbury had pursued the *introduction* of the liturgy and the canon into Scotland with great vehemence.—*Lord Clarendon*.

2. Preface or part of a book containing preliminary matter.

Introductive. *adj.* Serving as an introduction.

The truths of Christ crucified, in the Christian's philosophy, and a good life, is the Christian's topic; that great instrumental *introductive* art, that must guide the mind into the flower.—*South, Sermons*.

Introducer. s. One who introduces; introducer. *Latinism, or rhetorical.*

No formality was necessary in addressing Madam Prime, and therefore Levinus went next morning without an introducer. — *Johnson, Rambler*, no. 182.

Introductory. adj. Serving as an introduction.

This introductory discourse itself is to be but an essay, not a book. — *Bayle.*

Intromission. s. [Lat. *mitto* = send; pres. part. *mittens*, -*entis*; pass. part. *missus*.]

1. Act of sending in.

All the reason that I could ever hear alleged by the chief factors for a general intromission of all sects and persuasions into our communion, is, that those who separate from us are still and obstinate, and will not submit to the rules of our church, and that therefore they should be taken away. — *South, Sermons.*

2. Admission.

The soft yielding Ether gives admission: So gentle Venus to Mercurius daren Descent, and thus an easy intromission. — *Dr. H. More, Song of the Soul*, III. 3, 34.

It is worthy inquiry, whether the intromission of venial sins, without which no man lives, does hinder the fruit of the indulgence; for if it does, all the cost is lost. — *Jeremy Taylor, Discourses against Popery*, II. § 4.

Intromit. v. a. [see Intromission.]

1. Send in; let in; admit.

This del. (the fish) has been often observed, by means of his crooked bill, *intromitted* into the anus, to inject salt water, as with a syringe, into his own bowels. — *Greenhill, Art of Embalming*, p. 212.

2. Allow to enter; be the medium by which anything enters.

It intromits more cases and scruples than it can relieve. — *Jeremy Taylor, Discourses against Popery*, II. § 2.

Intromittent. adj. In Zoology. Applied to the male organ of the lower animals.

The *intromittent* organ which exists in the great majority of the class is also double in most of these, as in serpents and many lizards. — *Gray, Lectures on the Comparative Anatomy of Vertebrate Animals*, Introl. lect.

Introspection. s. Act of receiving internally. *Rare.*

We feel the love of Christ to us ever suffered to come into our hearts, as species to the eye by *introspection*; but we feel come to the least taste and relish of it; what would we not do to recompense, and answer, and entertain that love! — *Hammond, Works*, II. 566.

Introspection. s. [Lat. root of *spec* = view; *in-specio*, pass. part. *-spectus*; *-spectio*, -*onis*.] Internal view.

The actions of the mind or imagination itself, by way of reflection or *introspection* of themselves, are discernible by man. — *Sir M. Hale, Origin of Morals*.

I was forced to make an *introspection* into my own mind, and into that idea of beauty which I have formed in my own imagination. — *Dryden.*

Introsime. v. a. [Lat. *sumo* = take.] Suck in.

How they creak, then *introsime* their proper food. — *Keedy*, IV. § 21.

Introsusception. s. Taking up internally.

The parts of the body are either animate or inanimate; either such as participate of the life of the whole, and are nourished by the *introsusception* of external elements, &c. — *Smith, Portrait of Old Age*, p. 164.

Introsument. adj. [Lat. *venio*, -*entis*; pres. part. of *venio* = come.] Entering; coming in.

Secure my condition which is not exhausted and obscured, from the commixture of *introsument* nations, either by commerce or conquest. — *Sir T. Browne, Vulgar Errors*.

Introversión. s. [Lat. *verto* = turn; pass. part. of *versus*; *versio*, -*onis* = turning.] Act of inverting.

It is the privilege of a thinking being to withdraw from the objects that solicit his senses, and turn his thoughts inward on himself. For my own part, I often mitigate the pain arising from the little misfortune and disappointments that beset human life, by this *introversión* of my faculties, wherein I regard my own soul as the image of her Creator, and receive great consolation from beholding those perfections which testify her divine origin, and lend me to some knowledge of her everlasting archetype. — *Beckley, Guardian*, no. 30. (Ord. MS.)

Introvert. v. a. "Turn inwards."

Every smelter in anatomy knows, that a woman is but an *introverted* man. — *Martianus Scribnerus, Anatomia Utriusque*. (Ord. MS.)

Introverted. part. adj. Turned in.

His awkward gait, his *introverted* toes, bent knees, round shoulders. — *Cowper, Task*, b. IV.

Intrádo. v. n. [Lat. *trudo* = thrust; pass. part. *trusus*.]

1. Come in unwelecome by a kind of violence; enter without invitation or permission.

Thy years want wit, thy wit wants edge And unumers, to *intrádo* where I am grac'd. — *Shakespeare, Titus Andronicus*, II. 3.

The Jewish religion was yet in possession; and therefore that this might so enter, as not to *intrádo*, it was to bring its warrant from the same hand of omnipotence. — *South, Sermons.*

With an *or* upon.

Some thoughts rise and *intrádo* upon us, while we slum them; others fly from us, when we would hold them. — *Watts.*

2. Enroach; force in uncalld or unpermitted: (with *into*).

Let no man bewile you of your reward in a voluntary humility and worshipping of angels, *intrádo* into those things which he hath not seen, vainly puffed up by his fleshly mind. — *Colossians*, II. 18.

Intrádo. v. a.

1. Force without right or welcome: (commonly with the *reciprocal pronoun*).

Not to *intrádo* one's self into the mysteries of government, which the prince keeps secret, is represented by the winds shut up in a bull hide, which the companions of Ulysses would needs turn so foolish as to pry into. — *Pope.*

2. Force in; cast in.

If it "a clyster" should be *intrádo* up by force, it cannot so quickly penetrate to the superior parts. — *Greenhill, Art of Embalming*, p. 273.

Intráder. s. One who forces himself into company or affairs without right or welcome.

They were but *intráders* upon the possession, during the minority of the heir: they knew those lands were the rightful inheritance of that young lady. — *Sir J. Doria, Discourse on the State of Ireland*.

3. The whole fraternity of writers rise up in arms against every one who *intráder* into the world of fame. — *Addison, Freetholder*.

Intráding. verbal abs. Intrusion.

This is the medicine against our daily imperfections and intradings of lesser crimes and sudden emigration of passions. — *Jeremy Taylor, Worthy Communion*, 203. (Ord. MS.)

Intrusión. s. [Lat. *intrusio*, -*onis*, from *trudo*, *trusus*.]

1. Act of thrusting or forcing any thing or person into any place or state.

Many excellent strains have been jostled off by the *intrusión* of practical fellows. — *Sir T. Browne, Vulgar Errors*.

The separation of the parts of our body, upon the *intrusión* of another, and the change from rest to motion upon impulse, and the like, seem to have some connection. — *Locke.*

2. Enroachment upon any person or place; unwelecome entrance; entrance without invitation or permission.

I think myself in better plight for a lender than you are, the which hath something emboldened me in this unseasoned *intrusión*; for they say, if money go before, all ways do lie open. — *Shakespeare, Merry Wives of Windsor*, II. 2.

How's this, my son? Why this *intrusión*? Were not my orders that I should be private? — *Addison, Cato*.

I may close after so long an *intrusión* upon your meditations. — *Archbishop Wake, Preparation for Death*.

3. Voluntary and uncalld-for undertaking of anything.

It will be said, I handle an art no way suitable either to my employment or fortune, and so stand off with *intrusión* and impertinency. — *Sir H. Walton.*

Intrúsive. adj. Intruding upon; entering without welcome.

Let me shake off the *intrúsive* cares of day, And my meddling senses all awhile. — *Thompson, Seasons, Winter*.

Intrúst. See Entrust.

Intuition. s. [Lat. *intueor* = look at, view, contemplate, see at once; preterite part. *intuitus*; *intuitio*, -*onis*.]

1. Mental perception of anything; immediate knowledge.

At our rate of judging, St. Paul had passed for a most malicious persecutor; whereas God saw he did it innocently in unbelief, and upon that *intuition* had mercy on him. — *Dr. H. More, Government of the Tongue*.

The truth of these propositions we know by a bare simple *intuition* of the ideas, and such propositions are called self-evident. — *Locke.*

2. Knowledge not obtained by deduction of reason, but instantaneously accompanying the ideas which are its object.

All knowledge of causes is deductive; for we know none by simple *intuition*, but through the mediation of their effects; for the causality itself is inseparable. — *Glasseville.*

Discourse was then almost as quick as *intuition*. — *South, Sermons.*

He their single virtue did survey, By *intuition* in his own large breast. — *Dryden.*

Intuitive. adj. Seen at once by the mind without the intervention of argument or testimony; known as a matter of direct consciousness.

Faith, beginning here with a weak apprehension of things not seen, endeth with the *intuitive* vision of God in the world to come. — *Hooker, Ecclesiastical Polity*.

The rule of ghostly or immaterial natures, as spirits and angels, is their *intuitive* intellectual judgment, concerning the amiable beauty and high goodness of that object, which, with inseparable joy and delight, doth set them on work. — *Idid.*

The soul receives

Discursive or *intuitive*.

Immediate perception of the agreement or disagreement of two ideas, is when, by comparing them together in our minds, we see their agreement or disagreement; this therefore is called *intuitive* knowledge. — *Locke.*

lofty flights of thought, and almost *intuitive* perception of abstract notions, or exalted discoveries of mathematical theorems, we sometimes see existent in one person. — *Beattie.*

Intuitively. adv. In an intuitive manner; without deduction of reason; by immediate perception.

That our love is sound and sincere, that it cometh from a pure heart, and a good conscience, and a faith unfeigned, who can pronounce, saying only the word of all men's hearts, who alone *intuitively* doth know in this kind who are his? — *Hooker, Ecclesiastical Polity*.

God Almighty, who sees all things *intuitively*, does not need logical help. — *Baker, On Learning*.

Intumescence. s. [Lat. *tumescere* = swell; *tumescere* = begin to swell, show signs of swelling; pres. part. *tumescens*, -*entis*; *intumescencia* = swelling.] Swell; tumour; act or state of swelling.

This subterranean heat causes a great rarefaction and *intumescence* of the water of the abyss, putting it into very great commotions, and occasioning an earthquake. — *Woodward.*

Intumescency. s. Same as Intumescence.

According to the temper of the terrene parts at the bottom, as they are more harshly or easily moved, they variously begin, continue, or end their *intumescencia*. — *Sir T. Browne, Vulgar Errors*.

Intumulated. adj. [Lat. *tumulus* = mound.] Unburied. *Rhetorical.*

His joy *intumulated* in the grave. — *Bona, Thule or Virtue's History*, 1238.

Inturgescence. s. [Lat. *turgere* = swell; *turgescere* = begin to swell; pres. part. *turgescens*, -*entis*.] Swelling; act or state of swelling.

Not by attenuation of the upper part of the sea, but *inturgescencia* raised first at the bottom, and carrying the upper part of it before them. — *Sir T. Browne, Vulgar Errors*.

Intuso. s. [Lat. *tundo* = beat, or pound; pass. part. *tusus*.] Bruise.

The flesh therewith she supplied and did strepe, To slake all pain and soke the swelling time; And, after having searcht the *intuso* deeps, She with her scarf did bind the wound. — *Spenser, Faerie Queene*

Intususcéption. s. [Lat.] Taking up of one part of a tube (as a perspective glass) into another: (common in Medicine, as applied to the intestine).

In a third case *intususcéption* will be observed. . . . The *intususcépt* portion . . . sloughs off. . . . A

distinction has been made between progressive and retrograde *invasions*.—*Gregory, Theory and Practice of Medicine*, pt. iv. ch. x.

Intwine. See *Entwine*.

Irrigations, *inunctions*, odors, prescribed for the head.—*Burton, Anatomy of Melancholy*, p. 406.

The wise Author of Nature hath placed on the ramp two glands, which the bird catches hold upon with her bill, and squeezes out an oily liniment, fit for the *inunction* of the feathers, and causing their filaments to cohere.—*Ray*.

Inundant. *adj.* Overflowing. *Rhetorical*.

A torrent, in the summer temperate and shallow, but in the spring and winter *inundant* and raging.—*Haywood, Hierarchy of Angels*, p. 531: 1835.

Days, and nights, and hours,
Thy voice, hydropick Fancy, enils aloud
For costly dangers, *inundant* bowls of joy.
Shenstone, Economy, pt. I.

Inundate. *v. a.* [Lat. *unda* = water; *inundo* = deluge; pres. part. *inundans*, -*antis*; pass. part. *inundatus*; *inundatio*, -*onis*.] Overflow a place with water; flood.

This word has been reprinted as one of the affected introductions of modern writers into our language. This is not the case; for we find *inundated* used in the sense of 'overwhelmed,' nearly two centuries since, in the vocabulary of Cockeram.—*Todd*.

Inundation. *s.*

1. Overflow of waters; flood; deluge.

The same *inundation* was not just forty foot in most places; so that some few wild inhabitants of the woods escaped.—*Deacon*.

Your care about your banks infers a fear
Of threatening floods, and *inundations* near.

No swelling *inundation* hides the grounds,
But crystal currents glib within their bounds.
Gay.

2. Swamping, in the sense of overwhelming.

Many good towns, through that *inundation* of the Irish, were utterly wasted.—*Spenser, View of the State of Ireland*.

Inunderstanding. *adj.* or *part. pref.* Wanting the faculties of the mind; void of understanding. *Rare*.

Many of the bounds of the field, divers of the plants of the earth, are of a more durable constitution, and outlive the sons of men. And can we think that such material and mortal, that such *inunderstanding* souls, should by God and Nature be furnished with bodies of so long permutation, and that our spirits should be joined unto flesh so subject to corruption, so suddenly dissolvable, were it not that they lived but once, and so enjoyed that life for a longer season, and then went soul and body to the same destruction, never to be restored to the same subjection?—*Bishop Pearson, Exposition of the Creed*, art. xi.

Inurbanity. *s.* [Lat. *urbanus* = having the manners of one belonging to the *urbs*, i. e. city.] Want of politeness, courtesy, good manners, urbanity.

Plautus abounds in pleasantries that were the delight of his own and of the following age, but which at the distance of one hundred and fifty years Horace scruples not to censure for their *inurbanity*.—*Dr. Bentley, On Laughter and Lascivious Composition*, Works, vi. 250. (Ord MS.)

Inure. See *Enure*.

Inurn. *v. a.* Place in, or as in, a (sepulchral) urn.

The *apophthegm*
Wherein we saw thee quickly *inurn'd*,
Hath op'd its ponderous and marble jaws
To cast thee up again. *Shakespeare, Hamlet*, i. 4.
Amidst the tears of Trojan dames *inurn'd*,
And by his loyal daughters truly mourn'd.
Dryden.

Inutilation. *s.* [Lat. *uitatus* = frequently used; *uitatio*, -*onis*.] State of being unused; want of use. *Rare*.

The mummie of the male have not vanished by *inutilation*.—*Foley, Natural Theology*, ch. xiii.

To refer to heat and cold is a compendious and *inutile* speculation.—*Boon, Natural and Experimental History*.

Inutility. *s.* Uselessness; unprofitableness.

Vol. I.

You see the *inutility* of foreign travel.—*Bishop Hurd*.

Inutterable. *adj.* Unutterable. *Rare*.

All prodigious things,
Abominable, *inutterable*, and worse
Than fables yet have feign'd, or fear conceiv'd.
Milton, Paradise Lost, li. 625.

The planets . . . they invoked with *inutterable* invocations.—*Bishop Patrick, Paraphrase and Commentaries on the Old Testament*, Genesis xli. 8.

Invasio. *v. a.* [Lat. *invasio* = go; pass. part. *invasus*; *invasio*, -*onis*.]

1. Attack a country; make a hostile entrance.

Should he *invasio* any part of their country, he would soon see that nation up in arms.—*Knollys, History of the Turks*.

With dangerous expedition [they] *invasio*
Heaven, whose high walls fear no assault.
Milton, Paradise Lost, li. 342.

Encouraged with success, he *invasio* the province of philosophy.—*Dryden*.

In vain did nature's wise command
Divide the waters from the land,
If daring ships, and men profane,
invasio th' inviolable main.

Id., Translations from Horace, b. I. ode iii.

Thy race in times to come
Shall spread the conquests of imperial Rome;
Rome, whose ascending towers shall heav'n *invasio*,
Involving earth and ocean in her empire.

Id., Translation of the Æneid, vi. 1083.

2. Attack; assail; assault.

There shall be addition among men, and *invasio*
one another; they shall not regard their kings.—*2 Esdras*, xv. 16.

Thou think'st 'tis much, that this contentious
storm
invasio us to the skin; so 'tis to thee:
But where the greater malady is fix'd,
The lesser is scarce felt.

Shakespeare, King Lear, iii. 4.
Orpheus, returning from th' Elysian shades;
Embrace the hero, and his stay implore;
Make it their publick suit, he would no more
Desert them so.

Walker, To my Lord Admiral. (Ord MS.)

3. Violate by the first act of hostility; attack, not defend.

Your foes are such, as they, not you, have made;
And virtue may revolt, though not *invasio*.—*Dryden*.

4. Go into. *Latinism*.

That same his sea-marks made
And nam'd it Allion: but later day
Finding in it fit ports for fisher's trade,
Gan more the same frequent and farther to *invasio*.
Spenser, Faerie Queene, li. 10, 6.

Invasor. *s.* One who invades.

a. As an enemy with an army attacking the possessions of another.

The breath of Scotland the Spaniards could not endure; neither durst they, as *invasors*, land in Ireland.—*Deacon*.

The country about Attica was the most barren of any in Greece, through which means it happened that the natives were never expelled by the fury of *invasors*.—*Strabo*.

b. As an assailant, encroacher, or intruder generally.

The substance was formerly comprised in that uncompounded style, but afterwards prudently enlarged for the repelling and preventing heretical *invasors*.—*Allammond*.

Invaletudinary. *adj.* [Lat. *valetudo*; -*inis* = health.] Wanting health; infirm. *Rare*.

Whether usually the most studious, laborious ministers be not the most *invaletudinary* and infirm?—*Papers between the Commissioners for Review of the Library*, p. 127: 1661.

Invalide. *adj.* [Lat. *validus* = strong.] Weak; of no weight or cogency.

But this I urge,
Admitting motion in the heavens, to show
Invalide that which thee to doubt it mov'd.
Milton, Paradise Lost, viii. 114.

Invalide. *s.* Person in ill-health: (as, 'a confirmed *invalide*').

Invalutate. *v. a.* Weaken; deprive of force or efficacy.

To *invalutate* such a consequence, some things might be speciously enough alleged.—*Burke*.

Tell a man, passionately in love, that he is ill, bring a score of witnesses of the falsehood of his mistress; and 'tis ten to one but three kind words of hers shall *invalutate* all their testimonies.—*Locke*.

Invalidation. *s.* Act of weakening.

Magna Charta . . . the inestimable monument of

8 B

English freedom, so long the boast and glory of this nation, would have been as once an instrument of our servitude and a monument of our folly. If this principle were true: the thirty-four confirmations would have been only as many repetitions of their absurdity; so many new ficks in the chain, and so many *invalidations* of their right.—*Burke, Speech on Libels*: 1771.

Invalidity. *s.* Weakness; want of bodily strength; want of moral or argumentative cogency.

He ordered, that none who could work should be idle; and that none who could not work, by sickness, or *invalidity*, should want.—*Sir R. Temple*.

Invalidable. *adj.* Incapable (from its great worth) of being valued; precious above estimation; inestimable.

The faith produced by terror would not be as free an act as it ought, to which are annexed all the glorious and *invalidable* privileges of believing.—*Bishop Atterbury*.

Invalidably. *adv.* In an invaluable manner; inestimably.

That *invalidably* precious blood of the Son of God.—*Bishop Hall, Works*, i. 257.

Invariable. *adj.* Incapable of being varied; unchangeable; constant.

Being not able to design times by days, months, or years, they thought best to determine these alterations by some known and *invariable* signs, and such did they conceive the rising and setting of the fixed stars.—*Sir T. Browne*.

The rule of good and evil would not appear uniform and *invariable*, but different, according to men's different complexions and inclinations.—*Bishop Atterbury*.

Invariableness. *s.* Attribute suggested by Invariable; immutability; constancy.

From the dignity of their intellect arises the *invariableness* of their wills.—*W. Mountague, Decent Emage*, pt. ii. p. 32: 1654.

These nominatives . . . emphatically represent and express the everlasting verities and *invariableness* of God.—*Blackwell, Sacred Classics defended and illustrated*, i. 102.

Invariably. *adv.* In an invariable manner; unchangeably; constantly.

He who steers his course *invariably* by this rule, takes the surest way to make all men praise him.—*Bishop Atterbury*.

Invaried. *adv.* Unvaried. *Rare*.

Change of the particles, or the lower *invaried* words, that add to the significancy of nouns and verbs.—*Blackwell, Sacred Classics defended and illustrated*, i. 134.

Invasion. *s.*

1. Hostile entrance upon the rights or possessions of another; hostile encroachment.

We made an *invasion* upon the south of the Cherokees.—*1 Samuel*, xii. 14.

Reason finds a secret grief and remorse from every *invasion* that sin makes upon innocence, and that must render the first entrance and admission of sin uneasy.—*South, Sermons*.

2. Attack of a disease.

What demonstrates the plague to be endemic to Egypt, is its *invasion* and going off at certain seasons.—*Arbuthnot*.

Invasive. *adj.* Entering hostilely upon other men's possessions; not defensive.

I must come closer to my purpose, and not make more *invasive* wars abroad, when, like Hannibal, I am galled back to the defence of my country.—*Dryden*.

Let other monarchs, with *invasive* hands,
Lament their people, and extend their lands;
By ramping nations hated and obey'd,
Lords of the deserts that their words had made.

Arbuthnot.

Invection. *s.* [Lat. *veho* = bear, carry; pass. part. *actus*; *ectio*, -*onis*.] Reproachful accusation; railing; invective.

Many men wish Luther to have used a more temperate style sometimes, especially against princes and temporal estates; and he himself did openly acknowledge his fault therein, especially his immoderate *invection* against King Henry the 8th.—*Fiske, Answer to P. Frarise*, p. 23: 1602.

Invective. *s.* Censure in speech or writing; reproachful accusation.

If we take notice, in the general signification of the word, for an *invective*, 'tis almost as old as verse.—*Dryden, Translations of Quæstus, dedication*.

So deep rate thieves, all hopesters of their lives,
Breathe out *invectives* 'gainst the officers.

Shakespeare, Henry VI. Part III., i. 4.

Casting off respect, the fall to bitter *invection*

1839

against the French king.—*Bacon, History of the Reign of Henry VII.*

While we condemn others, we may indeed be in the wrong; and then all the *invections* we make at their supposed *errors*, fall back with a rebounded force upon our own real ones.—*Dr. H. More, Decay of Christian Piety.*

His *invection* was unimpaired and hard to be endured, although he was a less eminent master of sarcasm than his son, and rather overwhelmed his antagonist with the burst of words and vehement indignation, than wounded him by the edge of ridicule, or tortured him with the gall of bitter scorn, or fixed his arrow in the wound by the barb of epigram.—*Lord Brougham, Historical Sketches of Statesmen of the Reign of George III., Lord Chatham.*

Invective. *adj.* Satirical; abusive.

Let him rail on; let his *invective* ramble
Have four and twenty letters to abuse.

Dryden, Absalom and Achitophel, ll. 447.

Invective. *adv.* Satirically; abusively.

Thus most *invectively* he pierceth through
The body of the country, city, court,
Yea, and of this our life; swearing that we
Are mere usurpers, tyrants.

Shakespeare, As you like it, ll. 1.

Invective. *v. a.* [*Lat. invecho*; see *Invectio*.] Utter censure or reproach: (with *against*.)

I cannot blame him for *invecting* so sharply
Against the vices of the clergy in his age.—*Dryden.*
He *invectives* severely against the folly of parties,
In retaining scoundrels to retail their lies.—*Arbuthnot.*

Invectiver. *s.* One who inveighs; vehement railer.

Ill-temper'd and extravagant *invectives* against
Papists, made by men whose persons wanting authority
as much as their speeches do reason, do nothing
else but set an edge upon our adversaries' sword;
while the light behaviour, and bad example of the
invectiver's life infuseth courage to their hearts, and
addeth strength unto their arms.—*Johnson, Works,*
iii. 730.

One of these *invectivers* against mercury, in seven
weeks, could not cure one small herpes in the face.
—*Wicman.*

Invective, Inveit, Invenem. See *Enveigle*, &c.

Invént. *v. a.* [*Lat. inventus*, pass. part. of *invenio*—come upon, put upon, find out, discover; *ventio*,—*onis*.]

1. Discover; find out; excogitate; produce something not made before.

The substance of the mysteries of God, so far forth
as it hath in it any thing more than the law of
reason doth teach, may not be *invented* of men, but
must be received from God himself.—*Hooker, Ecclesiastical Polity.*

The ship, by help of a screw, *invented* by
Archimedes, was launched into the water.—*Arbuthnot.*

2. Forge; contrive falsely; fabricate.
I never did such things as these men have
maliciously *invented* against me.—*History of Samu-
nah, 43.*

Here is a strange figure *invented* against the plain
sense of the words.—*Bishop Stillington.*

3. Feign; make by the imagination.
I would *invent* as bitter searching terms,
With full as many signs of deadly hate,
As I can find in Envy in her loathsome cave.

Shakespeare, Henry VI., Part II. iii. 2.
Hercules's meeting with Pleasure and Virtue was
invented by Prodicus, who lived before Socrates, and
in the first drawings of philosophy.—*Addison, Spec-
tator.*

4. Light on; meet with. *Obsolete.*
Far off he wonders what them makers so glad;
Or Bacchus's merry fruits they did *invent*,
Or Cybel's frantick rites have made them mad.
Spenser, Faerie Queen.

Invéntor. *s.* One who invents; deviser of something not known before. See *Inventor*.

As a translator, he was just; as an *inventor*, he
was rich.—*Gurth.*

Invéntual. *adj.* Full of invention.
The genius of the French government appears
powerful only in destruction, and *inventual* only in
oppression.—*Gifford, Resolutions in France, 1797.*

Invéntible. *adj.* Capable of being invented; discoverable; capable of being found out.
Rare.

When first I gave my thoughts to make guns
shoot often, I thought there had been but one only
equivalent way to *invent*.—*Marquis of Worcester,*
Century of Inventions, 7.

Invéntion. *s.*

1. Excogitation; act or power of producing something new.

O for a muse of fire, that would ascend
The brightest heaven of invention!

Shakespeare, Henry V. I. chorus.

Reason is of two parts, *invention* and judgment.—
Judgment is most perfect in an assembly. *Invention*
is most perfect in one man. In one man, judg-
ment wants the strength which is in a multitude of
counsellors. In a multitude of counsellors, *inven-
tion* is none at all.—*Harrington, Political Apho-
risms, nos. 111-17, p. 522.*

Invention is a kind of muse, which, being pos-
sessed of the other advantages common to her
sisters, and being warmed by the fire of Apollo, is
raised higher than the rest.—*Dryden.*

The chief excellencies of Virgil is judgment, of
Homer is *invention*.—*Pope.*

2. Thing invented.

The garden, a place not fairer in natural orna-
ments than artificial *inventions*.—*Sir P. Sidney.*

Th' *invention* all admitt'd; and each how he
To be th' inventor wou'd, so easy it seem'd
Once found, which yet unfound most would have
thought
Impossible.

Milton, Paradise Lost, vl. 408.

3. Discovery: (etymologically, a thing *in-
vented* or found out is a thing *discovered*.
Practically, however, the distinction is
clear, and the confusion reprehensible.
The properties of the magnet were *dis-
covered*, the electric telegraph was *invented*.
Invention, even with logical and mathema-
tical formulae, implies construction: *dis-
covery*, well-directed observation.)

Nature hath provided several glandules to sepa-
rate sap from the blood, and no less than four
pairs of channels to convey it into the mouth, which
are of a late *invention*, and called ductus salivales.—
*Erg, Wisdom of God manifested in the Works of the
Creation.*

4. Forgery; fiction.

We hear our bloody cousins are bestowed
In England and in Ireland; not confounding
Their cruel parried, filling their hearers
With strange *invention*.

Shakespeare, Macbeth, iii. 1.

If thou canst accuse,
Do it without *invention* suddenly.

Id., Henry VI. Part I. iii. 1.

Invéntive. *adj.*

1. Quick at contrivance; ready at expedients.

Those have the *inventive* heads for all purposes
and roundest tongues in all matters.—*Archam,
Schoolmaster.*

The *inventive* god, who never fails his part,
Inspires the wit, when once he warms the heart.

Dryden.

2. Having the power of excogitation or fiction.

As he had an *inventive* brain, so there never lived
any man that believed better thereof, and of himself.
—*Sir W. Raleigh.*

Reason, common sense, wit, *inventive* art,
No nature but immortal can impart.

Sir J. Denham, Of Old Age, pt. iv.

Invéntiveness. *s.* Attribute suggested by *inventive*.

Thus the knowledge that clear and appropriate
ideas are requisite for discovery, although it does
not lead to any very precise precepts, or supersede
the value of natural sagacity and *inventiveness*, may
still be of use to us in our pursuit after truth.—
Whewell, History of Scientific Ideas.

Invéntor. *s.*

1. Finder out of something new.

We have the statue of your Columbus, that dis-
covered the West Indies, also the *inventor* of alpine;
your coat that was the *inventor* of ordnance, and
of gunpowder.—*Bacon.*

Why are these positions charged upon me as their
sole author and *inventor*, and the reader led into a
belief that they were never before maintained by
any person of virtue?—*Bishop Atterbury.*

2. Contriver; framer: (in an ill sense).

In this upshot, purposes mistook,
Fall'n on th' *inventor's* head.

Shakespeare, Hamlet, v. 2.

Invéntorially. *adv.* In manner of an in-
ventory.

To divide him *inventorially* would dim the
arithmetick of memory.—*Shakespeare, Hamlet, 4. 2.*

Invéntorise. *v. a.* Make an inventory.

He sat down, and began *inventorising*, examining,
and noting, and was soon lost in business.—*Smiles,
Wynham, ch. viii.*

Inventory. *s.* Account or catalogue of
movables, i.e. things found (*inventis*) in
any place.

I found,
Forsooth, an *inventory*, thus importing,
The several parcels of his plate.

Shakespeare, Henry VIII. iii. 2.

In Paris the daughters of fire are reckoned in the
inventory of their goods and chattels; and it is
usual, when a man sells a bale of silk, to toss half a
dozen women into the bargain.—*Addison, Spec-
tator.*

What sort of completeness, or what value, would
a Greek lexicon possess, a Scott and Liddell, from
whose pages all the words condemned by Phryn-
chus and the other Greek purists, and, so far as
style is concerned, many of them justly condemned,
had been dismissed? The lexicographer is making
an *inventory*; that is his business; he may think of
this article which he inserts in his catalogue, that it
had better be consigned to the lumber-room with
all speed, or of the other, that it only met its deserts
when it was so consigned long ago; but his task is
to make his *inventory* complete.—*Archbishop
Trerich, On certain Deficiencies in English Dic-
tionaries.*

Inventory. *v. a.* Register; place in a
catalogue. *Rare.*

I will give out divers schedules of my beauty: it
shall be *inventorial*, and every particle and utensil
labelled.—*Shakespeare, Twelfth Night, I. 5.*

Invéntress. *s.* Female inventor.

Cecilia came,
Invéntress of the vocal frame:
The sweet enthusiast, from her sacred store,
Unlaid the former narrow bounds.

Dryden, Alexander's Feast.

Invéntrice. *s.* Same as *Invéntress*. *Rare.*

Purveyors hath been the *inventories* of all good
crafts.—*Remedy for Scillition, F. II. b. 1530.*

Inverse. *adj.* Inverted; reciprocal: (op-
posed to *direct*.)

Every part of matter tends to every part of matter
with a force, which is always in a direct proportion
of the quantity of matter, and an *inverse* duplicate
proportion of the distance.—*Gurth.*

In *Arithmetic*: (as, in 'the Rule of Three
Inverse').

In *Logic*. The terms of a proposition with
their places changed.

Invértion. *s.* Change of order or time, so
that the last is first, and the first last;
change of place, so that each takes the
room of the other.

If he speaks truth, it is upon a subtle *invértion* of
the precept of God, to do good that evil may come of
it.—*Sir T. Brown.*

The last the *invértion* of an act of parliament;
your lordship first signed it, and then it was passed
amongst the lords and commons.—*Dryden.*

In *Logic*. Change of place of the terms of
a proposition.

Invért. *v. a.* [*Lat. inverto*; *verto* = turn;
pres. part. *vertens*,—*entis*; *inverio*,—*onis*.]

1. Turn upside down; place in contrary
method or order to that which was before.

With fate *inverted*, shall I humbly woo?
And some proud prince, in wild Numidia born,
Pray to accept me, and forget my scorn! *Waller.*

2. Turn into another channel.

Bolyman charged him bitterly with *inverting* his
treasures to his own private use, and having secret
intelligence with his enemies.—*Kauley, History of
the Turks.*

Invértibráta. See *Vertebrata*.

Invértibráte. *s.* and *adj.* Wanting a back-
bone. Applied in *Zoology* to animals like
the Cuttle-fish, Wasp, Star-fish, and the
Mollusca, *Annulosa*, and *Radiata*, as op-
posed to the *Vertebrata*.

Invértedly. *adv.* In inverted order.

Placius the forepart of the eye to the hole of the
window of a darkened room, we have a pretty land-
ship of the objects abroad, *invertedly* painted on the
paper, on the back of the eye.—*Darwin, Physico-
Theology.*

Invést. *v. a.* [*Lat. vestio*—clothe; pres.
part. *vestiens*,—*entis*; *vestis*—garment.]

1. Clothe: (with *in* or *with*.)

How long a day soever Thou make that day in the
grave, yet there is no day between that and the
resurrection. Then we shall all be *invested*, re-
apparelled, in our own bodies.—*Donne, Devotions,*
p. 258: 1625.

Thus with mackintosh I *invest* my woe.
Sandys, Paraphrases of the Book of Job, p. 56.

Thou with a mantle didst invest
The rising world of waters.

Milton, Paradise Lost, iii. 10.

Let thy eyes shine forth in their full lustre;
Invest them with thy lowliest smiles, put on
Thy choicest looks.

Sir J. Denham, The Sophy.

2. Place, by means of some ceremonial connected with dress, in possession of a rank or office.

When we sanctify or hallow churches, that which we do is only to testify that we make places of public resort, that we invest God himself with them, and that we sever them from common use.—*Hooker, Ecclesiastical Polity.*

After the death of the other archbishop he was invested in that high dignity, and settled in his palace at Lambeth.—*Lord Clarendon, History of the Great Rebellion.*

The practice of all ages, and all countries, hath been to do honour to those who are invested with public authority.—*Bishop Atterbury.*

3. Adorn; grace.

Honour must
Not, unaccompanied, invest him only;
But arms of nobleness, like stars, shall shine,
On all that dwellers.—*Shakespeare, Macbeth, l. 4.*

4. Confer; give.

If there can be found such an inequality between man and man, as there is between man and beast, or between soul and body, it investeth a right of government.—*Bacon.*

5. Enclose; surround so as to intercept succours or provisions: (as, 'the enemy invested the town').

6. Put on.

Alas for pitié, that no faire a crew,
As like cannot be seen from east to west,
Cannot find one this strile to invest.

Spranger, Fairie Queen, iv. 5, 18.

Investment. adj. Covering; clothing. *Rare.* The shells served as plums or mounds to this sand, which, when consolidated and freed from its investient shell, is of the same shape as the cavity of the shell.—*Hawtorn.*

Investigable. adj. Capable of being investigated.

Finally, in such sort they are *investigable*, that the knowledge of them is general; the world hath always been acquainted with them.—*Hooker, Ecclesiastical Polity.*

In doing evil, we prefer a less good before a greater, the greatness whereof is by reason *investigable*, and may be known.—*Hind.*

Investigate. v. a. [Lat. *investigare*—footstep.] Search out; find out by rational disquisition.

Investigate the variety of notions and figures made by the organs for articulation.—*Moller, On Speech.*

Investigation. s. Tracking as a dog on a scent; search; examination.

Your travels I hear much of: my own shall never more be idly a stranger land, but a diligent investigation of my own territories.—*Pope, Letter to Swift.*

Investigative. adj. Curious and deliberate in making inquiry.

When money was in his pocket, he was more deliberate and *investigative*.—*Erge, Anecdotes of the English Language.*

Investigator. s. One who investigates.

This occult piece of history . . . I leave to the curiosity and conjectures of some more laborious investigator.—*T. Norton, History of English Poetry.*

If a man begins (as is too plainly a frequent mode of proceeding) by hastily adopting, or strongly leaning to, some opinion which suits his inclination, or which is sanctioned by some authority that he blindly venerates, and then studies with the utmost diligence, not as an investigator of truth, but as an advocate labouring to prove his point, his talents and his researches, whatever effect they may produce in making converts to his notions, will avail nothing in enlightening his own judgment, and securing him from error.—*Archbishop Whately, Elements of Rhetoric.*

Investiture. s.

1. Right of giving possession of any manor, office, or benefice.

He had refused to yield up to the Pope the investiture of bishoprics, and collation of ecclesiastical dignities, within his dominions.—*Sir W. Raleigh, Essays.*

2. Act of giving possession.

The redemption is sealed in heaven, and shall in due time be manifested to thine *investiture* with the eternal glory and happiness which God hath prepared for all his.—*Bishop Hall, Remains, p. 130.*

In January 1681, Bacon had received the wealth of his fortunes. . . . He had been created Baron Verulam. He had subsequently been raised to the higher

dignity of Viscount St. Albans. His patent was drawn in the most flattering terms, and the Prince of Wales signed it as a witness. The ceremony of investiture was performed with great state at Theobalds, and Buckingham was condescended to be one of the chief actors.—*Macaulay, Critical and Historical Essays, Lord Bacon.*

About the beginning of the fifteenth century, the marquise of Brandenburg was bestowed by the Emperor Sigismund on the noble family of Hohensoelen. In the sixteenth century that family embraced the Lutheran doctrine. It obtained from the King of Poland, early in the seventeenth century, the investiture of the Duchy of Prussia.—*Ibid., Life of Frederic the Great.*

Investive. adj. Encircling; enclosing.

The horrid fire, all moribund, did clothe
The scorched wretches with investive smoke.

Mirror for Magistrates, p. 620.

Investment. s.

1. Dress; clothes; garment; habit; vestment. *Obsolete.*

Ophelia, do not believe his vows; for they are brokers,
Not of that die which their investments show.

Shakespeare, Hamlet, l. 3.

You my lord archbishop,
Whose see is by a civil peace maintain'd,
Whose beard the silver hand of peace hath touch'd,
Whose learning and good letters peace hath tutor'd,
Whose white *investments* figure innocence,
The dove, and every blessed spirit of peace;
Wherefore do you so ill translate yourself
Out of the speech of peace, that bears such grace,
Into the harsh and boisterous tongue of war?

Id., Henry IV. Part II. iv. 1.

2. Putting out a capital (i.e. establishing a vested interest in it) for the purpose of obtaining interest for it.

If the prime cost of the respective *investments*, or parcels of goods, were truly valued and stated by judicious and disinterested persons, a judgment might from thence be made somewhat nearer the truth than the random guesses here taken notice of.—*Davenant, Discourses, ii. 343. (Ord MS.)*

No popular was the new *investment* that on the day on which the books were opened three hundred thousand pounds were subscribed; . . . in ten days, to the delight of all the friends of the government, it was announced that the list was full.—*Macaulay, History of England, ch. xx.*

Inveteracy. s. [Lat. *inveteratio*, -onis = growing or becoming old in anything, from *vetus*, *vetulus* = old.]

1. Long continuance of anything bad; obstinacy confirmed by time.

The *inveteracy* of the people's prejudices compelled their rulers to make use of all means for reducing them.—*Addison.*

2. In *Medicine*. Long continuance of a disease.

Inveterate. adj.

1. Old; long established.

The custom of Christianity was then, and had been a long time, not to wear a sword, and therefore that undoubtedly they did offend who presumed to violate such a custom by not observing that thing; the very *inveterate* observation whereof was a law, sufficient to bind all men to observe it, unless they could show some higher law, some law of Scripture to the contrary.—*Hooker, Ecclesiastical Polity.*

It is an *inveterate* and received opinion, that cathartics, applied to any part of the body, touch the bladder and exacerbate it.—*Bacon, Natural and Experimental History.*

2. Obstinate by long continuance.

It is not every sinful violation of conscience that can quench the spirit; but it must be a long *inveterate* course and custom of sinning, that at length produces and ends in such a cursed effect.—*South, Sermons.*

In a well-instituted state the executive power will never let abuses grow *inveterate*, or multiply so far that it will be hard to find remedies.—*Swift.*

Inveterate. v. a. Fix and settle by long continuance.

The vulgar conceived, that now there was an end given, and a consummation to superstitious prophecies, and to an ancient tacit expectation, which had by tradition been infused and *inveterate* into men's minds.—*Bacon.*

Inveterate. part. adj. Inveterate. *Rare.*

Let not atheists lay the fault of their sin upon human nature, which have their prevalence from long custom and *inveterate* habit.—*Bentley.*

Inveterateness. s. Attribute suggested by *inveterate*; long continuance of anything bad; obstinacy confirmed by time.

As time hath rendered him more perfect in the art, so hath the *inveterateness* of his malice made

him more ready in the execution.—*Sir T. Browne, Vulgar Errors.*

Neither the *inveterateness* of the mischief, nor the prevalence of the fashion, shall be any excuse for those who will not take care about the meaning of their words.—*Locke.*

Invincible. adj. [Lat. *invincibilis* = invincible.]

1. Evident; malignant.

I shall open to thee the interior secrets of this mysterious art, without imposture or *invincible* reason.—*Reid.*

2. Likely to incur or to bring hatred: (this is the more usual sense).

Not to be further tedious, or rather *invincible*, these are a few causes which have contributed to the ruin of our morals.—*Swift.*

Joseph, a beloved child of Israel, became *invincible* to his elder brethren, for no other reason but his superior beauty and excellence of body and mind, humankind that they could not bear his growing virtue and let him live.—*Addison, Tatler, no. 235. (Ord MS.)*

Invigorate. v. a. Endue with vigour; strengthen; animate; enforce.

The spleen is introduced to *invigorate* the sinister side, which, diluted, would rather lull and debilitate.—*Sir T. Browne.*

I have lived when the prince, instead of *invigorating* the laws, assumed a power of dispensing with them.—*Addison.*

The right use of reason . . . will be a method of *invigorating* and properly directing all the powers of the mind.—*Archbishop Whately, Elements of Logic, Introduction.*

Invigoration. s. Act of invigorating; state of being invigorated.

I find in myself an appetitive faculty, which is always in the very height of activity and *invigoration*.—*Norris.*

Invillaged. See Envillaged.

Invincibility. s. Quality of being invincible.

Time a happy victory may be gained over *invincibility* itself.—*Burton.*

Invincible. adj. [Lat. *vincere* = conquer.] Incapable of being conquered; insuperable; unconquerable; not to be subdued.

Should he invade their country, he would soon see that *invincible* nation with their united forces up in arms.—*Andler.*

This mistake, which is the consequence of *invincible* error, war deserves the name of wrong judgment.—*Locke.*

If an atheist had had the making of himself, he would have framed a constitution that could have kept pace with his insatiable lust, been *invincible* by intemperance, and have held out a thousand years in a perpetual debauch.—*Bentley.*

Invincibleness. s. Unconquerableness; insuperableness.

The *invincibleness* of their ignorance.—*Hammond, Works, l. 308.*

Invincibility. s. State or quality of being invincible.

Having excluded all probability of the event of a systematic abuse of royal power, or a dangerous exorbitance of prerogative, our constitution exempts her kings from the degrading necessity of being accountable to the subject; she invests them with the high attribute of political impeccability, she declares, that wrong, in his public capacity, a king of Great Britain cannot do; and thus unites the most perfect security of the subject's liberty with the most absolute *invincibility* of the sacred person of the sovereign.—*Bishop Hurd, Sermon on the Thirtieth of January, 1783.*

The declarations respecting the *invincibility* of church property are indebted for the greater part of their apparent force to this ambiguity.—*J. S. Mill, System of Logic, pt. v. ch. vii.*

Invulnerable. adj.

1. Not to be profaned; not to be injured.

Thou, be sure, shalt give account
To him who sent us, whose charge is to keep
This place *invulnerable*, and thence from harm.

Milton, Paradise Lost, iv. 641.

Invulnerable powers! woe'd with dread . . .
Be all of you adjured!

Virgil, Translation of the Æneid, ii. 207.

This birthright, when our author pleases, must and must not be sacred and *invulnerable*.—*Locke.*

2. Not to be broken.

The prophet David thinks, that the very meeting of men together, and their accompanying one another to the house of God, should make the bond of their love *invulnerable*, and tie them in a league of *invulnerable* amity.—*Hooker, Ecclesiastical Polity.*

Insusceptible of hurt or wound.
The *invulnerable* mind!
In cubick phalanx firm advanced centre.

Milton, Paradise Lost, vi. 308.

Involute. *adj.* Unhurt; uninjured; unprofaned; unpolluted; unbroken.

His fortune of arms was still *involute*.—*Bacon, History of the Reign of Henry VII.*

But let *involute* truth be always dear

To thee; even before friendship, truth prefer.

In all the changes of his doubtful state,

His truth, like Heaven's, was kept *involute*.—*Dryden.*

Invovous. *adj.* [Lat. *via* = way.] Impassable; untrodden. *Rare.*

If nothing can oppugn love,
And virtue *invovous* ways can prove,
What may nothing confide to do,
That brings both love and virtue too?

Butler, Hudibras.

Invovousness. *s.* Attribute suggested by

Invovous. *Rare.*

Which is called . . . *invovousness* and emptiness; . . . where all is dark and unpassable, as perviousness is the contrary.—*Dr. Ward, Translation of Moré's Preface to his Philosophical Works: 1710.*

Invovity. *s.* [Lat. *vir* = man; *virilis* = manly.] Absence of manhood; departure from manly character.

It avours of effeminacy and womanish *invovity*.—*Pyrrhus, Unwieldiness of Love-Locks, p. 48: 1628.*

Invovisc. *v. a.* [Lat. *viscus* = birdlime.]

Lime; entangle in glutinous matter. *Rare.*

The camelion's food being flies, it hath in the tongue a mucous and sticky extremity, whereby, upon a sudden emission, it *invoviscs* and entangleth those insects.—*Sir T. Browne.*

Invoviscate. *v. a.* [Lat. *viscera* = bowels.]

Bred; nourish. *Rare.*

Invoviscating this disposition in our hearts . . . to love one another.—*W. Montague, Devout Essays, pt. I. p. 267: 1648.*

Invovisibility. *s.* State of being invisible; imperceptibility to sight.

They may be demonstrated to be innumerable, substituting their smallness for the reason of their *invovisibility*.—*Ray.*

Invovisible. *adj.* Not visible; not perceptible by the sight; not to be seen.

He was *invovisible* that hurt me so,
And none *invovisible* but spirits can go.

Sir P. Sidney.

It seems easier to make one's self *invovisible* to others, than to make another's thoughts visible to me, which are not visible to himself.—*Locke.*

Invovisibly. *adv.* In an invisible manner; imperceptibly to the sight.

[Agd] by degrees *invovisibly* doth creep,
Nor do we seem to die, that fall asleep.

Sir J. Denham, Of Old Age, pt. II.

Invovision. *s.* Absence of vision. *Rare.*

This is agreeable unto the determination of Aristotle, who computed the time of their anopsia or *invovision* by that of their gestation.—*Sir T. Browne, Vulgar Errors, p. 174. (Ord MS.)*

Invovocation. *s.*

1. Act of inviting, bidding, or calling to anything with ceremony and civility.

That other answer'd with a lowly look,
And soon the gracious *invovocation* took.

Dryden.

2. Allurement.

She gives the leer of *invovocation*.—*Shakespeare, Merry Wives of Windsor, I. 3.*

Invovatory. *adj.* Using invitation; containing invitation.

In the Latin service it [the 85th] is called the *invovatory* psalm; it being always sung with a strong and loud voice, to awaken those people into the church, who were in the cemetery, or churchyard, or any other adjacent parts, waiting for the beginning of prayer.—*Whalley, On the Common Prayer, iii. § 8.*

Invovatory. *s.* Hymn of invitation to prayer.

Responds, *invovatory*, and such like things as did break the continual course of the reading of the . . . Scripture.—*Concerning the Service of the Church, Common Prayer.*

Invovite. *v. a.* [Lat. *invito*; Fr. *inviter*.]

1. Ild; ask to any place, particularly to one's own house, with intreaty and complaisance.

If thou be *invovited* of a mighty man, withdraw thyself.—*Ecclesiasticus, xlii. § 8.*

1292

When much company is *invovited*, then be as sparing as possible of your coals.—*Swift, Advice to Servants.*

2° Allure; persuade; induce by hope or pleasure.

A war upon the Turks is more worthy than upon any other Gentiles, though facility and hope of success might tempt some other choice.—*Bacon.*

Sluggish groves, that easy sleep invite,
And after toilsome days a soft repose at night.

Dryden.

Invovite. *v. n.* Ask or call to anything pleasing.

All things *invovite*

To peaceful counsels. *Milton, Paradise Lost, II. 278.*

Invovitement. *s.* Invitation. *Rare.*

He never makes a general *invovitement*, but against the publishing of a new suit; marry, then, you shall have more drawn to his lodging than come to the launching of some three ships.—*B. Jonson, Cynthia's Revels.*

Invoviter. *s.* One who invites.

Honour was the aim of the guests, and interest was the scope of the *invoviter*.—*Southbridge, Sermons.*

Invoviting. *verbal abs.* Invitation.

He hath sent me an earnest *invoviting*.—*Shakespeare, Timon of Athens, iii. 6.*

Invovitingly. *adv.* In an inviting manner; in such a manner as invites or allures.

If he can but dress up a temptation to look *invovitingly*, the business is done.—*Dr. H. More, Decay of Christian Piety, p. 165.*

Invovitingness. *s.* Attribute suggested by inviting.

Elegant flowers of speech, to which the nature and resemblance of things, as well as human fancies, have an aptitude and *invovitingness*.—*Jeremy Taylor, Artificial Happiness, p. 168.*

Invovocate. *v. a.* Invoke.

Poor key-cold figure of a holy knight!
Be't lawful, that I *invovocate* thy ghost,
To hear the lamentations of poor Anne?

Shakespeare, Richard III. I. 2.

The church of Rome, in her public and allowed officers, prays to dead men and women, who are, or whom they suppose to be, beatified; and these they *invovocate* as protectors.—*Jeremy Taylor, Dissertation from Popery, ch. ii. § 9.*

If I began to be thy god,
Go to his temple, *invovocate* his aid
With solemnest devotion.

Milton, Samson Agonistes, 1115.

Invovocation. *s.*

1. Act of invoking, or of calling upon in prayer.

Is not the name of prayer usual to signify even all the service that ever we do unto God? And that for no other cause, as I suppose, but to shew that there is in religion no acceptable duty, which devout *invovocation* of the name of God doth not either presuppose or infer.—*Hooker, Ecclesiastical Polity.*

2. Form of call so made.

My *invovocation* is

Honest and fair, and in his mistress' name.

Shakespeare, Romeo and Juliet, II. 1.

The whole poem is a prayer to fortune, and the *invovocation* is divided between the two deities.—*Addison, Travels in Italy.*

Invovoice. *s.* [Fr. *envoyées* = things sent; it would be more correct, in the way of etymology, to spell it with *e*.] Catalogue of articles with price.

The man who first saw that it was possible to found an European empire on the ruins of the Mogul monarchy was Duplex. His restless, capacious, and inventive mind had formed this scheme, at a time when the ablest servants of the English Company were busied only about *invovoice* and bills of lading.—*Macaulay, Critical and Historical Essays, Lord Clive.*

Invovoke. *v. a.* [Lat. *voco* = call; pres. part. *vocans*, -antis; *vocatio*, -onis.] Call upon; pray to.

The power I will *invovoke* dwells in her eyes.

Sir P. Sidney.

One peculiar nation to select
From all the rest, of whom he be *invovok'd*.

Milton, Paradise Lost, xii. 111.

The skilful bard,
Striking the Thracian harp, *invovokes* Apollo,
To make his hero and himself immortal.

Prior, Translation of the First Hymn of Callimachus.

Invovoluntarily. *adv.* In an involuntary manner; not by choice; not spontaneously.

They are not the work of the soul itself, but *invovoluntarily* obtruded upon it.—*A. Baxter, Enquiry into the Nature of the human Soul, II. 163.*

Invovoluntariness. *s.* Attribute suggested by involuntary; want of choice or will.

There is not an absolute *invovoluntariness* in this engagement, but a mixed one.—*Bishop Hall, Causes of Conscience, I. 2.*

Invovoluntary. *adj.*

1. Not having the power of choice.

The path'ring number, as it moves along,
Involves a vast *invovoluntary* throng,
Who gently drawn, and struggling less and less,
Roll in her vortex, and her power confess.

Pope, Dunciad, IV. 81.

2. Not chosen; not done willingly.

The forbearance of that action, consequent to such command of the mind, is called *invovoluntary*; and whatsoever action is performed without such a thought of the mind, is called *invovoluntary*.—*Locke.*

But why, ah tell me, ah too dear!
Steals down my cheek the *invovoluntary* tear?

Pope, Imitations of Horace, b. IV. ode I.

Invovolution. *s.*

1. Act of involving or inwrapping; state of being entangled; complication.

Leave never an angle or *invovolution* in it.—*Hammond, Works, IV. 808.*

All things are mixed, and causes blended by mutual *invovolutions*.—*Glassville, Scopis Scientifica.*

2. That which is wrapped round anything.

Great concretions are raised of the *invovolution* of membranous covering called the silly-how, sometimes found about the heads of children upon their birth; and is therefore preserved with great care, not only as medical in diseases, but effectual in medicine, covering the infant and others; which is surely no more than continued superdation.—*Sir T. Browne, Vulgar Errors.*

3. In *Arithmetic*. Multiplication of a quantity, any given number of times, by itself: (opposed to *Evolution*, or the division of a number to find its root).

Invovolve. *v. a.* [Lat. *involvere*, from *volvō* = roll; pres. part. *volvens*, -entis; pass. part. *volutus*; *volutio*, -onis.]

1. Inwrap; cover with anything circumfluent.

The floods my soul *invovolv'd* below,
The swallowing deep bring'd me round.

Sandys, Sacred Songs, p. 20.

Leave a sing'd bottom all *invovolv'd*
With stench and smoke.

Milton, Paradise Lost, I. 234.

No man could miss his way to heaven for want of light; and yet so vain are they as to think they oblige this world by *invovolving* it in darkness.—*Dr. H. More, Decay of Christian Piety.*

2. Entwist; join.

He knows his end with mine *invovolv'd*.

Milton, Paradise Lost, II. 807.

3. Imply; comprise.

We cannot demonstrate these things so as to shew that the contrary necessarily *invovolves* a contradiction.—*Archbishop Tillotson.*

4. Take in; catch; conjoin.

The path'ring number, as it moves along
Invovolves a vast involuntary throng.

Pope, Dunciad, IV. 81.

5. Entangle.

This reference of the name to a thing whereof we have no idea, is so far from helping at all, that it only serves the more to *invovolve* us in difficulties.—*Locke.*

As obscure and imperfect ideas often *invovolve* our reason, so do dubious words puzzle men's reason.—*Id.*

6. Complicate; make intricate.

Some *invovolv'd* their many folds.

Milton, Paradise Lost, VII. 463.

Syllogism is of necessary use, even to the lovers of truth, to shew them the fallacies that are often concealed in florid, witty, or *invovolved* discourses.—*Locke.*

7. Blend; mingle together confusedly.

Earth with hell to mingle and *invovolve*.

Milton, Paradise Lost, II. 264.

8. In *Arithmetic*. Multiply any quantity by itself any given number of times.

Invovovement. *s.* Involved condition.

Yes, Emily, a worthy, an honourable man; but for the suddenness of his death—'tis fit I prepare you for the shock—he has left me in *invovements*, which, in a few hours, may inclose me in a prison.—*G. Colman the younger, The Poor Gentleman, v. 2.*

Invovolvedness. *s.* Attribute suggested by involved; state of being involved.

The *invovolvedness* of all men in the guilt of swearing.—*Boyle, Against Customary Swearing, p. 13.*

Invovulnerable. *adj.* [Lat. *vulnera*, -eris = wound.] Incapable of being wounded; secure from wound.

IN VU

Our cannon's malice vainly shall be spent
Against th' invulnerable clouds of heav'n.
Shakespeare, King John, II. 1.
Nor vainly hope
To be invulnerable in those bright arms,
That mortal dint none can resist.
Milton, Paradise Lost, II. 811.

Vanessa, though by Pallas taught,
By love invulnerable thoughts,
Searching in books for wisdom's aid,
Was in the very march betray'd.
Swift, Cadenus and Vanessa.

Invulnerableness. *s.* Attribute suggested by Invulnerable; state of being invulnerable.

We wrestle not only against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places; which needs must be most dangerous unto us. 1. For their wariness that grapple with us; 2. For their invulnerableness, they being spirits; whereas we are flesh and blood.
—Bishop Prideaux, Euchologia, p. 62: 1658.

Inward. *adv.* [A.S. *inweard*; *weard* denoting direction.] Towards the internal parts; within.

Looking inward we are stricken dumb; looking upward we speak and prevail. *—Hooker, Ecclesiastical Polity.*

He stretches out his arm in sign of peace, with his breast bending inward. *—Dryden, Translation of Dufrenoy's Art of Painting.*

Inward. *adj.*

1. Internal; placed not on the outside, but within.

He could not rest, but did his stout inward cat,
And waste his inward gall with deep despatch.
Spenser, Faerie Queen.

To each inward part
With gentle penetration though unseen
Shoots invisible virtue.
Milton, Paradise Lost, III. 284.

Sickness, contributing no less than old age to the shaking down this enfolding of the body, may discover the inward structure more plainly. *—Pope.*
The term activity applies much more to outward than to inward vitality. *—Gladstone, The State in its Relations with the Church, ch. IV.*

2. Reflecting; deeply thinking.

With outward smiles their flattery I receiv'd;
Ours'd my sick mind by their discourse reliev'd;
But bent and inward to myself again,
Perplex'd these matters I revolv'd in vain.
Prior, Solomon, b. I.

3. Intimate; domestic; familiar.

Though the lord of the liberty do pain himself
All he may to yield equal justice unto all, yet can
there not but great abuses lurk in so inward and
absolute a privilege. *—Spenser, View of the State of Ireland.*
All my inward friends abhorred me. *—Job, xix. 19.*

4. Seated in the mind.

Princes have lost their titles for their glories,
An outward honour for an inward toil;
And for unjust lumpsums
They often feel a world of restless cares.
Shakespeare, Richard III. I. 4.

Inward. *s.* [from the adjective.] Intimate; near acquaintance. *Rare.*

Sir, I was an inward of his; a shy fellow was the duke; and I know the cause of his withdrawing. *—Shakespeare, Measure for Measure, III. 2.*

Inwardly. *adj.* Internally.

That which inwardly each man should be, the church outwardly ought to testify. *—Hooker, Ecclesiastical Polity.*

Inwardness. *s.* Attribute suggested by Inward.

1. Intimacy; familiarity.

You know my inwardness and love
Is very much unto the prince and Claudio.
Shakespeare, Much Ado about Nothing, IV. 1.
His nephew is fallen into some trouble, by reason of his familiarity and inwardness with Sir R. Cotton. *—Bourchier, Letter to Archbishop Usher, p. 418: 1620.*

2. Internal state.

None cannot arrive to the inwardness
Of things, nor penetrate the crusty fence
Of constituted matter.
Dr. H. More, Song of the Soul, I. 1, 28.

Inwards. *adv.* [A.S. *inweardes*.] Same as Inward.

The parts of living creatures that be more inwards, nourish more than the outward flesh. *—Bacon, Natural and Experimental History.*

The medicines which go to these magical ingredients are so strong, that if they were used inwardly they would kill; and therefore they work potently, though outwardly. *—Id.*
Shine inwards, and the soul through all her powers irradiate.
Milton, Paradise Lost, III. 61.

IPEC

Inwards. *s. pl.* [from, A.S. *inweerde* = bowels.] Anything within, generally the bowels or intestines. *Obsolete, or, sounded inwards, slang.*

Then sacrificing, laid
The viscera, and their fat, with incense strew'd
On the clef wood, and all due rites perform'd.
Milton, Paradise Lost, at 438.

They esteem them most profitable, because of the great quantity of fat upon their insides. *—Mortimer, Husbandry.*

Inweave, Inweod, Inweap, Inweathe, Inweught. See Inweave, &c.

Iodine. *s.* [Gr. *io* = violet.] A coined word, the *-ine* belonging to the artificial language of chemistry, and indicating the class to which the substance denoted by it belongs; i.e. the class containing *chlorine, bromine, and fluorine*. The vapour of iodine is of a violet-blue colour. In *Chemistry*. Elementary substance so called, chiefly obtained from sea-water by means of certain sea-weeds. See *Kelp*.

Among the earliest measures proposed in recent times in the internal administration of laudanum, and the instances of success from this remedy are so numerous as might at first incline the student to believe that the object of his research is found. The mode of its operation is not at all known. By some the virtues of the remedy are made to reside in the alkali or in the charcoal which it contains, and later theorists have imagined that *iodine* is its active principle. These speculations led to the introduction of different preparations of *iodine* in the treatment of bronchitis, and experience has now fully demonstrated that this substance is possessed of considerable medicinal virtue. It appears to excite the absorbent system in a peculiar manner, and is fairly entitled to the general character of a deobstruent. Its employment, however, is not altogether harmless. It sometimes disorders the health, and occasions general emaciation. It is of course in the removal of morbid growths and indolent tumours that its power is chiefly displayed. In gouts it may be given both internally and externally. *—Gregory, Theory and Practice of Medicine, pt. v. ch. v.*

Derivatives, as *iodic, iodide, iodate, ioduret, &c.*, and the compounds *hydriodate, &c.*, are numerous.

Ionic. *adj.* [Gr. *ionikos* = relating to Ionian.] In *Architecture*. Applied to one of the four Greek orders, the Doric, Corinthian, and Composite being the other three; often stands alone as a substantive.

In the *ionic* order the column differs widely from that of the *doric*, not only in the form of its capital, and in having a base, but in the contour of its shaft and the mode of dividing it being more slender and not tapering so suddenly. The base is generally composed of two tori, or convex rings, with a concave moulding, the scotia, between them; for as the *doric* character demands plane surfaces and lines, so does the *ionic* require curved mouldings and contours, as harmonizing with the curved forms of the volutes of the capital. *—Knight, English Encyclopedia.*

When this precept vanished, he [Æschines] retired to Rhodes, where he opened a school of oratory, which produced a long series of valuable sophists, and is considered as the origin of a new style of eloquence, technically called the *Asiatic*, which stood in a relation to the *Attic* not unlike that of the composite capital to the *doric* column, and was destined to prevail in the east wherever the Greek language was spoken, down to the fall of the Roman empire. *—Bishop Thirlwall, History of Greece, ch. IV.*

Iota. *s.* [Gr.] See *Joe*.

It is no less than a direct affront to our Creator and Governor, in a branch of that law, that he has been as a transcript of his own business, and endures by the penalty of eternal death threatened to the transgressors of the least iota of it. *—Barrow, Sermons, vol. I. serm. 1.*

Not have all the self-reflections or abstractions of the most exalted minds, from any combinations or allusions of ideas, least able, amidst their other prodigious discoveries, to add a single iota to one of these. *—Ellis, Knowledge of Divine Things, p. 115.*

You will have the goodness then to put no stuffing of any description in my coat; you will not pinch me an iota tighter across the waist than is natural to that part of my body; and you will please, in your infinite mercy, to leave me as much after the fashion in which God made me, as you possibly can. *—Sir E. J. Butler, Pelham, ch. xlv.*

Ipécacuanha. *s.* [Brazilian.] Plant so called, *Cephaelis ipécacuanha*, of the natural order *Rubiaceæ*; medicinal preparation of

IRIS {INVULNERABLENESS

the same (other plants, e.g. *Ionidium* of the natural order *Violacæ*), have been named as the true *ipécacuanha*, which, indeed, they nearly approach in their characteristic ænetic properties.

Ipécacuanha is a small irregularly contorted root, rough, dense, and firm. One sort is of a dusky greyish colour on the surface, and of a paler grey when broken, brought from Peru; the other sort is a small root, resembling the former. The grey ought to be preferred, because the brown is apt to operate more roughly. *—Sir J. Hill, Materia Medica.*

The violent operation of *ipécacuanha* lies in its saline, but the saline extract is a gentle purge and diuretic by the stimulus of its salts. *—Bishop Berkeley, Siris, § 84.*

Irascibility. *s.* Propensity to anger.

The irascibility of this class of tyrants is generally exerted upon petty occasions. *—Johnson, Rambler, no. 112.*

Irascible. *adj.*

1. Having a tendency, prone to, anger; easily enraged.

The Cardinal Legates, Alba and Palestrina, disapproved by their reception in England, did not venture to appear before the more haughty and irascible Philip of France with the Pope's imperious mandate; they assumed that the truce for a year, enjoined by the Pope, would fulfil its unequal observance. *—Milman, History of Latin Christianity, b. xi. ch. viii.*

2. Partaking of the nature of anger; characterized by anger.

The irascible passions follow the temper of the heart, and the corresponding distractions the cranks of the liver. *—Sir T. Browne.*

I know more than one instance of irascible passions subdued by a vegetable diet. *—Arbuthnot, On the Nature and Choice of Aliments.*
We are born in the country surrounded with blessings and pleasures, without any occasion of exerting our irascible faculties. *—Digby, Letter to Pope.*

Ire. *s.* [Lat. *ira*; *irascor* = begin to be, be, angry; pret. part. *iratus* = angered.] Anger; rage; passionate hatred.

She lik'd not his design;
Pain would be free, but dreaded *perfidy* *ira*.
Sir P. Sidney.

For this the avenging Power employs his darts,
And empties all his quiver in our hearts;
Thus will he persevere, relentless in his ire,
Till the fair slave be render'd to her sire.
Dryden, Translation of the First Book of the Iliad, 143.

Ireful. *adj.* Angry; raging; furious.

There learn'd this mail of arms the *ireful* guise.
Fairfax.

In midst of all the dome undisturb'd sat,
And gloomy discontent and melancholy,
And madness laughing in his *ireful* mood.
Dryden, Palamon and Arcite, II. 880.

Irefully. *adv.* In an ireful manner; with ire.

[He] *irefully* enrag'd would needs to open arms.
Dryden, Palamon and Arcite, song IV.

Irenical. *adj.* [Gr. *irênês* = peace.] Pacific; desirous of peace.

How weak his temper was, his many *irenical* traits do show. *—Preface to Bishop Hall's Remains, sign. b.: 1600.*

Iridesceence. *s.* Play of colours.

(For example see next entry.)

Iridescent. *adj.* Having a play of colours; prismatic.

Anthracite is . . . bright, and often submetallic; iron-black, and frequently *iridescent*. . . This accounts for its *iridescence*. *—Dana, System of Mineralogy.*

Iridium. *s.* [see *Iris*: from its play of colours; the final *-um* shows it belongs to the same class as *Palladium, Aurum*, &c.; i.e. the class of metals.] In *Chemistry*. Elementary substance so called.

Iridium occurs with platinum in the province of Choco, in South America, and in the Ural mountains. It was first distinguished by Dr. Wollaston, who discovered that the specimens were an alloy of *iridium* and osmium. *—Dana, System of Mineralogy.*

Iris. *s.* [Lat. = rainbow.]

1. Rainbow itself, or parts of it.
Beside the solar *iris*, which God shewed unto Noah, there is another, lunar, which efficient is the moon. *—Sir T. Browne.*

When both bows appeared more distinct, I measured the breadth of the *iridescent iris*, 2 gr. 10'; and the breadth of the red, yellow, and green in the

exterior iris, was to the breadth of the same colour in the interior, *s. d. s.*—*Sir I. Newton, On Opticks.*

Figuratively.

The tawny and iris colors of minerals are owing to a thin surface film, proceeding from different sources, either from a change in the surface of the mineral or foreign incrustation.—*Dana, System of Mineralogy.*

In the spring a fuller grimace comes upon the robin's breast.

In the spring the wanton lawping gets himself another crest;

In the spring a livelier iris changes on the burnished dove;

In the spring a young man's fancy lightly turns to thoughts of love.

Tennyson, Locksley Hall.

2. In *Anatomy.* Circle round the pupil of the eye.

The iris sometimes contracts adhesions . . . whereby the motions of that membrane are lost, and blindness, to a greater or less degree, produced.—*Gregory, Theory and Practice of Medicine*, pt. v. ch. xi.

3. In *Botany.* Plants so called of the genus *Iris*; the native ones being the flower-de-luce, or corn-flag, *Iris pseud-acorus*, and the glendowes (*Iris fetidissima*).

Iris all huge, roses, and jessamine.

Irish. s. [P.] Old game so called.

The inconsistency of *Irish* fully represents the changeableness of humane occurrences, since it ever stands so flake that one malignant throw can quite ruin a never so well built game.—*Hall, Hours Valerius*: 1844.

Irishism. s. Mode of speaking used by the Irish; Hibernicism: (euphemism for *bull*, in the sense of *blunder*).

'I will be there as soon as you.' 'I will.' instead of 'I shall.' is a Scottishism. (Douce.) And an *Irishism* too.—*Reed, Note on Shakespeare's Comedy of Errors.*

Irishry. s. District occupied by Irishmen; population of Irishmen.

I knew that among the *Irishry* it was not yet clean taken away.—*Brydett, Discourse of Civil Life*, p. 157: 1800.

Irish. s. In *Medicine.* Inflammation of the iris.

The latter stages of *iritis* are attended with severe pain, aggravated towards night.—*Gregory, Theory and Practice of Medicine*, pt. v. ch. xi.

Irish. v. a. [A.S. *arg*—bud.] Annoy; vex; make impatient.

But when these petting poets in their rime Shall faint, or jest, or paint our wicked works, And cause the people know and curse our crimes, This ugly faultless tyrant lives but *irks*.

Mirror for Magistrates, p. 346.

It *irks* me to hear one thing so often.—*Milost.* Come, shall we go and kill us venison? And yet it *irks* me, the poor dappled fool, Should, in their own confines, with forked heads Have their round haunches gored.

Shakespeare, As you like it, ii. 1.

It *irks* his heart he cannot be reveng'd.
Id., *Henry VI. Part I.* l. 1. 4.
This word is used only impersonally, it *irks* me; *Mihl* pona est, it gives me pain, or, I am weary of it. Thus the authors of the *Académie* say, *Tedet*, it *irkeith*.—*Johnson.*

Irksome. adj.

1. Wearisome; tedious; troublesome; toilsome; tiresome; unpleasing.

I know also in an *irksome* bawling scold.

Shakespeare, Twelfth of the Shrews, l. 2.
Since that thou canst talk of love so well, Thy company, which erst was *irksome* to me, I will endure.

Id., *As you like it*, iii. 5.

There is nothing so *irksome* as general discourses, especially when they turn chiefly upon words.—*Addison, Spectator.*

Frequent appeals from hence have been very *irksome* to that illustrious body.—*Swift.*

2. Weary; tired. *Obsolete.*

The people then embracing titles new, *Irksome* of present, and longing for change, Amov'd soon, because they love to range.

Mirror for Magistrates, p. 352.

Irksomely. adv. In an *irksome* manner; wearily; tediously.

Our doctrine forens not error and unwillingness *irksomely* to keep it.—*Milton, Doctrines and Discipline of Divines*, l. 13.

Neither *irksomely* hating, nor fondly loving, himself.—*Burton, Works*, l. 4.

Irksomeness. s. Attribute suggested by *Irksome*; tediousness; wearisomeness.

As Castille describes it, the beginning, middle, and end of love, is nought else but sorrow, vexation, torment, *irksomeness*.—*Burton, Anatomy of Melancholy*, p. 381.

Thus was he driven to shift and change his desire from one thing to another, finding solid content in never a one of them; but, after some such experience, great *irksomeness* in them all.—*Fotherby, Athanasia*, p. 210.

The *irksomeness* of that truth, which they brought, was so unpleasant to them, that every where they call it a burden.—*Milton, Reason of Church Government urged against Episcopacy*, b. ii.

Iron. s. [A.S.] Metal so called; instrument made thereof; often with a qualifying term prefixed, as, marking *iron*, box *iron*, smoothing *iron*, flat *iron*. When used, the laundress's *iron*, and the *irons* used as chains, shackles, manacles, or gyves, are the objects to which it most frequently applies. In this sense it is common in the plural. *Figuratively* it may mean *sword*, or any piercing instrument made of iron.

If he smite him with an instrument of iron, so that he die, he is a murderer.—*Numbers*, xxxv. 16. Canst thou fill his skin with barbed *irons*, or his head with fish-spears?—*Job*, xli. 7.

His feet they hurt with fetters: he was laid in *iron*.—*Psalms*, cv. 18.

Iron of a dole, doublets that laughter would bury with those that wore them, these base slaves, Ere yet the fight be done, pack up.

Shakespeare, Coriolanus, l. 5.

Put in their hands thy bruising *irons* of wrath, That they may crush down with a heavy fall

The usurping helmets of our adversaries.

Id., *Richard III.*, v. 3.

For this your locks in paper durance bound?

For this with tort'ring *irons* wreath'd around?

Pope, Rape of the Lock, canto iv.

Iron. adj.

1. Made of iron.

Get me an *iron* crow, and bring it straight Unto my cell. *Shakespeare, Romeo and Juliet*, v. 2.

First element of a compound.

A piece of stone of a dark iron grey colour, but in some parts of a ferruginous colour.—*Woodward, On Fossils.*

2. Used *metaphorically.* Harsh; stern.

Pouring forth their blood in brutish woe, That any *iron* eyes, to see it, would agree.

Spenser, Faerie Queen.

But O and virgin, that thy power Might bid the soul of Orpheus sing

Such notes as, warbled to the string, Drew *iron* tears from Pluto's cheek,

And made hell grant what love did seek.

Milton, Il Penseroso, 103.

Iron. v. a.

1. Smooth with an iron: (as, 'The linen was ironed').

2. Shackle with irons.

These men were, by the orders of the British government, seized, imprisoned, *ironed*, starved almost to death, in order to extort money from the Princess.—*Macaulay, Critical and Historical Essays, Warren Hastings.*

Ironclad. s. and adj. Vessel defended by iron-plates.

In estimating the performance of our *ironclads*, it should not be forgotten that they represent conditions of service without any precedent in former times. For privation's sake it is now necessary to

clothe our men-of-war in ponderous iron armour, and for power's sake it is indispensable to equip them with guns of enormous calibre. These weights, it was thought, might prove incompatible with the buoyancy, swiftness, and seaworthiness expected from a fighting ship in days gone by, and, indeed, it was very recently believed that a good *ironclad* must be a bad seaboat. These impressions, however, will be materially qualified by the reports now published. A squadron comprising nine of our *ironclads*, selected so as to include almost all the varieties of the fleet, has successfully kept the sea for a month during the autumnal equinox, and the ships have shown good weatherly qualities and high rates of speed.—*Times Newspaper*, Nov. 7, 1860.

Ironical. adj. Expressing one thing and meaning another; speaking by contraries.

Hercules the philosopher, out of a serious meditation of men's lives, fell a weeping; and with con-

tinual tears bewailed their misery, madness, and folly. Democritus on the other side burst out a laughing, their whole life to him seemed so ridiculous; and he was so far carried with this *ironical* passion, that the citizens of Abdera took him to be mad.—*Burton, Anatomy of Melancholy*, to the reader.

The whole court shall take itself aboard By our *ironical* confederacy.

Ben Jonson, Cynthia's Revels.

I take all your *ironical* civilities in a literal sense, and shall expect them to be literally performed.—*Swift.*

Ironing. verbal abs. Act of one who irons (especially linen).

Ironish. adj. Approaching the character of iron. *Rare.*

Some of the Royal Society did thrust a probe or little stick into a chink of the coffin, which bringing out some moisture with it, found it of an *ironish* taste.—*A. Wood, Athenæ Oxonienses*. (Ord M8.)

Ironist. s. One who speaks by contraries.

A poet, or orator, . . . would have no more to do but to send to the *ironist* for his sarcasms.—*Arbuthnot and Pope, Martinus Scribblerus.*

Socrates took the name of *ironist* from the continual humour, and ridicule, which runs through his moral discourses.—*Bishop Ward.*

Ironmenger. s. Dealer in tools, instruments, or implements of iron.

Ironmould. s. Mark or spot on linen, occasioned by the rust of iron.

Fine linen, being once stained with black ink, though it be washed several times, will retain an *ironmould* ever after.—*Junius, Sin Stigmatised*, p. 378: 1835.

We have seen arms, the *ironmould* that stained our religion, and eat out order and laws.—*Spencer, Rights of the Poor*, p. 37: 1800.

Ironside. s. and adj. Having a side of, or really, approximately, or figuratively, as hard as iron: (Edmund *Ironside* was an Anglo-Saxon king so named; the *Ironsides* was the name given to Cromwell's regiment).

Irony. adj. Made of iron; partaking of iron. *Rare.*

The force they are under is real, and that of their fate but imaginary: it is not strange if the *irony* chains have more solidity than the contemplative.—*Hammond, On Fundamentalism.*

Some springs of Hungary, highly impregnated with vitriolick salts, dissolve the body of one metal, suppose iron, put into the spring; and deposit in lieu of the *irony* particles carried off, coppery particles.—*Woodward, On Fossils.*

Irony. s. [Gr. *ironia*.] See extract from Whately.

He speaks it by an *ironic* or skorne.—*Bishop Gardiner, On the Sacrament*, fol. 22: 1551.

So grave a body, upon so solemn an occasion, should not deal in *irony*, or explain their meaning by contraries.—*Swift.*

Aristotle mentions, though very briefly, these two modes of rousing the feelings, the latter under the name of *ironia*, which in his time was commonly employed to signify, not according to the modern use of '*irony*,' saying 'the contrary to what is meant,' but, what later writers usually express by *litotes*, i. e. saying less than is meant. The two methods may often be both used on the same occasion, beginning with the calm, and proceeding to the impassioned, afterwards, when the feelings of the hearers are already wrought up to a certain pitch. Universally, indeed, it is a fault carefully to be avoided, to express feelings more vehemently than that the audience can go along with the speaker; who would, in that case, as Cicero observes, seem like one raving among the sane, or intoxicated in the midst of the sober. And accordingly, except where from extraneous causes the audience are already in an excited state, we must carry them forward gradually, and allow time for the fire to kindle. The kind which would lighten a stormy flame, would, if applied too soon, extinguish the first faint spark. The speech of Antony over Caesar's corpse, which has been already mentioned, affords an admirable example of that combination of the two methods which has just been spoken of.—*Archbishop Whately, Elements of Rhetoric*, pt. ii. ch. ii. § 5.

Irony. adj. Angry; passionate. *Obsolete.*

This Naman *Irony*, So fit, and so *irony*. *Shelton, Poems*, p. 174.

'Tis but an ill essay of reverence and godly fear to use the gospel *irreverently*. — *Dr. H. More, Government of the Tongue.*

Irreversible. adj. Incapable of being reversed, recalled, or undone; not to be changed.

It is *irreversible*, it cannot be revoked. — *South, Sermons*, vii. 352.

The sins of his chamber and his closet shall be produced before men and angels, and an eternal *irreversible* sentence be pronounced. — *Rogers.*

Irreversibility. s. Attribute suggested by Irreversible; state of being irreversible.

A precedent of the *irreversibility* of oaths. — *Blackburn, History of the Bible*, b. v. ch. ii.

Irreversibly. adv. In an irreversible manner; without change.

The title of fundamentals, being ordinarily confined to the doctrines of faith, hath occasioned that great wound in the church, at which so many minds of well-disposed have stumbled, and fallen *irreversibly*, by conceiving heaven a reward of true opinions. — *Mammond, On Fundamentals.*

Irrevocable. adj. Incapable of being revoked or recalled; not to be brought back; not to be reversed.

Firm and *irrevocable* is my doom, Which I have put upon her.

Shakespeare, *As you like it*, l. 3.
That which is past is gone and *irrevocable*, therefore they do but trifle that labour in past matters. — *Bacon, Essays.*

By her *irrevocable* fate
War shall the country waste and change the state.

Dryden, Translation of the Æneid, vii. 119.
The other victor flung a moment's blood,
Then fell, and lifeless left his extinguish'd wood;
For ever lost, the *irrevocable* light
Forsook the black'ning coals, and sunk to night.

Id., Palamon and Arcite, iii. 254.
Each merited account bears eternal weight,
And each *irrevocable* word is fate.

Pope, Translation of the Æneid of Statius.

Irrevocably. adv. In an irrevocable manner; without recall.

If we were kept out four or five minutes, the fire would be *irrevocably* extinguished. — *Boyle.*

Irrevolvable. adj. [Lat. *colubilis*, from *volvo* = roll.] Incapable of being revolved. *Rare.*

Pressing the dateless and *irrevolvable* circle of eternity. — *Milton, Of Reformation in England*, l. ii.

Irrigate. v. a. [Lat. *irrigatus*; pass. part. of *irrigo*; *irrigatio*, -*onis*; adjective, *irriguus*.] *Wet; moisten; water.

It hath certain glands, . . . which by their viscous moisture do *irrigate*, and as it were oil, the pipe; that it takes off the harshness that otherwise would be found, and adds much sweetness and pleasantness to the music. — *Smith, Portrait of Old Age*, p. 13.

The heart, which is one of the principal parts of the body, doth continually *irrigate*, nourish, keep hot, and supply all the members. — *Ray, Wisdom of God manifested in the Works of the Creation.*

Irrigation. s. Act of watering; state of being watered; moistening.

Help of ground is by watering and *irrigation*. — *Bacon.*

Fomentations, *irrigations*, . . . prescribed for the head. — *Burton, Anatomy of Melancholy*, p. 402.

In April, and the spring time, his lordship (lord Bacon) would, when it rained, take his coach (open) to receive the benefit of *irrigation*, which, he was wont to say, was very wholesome, because of the nitre in the air. — *Aubrey, A New Decade*, li. 225.

Used metaphorically.

That every of us fructify in some proportion answerable to our *irrigation*. — *Hammond, Works*, iv. 374.

I wish it may also flow in spiritual blessings; and doubt not but that, by the *irrigation* rather than

inundation of this flood; they shall encrease in them. — *Harrington, Brief View of the State of the Church of England*, p. 208.

Irriuous. adj.

1. Watery; watered. *

The flowery lap

Of some *irriuous* valley spread her store.

Milton, Paradise Lost, iv. 234.

Whether to spread

Brown as a lake, or, as a river bend

By fringed banks, wave its *irriuous* way

Through lawn and shade alternate.

Manna, English Garden, l. 122.

2. Falling as dews. *Latinism.*

Rash Epheor

Dry'd an immeasurable low, and thought

To exalt his spirit by *irriuous* sleep.

Imprudent! him death's iron sleep oppress.

J. Philips, Cyder, b. ii.

Irrision. s. [Lat. *ridere* = laugh; pass. part. of *risus*; substantives, *risus*, *risio*, -*onis*.] Act of laughing at another; act of mocking. *Rare.*

They are printed deeper than can be blotted out with all their artificial and forced *irrisious*. — *Forthby, Athanasian*, p. 121: 1822.

By way of sarcasm and *irrisio*. — *Gregory, Doctrine of the Christian Trist*, p. 6.

Hann, by his indeliberate and unmannerly *irrisio*, and exposing of his father, incurs his curse. — *Woodward.*

Irritability. s. Capability of being irritated.

a. Mentally, or morally.

b. Physically: (applied to certain tissues, both animal and vegetable, in respect to their action under a stimulus).

Irritability [is] a power or property of organized bodies of being acted upon by stimuli, so as to give rise to movements, manifested chiefly by muscular or fibrous tissues. This very important and generally diffused property of animal bodies was first investigated by Dr. Galvani. He applied the term '*irritability*' to all the sensible and insensible movements of animals. . . . Haller and his disciples, with Fontana, Meissner, Bichat and others, considered *irritability* to be, in general, inherent in the muscular fibre, altogether independent of nervous influences. . . . On the other hand, Whist, Monro, Uvner, Præschka, Legallès, &c. regarded the nervous power as the principle upon which all muscular contractions depend, and consequently *irritability* to be communicated to the muscles by the nerves. . . . Very recently Virchow has published his own views on this subject. According to him, *irritability* is a property and criterion of every living cell and cell-derivate, and does not belong merely to nervous or muscular tissues. Every cell can be impelled to certain actions by influences which may operate upon it, either from other parts or elements of the same organism, or from bodies entirely foreign. The *irritating* power may reach the cells through nerves, through vessels, or through adjoining parts. Every *irritation* produces in the cellular elements some mechanical or chemical change, which changes is a counter-working against the *irritative* cause, a reaction against an action working from without. — *Copland, Dictionary of Practical Medicine.*

Irritable. adj. Easily provoked.

He was *irritable* and resentful. — *Johnson, Lives of the Poets*, *Pope*, (Ord MS.)

Used substantively.

Thine who will determine from the gravity of the case; the *irritable*, from their sensibility to oppression. — *Burke.*

Irritant. adj. [from Lat. *irritus* = frustrate, the; being short; in -not; *ratius* = ratified.] Rendering void. *Rare*, *barbarous*.

This states elected Henry duke of Anjou for their king, with this clause *irritant*; that if he did violate any part of his oath, the people should owe him no allegiance. — *Sir J. Hayward, Answer to Tolman*, ch. v. 1605.

Irritant. adj. Producing irritation. See next entry.

Irritant. s. That which produces irritation: (in *Medicine*, applied to the classification of poisons which are *irritant*, narcotic, and the like).

Many of the Ranunculaceae are *irritant* poisons. . . . Clonidine is one of the best known *irritants* of this class. — *Lindley, Vegetable Kingdom*.

Irritate. v. a. [Lat. *irritatus*, pass. part. of *irrito*; pres. part. *irritans*, -*antis*; *irritatio*, -*onis*.]

1. Provoke; tense; exasperate.

The earl, speaking to the irrevocable in impetuous language, did not *irritate* the people. — *Bacon, History of the Reign of Henry VII.*

Land's power at court could not qualify him to go through with that difficult reformation, whilst he had a superior in the church, who, having the reins in his hand, could alacken them, and was thought to be the more revenged to irritate his choleric disposition.—*Lord Clarendon, History of the Grand Rebellion.*

2. Fret; put into motion or disorder by any irregular or unaccustomed contact; stimulate; velleitate.

Cold maketh the spirits vigorous, and irritateth them.—*Bacon.*

3. Heighten; agitate; enforce.

Air, if very cold, irritateth the flame, and maketh it burn more fiercely, as fire scorseth in frosty weather.—*Bacon.*

Irritate. *adj.* Heightened. *Rare.*

When they are collected, the heat becomes more violent and irritate, and thereby expelleth sweat.—*Bacon, Natural and Experimental History.*

Irritate. *v. a.* Render null or void. *Obsolete.*

If any thing should come to pass otherwise than it doth, yet God's foreknowledge could not be irritated by it, for then he did not know that it should come to pass as it doth.—*Archbishop Bramhall, Works, p. 727.*

Irritating. *part. adj.* Causing irritation.

(For example see Irritability.)

Irritation. *s.* Provocation; exasperation; stimulation.

Violent affections and irritations of the nerves I any part of the body is caused by something acrimonious.—*Arbuthnot.*

Next to inflammation, the morbid condition to which the term *irritation* has been applied is the most important both to the pathologist and to the rational physician. Notwithstanding this, the term has been vaguely employed; and the existence of the morbid states, which it has been used to designate, has been as loosely inferred. The varying characters, also, of *irritation* with the tissue or part primarily or chiefly affected, and with lesions of adjoining or of functionally associated parts, and the superinduction of other morbid changes, more particularly of increased exhalation, secretion, and inflammatory action, have given rise to much perplexity, in respect not only of the meaning attached to the word, but also of attempts of ascertaining its existence, seat, and extent. Hitherto *irritation*, as a primary morbid condition, has been inferred more frequently from the absence during disease of more manifest alterations, than from any positive proof of its presence; and to it have been referred by many, those disorders and maladies which could not be imputed to any more palpable lesion.—*Copland, Dictionary of Practical Medicine.*

Irritative. *adj.* Having a tendency to irritate.

(For example see Irritability.)

Irritatory. *adj.* Causing irritation.

The other peradventure is sufficiently grounded for principles of faith, yet is weak by reason either of some pedantry, or of some irritatory and troublesome humour in his behaviour.—*Hales, Golden Remains, p. 45.*

Nothing hinders wounds from cleaving more than concourse of humour to the diseased part, and keeping things irritatory about the orifice of the wound.—*Ibid. p. 255.*

Erration. *s.* [Lat. *ror, roris* = dew.] Bedewing. *Rare.*

If during the discharge the *erration* should be interrupted, the portion of eyes then excluded will be barren, while the rest will be found to have been fructified.—*Translation of Spallanzani's Dissections. (Ord MS.)*

Erraption. *s.* [Lat. *rumpo* = break; pret. *rups*; pass. part. *ruptus*; *raptio*, -onis.]

1. Act of forcing an entrance.

How doth the water rage with his inundations, *irruptions*, flinging down towns, cities, villages, bridges, boulder shipwrecks!—*Burton, Anatomy of Melancholy, p. 4.*

2. Inroad; burst of invaders into any place.

Five or six weeks before my lord's fatal *irruption* into the city.—*Sir H. Wotton, Remains, p. 180.*

The famous wall of China, built against the *irruptions* of the Tartars, was broken above a hundred years before the Incarnation.—*Sir T. Brown, Miscellaneous, p. 180.*

Notwithstanding the *irruptions* of the barbarous nations, one can scarce imagine how so plentiful a soil should become so miserably unpeopled.—*Adelphi Travels in Italy.*

Erraptive. *adj.* Bursting forth; rushing down or in.

One's teeth fears his soul aflight,
And storms of wrath and indignation dread
Seem ready to disgorge *erraptive* on his head.
—*Whitman, Poems, Ode to Justice: 1791.*

Is. See *Be.*

He that is of God, heareth God's words.—*John, viii. 47.*

Be not afraid of them, for they cannot do evil; neither also is it in them to do good.—*Jeremiah, x. 8.*
My thought, whose murder yet is but fantastical,
Shakes so my single state of man, that function
Is smother'd in surmise; and nothing is,
But what is not.—*Shakespeare, Macbeth, i. 3.*

In an *elliptical* form.

There's some among you have beheld me fighting.
—*Shakespeare, Coriolanus, iii. 1.*

Isagogical. *adj.* [Gr. *isagōgikos*, from *is* = into, and *agō* = lead.] Introductory; belonging to an introduction.

I will make further relation
Of this *isagogical* collation. *Skelton, Poems, p. 162.*
Bealiger was bold to call him *Merodach*; but he repented of that in his cautions *isagogical*.—*Gregory, Penthema, p. 247; 1650.*

Ischiatic. *adj.* In Anatomy. Same as Sciatic.

Ischuria. *s.* [Gr. *ischuria*, from *isch* = restrain + *our* = urine; a medical term sometimes Anglicized into *ischury*.] Retention of urine.

Ischuria renalis is . . . a disease in which the functions of the kidney are suspended, and the urine is retained in the blood.—*Gregory, Theory and Practice of Medicine, p. 14, ch. xii.*

Isinglass. *s.* [German, *blase* = bladder.] Swimming bladder of the sturgeon; gelatinous and semi-transparent, whence its (catachrestic) connection with *glass*. The true meaning of the word is the (swimming) bladder of the Acipenser *huxo*.

The cure of putrefaction requires an increasing diet, as all which broths, hartshorn, ivory, and *isinglass*.—*Sir J. Floyer.*

Some make it clear by reiterated fermentations, and others by additions, as *isinglass*.—*Mortimer, Husbandry.*

Isinglass is a tough, firm, and light substance, of a whitish colour, and in some degree transparent, much resembling glue. The fish from which *isinglass* is prepared, is one of the cartilaginous kind: it grows to eighteen and twenty feet in length, and greatly resembles the sturgeon. It is frequent in the Danube, the Boristhenes, the Volga, and the larger rivers of Europe. From the intestines of this fish the *isinglass* is prepared by boiling.—*Sir J. Hill, Materia Medica.*

Used adjectively. In Mineralogy. See extract and *Mica*.

Isinglass stone [is] a fossil which is one of the purest and simplest of the natural bodies. The masses are of a brownish or reddish colour; but when the plates are separated, they are perfectly colourless, and more bright and polished than the finest glass. It is found in Moscow, Persia, the island of Cyprus, in the Alps and Apennines, and the mountains of Germany.—*Sir J. Hill, Materia Medica.*

Islam, Islamism. *s.* Mahometanism.

States have their respective policies, on which they move forward, and which are the conditions of their well-being. Thus it is sometimes said that the true policy of the American Union, or the law of its prosperity, is not the enlargement of its territory, but the cultivation of its internal resources. Thus Russia is said to be weak in attack, strong in defence, and to grow, not by the sword, but by diplomacy. Thus *Islamism* is said to be the form or life of the Ottoman, and Protestantism of the British empire; and the admission of European ideas into the one, or of Catholic ideas into the other, to be the destruction of the respective conditions of their power.—*J. H. Newman, Essay on the Development of Christian Doctrines.*

Island. *s.* Tract of land surrounded by water.

He will carry this *island* home in his pocket, and give it his son for an apple. . . . And sowing the kernels of it in the sea, bring forth more *islands*.—*Shakespeare, Tempest, ii. 1.*

Within a lone recess there lies a bay:
An *island* shades it from the rolling sea.

Dryden, Translation of the Æneid, l. 229.

Islander. *s.* Inhabitant of a country surrounded by water.

We, as all *islanders*, are lunatics, or the moon's men.—*Chambers.*

Your dinner, and the generous *islanders*
By you invited, do attend your presence.

Shakespeare, Othello, iii. 3.

There are many bitter sayings against *islanders* in general, representing them as fierce, treacherous, and uncharitable: those who live on the continent have such frequent intercourse with men of different religions and languages, that they become

more kind than those who are the inhabitants of an island.—*Addison, Freeholder.*

Isle. *s.*

1. Island; country surrounded by water.

The instalment of this noble duke
In the seat royal of this famous *isle*.

Shakespeare, Richard III. iii. 2.

That dreadful sight
Betwixt a nation and two whales I write:
Sea stain'd with gore I sing, advent'rous toll,
And how these monsters did disarm an *isle*.

Waller.

2. Long walk in a church or public building.

O'er the twilight grove and dusky caves,
Long winding *isles* and intermingled graves,
Black Maenad's holy site. *Pope, Epics to Abolard.*

Islet. *s.* Little island.

They . . . agreed to convey themselves and their substance into the uttermost bosom of the Adriatic gulf, and there possessed certain desolate *islets*, by tradition, about twenty in number.—*Sir H. Wotton, Remains, p. 251.*

Is- Prefix in Composition, from Greek *is* = equal. Common in scientific language, some of the compounds into which it enters being taken from the Greek direct; some coined out of Greek elements for the occasion.

Isochrome. *adj.* [Gr. *χρῶμα* = skin, complexion, color.] Having the same, or equivalent, colours.

The two curves or lines . . . are called *isochromatic*.—*Brande and Cox, Dictionary of Science, Literature, and Art.*

Isochronal. *adj.* Same as *Isochronous*.

The *isochronal* velocities describing the particles of M.N.—*Hishop Berkeley, Analyst, § 4.*

Ischronism. *s.* Equality in point of time: (applied chiefly in Mechanics).

The *ischronism* of the common pendulum is imperfect, but that of the cycloidal pendulum is theoretically perfect. *Brande and Cox, Dictionary of Science, Literature, and Art.*

Ischronous. *adj.* [Gr. *χρῶμα* = time.] Having equal times.

The tribrach and iambic are *isochronous*.—*Seale, Greek Metres.*

Isotelial. *adj.* See *Extract*.

Isotelial lines [are] those which pass through places where the magnetic dip or inclination is the same. *Brande and Cox, Dictionary of Science, Literature, and Art.*

Isognonic. *adj.* [Gr. *γωνία* = angle.] See *extract*.

Isognonic lines in terrestrial magnetism [are] lines passing through all places at the surface of the earth, at which the horizontal magnetic needle makes the same angle with the meridian, or at which the declination is the same. *Brande and Cox, Dictionary of Science, Literature, and Art.*

Isolate. *v. a.* [Lat. *solver* = alone; the word is condemned by Todd, and it is doubtless exceptionable, owing to a confusion with *insulate*, from Lat. *insula* (Italian, *isola*) = island.] Detach; separate.

The immediate results of the late war and peace, as we learn from the Emperor Napoleon, have been to break up old alliances, and *isolate* every European community.—*Times Newspaper, Nov. 12, 1866.*

Isolated. *part. adj.* Detached; separate.

Short, *isolated* sentences were the mode in which ancient wisdom delighted to convey its precepts for the regulation of human conduct.—*Bishop Warburton, Doctrine of Grace, prof.*

Isolation. *s.* Isolated condition.

Peter Abélard was a Breton. . . . In him were concentrated the characteristics of that race . . . the individuality, which delighted in *isolation* from the rest of mankind, the quietude and fertility which were speedily fostered into a passion for disputation. *Milman, History of Latin Christianity, b. viii. ch. v.*

Isopartite. *adj.* [Gr. *μῆς* = part.] See *extract*.

Compounds which contain the same elements in the same ratio, yet exhibit distinct chemical qualities, are said to be *isomeric*.—*Brande and Cox, Dictionary of Science, Literature, and Art.*

Isomerism. *s.* In Compounds. Condition of isomeric compounds.

Silicon, too, is allotropic; while its oxide, silica, which is an indispensable constituent of many lower organisms, exhibits the analogue of allotropism—*isomerism*. And even of the iron which plays an active part in higher organisms, and a passive part in some lower ones, it may be said that though not known to be itself allotropic, yet *isomerism* is

terizes these compounds of it that are found in living bodies.—*Herbert Spencer, Data of Biology*, ch. i. § 1.

Isomericus. adj. In Botany. See extract.

Symmetrical flowers may be either *dimerous*, *trimerous*, or *pentamerous* throughout; and when the organs are equal in all the circles, the flowers are *isomericus*; we have *isomericus dimerous* flowers in *Citrus* and *Syringa*; *isomericus pentamerous* flowers in *Cranium*... but, generally speaking, one or the other of the whorls exhibits partial impression.—*Henfrey, Elementary Course of Botany*, p. vi.

Isomorphism. s. [Gr. *isomorphos* = form.] In Chemistry. See extract.

We will not quit the subject, however, without noticing the much more promising aspect which it has assumed by the detection of such groups as are referred to in the last article; or in other words, by Mitscherlich's discovery of *isomorphism*. According to that discovery, there are various elements which may take the place of each other in crystalline bodies, either without any alteration of the crystalline form, or at most with only a slight alteration of its dimensions. Such a group of elements we have in the earths lime and magnesia, the phosphates of iron and manganese; for the carbonates of all these bases occur crystallized in forms of the rhombohedral system, the characteristic angle being nearly the same in all. Now lime and magnesia, by the discovery of modern chemistry, are really oxides of metals; and therefore all these carbonates have a similar chemical constitution, while they have also a similar crystalline form.—*Whewell, History of Scientific Ideas*.

Isopolity. s. [Gr. *isopolis* = polity.] Equality of political rights.

The constitution of a provincial city of the empire, in the days when the republic still possessed virtue and principle, was of this description, at all events from the times of the Social, Punic, or Italian war, when the cities of Italy wrested *isopolity*, or at least *isopolity*, from Rome.—*Kemble, The Saxons in England*, b. ii. ch. vii.

Isosceles. s. [Gr. *isos* = leg.] Triangular figure of which two sides are equal: (commonly adjectival, as, 'isosceles triangle').

Isotermal. s. [Gr. *isothermos* = warm.] In Physical Geography. Having equal degrees of heat.

From the want of uniformity of the surface of the globe, the *isothermal* lines, i.e. lines passing through spots which have an equal annual temperature, by no means correspond to parallels of latitude; the distribution of land and sea, and the alternation of plains and mountains, deflecting such lines to the north and south, sometimes to an excessive extent.—*Henfrey, Elementary Course of Botany*.

Issuable. adj. So as to bring to issue or decision.

If a prisoner shall stand as contumacious in contempt, and shall not put in an *issuable* plea, guilty or not guilty of the charge given against him, whereby he may come to a fair trial; that, as by an implicit confession may be taken 'pro confesso'.—*Narrative of the Trial of King Charles I.* Jan. 25, 1649, p. 4. Military and Trinity terms, from the making up of the issues therein, are usually called *issuable* terms.—*Sir W. Blackstone*.

Issue. s. [Fr.]

1. Act of passing out; exit; egress; passage out.

Let us examine what bodies touch a movable wheel in motion, as the only means to find an *issue* out of this difficulty.—*Sir A. Digby, Treatise on the Nature of Bodies*.

We might have easily prevented those great returns of money to France; and if it be true the French are so impoverished, in what condition must they have been if that *issue* of wealth had been stopped?—*Swift*.

2. Event; consequence.

Spirits are not finely touch'd,

But to fine *issues*.—*Shakespeare, Measure for Measure*, I. 1.

To do a thing, where I the *issue* doubted, Whereof the execution did dry out Against the non-performance, 'twas a fear Which oft infects the wisest.—*Id., Winter's Tale*, I. 2.

But let the *issue* correspondent prove To good beginnings of each enterprise. Fairfax.

If things were cast upon this *issue*, that God should never prevent sin till man deserved it, the best would sin, and sin for ever.—*South, Sermons*.

3. Termination; conclusion.

He hath preserved Argalus alive, under pretence of having him publicly executed after three wars, of which they hope for a soon and prosperous *issue*.—*Sir P. Sidney*.

What *issue* of my love remain'd for me! How wild a passion works within my breast! With what prodigious flames am I possess'd!—*Dryden*.

When, in the year 1700, some bold men in the government proposed that the streets of Madrid should be cleaned, so daring a suggestion excited general anger. Not only the vulgar, but even those who were called educated, were loud in their censure. The medical profession, as the guardians of the public health, were desired, by the government, to give their opinion. As they had no difficulty in doing, they had no doubt that the dirt ought to remain. To remove it was a new experiment; and of new experiments it was impossible to foresee the *issue*. Their fathers having lived in the midst of it, why should not they do the same? Their fathers were wise men, and must have had good reasons for their conduct.—*Buckle, History of Civilization in England*.

4. Sequel deduced from premises.

I am to pray you not to strain my speech To grower *issues*, nor to larger reach, Than to suspicion.—*Shakespeare, Othello*, III. 3.

5. Progeny; offspring.

O nation miserable! Since that the trust *issue* of thy throne, By his own interdictio stands accurst.—*Shakespeare, Macbeth*, IV. 3.

This old peaceful prince, as Ilav'n decreed, Was bless'd with no male *issue* to succeed.—*Dryden, Translation of the Æneid*, vii. 74.

The frequent productions of monsters, in all the species of animals, and strange *issues* of human birth, carry with them difficulties, not possible to consist with this hypothesis.—*Locke*.

6. Fontanel; vent made in a muscle for the discharge of humours.

This tumour in his left arm was caused by strict binding of his *issue*.—*Wicam*.

7. Morbid discharge from the body.

A woman, which was diseased with an *issue* of blood twelve years, came behind him.—*Matthew*, ix. 20.

8. In Law. See extract.

Issue hath divers applications in the common law: sometimes used for the children begotten between a man and his wife; sometimes for profits growing from an amercement, fine, or expense of suit; sometimes for profits of lands or tenements; sometimes for that point of matter depending in suit, whereupon the parties join and put their cause to the trial of the jury. *Issue* is either general or special; general *issue* amount to be that whereby it is referred to the jury to bring in their verdict, whether the defendant have done any such thing as the plaintiff layeth to his charge. The special *issue* then must be that, where special matter being alleged by the defendant for his defence, both the parties join thereupon and so grow rather to a demurrer, if it be quæsto iuri, or to trial by the jury, if it be quæsto facti.—*Covent*.

Issue. v. n. [N.Fr. *issir*; Ital. *uscire*, from Lat. *exire* = go out.]

1. Come out; pass out of any place.

Ere Pallas *issu'd* from the thunderer's head, Dulness o'er all possess'd her ancient right.—*Pope, Dunciad*, I. 8.

With out.

Waters *issu'd* out from under the threshold of the house.—*Revelation*, xlii. 1. From the uttermost end of the head branches there *issueth* out a gummy juice.—*Sir W. Raleigh, History of the World*.

2. Make an eruption; break out.

Three of master Ford's brothers watch the door with pistols, that none should *issue* out, otherwise you might all go away.—*Shakespeare, Merry Wives of Windsor*, IV. 2.

Haste, arm your Ardenns *issue* to the plain; With high to friend, assault the Trojan train.—*Dryden, Translation of the Æneid*, vii. 601.

3. Proceed as an offspring; be produced from.

Of thy sons that shall *issue* from thee, which thou shalt begot, shall they take away.—*2 Kings*, ix. 14.

Issue. v. a.

1. Send out; send forth.

A weak degree of heat is not able either to digest the parts or to *issue* the spirits.—*Bacon, Natural and Experimental History*.

The commissioners should *issue* money out to no other use.—*Sir W. Temple*.

2. Send out judicially or authoritatively: (with out or forth).

If the council *issu'd* out any order against them, or if the king sent a proclamation for their repair to their houses, some nobleman published a provocation.—*Lord Clarendon, History of the Grand Rebellion*.

Deep in a rocky cave he makes abode, A mansion proper for a morning god; Here he gives audience, *issu'd* out decrees To rivers, his dependent deities.—*Dryden*.

They constantly wait in court to make a due return of what they have done, and to receive such other commands as the judge shall *issue* forth.—*Ayliffe, Paragon Juris Civilis*.

Issueless. adj. Having no offspring; wanting descendants.

I have done sin: For which the Heav'n's *issuing* angry note, Have let me *issueless*.—*Shakespeare, Winter's Tale*, v. 1.

Carow, by virtue of this entail, succeeded to Hugh's portion, and dying *issueless*.—*Carow, Survey of Cornwall*.

Issuing. verbal abs. Act of passing or going out.

By some others asserted, and interpreted as *issuing* forth or sallies of zeal.—*Whitlock, Observations on the present Manners of the English*, p. 300.

Isthmus. s. [Lat.] Neck of land joining a peninsula to a continent.

There is a castle strongly seated on a high rock, which joineth by an *isthmus* to the land, and is impregnable fortified.—*G. Sander, Travels*. O life, that nothing's younger brother! That weak built *isthmus*, that do'st proudly rise I'll beat with two elements, Yet can't not wave nor wind sustain; But broken and o'erwhelm'd the ocean meets again.—*Cowley*.

Had'st on this *isthmus* of a middle state, A being darkly wise, and rudely great.—*Pope, Essay on Man*, II. 3.

It. pron. [A.S. *hit*. Observe the initial *h*: this shows its connexion with *he*, of which it is simply the neuter gender, and as such, in strict lexicography, a word that has no claim to a separate and independent entry. The Anglo-Saxon inflexion was *he*, *hit*, *hit* = he, she (how provincially), *it*, in the nominative; and *his*, *hir*, *his* = his, her, its, in the possessive, or genitive, case. As a sign of gender, the *t* is the *-t* in *what* and *that*. The irregular character of the present genitive *its*, which scarcely became thoroughly prevalent before the time of Charles II., is now manifest. It has its sign of case superadded to its sign of gender; just as if we said *whom* for *whose*.]

1. Pronoun of the third person, as applied to objects without sex, i.e. to things, or to persons treated as things.

Nothing can give that to another which it hath not itself.—*Archbishop Bramhall, Answer to Hobbes*.

A mind so furnished, what reason has it to acquiesce in its conclusions?—*Locke*.

The glory which encompassed them covered the place, and darted its rays with so much strength, that the whole fabric began to melt.—*Addison, Freeholder*.

2. Used absolutely for the state of a person or affair.

Now is it with our general?—*Even so* As with a man by his own alms impenetrated, And with his charity slain.—*Shakespeare, Coriolanus*, v. 3.

It's come to pass, That tractable obedience is a slave To each increased will.—*Id., Henry VIII.* I. 2. The design, it seems, is to avoid the dreadful imputation of pedantry.—*Swift*.

3. After *neuter* or *intransitive* verbs (as an expletive), to which it gives the appearance of being *active* or *transitive*.

If Abraham brought all with him, it is not probable that he meant to walk back again for his pleasure.—*Sir W. Raleigh*.

The Lacedæmonians, at the straits of Thermopylæ, when their arms failed them, fought it out with their nails and teeth.—*Dryden*. I have often seen people lavish it profusely in tricking up their children, and yet starve their minds.—*Locke*.

This mole crouches it not on the ground, like the rat or mouse, but lives under the earth.—*Addison, Spectator*.

Whether the charmer sinner it, or saint it, If folly grows romantic, I must point it.—*Pope, Moral Essays*, II. 15.

4. Applied familiarly, ludicrously, or rudely to persons.

Let us after him, Whose care is gone before to bid us welcome: It is juster kinship.—*Shakespeare, Macbeth*, I. 4. There with a self-complacent jutting air, It smiled, it smirked, it wriggled to the chair.—*Churchill, Rosciad*.

5. For *its*. *Ludicrous*.

Do, child, go to thy grandam, child: Give grandam king's-wood, and thy grandam will Give it a plum.—*Shakespeare, King John*, II. 1.

6. With the *i* omitted.

Who was't came by!—
'Tis two or three, my lord, that bring you word
Macduff is fled to England.
—*Shakespeare, Macbeth*, iv. 1.
City.

'Tis I, that made thy widows.
—*Id., Coriolanus*, iv. 4.

'Tis these that early taint the funeral soul. — *Pope*.
Italianate. *v. a.* Make Italian; render comfortable to Italian custom or fashion.

Rare.

Another chaps in with English *italianated*, and applott the Italian phrase to our English speak-
yngs—*Wilson, Arte of Rhetorike*, B. 3, 1553.
Our Englishmen *italianated* have more in reverence the Triumphs of Petrarche than the Geneas of Moyses.—*Ascham, Scho Inuader*, 1590.

Italianated. *part. adj.* Conformed to Italian fashion. **Rare**.

Our *italianated* mountebanks seek to salve it.—
Denn King, N-gnos on the 15th of November, p. 31.
1608.

Itallo. *adj.* and **Itallo**. *s.* Terms applied in *Printing* to letters in a cursive, as opposed to the ordinary, or Roman, form.

Itallian. *v. a.* Distinguish a word by printing it in the Italic character.

In page 17 of his pamphlet the doctor has printed, but not *italicized*, another inaccuracy.—*Dr. Parr, On Dr. Combe's Statement*, p. 78.

Itch. *s.* [A.S. *giccha*.]

1. In *Medicine*. Disease so called: (for the insect, or Hand worm, connected with it, see extract from Gregory).

The Lord will smite thee... with the scab and with the *itch*, whereof thou canst not be healed.—
Deuteronomy, xxvii, 27.

As if devilily had catch'd

The *itch*, on purpose, to be scratch'd.
—*Bulter, Hudibras*.

Used adjectively.

A notion very early prevailed that this disease was connected with the presence of animals. . . . The *itch* insect was first accurately described by Bonomo in 1683, and is now called the *Acarus scabiei*.—*Gregory, Theory and Practice of Medicine*, pt. v. ch. vi.

2. Constant teasing desire.

He had still pedgore in his head, and an *itch* of being thought a divine king.—*Dryden*.
At half mankind when generous Mauly raves,
All know 'tis virtue; for he thinks them knaves:
When universal homage Umbra pays,
All see 'tis vice, and *itch* of vulgar praise.
—*Pope, Moral Essays*, l. 57.

Itch. *v. n.*

1. Have a tickling sensation in the skin.

My right eye *itches*; some good luck is near;
Perhaps my Amargillis may appear.
—*Dryden*.

2. Long; have continual desire or tendency.

Master Shallow, you have yourself been a great fighter, though now a man of peace.—*Mr. Fagot*, though now I be old, and of peace, if I see a sword out, my finger *itches* to make one.—*Shakespeare, Merry Wives of Windsor*, ii. 3.

itching. *part. adj.* Tingling after the manner of the *itch*.

Cassius, you yourself
Are much condemn'd to have an *itching* palm,
To sell and mart your officers for gold.

—*Shakespeare, Julius Caesar*, iv. 3.
The *itching* ears, being an epidemic disease, give fair opportunity to every mountebank.—*Dr. II. More, Decay of Christian Piety*.

itching. *verbal gbs.*

A troublesome *itching* of the part was occasioned by want of transpiration.—*Wiseman, Surgery*.

1300

2. Teasing desire.

All fools have still an *itching* to deride,
And vain would be upon the laughing side.
—*Pope, Essay on Criticism*, l. 22.

itchy. *adj.*

1. Infected with the *itch*.

This man, that is alone a king in his desire,
By no proud ignorant lord is basely overaw'd.
Nor his false praise affects, who, grossly being claw'd
Stands like an *itchy* moyle.
—*Drayton, Polyolbion*, song xiii.

2. Having a constant teasing desire; prurient.

The hydropick drunkard, and night-scouring thief,
The *itchy* lecher, and self-tickling proud.

—*Donne, Pious*, p. 318.

item. *adv.* [Lat.] Also; furthermore: (used in making lists or inventories, where it is applied to each additional article).

Item, also hath no teeth.—I care not for that neither, because I love crinoids.—*Shakespeare, Two Gentlemen of Verona*, iii. 2.

item. *s.* Article, or detail, note thereof; particular memorandum.

I could have looked on him without the help of admiration, though the catalogue of his endowments had been tailed by his side, and I to pursue him by it.—*Shakespeare, Cymbeline*, l. 6.

All these *items* added together form a vast sum of discontent.—*Murray, Stuart House*, vol. i. ch. xviii.

item. *v. a.* Note as an item.

I have always taken your part before my lady.—
You have so, and I have *item'd* it in my memory.—
Astorian, The Drummer.

iterable. *adj.* Capable of being repeated.

Rare.

Others may wonder how the curiosity of elder times, having this opportunity of his [Apollo's] answers, omitted natural questions; or how the old magicians discovered so much philosophy; and, if they had the assistance of spirits, could not content with the bare assertions of things, without the knowledge of their causes: whereby they had made their acts *iterable* by solar banks, and a standing part of philosophy.—*Sir T. Browne, Miscellanies*, p. 178.

iterant. *adj.* Repeating. **Rare**.

Waters being near, make a current echo; but being farther off, they make an *iterant* echo.—
Baron, Natural and Experimental History.

iterate. *v. a.* [Lat. *itero*; pres. part. *iterans*, *antis*; pass. part. *iteratus*; adverb, *iterum* (generally this is translated again, a second time); its proper meaning, though not always found, even in the best writers, conveys the notion of immediate succession rather than mere repetition; Consul *iterum*—consul two years running.] Reiterate, though pleonastic, is the commoner word.

1. Repeat; utter again; inculcate by frequent mention.
We covet to make the psalms especially familiar unto all; this is the very cause why we *iterate* the psalms oftener than any other part of Scripture besides; the cause wherefore we turn the people together with their minister, and not the minister alone to read them, as other parts of Scripture he doth.—*Hooker, Ecclesiastical Polity*.

2. Do over again.

Askes burnt, and well reverberated by fire, after the salt thereof hath been drawn out by *iterated* decoctions.—*Sir T. Browne*.
Nor Eve to *iterate*
Him with her lov'd society.
—*Milton, Paradise Lost*, l. 1003.

Itinerant. *adj.* Journeying; travelling, locomotive.

(For example see Justice in Eyre).

Often used substantively.

itself. [*its + self*, with the *s* omitted, as *my-self*; or *it-self*, as *himself*.] Reflexive form of *it*.

iteration. *s.* Repetition; recital over again.

My husband I—Ay, 'twas he that told me first.

An honest man he is, and hates the time
That sticks on filthy deeds.—My husband I—
What needs this *iteration*, woman?

I say, thy husband. —*Shakespeare, Othello*, v. 2.

It is an admission which . . . may sometimes prove useful to a young preacher, that he should ask himself, at the beginning, and in the course, of his composition, 'For what purpose am I going to preach? Wherein would any one be a loser if I were to keep silence? . . . Let me not be satisfied with the thousandth *iteration* of common-places, on the ground that it is all very true, and that it is the fault of the congregation if they do not believe and practice it; for all this is equally the case whether I preach or not; and if all I say is what they not only know before, but had heard in the same trite and general statements a hundred times before, I might as well hold my peace.—*A. Robertson Whately, Elements of Rhetoric*, pt. iii. ch. iii. § 2.

ivied. *adj.* Overgrown with ivy.

Repeated objects of his view

The gloomy battlements, and ivy'd spires;

That crown the solitary dune, arise.
—*T. Warton, Pleasures of Melancholy*.

ivory. *s.* [Fr. *ivoire*; Lat. *ebur*.]

1. See extract from Hail.

Two gates the silent house of sleep adorn,
Of polish'd *ivory* this, that of transparent horn:
True visions through transparent horn arise,
Through polish'd *ivory* pass deluding lies.

—*Dryden, Translation of the Æneid*, vi. 1238.

Ivory is a hard, solid, and firm substance, of a fine white colour: it is the dense excrement of the elephant, who carries on each side of his jaws a tooth of six or seven feet in length; the two sometimes weighing three hundred and thirty pounds: these *ivory* tusks are hollow from the base to a certain height, and the cavity is filled with a compact medullary substance.—*Sir J. Hill, Materia Medica*.

2. A substance like the true ivory, supplied from the seeds of certain plants.
See extract.

Nuts suitable for turning are afforded by the seeds of *Alnus funifera* (*Coccoloba nuts*) and *Phytoclephas macrocarpa* (*vegetable ivory*).—*Hensley, Elementary Course of Botany*, p. 304.

Slang for teeth.

Take Saucy Panza's head, . . . yet leave the close-cropped bullet skull, the swarthy tint, the priming *teeth*, the porthouse ears and twinkling little eyes of the immortal governor of Haratara.—*J. A. Sala, Dutch Pictures, The Shadow of a young Dutch Painter*.

Used adjectively.

From their *ivory* port the cherubim

Forth issu'd. —*Milton, Paradise Lost*, iv. 778.

Draw Erato with a sweet and lovely countenance
bearing a heart with an *ivory* key.—*Peacham, On Drawing*.

ivy. *s.* [A.S. *ify*.] Native plant so called, of the natural order *Araliaceæ*.

Direct the clasping *ivy* where to climb.

—*Milton, Paradise Lost*, l. 217.

It [*ivy*] is a parasitic plant, sending forth roots or fibres from its branches, by which it is fastened to either trees, walls, or plants which are near it, and from thence receives a great share of its nourishment.—*Miller*.

Used adjectively.

A belt of straw, and *ivy* buds,
With coral clasps and amber studs. —*Marlowe*.
